(3) Senator Matsunaga also believed that research on other aspects of renewable energy and ocean resources, such as advanced materials, could be crucial to full development of energy storage and conversion systems; and

(4) Keahole Point, Hawaii is particularly well-suited as a site to conduct renewable energy and associated marine research.

(b) Purpose

It is the purpose of this section to establish the facilities and equipment located at Keahole Point, Hawaii as a cooperative research and development facility, to be known as the Spark M. Matsunaga Renewable Energy and Ocean Technology Center.

(c) Establishment

The facilities and equipment located at Keahole Point, Hawaii are established as the Spark M. Matsunaga Renewable Energy and Ocean Technology Center (in this section referred to as the "Center").

(d) Administration

(1) Not later than 180 days after October 24, 1992, the Secretary may authorize a cooperative agreement with a qualified research institution to administer the Center.

(2) For the purpose of paragraph (1), a qualified research institution is a research institution located in the State of Hawaii that has demonstrated competence and will be the lead organization in the State in renewable energy and ocean technologies.

(e) Activities

The Center may carry out research, development, educational, and technology transfer activities on—

(1) renewable energy;

(2) energy storage, including the production of hydrogen from renewable energy;

(3) materials applications related to energy and marine environments;

(4) other environmental and ocean research concepts, including sea ranching and global climate change; and

(5) such other matters as the Secretary may direct.

(f) Matching funds

To be eligible for Federal funds under this section, the Center must provide funding in cash or in kind from non-Federal sources for each amount provided by the Secretary.

(g) Authorization of appropriations

There is authorized to be appropriated to the Secretary for carrying out this section such sums as may be necessary, to be derived from sums authorized under section 13471(c) of this title.

(Pub. L. 102–486, title XXI, §2119, Oct. 24, 1992, 106 Stat. 3080.)

PART C—ADVANCED NUCLEAR REACTORS

§13491. Purposes and definitions

(a) Purposes

The purposes of this part are—

(1) to require the Secretary to carry out civilian nuclear programs in a way that will lead toward the commercial availability of advanced nuclear reactor technologies; and

(2) to authorize such activities to further the timely availability of advanced nuclear reactor technologies, including technologies that utilize standardized designs or exhibit passive safety features.

(b) Definitions

For purposes of this part—

(1) the term "advanced nuclear reactor technologies" means—

(A) advanced light water reactors that may be commercially available in the near-term, including but not limited to mid-sized reactors with passive safety features for the generation of commercial electric power from nuclear fission; and

(B) other advanced nuclear reactor technologies that may require prototype demonstration prior to commercial availability in the mid- or long-term, including but not limited to high-temperature, gas-cooled reactors and liquid metal reactors, for the generation of commercial electric power from nuclear fission;

(2) the term "Commission" means the Nuclear Regulatory Commission;

(3) the term "standardized design" means a design for a nuclear power plant that may be utilized for a multiple number of units or a multiple number of sites; and

(4) the term "certification" means approval by the Commission of a standardized design.

(Pub. L. 102–486, title XXI, §2121, Oct. 24, 1992, 106 Stat. 3081.)

EDITORIAL NOTES

REFERENCES IN TEXT

This part, referred to in text, was in the original "this subtitle" meaning subtitle C of title XXI of Pub. L. 102–486, Oct. 24, 1992, 106 Stat. 3081, which enacted this part and amended sections 12003 and 12004 of this title.

§13492. Program, goals, and plan

(a) Program direction

The Secretary shall conduct a program to encourage the deployment of advanced nuclear reactor technologies that to the maximum extent practicable—

(1) are cost effective in comparison to alternative sources of commercial electric power of comparable availability and reliability, taking into consideration life cycle environmental costs;

(2) facilitate the design, licensing, construction, and operation of a nuclear powerplant using a standardized design;

(3) exhibit enhanced safety features; and

(4) incorporate features that advance the objectives of the Nuclear Non-Proliferation Act of 1978 [22 U.S.C. 3201 et seq.].

(b) Program goals

The goals of the program established under subsection (a) shall include—

(1) for the near-term—

(A) to facilitate the completion, by September 30, 1996, for certification by the Commission, of standardized advanced light water reactor technology designs that the Secretary determines have the characteristics described in subsection (a)(1) through (4);

(B) to facilitate the completion of submissions, by September 30, 1996, for preliminary design approvals by the Commission of standardized designs for the modular high-temperature

gas-cooled reactor technology and the liquid metal reactor technology; and

(C) to evaluate by September 30, 1996, actinide burn technology to determine if it can reduce the volume of long-lived fission byproducts;

(2) for the mid-term—

(A) to facilitate increased efficiency of enhanced safety, advanced light water reactors to produce electric power at the lowest cost to the customer;

(B) to develop advanced reactor concepts that are passively safe and environmentally acceptable; and

(C) to complete necessary research and development on high-temperature gas-cooled reactor technology and liquid metal reactor technology to support the selection, by September 30, 1998, of one or both of those technologies as appropriate for prototype demonstration; and

(3) for the long-term, to complete research and development and demonstration to support the design of advanced reactor technologies capable of providing electric power to a utility grid as soon as practicable but no later than the year 2010.

(c) Program plan

Within 180 days after October 24, 1992, the Secretary shall prepare and submit to the Congress a 5-year program plan to guide the activities under this section. The program plan shall include schedule milestones, Federal funding requirements, and non-Federal cost sharing requirements. In preparing the program plan, the Secretary shall take into consideration—

(1) the need for, and the potential for future adoption by electric utilities or other entities of, advanced nuclear reactor technologies that are available, under development, or have the potential for being developed, for the generation of energy from nuclear fission;

(2) how the Federal Government, acting through the Secretary, can be effective in ensuring the availability of such technologies when they are needed;

(3) how the Federal Government can most effectively cooperate with the private sector in the accomplishment of the goals set forth in subsection (b); and

(4) potential alternative funding sources for carrying out this section.

In preparing the program plan, the Secretary shall consult with appropriate representatives of industry, institutions of higher education, Federal agencies, including national laboratories, and professional and technical societies. The Secretary shall update the program plan annually and submit such update to Congress. Each such update shall describe any activities that are behind schedule, any funding shortfalls, and any other circumstances that might affect the ability of the Secretary to meet the goals set forth in subsection (b).

(Pub. L. 102–486, title XXI, §2122, Oct. 24, 1992, 106 Stat. 3082.)

EDITORIAL NOTES

REFERENCES IN TEXT

The Nuclear Non-Proliferation Act of 1978, referred to in subsec. (a)(4), is Pub. L. 95–242, Mar. 10, 1978, 92 Stat. 120, as amended, which is classified principally to chapter 47 (§3201 et seq.) of Title 22, Foreign Relations and Intercourse. For complete classification of this Act to the Code, see Short Title note set out under section 3201 of Title 22 and Tables.

§13493. Commercialization of advanced light water reactor technology

(a) Certification of designs

In order to achieve the goal of certification of completed standardized designs by the Commission by 1996 as set forth in section 13492(b) of this title, the Secretary shall conduct a 5-year program of technical and financial assistance to encourage the development and submission for certification of

advanced light water reactor designs which, in the judgment of the Secretary, can be certified by the Commission by no later than the end of fiscal year 1996.

(b) First-of-a-kind engineering

(1) Establishment of program

The Secretary shall conduct a program of Federal financial and technical assistance for the first-of-a-kind engineering design of standardized commercial nuclear powerplants which are included, as of October 24, 1992, in the Department of Energy's program for certification of advanced light water reactor designs.

(2) Selection criteria

In order to be eligible for assistance under this subsection, an entity shall certify to the satisfaction of the Secretary that—

(A) the entity, or its members, are bona fide entities engaged in the design, engineering, manufacture, construction, or operation of nuclear reactors;

(B) the entity, or its members, have the financial resources necessary for, and fully intend to pursue the design, engineering, manufacture, construction, and operation in the United States of nuclear power plants [1] through completion of construction and into operation;

(C) the design proposed is scheduled for certification by the Commission under the Department of Energy's program for certification of light water reactor designs; and

(D) at least 50 percent of the funding for the project shall be obtained from non-Federal sources, and a substantial portion of that non-Federal funding shall be obtained from utilities or entities whose primary purpose is the production of electrical power for public consumption.

(3) Program documents

The Secretary shall prepare and submit to the Congress a program document for each design selected under this subsection, specifying goals and objectives, major milestones for achieving those goals and objectives, and the work products to be provided to the Secretary or made available for inspection.

(4) Funding limitations

(A) Before entering into an agreement with an entity under this subsection, the Secretary shall establish a cost ceiling for the contribution of the Federal Government for the project, and shall report such cost ceiling to the Congress.

(B) No entity shall receive assistance under this subsection for a period greater than 4 years.

(C) The aggregate funding provided by the Secretary for projects under this subsection shall not exceed $100,000,000 for the period encompassing fiscal years 1993 through 1997.

(Pub. L. 102–486, title XXI, §2123, Oct. 24, 1992, 106 Stat. 3083.)

EDITORIAL NOTES

CODIFICATION

Subsec. (b)(5) of this section, which required the Secretary to submit annually to Congress a status report on each project receiving assistance under subsec. (b), terminated, effective May 15, 2000, pursuant to section 3003 of Pub. L. 104–66, as amended, set out as a note under section 1113 of Title 31, Money and Finance. See, also, the last item on page 85 of House Document No. 103–7.

[1] So in original. Probably should be "powerplants".

§13494. Prototype demonstration of advanced nuclear reactor technology

(a) Solicitation of proposals

Within 3 years after October 24, 1992, the Secretary shall solicit proposals for carrying out the

preliminary engineering design of not more than 2 prototype advanced nuclear reactor technologies developed by the Department of Energy, other than advanced light water reactor technologies, necessary to support a decision on whether to recommend construction of a prototype demonstration reactor with the characteristics described in section 13493(a) of this title. Proposals submitted under this subsection shall be for modular design concepts of sufficient size to address requirements related to the certification of a standardized design.

(b) Recommendation to Congress

(1) Not later than September 30, 1998, the Secretary shall submit to Congress recommendations on whether to build one or more prototype demonstration reactors under this section. Such recommendations shall—

(A) specify a preferred technology or technologies;
(B) include detailed information on milestones for construction and operation;
(C) include an estimate of the funding requirements; and
(D) specify the extent and type of non-Federal financial support anticipated.

In developing the recommendations under this paragraph, the Secretary shall provide for public notice and an opportunity for comment, and shall solicit the views of the Commission and other parties with technical expertise the Secretary considers useful in the development of such recommendations.

(2) The prototype demonstration program under this section shall be carried out to the maximum extent practicable with private sector funding. At least 50 percent of the funding for such program shall be non-Federal funding. The extent of non-Federal cost sharing proposed for any demonstration project shall be a criterion for the selection of the project.

(c) Selection of technology

Any technology selected by the Secretary for recommendation for prototype demonstration under this section shall to the maximum extent possible exhibit the characteristics set forth in section 13493(a) of this title.

(Pub. L. 102–486, title XXI, §2124, Oct. 24, 1992, 106 Stat. 3084.)

§13495. Authorization of appropriations

There are authorized to be appropriated to the Secretary for carrying out this part $212,804,000 for fiscal year 1993 and such sums as may be necessary for fiscal year 1994. Amounts authorized or otherwise made available for program direction, space reactor power systems, advanced radioisotope power systems, and the space exploration initiative under nuclear energy research and development shall be in addition to the amounts authorized in the preceding sentence.

(Pub. L. 102–486, title XXI, §2126, Oct. 24, 1992, 106 Stat. 3085.)

SUBCHAPTER X—ENERGY AND ECONOMIC GROWTH

§13501. National Advanced Materials Program

(a) Program direction

The Secretary shall establish a 5-year National Advanced Materials Program, in accordance with sections 13541 and 13542 of this title. Such program shall foster the commercialization of techniques for processing, synthesizing, fabricating, and manufacturing advanced materials and associated components. At a minimum, the Program shall expedite the private sector deployment of advanced materials for use in high performance energy efficient and renewable energy technologies in the

industrial, transportation, and buildings sectors that can foster economic growth and competitiveness. The Program shall include field demonstrations of sufficient scale and number to prove technical and economic feasibility.

(b) Program plan

Within 180 days after October 24, 1992, the Secretary, in consultation with appropriate representatives of industry, institutions of higher education, Department of Energy national laboratories, and professional and technical societies, shall prepare and submit to the Congress a 5-year program plan to guide activities under this section. The Secretary shall biennially update and resubmit the program plan to Congress.

(c) Proposals

(1) Solicitation

Within 1 year after October 24, 1992, the Secretary shall solicit proposals for conducting activities consistent with the 5-year program plan. Such proposals may be submitted by one or more parties.

(2) Contents of proposals

Proposals submitted under this subsection shall include—

(A) an explanation of how the proposal will expedite the commercialization of advanced materials in energy efficiency or renewable energy in the near-term to mid-term;

(B) evidence of consideration of whether the unique capabilities of Department of Energy national laboratories warrants collaboration with such laboratories, and the extent of such collaboration proposed;

(C) a description of the extent to which the proposal includes collaboration with relevant industry or other groups or organizations; and

(D) evidence of the ability of the proposers to undertake and complete the proposed project.

(d) General Services Administration demonstration program

The Secretary, in consultation with the Administrator of General Services, shall establish a program to expedite the use, in goods and services acquired by the General Services Administration, of advanced materials technologies. Such program shall include a demonstration of the use of advanced materials technologies as may be necessary to establish technical and economic feasibility. The Secretary shall transfer funds to the General Services Administration for carrying out this subsection.

(e) Authorization of appropriations

There are authorized to be appropriated to the Secretary for carrying out this section such sums as may be necessary, to be derived for energy efficient applications from section 13451(e) of this title and for renewable applications from section 13471(c) of this title, including Department of Energy national laboratory participation in proposals submitted under subsection (c), and including transferring funds to the General Services Administration.

(Pub. L. 102–486, title XXII, §2201, Oct. 24, 1992, 106 Stat. 3085.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

TERMINATION OF REPORTING REQUIREMENTS

For termination, effective May 15, 2000, of provisions in subsec. (b) of this section relating to the biennial resubmittal of the program plan to Congress, see section 3003 of Pub. L. 104–66, as amended, set out as a note under section 1113 of Title 31, Money and Finance, and the 1st item on page 86 of House Document No. 103–7.

§13502. National Advanced Manufacturing Technologies Program

(a) Program direction

The Secretary shall establish a 5-year National Advanced Manufacturing Technologies Program, in accordance with sections 13541 and 13542 of this title. Such program shall foster the commercialization of advanced manufacturing technologies to improve energy efficiency and productivity in manufacturing. At a minimum, the Program shall expedite the private sector deployment of advanced manufacturing technologies to improve productivity, quality, and control in manufacturing processes that can foster economic growth, energy efficiency, and competitiveness. The program [1] shall include field demonstrations of sufficient scale and number to prove technical and economic feasibility.

(b) Program plan

Within 180 days after October 24, 1992, the Secretary, in consultation with appropriate representatives of industry, institutions of higher education, Department of Energy national laboratories, and professional and technical societies, shall prepare and submit to the Congress a 5-year program plan to guide activities under this section. The Secretary shall biennially update and resubmit the program plan to Congress.

(c) Proposals

(1) Solicitation

Within 1 year after October 24, 1992, the Secretary shall solicit proposals for conducting activities consistent with the 5-year program plan. Such proposals may be submitted by one or more parties.

(2) Contents of proposals

Proposals submitted under this subsection shall include—

(A) an explanation of how the proposal will expedite the commercialization of advanced manufacturing technologies to improve energy efficiency in the building, industry, and transportation sectors;

(B) evidence of consideration of whether the unique capabilities of Department of Energy national laboratories warrants collaboration with such laboratories, and the extent of such collaboration proposed;

(C) a description of the extent to which the proposal includes collaboration with relevant industry or other groups or organizations; and

(D) evidence of the ability of the proposers to undertake and complete the proposed project.

(d) Authorization of appropriations

There are authorized to be appropriated to the Secretary for carrying out this section such sums as may be necessary, to be derived from sums authorized under section 13451(e) of this title, including Department of Energy national laboratory participation in proposals submitted under subsection (c).

(Pub. L. 102–486, title XXII, §2202, Oct. 24, 1992, 106 Stat. 3086.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

TERMINATION OF REPORTING REQUIREMENTS

For termination, effective May 15, 2000, of provisions in subsec. (b) of this section relating to the biennial resubmittal of the program plan to Congress, see section 3003 of Pub. L. 104–66, as amended, set out as a note under section 1113 of Title 31, Money and Finance, and the 2nd item on page 86 of House Document No. 103–7.

[1] *So in original. Probably should be capitalized.*

§13503. Supporting research and technical analysis

(a) Basic energy sciences

(1) Program direction

The Secretary shall continue to support a vigorous program of basic energy sciences to provide basic research support for the development of energy technologies. Such program shall focus on the efficient production and use of energy, and the expansion of our knowledge of materials, chemistry, geology, and other related areas of advancing technology development.

(2) User facilities

(A) As part of the program referred to in paragraph (1), the Secretary shall carry out planning, construction, and operation of user facilities to provide special scientific and research capabilities, including technical expertise and support as appropriate, to serve the research needs of our Nation's universities, industry, private laboratories, Federal laboratories, and others. Research institutions or individuals from other nations shall be accommodated at such user facilities in cases where reciprocal accommodations are provided to United States research institutions and individuals or where the Secretary considers such accommodation to be in the national interest.

(B) The construction of the Advanced Photon Source at the Argonne National Laboratory is hereby authorized.

(C) The Secretary shall not change the user fee practice in effect as of October 1, 1991, with respect to user facilities unless the Secretary notifies Congress 90 days before the effective date of any change.

(D) The Secretary shall expedite the design for construction of the Advanced Neutron Source at the Oak Ridge National Laboratory, in order to provide critical research capabilities in support of our national research initiatives for advanced materials and biotechnology, as well as a broad range of research. Such action shall be consistent with the Basic Energy Sciences Advisory Committee's Technical Evaluation of accelerator and reactor neutron source technologies. Within 90 days after October 24, 1992, the Secretary shall submit to the Congress a plan for such design, including a schedule for construction.

(3) Cost sharing

The Secretary shall not require cost sharing for research and development pursuant to this subsection, except—

(A) as otherwise provided for in cooperative research and development agreements or other agreements entered into under existing law;

(B) for fees for user facilities, as determined by the Secretary; or

(C) in the case of specific projects, where the Secretary determines that the benefits of such research and development accrue to a specific industry or group of industries, in which case cost sharing under section 13542 of this title shall apply.

(b) University and science education

(1) The Secretary shall support programs for improvements and upgrading of university research reactors and associated instrumentation and equipment. Within 1 year after October 24, 1992, the Secretary shall submit to the Congress a report on the condition and status of university research reactors, which includes a 5-year plan for upgrading and improving such facilities, instrumentation capabilities, and related equipment.

(2) The Secretary shall develop a method to evaluate the effectiveness of science and mathematics education programs provided by the Department of Energy and its laboratories, including specific evaluation criteria.

(3) ESTABLISHED PROGRAM TO STIMULATE COMPETITIVE RESEARCH.—

(A) DEFINITIONS.—In this paragraph:

(i) ELIGIBLE JURISDICTION.—The term "eligible jurisdiction" means a State that is determined to be eligible for a grant under this paragraph in accordance with subparagraph (D).

(ii) EPSCOR.—The term "EPSCoR" means the Established Program to Stimulate Competitive Research operated under subparagraph (B).

(iii) NATIONAL LABORATORY.—The term "National Laboratory" has the meaning given

the term in section 15801 of this title.

(iv) STATE.—The term "State" means—

(I) a State;

(II) the District of Columbia;

(III) the Commonwealth of Puerto Rico;

(IV) Guam; and

(V) the United States Virgin Islands.

(B) PROGRAM OPERATION.—The Secretary shall operate an Established Program to Stimulate Competitive Research.

(C) OBJECTIVES.—The objectives of EPSCoR shall be—

(i) to increase the number of researchers in eligible jurisdictions, especially at institutions of higher education, capable of performing nationally competitive science and engineering research in support of the mission of the Department of Energy in the areas of applied energy research, environmental management, and basic science;

(ii) to improve science and engineering research and education programs at institutions of higher education in eligible jurisdictions and enhance the capabilities of eligible jurisdictions to develop, plan, and execute research that is competitive, including through investing in research equipment and instrumentation; and

(iii) to increase the probability of long-term growth of competitive funding to eligible jurisdictions.

(D) ELIGIBLE JURISDICTIONS.—

(i) IN GENERAL.—The Secretary may establish criteria for determining whether a State is eligible for a grant under this paragraph.

(ii) REQUIREMENT.—Except as provided in clause (iii), in establishing criteria under clause (i), the Secretary shall ensure that a State is eligible for a grant under this paragraph if the State, as determined by the Secretary, is a State that—

(I) historically has received relatively little Federal research and development funding; and

(II) has demonstrated a commitment—

(aa) to develop the research bases in the State; and

(bb) to improve science and engineering research and education programs at institutions of higher education in the State.

(iii) ELIGIBILITY UNDER NSF EPSCOR.—At the election of the Secretary, or if the Secretary declines to establish criteria under clause (i), the Secretary may continue to use the eligibility criteria in use on January 1, 2021, or any successor criteria.

(E) GRANTS IN AREAS OF APPLIED ENERGY RESEARCH, ENVIRONMENTAL MANAGEMENT, AND BASIC SCIENCE.—

(i) IN GENERAL.—EPSCoR shall make grants to eligible jurisdictions to carry out and support applied energy research and research in all areas of environmental management and basic science sponsored by the Department of Energy, including—

(I) energy efficiency, fossil energy, renewable energy, and other applied energy research;

(II) electricity delivery research;

(III) cybersecurity, energy security, and emergency response;

(IV) environmental management; and

(V) basic science research.

(ii) ACTIVITIES.—EPSCoR shall make grants under this subparagraph for activities consistent with the objectives described in subparagraph (C) in the areas of applied energy research, environmental management, and basic science described in clause (i), including—

(I) to support research that is carried out in partnership with the National Laboratories;

(II) to provide for graduate traineeships;
(III) to support research by early career faculty; and
(IV) to improve research capabilities through biennial research implementation grants.

(iii) NO COST SHARING.—EPSCoR shall not impose any cost-sharing requirement with respect to a grant made under this subparagraph, but may require letters of commitment from National Laboratories.

(F) OTHER ACTIVITIES.—EPSCoR may carry out such activities as may be necessary to meet the objectives described in subparagraph (C) in the areas of applied energy research, environmental management, and basic science described in subparagraph (E)(i).

(G) PROGRAM IMPLEMENTATION.—

(i) IN GENERAL.—Not later than 270 days after January 1, 2021, the Secretary shall submit to the Committees on Energy and Natural Resources and Appropriations of the Senate and the Committees on Energy and Commerce and Appropriations of the House of Representatives a plan describing how the Secretary shall implement EPSCoR.

(ii) CONTENTS OF PLAN.—The plan described in clause (i) shall include a description of—

(I) the management structure of EPSCoR, which shall ensure that all research areas and activities described in this paragraph are incorporated into EPSCoR;

(II) efforts to conduct outreach to inform eligible jurisdictions and faculty of changes to, and opportunities under, EPSCoR;

(III) how EPSCoR plans to increase engagement with eligible jurisdictions, faculty, and State committees, including by holding regular workshops, to increase participation in EPSCoR; and

(IV) any other issues relating to EPSCoR that the Secretary determines appropriate.

(H) PROGRAM EVALUATION.—

(i) IN GENERAL.—Not later than 5 years after January 1, 2021, the Secretary shall contract with a federally funded research and development center, the National Academy of Sciences, or a similar organization to carry out an assessment of the effectiveness of EPSCoR, including an assessment of—

(I) the tangible progress made towards achieving the objectives described in subparagraph (C);

(II) the impact of research supported by EPSCoR on the mission of the Department of Energy; and

(III) any other issues relating to EPSCoR that the Secretary determines appropriate.

(ii) LIMITATION.—The organization with which the Secretary contracts under clause (i) shall not be a National Laboratory.

(iii) REPORT.—Not later than 6 years after January 1, 2021, the Secretary shall submit to the Committee on Energy and Natural Resources and the Committee on Appropriations of the Senate and the Committee on Science, Space and Technology and the Committee on Appropriations of the House of Representatives a report describing the results of the assessment carried out under clause (i), including recommendations for improvements that would enable the Secretary to achieve the objectives described in subparagraph (C).

(c) Technology transfer

The Secretary shall support technology transfer activities conducted by the National Laboratories. Within 1 year after October 24, 1992, the Secretary shall submit to the Congress a report on the adequacy of funding for such activities, along with a proposal recommending ways to reduce the length of time required to consummate cooperative research and development agreements.

(d) Facilities support for multiprogram energy laboratories

(1) Facility policy

The Secretary shall develop and implement a least cost strategy for correcting facility problems, closing unneeded facilities, making facility modifications, and building new facilities at multiprogram energy laboratories.

(2) Facility plan

Within 1 year after October 24, 1992, the Secretary shall prepare and submit to the Congress a comprehensive plan for conducting future facility maintenance, making repairs, modifications, and new additions, and constructing new facilities at multiprogram energy laboratories. Such plan shall provide for facilities work in accordance with the following priorities, listed in descending order of priority:

(A) Providing for the safety and health of employees, visitors, and the general public with regard to correcting existing structural, mechanical, electrical, and environmental deficiencies.

(B) Providing for the repair and rehabilitation of existing facilities to keep them in use and prevent deterioration.

(C) Providing engineering design and construction services for those facilities which require modification or additions in order to meet the needs of new or expanded programs.

Such plan shall include plans for new facilities and facility modifications which will be required to meet the Department of Energy's changing missions of the twenty-first century, including schedules and estimates for implementation, and including a section outlining long-term funding requirements consistent with anticipated budgets and annual authorization of appropriations. Such plan shall address the coordination of modernization and consolidation of facilities in order to meet changing mission requirements, and shall provide for annual reports to Congress on accomplishments, conformance to schedules, commitments, and expenditures.

(e) Authorization of appropriations

There are authorized to be appropriated to the Secretary for Supporting Research and Technical Analysis, including Basic Energy Sciences, Energy Research Analysis, University and Science Education, Technology Transfer, Advisory and Oversight Program Direction, and Facilities Support for Multiprogram Energy Laboratories, $966,804,000 for fiscal year 1993 and such sums as may be necessary for fiscal year 1994.

(Pub. L. 102–486, title XXII, §2203, Oct. 24, 1992, 106 Stat. 3087; Pub. L. 105–245, title III, §309(b)(2)(F), Oct. 7, 1998, 112 Stat. 1853; Pub. L. 116–260, div. Z, title IX, §9011, Dec. 27, 2020, 134 Stat. 2606; Pub. L. 116–283, div. H, title XCIV, §9411, Jan. 1, 2021, 134 Stat. 4815.)

EDITORIAL NOTES

AMENDMENTS

2021—Subsec. (b)(3). Pub. L. 116–283 added par. (3) identical to the par. (3) appearing in the amendment by Pub. L. 116–260. See 2020 Amendment note below.

2020—Subsec. (b)(3). Pub. L. 116–260 added par. (3) and struck out former par. (3) which related to the operation of an Experimental Program to Stimulate Competitive Research (EPSCoR).

1998—Subsec. (b)(3)(A)(i). Pub. L. 105–245 substituted "Office of Science" for "Office of Energy Research".

§13504. Math and science education program

(a) Program

The Secretary shall enter into contracts with existing qualified entities to conduct science and mathematics education programs that supplement the Special Programs for Students from Disadvantaged Backgrounds carried out by the Secretary of Education under sections 1070d through 1070d–1d of title 20.[1]

(b) Purpose

(1) The purpose of the programs shall be to provide support to Federal, State, and private programs designed to promote the participation of low-income and first generation college students as defined in section 1070d of title 20 [1] in post-secondary science and mathematics education.

(2) Support activities may include—

(A) the development of educational materials;

(B) the training of teachers and counselors;

(C) the establishment of student internships;

(D) the development of seminars on mathematics and science;

(E) tutoring in mathematics and science;

(F) academic counseling;

(G) the development of opportunities for research; and

(H) such other activities that may promote the participation of low-income and first generation college students in post-secondary science and mathematics education.

(c) Support

(1) In carrying out the purpose of this section, the entities may provide support under subsection (b)(2) to—

(A) low-income and first generation college students; and

(B) institutions of higher education, public and private agencies and organizations, and secondary and middle schools that principally benefit low-income students.

(2) The qualified entities shall, to the extent practicable, coordinate support activities under this section with the Secretary of Education and the Secretary.

(d) Cooperation with qualified entities

The Secretary shall cooperate with qualified entities and, to the extent practicable, make available to the entities such personnel, facilities, and other resources of the Department of Energy as may be necessary to carry out the duties of the entities.

(e) Report

Not later than October 1 of each year, the entities shall report to the Secretary, the Secretary of Education, and the Congress on—

(1) progress made to promote the participation of low-income and first generation college students in post-secondary science and mathematics education by—

(A) the qualified entities;

(B) other mathematics and science education programs of the Department of Energy; and

(C) the Special Programs for Students from Disadvantaged Backgrounds of the Department of Education; and

(2) recommendations for such additional actions as may be needed to promote the participation of low-income students in post-secondary science and mathematics education.

(f) Effect on existing programs

The programs in this section shall supplement and be developed in cooperation with the current mathematics and science education programs of the Department of Energy and the Department of Education but shall not supplant them.

(g) "Qualified entity" defined

For purposes of this section, the term "qualified entity" means a nonprofit corporation, association, or institution that has demonstrated special knowledge of, and experience with, the education of low-income and first generation college students and whose primary mission is the operation of national programs that focus on low-income students and provide training and other services to educators.

(h) Authorization of appropriations

There are authorized to be appropriated such sums as may be necessary, to be derived from section 13503(e) of this title and the Environmental Restoration and Waste Management program, to carry out the purposes of this section.

(Pub. L. 102–486, title XXII, §2204, Oct. 24, 1992, 106 Stat. 3089.)

EDITORIAL NOTES

§13505. Integration of research and development

Within 180 days after October 24, 1992, the Secretary, in consultation with appropriate representatives of industry, institutions of higher education, Department of Energy national laboratories, and professional and technical societies, shall prepare and submit to Congress a 5-year program plan for improving the integration of basic energy research programs with other energy programs within the Department of Energy. Such program plan shall include—

(1) an evaluation of current procedures and mechanisms used to achieve such integration;

(2) an assessment of the role that the Department of Energy national laboratories play in such integration;

(3) an identification and evaluation of models that could enhance such integration;

(4) an identification and evaluation of new programs, mechanisms, and related policy options that could improve the integrating process, including—

(A) set aside funding for matching or leveraging basic and applied programs;

(B) more formal linkages; and

(C) program coordination;

(5) recommendations for expanded research and development and new technology areas; and

(6) budget estimates for activities under this section.

(Pub. L. 102–486, title XXII, §2205, Oct. 24, 1992, 106 Stat. 3091.)

§13506. Definitions

For purposes of this subchapter—

(1) the term "advanced manufacturing technology" means processes, equipment, techniques, practices, and capabilities that are applied for the purpose of—

(A) improving the productivity, quality, or energy efficiency of the design, development, testing, or manufacture of a product; or

(B) expanding the technical capability to design, develop, test, or manufacture a product that is fundamentally different in character from existing products and that will result in improved energy efficiency;

(2) the term "advanced materials" means materials that are processed, synthesized, fabricated, and manufactured to develop high performance properties that exceed the corresponding properties of conventional materials for structural, electronic, magnetic, or photonic applications, or for joining, welding, bonding, or packaging components into complex assemblies, including—

(A) advanced monolithic materials such as metals, ceramics, and polymers;

(B) advanced composite materials such as metal matrix (including intermetallics), polymer matrix, ceramic matrix, continuous fiber ceramic composite, and carbon matrix composites; and

(C) advanced electronic, magnetic, and photonic materials, including superconducting, semiconductor, electrooptic, magnetooptic, thin-film, and special purpose coating materials used in technologies for energy efficiency, renewable energy, or electric power applications; and

(3) the term "United States" means the 50 States of the United States, the District of Columbia, the Commonwealth of Puerto Rico, the United States Virgin Islands, Guam, the Northern Mariana Islands, and any other territory or possession of the United States.

(Pub. L. 102–486, title XXII, §2206, Oct. 24, 1992, 106 Stat. 3091.)

SUBCHAPTER XI—POLICY AND ADMINISTRATIVE PROVISIONS

§13521. Policy on major construction projects

(a) Report and management plan

The Secretary shall submit to the Congress a report and management plan for any major construction project involving $100,000,000 or more, prior to the expenditure of those funds.

(b) Congressional review

Expenditure of funds for a project described in subsection (a) may be made after a period of 30 calendar days (not including any day on which either House of Congress is not in session because of adjournment of more than 3 calendar days prior to a day certain) has passed after receipt of the report and management plan by Congress.

(Pub. L. 102–486, title XXIII, §2301, Oct. 24, 1992, 106 Stat. 3092.)

§13522. Energy Research, Development, Demonstration, and Commercial Application Advisory Board

(a) Establishment

The Secretary shall establish an Energy Research, Development, Demonstration, and Commercial Application Advisory Board (hereafter in this section referred to as the "Advisory Board").

(b) Responsibilities

The Advisory Board shall provide impartial technical advice to the Secretary to assist in the development of energy research, development, demonstration, and commercial application plans and reports under sections 5905 and 5914 [1] of this title, under section 7321 of this title, and as otherwise provided in subchapters VIII through XI of this chapter. The Advisory Board shall also periodically review such plans and reports and their implementation in relation to the goals stated in section 13401 of this title, and report the results of such review to the Secretary and the Congress. Such report shall be included as part of the report required under section 5914 [1] of this title.

(c) Use of existing advisory board

The Secretary may use an existing advisory board to carry out the responsibilities described in subsection (b).

(Pub. L. 102–486, title XXIII, §2302, Oct. 24, 1992, 106 Stat. 3092.)

EDITORIAL NOTES

REFERENCES IN TEXT

Subchapters VIII through XI of this chapter, referred to in subsec. (b), was in the original "titles XX through XXIII of this Act", meaning titles XX through XXIII of Pub. L. 102–486, Oct. 24, 1992, 106 Stat. 3057–3092, which enacted subchapters VIII through XI of this chapter and amended sections 5103, 5107, 5108, 5110, 5307, 5905, 12003, 12004, and 12006 of this title.

Section 5914 of this title, referred to in subsec. (b), was omitted from the Code.

STATUTORY NOTES AND RELATED SUBSIDIARIES

TERMINATION OF ADVISORY BOARDS

Advisory boards established after Jan. 5, 1973, to terminate not later than the expiration of the 2-year period beginning on the date of their establishment, unless, in the case of a board established by the President or an officer of the Federal Government, such board is renewed by appropriate action prior to the expiration of such 2-year period, or in the case of a board established by Congress, its duration is otherwise provided by law. See sections 3(2) and 14 of Pub. L. 92–463, Oct. 6, 1972, 86 Stat. 776, set out in the Appendix to Title 5, Government Organization and Employees.

[1] *See References in Text note below.*

§13523. Management plan

(a) Plan preparation

The Secretary, in consultation with the Advisory Board established under section 13522 of this title, shall prepare a management plan for the conduct of research, development, demonstration, and commercial application of energy technologies that is consistent with the goals stated in section 13401 of this title.

(b) Contents of plan

The management plan under subsection (a) shall provide for—

(1) investigation of promising energy and energy efficiency resource technologies that have been identified as potentially significant future contributors to national energy security;

(2) development of energy and energy efficiency resource technologies that have the potential to reduce energy supply vulnerability, and to minimize adverse impacts on the environment, the global climate, and the economy; and

(3) creation of opportunities for export of energy and energy efficiency resource technologies from the United States that can enhance the Nation's competitiveness.

(c) Energy technology inventory and status report

As part of the management plan, the Secretary, with the advice of the Advisory Board established under section 13522 of this title, shall develop an inventory and status report of technologies to enhance energy supply and to improve the efficiency of energy end uses. The inventory and status report shall include fossil, renewable, nuclear, and energy conservation technologies which have not yet achieved the status of fully reliable and cost-competitive commercial availability, but which the Secretary projects may become available with additional research, development, and demonstration. The inventory and status report shall provide, for each technology—

(1) an assessment of its—

(A) degree of technological maturity; and

(B) principal research, development, and demonstration issues, including—

(i) the barriers posed by capital, operating, and maintenance costs;

(ii) technical performance; and

(iii) potential environmental impacts;

(2) the projected time frame for commercial availability, specifying at a minimum whether the technology will be commercially available in the near-term, mid-term, or long-term, whether there are too many uncertainties to project availability, or whether it is unlikely that the technology will ever be commercial; and

(3) a projection of the future cost-competitiveness of the technology in comparison with alternative technologies to provide the same energy service.

(d) Public comment

The Secretary shall publish the proposed management plan for a written public comment period of at least 90 days. The Secretary shall consider such comments and include a summary thereof in the management plan.

(e) Plan submission

Within one year after October 24, 1992, the Secretary shall submit the first management plan under this section to Congress. Thereafter, the Secretary shall submit a revised management plan biennially, at the time of submittal of the President's annual budget submission to the Congress.

(Pub. L. 102–486, title XXIII, §2304, Oct. 24, 1992, 106 Stat. 3093.)

§13524. Costs related to decommissioning and storage and disposal of nuclear waste

(a) Award of contracts

(1) Prime contractors

In awarding contracts to perform nuclear hot cell services, the Secretary, in evaluating bids for such contracts, shall exclude from consideration costs related to the decommissioning of nuclear facilities or the storage and disposal of nuclear waste, if—

(A) one or more of the parties bidding to perform such services is a United States company that is subject to such costs; and

(B) one or more of the parties bidding to perform such services is a foreign company that is not subject to comparable costs.

(2) Subcontractors

Any person awarded a contract subject to the restrictions described in paragraph (1) who subcontracts with a person to perform the services described in such paragraph shall be subject to the same restrictions in evaluating bids among potential subcontractors, as the Secretary was subject to in evaluating bids among prime contractors.

(b) Issuance of regulations

The Secretary shall issue regulations not later than 90 days after October 24, 1992, to carry out the requirements of subsection (a).

(c) Definitions

As used in this section—

(1) the term "costs related to decommissioning of nuclear facilities" means any cost associated with the compliance with regulatory requirements governing the decommissioning of nuclear facilities licensed by the Nuclear Regulatory Commission;

(2) the term "costs related to storage and disposal of nuclear waste" means any costs, whether required by regulation or incurred as a matter of prudent business practice, associated with the storage or disposal of nuclear waste;

(3) the term "nuclear hot cell services" means services related to the examination of, or performance of various operations on, nuclear fuel rods, control assemblies, or other components that are emitting large quantities of ionizing radiation; and

(4) the term "nuclear waste" means any radioactive waste material subject to regulation by the

Nuclear Regulatory Commission or the Department of Energy.

(Pub. L. 102–486, title XXIII, §2305, Oct. 24, 1992, 106 Stat. 3094.)

§13525. Limits on participation by companies

A company shall be eligible to receive financial assistance under subchapters VIII through XI of this chapter only if—

(1) the Secretary finds that the company's participation in any program under such subchapters would be in the economic interest of the United States, as evidenced by investments in the United States in research, development, and manufacturing (including, for example, the manufacture of major components or subassemblies in the United States); significant contributions to employment in the United States; an agreement with respect to any technology arising from assistance provided under this section to promote the manufacture within the United States of products resulting from that technology (taking into account the goals of promoting the competitiveness of United States industry), and to procure parts and materials from competitive suppliers; and

(2) either—

(A) the company is a United States-owned company; or

(B) the Secretary finds that the company is incorporated in the United States and has a parent company which is incorporated in a country which affords to United States-owned companies opportunities, comparable to those afforded to any other company, to participate in any joint venture similar to those authorized under this Act; affords to United States-owned companies local investment opportunities comparable to those afforded to any other company; and affords adequate and effective protection for the intellectual property rights of United States-owned companies.

(Pub. L. 102–486, title XXIII, §2306, Oct. 24, 1992, 106 Stat. 3095.)

EDITORIAL NOTES

REFERENCES IN TEXT

Subchapters VIII through XI of this chapter, referred to in text, was in the original "titles XX through XXIII of this Act", meaning titles XX through XXIII of Pub. L. 102–486, Oct. 24, 1992, 106 Stat. 3057–3092, which enacted subchapters VIII through XI of this chapter and amended sections 5103, 5107, 5108, 5110, 5307, 5905, 12003, 12004, and 12006 of this title.

This Act, referred to in par. (2)(B), is Pub. L. 102–486, Oct. 24, 1992, 106 Stat. 2776, known as the Energy Policy Act of 1992. For complete classification of this Act to the Code, see Short Title note set out under section 13201 of this title and Tables.

§13526. Uncosted obligations

(a) Report

Along with the submission of each of the President's annual budget requests to Congress, the Secretary shall submit to Congress a report which—

(1) identifies the amount of Department of Energy funds that were, as of the end of the previous fiscal year—

(A) committed uncosted obligations; and

(B) uncommitted uncosted obligations;

(2) specifically describes the purposes for which all such funds are intended; and

(3) explains the effect that information contained in the report has had on the annual budget request for the Department of Energy being simultaneously submitted.

(b) Definitions

Within 90 days after October 24, 1992, the Secretary shall submit a report to the Congress containing definitions of the terms "uncosted obligation", "committed uncosted obligation", and "uncommitted uncosted obligation" for purposes of reports to be submitted under subsection (a).

(Pub. L. 102–486, title XXIII, §2307, Oct. 24, 1992, 106 Stat. 3096.)

SUBCHAPTER XII—MISCELLANEOUS

PART A—GENERAL PROVISIONS

§13541. Research, development, demonstration, and commercial application activities

(a) Research, development, and demonstration

(1) Except as otherwise provided in this Act, research, development, and demonstration activities under this Act may be carried out under the procedures of the Federal Nonnuclear Research and Development Act of 1974 (42 U.S.C. 5901–5920), the Atomic Energy Act of 1954 (42 U.S.C. 2011 et seq.), or any other Act under which the Secretary is authorized to carry out such activities, but only to the extent the Secretary is authorized to carry out such activities under each such Act. An objective of any demonstration program under this Act shall be to determine the technical and commercial feasibility of energy technologies.

(2) Except as otherwise provided in this Act, in carrying out research, development, and demonstration programs and activities under this Act, the Secretary may use, to the extent authorized under applicable provisions of law, contracts, cooperative agreements, cooperative research and development agreements under the Stevenson-Wydler Technology Innovation Act of 1980 [15 U.S.C. 3701 et seq.], grants, joint ventures, and any other form of agreement available to the Secretary.

(b) Commercial application

Except as otherwise provided in this Act, in carrying out commercial application programs and commercial application activities under this Act, the Secretary may use, to the extent authorized under applicable provisions of law, contracts, cooperative agreements, cooperative research and development agreements under the Stevenson-Wydler Technology Innovation Act of 1980 [15 U.S.C. 3701 et seq.], grants, joint ventures, and any other form of agreement available to the Secretary. An objective of any commercial application program under this Act shall be to accelerate the transition of technologies from the research and development stage.

(c) "Joint venture" defined

For purposes of this section, the term "joint venture" has the meaning given the term "joint research and development venture" under section 4301(a)(6) and (b) of title 15, except that such term may apply under this section to research, development, demonstration, and commercial application joint ventures.

(d) Protection of information

Section 12(c)(7) of the Stevenson-Wydler Technology Innovation Act of 1980 [15 U.S.C. 3710a(c)(7)], relating to the protection of information, shall apply to research, development, demonstration, and commercial application programs and activities under this Act.

(e) Guidelines and procedures

The Secretary shall provide guidelines and procedures for the transition, where appropriate, of

energy technologies from research through development and demonstration under subsection (a) to commercial application under subsection (b). Nothing in this section shall preclude the Secretary from—

(1) entering into a contract, cooperative agreement, cooperative research and development agreement under the Stevenson-Wydler Technology Innovation Act of 1980 [15 U.S.C. 3701 et seq.], grant, joint venture, or any other form of agreement available to the Secretary under this section that relates to research, development, demonstration, and commercial application; or

(2) extending a contract, cooperative agreement, cooperative research and development agreement under the Stevenson-Wydler Technology Innovation Act of 1980, grant, joint venture, or any other form of agreement available to the Secretary that relates to research, development, and demonstration to cover commercial application.

(f) Application of section

This section shall not apply to any contract, cooperative agreement, cooperative research and development agreement under the Stevenson-Wydler Technology Innovation Act of 1980 [15 U.S.C. 3701 et seq.], grant, joint venture, or any other form of agreement available to the Secretary that is in effect as of October 24, 1992.

(Pub. L. 102–486, title XXX, §3001, Oct. 24, 1992, 106 Stat. 3126.)

EDITORIAL NOTES

REFERENCES IN TEXT

This Act, referred to in subsecs. (a), (b), and (d), is Pub. L. 102–486, Oct. 24, 1992, 106 Stat. 2776, known as the Energy Policy Act of 1992. For complete classification of this Act to the Code, see Short Title note set out under section 13201 of this title and Tables.

The Federal Nonnuclear Research and Development Act of 1974, referred to in subsec. (a)(1), probably means the Federal Nonnuclear Energy Research and Development Act of 1974, Pub. L. 93–577, Dec. 31, 1974, 88 Stat. 1878, as amended, which is classified generally to chapter 74 (§5901 et seq.) of this title. For complete classification of this Act to the Code, see Short Title note set out under section 5901 of this title and Tables.

The Atomic Energy Act of 1954, referred to in subsec. (a)(1), is act Aug. 1, 1946, ch. 724, as added by act Aug. 30, 1954, ch. 1073, §1, 68 Stat. 919, which is classified principally to chapter 23 (§2011 et seq.) of this title. For complete classification of this Act to the Code, see Short Title note set out under section 2011 of this title and Tables.

The Stevenson-Wydler Technology Innovation Act of 1980, referred to in subsecs. (a)(2), (b), (e)(1), (2), and (f), is Pub. L. 96–480, Oct. 21, 1980, 94 Stat. 2311, as amended, which is classified generally to chapter 63 (§3701 et seq.) of Title 15, Commerce and Trade. For complete classification of this Act to the Code, see Short Title note set out under section 3701 of Title 15 and Tables.

§13542. Cost sharing

(a) Research and development

Except as otherwise provided in this Act, for research and development programs carried out under this Act, the Secretary shall require a commitment from non-Federal sources of at least 20 percent of the cost of the project. The Secretary may reduce or eliminate the non-Federal requirement under this subsection if the Secretary determines that the research and development is of a basic or fundamental nature.

(b) Demonstration and commercial application

Except as otherwise provided in this Act, the Secretary shall require at least 50 percent of the costs directly and specifically related to any demonstration or commercial application project under this Act to be provided from non-Federal sources. The Secretary may reduce the non-Federal

requirement under this subsection if the Secretary determines that the reduction is necessary and appropriate considering the technological risks involved in the project and is necessary to meet the objectives of this Act.

(c) Calculation of amount

In calculating the amount of the non-Federal commitment under paragraph (1) or (2), the Secretary shall include cash, personnel, services, equipment, and other resources.

(d) Tennessee Valley Authority

Funds derived by the Tennessee Valley Authority from its power program may be used for all or part of any cost sharing requirements under this section, except to the extent that such funds are provided by annual appropriation Acts.

(Pub. L. 102–486, title XXX, §3002, Oct. 24, 1992, 106 Stat. 3127.)

EDITORIAL NOTES

REFERENCES IN TEXT

This Act, referred to in subsecs. (a) and (b), is Pub. L. 102–486, Oct. 24, 1992, 106 Stat. 2776, known as the Energy Policy Act of 1992. For complete classification of this Act to the Code, see Short Title note set out under section 13201 of this title and Tables.

PART B—OTHER MISCELLANEOUS PROVISIONS

§13551. Repealed. Pub. L. 104–182, title III, §301, Aug. 6, 1996, 110 Stat. 1683

Section, Pub. L. 102–486, title XXX, §3013, Oct. 24, 1992, 106 Stat. 3128, related to geothermal heat pumps.

§13552. Use of energy futures for fuel purchases

(a) Fuel study

The Secretary shall conduct a study—

(1) to ascertain if the use of energy futures and options contracts could provide cost-effective protection for Government entities (including Government purchases for military purposes and for the Strategic Petroleum Reserve) and consumer cooperatives (or any organization whose purpose is to purchase fuel in bulk) from unanticipated surges in the price of fuel; and

(2) to ascertain how such Government entities or consumer cooperatives may be educated in the prudent use of energy futures and options contracts to maximize their purchasing effectiveness, protect themselves against unanticipated surges in the price of fuel, and minimize fuel costs.

(b) Pilot program

The Secretary shall conduct a pilot program, commencing not later than 30 days after the transmission of the study required in subsection (b),[1] to educate such governmental entities, consumer cooperatives, or other organizations on the prudent and cost-effective use of energy futures and options contracts to increase their protection against unanticipated surges in the price of fuel and thereby increase the efficiency of their fuel purchase or assistance programs.

(c) Authorization of appropriations

There are authorized to be appropriated such sums as may be necessary to carry out this section.

(Pub. L. 102–486, title XXX, §3014, Oct. 24, 1992, 106 Stat. 3128; Pub. L. 105–362, title IV, §401(f), Nov. 10, 1998, 112 Stat. 3282.)

EDITORIAL NOTES

REFERENCES IN TEXT

Subsection (b), referred to in subsec. (b), was repealed and subsec. (c) of this section was redesignated (b) by Pub. L. 105–362, title IV, §401(f), Nov. 10, 1998, 112 Stat. 3282. See 1998 Amendment note below.

AMENDMENTS

1998—Subsecs. (b) to (d). Pub. L. 105–362 redesignated subsecs. (c) and (d) as (b) and (c), respectively, and struck out heading and text of former subsec. (b). Text read as follows: "The Secretary, no later than 12 months after October 24, 1992, shall transmit the study required in this section to the Committee on Energy and Commerce of the House of Representatives and the Committee on Energy and Natural Resources of the Senate."

[1] *See References in Text note below.*

§13553. Energy subsidy study

(a) In general

The Secretary shall contract with the National Academy of Sciences to conduct a study of energy subsidies that—

(1) are in effect on October 24, 1992; or

(2) have been in effect prior to October 24, 1992.

(b) Report to Congress

Not later than 18 months after October 24, 1992, the Secretary shall transmit to the Congress,[1] the results of such study to be accompanied by recommendations for legislation, if any.

(c) Contents

(1) In general

The study shall identify and quantify the direct and indirect subsidies and other legal and institutional factors that influence decisions in the marketplace concerning fuels and energy technologies.

(2) Topics for examination

The study shall examine—

(A) fuel and technology choices that are—

(i) available on October 24, 1992; or

(ii) reasonably foreseeable on October 24, 1992;

(B) production subsidies for the extraction of raw materials;

(C) subsidies encouraging investment in large capital projects;

(D) indemnification;

(E) fuel cycle subsidies, including waste disposal;

(F) government research and development support; and

(G) other relevant incentives and disincentives.

(d) Authorization of appropriations

There are authorized to be appropriated to carry out this section $500,000 for each of the fiscal years 1993 and 1994.

(Pub. L. 102–486, title XXX, §3015, Oct. 24, 1992, 106 Stat. 3129.)

[1] *So in original. The comma probably should not appear.*

§13554. Tar sands

(a) Policy

It is the policy of the United States to promote the development and production, by all means consistent with sound engineering, economic, and environmental practices, of deposits of tar sands.

(b) "Tar sands" defined

(1) For purposes of this section, the term "tar sands" means any consolidated or unconsolidated rock (other than coal, oil shale, or gilsonite) that either—

(A) contains a hydrocarbonaceous material with a gas-free viscosity, at original reservoir temperature, greater than 10,000 centipoise; or

(B) contains a hydrocarbonaceous material and is produced by mining or quarrying.

(2) Nothing in this section is intended or shall be construed to affect in any way the definition of the term tar sands under any other provision of Federal law.

(c) Study

The Secretary, in consultation with the Secretary of the Interior, shall submit a study to the House of Representatives and the Committee on Energy and Natural Resources of the Senate within one year after October 24, 1992. Such study shall identify and evaluate the development potential of sources of tar sands in the United States. The study shall also identify and evaluate processes for extracting oil from the identified tar sand sources, including existing tar sands waste tailings, and evaluate the environmental benefits of, and the potential for co-production of minerals and metals from, such processes.

(d) Authorization of appropriations

There are authorized to be appropriated such sums as may be necessary for each of the fiscal years 1993 and 1994 to carry out this section.

(Pub. L. 102–486, title XXX, §3016, Oct. 24, 1992, 106 Stat. 3129.)

§13555. Consultative Commission on Western Hemisphere Energy and Environment

(a) Findings

The Congress finds that—

(1) there is growing mutual economic interdependence among the countries of the Western Hemisphere;

(2) energy and environmental issues are intrinsically linked and must be considered together when formulating policy on the broader issue of sustainable economic development for the Western Hemisphere as a whole;

(3) when developing their respective energy infrastructures, countries in the Western Hemisphere must consider existing and emerging environmental constraints, and do so in a way that results in sustainable long-term economic growth;

(4) the coordination of respective national energy and environmental policies of the governments of the Western Hemisphere could be substantially improved through regular consultation among these countries;

(5) the development, production and consumption of energy can affect environmental quality, and the environmental consequences of energy-related activities are not confined within national boundaries, but are regional and global in scope;

(6) although the Western Hemisphere is richly endowed with indigenous energy resources, an insufficient energy supply would severely constrain future opportunities for sustainable economic development and growth in each of these member countries; and

(7) the energy markets of the United States are linked with those in other countries of the Western Hemisphere and the world.

(b) "Commission" defined

For purposes of this section, the term "Commission" means the Consultative Commission on Western Hemisphere Energy and Environment.

(c) Negotiations

The President is authorized to direct the United States representative to the Organization of American States to initiate negotiations with the Organization of American States for the establishment of a Consultative Commission on Western Hemisphere Energy and Environment under the auspices of the Organization of American States.

(d) The Commission

In the course of the negotiations, the following shall be pursued:

(1) Objectives

The objectives of the Commission shall be—

(A) to evaluate from the viewpoint of the Western Hemisphere as a whole the energy and environmental situations, trends, and policies of the countries of the participating governments necessary to support sustainable economic development;

(B) to recommend to the participating governments actions, policies, and institutional arrangements that will enhance cooperation and policy coordination among their respective countries in the future development and use of indigenous energy resources and technologies, and in the future development and implementation of measures to protect the environment of the Western Hemisphere; and

(C) to recommend to the participating governments actions and policies that will enhance energy and environmental cooperation and coordination among the countries of the Western Hemisphere and the world.

(2) Composition of Commission

The Commission shall include representatives of—

(A) the respective foreign energy and environmental ministries or departments of the participating governments;

(B) the parliamentary or legislative bodies with legislative responsibilities for energy and environmental matters; and

(C) other governmental and non-governmental observers appointed by the heads of each participating government on the basis of their experience and expertise.

(3) Secretariat

A small secretariat shall be chosen by the participating governments for their expertise in the areas of energy and the environment.

(4) Sunset provision

The Commission's authority—

(A) shall terminate five years from the date of the agreement under which it was created; and

(B) may be extended for a five-year term at the expiration of the previous term by agreement of the participating governments.

(e) Report

The President shall, within one year after October 24, 1992, report to the Committee on Energy and Commerce and the Committee on Foreign Affairs of the House of Representatives, and to the Committee on Energy and Natural Resources and the Committee on Foreign Relations of the Senate, on the progress toward the establishment of the Commission and achievement of the purposes of this section.

(Pub. L. 102–486, title XXX, §3020, Oct. 24, 1992, 106 Stat. 3131.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

CHANGE OF NAME

Committee on Energy and Commerce of House of Representatives treated as referring to Committee on Commerce of House of Representatives by section 1(a) of Pub. L. 104–14, set out as a note preceding section 21 of Title 2, The Congress. Committee on Commerce of House of Representatives changed to Committee on Energy and Commerce of House of Representatives, and jurisdiction over matters relating to securities and exchanges and insurance generally transferred to Committee on Financial Services of House of Representatives by House Resolution No. 5, One Hundred Seventh Congress, Jan. 3, 2001.

§13556. Disadvantaged business enterprises

(a) General rule

To the extent practicable, the head of each agency shall provide that the obligation of not less than 10 percent of the total combined amounts obligated for contracts and subcontracts by each agency under this Act and amendments made by this Act pursuant to competitive procedures within the meaning of either division C (except sections 3302, 3307(e), 3501(b), 3509, 3906, 4710, and 4711) of subtitle I of title 41, or chapter 137 legacy provisions (as such term is defined in section 3016 of title 10), shall be expended either with—

(1) small business concerns controlled by socially and economically disadvantaged individuals or women;

(2) historically Black colleges and universities;

(3) colleges and universities having a student body in which more than 20 percent of the students are Hispanic Americans or Native Americans; or

(4) qualified HUBZone small business concerns.

(b) Definitions

For purposes of this section, the following definitions shall apply:

(1) The term "small business concern" has the meaning such term has under section 632 of title 15. However, for purposes of contracts and subcontracts requiring engineering services the applicable size standard shall be that established for military and aerospace equipment and military weapons.

(2) The term "socially and economically disadvantaged individuals" has the meaning such term has under section 637(d) of title 15 and relevant subcontracting regulations promulgated pursuant thereto.

(3) The term "qualified HUBZone small business concern" has the meaning given that term in section 632(p) [1] of title 15.

(Pub. L. 102–486, title XXX, §3021, Oct. 24, 1992, 106 Stat. 3133; Pub. L. 105–135, title VI, §604(g), Dec. 2, 1997, 111 Stat. 2634; Pub. L. 117–81, div. A, title XVII, §1702(j)(6), Dec. 27, 2021, 135 Stat. 2159.)

EDITORIAL NOTES

REFERENCES IN TEXT

This Act, referred to in subsec. (a), is Pub. L. 102–486, Oct. 24, 1992, 106 Stat. 2776, known as the Energy Policy Act of 1992. For complete classification of this Act to the Code, see Short Title note set out under section 13201 of this title and Tables.

Section 632(p) of title 15, referred to in subsec. (b)(3), was redesignated section 657a(b) of Title 15, Commerce and Trade, by Pub. L. 115–91, div. A, title XVII, §1701(a)(2), Dec. 12, 2017, 131 Stat. 1795.

CODIFICATION

In subsec. (a), "division C (except sections 3302, 3307(e), 3501(b), 3509, 3906, 4710, and 4711) of subtitle

I of title 41" substituted for "the Federal Property and Administrative Services Act of 1949 (41 U.S.C. 251 et seq.)" on authority of Pub. L. 111–350, §6(c), Jan. 4, 2011, 124 Stat. 3854, which Act enacted Title 41, Public Contracts.

AMENDMENTS

2021—Subsec. (a). Pub. L. 117–81 substituted "chapter 137 legacy provisions (as such term is defined in section 3016 of title 10)" for "chapter 137 of title 10".

1997—Subsec. (a)(4). Pub. L. 105–135, §604(g)(1), added par. (4).

Subsec. (b)(3). Pub. L. 105–135, §604(g)(2), added par. (3).

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE OF 1997 AMENDMENT

Amendment by Pub. L. 105–135 effective Oct. 1, 1997, see section 3 of Pub. L. 105–135, set out as a note under section 631 of Title 15, Commerce and Trade.

§13557. Sense of Congress on risk assessments

It is the sense of Congress that Federal agencies conducting assessments of risks to human health and the environment from energy technology, production, transport, transmission, distribution, storage, use, or conservation activities shall use sound and objective scientific practices in assessing such risks, shall consider the best available science (including peer reviewed studies), and shall include a description of the weight of the scientific evidence concerning such risks.

(Pub. L. 102–486, title XXX, §3022, as added Pub. L. 109–58, title XIV, §1401, Aug. 8, 2005, 119 Stat. 1061.)

SUBCHAPTER XIII—CLEAN AIR COAL PROGRAM

§13571. Purposes

The purposes of this subchapter are to—

(1) promote national energy policy and energy security, diversity, and economic competitiveness benefits that result from the increased use of coal;

(2) mitigate financial risks, reduce the cost of clean coal generation, and increase the marketplace acceptance of clean coal generation and pollution control equipment and processes; and

(3) facilitate the environmental performance of clean coal generation.

(Pub. L. 102–486, title XXXI, §3101, as added Pub. L. 109–58, title IV, §421(a), Aug. 8, 2005, 119 Stat. 757.)

§13572. Authorization of program

(a) In general

The Secretary shall carry out a program of financial assistance to—

(1) facilitate the production and generation of coal-based power, through the deployment of clean coal electric generating equipment and processes that, compared to equipment or processes that are in operation on a full scale—

(A) improve—

(i) energy efficiency; or

(ii) environmental performance consistent with relevant Federal and State clean air requirements, including those promulgated under the Clean Air Act (42 U.S.C. 7401 et seq.); and

(B) are not yet cost competitive; and

(2) facilitate the utilization of existing coal-based electricity generation plants through projects that—

(A) deploy advanced air pollution control equipment and processes; and

(B) are designed to voluntarily enhance environmental performance above current applicable obligations under the Clean Air Act and State implementation efforts pursuant to such Act.

(b) Financial criteria

As determined by the Secretary for a particular project, financial assistance under this subchapter shall be in the form of—

(1) cost-sharing of an appropriate percentage of the total project cost, not to exceed 50 percent as calculated under section 16352 of this title; or

(2) financial assistance, including grants, cooperative agreements, or loans as authorized under this Act or other statutory authority of the Secretary.

(Pub. L. 102–486, title XXXI, §3102, as added Pub. L. 109–58, title IV, §421(a), Aug. 8, 2005, 119 Stat. 757.)

EDITORIAL NOTES

REFERENCES IN TEXT

The Clean Air Act, referred to in subsec. (a)(1)(A)(ii), (2)(B), is act July 14, 1955, ch. 360, 69 Stat. 322, as amended, which is classified generally to chapter 85 (§7401 et seq.) of this title. For complete classification of this Act to the Code, see Short Title note set out under section 7401 of this title and Tables.

This Act, referred to in subsec. (b)(2), is Pub. L. 102–486, Oct. 24, 1992, 106 Stat. 2776, known as the Energy Policy Act of 1992. For complete classification of this Act to the Code, see Short Title note set out under section 13201 of this title and Tables.

§13573. Generation projects

(a) Eligible projects

Projects supported under section 13572(a)(1) of this title may include—

(1) equipment or processes previously supported by a Department of Energy program;

(2) advanced combustion equipment and processes that the Secretary determines will be cost-effective and could substantially contribute to meeting environmental or energy needs, including gasification, gasification fuel cells, gasification coproduction, oxidation combustion techniques, ultra-supercritical boilers, and chemical looping; and

(3) hybrid gasification/combustion systems, including systems integrating fuel cells with gasification or combustion units.

(b) Criteria

The Secretary shall establish criteria for the selection of generation projects under section 13572(a)(1) of this title. The Secretary may modify the criteria as appropriate to reflect improvements in equipment, except that the criteria shall not be modified to be less stringent. The selection criteria shall include—

(1) prioritization of projects whose installation is likely to result in significant air quality improvements in nonattainment air quality areas;

(2) prioritization of projects whose installation is likely to result in lower emission rates of pollution;

(3) prioritization of projects that result in the repowering or replacement of older, less efficient units;

(4) documented broad interest in the procurement of the equipment and utilization of the processes used in the projects by owners or operators of facilities for electricity generation;

(5) equipment and processes beginning in 2006 through 2011 that are projected to achieve a thermal efficiency of—

(A) 40 percent for coal of more than 9,000 Btu per pound based on higher heating values;

(B) 38 percent for coal of 7,000 to 9,000 Btu per pound passed on higher heating values; and

(C) 36 percent for coal of less than 7,000 Btu per pound based on higher heating values;

except that energy used for coproduction or cogeneration shall not be counted in calculating the thermal efficiency under this paragraph; and

(6) equipment and processes beginning in 2012 and 2013 that are projected to achieve a thermal efficiency of—

(A) 45 percent for coal of more than 9,000 Btu per pound based on higher heating values;

(B) 44 percent for coal of 7,000 to 9,000 Btu per pound passed on higher heating values; and

(C) 40 percent for coal of less than 7,000 Btu per pound based on higher heating values;

except that energy used for coproduction or cogeneration shall not be counted in calculating the thermal efficiency under this paragraph.

(c) Program balance and priority

In carrying out the program under section 13572(a)(1) of this title, the Secretary shall ensure, to the extent practicable, that—

(1) between 25 percent and 75 percent of the projects supported are for the sole purpose of electrical generation; and

(2) priority is given to projects that use electrical generation equipment and processes that have been developed and demonstrated and applied in actual production of electricity, but are not yet cost-competitive, and that achieve greater efficiency and environmental performance.

(d) Authorization of appropriations

There are authorized to be appropriated to the Secretary to carry out section 13572(a)(1) of this title—

(1) $250,000,000 for fiscal year 2007;

(2) $350,000,000 for fiscal year 2008;

(3) $400,000,000 for each of fiscal years 2009 through 2012; and

(4) $300,000,000 for fiscal year 2013.

(e) Applicability

No technology, or level of emission reduction, shall be treated as adequately demonstrated for purpose [1] of section 7411 of this title, achievable for purposes of section 7479 of this title, or achievable in practice for purposes of section 7501 of this title solely by reason of the use of such technology, or the achievement of such emission reduction, by one or more facilities receiving assistance under section 13572(a)(1) of this title.

(Pub. L. 102–486, title XXXI, §3103, as added Pub. L. 109–58, title IV, §421(a), Aug. 8, 2005, 119 Stat. 758.)

[1] So in original. Probably should be "purposes".

§13574. Air quality enhancement program

(a) Eligible projects

Projects supported under section 13572(a)(2) of this title shall—

(1) utilize technologies that meet relevant Federal and State clean air requirements applicable to the unit or facility, including being adequately demonstrated for purposes of section 7411 of this title, achievable for purposes of section 7479 of this title, or achievable in practice for purposes of section 7501 of this title; or

(2) utilize equipment or processes that exceed relevant Federal or State clean air requirements applicable to the unit or facilities included in the projects by achieving greater efficiency or environmental performance.

(b) Priority in project selection

In making an award under section 13572(a)(2) of this title, the Secretary shall give priority to—

(1) projects whose installation is likely to result in significant air quality improvements in nonattainment air quality areas or substantially reduce the emission level of criteria pollutants and mercury air emissions;

(2) projects for pollution control that result in the mitigation or collection of more than 1 pollutant; and

(3) projects designed to allow the use of the waste byproducts or other byproducts of the equipment.

(c) Authorization of appropriations

There are authorized to be appropriated to the Secretary to carry out section 13572(a)(2) of this title—

(1) $300,000,000 for fiscal year 2007;
(2) $100,000,000 for fiscal year 2008;
(3) $40,000,000 for fiscal year 2009;
(4) $30,000,000 for fiscal year 2010; and
(5) $30,000,000 for fiscal year 2011.

(d) Applicability

No technology, or level of emission reduction under subsection (a)(2) shall be treated as adequately demonstrated for purpose of Section [1] 7411 of this title, achievable for purposes of section 7479 of this title, or achievable in practice for purposes of section 7501 of this title solely by reason of the use of such technology, or the achievement of such emission reduction, by one or more facilities receiving assistance under section 13572(a)(2) of this title.

(Pub. L. 102–486, title XXXI, §3104, as added Pub. L. 109–58, title IV, §421(a), Aug. 8, 2005, 119 Stat. 759.)

[1] So in original. Probably should be "purposes of section".

CHAPTER 135—RESIDENCY AND SERVICE REQUIREMENTS IN FEDERALLY ASSISTED HOUSING

SUBCHAPTER I—STANDARDS AND OBLIGATIONS OF RESIDENCY IN FEDERALLY ASSISTED HOUSING

SUBCHAPTER II—AUTHORITY TO PROVIDE PREFERENCES FOR ELDERLY RESIDENTS AND UNITS FOR DISABLED RESIDENTS IN CERTAIN SECTION 8 ASSISTED

SUBCHAPTER I—STANDARDS AND OBLIGATIONS OF RESIDENCY IN FEDERALLY ASSISTED HOUSING

§13601. Compliance by owners as condition of Federal assistance

The Secretary of Housing and Urban Development shall require owners of federally assisted housing (as such term is defined in section 13641(2) of this title), as a condition of receiving housing assistance for such housing, to comply with the procedures and requirements established under this subchapter.

(Pub. L. 102–550, title VI, §641, Oct. 28, 1992, 106 Stat. 3820.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Chapter applicable upon expiration of 6-month period beginning Oct. 28, 1992, except as otherwise provided, see section 13642 of this title.

§13602. Compliance with criteria for occupancy as requirement for tenancy

In selecting tenants for occupancy of units in federally assisted housing, an owner of such housing shall utilize the criteria for occupancy in federally assisted housing established by the Secretary, by regulation, under section 13603 of this title. If an owner determines that an applicant for occupancy in the housing does not meet such criteria, the owner may deny such applicant occupancy.

(Pub. L. 102–550, title VI, §642, Oct. 28, 1992, 106 Stat. 3821.)

§13603. Establishment of criteria for occupancy

(a) Task force

(1) Establishment

To assist the Secretary in establishing reasonable criteria for occupancy in federally assisted housing, the Secretary shall establish a task force to review all rules, policy statements, handbooks, technical assistance memoranda, and other relevant documents issued by the Department of Housing and Urban Development on the standards and obligations governing residency in federally assisted housing and make recommendations to the Secretary for the establishment of such criteria for occupancy.

(2) Members

The Secretary shall appoint members to the task force, which shall include individuals representing the interests of owners, managers, and tenants of federally assisted housing, public housing agencies, owner and tenant advocacy organizations, persons with disabilities and disabled families, organizations assisting homeless individuals, and social service, mental health, and other nonprofit servicer providers who serve federally assisted housing.

(3) Compensation

Members of the task force shall not receive compensation for serving on the task force.

(4) Duties

The task force shall—

(A) review all existing standards, regulations, and guidelines governing occupancy and tenant selection policies in federally assisted housing;

(B) review all existing standards, regulations, and guidelines governing lease provisions and other rules of occupancy for federally assisted housing;

(C) determine whether the standards, regulations, and guidelines reviewed under subparagraphs (A) and (B) provide sufficient guidance to owners and managers of federally assisted housing to—

(i) develop procedures for preselection inquiries sufficient to determine the capacity of applicants to comply with reasonable lease terms and conditions of occupancy;

(ii) utilize leases that prohibit behavior which endangers the health or safety of other tenants or violates the rights of other tenants to peaceful enjoyment of the premises;

(iii) assess the need to provide, and appropriate measures for providing, reasonable accommodations required under the Fair Housing Act [42 U.S.C. 3601 et seq.] and section 794 of title 29 for persons with various types of disabilities; and

(iv) comply with civil rights laws and regulations;

(D) propose criteria for occupancy in federally assisted housing, standards for the reasonable performance and behavior of tenants of federally assisted housing, compliance standards consistent with the reasonable accommodation of the requirements of the Fair Housing Act [42 U.S.C. 3601 et seq.] and section 794 of title 29, standards for compliance with other civil rights laws, and procedures for the eviction of tenants not complying with such standards consistent with sections 1437d and 1437f of this title; and

(E) report to the Congress and the Secretary of Housing and Urban Development pursuant to paragraph (7).

(5) Procedure

In carrying out its duties, the task force shall hold public hearings and receive written comments for a period of not less than 60 days.

(6) Support

The Secretary of Housing and Urban Development shall cooperate fully with the task force and shall provide support staff and office space to assist the task force in carrying out its duties.

(7) Reports

Not later than 3 months after October 28, 1992, the task force shall submit to the Secretary and the Congress a preliminary report describing its initial actions. Not later than 6 months after October 28, 1992, the task force shall submit a report to the Secretary and the Congress, which shall include—

(A) a description of its findings; and

(B) recommendations to revise such standards, regulations, and guidelines to provide accurate and complete guidance to owners and managers of federally assisted housing as determined necessary under paragraph (4).

(b) Rulemaking

(1) Authority

The Secretary shall, by regulation, establish criteria for selection of tenants for occupancy in federally assisted housing and lease provisions for such housing.

(2) Standards

The criteria shall provide sufficient guidance to owners and managers of federally assisted housing to enable them to (A) select tenants capable of complying with reasonable lease terms, (B) utilize leases prohibiting behavior which endangers the health or safety of others or violates the right of other tenants to peaceful enjoyment of the premises, (C) comply with legal requirements to make reasonable accommodations for persons with disabilities, and (D) comply with civil rights laws. The criteria shall be consistent with the requirements under subsections (k) and (l) of section 1437d of this title and section 1437f(d)(1) of this title and any similar contract and lease requirements for federally assisted housing. In establishing the criteria, the Secretary shall take into consideration the report of the task force under subsection (a)(7).

(3) Procedure

Not later than 90 days after the submission of the final report under subsection (a)(7), the Secretary shall issue a notice of proposed rulemaking of the regulations under this subsection providing for notice and opportunity for public comment regarding the regulations, pursuant to the provisions of section 553 of title 5 (notwithstanding subsections (a)(2), (b)(B), and (d)(3) of such section). The duration of the period for public comment under such section 553 shall not be less than 60 days. The Secretary shall issue final regulations under this subsection not later than the expiration of the 60-day period beginning upon the conclusion of the comment period, which shall take effect upon issuance.

(Pub. L. 102–550, title VI, §643, Oct. 28, 1992, 106 Stat. 3821.)

EDITORIAL NOTES

REFERENCES IN TEXT

The Fair Housing Act, referred to in subsec. (a)(4)(C)(iii), (D), is title VIII of Pub. L. 90–284, Apr. 11, 1968, 82 Stat. 81, as amended, which is classified principally to subchapter I (§3601 et seq.) of chapter 45 of this title. For complete classification of this Act to the Code, see Short Title note set out under section 3601 of this title and Tables.

§13604. Assisted applications

(a) Authority

The Secretary shall provide that any individual or family applying for occupancy in federally assisted housing may include in the application for the housing the name, address, phone number, and other relevant information of a family member, friend, or social, health, advocacy, or other organization, and that the owner shall treat such information as confidential.

(b) Maintenance of information

The Secretary shall require the owner of any federally assisted housing receiving an application including such information to maintain such information for any applicants who become tenants of the housing, for the purposes of facilitating contact by the owner with such person or organization to assist in providing any services or special care for the tenant and assist in resolving any relevant tenancy issues arising during the tenancy of such tenant.

(c) Limitations

An owner of federally assisted housing may not require any individual or family applying for occupancy in the housing to provide the information described in subsection (a).

(Pub. L. 102–550, title VI, §644, Oct. 28, 1992, 106 Stat. 3823.)

SUBCHAPTER II—AUTHORITY TO PROVIDE PREFERENCES FOR ELDERLY RESIDENTS AND UNITS FOR DISABLED RESIDENTS IN CERTAIN SECTION 8 ASSISTED HOUSING

§13611. Authority

Notwithstanding any other provision of law, an owner of a covered section 8 housing project (as such term is defined in section 13619 of this title) designed primarily for occupancy by elderly families may, in selecting tenants for units in the project that become available for occupancy, give preference to elderly families who have applied for occupancy in the housing, subject to the requirements of this subchapter.

(Pub. L. 102–550, title VI, §651, Oct. 28, 1992, 106 Stat. 3823.)

EDITORIAL NOTES

REFERENCES IN TEXT

This subchapter, referred to in text, was in the original "this subtitle", meaning subtitle D of title VI of Pub. L. 102–550, Oct. 28, 1992, 106 Stat. 3823, which enacted this subchapter and amended section 1437f of this title.

§13612. Reservation of units for disabled families

(a) Requirement

Notwithstanding any other provision of law, for any project for which an owner gives preference in occupancy to elderly families pursuant to section 13611 of this title, such owner shall (subject to sections 13613, 13614, and 13615 of this title) reserve units in the project for occupancy only by disabled families who are not elderly or near-elderly families (and who have applied for occupancy in the housing) in the number determined under subsection (b).

(b) Number of units

Each owner required to reserve units in a project for occupancy under subsection (a) shall reserve a number of units in the project that is not less than the lesser of—

(1) the number of units equivalent to the higher of—

(A) the percentage of units in the project that were occupied by such disabled families upon October 28, 1992; or

(B) the percentage of units in the project that were occupied by such families upon January 1, 1992; or

(2) 10 percent of the number of units in the project.

(Pub. L. 102–550, title VI, §652, Oct. 28, 1992, 106 Stat. 3823.)

§13613. Secondary preferences

(a) Insufficient elderly families

If an owner of a covered section 8 housing project in which elderly families are given a preference for occupancy pursuant to section 13611 of this title determines (in accordance with regulations established by the Secretary) that there are insufficient numbers of elderly families who have applied for occupancy in the housing to fill all the units in the project not reserved under section 13612 of this title, the owner may give preference for occupancy of such units to disabled families who are near-elderly families and have applied for occupancy in the housing.

(b) Insufficient non-elderly disabled families

If an owner of a covered section 8 housing project in which elderly families are given a preference for occupancy pursuant to section 13611 of this title determines (in accordance with regulations established by the Secretary) that there are insufficient numbers of disabled families who are not elderly or near-elderly families and have applied for occupancy in the housing to fill all the units in the project reserved under section 13612 of this title, the owner may give preference for occupancy of units so reserved to disabled families who are near-elderly families and have applied for occupancy in the housing.

(Pub. L. 102–550, title VI, §653, Oct. 28, 1992, 106 Stat. 3824.)

EDITORIAL NOTES

REFERENCES IN TEXT

Covered section 8 housing, referred to in text, is defined in section 13619 of this title.

§13614. General availability of units

If an owner of a covered section 8 housing project in which disabled families who are near-elderly families are given a preference for occupancy pursuant to subsection (a) or (b) of section 13613 of this title determines (in accordance with regulations established by the Secretary) that there are an insufficient number of such families to fill all the units in the project for which the preference is applicable, the owner shall make such units generally available for occupancy by families who have applied, and are eligible, for occupancy in the housing, without regard to the preferences established pursuant to this subchapter.

(Pub. L. 102–550, title VI, §654, Oct. 28, 1992, 106 Stat. 3824.)

EDITORIAL NOTES

REFERENCES IN TEXT

Covered section 8 housing, referred to in text, is defined in section 13619 of this title.

§13615. Preference within groups

Among disabled families qualifying for occupancy in units reserved under section 13612 of this title, and among elderly families and near-elderly families qualifying for preference for occupancy pursuant to section 13611 or 13613 of this title, preference for occupancy in units that are assisted

under section 1437f of this title shall be given to disabled families according to any preferences established under any system established under section 1437f(d)(1)(A) of this title by the public housing agency.

(Pub. L. 102–550, title VI, §655, Oct. 28, 1992, 106 Stat. 3824; Pub. L. 104–99, title IV, §402(d)(6)(C), Jan. 26, 1996, 110 Stat. 43; Pub. L. 105–276, title V, §514(b)(2)(B), Oct. 21, 1998, 112 Stat. 2548.)

EDITORIAL NOTES

AMENDMENTS

1998—Pub. L. 105–276 substituted "shall be given to disabled families according to any preferences established under any system established under section 1437f(d)(1)(A) of this title by the public housing agency." for "shall be given to disabled families according to the preferences for occupancy referred to in section 1437f(d)(1)(A)(i) of this title and the first sentence of section 1437f(o)(3)(B) of this title, to elderly families according to such preferences, and to near-elderly families according to such preferences, respectively."

1996—Pub. L. 104–99, §402(d)(6)(C), (f), temporarily substituted "any preferences" for "the preferences for occupancy referred to in section 1437f(d)(1)(A)(i) of this title and the first sentence of section 1437f(o)(3)(B) of this title, to elderly families according to such preferences, and to near-elderly families according to such preferences, respectively". See Effective and Termination Dates of 1996 Amendment note below.

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE AND TERMINATION DATES OF 1996 AMENDMENT

Amendment by Pub. L. 104–99 effective Jan. 26, 1996, only for fiscal years 1996, 1997, and 1998, and to cease to be effective Oct. 21, 1998, see section 402(f) of Pub. L. 104–99, as amended, and section 514(f) of Pub. L. 105–276, set out as notes under section 1437a of this title.

§13616. Prohibition of evictions

Any tenant who, except for reservation of a percentage of the units of a project pursuant to section 13612 of this title or any preference for occupancy established pursuant to this subchapter, is lawfully residing in a dwelling unit in a covered section 8 housing project, may not be evicted or otherwise required to vacate such unit because of the reservation or preferences or because of any action taken by the Secretary of Housing and Urban Development or the owner of the project pursuant to this subchapter.

(Pub. L. 102–550, title VI, §656, Oct. 28, 1992, 106 Stat. 3824.)

EDITORIAL NOTES

REFERENCES IN TEXT

Covered section 8 housing, referred to in text, is defined in section 13619 of this title.

§13617. Treatment of covered section 8 housing not subject to elderly preference

If an owner of any covered section 8 housing project designed primarily for occupancy by elderly families does not give preference in occupancy to elderly families as authorized in this subchapter, then elderly families (as such term was defined in section 1437a of this title before October 28, 1992) shall be eligible for occupancy in such housing to the same extent that such families were eligible before October 28, 1992.

(Pub. L. 102–550, title VI, §657, Oct. 28, 1992, 106 Stat. 3825.)

EDITORIAL NOTES

REFERENCES IN TEXT

Covered section 8 housing, referred to in text, is defined in section 13619 of this title.

§13618. Treatment of other federally assisted housing

(a) Restricted occupancy

An owner of any federally assisted project (or portion of a project) as described in subparagraphs (D), (E), and (F) of section 13641(2) of this title that was designed for occupancy by elderly families may continue to restrict occupancy in such project (or portion) to elderly families in accordance with the rules, standards, and agreements governing occupancy in such housing in effect at the time of the development of the housing.

(b) Prohibition of evictions

Any tenant who is lawfully residing in a dwelling unit in a housing project described in subsection (a) may not be evicted or otherwise required to vacate such unit because of any reservation or preferences under this subchapter or because of any action taken by the Secretary of Housing and Urban Development or the owner of the project pursuant to this subchapter.

(Pub. L. 102–550, title VI, §658, Oct. 28, 1992, 106 Stat. 3825.)

§13619. "Covered section 8 housing" defined

For purposes of this subchapter, the term "covered section 8 housing" means housing described in section 13641(2)(G) of this title that was originally designed for occupancy by elderly families.

(Pub. L. 102–550, title VI, §659, Oct. 28, 1992, 106 Stat. 3825.)

§13620. Study

The Secretary of Housing and Urban Development shall conduct a study to determine the extent to which Federal housing programs serve elderly families, disabled families, and families with children, in relation to the need of such families who are eligible for assistance under such programs. The Secretary shall submit a report to the Congress describing the study and the findings of the study not later than the expiration of the 1-year period beginning on October 28, 1992.

(Pub. L. 102–550, title VI, §661, Oct. 28, 1992, 106 Stat. 3825.)

SUBCHAPTER III—SERVICE COORDINATORS FOR ELDERLY AND DISABLED RESIDENTS OF FEDERALLY ASSISTED HOUSING

§13631. Requirement to provide service coordinators

(a) In general

To the extent that amounts are made available for providing service coordinators under this section, the Secretary shall require owners of covered federally assisted housing projects (as such term is defined in subsection (d)) receiving such amounts to provide for employing or otherwise

retaining the services of one or more individuals to coordinate the provision of supportive services for elderly and disabled families residing in the projects (in this section referred to as a "service coordinator"). No such elderly or disabled family may be required to accept services.

(b) Responsibilities

Each service coordinator of a covered federally assisted housing project provided pursuant to this subtitle [1] or the amendments made by this subtitle— [1]

(1) shall consult with the owner of the housing, tenants, any tenant organizations, any resident management organizations, service providers, and any other appropriate persons, to identify the particular needs and characteristics of elderly and disabled families who reside in the project and any supportive services related to such needs and characteristics;

(2) shall manage and coordinate the provision of such services for residents of the project;

(3) may provide training to tenants of the project in the obligations of tenancy or coordinate such training;

(4) shall meet the minimum qualifications and standards required under section 8011(d)(4) of this title; and

(5) may carry out other appropriate activities for residents of the project.

(c) Included services

Supportive services referred to under subsection (b)(1) may include health-related services, mental health services, services for nonmedical counseling, meals, transportation, personal care, bathing, toileting, housekeeping, chore assistance, safety, group and socialization activities, assistance with medications (in accordance with any applicable State laws), case management, personal emergency response, education and outreach regarding telemarketing fraud in accordance with the standards issued under subsection (f), and other appropriate services. The services may be provided through any agency of the Federal Government or any other public or private department, agency, or organization.

(d) Covered federally assisted housing

For purposes of this subtitle,[1] the term "covered federally assisted housing" means housing that is federally assisted housing (as such term is defined in section 13641(2) of this title), except that such term does not include housing described in subparagraphs (C) and (D) of such section.

(e) Services for low-income elderly or disabled families residing in vicinity of certain projects

To the extent only that this section applies to service coordinators for covered federally assisted housing described in subparagraphs (B), (C), (D), (E), (F), and (G) of section 13641(2) of this title, any reference in this section to elderly or disabled residents of a project shall be construed to include low-income elderly or disabled families living in the vicinity of such project.

(f) Protection against telemarketing fraud

(1) In general

The Secretary, in coordination with the Secretary of Health and Human Services, shall establish standards for service coordinators in federally assisted housing who are providing education and outreach to elderly persons residing in such housing regarding telemarketing fraud. The standards shall be designed to ensure that such education and outreach informs such elderly persons of the dangers of telemarketing fraud and facilitates the investigation and prosecution of telemarketers engaging in fraud against such residents.

(2) Contents

The standards established under this subsection shall require that any such education and outreach be provided in a manner that—

(A) informs such residents of—

(i) the prevalence of telemarketing fraud targeted against elderly persons;

(ii) how telemarketing fraud works;

(iii) how to identify telemarketing fraud;

(iv) how to protect themselves against telemarketing fraud, including an explanation of the dangers of providing bank account, credit card, or other financial or personal information over the telephone to unsolicited callers;

(v) how to report suspected attempts at telemarketing fraud; and

(vi) their consumer protection rights under Federal law;

(B) provides such other information as the Secretary considers necessary to protect such residents against fraudulent telemarketing; and

(C) disseminates the information provided by appropriate means, and in determining such appropriate means, the Secretary shall consider on-site presentations at federally assisted housing, public service announcements, a printed manual or pamphlet, an Internet website, and telephone outreach to residents whose names appear on "mooch lists" confiscated from fraudulent telemarketers.

(Pub. L. 102–550, title VI, §671, Oct. 28, 1992, 106 Stat. 3826; Pub. L. 106–569, title VIII, §851(b), (c)(2), Dec. 27, 2000, 114 Stat. 3024.)

EDITORIAL NOTES

REFERENCES IN TEXT

This subtitle, referred to in subsecs. (b) and (d), means subtitle E of title VI of Pub. L. 102–550, Oct. 28, 1992, 106 Stat. 3826, which enacted this subchapter, amended sections 1437f, 1437g, and 8011 of this title and section 1701q of Title 12, Banks and Banking, and enacted provisions set out as a note under section 1701q of Title 12.

AMENDMENTS

2000—Subsec. (a). Pub. L. 106–569, §851(b)(1), in first sentence, substituted "for providing service coordinators under this section," for "to carry out this subtitle pursuant to the amendments made by this subtitle,".

Subsec. (c). Pub. L. 106–569, §851(c)(2)(A), in first sentence, inserted "education and outreach regarding telemarketing fraud in accordance with the standards issued under subsection (f)," after "response,".

Subsec. (d). Pub. L. 106–569, §851(b)(2), inserted closing parenthesis after "section 13641(2) of this title".

Subsec. (e). Pub. L. 106–569, §851(b)(3), added subsec. (e).

Subsec. (f). Pub. L. 106–569, §851(c)(2)(B), added subsec. (f).

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE OF 2000 AMENDMENT

Amendment by title VIII of Pub. L. 106–569 effective Dec. 27, 2000, unless effectiveness or applicability upon another date certain is specifically provided for, with provisions relating to effect of regulatory authority, see section 803 of Pub. L. 106–569, set out as a note under section 1701q of Title 12, Banks and Banking.

[1] *See References in Text note below.*

§13632. Grants for costs of providing service coordinators in certain federally assisted housing

(a) Authority

The Secretary may make grants under this section to owners of federally assisted housing projects described in subparagraphs (B), (C), (D), (E), (F), and (G) of section 13641(2) of this title. Any grant amounts shall be used for the costs of employing or otherwise retaining the services of one or more service coordinators under section 13631 of this title to coordinate the provision of any services within the project for residents of the project who are elderly families and disabled families (as such terms are defined in section 13641 of this title). A service coordinator funded with a grant under this

section for a project may provide services to low-income elderly or disabled families living in the vicinity of such project.

(b) Application and selection

The Secretary shall provide for the form and manner of applications for grants under this section and for selection of applicants to receive such grants.

(c) Eligible project expense

For any federally assisted housing project described in subparagraph (B), (C), (D), (E), (F), or (G) of section 13641(2) of this title that does not receive a grant under this section, the cost of employing or otherwise retaining the services of one or more service coordinators under section 13631 of this title and not more than 15 percent of the cost of providing services to the residents of the project shall be considered an eligible project expense, but only to the extent that amounts are available from project rent and other income for such costs.

(Pub. L. 102–550, title VI, §676, Oct. 28, 1992, 106 Stat. 3828; Pub. L. 106–569, title VIII, §851(a), Dec. 27, 2000, 114 Stat. 3023.)

EDITORIAL NOTES

AMENDMENTS

2000—Pub. L. 106–569, §851(a)(1), substituted "certain federally assisted housing" for "multifamily housing assisted under National Housing Act" in section catchline.

Subsec. (a). Pub. L. 106–569, §851(a)(2), substituted "subparagraphs (B), (C), (D), (E), (F), and (G) of section 13641(2) of this title" for "subparagraphs (E) and (F) of section 13641(2) of this title", made technical amendment to reference in original act which appears in text as reference to section 13631 of this title, and inserted at end "A service coordinator funded with a grant under this section for a project may provide services to low-income elderly or disabled families living in the vicinity of such project."

Subsec. (c). Pub. L. 106–569, §851(a)(4), redesignated subsec. (d) as (c) and struck out heading and text of former subsec. (c). Text read as follows: "There are authorized to be appropriated for fiscal years 1993 and 1994 such sums as may be necessary for grants under this section."

Subsec. (d). Pub. L. 106–569, §851(a)(4), redesignated subsec. (d) as (c).

Pub. L. 106–569, §851(a)(3), substituted "subparagraph (B), (C), (D), (E), (F), or (G) of section 13641(2) of this title" for "subparagraph (E) or (F) of section 13641(2) of this title" and made technical amendment to reference in original act which appears in text as reference to section 13631 of this title.

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE OF 2000 AMENDMENT

Amendment by title VIII of Pub. L. 106–569 effective Dec. 27, 2000, unless effectiveness or applicability upon another date certain is specifically provided for, with provisions relating to effect of regulatory authority, see section 803 of Pub. L. 106–569, set out as a note under section 1701q of Title 12, Banks and Banking.

SUBCHAPTER IV—GENERAL PROVISIONS

§13641. Definitions

For purposes of this title: [1]

(1) Elderly, disabled, and near-elderly families

The terms "elderly family", "disabled family", and "near-elderly family" have the meanings given the terms under section 3(b)(3) of the United States Housing Act of 1937 [42 U.S.C. 1437a(b)(3)].

(2) Federally assisted housing

The terms "federally assisted housing" and "project" mean—

(A) a public housing project (as such term is defined in section 3(b) of the United States Housing Act of 1937 [42 U.S.C. 1437a(b)]);

(B) housing for which project-based assistance is provided under section 8 of the United States Housing Act of 1937 [42 U.S.C. 1437f];

(C) housing that is assisted under section 1701q of title 12;

(D) housing that is assisted under section 1701q of title 12, as such section existed before November 28, 1990;

(E) housing financed by a loan or mortgage insured under section 1715l(d)(3) of title 12 that bears interest at a rate determined under the proviso of section 1715l(d)(5) of title 12;

(F) housing insured, assisted, or held by the Secretary or a State or State agency under section 1715z–1 of title 12;

(G) housing constructed or substantially rehabilitated pursuant to assistance provided under section 8(b)(2) of the United States Housing Act of 1937 [42 U.S.C. 1437f(b)(2)], as in effect before October 1, 1983, that is assisted under a contract for assistance under such section; and

(H) housing that is assisted under section 8013 [1] of this title.

(3) Housing assistance

The term "housing assistance" means, with respect to federally assisted housing, the grant, contribution, capital advance, loan, mortgage insurance, or other assistance provided for the housing under the provisions of law referred to in paragraph (2). The term also includes any related assistance provided for the housing by the Secretary, including any rental assistance for low-income occupants.

(4) Owner

The term "owner" means, with respect to federally assisted housing, the entity or private person, including a cooperative or public housing agency, that has the legal right to lease or sublease dwelling units in such housing.

(5) Secretary

The term "Secretary" means the Secretary of Housing and Urban Development.

(Pub. L. 102–550, title VI, §683, Oct. 28, 1992, 106 Stat. 3831; Pub. L. 111–8, div. I, title II, §228, Mar. 11, 2009, 123 Stat. 978.)

EDITORIAL NOTES

REFERENCES IN TEXT

This title, referred to in text, is title VI of Pub. L. 102–550, Oct. 28, 1992, 106 Stat. 3802, which enacted this chapter, amended sections 1437a, 1437c to 1437g, 1437l, 1437o, 1438, 8011 to 8013, 12705, 12901 to 12910, and 12912 of this title and section 1701q of Title 12, Banks and Banking, enacted provisions set out as notes under sections 1437a, 8011, and 12901 of this title and section 1701q of Title 12, and amended provisions set out as a note under section 1701q of Title 12. For complete classification of this title to the Code, see Short Title of 1992 Amendment note set out under section 5301 of this title and Tables.

Section 8013 of this title, referred to in par. (2)(H), was in the original "section 811 of the Cranston-Gonzalez Affording Housing Act (42 U.S.C. 8013)", and was translated as reading "section 811 of the Cranston-Gonzalez National Affordable Housing Act", which is classified to section 8013 of this title, to reflect the probable intent of Congress.

AMENDMENTS

2009—Par. (2)(H). Pub. L. 111–8 added subpar. (H).

Subtitles B through F of this title, referred to in text, mean subtitles B to F of title VI of Pub. L. 102–550, Oct. 28, 1992, 106 Stat. 3812–3830, which enacted this chapter, amended sections 1437a, 1437c to 1437g, 1437l, 1437o, 1438, 8011, 8013, and 12705 of this title and section 1701q of Title 12, Banks and Banking, and enacted provisions set out as notes under section 1437a of this title and section 1701q of Title 12.

SUBCHAPTER V—SAFETY AND SECURITY IN PUBLIC AND ASSISTED HOUSING

§13661. Screening of applicants for federally assisted housing

(a) Ineligibility because of eviction for drug crimes

Any tenant evicted from federally assisted housing by reason of drug-related criminal activity (as such term is defined in section 1437a(b) of this title) shall not be eligible for federally assisted housing during the 3-year period beginning on the date of such eviction, unless the evicted tenant successfully completes a rehabilitation program approved by the public housing agency (which shall include a waiver of this subsection if the circumstances leading to eviction no longer exist).

(b) Ineligibility of illegal drug users and alcohol abusers

(1) In general

Notwithstanding any other provision of law, a public housing agency or an owner of federally assisted housing, as determined by the Secretary, shall establish standards that prohibit admission to the program or admission to federally assisted housing for any household with a member—

(A) who the public housing agency or owner determines is illegally using a controlled

substance; or

(B) with respect to whom the public housing agency or owner determines that it has reasonable cause to believe that such household member's illegal use (or pattern of illegal use) of a controlled substance, or abuse (or pattern of abuse) of alcohol, may interfere with the health, safety, or right to peaceful enjoyment of the premises by other residents.

(2) Consideration of rehabilitation

In determining whether, pursuant to paragraph (1)(B), to deny admission to the program or federally assisted housing to any household based on a pattern of illegal use of a controlled substance or a pattern of abuse of alcohol by a household member, a public housing agency or an owner may consider whether such household member—

(A) has successfully completed a supervised drug or alcohol rehabilitation program (as applicable) and is no longer engaging in the illegal use of a controlled substance or abuse of alcohol (as applicable);

(B) has otherwise been rehabilitated successfully and is no longer engaging in the illegal use of a controlled substance or abuse of alcohol (as applicable); or

(C) is participating in a supervised drug or alcohol rehabilitation program (as applicable) and is no longer engaging in the illegal use of a controlled substance or abuse of alcohol (as applicable).

(c) Authority to deny admission to criminal offenders

Except as provided in subsections (a) and (b) of this section and in addition to any other authority to screen applicants, in selecting among applicants for admission to the program or to federally assisted housing, if the public housing agency or owner of such housing (as applicable) determines that an applicant or any member of the applicant's household is or was, during a reasonable time preceding the date when the applicant household would otherwise be selected for admission, engaged in any drug-related or violent criminal activity or other criminal activity which would adversely affect the health, safety, or right to peaceful enjoyment of the premises by other residents, the owner, or public housing agency employees, the public housing agency or owner may—

(1) deny such applicant admission to the program or to federally assisted housing; and

(2) after the expiration of the reasonable period beginning upon such activity, require the applicant, as a condition of admission to the program or to federally assisted housing, to submit to the public housing agency or owner evidence sufficient (as the Secretary shall by regulation provide) to ensure that the individual or individuals in the applicant's household who engaged in criminal activity for which denial was made under paragraph (1) have not engaged in any criminal activity during such reasonable period.

(Pub. L. 105–276, title V, §576, Oct. 21, 1998, 112 Stat. 2639.)

EDITORIAL NOTES

CODIFICATION

Section was enacted as part of the Quality Housing and Work Responsibility Act of 1998, and not as part of subtitles C to F of title VI of Pub. L. 102–550 which comprise this chapter.

Section is comprised of section 576 of Pub. L. 105–276. Subsec. (d) of section 576 of Pub. L. 105–276 amended sections 1437d and 1437n of this title.

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective and applicable beginning upon Oct. 1, 1999, except as otherwise provided, with provision that Secretary may implement any provision of this section before such date, except to extent otherwise provided, see section 503 of Pub. L. 105–276, set out as an Effective Date of 1998 Amendment note under section 1437 of this title.

§13662. Termination of tenancy and assistance for illegal drug users and alcohol abusers in federally assisted housing

(a) In general

Notwithstanding any other provision of law, a public housing agency or an owner of federally assisted housing (as applicable), shall establish standards or lease provisions for continued assistance or occupancy in federally assisted housing that allow the agency or owner (as applicable) to terminate the tenancy or assistance for any household with a member—

(1) who the public housing agency or owner determines is illegally using a controlled substance; or

(2) whose illegal use (or pattern of illegal use) of a controlled substance, or whose abuse (or pattern of abuse) of alcohol, is determined by the public housing agency or owner to interfere with the health, safety, or right to peaceful enjoyment of the premises by other residents.

(b) Consideration of rehabilitation

In determining whether, pursuant to subsection (a)(2), to terminate tenancy or assistance to any household based on a pattern of illegal use of a controlled substance or a pattern of abuse of alcohol by a household member, a public housing agency or an owner may consider whether such household member—

(1) has successfully completed a supervised drug or alcohol rehabilitation program (as applicable) and is no longer engaging in the illegal use of a controlled substance or abuse of alcohol (as applicable);

(2) has otherwise been rehabilitated successfully and is no longer engaging in the illegal use of a controlled substance or abuse of alcohol (as applicable); or

(3) is participating in a supervised drug or alcohol rehabilitation program (as applicable) and is no longer engaging in the illegal use of a controlled substance or abuse of alcohol (as applicable).

(Pub. L. 105–276, title V, §577, Oct. 21, 1998, 112 Stat. 2640.)

EDITORIAL NOTES

CODIFICATION

Section was enacted as part of the Quality Housing and Work Responsibility Act of 1998, and not as part of subtitles C to F of title VI of Pub. L. 102–550 which comprise this chapter.

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective and applicable beginning upon Oct. 1, 1999, except as otherwise provided, with provision that Secretary may implement any provision of this section before such date, except to extent otherwise provided, see section 503 of Pub. L. 105–276, set out as an Effective Date of 1998 Amendment note under section 1437 of this title.

§13663. Ineligibility of dangerous sex offenders for admission to public housing

(a) In general

Notwithstanding any other provision of law, an owner of federally assisted housing shall prohibit admission to such housing for any household that includes any individual who is subject to a lifetime registration requirement under a State sex offender registration program.

(b) Obtaining information

As provided in regulations issued by the Secretary to carry out this section—

(1) a public housing agency shall carry out criminal history background checks on applicants for

federally assisted housing and make further inquiry with State and local agencies as necessary to determine whether an applicant for federally assisted housing is subject to a lifetime registration requirement under a State sex offender registration program; and

(2) State and local agencies responsible for the collection or maintenance of criminal history record information or information on persons required to register as sex offenders shall comply with requests of public housing agencies for information pursuant to this section.

(c) Requests by owners for PHAs to obtain information

A public housing agency may take any action under subsection (b) regarding applicants for, or tenants of, federally assisted housing other than federally assisted housing described in subparagraph (A) or (B) of section 13664(a)(2) of this title, but only if the housing is located within the jurisdiction of the agency and the owner of such housing has requested that the agency take such action on behalf of the owner. Upon such a request by the owner, the agency shall take the action requested under subsection (b). The agency may not make any information obtained pursuant to the action under subsection (b) available to the owner but shall perform determinations for the owner regarding screening, lease enforcement, and eviction based on criteria supplied by the owner.

(d) Opportunity to dispute

Before an adverse action is taken with respect to an applicant for federally assisted housing on the basis that an individual is subject to a lifetime registration requirement under a State sex offender registration program, the public housing agency obtaining the record shall provide the tenant or applicant with a copy of the registration information and an opportunity to dispute the accuracy and relevance of that information.

(e) Fee

A public housing agency may be charged a reasonable fee for taking actions under subsection (b). In the case of a public housing agency taking actions on behalf of another owner of federally assisted housing pursuant to subsection (c), the agency may pass such fee on to the owner making the request and may charge an additional reasonable fee for making the request on behalf of the owner.

(f) Records management

Each public housing agency shall establish and implement a system of records management that ensures that any criminal record or information regarding a lifetime registration requirement under a State sex offender registration program that is obtained under this section by the public housing agency is—

(1) maintained confidentially;

(2) not misused or improperly disseminated; and

(3) destroyed, once the purpose for which the record was requested has been accomplished.

(Pub. L. 105–276, title V, §578, Oct. 21, 1998, 112 Stat. 2641.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective and applicable beginning upon Oct. 1, 1999, except as otherwise provided, with provision that Secretary may implement any provision of this section before such date, except to extent otherwise provided, see section 503 of Pub. L. 105–276, set out as an Effective Date of 1998 Amendment note under section 1437 of this title.

§13664. Definitions

(a) [1] Definitions

For purposes of this subchapter, the following definitions shall apply:

(1) Drug-related criminal activity

The term "drug-related criminal activity" has the meaning given the term in section 1437a(b) of this title.

(2) Federally assisted housing

The term "federally assisted housing" means a dwelling unit—

(A) in public housing (as such term is defined in section 1437a(b) of this title);

(B) assisted with tenant-based assistance under section 1437f of this title;

(C) in housing that is provided project-based assistance under section 1437f of this title, including new construction and substantial rehabilitation projects;

(D) in housing that is assisted under section 1701q of title 12 (as amended by section 801 of the Cranston-Gonzalez National Affordable Housing Act);

(E) in housing that is assisted under section 1701q of title 12, as such section existed before the enactment of the Cranston-Gonzalez National Affordable Housing Act [November 28, 1990];

(F) in housing that is assisted under section 8013 of this title;

(G) in housing financed by a loan or mortgage insured under section 1715l(d)(3) of title 12 that bears interest at a rate determined under the proviso of section 1715l(d)(5) of title 12;

(H) in housing insured, assisted, or held by the Secretary or a State or State agency under section 1715z–1 of title 12; or

(I) in housing assisted under section 1484 or 1485 of this title.

(3) Owner

The term "owner" means, with respect to federally assisted housing, the entity or private person (including a cooperative or public housing agency) that has the legal right to lease or sublease dwelling units in such housing.

(Pub. L. 105–276, title V, §579, Oct. 21, 1998, 112 Stat. 2642.)

EDITORIAL NOTES

REFERENCES IN TEXT

Section 801 of the Cranston-Gonzalez National Affordable Housing Act, referred to in subsec. (a)(2)(D), is section 801 of Pub. L. 101–625.

CODIFICATION

Section was enacted as part of the Quality Housing and Work Responsibility Act of 1998, and not as part of subtitles C to F of title VI of Pub. L. 102–550 which comprise this chapter.

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective and applicable beginning upon Oct. 1, 1999, except as otherwise provided, with provision that Secretary may implement any provision of this section before such date, except to extent otherwise provided, see section 503 of Pub. L. 105–276, set out as an Effective Date of 1998 Amendment note under section 1437 of this title.

CODIFICATION

This part was, in the original, subtitle H of title IV of Pub. L. 103–322, as added by Pub. L. 106–386, and was redesignated as part G of this subchapter for purposes of codification.

§14041. Transferred

EDITORIAL NOTES

CODIFICATION

Section 14041 was editorially reclassified as section 12421 of Title 34, Crime Control and Law Enforcement.

§§14041a, 14041b. Omitted

EDITORIAL NOTES

CODIFICATION

Sections 14041a and 14041b were omitted in the general amendment of this part by Pub. L. 113–4, title II, §204(a), Mar. 7, 2013, 127 Stat. 82.

Section 14041a, Pub. L. 103–322, title IV, §40802, as added Pub. L. 106–386, div. B, title II, §1209(a), Oct. 28, 2000, 114 Stat. 1509; amended Pub. L. 109–162, title II, §205(a), Jan. 5, 2006, 119 Stat. 3002, related to enhanced training and services to end violence against and abuse of women later in life.

Section 14041b, Pub. L. 103–322, title IV, §40803, as added Pub. L. 106–386, div. B, title II, §1209(a), Oct. 28, 2000, 114 Stat. 1509; amended Pub. L. 109–162, title II, §205(b), Jan. 5, 2006, 119 Stat. 3002, authorized appropriations for fiscal years 2007 through 2011.

PART H—DOMESTIC VIOLENCE TASK FORCE

EDITORIAL NOTES

CODIFICATION

This part was, in the original, subtitle I of title IV of Pub. L. 103–322, as added by Pub. L. 106–386, and was redesignated as part H of this subchapter for purposes of codification.

§14042. Transferred

EDITORIAL NOTES

CODIFICATION

Section 14042 was editorially reclassified as section 12431 of Title 34, Crime Control and Law Enforcement.

STATUTORY NOTES AND RELATED SUBSIDIARIES

STUDY OF STATE LAWS REGARDING INSURANCE DISCRIMINATION AGAINST VICTIMS OF VIOLENCE AGAINST WOMEN

Pub. L. 106–386, div. B, title II, §1206, Oct. 28, 2000, 114 Stat. 1507, directed the Attorney General to conduct a national study to identify State laws that address insurance discrimination against victims of domestic violence and sexual assault and to submit to Congress a report and recommendations based on that study not later than 1 year after Oct. 28, 2000.

STUDY OF WORKPLACE EFFECTS FROM VIOLENCE AGAINST WOMEN

Pub. L. 106–386, div. B, title II, §1207, Oct. 28, 2000, 114 Stat. 1507, directed the Attorney General to conduct a national survey of programs to assist employers and employees on appropriate responses in the workplace to victims of domestic violence, stalking, or sexual assault, and not later than 18 months after Oct. 28, 2000, to submit to Congress a report and recommendations based on that survey.

STUDY OF UNEMPLOYMENT COMPENSATION FOR VICTIMS OF VIOLENCE AGAINST WOMEN

Pub. L. 106–386, div. B, title II, §1208, Oct. 28, 2000, 114 Stat. 1508, directed the Secretary of Labor, in consultation with the Attorney General, to conduct a national study to identify the impact of State unemployment compensation laws on victims of domestic violence when the victim's separation from employment is a direct result of the domestic violence and to submit to Congress a report and recommendations based on that study not later than 1 year after Oct. 28, 2000.

CODIFICATION

Section 14223 was editorially reclassified as section 12643 of Title 34, Crime Control and Law Enforcement.

CHAPTER 137—MANAGEMENT OF RECHARGEABLE BATTERIES AND BATTERIES CONTAINING MERCURY

SUBCHAPTER I—GENERALLY

SUBCHAPTER I—GENERALLY

§14301. Findings

The Congress finds that—

(1) it is in the public interest to—

(A) phase out the use of mercury in batteries and provide for the efficient and cost-effective collection and recycling or proper disposal of used nickel cadmium batteries, small sealed lead-acid batteries, and other regulated batteries; and

(B) educate the public concerning the collection, recycling, and proper disposal of such batteries;

(2) uniform national labeling requirements for regulated batteries, rechargeable consumer products, and product packaging will significantly benefit programs for regulated battery collection and recycling or proper disposal; and

(3) it is in the public interest to encourage persons who use rechargeable batteries to participate in collection for recycling of used nickel-cadmium, small sealed lead-acid, and other regulated batteries.

(Pub. L. 104–142, §2, May 13, 1996, 110 Stat. 1329.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

SHORT TITLE

Pub. L. 104–142, §1, May 13, 1996, 110 Stat. 1329, provided that: "This Act [enacting this chapter] may be cited as the 'Mercury-Containing and Rechargeable Battery Management Act'."

Pub. L. 104–142, title I, §101, May 13, 1996, 110 Stat. 1332, provided that: "This title [enacting subchapter II of this chapter] may be cited as the 'Rechargeable Battery Recycling Act'."

Pub. L. 104–142, title II, §201, May 13, 1996, 110 Stat. 1336, provided that: "This title [enacting subchapter III of this chapter] may be cited as the 'Mercury-Containing Battery Management Act'."

§14302. Definitions

For purposes of this chapter:

(1) Administrator

The term "Administrator" means the Administrator of the Environmental Protection Agency.

(2) Button cell

The term "button cell" means a button- or coin-shaped battery.

(3) Easily removable

The term "easily removable", with respect to a battery, means detachable or removable at the end of the life of the battery—

(A) from a consumer product by a consumer with the use of common household tools; or

(B) by a retailer of replacements for a battery used as the principal electrical power source for a vehicle.

(4) Mercuric-oxide battery

The term "mercuric-oxide battery" means a battery that uses a mercuric-oxide electrode.

(5) Rechargeable battery

The term "rechargeable battery"—

(A) means 1 or more voltaic or galvanic cells, electrically connected to produce electric energy, that is designed to be recharged for repeated uses; and

(B) includes any type of enclosed device or sealed container consisting of 1 or more such cells, including what is commonly called a battery pack (and in the case of a battery pack, for the purposes of the requirements of easy removability and labeling under section 14322 of this title, means the battery pack as a whole rather than each component individually); but

(C) does not include—

(i) a lead-acid battery used to start an internal combustion engine or as the principal electrical power source for a vehicle, such as an automobile, a truck, construction equipment, a motorcycle, a garden tractor, a golf cart, a wheelchair, or a boat;

(ii) a lead-acid battery used for load leveling or for storage of electricity generated by an alternative energy source, such as a solar cell or wind-driven generator;

(iii) a battery used as a backup power source for memory or program instruction storage, timekeeping, or any similar purpose that requires uninterrupted electrical power in order to function if the primary energy supply fails or fluctuates momentarily; or

(iv) a rechargeable alkaline battery.

(6) Rechargeable consumer product

The term "rechargeable consumer product"—

(A) means a product that, when sold at retail, includes a regulated battery as a primary energy supply, and that is primarily intended for personal or household use; but

(B) does not include a product that only uses a battery solely as a source of backup power for memory or program instruction storage, timekeeping, or any similar purpose that requires uninterrupted electrical power in order to function if the primary energy supply fails or fluctuates momentarily.

(7) Regulated battery

The term "regulated battery" means a rechargeable battery that—

(A) contains a cadmium or a lead electrode or any combination of cadmium and lead electrodes; or

(B) contains other electrode chemistries and is the subject of a determination by the Administrator under section 14322(d) of this title.

(8) Remanufactured product

The term "remanufactured product" means a rechargeable consumer product that has been altered by the replacement of parts, repackaged, or repaired after initial sale by the original manufacturer.

(Pub. L. 104–142, §3, May 13, 1996, 110 Stat. 1329.)

§14303. Information dissemination

The Administrator shall, in consultation with representatives of rechargeable battery manufacturers, rechargeable consumer product manufacturers, and retailers, establish a program to provide information to the public concerning the proper handling and disposal of used regulated batteries and rechargeable consumer products with nonremovable batteries.

(Pub. L. 104–142, §4, May 13, 1996, 110 Stat. 1330.)

§14304. Enforcement

(a) Civil penalty

When on the basis of any information the Administrator determines that a person has violated, or is in violation of, any requirement of this chapter (except a requirement of section 14323 of this title) the Administrator—

(1) in the case of any violation, may issue an order assessing a civil penalty of not more than $10,000 for each violation, or requiring compliance immediately or within a reasonable specified time period, or both; or

(2) in the case of any violation or failure to comply with an order issued under this section, may commence a civil action in the United States district court in the district in which the violation occurred or in the district in which the violator resides for appropriate relief, including a temporary or permanent injunction.

(b) Contents of order

An order under subsection (a)(1) shall state with reasonable specificity the nature of the violation.

(c) Considerations

In assessing a civil penalty under subsection (a)(1), the Administrator shall take into account the seriousness of the violation and any good faith efforts to comply with applicable requirements.

(d) Finality of order; request for hearing

An order under subsection (a)(1) shall become final unless, not later than 30 days after the order is served, a person named in the order requests a hearing on the record.

(e) Hearing

On receiving a request under subsection (d), the Administrator shall promptly conduct a hearing on the record.

(f) Subpoena power

In connection with any hearing on the record under this section, the Administrator may issue subpoenas for the attendance and testimony of witnesses and for the production of relevant papers, books, and documents.

(g) Continued violation after expiration of period for compliance

If a violator fails to take corrective action within the time specified in an order under subsection (a)(1), the Administrator may assess a civil penalty of not more than $10,000 for the continued noncompliance with the order.

(h) Savings provision

The Administrator may not take any enforcement action against a person for selling, offering for sale, or offering for promotional purposes to the ultimate consumer a battery or product covered by this chapter that was—

(1) purchased ready for sale to the ultimate consumer; and

(2) sold, offered for sale, or offered for promotional purposes without modification.

The preceding sentence shall not apply to a person—

(A) who is the importer of a battery covered by this chapter, and

(B) who has knowledge of the chemical contents of the battery

when such chemical contents make the sale, offering for sale, or offering for promotional purposes of such battery unlawful under subchapter III of this chapter.

(Pub. L. 104–142, §5, May 13, 1996, 110 Stat. 1331.)

§14305. Information gathering and access

(a) Records and reports

A person who is required to carry out the objectives of this chapter, including—

(1) a regulated battery manufacturer;

(2) a rechargeable consumer product manufacturer;

(3) a mercury-containing battery manufacturer; and

(4) an authorized agent of a person described in paragraph (1), (2), or (3),

shall establish and maintain such records and report such information as the Administrator may by regulation reasonably require to carry out the objectives of this chapter.

(b) Access and copying

The Administrator or the Administrator's authorized representative, on presentation of credentials of the Administrator, may at reasonable times have access to and copy any records required to be maintained under subsection (a).

(c) Confidentiality

The Administrator shall maintain the confidentiality of documents and records that contain proprietary information.

(Pub. L. 104–142, §6, May 13, 1996, 110 Stat. 1332.)

§14306. State authority

Nothing in this chapter shall be construed to prohibit a State from enacting and enforcing a standard or requirement that is identical to a standard or requirement established or promulgated under this chapter. Except as provided in sections 14322(e) and 14323 of this title, nothing in this chapter shall be construed to prohibit a State from enacting and enforcing a standard or requirement that is more stringent than a standard or requirement established or promulgated under this chapter.

(Pub. L. 104–142, §7, May 13, 1996, 110 Stat. 1332.)

§14307. Authorization of appropriations

There are authorized to be appropriated such sums as are necessary to carry out this chapter.

(Pub. L. 104–142, §8, May 13, 1996, 110 Stat. 1332.)

SUBCHAPTER II—RECYCLING OF RECHARGEABLE BATTERIES

§14321. Purpose

The purpose of this subchapter is to facilitate the efficient recycling or proper disposal of used nickel-cadmium rechargeable batteries, used small sealed lead-acid rechargeable batteries, other regulated batteries, and such rechargeable batteries in used consumer products, by—

(1) providing for uniform labeling requirements and streamlined regulatory requirements for regulated battery collection programs; and

(2) encouraging voluntary industry programs by eliminating barriers to funding the collection and recycling or proper disposal of used rechargeable batteries.

(Pub. L. 104–142, title I, §102, May 13, 1996, 110 Stat. 1332.)

§14322. Rechargeable consumer products and labeling

(a) Prohibition

(1) In general

No person shall sell for use in the United States a regulated battery that is ready for retail sale or a rechargeable consumer product that is ready for retail sale, if such battery or product was manufactured on or after the date 12 months after May 13, 1996, unless the labeling requirements of subsection (b) are met and, in the case of a regulated battery, the regulated battery—

(A) is easily removable from the rechargeable consumer product; or

(B) is sold separately.

(2) Application

Paragraph (1) does not apply to any of the following:

(A) The sale of a remanufactured product unit unless paragraph (1) applied to the sale of the unit when originally manufactured.

(B) The sale of a product unit intended for export purposes only.

(b) Labeling

Each regulated battery or rechargeable consumer product without an easily removable battery manufactured on or after the date that is 1 year after May 13, 1996, whether produced domestically or imported shall bear the following labels:

(1) 3 chasing arrows or a comparable recycling symbol.

(2)(A) On each regulated battery which is a nickel-cadmium battery, the chemical name or the abbreviation "Ni-Cd" and the phrase "BATTERY MUST BE RECYCLED OR DISPOSED OF PROPERLY.".

(B) On each regulated battery which is a lead-acid battery, "Pb" or the words "LEAD", "RETURN", and "RECYCLE" and if the regulated battery is sealed, the phrase "BATTERY MUST BE RECYCLED.".

(3) On each rechargeable consumer product containing a regulated battery that is not easily removable, the phrase "CONTAINS NICKEL-CADMIUM BATTERY. BATTERY MUST BE RECYCLED OR DISPOSED OF PROPERLY." or "CONTAINS SEALED LEAD BATTERY. BATTERY MUST BE RECYCLED.", as applicable.

(4) On the packaging of each rechargeable consumer product, and the packaging of each regulated battery sold separately from such a product, unless the required label is clearly visible through the packaging, the phrase "CONTAINS NICKEL-CADMIUM BATTERY. BATTERY MUST BE RECYCLED OR DISPOSED OF PROPERLY." or "CONTAINS SEALED LEAD BATTERY. BATTERY MUST BE RECYCLED.", as applicable.

(c) Existing or alternative labeling

(1) Initial period

For a period of 2 years after May 13, 1996, regulated batteries, rechargeable consumer products containing regulated batteries, and rechargeable consumer product packages that are labeled in substantial compliance with subsection (b) shall be deemed to comply with the labeling requirements of subsection (b).

(2) Certification

(A) In general

On application by persons subject to the labeling requirements of subsection (b) or the labeling requirements promulgated by the Administrator under subsection (d), the Administrator shall certify that a different label meets the requirements of subsection (b) or (d), respectively, if the different label—

(i) conveys the same information as the label required under subsection (b) or (d), respectively; or

(ii) conforms with a recognized international standard that is consistent with the overall purposes of this subchapter.

(B) Constructive certification

Failure of the Administrator to object to an application under subparagraph (A) on the ground that a different label does not meet either of the conditions described in subparagraph (A)(i) or (ii) within 120 days after the date on which the application is made shall constitute certification for the purposes of this chapter.

(d) Rulemaking authority of Administrator

(1) In general

If the Administrator determines that other rechargeable batteries having electrode chemistries different from regulated batteries are toxic and may cause substantial harm to human health and the environment if discarded into the solid waste stream for land disposal or incineration, the Administrator may, with the advice and counsel of State regulatory authorities and manufacturers of rechargeable batteries and rechargeable consumer products, and after public comment—

(A) promulgate labeling requirements for the batteries with different electrode chemistries, rechargeable consumer products containing such batteries that are not easily removable batteries, and packaging for the batteries and products; and

(B) promulgate requirements for easy removability of regulated batteries from rechargeable consumer products designed to contain such batteries.

(2) Substantial similarity

The regulations promulgated under paragraph (1) shall be substantially similar to the requirements set forth in subsections (a) and (b).

(e) Uniformity

After the effective dates of a requirement set forth in subsection (a), (b), or (c) or a regulation promulgated by the Administrator under subsection (d), no Federal agency, State, or political subdivision of a State may enforce any easy removability or environmental labeling requirement for a rechargeable battery or rechargeable consumer product that is not identical to the requirement or regulation.

(f) Exemptions

(1) In general

With respect to any rechargeable consumer product, any person may submit an application to the Administrator for an exemption from the requirements of subsection (a) in accordance with the procedures under paragraph (2). The application shall include the following information:

(A) A statement of the specific basis for the request for the exemption.

(B) The name, business address, and telephone number of the applicant.

(2) Granting of exemption

Not later than 60 days after receipt of an application under paragraph (1), the Administrator shall approve or deny the application. On approval of the application the Administrator shall grant an exemption to the applicant. The exemption shall be issued for a period of time that the Administrator determines to be appropriate, except that the period shall not exceed 2 years. The Administrator shall grant an exemption on the basis of evidence supplied to the Administrator that the manufacturer has been unable to commence manufacturing the rechargeable consumer product in compliance with the requirements of this section and with an equivalent level of product performance without the product—

(A) posing a threat to human health, safety, or the environment; or

(B) violating requirements for approvals from governmental agencies or widely recognized private standard-setting organizations (including Underwriters Laboratories).

(3) Renewal of exemption

A person granted an exemption under paragraph (2) may apply for a renewal of the exemption in accordance with the requirements and procedures described in paragraphs (1) and (2). The Administrator may grant a renewal of such an exemption for a period of not more than 2 years after the date of the granting of the renewal.

(Pub. L. 104–142, title I, §103, May 13, 1996, 110 Stat. 1332.)

§14323. Requirements

(a) Batteries subject to certain regulations

The collection, storage, or transportation of used rechargeable batteries, batteries described in section 14302(5)(C) of this title or in subchapter III, and used rechargeable consumer products containing rechargeable batteries that are not easily removable rechargeable batteries, shall, notwithstanding any law of a State or political subdivision thereof governing such collection, storage, or transportation, be regulated under applicable provisions of the regulations promulgated by the Environmental Protection Agency at 60 Fed. Reg. 25492 (May 11, 1995), as effective on May 11, 1995, except as provided in paragraph (2) of subsection (b) and except that—

(1) the requirements of 40 CFR 260.20, 260.40, and 260.41 and the equivalent requirements of an approved State program shall not apply, and

(2) this section shall not apply to any lead acid battery managed under 40 CFR 266 subpart G or the equivalent requirements of an approved State program.

(b) Enforcement under Solid Waste Disposal Act

(1) Any person who fails to comply with the requirements imposed by subsection (a) of this section may be subject to enforcement under applicable provisions of the Solid Waste Disposal Act [42 U.S.C. 6901 et seq.].

(2) States may implement and enforce the requirements of subsection (a) if the Administrator finds that—

(A) the State has adopted requirements that are identical to those referred to in subsection (a) governing the collection, storage, or transportation of batteries referred to in subsection (a); and

(B) the State provides for enforcement of such requirements.

(Pub. L. 104–142, title I, §104, May 13, 1996, 110 Stat. 1335.)

EDITORIAL NOTES

REFERENCES IN TEXT

The Solid Waste Disposal Act, referred to in subsec. (b)(1), is title II of Pub. L. 89–272, Oct. 20, 1965, 79 Stat. 997, as amended generally by Pub. L. 94–580, §2, Oct. 21, 1976, 90 Stat. 2795, which is classified generally to chapter 82 (§6901 et seq.) of this title. For complete classification of this Act to the Code, see Short Title note set out under section 6901 of this title and Tables.

SUBCHAPTER III—MANAGEMENT OF BATTERIES CONTAINING MERCURY

§14331. Purpose

The purpose of this subchapter is to phase out the use of batteries containing mercury.

(Pub. L. 104–142, title II, §202, May 13, 1996, 110 Stat. 1336.)

§14332. Limitations on sale of alkaline-manganese batteries containing mercury

No person shall sell, offer for sale, or offer for promotional purposes any alkaline-manganese battery manufactured on or after May 13, 1996, with a mercury content that was intentionally introduced (as distinguished from mercury that may be incidentally present in other materials), except that the limitation on mercury content in alkaline-manganese button cells shall be 25 milligrams of mercury per button cell.

(Pub. L. 104–142, title II, §203, May 13, 1996, 110 Stat. 1336.)

§14333. Limitations on sale of zinc-carbon batteries containing mercury

No person shall sell, offer for sale, or offer for promotional purposes any zinc-carbon battery manufactured on or after May 13, 1996, that contains mercury that was intentionally introduced as described in section 14332 of this title.

(Pub. L. 104–142, title II, §204, May 13, 1996, 110 Stat. 1336.)

§14334. Limitations on sale of button cell mercuric-oxide batteries

No person shall sell, offer for sale, or offer for promotional purposes any button cell mercuric-oxide battery for use in the United States on or after May 13, 1996.

(Pub. L. 104–142, title II, §205, May 13, 1996, 110 Stat. 1336.)

§14335. Limitations on sale of other mercuric-oxide batteries

(a) Prohibition

On or after May 13, 1996, no person shall sell, offer for sale, or offer for promotional purposes a mercuric-oxide battery for use in the United States unless the battery manufacturer, or the importer of such a battery—

(1) identifies a collection site in the United States that has all required Federal, State, and local government approvals, to which persons may send used mercuric-oxide batteries for recycling or proper disposal;

(2) informs each of its purchasers of mercuric-oxide batteries of the collection site identified under paragraph (1); and

(3) informs each of its purchasers of mercuric-oxide batteries of a telephone number that the purchaser may call to get information about sending mercuric-oxide batteries for recycling or proper disposal.

(b) Application of section

This section does not apply to a sale or offer of a mercuric-oxide button cell battery.

(Pub. L. 104–142, title II, §206, May 13, 1996, 110 Stat. 1336.)

§14336. New product or use

On petition of a person that proposes a new use for a battery technology described in this subchapter or the use of a battery described in this subchapter in a new product, the Administrator may exempt from this subchapter the new use of the technology or the use of such a battery in the new product on the condition, if appropriate, that there exist reasonable safeguards to ensure that the resulting battery or product without an easily removable battery will not be disposed of in an incinerator, composting facility, or landfill (other than a facility regulated under subtitle C of the Solid Waste Disposal Act (42 U.S.C. 6921 et seq.)).

(Pub. L. 104–142, title II, §207, May 13, 1996, 110 Stat. 1336.)

EDITORIAL NOTES

REFERENCES IN TEXT

The Solid Waste Disposal Act, referred to in text, is title II of Pub. L. 89–272, Oct. 20, 1965, 79 Stat. 997, as amended generally by Pub. L. 94–580, §2, Oct. 21, 1976, 90 Stat. 2795. Subtitle C of the Act is classified generally to subchapter III (§6921 et seq.) of chapter 82 of this title. For complete classification of this Act to the Code, see Short Title note set out under section 6901 of this title and Tables.

CHAPTER 138—ASSISTED SUICIDE FUNDING RESTRICTION

Sec.

§14401. Findings and purpose

(a) Findings

Congress finds the following:

(1) The Federal Government provides financial support for the provision of and payment for health care services, as well as for advocacy activities to protect the rights of individuals.

(2) Assisted suicide, euthanasia, and mercy killing have been criminal offenses throughout the United States and, under current law, it would be unlawful to provide services in support of such illegal activities.

(3) Because of recent legal developments, it may become lawful in areas of the United States to

furnish services in support of such activities.

(4) Congress is not providing Federal financial assistance in support of assisted suicide, euthanasia, and mercy killing and intends that Federal funds not be used to promote such activities.

(b) Purpose

It is the principal purpose of this chapter to continue current Federal policy by providing explicitly that Federal funds may not be used to pay for items and services (including assistance) the purpose of which is to cause (or assist in causing) the suicide, euthanasia, or mercy killing of any individual.

(Pub. L. 105–12, §2, Apr. 30, 1997, 111 Stat. 23.)

EDITORIAL NOTES

REFERENCES IN TEXT

This chapter, referred to in subsec. (b), was in the original "this Act", meaning Pub. L. 105–12, Apr. 30, 1997, 111 Stat. 23, known as the Assisted Suicide Funding Restriction Act of 1997. For complete classification of this Act to the Code, see Short Title note set out below and Tables.

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Pub. L. 105–12, §11, Apr. 30, 1997, 111 Stat. 29, provided that:

"(a) IN GENERAL.—The provisions of this Act [see Short Title note below] (and the amendments made by this Act) take effect upon its enactment [Apr. 30, 1997] and apply, subject to subsection (b), to Federal payments made pursuant to obligations incurred after the date of the enactment of this Act for items and services provided on or after such date.

"(b) APPLICATION TO CONTRACTS.—Such provisions shall apply with respect to contracts entered into, renewed, or extended after the date of the enactment of this Act [Apr. 30, 1997] and shall also apply to a contract entered into before such date to the extent permitted under such contract."

SHORT TITLE

Pub. L. 105–12, §1(a), Apr. 30, 1997, 111 Stat. 23, provided that: "This Act [enacting this chapter, section 238o of this title, section 1621x of Title 25, Indians, and section 1707 of Title 38, Veterans' Benefits, amending sections 295, 701, 1395y, 1395cc, 1396a, 1396b, 1397d, 2996f, 6022, 6042, 6062, 6082, and 10805 of this title, section 8902 of Title 5, Government Organization and Employees, section 1073 of Title 10, Armed Forces, section 4005 of Title 18, Crimes and Criminal Procedure, section 2504 of Title 22, Foreign Relations and Intercourse, and section 794e of Title 29, Labor, and enacting provisions set out as notes under this section and section 295 of this title] may be cited as the 'Assisted Suicide Funding Restriction Act of 1997'."

CONSTRUCTION OF CONFORMING AMENDMENTS

Pub. L. 105–12, §9(p), Apr. 30, 1997, 111 Stat. 29, provided that: "The fact that a law is not amended under this section [enacting section 238o of this title, section 1621x of Title 25, Indians, and section 1707 of Title 38, Veterans' Benefits, amending sections 701, 1395y, 1395cc, 1396a, 1396b, 1397d, 2996f, 6022, 6042, 6062, 6082, and 10805 of this title, section 8902 of Title 5, Government Organization and Employees, section 1073 of Title 10, Armed Forces, section 4005 of Title 18, Crimes and Criminal Procedure, section 2504 of Title 22, Foreign Relations and Intercourse, and section 794e of Title 29, Labor] shall not be construed as indicating that the provisions of this Act [see Short Title note above] do not apply to such a law."

§14402. Restriction on use of Federal funds under health care programs

(a) Restriction on Federal funding of health care services

Subject to subsection (b), no funds appropriated by Congress for the purpose of paying (directly or indirectly) for the provision of health care services may be used—

(1) to provide any health care item or service furnished for the purpose of causing, or for the

purpose of assisting in causing, the death of any individual, such as by assisted suicide, euthanasia, or mercy killing;

(2) to pay (directly, through payment of Federal financial participation or other matching payment, or otherwise) for such an item or service, including payment of expenses relating to such an item or service; or

(3) to pay (in whole or in part) for health benefit coverage that includes any coverage of such an item or service or of any expenses relating to such an item or service.

(b) Construction and treatment of certain services

Nothing in subsection (a), or in any other provision of this chapter (or in any amendment made by this chapter), shall be construed to apply to or to affect any limitation relating to—

(1) the withholding or withdrawing of medical treatment or medical care;

(2) the withholding or withdrawing of nutrition or hydration;

(3) abortion; or

(4) the use of an item, good, benefit, or service furnished for the purpose of alleviating pain or discomfort, even if such use may increase the risk of death, so long as such item, good, benefit, or service is not also furnished for the purpose of causing, or the purpose of assisting in causing, death, for any reason.

(c) Limitation on Federal facilities and employees

Subject to subsection (b), with respect to health care items and services furnished—

(1) by or in a health care facility owned or operated by the Federal government, or

(2) by any physician or other individual employed by the Federal government to provide health care services within the scope of the physician's or individual's employment,

no such item or service may be furnished for the purpose of causing, or for the purpose of assisting in causing, the death of any individual, such as by assisted suicide, euthanasia, or mercy killing.

(d) List of programs to which restrictions apply

(1) Federal health care funding programs

Subsection (a) applies to funds appropriated under or to carry out the following:

(A) Medicare program

Title XVIII of the Social Security Act [42 U.S.C. 1395 et seq.].

(B) Medicaid program

Title XIX of the Social Security Act [42 U.S.C. 1396 et seq.].

(C) Title XX social services block grant

Title XX of the Social Security Act [42 U.S.C. 1397 et seq.].

(D) Maternal and child health block grant program

Title V of the Social Security Act [42 U.S.C. 701 et seq.].

(E) Public Health Service Act

The Public Health Service Act [42 U.S.C. 201 et seq.].

(F) Indian Health Care Improvement Act

The Indian Health Care Improvement Act [25 U.S.C. 1601 et seq.].

(G) Federal employees health benefits program

Chapter 89 of title 5.

(H) Military health care system (including Tricare and CHAMPUS programs)

Chapter 55 of title 10.

(I) Veterans medical care

Chapter 17 of title 38.

(J) Health services for Peace Corps volunteers

Section 2504(e) of title 22.

(K) Medical services for Federal prisoners

Section 4005(a) of title 18.

(2) Federal facilities and personnel

The provisions of subsection (c) apply to facilities and personnel of the following:

(A) Military health care system

The Department of Defense operating under chapter 55 of title 10.

(B) Veterans medical care

The Veterans Health Administration of the Department of Veterans Affairs.

(C) Public Health Service

The Public Health Service.

(3) Nonexclusive list

Nothing in this subsection shall be construed as limiting the application of subsection (a) to the programs specified in paragraph (1) or the application of subsection (c) to the facilities and personnel specified in paragraph (2).

(Pub. L. 105–12, §3, Apr. 30, 1997, 111 Stat. 23.)

EDITORIAL NOTES

REFERENCES IN TEXT

This chapter, referred to in subsec. (b), was in the original "this Act", meaning Pub. L. 105–12, Apr. 30, 1997, 111 Stat. 23, known as the Assisted Suicide Funding Restriction Act of 1997, which is classified principally to this chapter. For complete classification of this Act to the Code, see Short Title note set out under section 14401 of this title and Tables.

The Social Security Act, referred to in subsec. (d)(1)(A)–(D), is act Aug. 14, 1935, ch. 531, 49 Stat. 620. Titles V, XVIII, XIX, and XX of the Act are classified generally to subchapters V (§701 et seq.), XVIII (§1395 et seq.), XIX (§1396 et seq.), and XX (§1397 et seq.), respectively, of chapter 7 of this title, respectively. For complete classification of this Act to the Code, see section 1305 of this title and Tables.

The Public Health Service Act, referred to in subsec. (d)(1)(E), is act July 1, 1944, ch. 373, 58 Stat. 682, which is classified generally to chapter 6A (§201 et seq.) of this title. For complete classification of this Act to the Code, see Short Title note set out under section 201 of this title and Tables.

The Indian Health Care Improvement Act, referred to in subsec. (d)(1)(F), is Pub. L. 94–437, Sept. 30, 1976, 90 Stat. 1400, which is classified principally to chapter 18 (§1601 et seq.) of Title 25, Indians. For complete classification of this Act to the Code, see Short Title note set out under section 1601 of Title 25 and Tables.

§14403. Restriction on use of Federal funds under certain grant programs

Subject to section 14402(b) of this title (relating to construction and treatment of certain services), no funds appropriated by Congress to carry out subtitle B, D, or E of the Developmental Disabilities Assistance and Bill of Rights Act of 2000 [42 U.S.C. 15021 et seq., 15061 et seq., 15081 et seq.] may be used to support or fund any program or service which has a purpose of assisting in procuring any item, benefit, or service furnished for the purpose of causing, or the purpose of assisting in causing, the death of any individual, such as by assisted suicide, euthanasia, or mercy killing.

(Pub. L. 105–12, §4, Apr. 30, 1997, 111 Stat. 25; Pub. L. 106–402, title IV, §401(b)(15)(A), Oct. 30, 2000, 114 Stat. 1740.)

EDITORIAL NOTES

REFERENCES IN TEXT

The Developmental Disabilities Assistance and Bill of Rights Act of 2000, referred to in text, is Pub. L. 106–402, Oct. 30, 2000, 114 Stat. 1677. Subtitles B, D, and E of the Act probably mean subtitles B, D, and E of title I of the Act, which are classified generally to parts B [§15021 et seq.], D [§15061 et seq.], and E [§15081 et seq.], respectively, of subchapter I of chapter 144 of this title. For complete classification of this Act to the Code, see Short Title note set out under section 15001 of this title and Tables.

AMENDMENTS

2000—Pub. L. 106–402, §401(b)(15)(A)(i), substituted "Restriction on use of Federal funds under certain grant programs" for "Restriction on use of Federal funds under certain grant programs under the Developmental Disabilities Assistance and Bill of Rights Act" in section catchline.

Pub. L. 106–402, §401(b)(15)(A)(ii), substituted "subtitle B, D, or E of the Developmental Disabilities Assistance and Bill of Rights Act of 2000" for "part B, D, or E of the Developmental Disabilities Assistance and Bill of Rights Act".

§14404. Restriction on use of Federal funds by advocacy programs

(a) In general

Subject to section 14402(b) of this title (relating to construction and treatment of certain services), no funds appropriated by Congress may be used to assist in, to support, or to fund any activity or service which has a purpose of assisting in, or to bring suit or provide any other form of legal assistance for the purpose of—

(1) securing or funding any item, benefit, program, or service furnished for the purpose of causing, or the purpose of assisting in causing, the suicide, euthanasia, or mercy killing of any individual;

(2) compelling any person, institution, governmental entity [1] to provide or fund any item, benefit, program, or service for such purpose; or

(3) asserting or advocating a legal right to cause, or to assist in causing, the suicide, euthanasia, or mercy killing of any individual.

(b) List of programs to which restrictions apply

(1) In general

Subsection (a) applies to funds appropriated under or to carry out the following:

(A) Protection and advocacy systems under the Developmental Disabilities Assistance and Bill of Rights Act of 2000

Subtitle C of the Developmental Disabilities Assistance and Bill of Rights Act of 2000 [42 U.S.C. 15041 et seq.].

(B) Protection and advocacy systems under the Protection and Advocacy for Mentally Ill Individuals Act

The Protection and Advocacy for Mentally Ill Individuals Act of 1986 [2] [42 U.S.C. 10801 et seq.].

(C) Protection and advocacy systems under the Rehabilitation Act of 1973

Section 509 of the Rehabilitation Act of 1973 (29 U.S.C. 794e).

(D) Ombudsman programs under the Older Americans Act of 1965

Ombudsman programs under the Older Americans Act of 1965 [42 U.S.C. 3001 et seq.].

(E) Legal assistance

Legal assistance programs under the Legal Services Corporation Act [42 U.S.C. 2996 et seq.].

(2) Nonexclusive list

Nothing in this subsection shall be construed as limiting the application of subsection (a) to the programs specified in paragraph (1).

(Pub. L. 105–12, §5, Apr. 30, 1997, 111 Stat. 25; Pub. L. 106–402, title IV, §401(b)(15)(B), Oct. 30, 2000, 114 Stat. 1740.)

EDITORIAL NOTES

REFERENCES IN TEXT

The Developmental Disabilities Assistance and Bill of Rights Act of 2000, referred to in subsec. (b)(1)(A), is Pub. L. 106–402, Oct. 30, 2000, 114 Stat. 1677. Subtitle C of the Act probably means subtitle C of title I of the Act, which is classified generally to part C (§15041 et seq.) of subchapter I of chapter 144 of this title. For complete classification of this Act to the Code, see Short Title note set out under section 15001 of this title and Tables.

The Protection and Advocacy for Mentally Ill Individuals Act of 1986, referred to in subsec. (b)(1)(B), was Pub. L. 99–319, May 23, 1986, 100 Stat. 478, as amended. Pub. L. 99–319 was renamed the Protection and Advocacy for Individuals with Mental Illness Act by Pub. L. 106–310, div. B, title XXXII, §3206(a), Oct. 17, 2000, 114 Stat. 1193, and is classified generally to chapter 114 (§10801 et seq.) of this title. For complete classification of this Act to the Code, see Short Title note set out under section 10801 of this title and Tables.

The Older Americans Act of 1965, referred to in subsec. (b)(1)(D), is Pub. L. 89–73, July 14, 1965, 79 Stat. 218, as amended, which is classified generally to chapter 35 (§3001 et seq.) of this title. For complete classification of this Act to the Code, see Short Title note set out under section 3001 of this title and Tables.

The Legal Services Corporation Act, referred to in subsec. (b)(1)(E), is title X of Pub. L. 88–452, as added by Pub. L. 93–355, §2, July 25, 1974, 88 Stat. 378, as amended, which is classified generally to subchapter X (§2996 et seq.) of chapter 34 of this title. For complete classification of this Act to the Code, see Short Title note set out under section 2701 of this title and Tables.

AMENDMENTS

2000—Subsec. (b)(1)(A). Pub. L. 106–402 added subpar. (A) and struck out heading and text of former subpar. (A). Text read as follows: "Part C of the Developmental Disabilities Assistance and Bill of Rights Act."

[1] So in original. Probably should be "or governmental entity".

[2] See References in Text note below.

§14405. Restriction on use of other Federal funds

(a) In general

Subject to section 14402(b) of this title (relating to construction and treatment of certain services) and subsection (b) of this section, no funds appropriated by the Congress shall be used to provide, procure, furnish, or fund any item, good, benefit, activity, or service, furnished or performed for the purpose of causing, or assisting in causing, the suicide, euthanasia, or mercy killing of any individual.

(b) Nonduplication

Subsection (a) shall not apply to funds to which section 14402, 14403, or 14404 of this title applies, except that subsection (a), rather than section 14402 of this title, shall apply to funds appropriated to carry out title 10 (other than chapter 55), title 18 (other than section 4005(a)), and chapter 37 of title 28.

(Pub. L. 105–12, §6, Apr. 30, 1997, 111 Stat. 25.)

§14406. Clarification with respect to advance directives

Subject to section 14402(b) of this title (relating to construction and treatment of certain services), sections 1395cc(f) and 1396a(w) of this title shall not be construed—

(1) to require any provider or organization, or any employee of such a provider or organization, to inform or counsel any individual regarding any right to obtain an item or service furnished for the purpose of causing, or the purpose of assisting in causing, the death of the individual, such as by assisted suicide, euthanasia, or mercy killing; or

(2) to apply to or to affect any requirement with respect to a portion of an advance directive that directs the purposeful causing of, or the purposeful assisting in causing, the death of any individual, such as by assisted suicide, euthanasia, or mercy killing.

(Pub. L. 105–12, §7, Apr. 30, 1997, 111 Stat. 26.)

§14407. Application to District of Columbia

For purposes of this chapter, the term "funds appropriated by Congress" includes funds appropriated to the District of Columbia pursuant to an authorization of appropriations under title V of the District of Columbia Home Rule Act and the term "Federal government" includes the government of the District of Columbia.

(Pub. L. 105–12, §8, Apr. 30, 1997, 111 Stat. 26; Pub. L. 105–33, title XI, §11717(b), Aug. 5, 1997, 111 Stat. 786.)

CHAPTER 139—VOLUNTEER PROTECTION

§14501. Findings and purpose

(a) Findings

The Congress finds and declares that—

(1) the willingness of volunteers to offer their services is deterred by the potential for liability actions against them;

(2) as a result, many nonprofit public and private organizations and governmental entities, including voluntary associations, social service agencies, educational institutions, and other civic programs, have been adversely affected by the withdrawal of volunteers from boards of directors and service in other capacities;

(3) the contribution of these programs to their communities is thereby diminished, resulting in fewer and higher cost programs than would be obtainable if volunteers were participating;

(4) because Federal funds are expended on useful and cost-effective social service programs, many of which are national in scope, depend heavily on volunteer participation, and represent some of the most successful public-private partnerships, protection of volunteerism through clarification and limitation of the personal liability risks assumed by the volunteer in connection with such participation is an appropriate subject for Federal legislation;

(5) services and goods provided by volunteers and nonprofit organizations would often otherwise be provided by private entities that operate in interstate commerce;

(6) due to high liability costs and unwarranted litigation costs, volunteers and nonprofit organizations face higher costs in purchasing insurance, through interstate insurance markets, to cover their activities; and

(7) clarifying and limiting the liability risk assumed by volunteers is an appropriate subject for Federal legislation because—

(A) of the national scope of the problems created by the legitimate fears of volunteers about frivolous, arbitrary, or capricious lawsuits;

(B) the citizens of the United States depend on, and the Federal Government expends funds on, and provides tax exemptions and other consideration to, numerous social programs that depend on the services of volunteers;

(C) it is in the interest of the Federal Government to encourage the continued operation of volunteer service organizations and contributions of volunteers because the Federal Government lacks the capacity to carry out all of the services provided by such organizations and volunteers; and

(D)(i) liability reform for volunteers, will promote the free flow of goods and services, lessen burdens on interstate commerce and uphold constitutionally protected due process rights; and

(ii) therefore, liability reform is an appropriate use of the powers contained in article 1, section 8, clause 3 of the United States Constitution, and the fourteenth amendment to the United States Constitution.

(b) Purpose

The purpose of this chapter is to promote the interests of social service program beneficiaries and taxpayers and to sustain the availability of programs, nonprofit organizations, and governmental entities that depend on volunteer contributions by reforming the laws to provide certain protections from liability abuses related to volunteers serving nonprofit organizations and governmental entities.

(Pub. L. 105–19, §2, June 18, 1997, 111 Stat. 218.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Pub. L. 105–19, §7, June 18, 1997, 111 Stat. 223, provided that:

"(a) IN GENERAL.—This Act [enacting this chapter] shall take effect 90 days after the date of enactment of this Act [June 18, 1997].

"(b) APPLICATION.—This Act applies to any claim for harm caused by an act or omission of a volunteer where that claim is filed on or after the effective date of this Act but only if the harm that is the subject of the claim or the conduct that caused such harm occurred after such effective date."

SHORT TITLE

Pub. L. 105–19, §1, June 18, 1997, 111 Stat. 218, provided that: "This Act [enacting this chapter] may be cited as the 'Volunteer Protection Act of 1997'."

§14502. Preemption and election of State nonapplicability

(a) Preemption

This chapter preempts the laws of any State to the extent that such laws are inconsistent with this chapter, except that this chapter shall not preempt any State law that provides additional protection from liability relating to volunteers or to any category of volunteers in the performance of services for a nonprofit organization or governmental entity.

(b) Election of State regarding nonapplicability

This chapter shall not apply to any civil action in a State court against a volunteer in which all parties are citizens of the State if such State enacts a statute in accordance with State requirements for enacting legislation—

(1) citing the authority of this subsection;

(2) declaring the election of such State that this chapter shall not apply, as of a date certain, to such civil action in the State; and

(3) containing no other provisions.

(Pub. L. 105–19, §3, June 18, 1997, 111 Stat. 219.)

§14503. Limitation on liability for volunteers

(a) Liability protection for volunteers

Except as provided in subsections (b), (c), and (e), no volunteer of a nonprofit organization or governmental entity shall be liable for harm caused by an act or omission of the volunteer on behalf of the organization or entity if—

(1) the volunteer was acting within the scope of the volunteer's responsibilities in the nonprofit organization or governmental entity at the time of the act or omission;

(2) if appropriate or required, the volunteer was properly licensed, certified, or authorized by the appropriate authorities for the activities or practice in the State in which the harm occurred, where the activities were or practice was undertaken within the scope of the volunteer's responsibilities in the nonprofit organization or governmental entity;

(3) the harm was not caused by willful or criminal misconduct, gross negligence, reckless misconduct, or a conscious, flagrant indifference to the rights or safety of the individual harmed

by the volunteer; and

(4) the harm was not caused by the volunteer operating a motor vehicle, vessel, aircraft, or other vehicle for which the State requires the operator or the owner of the vehicle, craft, or vessel to—

(A) possess an operator's license; or

(B) maintain insurance.

(b) Liability protection for pilots that fly for public benefit

Except as provided in subsections (c) and (e), no volunteer of a volunteer pilot nonprofit organization that arranges flights for public benefit shall be liable for harm caused by an act or omission of the volunteer on behalf of the organization if, at the time of the act or omission, the volunteer—

(1) was operating an aircraft in furtherance of the purpose of, and acting within the scope of the volunteer's responsibilities on behalf of, the nonprofit organization to provide patient and medical transport (including medical transport for veterans), disaster relief, humanitarian assistance, or other similar charitable missions;

(2) was properly licensed and insured for the operation of the aircraft;

(3) was in compliance with all requirements of the Federal Aviation Administration for recent flight experience; and

(4) did not cause the harm through willful or criminal misconduct, gross negligence, reckless misconduct, or a conscious, flagrant indifference to the rights or safety of the individual harmed by the volunteer.

(c) Concerning responsibility of volunteers to organizations and entities

Nothing in this section shall be construed to affect any civil action brought by any nonprofit organization or any governmental entity against any volunteer of such organization or entity.

(d) No effect on liability of organization or entity

Nothing in this section shall be construed to affect the liability of any nonprofit organization or governmental entity with respect to harm caused to any person.

(e) Exceptions to volunteer liability protection

If the laws of a State limit volunteer liability subject to one or more of the following conditions, such conditions shall not be construed as inconsistent with this section:

(1) A State law that requires a nonprofit organization or governmental entity to adhere to risk management procedures, including mandatory training of volunteers.

(2) A State law that makes the organization or entity liable for the acts or omissions of its volunteers to the same extent as an employer is liable for the acts or omissions of its employees.

(3) A State law that makes a limitation of liability inapplicable if the civil action was brought by an officer of a State or local government pursuant to State or local law.

(4) A State law that makes a limitation of liability applicable only if the nonprofit organization or governmental entity provides a financially secure source of recovery for individuals who suffer harm as a result of actions taken by a volunteer on behalf of the organization or entity. A financially secure source of recovery may be an insurance policy within specified limits, comparable coverage from a risk pooling mechanism, equivalent assets, or alternative arrangements that satisfy the State that the organization or entity will be able to pay for losses up to a specified amount. Separate standards for different types of liability exposure may be specified.

(f) Limitation on punitive damages based on actions of volunteers

(1) General rule

Punitive damages may not be awarded against a volunteer in an action brought for harm based on the action of a volunteer acting within the scope of the volunteer's responsibilities to a nonprofit organization or governmental entity unless the claimant establishes by clear and

convincing evidence that the harm was proximately caused by an action of such volunteer which constitutes willful or criminal misconduct, or a conscious, flagrant indifference to the rights or safety of the individual harmed.

(2) Construction

Paragraph (1) does not create a cause of action for punitive damages and does not preempt or supersede any Federal or State law to the extent that such law would further limit the award of punitive damages.

(g) Exceptions to limitations on liability

(1) In general

The limitations on the liability of a volunteer under this chapter shall not apply to any misconduct that—

(A) constitutes a crime of violence (as that term is defined in section 16 of title 18) or act of international terrorism (as that term is defined in section 2331 of title 18) for which the defendant has been convicted in any court;

(B) constitutes a hate crime (as that term is used in the Hate Crime Statistics Act (28 U.S.C. 534 note)); [1]

(C) involves a sexual offense, as defined by applicable State law, for which the defendant has been convicted in any court;

(D) involves misconduct for which the defendant has been found to have violated a Federal or State civil rights law; or

(E) where the defendant was under the influence (as determined pursuant to applicable State law) of intoxicating alcohol or any drug at the time of the misconduct.

(2) Rule of construction

Nothing in this subsection shall be construed to effect subsection (a)(3) or (f).

(Pub. L. 105–19, §4, June 18, 1997, 111 Stat. 219; Pub. L. 115–254, div. B, title V, §584, Oct. 5, 2018, 132 Stat. 3399.)

EDITORIAL NOTES

REFERENCES IN TEXT

The Hate Crime Statistics Act, referred to in subsec. (g)(1)(B), is Pub. L. 101–275, Apr. 23, 1990, 104 Stat. 140, which was set out as a note under section 534 of Title 28, Judiciary and Judicial Procedure, prior to editorial reclassification as section 41305 of Title 34, Crime Control and Law Enforcement, and as provisions set out as a note under section 41305 of Title 34.

AMENDMENTS

2018—Subsec. (a). Pub. L. 115–254, §584(2), in introductory provisions, substituted "subsections (b), (c), and (e)" for "subsections (b) and (d)".

Subsecs. (b) to (g). Pub. L. 115–254, §584(1), (3), added subsec. (b) and redesignated former subsecs. (b) to (f) as (c) to (g), respectively.

Subsec. (g)(2). Pub. L. 115–254, §584(4), substituted "(f)" for "(e)".

[1] *See References in Text note below.*

§14504. Liability for noneconomic loss

(a) General rule

In any civil action against a volunteer, based on an action of a volunteer acting within the scope of the volunteer's responsibilities to a nonprofit organization or governmental entity, the liability of the volunteer for noneconomic loss shall be determined in accordance with subsection (b).

(b) Amount of liability

(1) In general

Each defendant who is a volunteer, shall be liable only for the amount of noneconomic loss allocated to that defendant in direct proportion to the percentage of responsibility of that defendant (determined in accordance with paragraph (2)) for the harm to the claimant with respect to which that defendant is liable. The court shall render a separate judgment against each defendant in an amount determined pursuant to the preceding sentence.

(2) Percentage of responsibility

For purposes of determining the amount of noneconomic loss allocated to a defendant who is a volunteer under this section, the trier of fact shall determine the percentage of responsibility of that defendant for the claimant's harm.

(Pub. L. 105–19, §5, June 18, 1997, 111 Stat. 221.)

§14505. Definitions

For purposes of this chapter:

(1) Economic loss

The term "economic loss" means any pecuniary loss resulting from harm (including the loss of earnings or other benefits related to employment, medical expense loss, replacement services loss, loss due to death, burial costs, and loss of business or employment opportunities) to the extent recovery for such loss is allowed under applicable State law.

(2) Harm

The term "harm" includes physical, nonphysical, economic, and noneconomic losses.

(3) Noneconomic losses

The term "noneconomic losses" means losses for physical and emotional pain, suffering, inconvenience, physical impairment, mental anguish, disfigurement, loss of enjoyment of life, loss of society and companionship, loss of consortium (other than loss of domestic service), hedonic damages, injury to reputation and all other nonpecuniary losses of any kind or nature.

(4) Nonprofit organization

The term "nonprofit organization" means—

(A) any organization which is described in section 501(c)(3) of title 26 and exempt from tax under section 501(a) of such title and which does not practice any action which constitutes a hate crime referred to in subsection (b)(1) of the first section of the Hate Crime Statistics Act (28 U.S.C. 534 note); [1] or

(B) any not-for-profit organization which is organized and conducted for public benefit and operated primarily for charitable, civic, educational, religious, welfare, or health purposes and which does not practice any action which constitutes a hate crime referred to in subsection (b)(1) of the first section of the Hate Crime Statistics Act (28 U.S.C. 534 note).[1]

(5) State

The term "State" means each of the several States, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, American Samoa, the Northern Mariana Islands, any other territory or possession of the United States, or any political subdivision of any such State, territory, or possession.

(6) Volunteer

The term "volunteer" means an individual performing services for a nonprofit organization or a governmental entity who does not receive—

(A) compensation (other than reasonable reimbursement or allowance for expenses actually

incurred); or

(B) any other thing of value in lieu of compensation,

in excess of $500 per year, and such term includes a volunteer serving as a director, officer, trustee, or direct service volunteer.

(Pub. L. 105–19, §6, June 18, 1997, 111 Stat. 221.)

EDITORIAL NOTES

CODIFICATION

Section, Pub. L. 106–177, title II, §205, Mar. 10, 2000, 114 Stat. 37, which authorized appropriations of $2,000,000 for each of fiscal years 2000, 2001, and 2002 to carry out this chapter, was omitted from the Code as obsolete.

§14665. Transferred

EDITORIAL NOTES

CODIFICATION

Section 14665 was editorially reclassified as section 40504 of Title 34, Crime Control and Law Enforcement.

CHAPTER 141—COMMERCIAL SPACE OPPORTUNITIES AND TRANSPORTATION SERVICES

§14701. Repealed. Pub. L. 111–314, §6, Dec. 18, 2010, 124 Stat. 3444

Section, Pub. L. 105–303, §2, Oct. 28, 1998, 112 Stat. 2843, related to definitions. See section 50101 of Title 51, National and Commercial Space Programs.

SUBCHAPTER I—PROMOTION OF COMMERCIAL SPACE OPPORTUNITIES

§14711. Repealed. Pub. L. 111–314, §6, Dec. 18, 2010, 124 Stat. 3444

Section, Pub. L. 105–303, title I, §101, Oct. 28, 1998, 112 Stat. 2845, related to commercialization of Space Station. Subsec. (a) was repealed and reenacted as subsec. (a) of section 50111 of Title 51, National and Commercial Space Programs. Subsec. (b), which required the Administrator to deliver certain studies and reports to Congress, the last of which was required before budget request for fiscal year 2000, was repealed as obsolete.

§14712. Repealed or Transferred

EDITORIAL NOTES

CODIFICATION

Section, Pub. L. 105–303, title I, §104, Oct. 28, 1998, 112 Stat. 2852, which related to promotion of United States Global Positioning System standards, was repealed in part and transferred in part. Subsec. (b) was repealed and reenacted as section 50112 of Title 51, National and Commercial Space Programs, by Pub. L. 111–314, §§3, 6, Dec. 18, 2010, 124 Stat. 3328, 3444, which Act enacted Title 51. Subsec. (a) was transferred and is set out as a note under section 50112 of Title 51.

§§14713 to 14715. Repealed. Pub. L. 111–314, §6, Dec. 18, 2010, 124 Stat. 3444

Section 14713, Pub. L. 105–303, title I, §105, Oct. 28, 1998, 112 Stat. 2852, related to acquisition of space science data. See section 50113 of Title 51, National and Commercial Space Programs.

Section 14714, Pub. L. 105–303, title I, §106, Oct. 28, 1998, 112 Stat. 2853, related to administration of commercial space centers. See section 50114 of Title 51.

Section 14715, Pub. L. 105–303, title I, §107, Oct. 28, 1998, 112 Stat. 2853, related to sources of Earth Science data. Subsecs. (a), (b), (d), and (e) were repealed and reenacted as subsecs. (a), (b), (c) and (d) of section 50115 of Title 51. Subsec (c), which required the Administrator to submit certain study results to Congress within six months after Oct. 28, 1998, was repealed as obsolete.

SUBCHAPTER II—FEDERAL ACQUISITION OF SPACE

§§14731 to 14735. Repealed. Pub. L. 111–314, §6, Dec. 18, 2010, 124 Stat. 3444

Section 14731, Pub. L. 105–303, title II, §201, Oct. 28, 1998, 112 Stat. 2854, related to requirement to procure commercial space transportation services. See section 50131 of Title 51, National and Commercial Space Programs.

Section 14732, Pub. L. 105–303, title II, §202, Oct. 28, 1998, 112 Stat. 2855, related to acquisition of commercial space transportation services. See section 50132 of Title 51.

Section 14733, Pub. L. 105–303, title II, §204, Oct. 28, 1998, 112 Stat. 2856, related to potential privatization of the Space Shuttle program. Subsec. (a) was repealed and reenacted as section 50133 of Title 51. Subsec. (b), requiring feasibility study, and subsec. (c), requiring reports to congressional committees within 60 days after Oct. 28, 1998, were repealed as obsolete.

Section 14734, Pub. L. 105–303, title II, §205, Oct. 28, 1998, 112 Stat. 2857; Pub. L. 106–65, div. A, title X, §1067(21), Oct. 5, 1999, 113 Stat. 775, related to use of excess intercontinental ballistic missiles. See section 50134 of Title 51.

Section 14735, Pub. L. 105–303, title II, §206, Oct. 28, 1998, 112 Stat. 2857, required report to certain congressional committees regarding national launch capability no later than 180 days after Oct. 28, 1998.

SUBCHAPTER III—COMMERCIAL REUSABLE IN-SPACE TRANSPORTATION

§14751. Transferred

EDITORIAL NOTES

CODIFICATION

Section, Pub. L. 107–248, title IX, §902, Oct. 23, 2002, 116 Stat. 1573, which related to congressional findings, was transferred and is set out as a note under section 50301 of Title 51, National and Commercial Space Programs.

§§14752, 14753. Repealed. Pub. L. 111–314, §6, Dec. 18, 2010, 124 Stat. 3444

Section 14752, Pub. L. 107–248, title IX, §903, Oct. 23, 2002, 116 Stat. 1574, related to loan guarantees for production of commercial reusable in-space transportation. See section 50302 of Title 51, National and Commercial Space Programs.

Section 14753, Pub. L. 107–248, title IX, §904, Oct. 23, 2002, 116 Stat. 1576, contained definitions. See section 50301 of Title 51.

CHAPTER 142—POISON CONTROL CENTER ENHANCEMENT AND AWARENESS

§§14801 to 14805. Repealed. Pub. L. 108–194, §4, Dec. 19, 2003, 117 Stat. 2891

Section 14801, Pub. L. 106–174, §2, Feb. 25, 2000, 114 Stat. 18, related to congressional findings regarding poison control centers. See provisions set out as a note under section 300d–71 of this title.

Section 14802, Pub. L. 106–174, §3, Feb. 25, 2000, 114 Stat. 18, defined "Secretary".

Section 14803, Pub. L. 106–174, §4, Feb. 25, 2000, 114 Stat. 18, established a national toll-free number to

be used to access regional poison control centers. See section 300d–71 of this title.

Section 14804, Pub. L. 106–174, §5, Feb. 25, 2000, 114 Stat. 19, established a nationwide media campaign to educate the public and health care providers about poison prevention and the availability of poison control resources in local communities. See section 300d–72 of this title.

Section 14805, Pub. L. 106–174, §6, Feb. 25, 2000, 114 Stat. 19, related to the award of grants to certified regional poison control centers. See section 300d–73 of this title.

STATUTORY NOTES AND RELATED SUBSIDIARIES

SHORT TITLE

Pub. L. 106–174, §1, Feb. 25, 2000, 114 Stat. 18, which provided that Pub. L. 106–174, enacting this chapter, could be cited as the "Poison Control Center Enhancement and Awareness Act", was repealed by Pub. L. 108–194, §4, Dec. 19, 2003, 117 Stat. 2891.

CHAPTER 143—INTERCOUNTRY ADOPTIONS

Sec.

§14901. Findings and purposes

(a) Findings

Congress recognizes—

(1) the international character of the Convention on Protection of Children and Co-operation in Respect of Intercountry Adoption (done at The Hague on May 29, 1993); and

(2) the need for uniform interpretation and implementation of the Convention in the United

States and abroad,

and therefore finds that enactment of a Federal law governing adoptions and prospective adoptions subject to the Convention involving United States residents is essential.

(b) Purposes

The purposes of this chapter are—

(1) to provide for implementation by the United States of the Convention;

(2) to protect the rights of, and prevent abuses against, children, birth families, and adoptive parents involved in adoptions (or prospective adoptions) subject to the Convention, and to ensure that such adoptions are in the children's best interests; and

(3) to improve the ability of the Federal Government to assist United States citizens seeking to adopt children from abroad and residents of other countries party to the Convention seeking to adopt children from the United States.

(Pub. L. 106–279, §2, Oct. 6, 2000, 114 Stat. 825.)

EDITORIAL NOTES

REFERENCES IN TEXT

This chapter, referred to in subsec. (b), was in the original "this Act", meaning Pub. L. 106–279, Oct. 6, 2000, 114 Stat. 825, which is classified principally to this chapter. For complete classification of this Act to the Code, see Short Title note set out below and Tables.

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATES; TRANSITION RULE

Pub. L. 106–279, title V, §505, Oct. 6, 2000, 114 Stat. 844, provided that:

"(a) EFFECTIVE DATES.—

"(1) PROVISIONS EFFECTIVE UPON ENACTMENT.—Sections 2, 3, 101 through 103, 202 through 205, 401(a), 403, 503, and 505(a) [enacting this section and sections 14902, 14911 to 14913, 14922 to 14924, 14941(a), 14943, and 14953 of this title and amending section 622 of this title] shall take effect on the date of the enactment of this Act [Oct. 6, 2000].

"(2) PROVISIONS EFFECTIVE UPON THE ENTRY INTO FORCE OF THE CONVENTION .—Subject to subsection (b), the provisions of this Act not specified in paragraph (1) [enacting sections 14914, 14921, 14931, 14932, 14941(b), (c), 14942, 14944, 14951, 14952, and 14954 of this title, amending sections 1101 and 1154 of Title 8, Aliens and Nationality, and enacting provisions set out as notes under this section] shall take effect upon the entry into force of the Convention [Convention on Protection of Children and Co-operation in Respect of Intercountry Adoption] for the United States pursuant to Article 46(2)(a) of the Convention [The Convention entered into force for the United States on Apr. 1, 2008.].

"(b) TRANSITION RULE.—The Convention and this Act [see Short Title note below] shall not apply—

"(1) in the case of a child immigrating to the United States, if the application for advance processing of an orphan petition or petition to classify an orphan as an immediate relative for the child is filed before the effective date described in subsection (a)(2); or

"(2) in the case of a child emigrating from the United States, if the prospective adoptive parents of the child initiated the adoption process in their country of residence with the filing of an appropriate application before the effective date described in subsection (a)(2)."

SHORT TITLE OF 2020 AMENDMENT

Pub. L. 116–184, §1, Oct. 30, 2020, 134 Stat. 897, provided that: "This Act [amending section 14914 of this title and enacting provisions set out as notes under section 14914 of this title] may be cited as the 'Intercountry Adoption Information Act of 2019'."

SHORT TITLE OF 2013 AMENDMENT

Pub. L. 112–276, §1, Jan. 14, 2013, 126 Stat. 2466, provided that: "This Act [enacting section 14925 of this title, amending sections 14922 and 14943 of this title, and enacting provisions set out as a note under section 14925 of this title] may be cited as the 'Intercountry Adoption Universal Accreditation Act of 2012'."

SHORT TITLE

Pub. L. 106–279, §1(a), Oct. 6, 2000, 114 Stat. 825, provided that: "This Act [enacting this chapter and amending section 622 of this title and sections 1101 and 1154 of Title 8, Aliens and Nationality] may be cited as the 'Intercountry Adoption Act of 2000'."

§14902. Definitions

As used in this chapter:

(1) Accredited agency

The term "accredited agency" means an agency accredited under subchapter II to provide adoption services in the United States in cases subject to the Convention.

(2) Accrediting entity

The term "accrediting entity" means an entity designated under section 14922(a) of this title to accredit agencies and approve persons under subchapter II.

(3) Adoption service

The term "adoption service" means—

(A) identifying a child for adoption and arranging an adoption;

(B) securing necessary consent to termination of parental rights and to adoption;

(C) performing a background study on a child or a home study on a prospective adoptive parent, and reporting on such a study;

(D) making determinations of the best interests of a child and the appropriateness of adoptive placement for the child;

(E) post-placement monitoring of a case until final adoption; and

(F) where made necessary by disruption before final adoption, assuming custody and providing child care or any other social service pending an alternative placement.

The term "providing", with respect to an adoption service, includes facilitating the provision of the service.

(4) Agency

The term "agency" means any person other than an individual.

(5) Approved person

The term "approved person" means a person approved under subchapter II to provide adoption services in the United States in cases subject to the Convention.

(6) Attorney General

Except as used in section 14944 of this title, the term "Attorney General" means the Attorney General, acting through the Commissioner of Immigration and Naturalization.

(7) Central authority

The term "central authority" means the entity designated as such by any Convention country under Article 6(1) of the Convention.

(8) Central authority function

The term "central authority function" means any duty required to be carried out by a central authority under the Convention.

(9) Convention

The term "Convention" means the Convention on Protection of Children and Co-operation in Respect of Intercountry Adoption, done at The Hague on May 29, 1993.

(10) Convention adoption

The term "Convention adoption" means an adoption of a child resident in a foreign country

party to the Convention by a United States citizen, or an adoption of a child resident in the United States by an individual residing in another Convention country.

(11) Convention record

The term "Convention record" means any item, collection, or grouping of information contained in an electronic or physical document, an electronic collection of data, a photograph, an audio or video tape, or any other information storage medium of any type whatever that contains information about a specific past, current, or prospective Convention adoption (regardless of whether the adoption was made final) that has been preserved in accordance with section 14941(a) of this title by the Secretary of State or the Attorney General.

(12) Convention country

The term "Convention country" means a country party to the Convention.

(13) Other Convention country

The term "other Convention country" means a Convention country other than the United States.

(14) Person

The term "person" shall have the meaning provided in section 1 of title 1 and shall not include any agency of government or tribal government entity.

(15) Person with an ownership or control interest

The term "person with an ownership or control interest" has the meaning given such term in section 1320a–3(a)(3) of this title.

(16) Secretary

The term "Secretary" means the Secretary of State.

(17) State

The term "State" means the 50 States, the District of Columbia, the Commonwealth of Puerto Rico, the Commonwealth of the Northern Mariana Islands, Guam, and the Virgin Islands.

(Pub. L. 106–279, §3, Oct. 6, 2000, 114 Stat. 826.)

EDITORIAL NOTES

REFERENCES IN TEXT

This chapter, referred to in introductory provisions, was in the original "this Act", meaning Pub. L. 106–279, Oct. 6, 2000, 114 Stat. 825, known as the Intercountry Adoption Act of 2000, which is classified principally to this chapter. For complete classification of this Act to the Code, see Short Title note set out under section 14901 of this title and Tables.

Subchapter II, referred to in pars. (1), (2), and (5), was in the original "title II", meaning title II of Pub. L. 106–279, Oct. 6, 2000, 114 Stat. 830, which enacted subchapter II of this chapter and amended section 622 of this title. For complete classification of title II to the Code, see Tables.

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective Oct. 6, 2000, with transition rule, see section 505(a)(1), (b) of Pub. L. 106–279, set out as an Effective Dates; Transition Rule note under section 14901 of this title.

ABOLITION OF IMMIGRATION AND NATURALIZATION SERVICE AND TRANSFER OF FUNCTIONS

For abolition of Immigration and Naturalization Service, transfer of functions, and treatment of related references, see note set out under section 1551 of Title 8, Aliens and Nationality.

SUBCHAPTER I—UNITED STATES CENTRAL AUTHORITY

§14911. Designation of central authority

(a) In general

For purposes of the Convention and this chapter—

(1) the Department of State shall serve as the central authority of the United States; and

(2) the Secretary shall serve as the head of the central authority of the United States.

(b) Performance of central authority functions

(1) Except as otherwise provided in this chapter, the Secretary shall be responsible for the performance of all central authority functions for the United States under the Convention and this chapter.

(2) All personnel of the Department of State performing core central authority functions in a professional capacity in the Office of Children's Issues shall have a strong background in consular affairs, personal experience in international adoptions, or professional experience in international adoptions or child services.

(c) Authority to issue regulations

Except as otherwise provided in this chapter, the Secretary may prescribe such regulations as may be necessary to carry out central authority functions on behalf of the United States.

(Pub. L. 106–279, title I, §101, Oct. 6, 2000, 114 Stat. 827.)

For complete classification of this Act to the Code, see Short Title note set out under section 14901 of this title and Tables.

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective Oct. 6, 2000, with transition rule, see section 505(a)(1), (b) of Pub. L. 106–279, set out as an Effective Dates; Transition Rule note under section 14901 of this title.

§14912. Responsibilities of the Secretary of State

(a) Liaison responsibilities

The Secretary shall have responsibility for—

(1) liaison with the central authorities of other Convention countries; and

(2) the coordination of activities under the Convention by persons subject to the jurisdiction of the United States.

(b) Information exchange

The Secretary shall be responsible for—

(1) providing the central authorities of other Convention countries with information concerning—

(A) accredited agencies and approved persons, agencies and persons whose accreditation or approval has been suspended or canceled, and agencies and persons who have been temporarily or permanently debarred from accreditation or approval;

(B) Federal and State laws relevant to implementing the Convention; and

(C) any other matters necessary and appropriate for implementation of the Convention;

(2) not later than the date of the entry into force of the Convention for the United States (pursuant to Article 46(2)(a) of the Convention) and at least once during each subsequent calendar year, providing to the central authority of all other Convention countries a notice requesting the central authority of each such country to specify any requirements of such country regarding adoption, including restrictions on the eligibility of persons to adopt, with respect to which information on the prospective adoptive parent or parents in the United States would be relevant;

(3) making responses to notices under paragraph (2) available to—

(A) accredited agencies and approved persons; and

(B) other persons or entities performing home studies under section 14921(b)(1) of this title;

(4) ensuring the provision of a background report (home study) on prospective adoptive parent or parents (pursuant to the requirements of section 14923(b)(1)(A)(ii) of this title), through the central authority of each child's country of origin, to the court having jurisdiction over the adoption (or, in the case of a child emigrating to the United States for the purpose of adoption, to the competent authority in the child's country of origin with responsibility for approving the child's emigration) in adequate time to be considered prior to the granting of such adoption or approval;

(5) providing Federal agencies, State courts, and accredited agencies and approved persons with an identification of Convention countries and persons authorized to perform functions under the Convention in each such country; and

(6) facilitating the transmittal of other appropriate information to, and among, central authorities, Federal and State agencies (including State courts), and accredited agencies and approved persons.

(c) Accreditation and approval responsibilities

The Secretary shall carry out the functions prescribed by the Convention with respect to the accreditation of agencies and the approval of persons to provide adoption services in the United States in cases subject to the Convention as provided in subchapter II. Such functions may not be delegated to any other Federal agency.

(d) Additional responsibilities

The Secretary—

(1) shall monitor individual Convention adoption cases involving United States citizens; and

(2) may facilitate interactions between such citizens and officials of other Convention countries on matters relating to the Convention in any case in which an accredited agency or approved person is unwilling or unable to provide such facilitation.

(e) Establishment of registry

The Secretary and the Attorney General shall jointly establish a case registry of all adoptions involving immigration of children into the United States and emigration of children from the United States, regardless of whether the adoption occurs under the Convention. Such registry shall permit tracking of pending cases and retrieval of information on both pending and closed cases.

(f) Methods of performing responsibilities

The Secretary may—

(1) authorize public or private entities to perform appropriate central authority functions for which the Secretary is responsible, pursuant to regulations or under agreements published in the Federal Register; and

(2) carry out central authority functions through grants to, or contracts with, any individual or public or private entity, except as may be otherwise specifically provided in this chapter.

(Pub. L. 106–279, title I, §102, Oct. 6, 2000, 114 Stat. 828.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective Oct. 6, 2000, with transition rule, see section 505(a)(1), (b) of Pub. L. 106–279, set out as an Effective Dates; Transition Rule note under section 14901 of this title.

§14914. Annual report on intercountry adoptions

(a) Reports required

Beginning 1 year after the date of the entry into force of the Convention for the United States and each year thereafter, the Secretary, in consultation with the Attorney General and other appropriate agencies, shall submit a report describing the activities of the central authority of the United States under this chapter during the preceding year to the Committee on Foreign Affairs, the Committee on Ways and Means, and the Committee on the Judiciary of the House of Representatives and the Committee on Foreign Relations, the Committee on Finance, and the Committee on the Judiciary of the Senate.

(b) Report elements

Each report under subsection (a) shall set forth with respect to the year concerned, the following:

(1) The number of intercountry adoptions involving immigration to the United States, regardless of whether the adoption occurred under the Convention, including the country from which each child emigrated, the State to which each child immigrated, and the country in which the adoption

was finalized.

(2) The number of intercountry adoptions involving emigration from the United States, regardless of whether the adoption occurred under the Convention, including the country to which each child immigrated and the State from which each child emigrated.

(3) The number of Convention placements for adoption in the United States that were disrupted, including the country from which the child emigrated, the age of the child, the date of the placement for adoption, the reasons for the disruption, the resolution of the disruption, the agencies that handled the placement for adoption, and the plans for the child, and in addition, any information regarding disruption or dissolution of adoptions of children from other countries received pursuant to section 622(b)(12) of this title.

(4) The average time required for completion of a Convention adoption, set forth by country from which the child emigrated.

(5) The current list of agencies accredited and persons approved under this chapter to provide adoption services.

(6) The names of the agencies and persons temporarily or permanently debarred under this chapter, and the reasons for the debarment.

(7) The range of adoption fees charged in connection with Convention adoptions involving immigration to the United States and the median of such fees set forth by the country of origin.

(8) The range of fees charged for accreditation of agencies and the approval of persons in the United States engaged in providing adoption services under the Convention.

(9) A list of countries that established or maintained a significant law or regulation that prevented or prohibited adoptions involving immigration to the United States, regardless of whether such adoptions occurred under the Convention.

(10) For each country listed under paragraph (9), the date on which the law or regulation was initially implemented.

(11) Information on efforts taken with respect to a country listed under paragraph (9) to encourage the resumption of halted or stalled adoption proceedings involving immigration to the United States, regardless of whether the adoptions would have occurred under the Convention.

(12) Information on any action the Secretary carried out that prevented, prohibited, or halted any adoptions involving immigration to the United States, regardless of whether the adoptions occurred under the Convention.

(13) For each country listed pursuant to paragraph (12), a description of—

(A) what policies, procedures, resources, and safeguards the country lacks, or other shortcomings or circumstances, that caused the action to be carried out;

(B) what progress the country has made to alleviate those shortcomings; and

(C) what steps the Department of State has taken in order to assist the country to reopen intercountry adoptions.

(14) An assessment of the impact of the fee schedule of the Intercountry Adoption Accreditation and Maintenance Entity on families seeking to adopt internationally, especially low-income families, families seeking to adopt sibling groups, or families seeking to adopt children with disabilities.

(c) Public availability of report

The Secretary shall make the information contained in the report required under subsection (a) available to the public on the website of the Department of State.

(Pub. L. 106–279, title I, §104, Oct. 6, 2000, 114 Stat. 829; Pub. L. 109–288, §6(f)(9), Sept. 28, 2006, 120 Stat. 1248; Pub. L. 116–184, §2(a), (b), (d), Oct. 30, 2020, 134 Stat. 897, 898.)

EDITORIAL NOTES

REFERENCES IN TEXT

This chapter, referred to in subsecs. (a) and (b)(5), (6), was in the original "this Act", meaning Pub. L.

106–279, Oct. 6, 2000, 114 Stat. 825, known as the Intercountry Adoption Act of 2000, which is classified principally to this chapter. For complete classification of this Act to the Code, see Short Title note set out under section 14901 of this title and Tables.

AMENDMENTS

2020—Subsec. (a). Pub. L. 116–184, §2(d), substituted "Foreign Affairs" for "International Relations".
Subsec. (b)(9) to (14). Pub. L. 116–184, §2(a), added pars. (9) to (14).
Subsec. (c). Pub. L. 116–184, §2(b), added subsec. (c).
2006—Subsec. (b)(3). Pub. L. 109–288 substituted "622(b)(12)" for "622(b)(14)".

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE OF 2020 AMENDMENT

Pub. L. 116–184, §2(e), Oct. 30, 2020, 134 Stat. 898, provided that: "The amendments made by this section [amending this section] shall apply with respect to reports required to be submitted under section 104 of the Intercountry Adoption Act of 2000 (42 U.S.C. 14914) beginning on the date that is 180 days after the date of enactment of this Act [Oct. 30, 2020]."

EFFECTIVE DATE OF 2006 AMENDMENT

Amendment by Pub. L. 109–288 effective Oct. 1, 2006, and applicable to payments under parts B and E of subchapter IV of chapter 7 of this title for calendar quarters beginning on or after such date, without regard to whether implementing regulations have been promulgated, and with delay permitted if State legislation is required to meet additional requirements, see section 12(a), (b) of Pub. L. 109–288, set out as a note under section 621 of this title.

EFFECTIVE DATE

Section effective upon entry into force for the United States of the Convention on Protection of Children and Co-operation in Respect of Intercountry Adoption, pursuant to Article 46(2)(a) of the Convention, with transition rule, see section 505(a)(2), (b) of Pub. L. 106–279, set out as an Effective Dates; Transition Rule note under section 14901 of this title.

PRIVACY CONCERNS

Pub. L. 116–184, §2(c), Oct. 30, 2020, 134 Stat. 898, provided that: "In complying with the amendments made by subsections (a) and (b) [amending this section], the Secretary shall avoid, to the maximum extent practicable, disclosing any personally identifiable information relating to United States citizens or the adoptees of such citizens."

SUBCHAPTER II—PROVISIONS RELATING TO ACCREDITATION AND APPROVAL

§14921. Accreditation or approval required in order to provide adoption services in cases subject to the Convention

(a) In general

Except as otherwise provided in this subchapter, no person may offer or provide adoption services in connection with a Convention adoption in the United States unless that person—

(1) is accredited or approved in accordance with this subchapter; or

(2) is providing such services through or under the supervision and responsibility of an accredited agency or approved person.

(b) Exceptions

Subsection (a) shall not apply to the following:

(1) Background studies and home studies

The performance of a background study on a child or a home study on a prospective adoptive parent, or any report on any such study by a social work professional or organization who is not providing any other adoption service in the case, if the background or home study is approved by an accredited agency.

(2) Child welfare services

The provision of a child welfare service by a person who is not providing any other adoption service in the case.

(3) Legal services

The provision of legal services by a person who is not providing any adoption service in the case.

(4) Prospective adoptive parents acting on own behalf

The conduct of a prospective adoptive parent on his or her own behalf in the case, to the extent not prohibited by the law of the State in which the prospective adoptive parent resides.

(Pub. L. 106–279, title II, §201, Oct. 6, 2000, 114 Stat. 830.)

This subchapter, referred to in subsec. (a), was in the original "this title", meaning title II of Pub. L. 106–279, Oct. 6, 2000, 114 Stat. 830, which is classified principally to this subchapter. For complete classification of title II to the Code, see Tables.

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective upon entry into force for the United States of the Convention on Protection of Children and Co-operation in Respect of Intercountry Adoption, pursuant to Article 46(2)(a) of the Convention, with transition rule, see section 505(a)(2), (b) of Pub. L. 106–279, set out as an Effective Dates; Transition Rule note under section 14901 of this title.

§14922. Process for accreditation and approval; role of accrediting entities

(a) Designation of accrediting entities

(1) In general

The Secretary shall enter into agreements with one or more qualified entities under which such entities will perform the duties described in subsection (b) in accordance with the Convention, this subchapter, and the regulations prescribed under section 14923 of this title, and upon entering into each such agreement shall designate the qualified entity as an accrediting entity.

(2) Qualified entities

In paragraph (1), the term "qualified entity" means—

(A) a nonprofit private entity that has expertise in developing and administering standards for entities providing child welfare services and that meets such other criteria as the Secretary may by regulation establish; or

(B) a public entity (other than a Federal entity), including an agency or instrumentality of State government having responsibility for licensing adoption agencies, that—

(i) has expertise in developing and administering standards for entities providing child welfare services;

(ii) accredits only agencies located in the State in which the public entity is located; and

(iii) meets such other criteria as the Secretary may by regulation establish.

(b) Duties of accrediting entities

The duties described in this subsection are the following:

(1) Accreditation and approval

Accreditation of agencies, and approval of persons, to provide adoption services in the United States in cases subject to the Convention.

(2) Oversight

Ongoing monitoring of the compliance of accredited agencies and approved persons with applicable requirements, including review of complaints against such agencies and persons in accordance with procedures established by the accrediting entity and approved by the Secretary.

(3) Enforcement

Taking of adverse actions (including requiring corrective action, imposing sanctions, and refusing to renew, suspending, or canceling accreditation or approval) for noncompliance with applicable requirements, and notifying the agency or person against whom adverse actions are taken of the deficiencies necessitating the adverse action.

(4) Data, records, and reports

Collection of data, maintenance of records, and reporting to the Secretary, the United States central authority, State courts, and other entities (including on persons and agencies granted or denied approval or accreditation), to the extent and in the manner that the Secretary requires.

(5) Report on use of Federal funding

Not later than 90 days after an accrediting entity receives Federal funding authorized by section 14943 of this title, the entity shall submit a report to the Committee on Foreign Relations of the Senate and the Committee on Foreign Affairs of the House of Representatives that describes—

(A) the amount of such funding the entity received; and

(B) how such funding was, or will be, used by the entity.

(c) Remedies for adverse action by accrediting entity

(1) Correction of deficiency

An agency or person who is the subject of an adverse action by an accrediting entity may re-apply for accreditation or approval (or petition for termination of the adverse action) on demonstrating to the satisfaction of the accrediting entity that the deficiencies necessitating the adverse action have been corrected.

(2) No other administrative review

An adverse action by an accrediting entity shall not be subject to administrative review.

(3) Judicial review

An agency or person who is the subject of an adverse action by an accrediting entity may petition the United States district court in the judicial district in which the agency is located or the person resides to set aside the adverse action. The court shall review the adverse action in accordance with section 706 of title 5, and for purposes of such review the accrediting entity shall be considered an agency within the meaning of section 701 of such title.

(d) Fees

The amount of fees assessed by accrediting entities for the costs of accreditation shall be subject to approval by the Secretary. Such fees may not exceed the costs of accreditation. In reviewing the level of such fees, the Secretary shall consider the relative size of, the geographic location of, and the number of Convention adoption cases managed by the agencies or persons subject to accreditation or approval by the accrediting entity.

(Pub. L. 106–279, title II, §202, Oct. 6, 2000, 114 Stat. 831; Pub. L. 112–276, §3(b), Jan. 14, 2013, 126 Stat. 2467.)

AMENDMENTS

2013—Subsec. (b)(5). Pub. L. 112–276 added par. (5).

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective Oct. 6, 2000, with transition rule, see section 505(a)(1), (b) of Pub. L. 106–279, set out as an Effective Dates; Transition Rule note under section 14901 of this title.

§14923. Standards and procedures for providing accreditation or approval

(a) In general

(1) Promulgation of regulations

The Secretary, shall, by regulation, prescribe the standards and procedures to be used by accrediting entities for the accreditation of agencies and the approval of persons to provide adoption services in the United States in cases subject to the Convention.

(2) Consideration of views

In developing such regulations, the Secretary shall consider any standards or procedures developed or proposed by, and the views of, individuals and entities with interest and expertise in international adoptions and family social services, including public and private entities with experience in licensing and accrediting adoption agencies.

(3) Applicability of notice and comment rules

Subsections (b), (c), and (d) of section 553 of title 5 shall apply in the development and issuance of regulations under this section.

(b) Minimum requirements

(1) Accreditation

The standards prescribed under subsection (a) shall include the requirement that accreditation of an agency may not be provided or continued under this subchapter unless the agency meets the following requirements:

(A) Specific requirements

(i) The agency provides prospective adoptive parents of a child in a prospective Convention adoption a copy of the medical records of the child (which, to the fullest extent practicable, shall include an English-language translation of such records) on a date which is not later than the earlier of the date that is 2 weeks before: (I) the adoption; or (II) the date on which the prospective parents travel to a foreign country to complete all procedures in such country relating to the adoption.

(ii) The agency ensures that a thorough background report (home study) on the prospective adoptive parent or parents has been completed in accordance with the Convention and with applicable Federal and State requirements and transmitted to the Attorney General with respect to each Convention adoption. Each such report shall include a criminal background check and a full and complete statement of all facts relevant to the eligibility of the prospective adopting parent or parents to adopt a child under any requirements specified by the central authority of the child's country of origin under section 14912(b)(3) of this title, including, in the case of a

child emigrating to the United States for the purpose of adoption, the requirements of the child's country of origin applicable to adoptions taking place in such country. For purposes of this clause, the term "background report (home study)" includes any supplemental statement submitted by the agency to the Attorney General for the purpose of providing information relevant to any requirements specified by the child's country of origin.

(iii) The agency provides prospective adoptive parents with a training program that includes counseling and guidance for the purpose of promoting a successful intercountry adoption before such parents travel to adopt the child or the child is placed with such parents for adoption.

(iv) The agency employs personnel providing intercountry adoption services on a fee for service basis rather than on a contingent fee basis.

(v) The agency discloses fully its policies and practices, the disruption rates of its placements for intercountry adoption, and all fees charged by such agency for intercountry adoption.

(B) Capacity to provide adoption services

The agency has, directly or through arrangements with other persons, a sufficient number of appropriately trained and qualified personnel, sufficient financial resources, appropriate organizational structure, and appropriate procedures to enable the agency to provide, in accordance with this chapter, all adoption services in cases subject to the Convention.

(C) Use of social service professionals

The agency has established procedures designed to ensure that social service functions requiring the application of clinical skills and judgment are performed only by professionals with appropriate qualifications and credentials.

(D) Records, reports, and information matters

The agency is capable of—

(i) maintaining such records and making such reports as may be required by the Secretary, the United States central authority, and the accrediting entity that accredits the agency;

(ii) cooperating with reviews, inspections, and audits;

(iii) safeguarding sensitive individual information; and

(iv) complying with other requirements concerning information management necessary to ensure compliance with the Convention, this chapter, and any other applicable law.

(E) Liability insurance

The agency agrees to have in force adequate liability insurance for professional negligence and any other insurance that the Secretary considers appropriate.

(F) Compliance with applicable rules

The agency has established adequate measures to comply (and to ensure compliance of their agents and clients) with the Convention, this chapter, and any other applicable law.

(G) Nonprofit organization with state license to provide adoption services

The agency is a private nonprofit organization licensed to provide adoption services in at least one State.

(2) Approval

The standards prescribed under subsection (a) shall include the requirement that a person shall not be approved under this subchapter unless the person is a private for-profit entity that meets the requirements of subparagraphs (A) through (F) of paragraph (1) of this subsection.

(3) Renewal of accreditation or approval

The standards prescribed under subsection (a) shall provide that the accreditation of an agency or approval of a person under this subchapter shall be for a period of not less than 3 years and not more than 5 years, and may be renewed on a showing that the agency or person meets the requirements applicable to original accreditation or approval under this subchapter.

(c) Temporary registration of community based agencies

(1) One-year registration period for medium community based agencies

For a 1-year period after the entry into force of the Convention and notwithstanding subsection (b), the Secretary may provide, in regulations issued pursuant to subsection (a), that an agency may register with the Secretary and be accredited to provide adoption services in the United States in cases subject to the Convention during such period if the agency has provided adoption services in fewer than 100 intercountry adoptions in the preceding calendar year and meets the criteria described in paragraph (3).

(2) Two-year registration period for small community-based agencies

For a 2-year period after the entry into force of the Convention and notwithstanding subsection (b), the Secretary may provide, in regulations issued pursuant to subsection (a), that an agency may register with the Secretary and be accredited to provide adoption services in the United States in cases subject to the Convention during such period if the agency has provided adoption services in fewer than 50 intercountry adoptions in the preceding calendar year and meets the criteria described in paragraph (3).

(3) Criteria for registration

Agencies registered under this subsection shall meet the following criteria:

(A) The agency is licensed in the State in which it is located and is a nonprofit agency.

(B) The agency has been providing adoption services in connection with intercountry adoptions for at least 3 years.

(C) The agency has demonstrated that it will be able to provide the United States Government with all information related to the elements described in section 14914(b) of this title and provides such information.

(D) The agency has initiated the process of becoming accredited under the provisions of this chapter and is actively taking steps to become an accredited agency.

(E) The agency has not been found to be involved in any improper conduct relating to intercountry adoptions.

(Pub. L. 106–279, title II, §203, Oct. 6, 2000, 114 Stat. 832.)

This chapter, referred to in subsecs. (b)(1)(B), (D)(iv), (F) and (c)(3)(D) was in the original "this Act", meaning Pub. L. 106–279, Oct. 6, 2000, 114 Stat. 825, known as the Intercountry Adoption Act of 2000, which is classified principally to this chapter. For complete classification of this Act to the Code, see Short Title note set out under section 14901 of this title and Tables.

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective Oct. 6, 2000, with transition rule, see section 505(a)(1), (b) of Pub. L. 106–279, set out as an Effective Dates; Transition Rule note under section 14901 of this title.

§14924. Secretarial oversight of accreditation and approval

(a) Oversight of accrediting entities

The Secretary shall—

(1) monitor the performance by each accrediting entity of its duties under section 14922 of this title and its compliance with the requirements of the Convention, this chapter, other applicable

laws, and implementing regulations under this chapter; and

(2) suspend or cancel the designation of an accrediting entity found to be substantially out of compliance with the Convention, this chapter, other applicable laws, or implementing regulations under this chapter.

(b) Suspension or cancellation of accreditation or approval

(1) Secretary's authority

The Secretary shall suspend or cancel the accreditation or approval granted by an accrediting entity to an agency or person pursuant to section 14922 of this title when the Secretary finds that—

(A) the agency or person is substantially out of compliance with applicable requirements; and

(B) the accrediting entity has failed or refused, after consultation with the Secretary, to take appropriate enforcement action.

(2) Correction of deficiency

At any time when the Secretary is satisfied that the deficiencies on the basis of which an adverse action is taken under paragraph (1) have been corrected, the Secretary shall—

(A) notify the accrediting entity that the deficiencies have been corrected; and

(B)(i) in the case of a suspension, terminate the suspension; or

(ii) in the case of a cancellation, notify the agency or person that the agency or person may re-apply to the accrediting entity for accreditation or approval.

(c) Debarment

(1) Secretary's authority

On the initiative of the Secretary, or on request of an accrediting entity, the Secretary may temporarily or permanently debar an agency from accreditation or a person from approval under this subchapter, but only if—

(A) there is substantial evidence that the agency or person is out of compliance with applicable requirements; and

(B) there has been a pattern of serious, willful, or grossly negligent failures to comply or other aggravating circumstances indicating that continued accreditation or approval would not be in the best interests of the children and families concerned.

(2) Period of debarment

The Secretary's debarment order shall state whether the debarment is temporary or permanent. If the debarment is temporary, the Secretary shall specify a date, not earlier than 3 years after the date of the order, on or after which the agency or person may apply to the Secretary for withdrawal of the debarment.

(3) Effect of debarment

An accrediting entity may take into account the circumstances of the debarment of an agency or person that has been debarred pursuant to this subsection in considering any subsequent application of the agency or person, or of any other entity in which the agency or person has an ownership or control interest, for accreditation or approval under this subchapter.

(d) Judicial review

A person (other than a prospective adoptive parent), an agency, or an accrediting entity who is the subject of a final action of suspension, cancellation, or debarment by the Secretary under this subchapter may petition the United States District Court for the District of Columbia or the United States district court in the judicial district in which the person resides or the agency or accrediting entity is located to set aside the action. The court shall review the action in accordance with section 706 of title 5.

(e) Failure to ensure a full and complete home study

(1) In general

Willful, grossly negligent, or repeated failure to ensure the completion and transmission of a background report (home study) that fully complies with the requirements of section 14923(b)(1)(A)(ii) of this title shall constitute substantial noncompliance with applicable requirements.

(2) Regulations

Regulations promulgated under section 14923 of this title shall provide for—

(A) frequent and careful monitoring of compliance by agencies and approved persons with the requirements of section 14923(b)(A)(ii) [1] of this title; and

(B) consultation between the Secretary and the accrediting entity where an agency or person has engaged in substantial noncompliance with the requirements of section 14923(b)(A)(ii) [1] of this title, unless the accrediting entity has taken appropriate corrective action and the noncompliance has not recurred.

(3) Repeated failures to comply

Repeated serious, willful, or grossly negligent failures to comply with the requirements of section 14923(b)(1)(A)(ii) of this title by an agency or person after consultation between Secretary and the accrediting entity with respect to previous noncompliance by such agency or person shall constitute a pattern of serious, willful, or grossly negligent failures to comply under subsection (c)(1)(B).

(4) Failure to comply with certain requirements

A failure to comply with the requirements of section 14923(b)(1)(A)(ii) of this title shall constitute a serious failure to comply under subsection (c)(1)(B) unless it is shown by clear and convincing evidence that such noncompliance had neither the purpose nor the effect of determining the outcome of a decision or proceeding by a court or other competent authority in the United States or the child's country of origin.

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective Oct. 6, 2000, with transition rule, see section 505(a)(1), (b) of Pub. L. 106–279, set out as an Effective Dates; Transition Rule note under section 14901 of this title.

[1] So in original. Probably should be section "14923(b)(1)(A)(ii)".

§14925. Universal accreditation requirements

(a) In general

The provisions of title II and section 404 of the Intercountry Adoption Act of 2000 (42 U.S.C. 14901 et seq.[, 42 U.S.C. 14944]), and related implementing regulations, shall apply to any person

offering or providing adoption services in connection with a child described in section 1101(b)(1)(F) of title 8, to the same extent as they apply to the offering or provision of adoption services in connection with a Convention adoption. The Secretary of State, the Secretary of Homeland Security, the Attorney General (with respect to section 404(b) of the Intercountry Adoption Act of 2000 (42 U.S.C. 14944[(b)])), and the accrediting entities shall have the duties, responsibilities, and authorities under title II and title IV of the Intercountry Adoption Act of 2000 [42 U.S.C. 14921 et seq., 14941 et seq.] and related implementing regulations with respect to a person offering or providing such adoption services, irrespective of whether such services are offered or provided in connection with a Convention adoption.

(b) Effective date

The provisions of this section shall take effect 18 months after January 14, 2013.

(c) Transition rule

This Act shall not apply to a person offering or providing adoption services as described in subsection (a) in the case of a prospective adoption in which—

(1) an application for advance processing of an orphan petition or petition to classify an orphan as an immediate relative for a child is filed before the date that is 180 days after January 14, 2013; or

(2) the prospective adoptive parents of a child have initiated the adoption process with the filing of an appropriate application in a foreign country sufficient such that the Secretary of State is satisfied before the date that is 180 days after January 14, 2013.

CODIFICATION

Section was enacted as part of the Intercountry Adoption Universal Accreditation Act of 2012, and not as part of the Intercountry Adoption Act of 2000 which comprises this chapter.

STATUTORY NOTES AND RELATED SUBSIDIARIES

DEFINITIONS

Pub. L. 112–276, §4, Jan. 14, 2013, 126 Stat. 2467, provided that: "In this Act [see Short Title of 2013 Amendment note set out under section 14901 of this title], the terms 'accrediting entity', 'adoption service', 'Convention adoption', and 'person' have the meanings given those terms in section 3 of the Intercountry Adoption Act of 2000 (42 U.S.C. 14902)."

SUBCHAPTER III—RECOGNITION OF CONVENTION ADOPTIONS IN THE UNITED STATES

§14931. Adoptions of children immigrating to the United States

(a) Legal effect of certificates issued by the Secretary of State

(1) Issuance of certificates by the Secretary of State

The Secretary of State shall, with respect to each Convention adoption, issue a certificate to the adoptive citizen parent domiciled in the United States that the adoption has been granted or, in the case of a prospective adoptive citizen parent, that legal custody of the child has been granted to the citizen parent for purposes of emigration and adoption, pursuant to the Convention and this chapter, if the Secretary of State—

(A) receives appropriate notification from the central authority of such child's country of origin; and

(B) has verified that the requirements of the Convention and this chapter have been met with respect to the adoption.

(2) Legal effect of certificates

If appended to an original adoption decree, the certificate described in paragraph (1) shall be treated by Federal and State agencies, courts, and other public and private persons and entities as conclusive evidence of the facts certified therein and shall constitute the certification required by section 1154(d)(2) of title 8.

(b) Legal effect of Convention adoption finalized in another Convention country

A final adoption in another Convention country, certified by the Secretary of State pursuant to subsection (a) of this section or section 14932(c) of this title, shall be recognized as a final valid adoption for purposes of all Federal, State, and local laws of the United States.

(c) Condition on finalization of Convention adoption by State court

In the case of a child who has entered the United States from another Convention country for the purpose of adoption, an order declaring the adoption final shall not be entered unless the Secretary of State has issued the certificate provided for in subsection (a) with respect to the adoption.

(Pub. L. 106–279, title III, §301, Oct. 6, 2000, 114 Stat. 837.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective upon entry into force for the United States of the Convention on Protection of Children and Co-operation in Respect of Intercountry Adoption, pursuant to Article 46(2)(a) of the Convention, with transition rule, see section 505(a)(2), (b) of Pub. L. 106–279, set out as an Effective Dates; Transition Rule note under section 14901 of this title.

§14932. Adoptions of children emigrating from the United States

(a) Duties of accredited agency or approved person

In the case of a Convention adoption involving the emigration of a child residing in the United States to a foreign country, the accredited agency or approved person providing adoption services, or the prospective adoptive parent or parents acting on their own behalf (if permitted by the laws of such other Convention country in which they reside and the laws of the State in which the child resides), shall do the following:

(1) Ensure that, in accordance with the Convention—

(A) a background study on the child is completed;
(B) the accredited agency or approved person—
(i) has made reasonable efforts to actively recruit and make a diligent search for prospective adoptive parents to adopt the child in the United States; and
(ii) despite such efforts, has not been able to place the child for adoption in the United States in a timely manner; and

(C) a determination is made that placement with the prospective adoptive parent or parents is in the best interests of the child.

(2) Furnish to the State court with jurisdiction over the case—
(A) documentation of the matters described in paragraph (1);
(B) a background report (home study) on the prospective adoptive parent or parents (including a criminal background check) prepared in accordance with the laws of the receiving country; and
(C) a declaration by the central authority (or other competent authority) of such other Convention country—
(i) that the child will be permitted to enter and reside permanently, or on the same basis as the adopting parent, in the receiving country; and
(ii) that the central authority (or other competent authority) of such other Convention country consents to the adoption, if such consent is necessary under the laws of such country for the adoption to become final.

(3) Furnish to the United States central authority—
(A) official copies of State court orders certifying the final adoption or grant of custody for the purpose of adoption;
(B) the information and documents described in paragraph (2), to the extent required by the United States central authority; and
(C) any other information concerning the case required by the United States central authority to perform the functions specified in subsection (c) or otherwise to carry out the duties of the United States central authority under the Convention.

(b) Conditions on State court orders

An order declaring an adoption to be final or granting custody for the purpose of adoption in a case described in subsection (a) shall not be entered unless the court—
(1) has received and verified to the extent the court may find necessary—
(A) the material described in subsection (a)(2); and
(B) satisfactory evidence that the requirements of Articles 4 and 15 through 21 of the Convention have been met; and

(2) has determined that the adoptive placement is in the best interests of the child.

(c) Duties of the Secretary of State

In a case described in subsection (a), the Secretary, on receipt and verification as necessary of the material and information described in subsection (a)(3), shall issue, as applicable, an official certification that the child has been adopted or a declaration that custody for purposes of adoption has been granted, in accordance with the Convention and this chapter.

(d) Filing with registry regarding non-Convention adoptions

Accredited agencies, approved persons, and other persons, including governmental authorities, providing adoption services in an intercountry adoption not subject to the Convention that involves the emigration of a child from the United States shall file information required by regulations jointly issued by the Attorney General and the Secretary of State for purposes of implementing section 14912(e) of this title.

(Pub. L. 106–279, title III, §303, Oct. 6, 2000, 114 Stat. 839.)

This chapter, referred to in subsec. (c), was in the original "this Act", meaning Pub. L. 106–279, Oct. 6, 2000, 114 Stat. 825, known as the Intercountry Adoption Act of 2000, which is classified principally to this chapter. For complete classification of this Act to the Code, see Short Title note set out under section 14901 of this title and Tables.

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective upon entry into force for the United States of the Convention on Protection of Children and Co-operation in Respect of Intercountry Adoption, pursuant to Article 46(2)(a) of the Convention, with transition rule, see section 505(a)(2), (b) of Pub. L. 106–279, set out as an Effective Dates; Transition Rule note under section 14901 of this title.

SUBCHAPTER IV—ADMINISTRATION AND ENFORCEMENT

§14941. Access to Convention records

(a) Preservation of Convention records

(1) In general

Not later than 180 days after October 6, 2000, the Secretary, in consultation with the Attorney General, shall issue regulations that establish procedures and requirements in accordance with the Convention and this section for the preservation of Convention records.

(2) Applicability of notice and comment rules

Subsections (b), (c), and (d) of section 553 of title 5 shall apply in the development and issuance of regulations under this section.

(b) Access to Convention records

(1) Prohibition

Except as provided in paragraph (2), the Secretary or the Attorney General may disclose a Convention record, and access to such a record may be provided in whole or in part, only if such record is maintained under the authority of the Immigration and Nationality Act [8 U.S.C. 1101 et seq.] and disclosure of, or access to, such record is permitted or required by applicable Federal law.

(2) Exception for administration of the Convention

A Convention record may be disclosed, and access to such a record may be provided, in whole or in part, among the Secretary, the Attorney General, central authorities, accredited agencies, and approved persons, only to the extent necessary to administer the Convention or this chapter.

(3) Penalties for unlawful disclosure

Unlawful disclosure of all or part of a Convention record shall be punishable in accordance with applicable Federal law.

(c) Access to non-Convention records

Disclosure of, access to, and penalties for unlawful disclosure of, adoption records that are not Convention records, including records of adoption proceedings conducted in the United States, shall

be governed by applicable State law.

(Pub. L. 106–279, title IV, §401, Oct. 6, 2000, 114 Stat. 841.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Subsec. (a) of this section effective Oct. 6, 2000, and subsecs. (b) and (c) of this section effective upon entry into force for the United States of the Convention on Protection of Children and Co-operation in Respect of Intercountry Adoption, pursuant to Article 46(2)(a) of the Convention, with transition rule, see section 505 of Pub. L. 106–279, set out as an Effective Dates; Transition Rule note under section 14901 of this title.

§14942. Documents of other Convention countries

Documents originating in any other Convention country and related to a Convention adoption case shall require no authentication in order to be admissible in any Federal, State, or local court in the United States, unless a specific and supported claim is made that the documents are false, have been altered, or are otherwise unreliable.

(Pub. L. 106–279, title IV, §402, Oct. 6, 2000, 114 Stat. 841.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective upon entry into force for the United States of the Convention on Protection of Children and Co-operation in Respect of Intercountry Adoption, pursuant to Article 46(2)(a) of the Convention, with transition rule, see section 505(a)(2), (b) of Pub. L. 106–279, set out as an Effective Dates; Transition Rule note under section 14901 of this title.

§14943. Authorization of appropriations; collection of fees

(a) Authorization of appropriations

(1) In general

There are authorized to be appropriated such sums as may be necessary to agencies of the Federal Government implementing the Convention and the provisions of this chapter.

(2) Availability of funds

Amounts appropriated pursuant to paragraph (1) are authorized to remain available until expended.

(b) Assessment of fees

(1) The Secretary may charge a fee for new or enhanced services that will be undertaken by the Department of State to meet the requirements of this chapter with respect to intercountry adoptions

under the Convention and comparable services with respect to other intercountry adoptions. Such fee shall be prescribed by regulation and shall not exceed the cost of such services.

(2) Fees collected under paragraph (1) shall be retained and deposited as an offsetting collection to any Department of State appropriation to recover the costs of providing such services. Such fees shall remain available for obligation until expended.

(Pub. L. 106–279, title IV, §403, Oct. 6, 2000, 114 Stat. 841; Pub. L. 107–228, div. A, title II, §211(a), Sept. 30, 2002, 116 Stat. 1365; Pub. L. 112–276, §3(a), Jan. 14, 2013, 126 Stat. 2467.)

AMENDMENTS

2013—Subsec. (c). Pub. L. 112–276 struck out subsec. (c). Text read as follows: "No funds collected under the authority of this section may be made available to an accrediting entity to carry out the purposes of this chapter."

2002—Subsec. (b)(2). Pub. L. 107–228, §211(a)(1), inserted "Such fees shall remain available for obligation until expended." at end.

Subsec. (b)(3). Pub. L. 107–228, §211(a)(2), struck out par. (3) which read as follows: "Fees authorized under this section shall be available for obligation only to the extent and in the amount provided in advance in appropriations Acts."

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective Oct. 6, 2000, with transition rule, see section 505(a)(1), (b) of Pub. L. 106–279, set out as an Effective Dates; Transition Rule note under section 14901 of this title.

§14944. Enforcement

(a) Civil penalties

Any person who—

(1) violates section 14921 of this title;

(2) makes a false or fraudulent statement, or misrepresentation, with respect to a material fact, or offers, gives, solicits, or accepts inducement by way of compensation, intended to influence or affect in the United States or a foreign country—

(A) a decision by an accrediting entity with respect to the accreditation of an agency or approval of a person under subchapter II;

(B) the relinquishment of parental rights or the giving of parental consent relating to the adoption of a child in a case subject to the Convention; or

(C) a decision or action of any entity performing a central authority function; or

(3) engages another person as an agent, whether in the United States or in a foreign country, who in the course of that agency takes any of the actions described in paragraph (1) or (2),

shall be subject, in addition to any other penalty that may be prescribed by law, to a civil money penalty of not more than $50,000 for a first violation, and not more than $100,000 for each succeeding violation.

(b) Civil enforcement

(1) Authority of Attorney General

The Attorney General may bring a civil action to enforce subsection (a) against any person in any United States district court.

(2) Factors to be considered in imposing penalties

In imposing penalties the court shall consider the gravity of the violation, the degree of culpability of the defendant, and any history of prior violations by the defendant.

(c) Criminal penalties

Whoever knowingly and willfully violates paragraph (1) or (2) of subsection (a) shall be subject to a fine of not more than $250,000, imprisonment for not more than 5 years, or both.

(Pub. L. 106–279, title IV, §404, Oct. 6, 2000, 114 Stat. 842.)

L. 106–279, set out as an Effective Dates; Transition Rule note under section 14901 of this title.

SUBCHAPTER V—GENERAL PROVISIONS

§14951. Recognition of Convention adoptions

Subject to Article 24 of the Convention, adoptions concluded between two other Convention countries that meet the requirements of Article 23 of the Convention and that became final before the date of entry into force of the Convention for the United States shall be recognized thereafter in the United States and given full effect. Such recognition shall include the specific effects described in Article 26 of the Convention.

L. 106–279, set out as an Effective Dates; Transition Rule note under section 14901 of this title.

§14952. Special rules for certain cases

(a) Authority to establish alternative procedures for adoption of children by relatives

To the extent consistent with the Convention, the Secretary may establish by regulation alternative procedures for the adoption of children by individuals related to them by blood, marriage, or adoption, in cases subject to the Convention.

(b) Waiver authority

(1) In general

Notwithstanding any other provision of this chapter, to the extent consistent with the Convention, the Secretary may, on a case-by-case basis, waive applicable requirements of this chapter or regulations issued under this chapter, in the interests of justice or to prevent grave physical harm to the child.

(2) Nondelegation

The authority provided by paragraph (1) may not be delegated.

§14953. Relationship to other laws

(a) Preemption of inconsistent State law

The Convention and this chapter shall not be construed to preempt any provision of the law of any State or political subdivision thereof, or prevent a State or political subdivision thereof from enacting any provision of law with respect to the subject matter of the Convention or this chapter, except to the extent that such provision of State law is inconsistent with the Convention or this chapter, and then only to the extent of the inconsistency.

(b) Applicability of the Indian Child Welfare Act

The Convention and this chapter shall not be construed to affect the application of the Indian Child Welfare Act of 1978 (25 U.S.C. 1901 et seq.).

(c) Relationship to other laws

Sections 3506(c), 3507, and 3512 of title 44 shall not apply to information collection for purposes of sections 14914, 14922(b)(4), and 14932(d) of this title or for use as a Convention record as defined in this chapter.

CHAPTER 144—DEVELOPMENTAL DISABILITIES ASSISTANCE AND BILL OF RIGHTS

SUBCHAPTER I—PROGRAMS FOR INDIVIDUALS WITH DEVELOPMENTAL DISABILITIES

PART A—GENERAL PROVISIONS

Sec.

SUBCHAPTER I—PROGRAMS FOR INDIVIDUALS WITH DEVELOPMENTAL DISABILITIES

PART A—GENERAL PROVISIONS

§15001. Findings, purposes, and policy

(a) Findings

Congress finds that—

(1) disability is a natural part of the human experience that does not diminish the right of individuals with developmental disabilities to live independently, to exert control and choice over their own lives, and to fully participate in and contribute to their communities through full integration and inclusion in the economic, political, social, cultural, and educational mainstream of United States society;

(2) in 1999, there were between 3,200,000 and 4,500,000 individuals with developmental disabilities in the United States, and recent studies indicate that individuals with developmental disabilities comprise between 1.2 and 1.65 percent of the United States population;

(3) individuals whose disabilities occur during their developmental period frequently have severe disabilities that are likely to continue indefinitely;

(4) individuals with developmental disabilities often encounter discrimination in the provision of critical services, such as services in the areas of emphasis (as defined in section 15002 of this title);

(5) individuals with developmental disabilities are at greater risk than the general population of abuse, neglect, financial and sexual exploitation, and the violation of their legal and human rights;

(6) a substantial portion of individuals with developmental disabilities and their families do not have access to appropriate support and services, including access to assistive technology, from generic and specialized service systems, and remain unserved or underserved;

(7) individuals with developmental disabilities often require lifelong community services, individualized supports, and other forms of assistance, that are most effective when provided in a coordinated manner;

(8) there is a need to ensure that services, supports, and other assistance are provided in a culturally competent manner, that ensures that individuals from racial and ethnic minority backgrounds are fully included in all activities provided under this subchapter;

(9) family members, friends, and members of the community can play an important role in enhancing the lives of individuals with developmental disabilities, especially when the family members, friends, and community members are provided with the necessary community services, individualized supports, and other forms of assistance;

(10) current research indicates that 88 percent of individuals with developmental disabilities live with their families or in their own households;

(11) many service delivery systems and communities are not prepared to meet the impending needs of the 479,862 adults with developmental disabilities who are living at home with parents who are 60 years old or older and who serve as the primary caregivers of the adults;

(12) in almost every State, individuals with developmental disabilities are waiting for appropriate services in their communities, in the areas of emphasis;

(13) the public needs to be made more aware of the capabilities and competencies of individuals with developmental disabilities, particularly in cases in which the individuals are provided with necessary services, supports, and other assistance;

(14) as increasing numbers of individuals with developmental disabilities are living, learning, working, and participating in all aspects of community life, there is an increasing need for a well trained workforce that is able to provide the services, supports, and other forms of direct assistance required to enable the individuals to carry out those activities;

(15) there needs to be greater effort to recruit individuals from minority backgrounds into professions serving individuals with developmental disabilities and their families;

(16) the goals of the Nation properly include a goal of providing individuals with developmental disabilities with the information, skills, opportunities, and support to—

(A) make informed choices and decisions about their lives;

(B) live in homes and communities in which such individuals can exercise their full rights and responsibilities as citizens;

(C) pursue meaningful and productive lives;

(D) contribute to their families, communities, and States, and the Nation;

(E) have interdependent friendships and relationships with other persons;

(F) live free of abuse, neglect, financial and sexual exploitation, and violations of their legal and human rights; and

(G) achieve full integration and inclusion in society, in an individualized manner, consistent with the unique strengths, resources, priorities, concerns, abilities, and capabilities of each individual; and

(17) as the Nation, States, and communities maintain and expand community living options for individuals with developmental disabilities, there is a need to evaluate the access to those options by individuals with developmental disabilities and the effects of those options on individuals with developmental disabilities.

(b) Purpose

The purpose of this subchapter is to assure that individuals with developmental disabilities and their families participate in the design of and have access to needed community services, individualized supports, and other forms of assistance that promote self-determination, independence, productivity, and integration and inclusion in all facets of community life, through culturally competent programs authorized under this subchapter, including specifically—

(1) State Councils on Developmental Disabilities in each State to engage in advocacy, capacity building, and systemic change activities that—

(A) are consistent with the purpose described in this subsection and the policy described in subsection (c); and

(B) contribute to a coordinated, consumer- and family-centered, consumer- and family-directed, comprehensive system that includes needed community services, individualized supports, and other forms of assistance that promote self-determination for individuals with developmental disabilities and their families;

(2) protection and advocacy systems in each State to protect the legal and human rights of individuals with developmental disabilities;

(3) University Centers for Excellence in Developmental Disabilities Education, Research, and Service—

(A) to provide interdisciplinary pre-service preparation and continuing education of students and fellows, which may include the preparation and continuing education of leadership, direct service, clinical, or other personnel to strengthen and increase the capacity of States and communities to achieve the purpose of this subchapter;

(B) to provide community services—

(i) that provide training and technical assistance for individuals with developmental disabilities, their families, professionals, paraprofessionals, policymakers, students, and other members of the community; and

(ii) that may provide services, supports, and assistance for the persons described in clause (i) through demonstration and model activities;

(C) to conduct research, which may include basic or applied research, evaluation, and the analysis of public policy in areas that affect or could affect, either positively or negatively, individuals with developmental disabilities and their families; and

(D) to disseminate information related to activities undertaken to address the purpose of this subchapter, especially dissemination of information that demonstrates that the network

authorized under this part is a national and international resource that includes specific substantive areas of expertise that may be accessed and applied in diverse settings and circumstances; and

(4) funding for—

(A) national initiatives to collect necessary data on issues that are directly or indirectly relevant to the lives of individuals with developmental disabilities;

(B) technical assistance to entities who engage in or intend to engage in activities consistent with the purpose described in this subsection or the policy described in subsection (c); and

(C) other nationally significant activities.

(c) Policy

It is the policy of the United States that all programs, projects, and activities receiving assistance under this subchapter shall be carried out in a manner consistent with the principles that—

(1) individuals with developmental disabilities, including those with the most severe developmental disabilities, are capable of self-determination, independence, productivity, and integration and inclusion in all facets of community life, but often require the provision of community services, individualized supports, and other forms of assistance;

(2) individuals with developmental disabilities and their families have competencies, capabilities, and personal goals that should be recognized, supported, and encouraged, and any assistance to such individuals should be provided in an individualized manner, consistent with the unique strengths, resources, priorities, concerns, abilities, and capabilities of such individuals;

(3) individuals with developmental disabilities and their families are the primary decisionmakers regarding the services and supports such individuals and their families receive, including regarding choosing where the individuals live from available options, and play decisionmaking roles in policies and programs that affect the lives of such individuals and their families;

(4) services, supports, and other assistance should be provided in a manner that demonstrates respect for individual dignity, personal preferences, and cultural differences;

(5) specific efforts must be made to ensure that individuals with developmental disabilities from racial and ethnic minority backgrounds and their families enjoy increased and meaningful opportunities to access and use community services, individualized supports, and other forms of assistance available to other individuals with developmental disabilities and their families;

(6) recruitment efforts in disciplines related to developmental disabilities relating to pre-service training, community training, practice, administration, and policymaking must focus on bringing larger numbers of racial and ethnic minorities into the disciplines in order to provide appropriate skills, knowledge, role models, and sufficient personnel to address the growing needs of an increasingly diverse population;

(7) with education and support, communities can be accessible to and responsive to the needs of individuals with developmental disabilities and their families and are enriched by full and active participation in community activities, and contributions, by individuals with developmental disabilities and their families;

(8) individuals with developmental disabilities have access to opportunities and the necessary support to be included in community life, have interdependent relationships, live in homes and communities, and make contributions to their families, communities, and States, and the Nation;

(9) efforts undertaken to maintain or expand community-based living options for individuals with disabilities should be monitored in order to determine and report to appropriate individuals and entities the extent of access by individuals with developmental disabilities to those options and the extent of compliance by entities providing those options with quality assurance standards;

(10) families of children with developmental disabilities need to have access to and use of safe and appropriate child care and before-school and after-school programs, in the most integrated settings, in order to enrich the participation of the children in community life;

(11) individuals with developmental disabilities need to have access to and use of public transportation, in order to be independent and directly contribute to and participate in all facets of

community life; and

(12) individuals with developmental disabilities need to have access to and use of recreational, leisure, and social opportunities in the most integrated settings, in order to enrich their participation in community life.

(Pub. L. 106–402, title I, §101, Oct. 30, 2000, 114 Stat. 1678.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

SHORT TITLE

Pub. L. 106–402, §1(a), Oct. 30, 2000, 114 Stat. 1677, provided that: "This Act [see Tables for classification] may be cited as the 'Developmental Disabilities Assistance and Bill of Rights Act of 2000'."

Pub. L. 106–402, title II, §201, Oct. 30, 2000, 114 Stat. 1728, provided that: "This title [enacting subchapter II of this chapter] may be cited as the 'Families of Children With Disabilities Support Act of 2000'."

SPECIAL OLYMPICS SPORT AND EMPOWERMENT

Pub. L. 108–406, Oct. 30, 2004, 118 Stat. 2294, as amended by Pub. L. 115–31, div. H, title V, §527, May 5, 2017, 131 Stat. 566, provided that:

"SECTION 1. SHORT TITLE.

"This Act may be cited as the 'Special Olympics Sport and Empowerment Act of 2004'.

"SEC. 2. FINDINGS AND PURPOSE.

"(a) FINDINGS.—Congress finds the following:

"(1) Special Olympics celebrates the possibilities of a world where everybody matters, everybody counts, every person has value, and every person has worth.

"(2) The Government and the people of the United States recognize the dignity and value the giftedness of children and adults with an intellectual disability.

"(3) The Government and the people of the United States are determined to end the isolation and stigmatization of people with an intellectual disability.

"(4) For more than 36 years, Special Olympics has encouraged skill, sharing, courage, and joy through year-round sports training and athletic competition for children and adults with intellectual disabilities.

"(5) Special Olympics provides year-round sports training and competitive opportunities to 1,500,000 athletes with intellectual disabilities in 26 sports and plans to expand the joy of participation through sport to hundreds of thousands of people with intellectual disabilities within the United States and worldwide over the next 5 years.

"(6) Special Olympics has demonstrated its ability to provide a major positive effect on the quality of life of people with intellectual disabilities, improving their health and physical well-being, building their confidence and self-esteem, and giving them a voice to become active and productive members of their communities.

"(7) In society as a whole, Special Olympics has become a vehicle and platform for breaking down artificial barriers, improving public health, changing negative attitudes in education, and helping athletes overcome the prejudice that people with intellectual disabilities face in too many places.

"(8) The Government of the United States enthusiastically supports Special Olympics, recognizes its importance in improving the lives of people with intellectual disabilities, and recognizes Special Olympics as a valued and important component of the global community.

"(b) PURPOSE.—The purposes of this Act are to—

"(1) provide support to Special Olympics to increase athlete participation in and public awareness about the Special Olympics movement;

"(2) dispel negative stereotypes about people with intellectual disabilities;

"(3) build athletic and family involvement through sport; and

"(4) promote the extraordinary gifts of people with intellectual disabilities.

"SEC. 3. ASSISTANCE FOR SPECIAL OLYMPICS.

"(a) EDUCATION ACTIVITIES.—The Secretary of Education may award grants to, or enter into contracts or cooperative agreements with, Special Olympics to carry out the following:

"(1) Activities to promote the expansion of Special Olympics, including activities to increase the participation of individuals with intellectual disabilities within the United States.

"(2) The design and implementation of Special Olympics education programs, including character

education and volunteer programs that support the purposes of this Act, that can be integrated into classroom instruction and are consistent with academic content standards.

"(b) INTERNATIONAL ACTIVITIES.—The Secretary of State may award grants to, or enter into contracts or cooperative agreements with, Special Olympics to carry out the following:

"(1) Activities to increase the participation of individuals with intellectual disabilities in Special Olympics outside of the United States.

"(2) Activities to improve the awareness outside of the United States of the abilities and unique contributions that individuals with intellectual disabilities can make to society.

"(c) HEALTHY ATHLETES.—

"(1) IN GENERAL.—The Secretary of Health and Human Services may award grants to, or enter into contracts or cooperative agreements with, Special Olympics for the implementation of on-site health assessments, screening for health problems, health education, data collection, and referrals to direct health care services.

"(2) COORDINATION.—Activities under paragraph (1) shall be coordinated with private health providers, existing authorized programs of State and local jurisdictions, or the Department of Health and Human Services, as applicable.

"(d) LIMITATION.—Amounts appropriated to carry out this section shall not be used for direct treatment of diseases, medical conditions, or mental health conditions. Nothing in the preceding sentence shall be construed to limit the use of non-Federal funds by Special Olympics.

"SEC. 4. APPLICATION AND ANNUAL REPORT.

"(a) APPLICATION.—

"(1) IN GENERAL.—To be eligible for a grant, contract, or cooperative agreement under subsection (a), (b), or (c) of section 3, Special Olympics shall submit an application at such time, in such manner, and containing such information as the Secretary of Education, Secretary of State, or Secretary of Health and Human Services, as applicable, may require.

"(2) CONTENT.—At a minimum, an application under this subsection shall contain the following:

"(A) ACTIVITIES.—A description of activities to be carried out with the grant, contract, or cooperative agreement.

"(B) MEASURABLE GOALS.—Information on specific measurable goals and objectives to be achieved through activities carried out with the grant, contract, or cooperative agreement.

"(b) ANNUAL REPORT.—

"(1) IN GENERAL.—As a condition on receipt of any funds under subsection (a), (b), or (c) of section 3, Special Olympics shall agree to submit an annual report at such time, in such manner, and containing such information as the Secretary of Education, Secretary of State, or Secretary of Health and Human Services, as applicable, may require.

"(2) CONTENT.—At a minimum, each annual report under this subsection shall describe the degree to which progress has been made toward meeting the goals and objectives described in the applications submitted under subsection (a).

"SEC. 5. AUTHORIZATION OF APPROPRIATIONS.

"There are authorized to be appropriated—

"(1) for grants, contracts, or cooperative agreements under section 3(a), such sums as may be necessary for fiscal year 2017 and each of the 4 succeeding fiscal years;

"(2) for grants, contracts, or cooperative agreements under section 3(b), such sums as may be necessary for fiscal year 2017 and each of the 4 succeeding fiscal years; and

"(3) for grants, contracts, or cooperative agreements under section 3(c), such sums as may be necessary for fiscal year 2017 and each of the 4 succeeding fiscal years."

EXECUTIVE DOCUMENTS

EX. ORD. NO. 12994. PRESIDENT'S COMMITTEE ON MENTAL RETARDATION

Ex. Ord. No. 12994, Mar. 21, 1996, 61 F.R. 13047, as amended by Ex. Ord. No. 13309, July 25, 2003, 68 F.R. 44851; Ex. Ord. No. 13446, §5, Sept. 28, 2007, 72 F.R. 56176, provided:

By the authority vested in me as President by the Constitution and the laws of the United States of America, and in order to promote full participation of people with intellectual disabilities in their communities, it is hereby ordered as follows:

SECTION 1. *Committee Continued and Responsibilities Expanded*. The President's Committee on Mental

Retardation, with expanded membership and expanded responsibilities, and renamed the President's Committee for People with Intellectual Disabilities (Committee), is hereby continued in operation.

SEC. 2. *Composition of Committee*. (a) The Committee shall be composed of the following members:

(1) The Attorney General;

(2) The Secretary of the Interior;

(3) The Secretary of Commerce;

(4) The Secretary of Labor;

(5) The Secretary of Health and Human Services;

(6) The Secretary of Housing and Urban Development;

(7) The Secretary of Transportation;

(8) The Secretary of Education;

(9) The Secretary of Homeland Security;

(10) The Chief Executive Officer of the Corporation for National and Community Service;

(11) The Commissioner of Social Security;

(12) The Chairman of the Equal Employment Opportunity Commission;

(13) The Chairperson of the National Council on Disability; and

(14) No more than 21 other members who shall be appointed to the Committee by the President. These citizen members shall consist of individuals who represent a broad spectrum of perspectives, experience, and expertise on intellectual disabilities; persons with intellectual disabilities and members of families with a child or adult with intellectual disabilities; and persons employed in either the public or the private sector. Except as the President may from time to time otherwise direct, appointees under this paragraph shall serve for two-year terms, except that an appointment made to fill a vacancy occurring before the expiration of a term shall be made for the balance of the unexpired term.

(b) The President shall designate the Chair of the Committee from the 21 citizen members. The Chair shall preside over meetings of the Committee and represent the Committee on appropriate occasions.

SEC. 3. *Functions of the Committee*. (a) Consistent with subsection (c) of this section, the Committee shall:

(1) provide such advice concerning intellectual disabilities as the President or the Secretary of Health and Human Services may request; and

(2) provide advice to the President concerning the following for people with intellectual disabilities:

(A) expansion of educational opportunities;

(B) promotion of homeownership;

(C) assurance of workplace integration;

(D) improvement of transportation options;

(E) expansion of full access to community living; and

(F) increasing access to assistive and universally designed technologies.

(b) The Committee shall provide an annual report to the President through the Secretary of Health and Human Services. Such additional reports may be made as the President may direct or as the Committee may deem appropriate.

(c) The members shall advise the President and carry out their advisory role consistent with the requirements of the Federal Advisory Committee Act, as amended (5 U.S.C. App.).

SEC. 4. *Cooperation by Agencies*. The heads of Federal departments and agencies shall:

(a) designate, when requested by the Secretary of Health and Human Services, an officer or employee of such department or agency to serve as a liaison with the Committee; and

(b) furnish such information and assistance to the Committee, to the extent permitted by law, as the Secretary of Health and Human Services may request to assist the Committee in performing its functions under this order.

SEC. 5. *Administration*. (a) The Department of Health and Human Services shall provide the Committee with necessary staff support, administrative services and facilities, and funding, to the extent permitted by law.

(b) Each member of the Committee, except any member who receives other compensation from the United States Government, may receive compensation for each day engaged in the work of the Committee, as authorized by law (5 U.S.C. 3109), and may also receive travel expenses, including per diem in lieu of subsistence, as authorized by law (5 U.S.C. 5701–5707), for persons employed intermittently in the Government service. Committee members with disabilities may be compensated for attendant expenses, consistent with Government procedures and practices.

(c) The Secretary of Health and Human Services shall perform such other functions with respect to the Committee as may be required by the Federal Advisory Committee Act, as amended (5 U.S.C. App.), except that of reporting to the Congress.

SEC. 6. *General*. (a) Nothing in this order shall be construed as subjecting any Federal agency, or any

function vested by law in, or assigned pursuant to law to, any Federal agency, to the authority of the Committee or as abrogating or restricting any such function in any manner.

(b) This order is not intended to, and does not, create any right or benefit, substantive or procedural, enforceable at law or in equity by any party against the United States, its departments, agencies, instrumentalities, or entities, its officers or employees, or any other person.

EXTENSION OF TERM OF PRESIDENT'S COMMITTEE FOR PEOPLE WITH INTELLECTUAL DISABILITIES

Term of the President's Committee for People with Intellectual Disabilities extended until Sept. 30, 2023, by Ex. Ord. No. 14048, Sept. 30, 2021, 86 F.R. 55465, set out as a note under section 14 of the Federal Advisory Committee Act in the Appendix to Title 5, Government Organization and Employees.

Previous extensions of term of the President's Committee for People with Intellectual Disabilities (formerly President's Committee on Mental Retardation) were contained in the following prior Executive Orders:

Ex. Ord. No. 13889, Sept. 27, 2019, 84 F.R. 52743, extended term until Sept. 30, 2021.
Ex. Ord. No. 13811, Sept. 29, 2017, 82 F.R. 46363, extended term until Sept. 30, 2019.
Ex. Ord. No. 13708, Sept. 30, 2015, 80 F.R. 60271, extended term until Sept. 30, 2017.
Ex. Ord. No. 13652, Sept. 30, 2013, 78 F.R. 61817, extended term until Sept. 30, 2015.
Ex. Ord. No. 13585, Sept. 30, 2011, 76 F.R. 62281, extended term until Sept. 30, 2013.
Ex. Ord. No. 13511, Sept. 29, 2009, 74 F.R. 50909, extended term until Sept. 30, 2011.
Ex. Ord. No. 13446, Sept. 28, 2007, 72 F.R. 56175, extended term until Sept. 30, 2009.
Ex. Ord. No. 13385, Sept. 29, 2005, 70 F.R. 57989, extended term until Sept. 30, 2007.
Ex. Ord. No. 13309, §5, July 25, 2003, 68 F.R. 44851, changed name to Committee for People with Intellectual Disabilities and extended term until Sept. 30, 2005.
Ex. Ord. No. 13225, Sept. 28, 2001, 66 F.R. 50291, extended term until Sept. 30, 2003.
Ex. Ord. No. 13138, Sept. 30, 1999, 64 F.R. 53879, extended term until Sept. 30, 2001.
Ex. Ord. No. 13062, §1(k), Sept. 29, 1997, 62 F.R. 51755, extended term until Sept. 30, 1999.
Ex. Ord. No. 12974, Sept. 29, 1995, 60 F.R. 51875, extended term until Sept. 30, 1997.
Ex. Ord. No. 12869, Sept. 30, 1993, 58 F.R. 51751, extended term until Sept. 30, 1995.
Ex. Ord. No. 12774, Sept. 27, 1991, 56 F.R. 49835, extended term until Sept. 30, 1993.
Ex. Ord. No. 12692, Sept. 29, 1989, 54 F.R. 40627, extended term until Sept. 30, 1991.
Ex. Ord. No. 12610, Sept. 30, 1987, 52 F.R. 36901, extended term until Sept. 30, 1989.
Ex. Ord. No. 12534, Sept. 30, 1985, 50 F.R. 40319, extended term until Sept. 30, 1987.
Ex. Ord. No. 12489, Sept. 28, 1984, 49 F.R. 38927, extended term until Sept. 30, 1985.
Ex. Ord. No. 12399, Dec. 31, 1982, 48 F.R. 379, extended term until Sept. 30, 1984.
Ex. Ord. No. 12258, Dec. 31, 1980, 46 F.R. 1251, extended term of President's Committee on Mental Retardation until Dec. 31, 1982.

§15002. Definitions

In this subchapter:

(1) American Indian Consortium

The term "American Indian Consortium" means any confederation of 2 or more recognized American Indian tribes, created through the official action of each participating tribe, that has a combined total resident population of 150,000 enrolled tribal members and a contiguous territory of Indian lands in 2 or more States.

(2) Areas of emphasis

The term "areas of emphasis" means the areas related to quality assurance activities, education activities and early intervention activities, child care-related activities, health-related activities, employment-related activities, housing-related activities, transportation-related activities, recreation-related activities, and other services available or offered to individuals in a community, including formal and informal community supports, that affect their quality of life.

(3) Assistive technology device

The term "assistive technology device" means any item, piece of equipment, or product system, whether acquired commercially, modified or customized, that is used to increase, maintain, or

improve functional capabilities of individuals with developmental disabilities.

(4) Assistive technology service

The term "assistive technology service" means any service that directly assists an individual with a developmental disability in the selection, acquisition, or use of an assistive technology device. Such term includes—

(A) conducting an evaluation of the needs of an individual with a developmental disability, including a functional evaluation of the individual in the individual's customary environment;

(B) purchasing, leasing, or otherwise providing for the acquisition of an assistive technology device by an individual with a developmental disability;

(C) selecting, designing, fitting, customizing, adapting, applying, maintaining, repairing or replacing an assistive technology device;

(D) coordinating and using another therapy, intervention, or service with an assistive technology device, such as a therapy, intervention, or service associated with an education or rehabilitation plan or program;

(E) providing training or technical assistance for an individual with a developmental disability, or, where appropriate, a family member, guardian, advocate, or authorized representative of an individual with a developmental disability; and

(F) providing training or technical assistance for professionals (including individuals providing education and rehabilitation services), employers, or other individuals who provide services to, employ, or are otherwise substantially involved in the major life functions of, an individual with developmental disabilities.

(5) Center

The term "Center" means a University Center for Excellence in Developmental Disabilities Education, Research, and Service established under part D.

(6) Child care-related activities

The term "child care-related activities" means advocacy, capacity building, and systemic change activities that result in families of children with developmental disabilities having access to and use of child care services, including before-school, after-school, and out-of-school services, in their communities.

(7) Culturally competent

The term "culturally competent", used with respect to services, supports, or other assistance, means services, supports, or other assistance that is conducted or provided in a manner that is responsive to the beliefs, interpersonal styles, attitudes, language, and behaviors of individuals who are receiving the services, supports, or other assistance, and in a manner that has the greatest likelihood of ensuring their maximum participation in the program involved.

(8) Developmental disability

(A) In general

The term "developmental disability" means a severe, chronic disability of an individual that—

(i) is attributable to a mental or physical impairment or combination of mental and physical impairments;

(ii) is manifested before the individual attains age 22;

(iii) is likely to continue indefinitely;

(iv) results in substantial functional limitations in 3 or more of the following areas of major life activity:

(I) Self-care.

(II) Receptive and expressive language.

(III) Learning.

(IV) Mobility.

(V) Self-direction.

(VI) Capacity for independent living.
(VII) Economic self-sufficiency; and

(v) reflects the individual's need for a combination and sequence of special, interdisciplinary, or generic services, individualized supports, or other forms of assistance that are of lifelong or extended duration and are individually planned and coordinated.

(B) Infants and young children

An individual from birth to age 9, inclusive, who has a substantial developmental delay or specific congenital or acquired condition, may be considered to have a developmental disability without meeting 3 or more of the criteria described in clauses (i) through (v) of subparagraph (A) if the individual, without services and supports, has a high probability of meeting those criteria later in life.

(9) Early intervention activities

The term "early intervention activities" means advocacy, capacity building, and systemic change activities provided to individuals described in paragraph (8)(B) and their families to enhance—

(A) the development of the individuals to maximize their potential; and
(B) the capacity of families to meet the special needs of the individuals.

(10) Education activities

The term "education activities" means advocacy, capacity building, and systemic change activities that result in individuals with developmental disabilities being able to access appropriate supports and modifications when necessary, to maximize their educational potential, to benefit from lifelong educational activities, and to be integrated and included in all facets of student life.

(11) Employment-related activities

The term "employment-related activities" means advocacy, capacity building, and systemic change activities that result in individuals with developmental disabilities acquiring, retaining, or advancing in paid employment, including supported employment or self-employment, in integrated settings in a community.

(12) Family support services

(A) In general

The term "family support services" means services, supports, and other assistance, provided to families with members who have developmental disabilities, that are designed to—

(i) strengthen the family's role as primary caregiver;
(ii) prevent inappropriate out-of-the-home placement of the members and maintain family unity; and
(iii) reunite families with members who have been placed out of the home whenever possible.

(B) Specific services

Such term includes respite care, provision of rehabilitation technology and assistive technology, personal assistance services, parent training and counseling, support for families headed by aging caregivers, vehicular and home modifications, and assistance with extraordinary expenses, associated with the needs of individuals with developmental disabilities.

(13) Health-related activities

The term "health-related activities" means advocacy, capacity building, and systemic change activities that result in individuals with developmental disabilities having access to and use of coordinated health, dental, mental health, and other human and social services, including prevention activities, in their communities.

(14) Housing-related activities

The term "housing-related activities" means advocacy, capacity building, and systemic change activities that result in individuals with developmental disabilities having access to and use of housing and housing supports and services in their communities, including assistance related to renting, owning, or modifying an apartment or home.

(15) Inclusion

The term "inclusion", used with respect to individuals with developmental disabilities, means the acceptance and encouragement of the presence and participation of individuals with developmental disabilities, by individuals without disabilities, in social, educational, work, and community activities, that enables individuals with developmental disabilities to—

(A) have friendships and relationships with individuals and families of their own choice;

(B) live in homes close to community resources, with regular contact with individuals without disabilities in their communities;

(C) enjoy full access to and active participation in the same community activities and types of employment as individuals without disabilities; and

(D) take full advantage of their integration into the same community resources as individuals without disabilities, living, learning, working, and enjoying life in regular contact with individuals without disabilities.

(16) Individualized supports

The term "individualized supports" means supports that—

(A) enable an individual with a developmental disability to exercise self-determination, be independent, be productive, and be integrated and included in all facets of community life;

(B) are designed to—

(i) enable such individual to control such individual's environment, permitting the most independent life possible;

(ii) prevent placement into a more restrictive living arrangement than is necessary; and

(iii) enable such individual to live, learn, work, and enjoy life in the community; and

(C) include—

(i) early intervention services;

(ii) respite care;

(iii) personal assistance services;

(iv) family support services;

(v) supported employment services;

(vi) support services for families headed by aging caregivers of individuals with developmental disabilities; and

(vii) provision of rehabilitation technology and assistive technology, and assistive technology services.

(17) Integration

The term "integration", used with respect to individuals with developmental disabilities, means exercising the equal right of individuals with developmental disabilities to access and use the same community resources as are used by and available to other individuals.

(18) Not-for-profit

The term "not-for-profit", used with respect to an agency, institution, or organization, means an agency, institution, or organization that is owned or operated by 1 or more corporations or associations, no part of the net earnings of which inures, or may lawfully inure, to the benefit of any private shareholder or individual.

(19) Personal assistance services

The term "personal assistance services" means a range of services, provided by 1 or more individuals, designed to assist an individual with a disability to perform daily activities, including

activities on or off a job that such individual would typically perform if such individual did not have a disability. Such services shall be designed to increase such individual's control in life and ability to perform everyday activities, including activities on or off a job.

(20) Prevention activities

The term "prevention activities" means activities that address the causes of developmental disabilities and the exacerbation of functional limitation, such as activities that—

(A) eliminate or reduce the factors that cause or predispose individuals to developmental disabilities or that increase the prevalence of developmental disabilities;

(B) increase the early identification of problems to eliminate circumstances that create or increase functional limitations; and

(C) mitigate against the effects of developmental disabilities throughout the lifespan of an individual.

(21) Productivity

The term "productivity" means—

(A) engagement in income-producing work that is measured by increased income, improved employment status, or job advancement; or

(B) engagement in work that contributes to a household or community.

(22) Protection and advocacy system

The term "protection and advocacy system" means a protection and advocacy system established in accordance with section 15043 of this title.

(23) Quality assurance activities

The term "quality assurance activities" means advocacy, capacity building, and systemic change activities that result in improved consumer- and family-centered quality assurance and that result in systems of quality assurance and consumer protection that—

(A) include monitoring of services, supports, and assistance provided to an individual with developmental disabilities that ensures that the individual—

(i) will not experience abuse, neglect, sexual or financial exploitation, or violation of legal or human rights; and

(ii) will not be subject to the inappropriate use of restraints or seclusion;

(B) include training in leadership, self-advocacy, and self-determination for individuals with developmental disabilities, their families, and their guardians to ensure that those individuals—

(i) will not experience abuse, neglect, sexual or financial exploitation, or violation of legal or human rights; and

(ii) will not be subject to the inappropriate use of restraints or seclusion; or

(C) include activities related to interagency coordination and systems integration that result in improved and enhanced services, supports, and other assistance that contribute to and protect the self-determination, independence, productivity, and integration and inclusion in all facets of community life, of individuals with developmental disabilities.

(24) Recreation-related activities

The term "recreation-related activities" means advocacy, capacity building, and systemic change activities that result in individuals with developmental disabilities having access to and use of recreational, leisure, and social activities, in their communities.

(25) Rehabilitation technology

The term "rehabilitation technology" means the systematic application of technologies, engineering methodologies, or scientific principles to meet the needs of, and address the barriers confronted by, individuals with developmental disabilities in areas that include education,

rehabilitation, employment, transportation, independent living, and recreation. Such term includes rehabilitation engineering, and the provision of assistive technology devices and assistive technology services.

(26) Secretary

The term "Secretary" means the Secretary of Health and Human Services.

(27) Self-determination activities

The term "self-determination activities" means activities that result in individuals with developmental disabilities, with appropriate assistance, having—

(A) the ability and opportunity to communicate and make personal decisions;

(B) the ability and opportunity to communicate choices and exercise control over the type and intensity of services, supports, and other assistance the individuals receive;

(C) the authority to control resources to obtain needed services, supports, and other assistance;

(D) opportunities to participate in, and contribute to, their communities; and

(E) support, including financial support, to advocate for themselves and others, to develop leadership skills, through training in self-advocacy, to participate in coalitions, to educate policymakers, and to play a role in the development of public policies that affect individuals with developmental disabilities.

(28) State

The term "State", except as otherwise provided, includes, in addition to each of the several States of the United States, the District of Columbia, the Commonwealth of Puerto Rico, the United States Virgin Islands, Guam, American Samoa, and the Commonwealth of the Northern Mariana Islands.

(29) State Council on Developmental Disabilities

The term "State Council on Developmental Disabilities" means a Council established under section 15025 of this title.

(30) Supported employment services

The term "supported employment services" means services that enable individuals with developmental disabilities to perform competitive work in integrated work settings, in the case of individuals with developmental disabilities—

(A)(i) for whom competitive employment has not traditionally occurred; or

(ii) for whom competitive employment has been interrupted or intermittent as a result of significant disabilities; and

(B) who, because of the nature and severity of their disabilities, need intensive supported employment services or extended services in order to perform such work.

(31) Transportation-related activities

The term "transportation-related activities" means advocacy, capacity building, and systemic change activities that result in individuals with developmental disabilities having access to and use of transportation.

(32) Unserved and underserved

The term "unserved and underserved" includes populations such as individuals from racial and ethnic minority backgrounds, disadvantaged individuals, individuals with limited English proficiency, individuals from underserved geographic areas (rural or urban), and specific groups of individuals within the population of individuals with developmental disabilities, including individuals who require assistive technology in order to participate in and contribute to community life.

(Pub. L. 106–402, title I, §102, Oct. 30, 2000, 114 Stat. 1682.)

§15003. Records and audits

(a) Records

Each recipient of assistance under this subchapter shall keep such records as the Secretary shall prescribe, including—

(1) records that fully disclose—

(A) the amount and disposition by such recipient of the assistance;

(B) the total cost of the project or undertaking in connection with which such assistance is given or used; and

(C) the amount of that portion of the cost of the project or undertaking that is supplied by other sources; and

(2) such other records as will facilitate an effective audit.

(b) Access

The Secretary and the Comptroller General of the United States, or any of their duly authorized representatives, shall have access for the purpose of audit and examination to any books, documents, papers, and records of the recipients of assistance under this subchapter that are pertinent to such assistance.

(Pub. L. 106–402, title I, §103, Oct. 30, 2000, 114 Stat. 1688.)

§15004. Responsibilities of the Secretary

(a) Program accountability

(1) In general

In order to monitor entities that received funds under this chapter to carry out activities under parts B, C, and D and determine the extent to which the entities have been responsive to the purpose of this subchapter and have taken actions consistent with the policy described in section 15001(c) of this title, the Secretary shall develop and implement an accountability process as described in this subsection, with respect to activities conducted after October 1, 2001.

(2) Areas of emphasis

The Secretary shall develop a process for identifying and reporting (pursuant to section 15005 of this title) on progress achieved through advocacy, capacity building, and systemic change activities, undertaken by the entities described in paragraph (1), that resulted in individuals with developmental disabilities and their families participating in the design of and having access to needed community services, individualized supports, and other forms of assistance that promote self-determination, independence, productivity, and integration and inclusion in all facets of community life. Specifically, the Secretary shall develop a process for identifying and reporting on progress achieved, through advocacy, capacity building, and systemic change activities, by the entities in the areas of emphasis.

(3) Indicators of progress

(A) In general

In identifying progress made by the entities described in paragraph (1) in the areas of emphasis, the Secretary, in consultation with the Commissioner of the Administration on Developmental Disabilities and the entities, shall develop indicators for each area of emphasis.

(B) Proposed indicators

Not later than 180 days after October 30, 2000, the Secretary shall develop and publish in the Federal Register for public comment proposed indicators of progress for monitoring how

entities described in paragraph (1) have addressed the areas of emphasis described in paragraph (2) in a manner that is responsive to the purpose of this subchapter and consistent with the policy described in section 15001(c) of this title.

(C) Final indicators

Not later than October 1, 2001, the Secretary shall revise the proposed indicators of progress, to the extent necessary based on public comment, and publish final indicators of progress in the Federal Register.

(D) Specific measures

At a minimum, the indicators of progress shall be used to describe and measure—

(i) the satisfaction of individuals with developmental disabilities with the advocacy, capacity building, and systemic change activities provided under parts B, C, and D;

(ii) the extent to which the advocacy, capacity building, and systemic change activities provided through parts B, C, and D result in improvements in—

(I) the ability of individuals with developmental disabilities to make choices and exert control over the type, intensity, and timing of services, supports, and assistance that the individuals have used;

(II) the ability of individuals with developmental disabilities to participate in the full range of community life with persons of the individuals' choice; and

(III) the ability of individuals with developmental disabilities to access services, supports, and assistance in a manner that ensures that such an individual is free from abuse, neglect, sexual and financial exploitation, violation of legal and human rights, and the inappropriate use of restraints and seclusion; and

(iii) the extent to which the entities described in paragraph (1) collaborate with each other to achieve the purpose of this subchapter and the policy described in section 15001(c) of this title.

(4) Time line for compliance with indicators of progress

The Secretary shall require entities described in paragraph (1) to meet the indicators of progress described in paragraph (3). For fiscal year 2002 and each year thereafter, the Secretary shall apply the indicators in monitoring entities described in paragraph (1), with respect to activities conducted after October 1, 2001.

(b) Time line for regulations

Except as otherwise expressly provided in this subchapter, the Secretary, not later than 1 year after October 30, 2000, shall promulgate such regulations as may be required for the implementation of this subchapter.

(c) Interagency committee

(1) In general

The Secretary shall maintain the interagency committee authorized in section 6007 of this title as in effect on the day before October 30, 2000, except as otherwise provided in this subsection.

(2) Composition

The interagency committee shall be composed of representatives of—

(A) the Administration on Developmental Disabilities, the Administration on Children, Youth, and Families, the Administration on Aging, and the Health Resources and Services Administration, of the Department of Health and Human Services; and

(B) such other Federal departments and agencies as the Secretary of Health and Human Services considers to be appropriate.

(3) Duties

Such interagency committee shall meet regularly to coordinate and plan activities conducted by Federal departments and agencies for individuals with developmental disabilities.

(4) Meetings

Each meeting of the interagency committee (except for any meetings of any subcommittees of the committee) shall be open to the public. Notice of each meeting, and a statement of the agenda for the meeting, shall be published in the Federal Register not later than 14 days before the date on which the meeting is to occur.

(Pub. L. 106–402, title I, §104, Oct. 30, 2000, 114 Stat. 1688.)

EDITORIAL NOTES

REFERENCES IN TEXT

This chapter, referred to in subsec. (a)(1), was in the original "this Act", meaning Pub. L. 106–402, Oct. 30, 2000, 114 Stat. 1677, which is classified principally to this chapter. For complete classification of this Act to the Code, see Short Title note set out under section 15001 of this title and Tables.

Section 6007 of this title, referred to in subsec. (c)(1), was repealed by Pub. L. 106–402, title IV, §401(a), Oct. 30, 2000, 114 Stat. 1737.

§15005. Reports of the Secretary

At least once every 2 years, the Secretary, using information submitted in the reports and information required under parts B, C, D, and E, shall prepare and submit to the President, Congress, and the National Council on Disability, a report that describes the goals and outcomes of programs supported under parts B, C, D, and E. In preparing the report, the Secretary shall provide—

(1) meaningful examples of how the councils, protection and advocacy systems, centers, and entities funded under parts B, C, D, and E, respectively—

(A) have undertaken coordinated activities with each other;

(B) have enhanced the ability of individuals with developmental disabilities and their families to participate in the design of and have access to needed community services, individualized supports, and other forms of assistance that promote self-determination, independence, productivity, and integration and inclusion in all facets of community life;

(C) have brought about advocacy, capacity building, and systemic change activities (including policy reform), and other actions on behalf of individuals with developmental disabilities and their families, including individuals who are traditionally unserved or underserved, particularly individuals who are members of ethnic and racial minority groups and individuals from underserved geographic areas; and

(D) have brought about advocacy, capacity building, and systemic change activities that affect individuals with disabilities other than individuals with developmental disabilities;

(2) information on the extent to which programs authorized under this subchapter have addressed—

(A) protecting individuals with developmental disabilities from abuse, neglect, sexual and financial exploitation, and violations of legal and human rights, so that those individuals are at no greater risk of harm than other persons in the general population; and

(B) reports of deaths of and serious injuries to individuals with developmental disabilities; and

(3) a summary of any incidents of noncompliance of the programs authorized under this subchapter with the provisions of this subchapter, and corrections made or actions taken to obtain compliance.

(Pub. L. 106–402, title I, §105, Oct. 30, 2000, 114 Stat. 1690.)

§15006. State control of operations

Except as otherwise specifically provided, nothing in this subchapter shall be construed as conferring on any Federal officer or employee the right to exercise any supervision or control over the administration, personnel, maintenance, or operation of any programs, services, and supports for individuals with developmental disabilities with respect to which any funds have been or may be expended under this subchapter.

(Pub. L. 106–402, title I, §106, Oct. 30, 2000, 114 Stat. 1691.)

§15007. Employment of individuals with disabilities

As a condition of providing assistance under this subchapter, the Secretary shall require that each recipient of such assistance take affirmative action to employ and advance in employment qualified individuals with disabilities on the same terms and conditions required with respect to the employment of such individuals under the provisions of title V of the Rehabilitation Act of 1973 (29 U.S.C. 791 et seq.) and the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 et seq.), that govern employment.

(Pub. L. 106–402, title I, §107, Oct. 30, 2000, 114 Stat. 1691.)

EDITORIAL NOTES

REFERENCES IN TEXT

The Rehabilitation Act of 1973, referred to in text, is Pub. L. 93–112, Sept. 26, 1973, 87 Stat. 355, as amended. Title V of the Act is classified generally to subchapter V (§790 et seq.) of chapter 16 of Title 29, Labor. For complete classification of this Act to the Code, see Short Title note set out under section 701 of Title 29 and Tables.

The Americans with Disabilities Act of 1990, referred to in text, is Pub. L. 101–336, July 26, 1990, 104 Stat. 327, as amended, which is classified principally to chapter 126 (§12101 et seq.) of this title. For complete classification of this Act to the Code, see Short Title note set out under section 12101 of this title and Tables.

§15008. Construction

Nothing in this subchapter shall be construed to preclude an entity funded under this subchapter from engaging in advocacy, capacity building, and systemic change activities for individuals with developmental disabilities that may also have a positive impact on individuals with other disabilities.

(Pub. L. 106–402, title I, §108, Oct. 30, 2000, 114 Stat. 1692.)

§15009. Rights of individuals with developmental disabilities

(a) In general

Congress makes the following findings respecting the rights of individuals with developmental disabilities:

(1) Individuals with developmental disabilities have a right to appropriate treatment, services, and habilitation for such disabilities, consistent with section 15001(c) of this title.

(2) The treatment, services, and habitation [1] for an individual with developmental disabilities should be designed to maximize the potential of the individual and should be provided in the setting that is least restrictive of the individual's personal liberty.

(3) The Federal Government and the States both have an obligation to ensure that public funds are provided only to institutional programs, residential programs, and other community programs, including educational programs in which individuals with developmental disabilities participate, that—

(A) provide treatment, services, and habilitation that are appropriate to the needs of such individuals; and

(B) meet minimum standards relating to—

(i) provision of care that is free of abuse, neglect, sexual and financial exploitation, and violations of legal and human rights and that subjects individuals with developmental disabilities to no greater risk of harm than others in the general population;

(ii) provision to such individuals of appropriate and sufficient medical and dental services;

(iii) prohibition of the use of physical restraint and seclusion for such an individual unless absolutely necessary to ensure the immediate physical safety of the individual or others, and prohibition of the use of such restraint and seclusion as a punishment or as a substitute for a habilitation program;

(iv) prohibition of the excessive use of chemical restraints on such individuals and the use of such restraints as punishment or as a substitute for a habilitation program or in quantities that interfere with services, treatment, or habilitation for such individuals; and

(v) provision for close relatives or guardians of such individuals to visit the individuals without prior notice.

(4) All programs for individuals with developmental disabilities should meet standards—

(A) that are designed to assure the most favorable possible outcome for those served; and

(B)(i) in the case of residential programs serving individuals in need of comprehensive health-related, habilitative, assistive technology or rehabilitative services, that are at least equivalent to those standards applicable to intermediate care facilities for the mentally retarded, promulgated in regulations of the Secretary on June 3, 1988, as appropriate, taking into account the size of the institutions and the service delivery arrangements of the facilities of the programs;

(ii) in the case of other residential programs for individuals with developmental disabilities, that assure that—

(I) care is appropriate to the needs of the individuals being served by such programs;

(II) the individuals admitted to facilities of such programs are individuals whose needs can be met through services provided by such facilities; and

(III) the facilities of such programs provide for the humane care of the residents of the facilities, are sanitary, and protect their rights; and

(iii) in the case of nonresidential programs, that assure that the care provided by such programs is appropriate to the individuals served by the programs.

(b) Clarification

The rights of individuals with developmental disabilities described in findings made in this section shall be considered to be in addition to any constitutional or other rights otherwise afforded to all individuals.

(Pub. L. 106–402, title I, §109, Oct. 30, 2000, 114 Stat. 1692.)

[1] *So in original. Probably should be "habilitation".*

PART B—FEDERAL ASSISTANCE TO STATE COUNCILS ON DEVELOPMENTAL DISABILITIES

§15021. Purpose

The purpose of this part is to provide for allotments to support State Councils on Developmental Disabilities (referred to individually in this part as a "Council") in each State to—

(1) engage in advocacy, capacity building, and systemic change activities that are consistent with the purpose described in section 15001(b) of this title and the policy described in section

15001(c) of this title; and

(2) contribute to a coordinated, consumer- and family-centered, consumer- and family-directed, comprehensive system of community services, individualized supports, and other forms of assistance that enable individuals with developmental disabilities to exercise self-determination, be independent, be productive, and be integrated and included in all facets of community life.

(Pub. L. 106–402, title I, §121, Oct. 30, 2000, 114 Stat. 1693.)

§15022. State allotments

(a) Allotments

(1) In general

(A) Authority

For each fiscal year, the Secretary shall, in accordance with regulations and this paragraph, allot the sums appropriated for such year under section 15029 of this title among the States on the basis of—

(i) the population;

(ii) the extent of need for services for individuals with developmental disabilities; and

(iii) the financial need,

of the respective States.

(B) Use of funds

Sums allotted to the States under this section shall be used to pay for the Federal share of the cost of carrying out projects in accordance with State plans approved under section 15024 of this title for the provision under such plans of services for individuals with developmental disabilities.

(2) Adjustments

The Secretary may make adjustments in the amounts of State allotments based on clauses (i), (ii), and (iii) of paragraph (1)(A) not more often than annually. The Secretary shall notify each State of any adjustment made under this paragraph and the percentage of the total sums appropriated under section 15029 of this title that the adjusted allotment represents not later than 6 months before the beginning of the fiscal year in which such adjustment is to take effect.

(3) Minimum allotment for appropriations less than or equal to $70,000,000

(A) In general

Except as provided in paragraph (4), for any fiscal year the allotment under this section—

(i) to each of American Samoa, Guam, the United States Virgin Islands, or the Commonwealth of the Northern Mariana Islands may not be less than $210,000; and

(ii) to any State not described in clause (i) may not be less than $400,000, the amount received by the State for the previous year, or the amount of Federal appropriations received in fiscal year 2000, 2001, or 2002, whichever is greater.

(B) Reduction of allotment

Notwithstanding subparagraph (A), if the aggregate of the amounts to be allotted to the States pursuant to subparagraph (A) for any fiscal year exceeds the total amount appropriated under section 15029 of this title for such fiscal year, the amount to be allotted to each State for such fiscal year shall be proportionately reduced.

(4) Minimum allotment for appropriations in excess of $70,000,000

(A) In general

In any case in which the total amount appropriated under section 15029 of this title for a

fiscal year is more than $70,000,000, the allotment under this section for such fiscal year—

(i) to each of American Samoa, Guam, the United States Virgin Islands, or the Commonwealth of the Northern Mariana Islands may not be less than $220,000; and

(ii) to any State not described in clause (i) may not be less than $450,000, the amount received by the State for the previous year, or the amount of Federal appropriations received in fiscal year 2000, 2001, or 2002, whichever is greater.

(B) Reduction of allotment

The requirements of paragraph (3)(B) shall apply with respect to amounts to be allotted to States under subparagraph (A), in the same manner and to the same extent as such requirements apply with respect to amounts to be allotted to States under paragraph (3)(A).

(5) State supports, services, and other activities

In determining, for purposes of paragraph (1)(A)(ii), the extent of need in any State for services for individuals with developmental disabilities, the Secretary shall take into account the scope and extent of the services, supports, and assistance described, pursuant to section 15024(c)(3)(A) of this title, in the State plan of the State.

(6) Increase in allotments

In any year in which the total amount appropriated under section 15029 of this title for a fiscal year exceeds the total amount appropriated under such section (or a corresponding provision) for the preceding fiscal year by a percentage greater than the most recent percentage change in the Consumer Price Index published by the Secretary of Labor under section 720(c)(1) of title 29 (if the percentage change indicates an increase), the Secretary shall increase each of the minimum allotments described in paragraphs (3) and (4). The Secretary shall increase each minimum allotment by an amount that bears the same ratio to the amount of such minimum allotment (including any increases in such minimum allotment under this paragraph (or a corresponding provision) for prior fiscal years) as the amount that is equal to the difference between—

(A) the total amount appropriated under section 15029 of this title for the fiscal year for which the increase in the minimum allotment is being made; minus

(B) the total amount appropriated under section 15029 of this title (or a corresponding provision) for the immediately preceding fiscal year,

bears to the total amount appropriated under section 15029 of this title (or a corresponding provision) for such preceding fiscal year.

(b) Unobligated funds

Any amount paid to a State for a fiscal year and remaining unobligated at the end of such year shall remain available to such State for the next fiscal year for the purposes for which such amount was paid.

(c) Obligation of funds

For the purposes of this part, State Interagency Agreements are considered valid obligations for the purpose of obligating Federal funds allotted to the State under this part.

(d) Cooperative efforts between States

If a State plan approved in accordance with section 15024 of this title provides for cooperative or joint effort between or among States or agencies, public or private, in more than 1 State, portions of funds allotted to 1 or more States described in this subsection may be combined in accordance with the agreements between the States or agencies involved.

(e) Reallotments

(1) In general

If the Secretary determines that an amount of an allotment to a State for a period (of a fiscal year or longer) will not be required by the State during the period for the purpose for which the allotment was made, the Secretary may reallot the amount.

(2) Timing

The Secretary may make such a reallotment from time to time, on such date as the Secretary may fix, but not earlier than 30 days after the Secretary has published notice of the intention of the Secretary to make the reallotment in the Federal Register.

(3) Amounts

The Secretary shall reallot the amount to other States with respect to which the Secretary has not made that determination. The Secretary shall reallot the amount in proportion to the original allotments of the other States for such fiscal year, but shall reduce such proportionate amount for any of the other States to the extent the proportionate amount exceeds the sum that the Secretary estimates the State needs and will be able to use during such period.

(4) Reallotment of reductions

The Secretary shall similarly reallot the total of the reductions among the States whose proportionate amounts were not so reduced.

(5) Treatment

Any amount reallotted to a State under this subsection for a fiscal year shall be deemed to be a part of the allotment of the State under subsection (a) for such fiscal year.

(Pub. L. 106–402, title I, §122, Oct. 30, 2000, 114 Stat. 1693; Pub. L. 108–154, §3(a), Dec. 3, 2003, 117 Stat. 1934.)

EDITORIAL NOTES

AMENDMENTS

2003—Subsec. (a)(3)(A)(ii), (4)(A)(ii). Pub. L. 108–154 inserted before period at end ", the amount received by the State for the previous year, or the amount of Federal appropriations received in fiscal year 2000, 2001, or 2002, whichever is greater".

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE OF 2003 AMENDMENT

Pub. L. 108–154, §3(b), Dec. 3, 2003, 117 Stat. 1934, provided that: "The amendments made by subsection (a) [amending this section] shall take effect on October 1, 2003 and apply to allotments beginning in fiscal year 2004."

§15023. Payments to the States for planning, administration, and services

(a) State plan expenditures

From each State's allotments for a fiscal year under section 15022 of this title, the Secretary shall pay to the State the Federal share of the cost, other than the cost for construction, incurred during such year for activities carried out under the State plan approved under section 15024 of this title. The Secretary shall make such payments from time to time in advance on the basis of estimates by the Secretary of the sums the State will expend for the cost under the State plan. The Secretary shall make such adjustments as may be necessary to the payments on account of previously made underpayments or overpayments under this section.

(b) Designated State agency expenditures

The Secretary may make payments to a State for the portion described in section 15024(c)(5)(B)(vi) of this title in advance or by way of reimbursement, and in such installments as the Secretary may determine.

(Pub. L. 106–402, title I, §123, Oct. 30, 2000, 114 Stat. 1696.)

§15024. State plan

(a) In general

Any State desiring to receive assistance under this part shall submit to the Secretary, and obtain approval of, a 5-year strategic State plan under this section.

(b) Planning cycle

The plan described in subsection (a) shall be updated as appropriate during the 5-year period.

(c) State plan requirements

In order to be approved by the Secretary under this section, a State plan shall meet each of the following requirements:

(1) State Council

The plan shall provide for the establishment and maintenance of a Council in accordance with section 15025 of this title and describe the membership of such Council.

(2) Designated State agency

The plan shall identify the agency or office within the State designated to support the Council in accordance with this section and section 15025(d) of this title (referred to in this part as a "designated State agency").

(3) Comprehensive review and analysis

The plan shall describe the results of a comprehensive review and analysis of the extent to which services, supports, and other assistance are available to individuals with developmental disabilities and their families, and the extent of unmet needs for services, supports, and other assistance for those individuals and their families, in the State. The results of the comprehensive review and analysis shall include—

(A) a description of the services, supports, and other assistance being provided to individuals with developmental disabilities and their families under other federally assisted State programs, plans, and policies under which the State operates and in which individuals with developmental disabilities are or may be eligible to participate, including particularly programs relating to the areas of emphasis, including—

(i) medical assistance, maternal and child health care, services for children with special health care needs, children's mental health services, comprehensive health and mental health services, and institutional care options;

(ii) job training, job placement, worksite accommodation, and vocational rehabilitation, and other work assistance programs; and

(iii) social, child welfare, aging, independent living, and rehabilitation and assistive technology services, and such other services as the Secretary may specify;

(B) a description of the extent to which agencies operating such other federally assisted State programs, including activities authorized under section 3003 or 3004 of title 29, pursue interagency initiatives to improve and enhance community services, individualized supports, and other forms of assistance for individuals with developmental disabilities;

(C) an analysis of the extent to which community services and opportunities related to the areas of emphasis directly benefit individuals with developmental disabilities, especially with regard to their ability to access and use services provided in their communities, to participate in opportunities, activities, and events offered in their communities, and to contribute to community life, identifying particularly—

(i) the degree of support for individuals with developmental disabilities that are attributable to either physical impairment, mental impairment, or a combination of physical and mental impairments;

(ii) criteria for eligibility for services, including specialized services and special adaptation of generic services provided by agencies within the State, that may exclude individuals with

developmental disabilities from receiving services described in this clause;

(iii) the barriers that impede full participation of members of unserved and underserved groups of individuals with developmental disabilities and their families;

(iv) the availability of assistive technology, assistive technology services, or rehabilitation technology, or information about assistive technology, assistive technology services, or rehabilitation technology to individuals with developmental disabilities;

(v) the numbers of individuals with developmental disabilities on waiting lists for services described in this subparagraph;

(vi) a description of the adequacy of current resources and projected availability of future resources to fund services described in this subparagraph;

(vii) a description of the adequacy of health care and other services, supports, and assistance that individuals with developmental disabilities who are in facilities receive (based in part on each independent review (pursuant to section 1396a(a)(30)(C) of this title) of an Intermediate Care Facility (Mental Retardation) within the State, which the State shall provide to the Council not later than 30 days after the availability of the review); and

(viii) to the extent that information is available, a description of the adequacy of health care and other services, supports, and assistance that individuals with developmental disabilities who are served through home and community-based waivers (authorized under section 1396n(c) of this title) receive;

(D) a description of how entities funded under parts C and D, through interagency agreements or other mechanisms, collaborated with the entity funded under this part in the State, each other, and other entities to contribute to the achievement of the purpose of this part; and

(E) the rationale for the goals related to advocacy, capacity building, and systemic change to be undertaken by the Council to contribute to the achievement of the purpose of this part.

(4) Plan goals

The plan shall focus on Council efforts to bring about the purpose of this part, by—

(A) specifying 5-year goals, as developed through data driven strategic planning, for advocacy, capacity building, and systemic change related to the areas of emphasis, to be undertaken by the Council, that—

(i) are derived from the unmet needs of individuals with developmental disabilities and their families identified under paragraph (3); and

(ii) include a goal, for each year of the grant, to—

(I) establish or strengthen a program for the direct funding of a State self-advocacy organization led by individuals with developmental disabilities;

(II) support opportunities for individuals with developmental disabilities who are considered leaders to provide leadership training to individuals with developmental disabilities who may become leaders; and

(III) support and expand participation of individuals with developmental disabilities in cross-disability and culturally diverse leadership coalitions; and

(B) for each year of the grant, describing—

(i) the goals to be achieved through the grant, which, beginning in fiscal year 2002, shall be consistent with applicable indicators of progress described in section 15004(a)(3) of this title;

(ii) the strategies to be used in achieving each goal; and

(iii) the method to be used to determine if each goal has been achieved.

(5) Assurances

(A) In general

The plan shall contain or be supported by assurances and information described in subparagraphs (B) through (N) that are satisfactory to the Secretary.

(B) Use of funds

With respect to the funds paid to the State under section 15022 of this title, the plan shall provide assurances that—

(i) not less than 70 percent of such funds will be expended for activities related to the goals described in paragraph (4);

(ii) such funds will contribute to the achievement of the purpose of this part in various political subdivisions of the State;

(iii) such funds will be used to supplement, and not supplant, the non-Federal funds that would otherwise be made available for the purposes for which the funds paid under section 15022 of this title are provided;

(iv) such funds will be used to complement and augment rather than duplicate or replace services for individuals with developmental disabilities and their families who are eligible for Federal assistance under other State programs;

(v) part of such funds will be made available by the State to public or private entities;

(vi) at the request of any State, a portion of such funds provided to such State under this part for any fiscal year shall be available to pay up to ½ (or the entire amount if the Council is the designated State agency) of the expenditures found to be necessary by the Secretary for the proper and efficient exercise of the functions of the designated State agency, except that not more than 5 percent of such funds provided to such State for any fiscal year, or $50,000, whichever is less, shall be made available for total expenditures for such purpose by the designated State agency; and

(vii) not more than 20 percent of such funds will be allocated to the designated State agency for service demonstrations by such agency that—

(I) contribute to the achievement of the purpose of this part; and

(II) are explicitly authorized by the Council.

(C) State financial participation

The plan shall provide assurances that there will be reasonable State financial participation in the cost of carrying out the plan.

(D) Conflict of interest

The plan shall provide an assurance that no member of such Council will cast a vote on any matter that would provide direct financial benefit to the member or otherwise give the appearance of a conflict of interest.

(E) Urban and rural poverty areas

The plan shall provide assurances that special financial and technical assistance will be given to organizations that provide community services, individualized supports, and other forms of assistance to individuals with developmental disabilities who live in areas designated as urban or rural poverty areas.

(F) Program accessibility standards

The plan shall provide assurances that programs, projects, and activities funded under the plan, and the buildings in which such programs, projects, and activities are operated, will meet standards prescribed by the Secretary in regulations and all applicable Federal and State accessibility standards, including accessibility requirements of the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 et seq.), section 794d of title 29, and the Fair Housing Act (42 U.S.C. 3601 et seq.).

(G) Individualized services

The plan shall provide assurances that any direct services provided to individuals with developmental disabilities and funded under the plan will be provided in an individualized manner, consistent with the unique strengths, resources, priorities, concerns, abilities, and capabilities of such individual.

(H) Human rights

The plan shall provide assurances that the human rights of the individuals with developmental disabilities (especially individuals without familial protection) who are receiving services under programs assisted under this part will be protected consistent with section 15009 of this title (relating to rights of individuals with developmental disabilities).

(I) Minority participation

The plan shall provide assurances that the State has taken affirmative steps to assure that participation in programs funded under this part is geographically representative of the State, and reflects the diversity of the State with respect to race and ethnicity.

(J) Employee protections

The plan shall provide assurances that fair and equitable arrangements (as determined by the Secretary after consultation with the Secretary of Labor) will be provided to protect the interests of employees affected by actions taken under the plan to provide community living activities, including arrangements designed to preserve employee rights and benefits and provide training and retraining of such employees where necessary, and arrangements under which maximum efforts will be made to guarantee the employment of such employees.

(K) Staff assignments

The plan shall provide assurances that the staff and other personnel of the Council, while working for the Council, will be responsible solely for assisting the Council in carrying out the duties of the Council under this part and will not be assigned duties by the designated State agency, or any other agency, office, or entity of the State.

(L) Noninterference

The plan shall provide assurances that the designated State agency, and any other agency, office, or entity of the State, will not interfere with the advocacy, capacity building, and systemic change activities, budget, personnel, State plan development, or plan implementation of the Council, except that the designated State agency shall have the authority necessary to carry out the responsibilities described in section 15025(d)(3) of this title.

(M) State quality assurance

The plan shall provide assurances that the Council will participate in the planning, design or redesign, and monitoring of State quality assurance systems that affect individuals with developmental disabilities.

(N) Other assurances

The plan shall contain such additional information and assurances as the Secretary may find necessary to carry out the provisions (including the purpose) of this part.

(d) Public input and review, submission, and approval

(1) Public input and review

The plan shall be based on public input. The Council shall make the plan available for public review and comment, after providing appropriate and sufficient notice in accessible formats of the opportunity for such review and comment. The Council shall revise the plan to take into account and respond to significant comments.

(2) Consultation with the designated State agency

Before the plan is submitted to the Secretary, the Council shall consult with the designated State agency to ensure that the State plan is consistent with State law and to obtain appropriate State plan assurances.

(3) Plan approval

The Secretary shall approve any State plan and, as appropriate, amendments of such plan that comply with the provisions of subsections (a), (b), and (c) and this subsection. The Secretary may

take final action to disapprove a State plan after providing reasonable notice and an opportunity for a hearing to the State.

(Pub. L. 106–402, title I, §124, Oct. 30, 2000, 114 Stat. 1696; Pub. L. 108–364, §3(a)(1), Oct. 25, 2004, 118 Stat. 1736.)

AMENDMENTS

2004—Subsec. (c)(3)(B). Pub. L. 108–364 substituted "section 3003 or 3004 of title 29" for "section 3011 or 3012 of title 29".

§15025. State Councils on Developmental Disabilities and designated State agencies

(a) In general

Each State that receives assistance under this part shall establish and maintain a Council to undertake advocacy, capacity building, and systemic change activities (consistent with subsections (b) and (c) of section 15001 of this title) that contribute to a coordinated, consumer- and family-centered, consumer- and family-directed, comprehensive system of community services, individualized supports, and other forms of assistance that contribute to the achievement of the purpose of this part. The Council shall have the authority to fulfill the responsibilities described in subsection (c).

(b) Council membership

(1) Council appointments

(A) In general

The members of the Council of a State shall be appointed by the Governor of the State from among the residents of that State.

(B) Recommendations

The Governor shall select members of the Council, at the discretion of the Governor, after soliciting recommendations from organizations representing a broad range of individuals with developmental disabilities and individuals interested in individuals with developmental disabilities, including the non-State agency members of the Council. The Council may, at the initiative of the Council, or on the request of the Governor, coordinate Council and public input to the Governor regarding all recommendations.

(C) Representation

The membership of the Council shall be geographically representative of the State and reflect the diversity of the State with respect to race and ethnicity.

(2) Membership rotation

The Governor shall make appropriate provisions to rotate the membership of the Council. Such provisions shall allow members to continue to serve on the Council until such members'

successors are appointed. The Council shall notify the Governor regarding membership requirements of the Council, and shall notify the Governor when vacancies on the Council remain unfilled for a significant period of time.

(3) Representation of individuals with developmental disabilities

Not less than 60 percent of the membership of each Council shall consist of individuals who are—

(A)(i) individuals with developmental disabilities;

(ii) parents or guardians of children with developmental disabilities; or

(iii) immediate relatives or guardians of adults with mentally impairing developmental disabilities who cannot advocate for themselves; and

(B) not employees of a State agency that receives funds or provides services under this part, and who are not managing employees (as defined in section 1126(b) of the Social Security Act (42 U.S.C. 1320a–5(b)) of any other entity that receives funds or provides services under this part.

(4) Representation of agencies and organizations

(A) In general

Each Council shall include—

(i) representatives of relevant State entities, including—

(I) State entities that administer funds provided under Federal laws related to individuals with disabilities, including the Rehabilitation Act of 1973 (29 U.S.C. 701 et seq.), the Individuals with Disabilities Education Act (20 U.S.C. 1400 et seq.), the Older Americans Act of 1965 (42 U.S.C. 3001 et seq.), and titles V and XIX of the Social Security Act (42 U.S.C. 701 et seq. and 1396 et seq.);

(II) Centers in the State; and

(III) the State protection and advocacy system; and

(ii) representatives, at all times, of local and nongovernmental agencies, and private nonprofit groups concerned with services for individuals with developmental disabilities in the State in which such agencies and groups are located.

(B) Authority and limitations

The representatives described in subparagraph (A) shall—

(i) have sufficient authority to engage in policy planning and implementation on behalf of the department, agency, or program such representatives represent; and

(ii) recuse themselves from any discussion of grants or contracts for which such representatives' departments, agencies, or programs are grantees, contractors, or applicants and comply with the conflict of interest assurance requirement under section 15024(c)(5)(D) of this title.

(5) Composition of membership with developmental disabilities

Of the members of the Council described in paragraph (3)—

(A) 1/3 shall be individuals with developmental disabilities described in paragraph (3)(A)(i);

(B) 1/3 shall be parents or guardians of children with developmental disabilities described in paragraph (3)(A)(ii), or immediate relatives or guardians of adults with developmental disabilities described in paragraph (3)(A)(iii); and

(C) 1/3 shall be a combination of individuals described in paragraph (3)(A).

(6) Institutionalized individuals

(A) In general

Of the members of the Council described in paragraph (5), at least 1 shall be an immediate relative or guardian of an individual with a developmental disability who resides or previously resided in an institution or shall be an individual with a developmental disability who resides or

previously resided in an institution.

(B) Limitation

Subparagraph (A) shall not apply with respect to a State if such an individual does not reside in that State.

(c) Council responsibilities

(1) In general

A Council, through Council members, staff, consultants, contractors, or subgrantees, shall have the responsibilities described in paragraphs (2) through (10).

(2) Advocacy, capacity building, and systemic change activities

The Council shall serve as an advocate for individuals with developmental disabilities and conduct or support programs, projects, and activities that carry out the purpose of this part.

(3) Examination of goals

At the end of each grant year, each Council shall—

(A) determine the extent to which each goal of the Council was achieved for that year;

(B) determine to the extent that each goal was not achieved, the factors that impeded the achievement;

(C) determine needs that require amendment of the 5-year strategic State plan required under section 15024 of this title;

(D) separately determine the information on the self-advocacy goal described in section 15024(c)(4)(A)(ii) of this title; and

(E) determine customer satisfaction with Council supported or conducted activities.

(4) State plan development

The Council shall develop the State plan and submit the State plan to the Secretary after consultation with the designated State agency under the State plan. Such consultation shall be solely for the purposes of obtaining State assurances and ensuring consistency of the plan with State law.

(5) State plan implementation

(A) In general

The Council shall implement the State plan by conducting and supporting advocacy, capacity building, and systemic change activities such as those described in subparagraphs (B) through (L).

(B) Outreach

The Council may support and conduct outreach activities to identify individuals with developmental disabilities and their families who otherwise might not come to the attention of the Council and assist and enable the individuals and families to obtain services, individualized supports, and other forms of assistance, including access to special adaptation of generic community services or specialized services.

(C) Training

The Council may support and conduct training for persons who are individuals with developmental disabilities, their families, and personnel (including professionals, paraprofessionals, students, volunteers, and other community members) to enable such persons to obtain access to, or to provide, community services, individualized supports, and other forms of assistance, including special adaptation of generic community services or specialized services for individuals with developmental disabilities and their families. To the extent that the Council supports or conducts training activities under this subparagraph, such activities shall contribute to the achievement of the purpose of this part.

(D) Technical assistance

The Council may support and conduct technical assistance activities to assist public and private entities to contribute to the achievement of the purpose of this part.

(E) Supporting and educating communities

The Council may support and conduct activities to assist neighborhoods and communities to respond positively to individuals with developmental disabilities and their families—

(i) by encouraging local networks to provide informal and formal supports;

(ii) through education; and

(iii) by enabling neighborhoods and communities to offer such individuals and their families access to and use of services, resources, and opportunities.

(F) Interagency collaboration and coordination

The Council may support and conduct activities to promote interagency collaboration and coordination to better serve, support, assist, or advocate for individuals with developmental disabilities and their families.

(G) Coordination with related councils, committees, and programs

The Council may support and conduct activities to enhance coordination of services with—

(i) other councils, entities, or committees, authorized by Federal or State law, concerning individuals with disabilities (such as the State interagency coordinating council established under part C of the Individuals with Disabilities Education Act (20 U.S.C. 1431 et seq.), the State Rehabilitation Council and the Statewide Independent Living Council established under the Rehabilitation Act of 1973 (29 U.S.C. 701 et seq.), the State mental health planning council established under subtitle B [1] of title XIX of the Public Health Service Act [42 U.S.C. 300x et seq.], and the activities authorized under section 3003 or 3004 of title 29, and entities carrying out other similar councils, entities, or committees);

(ii) parent training and information centers under part D of the Individuals with Disabilities Education Act (20 U.S.C. 1451 et seq.) and other entities carrying out federally funded projects that assist parents of children with disabilities; and

(iii) other groups interested in advocacy, capacity building, and systemic change activities to benefit individuals with disabilities.

(H) Barrier elimination, systems design and redesign

The Council may support and conduct activities to eliminate barriers to access and use of community services by individuals with developmental disabilities, enhance systems design and redesign, and enhance citizen participation to address issues identified in the State plan.

(I) Coalition development and citizen participation

The Council may support and conduct activities to educate the public about the capabilities, preferences, and needs of individuals with developmental disabilities and their families and to develop and support coalitions that support the policy agenda of the Council, including training in self-advocacy, education of policymakers, and citizen leadership skills.

(J) Informing policymakers

The Council may support and conduct activities to provide information to policymakers by supporting and conducting studies and analyses, gathering information, and developing and disseminating model policies and procedures, information, approaches, strategies, findings, conclusions, and recommendations. The Council may provide the information directly to Federal, State, and local policymakers, including Congress, the Federal executive branch, the Governors, State legislatures, and State agencies, in order to increase the ability of such policymakers to offer opportunities and to enhance or adapt generic services to meet the needs of, or provide specialized services to, individuals with developmental disabilities and their families.

(K) Demonstration of new approaches to services and supports

(i) In general

The Council may support and conduct, on a time-limited basis, activities to demonstrate new approaches to serving individuals with developmental disabilities that are a part of an overall strategy for systemic change. The strategy may involve the education of policymakers and the public about how to deliver effectively, to individuals with developmental disabilities and their families, services, supports, and assistance that contribute to the achievement of the purpose of this part.

(ii) Sources of funding

The Council may carry out this subparagraph by supporting and conducting demonstration activities through sources of funding other than funding provided under this part, and by assisting entities conducting demonstration activities to develop strategies for securing funding from other sources.

(L) Other activities

The Council may support and conduct other advocacy, capacity building, and systemic change activities to promote the development of a coordinated, consumer- and family-centered, consumer- and family-directed, comprehensive system of community services, individualized supports, and other forms of assistance that contribute to the achievement of the purpose of this part.

(6) Review of designated State agency

The Council shall periodically review the designated State agency and activities carried out under this part by the designated State agency and make any recommendations for change to the Governor.

(7) Reports

Beginning in fiscal year 2002, the Council shall annually prepare and transmit to the Secretary a report. Each report shall be in a form prescribed by the Secretary by regulation under section 15004(b) of this title. Each report shall contain information about the progress made by the Council in achieving the goals of the Council (as specified in section 15024(c)(4) of this title), including—

(A) a description of the extent to which the goals were achieved;

(B) a description of the strategies that contributed to achieving the goals;

(C) to the extent to which the goals were not achieved, a description of factors that impeded the achievement;

(D) separate information on the self-advocacy goal described in section 15024(c)(4)(A)(ii) of this title;

(E)(i) as appropriate, an update on the results of the comprehensive review and analysis described in section 15024(c)(3) of this title; and

(ii) information on consumer satisfaction with Council supported or conducted activities;

(F)(i) a description of the adequacy of health care and other services, supports, and assistance that individuals with developmental disabilities in Intermediate Care Facilities (Mental Retardation) receive; and

(ii) a description of the adequacy of health care and other services, supports, and assistance that individuals with developmental disabilities served through home and community-based waivers (authorized under section 1915(c) of the Social Security Act (42 U.S.C. 1396n(c)) receive;

(G) an accounting of the manner in which funds paid to the State under this part for a fiscal year were expended;

(H) a description of—

(i) resources made available to carry out activities to assist individuals with developmental disabilities that are directly attributable to Council actions; and

(ii) resources made available for such activities that are undertaken by the Council in collaboration with other entities; and

(I) a description of the method by which the Council will widely disseminate the annual report to affected constituencies and the general public and will assure that the report is available in accessible formats.

(8) Budget

Each Council shall prepare, approve, and implement a budget using amounts paid to the State under this part to fund and implement all programs, projects, and activities carried out under this part, including—

(A)(i) conducting such hearings and forums as the Council may determine to be necessary to carry out the duties of the Council; and

(ii) as determined in Council policy—

(I) reimbursing members of the Council for reasonable and necessary expenses (including expenses for child care and personal assistance services) for attending Council meetings and performing Council duties;

(II) paying a stipend to a member of the Council, if such member is not employed or must forfeit wages from other employment, to attend Council meetings and perform other Council duties;

(III) supporting Council member and staff travel to authorized training and technical assistance activities including in-service training and leadership development activities; and

(IV) carrying out appropriate subcontracting activities;

(B) hiring and maintaining such numbers and types of staff (qualified by training and experience) and obtaining the services of such professional, consulting, technical, and clerical staff (qualified by training and experience), consistent with State law, as the Council determines to be necessary to carry out the functions of the Council under this part, except that such State shall not apply hiring freezes, reductions in force, prohibitions on travel, or other policies to the staff of the Council, to the extent that such policies would impact the staff or functions funded with Federal funds, or would prevent the Council from carrying out the functions of the Council under this part; and

(C) directing the expenditure of funds for grants, contracts, interagency agreements that are binding contracts, and other activities authorized by the State plan approved under section 15024 of this title.

(9) Staff hiring and supervision

The Council shall, consistent with State law, recruit and hire a Director of the Council, should the position of Director become vacant, and supervise and annually evaluate the Director. The Director shall hire, supervise, and annually evaluate the staff of the Council. Council recruitment, hiring, and dismissal of staff shall be conducted in a manner consistent with Federal and State nondiscrimination laws. Dismissal of personnel shall be conducted in a manner consistent with State law and personnel policies.

(10) Staff assignments

The staff of the Council, while working for the Council, shall be responsible solely for assisting the Council in carrying out the duties of the Council under this part and shall not be assigned duties by the designated State agency or any other agency or entity of the State.

(11) Construction

Nothing in this subchapter shall be construed to authorize a Council to direct, control, or exercise any policymaking authority or administrative authority over any program assisted under the Rehabilitation Act of 1973 (29 U.S.C. 701 et seq.) or the Individuals with Disabilities Education Act (20 U.S.C. 1400 et seq.).

(d) Designated State agency

(1) In general

Each State that receives assistance under this part shall designate a State agency that shall, on

behalf of the State, provide support to the Council. After April 6, 1994, any designation of a State agency under this paragraph shall be made in accordance with the requirements of this subsection.

(2) Designation

(A) Type of agency

Except as provided in this subsection, the designated State agency shall be—

(i) the Council if such Council may be the designated State agency under the laws of the State;

(ii) a State agency that does not provide or pay for services for individuals with developmental disabilities; or

(iii) a State office, including the immediate office of the Governor of the State or a State planning office.

(B) Conditions for continuation of State service agency designation

(i) Designation before April 6, 1994

If a State agency that provides or pays for services for individuals with developmental disabilities was a designated State agency for purposes of part B of the Developmental Disabilities Assistance and Bill of Rights Act on April 6, 1994, and the Governor of the State (or the legislature, where appropriate and in accordance with State law) determines prior to June 30, 1994, not to change the designation of such agency, such agency may continue to be a designated State agency for purposes of this part.

(ii) Criteria for continued designation

The determination, at the discretion of the Governor (or the legislature, as the case may be), shall be made after—

(I) the Governor has considered the comments and recommendations of the general public and a majority of the non-State agency members of the Council with respect to the designation of such State agency; and

(II) the Governor (or the legislature, as the case may be) has made an independent assessment that the designation of such agency will not interfere with the budget, personnel, priorities, or other action of the Council, and the ability of the Council to serve as an independent advocate for individuals with developmental disabilities.

(C) Review of designation

The Council may request a review of and change in the designation of the designated State agency by the Governor (or the legislature, as the case may be). The Council shall provide documentation concerning the reason the Council desires a change to be made and make a recommendation to the Governor (or the legislature, as the case may be) regarding a preferred designated State agency.

(D) Appeal of designation

After the review is completed under subparagraph (C), a majority of the non-State agency members of the Council may appeal to the Secretary for a review of and change in the designation of the designated State agency if the ability of the Council to serve as an independent advocate is not assured because of the actions or inactions of the designated State agency.

(3) Responsibilities

(A) In general

The designated State agency shall, on behalf of the State, have the responsibilities described in subparagraphs (B) through (G).

(B) Support services

The designated State agency shall provide required assurances and support services as requested by and negotiated with the Council.

(C) Fiscal responsibilities

The designated State agency shall—

(i) receive, account for, and disburse funds under this part based on the State plan required in section 15024 of this title; and

(ii) provide for such fiscal control and fund accounting procedures as may be necessary to assure the proper disbursement of, and accounting for, funds paid to the State under this part.

(D) Records, access, and financial reports

The designated State agency shall keep and provide access to such records as the Secretary and the Council may determine to be necessary. The designated State agency, if other than the Council, shall provide timely financial reports at the request of the Council regarding the status of expenditures, obligations, and liquidation by the agency or the Council, and the use of the Federal and non-Federal shares described in section 15026 of this title, by the agency or the Council.

(E) Non-Federal share

The designated State agency, if other than the Council, shall provide the required non-Federal share described in section 15026(c) of this title.

(F) Assurances

The designated State agency shall assist the Council in obtaining the appropriate State plan assurances and in ensuring that the plan is consistent with State law.

(G) Memorandum of understanding

On the request of the Council, the designated State agency shall enter into a memorandum of understanding with the Council delineating the roles and responsibilities of the designated State agency.

(4) Use of funds for designated State agency responsibilities

(A) Condition for Federal funding

(i) In general

The Secretary shall provide amounts to a State under section 15024(c)(5)(B)(vi) of this title for a fiscal year only if the State expends an amount from State sources for carrying out the responsibilities of the designated State agency under paragraph (3) for the fiscal year that is not less than the total amount the State expended from such sources for carrying out similar responsibilities for the previous fiscal year.

(ii) Exception

Clause (i) shall not apply in a year in which the Council is the designated State agency.

(B) Support services provided by other agencies

With the agreement of the designated State agency, the Council may use or contract with agencies other than the designated State agency to perform the functions of the designated State agency.

§15026. Federal and non-Federal share

(a) Aggregate cost

(1) In general

Except as provided in paragraphs (2) and (3), the Federal share of the cost of all projects in a State supported by an allotment to the State under this part may not be more than 75 percent of the aggregate necessary cost of such projects, as determined by the Secretary.

(2) Urban or rural poverty areas

In the case of projects whose activities or products target individuals with developmental disabilities who live in urban or rural poverty areas, as determined by the Secretary, the Federal share of the cost of all such projects may not be more than 90 percent of the aggregate necessary cost of such projects, as determined by the Secretary.

(3) State plan activities

In the case of projects undertaken by the Council or Council staff to implement State plan activities, the Federal share of the cost of all such projects may be not more than 100 percent of the aggregate necessary cost of such activities.

(b) Nonduplication

In determining the amount of any State's Federal share of the cost of such projects incurred by such State under a State plan approved under section 15024 of this title, the Secretary shall not consider—

(1) any portion of such cost that is financed by Federal funds provided under any provision of law other than section 15022 of this title; and

(2) the amount of any non-Federal funds required to be expended as a condition of receipt of the

Federal funds described in paragraph (1).

(c) Non-Federal share

(1) In-kind contributions

The non-Federal share of the cost of any project supported by an allotment under this part may be provided in cash or in kind, fairly evaluated, including plant, equipment, or services.

(2) Contributions of political subdivisions and public or private entities

(A) In general

Contributions to projects by a political subdivision of a State or by a public or private entity under an agreement with the State shall, subject to such limitations and conditions as the Secretary may by regulation prescribe under section 15004(b) of this title, be considered to be contributions by such State, in the case of a project supported under this part.

(B) State contributions

State contributions, including contributions by the designated State agency to provide support services to the Council pursuant to section 15025(d)(4) of this title, may be counted as part of such State's non-Federal share of the cost of projects supported under this part.

(3) Variations of the non-Federal share

The non-Federal share required of each recipient of a grant from a Council under this part may vary.

(Pub. L. 106–402, title I, §126, Oct. 30, 2000, 114 Stat. 1710.)

§15027. Withholding of payments for planning, administration, and services

Whenever the Secretary, after providing reasonable notice and an opportunity for a hearing to the Council and the designated State agency, finds that—

(1) the Council or agency has failed to comply substantially with any of the provisions required by section 15024 of this title to be included in the State plan, particularly provisions required by paragraphs (4)(A) and (5)(B)(vii) of section 15024(c) of this title, or with any of the provisions required by section 15025(b)(3) of this title; or

(2) the Council or agency has failed to comply substantially with any regulations of the Secretary that are applicable to this part,

the Secretary shall notify such Council and agency that the Secretary will not make further payments to the State under section 15022 of this title (or, in the discretion of the Secretary, that further payments to the State under section 15022 of this title for activities for which there is such failure), until the Secretary is satisfied that there will no longer be such failure. Until the Secretary is so satisfied, the Secretary shall make no further payments to the State under section 15022 of this title, or shall limit further payments under section 15022 of this title to such State to activities for which there is no such failure.

(Pub. L. 106–402, title I, §127, Oct. 30, 2000, 114 Stat. 1711.)

§15028. Appeals by States

(a) Appeal

If any State is dissatisfied with the Secretary's action under section 15024(d)(3) or 15027 of this title, such State may appeal to the United States court of appeals for the circuit in which such State is located, by filing a petition with such court not later than 60 days after such action.

(b) Filing

The clerk of the court shall transmit promptly a copy of the petition to the Secretary, or any officer designated by the Secretary for that purpose. The Secretary shall file promptly with the court the record of the proceedings on which the Secretary based the action, as provided in section 2112 of title 28.

(c) Jurisdiction

Upon the filing of the petition, the court shall have jurisdiction to affirm the action of the Secretary or to set the action aside, in whole or in part, temporarily or permanently. Until the filing of the record, the Secretary may modify or set aside the order of the Secretary relating to the action.

(d) Findings and remand

The findings of the Secretary about the facts, if supported by substantial evidence, shall be conclusive, but the court, for good cause shown, may remand the case involved to the Secretary for further proceedings to take further evidence. On remand, the Secretary may make new or modified findings of fact and may modify the previous action of the Secretary, and shall file with the court the record of the further proceedings. Such new or modified findings of fact shall likewise be conclusive if supported by substantial evidence.

(e) Finality

The judgment of the court affirming or setting aside, in whole or in part, any action of the Secretary shall be final, subject to review by the Supreme Court of the United States upon certiorari or certification as provided in section 1254 of title 28.

(f) Effect

The commencement of proceedings under this section shall not, unless so specifically ordered by a court, operate as a stay of the Secretary's action.

(Pub. L. 106–402, title I, §128, Oct. 30, 2000, 114 Stat. 1711.)

§15029. Authorization of appropriations

(a) Funding for State allotments

Except as described in subsection (b), there are authorized to be appropriated for allotments under section 15022 of this title $76,000,000 for fiscal year 2001 and such sums as may be necessary for each of fiscal years 2002 through 2007.

(b) Reservation for technical assistance

(1) Lower appropriation years

For any fiscal year for which the amount appropriated under subsection (a) is less than $76,000,000, the Secretary shall reserve funds in accordance with section 15083(c) of this title to provide technical assistance to entities funded under this part.

(2) Higher appropriation years

For any fiscal year for which the amount appropriated under subsection (a) is not less than $76,000,000, the Secretary shall reserve not less than $300,000 and not more than 1 percent of the amount appropriated under subsection (a) to provide technical assistance to entities funded under this part.

(Pub. L. 106–402, title I, §129, Oct. 30, 2000, 114 Stat. 1712.)

PART C—PROTECTION AND ADVOCACY OF INDIVIDUAL RIGHTS

§15041. Purpose

The purpose of this part is to provide for allotments to support a protection and advocacy system (referred to in this part as a "system") in each State to protect the legal and human rights of individuals with developmental disabilities in accordance with this part.

(Pub. L. 106–402, title I, §141, Oct. 30, 2000, 114 Stat. 1712.)

§15042. Allotments and payments

(a) Allotments

(1) In general

To assist States in meeting the requirements of section 15043(a) of this title, the Secretary shall allot to the States the amounts appropriated under section 15045 of this title and not reserved under paragraph (6). Allotments and reallotments of such sums shall be made on the same basis as the allotments and reallotments are made under subsections (a)(1)(A) and (e) of section 15022 of this title, except as provided in paragraph (2).

(2) Minimum allotments

In any case in which—

(A) the total amount appropriated under section 15045 of this title for a fiscal year is not less than $20,000,000, the allotment under paragraph (1) for such fiscal year—

(i) to each of American Samoa, Guam, the United States Virgin Islands, and the Commonwealth of the Northern Mariana Islands may not be less than $107,000; and

(ii) to any State not described in clause (i) may not be less than $200,000; or

(B) the total amount appropriated under section 15045 of this title for a fiscal year is less than $20,000,000, the allotment under paragraph (1) for such fiscal year—

(i) to each of American Samoa, Guam, the United States Virgin Islands, and the Commonwealth of the Northern Mariana Islands may not be less than $80,000; and

(ii) to any State not described in clause (i) may not be less than $150,000.

(3) Reduction of allotment

Notwithstanding paragraphs (1) and (2), if the aggregate of the amounts to be allotted to the States pursuant to such paragraphs for any fiscal year exceeds the total amount appropriated for such allotments under section 15045 of this title for such fiscal year, the amount to be allotted to each State for such fiscal year shall be proportionately reduced.

(4) Increase in allotments

In any year in which the total amount appropriated under section 15045 of this title for a fiscal year exceeds the total amount appropriated under such section (or a corresponding provision) for the preceding fiscal year by a percentage greater than the most recent percentage change in the Consumer Price Index published by the Secretary of Labor under section 720(c)(1) of title 29 (if the percentage change indicates an increase), the Secretary shall increase each of the minimum allotments described in subparagraphs (A) and (B) of paragraph (2). The Secretary shall increase each minimum allotment by an amount that bears the same ratio to the amount of such minimum allotment (including any increases in such minimum allotment under this paragraph (or a corresponding provision) for prior fiscal years) as the amount that is equal to the difference between—

(A) the total amount appropriated under section 15045 of this title for the fiscal year for which the increase in the minimum allotment is being made; minus

(B) the total amount appropriated under section 15045 of this title (or a corresponding provision) for the immediately preceding fiscal year,

bears to the total amount appropriated under section 15045 of this title (or a corresponding provision) for such preceding fiscal year.

(5) Monitoring the administration of the system

In a State in which the system is housed in a State agency, the State may use not more than 5 percent of any allotment under this subsection for the costs of monitoring the administration of the system required under section 15043(a) of this title.

(6) Technical assistance and American Indian consortium

In any case in which the total amount appropriated under section 15045 of this title for a fiscal year is more than $24,500,000, the Secretary shall—

(A) use not more than 2 percent of the amount appropriated to provide technical assistance to eligible systems with respect to activities carried out under this part (consistent with requests by such systems for such assistance for the year); and

(B) provide a grant in accordance with section 15043(b) of this title, and in an amount described in paragraph (2)(A)(i), to an American Indian consortium to provide protection and advocacy services.

(b) Payment to systems

Notwithstanding any other provision of law, the Secretary shall pay directly to any system in a State that complies with the provisions of this part the amount of the allotment made for the State under this section, unless the system specifies otherwise.

(c) Unobligated funds

Any amount paid to a system under this part for a fiscal year and remaining unobligated at the end of such year shall remain available to such system for the next fiscal year, for the purposes for which such amount was paid.

(Pub. L. 106–402, title I, §142, Oct. 30, 2000, 114 Stat. 1712.)

§15043. System required

(a) System required

In order for a State to receive an allotment under part B or this part—

(1) the State shall have in effect a system to protect and advocate the rights of individuals with developmental disabilities;

(2) such system shall—

(A) have the authority to—

(i) pursue legal, administrative, and other appropriate remedies or approaches to ensure the protection of, and advocacy for, the rights of such individuals within the State who are or who may be eligible for treatment, services, or habilitation, or who are being considered for a change in living arrangements, with particular attention to members of ethnic and racial minority groups; and

(ii) provide information on and referral to programs and services addressing the needs of individuals with developmental disabilities;

(B) have the authority to investigate incidents of abuse and neglect of individuals with developmental disabilities if the incidents are reported to the system or if there is probable cause to believe that the incidents occurred;

(C) on an annual basis, develop, submit to the Secretary, and take action with regard to goals (each of which is related to 1 or more areas of emphasis) and priorities, developed through data driven strategic planning, for the system's activities;

(D) on an annual basis, provide to the public, including individuals with developmental disabilities attributable to either physical impairment, mental impairment, or a combination of physical and mental impairment, and their representatives, and as appropriate, non-State agency

representatives of the State Councils on Developmental Disabilities, and Centers, in the State, an opportunity to comment on—

(i) the goals and priorities established by the system and the rationale for the establishment of such goals; and

(ii) the activities of the system, including the coordination of services with the entities carrying out advocacy programs under the Rehabilitation Act of 1973 (29 U.S.C. 701 et seq.), the Older Americans Act of 1965 (42 U.S.C. 3001 et seq.), and the Protection and Advocacy for Mentally Ill Individuals Act of 1986 [1] (42 U.S.C. 10801 et seq.), and with entities carrying out other related programs, including the parent training and information centers funded under the Individuals with Disabilities Education Act (20 U.S.C. 1400 et seq.), and activities authorized under section 3003 or 3004 of title 29;

(E) establish a grievance procedure for clients or prospective clients of the system to ensure that individuals with developmental disabilities have full access to services of the system;

(F) not be administered by the State Council on Developmental Disabilities;

(G) be independent of any agency that provides treatment, services, or habilitation to individuals with developmental disabilities;

(H) have access at reasonable times to any individual with a developmental disability in a location in which services, supports, and other assistance are provided to such an individual, in order to carry out the purpose of this part;

(I) have access to all records of—

(i) any individual with a developmental disability who is a client of the system if such individual, or the legal guardian, conservator, or other legal representative of such individual, has authorized the system to have such access;

(ii) any individual with a developmental disability, in a situation in which—

(I) the individual, by reason of such individual's mental or physical condition, is unable to authorize the system to have such access;

(II) the individual does not have a legal guardian, conservator, or other legal representative, or the legal guardian of the individual is the State; and

(III) a complaint has been received by the system about the individual with regard to the status or treatment of the individual or, as a result of monitoring or other activities, there is probable cause to believe that such individual has been subject to abuse or neglect; and

(iii) any individual with a developmental disability, in a situation in which—

(I) the individual has a legal guardian, conservator, or other legal representative;

(II) a complaint has been received by the system about the individual with regard to the status or treatment of the individual or, as a result of monitoring or other activities, there is probable cause to believe that such individual has been subject to abuse or neglect;

(III) such representative has been contacted by such system, upon receipt of the name and address of such representative;

(IV) such system has offered assistance to such representative to resolve the situation; and

(V) such representative has failed or refused to act on behalf of the individual;

(J)(i) have access to the records of individuals described in subparagraphs (B) and (I), and other records that are relevant to conducting an investigation, under the circumstances described in those subparagraphs, not later than 3 business days after the system makes a written request for the records involved; and

(ii) have immediate access, not later than 24 hours after the system makes such a request, to the records without consent from another party, in a situation in which services, supports, and other assistance are provided to an individual with a developmental disability—

(I) if the system determines there is probable cause to believe that the health or safety of the individual is in serious and immediate jeopardy; or

(II) in any case of death of an individual with a developmental disability;

(K) hire and maintain sufficient numbers and types of staff (qualified by training and experience) to carry out such system's functions, except that the State involved shall not apply hiring freezes, reductions in force, prohibitions on travel, or other policies to the staff of the system, to the extent that such policies would impact the staff or functions of the system funded with Federal funds or would prevent the system from carrying out the functions of the system under this part;

(L) have the authority to educate policymakers; and

(M) provide assurances to the Secretary that funds allotted to the State under section 15042 of this title will be used to supplement, and not supplant, the non-Federal funds that would otherwise be made available for the purposes for which the allotted funds are provided;

(3) to the extent that information is available, the State shall provide to the system—

(A) a copy of each independent review, pursuant to section 1396a(a)(30)(C) of this title, of an Intermediate Care Facility (Mental Retardation) within the State, not later than 30 days after the availability of such a review; and

(B) information about the adequacy of health care and other services, supports, and assistance that individuals with developmental disabilities who are served through home and community-based waivers (authorized under section 1396n(c) of this title) receive; and

(4) the agency implementing the system shall not be redesignated unless—

(A) there is good cause for the redesignation;

(B) the State has given the agency notice of the intention to make such redesignation, including notice regarding the good cause for such redesignation, and given the agency an opportunity to respond to the assertion that good cause has been shown;

(C) the State has given timely notice and an opportunity for public comment in an accessible format to individuals with developmental disabilities or their representatives; and

(D) the system has an opportunity to appeal the redesignation to the Secretary, on the basis that the redesignation was not for good cause.

(b) American Indian consortium

Upon application to the Secretary, an American Indian consortium established to provide protection and advocacy services under this part, shall receive funding pursuant to section 15042(a)(6) of this title to provide the services. Such consortium shall be considered to be a system for purposes of this part and shall coordinate the services with other systems serving the same geographic area. The tribal council that designates the consortium shall carry out the responsibilities and exercise the authorities specified for a State in this part, with regard to the consortium.

(c) Record

In this section, the term "record" includes—

(1) a report prepared or received by any staff at any location at which services, supports, or other assistance is provided to individuals with developmental disabilities;

(2) a report prepared by an agency or staff person charged with investigating reports of incidents of abuse or neglect, injury, or death occurring at such location, that describes such incidents and the steps taken to investigate such incidents; and

(3) a discharge planning record.

§15044. Administration

(a) Governing board

In a State in which the system described in section 15043 of this title is organized as a private nonprofit entity with a multimember governing board, or a public system with a multimember governing board, such governing board shall be selected according to the policies and procedures of the system, except that—

(1)(A) the governing board shall be composed of members who broadly represent or are knowledgeable about the needs of the individuals served by the system;

(B) a majority of the members of the board shall be—

(i) individuals with disabilities, including individuals with developmental disabilities, who are eligible for services, or have received or are receiving services through the system; or

(ii) parents, family members, guardians, advocates, or authorized representatives of individuals referred to in clause (i); and

(C) the board may include a representative of the State Council on Developmental Disabilities, the Centers in the State, and the self-advocacy organization described in section 15024(c)(4)(A)(ii)(I) of this title;

(2) not more than 1/3 of the members of the governing board may be appointed by the chief executive officer of the State involved, in the case of any State in which such officer has the authority to appoint members of the board;

(3) the membership of the governing board shall be subject to term limits set by the system to ensure rotating membership;

(4) any vacancy in the board shall be filled not later than 60 days after the date on which the vacancy occurs; and

(5) in a State in which the system is organized as a public system without a multimember governing or advisory board, the system shall establish an advisory council—

(A) that shall advise the system on policies and priorities to be carried out in protecting and advocating the rights of individuals with developmental disabilities; and

(B) on which a majority of the members shall be—

(i) individuals with developmental disabilities who are eligible for services, or have received or are receiving services, through the system; or

(ii) parents, family members, guardians, advocates, or authorized representatives of individuals referred to in clause (i).

(b) Legal action

(1) In general

Nothing in this subchapter shall preclude a system from bringing a suit on behalf of individuals with developmental disabilities against a State, or an agency or instrumentality of a State.

(2) Use of amounts from judgment

An amount received pursuant to a suit described in paragraph (1) through a court judgment may only be used by the system to further the purpose of this part and shall not be used to augment payments to legal contractors or to award personal bonuses.

(3) Limitation

The system shall use assistance provided under this part in a manner consistent with section 14404 of this title.

(c) Disclosure of information

For purposes of any periodic audit, report, or evaluation required under this part, the Secretary shall not require an entity carrying out a program to disclose the identity of, or any other personally identifiable information related to, any individual requesting assistance under such program.

(d) Public notice of Federal onsite review

The Secretary shall provide advance public notice of any Federal programmatic or administrative onsite review of a system conducted under this part and solicit public comment on the system through such notice. The Secretary shall prepare an onsite visit report containing the results of such review, which shall be distributed to the Governor of the State and to other interested public and private parties. The comments received in response to the public comment solicitation notice shall be included in the onsite visit report.

(e) Reports

Beginning in fiscal year 2002, each system established in a State pursuant to this part shall annually prepare and transmit to the Secretary a report that describes the activities, accomplishments, and expenditures of the system during the preceding fiscal year, including a description of the system's goals, the extent to which the goals were achieved, barriers to their achievement, the process used to obtain public input, the nature of such input, and how such input was used.

(Pub. L. 106–402, title I, §144, Oct. 30, 2000, 114 Stat. 1717.)

§15045. Authorization of appropriations

For allotments under section 15042 of this title, there are authorized to be appropriated $32,000,000 for fiscal year 2001 and such sums as may be necessary for each of fiscal years 2002 through 2007.

(Pub. L. 106–402, title I, §145, Oct. 30, 2000, 114 Stat. 1718.)

PART D—NATIONAL NETWORK OF UNIVERSITY CENTERS FOR EXCELLENCE IN DEVELOPMENTAL DISABILITIES EDUCATION, RESEARCH, AND SERVICE

§15061. Grant authority

(a) National network

From appropriations authorized under section 15066(a)(1) of this title, the Secretary shall make 5-year grants to entities in each State designated as University Centers for Excellence in Developmental Disabilities Education, Research, and Service to carry out activities described in section 15063(a) of this title.

(b) National training initiatives

From appropriations authorized under section 15066(a)(1) of this title and reserved under section 15066(a)(2) of this title, the Secretary shall make grants to Centers to carry out activities described in section 15063(b) of this title.

(c) Technical assistance

From appropriations authorized under section 15066(a)(1) of this title and reserved under section 15066(a)(3) of this title (or from funds reserved under section 15083 of this title, as appropriate), the Secretary shall enter into 1 or more cooperative agreements or contracts for the purpose of providing technical assistance described in section 15063(c) of this title.

(Pub. L. 106–402, title I, §151, Oct. 30, 2000, 114 Stat. 1719.)

§15062. Grant awards

(a) Existing Centers

(1) In general

In awarding and distributing grant funds under section 15061(a)of this title for a fiscal year, the Secretary, subject to the availability of appropriations and the condition specified in subsection (d), shall award and distribute grant funds in equal amounts of $500,000 (adjusted in accordance with subsection (b)), to each Center that existed during the preceding fiscal year and that meets the requirements of this part, prior to making grants under subsection (c) or (d).

(2) Reduction of award

Notwithstanding paragraph (1), if the aggregate of the funds to be awarded to the Centers pursuant to paragraph (1) for any fiscal year exceeds the total amount appropriated under section 15066 of this title for such fiscal year, the amount to be awarded to each Center for such fiscal year shall be proportionately reduced.

(b) Adjustments

Subject to the availability of appropriations, for any fiscal year following a year in which each Center described in subsection (a) received a grant award of not less than $500,000 under subsection (a) (adjusted in accordance with this subsection), the Secretary shall adjust the awards to take into account the most recent percentage change in the Consumer Price Index published by the Secretary of Labor under section 720(c)(1) of title 29 (if the percentage change indicates an increase), prior to making grants under subsection (c) or (d).

(c) National training initiatives on critical and emerging needs

Subject to the availability of appropriations, for any fiscal year in which each Center described in subsection (a) receives a grant award of not less than $500,000, under subsection (a) (adjusted in accordance with subsection (b)), after making the grant awards, the Secretary shall make grants under section 15061(b) of this title to Centers to pay for the Federal share of the cost of training initiatives related to the unmet needs of individuals with developmental disabilities and their families, as described in section 15063(b) of this title.

(d) Additional grants

For any fiscal year in which each Center described in subsection (a) receives a grant award of not less than $500,000 under subsection (a) (adjusted in accordance with subsection (b)), after making the grant awards, the Secretary may make grants under section 15061(a) of this title for activities

described in section 15063(a) of this title to additional Centers, or additional grants to Centers, for States or populations that are unserved or underserved by Centers due to such factors as—

(1) population;

(2) a high concentration of rural or urban areas; or

(3) a high concentration of unserved or underserved populations.

(Pub. L. 106–402, title I, §152, Oct. 30, 2000, 114 Stat. 1719.)

§15063. Purpose and scope of activities

(a) National network of University Centers for Excellence in Developmental Disabilities Education, Research, and Service

(1) In general

In order to provide leadership in, advise Federal, State, and community policymakers about, and promote opportunities for individuals with developmental disabilities to exercise self-determination, be independent, be productive, and be integrated and included in all facets of community life, the Secretary shall award grants to eligible entities designated as Centers in each State to pay for the Federal share of the cost of the administration and operation of the Centers. The Centers shall be interdisciplinary education, research, and public service units of universities (as defined by the Secretary) or public or not-for-profit entities associated with universities that engage in core functions, described in paragraph (2), addressing, directly or indirectly, 1 or more of the areas of emphasis.

(2) Core functions

The core functions referred to in paragraph (1) shall include the following:

(A) Provision of interdisciplinary pre-service preparation and continuing education of students and fellows, which may include the preparation and continuing education of leadership, direct service, clinical, or other personnel to strengthen and increase the capacity of States and communities to achieve the purpose of this subchapter.

(B) Provision of community services—

(i) that provide training or technical assistance for individuals with developmental disabilities, their families, professionals, paraprofessionals, policymakers, students, and other members of the community; and

(ii) that may provide services, supports, and assistance for the persons described in clause (i) through demonstration and model activities.

(C) Conduct of research, which may include basic or applied research, evaluation, and the analysis of public policy in areas that affect or could affect, either positively or negatively, individuals with developmental disabilities and their families.

(D) Dissemination of information related to activities undertaken to address the purpose of this subchapter, especially dissemination of information that demonstrates that the network authorized under this part is a national and international resource that includes specific substantive areas of expertise that may be accessed and applied in diverse settings and circumstances.

(b) National training initiatives on critical and emerging needs

(1) Supplemental grants

After consultation with relevant, informed sources, including individuals with developmental disabilities and their families, the Secretary shall award, under section 15061(b) of this title, supplemental grants to Centers to pay for the Federal share of the cost of training initiatives related to the unmet needs of individuals with developmental disabilities and their families. The Secretary shall make the grants on a competitive basis, and for periods of not more than 5 years.

(2) Establishment of consultation process by the Secretary

Not later than 1 year after October 30, 2000, the Secretary shall establish a consultation process that, on an ongoing basis, allows the Secretary to identify and address, through supplemental grants authorized under paragraph (1), training initiatives related to the unmet needs of individuals with developmental disabilities and their families.

(c) Technical assistance

In order to strengthen and support the national network of Centers, the Secretary may enter into 1 or more cooperative agreements or contracts to—

(1) assist in national and international dissemination of specific information from multiple Centers and, in appropriate cases, other entities whose work affects the lives of individuals with developmental disabilities;

(2) compile, analyze, and disseminate state-of-the-art training, research, and demonstration results policies, and practices from multiple Centers and, in appropriate cases, other entities whose work affects the lives of persons with developmental disabilities;

(3) convene experts from multiple Centers to discuss and make recommendations with regard to national emerging needs of individuals with developmental disabilities;

(4)(A) develop portals that link users with every Center's website; and

(B) facilitate electronic information sharing using state-of-the-art Internet technologies such as real-time online discussions, multipoint video conferencing, and web-based audio/video broadcasts, on emerging topics that impact individuals with disabilities and their families;

(5) serve as a research-based resource for Federal and State policymakers on information concerning and issues impacting individuals with developmental disabilities and entities that assist or serve those individuals; or

(6) undertake any other functions that the Secretary determines to be appropriate;

to promote the viability and use of the resources and expertise of the Centers nationally and internationally.

(Pub. L. 106–402, title I, §153, Oct. 30, 2000, 114 Stat. 1720.)

§15064. Applications

(a) Applications for core Center grants

(1) In general

To be eligible to receive a grant under section 15061(a) of this title for a Center, an entity shall submit to the Secretary, and obtain approval of, an application at such time, in such manner, and containing such information, as the Secretary may require.

(2) Application contents

Each application described in paragraph (1) shall describe a 5-year plan, including a projected goal related to 1 or more areas of emphasis for each of the core functions described in section 15063(a) of this title.

(3) Assurances

The application shall be approved by the Secretary only if the application contains or is supported by reasonable assurances that the entity designated as the Center will—

(A) meet regulatory standards as established by the Secretary for Centers;

(B) address the projected goals, and carry out goal-related activities, based on data driven strategic planning and in a manner consistent with the objectives of this part, that—

(i) are developed in collaboration with the consumer advisory committee established pursuant to subparagraph (E);

(ii) are consistent with, and to the extent feasible complement and further, the Council goals contained in the State plan submitted under section 15024 of this title and the system goals established under section 15043 of this title; and

(iii) will be reviewed and revised annually as necessary to address emerging trends and needs;

(C) use the funds made available through the grant to supplement, and not supplant, the funds that would otherwise be made available for activities described in section 15063(a) of this title;

(D) protect, consistent with the policy specified in section 15001(c) of this title (relating to rights of individuals with developmental disabilities), the legal and human rights of all individuals with developmental disabilities (especially those individuals under State guardianship) who are involved in activities carried out under programs assisted under this part;

(E) establish a consumer advisory committee—

(i) of which a majority of the members shall be individuals with developmental disabilities and family members of such individuals;

(ii) that is comprised of—

(I) individuals with developmental disabilities and related disabilities;

(II) family members of individuals with developmental disabilities;

(III) a representative of the State protection and advocacy system;

(IV) a representative of the State Council on Developmental Disabilities;

(V) a representative of a self-advocacy organization described in section 15024(c)(4)(A)(ii)(I) of this title; and

(VI) representatives of organizations that may include parent training and information centers assisted under section 1471 or 1472 of title 20, entities carrying out activities authorized under section 3003 or 3004 of title 29, relevant State agencies, and other community groups concerned with the welfare of individuals with developmental disabilities and their families;

(iii) that reflects the racial and ethnic diversity of the State; and

(iv) that shall—

(I) consult with the Director of the Center regarding the development of the 5-year plan, and shall participate in an annual review of, and comment on, the progress of the Center in meeting the projected goals contained in the plan, and shall make recommendations to the Director of the Center regarding any proposed revisions of the plan that might be necessary; and

(II) meet as often as necessary to carry out the role of the committee, but at a minimum twice during each grant year;

(F) to the extent possible, utilize the infrastructure and resources obtained through funds made available under the grant to leverage additional public and private funds to successfully achieve the projected goals developed in the 5-year plan;

(G)(i) have a director with appropriate academic credentials, demonstrated leadership, expertise regarding developmental disabilities, significant experience in managing grants and contracts, and the ability to leverage public and private funds; and

(ii) allocate adequate staff time to carry out activities related to each of the core functions described in section 15063(a) of this title; and

(H) educate, and disseminate information related to the purpose of this subchapter to, the legislature of the State in which the Center is located, and to Members of Congress from such State.

(b) Supplemental grant applications pertaining to national training initiatives in critical and emerging needs

To be eligible to receive a supplemental grant under section 15061(b) of this title, a Center may submit a supplemental application to the Secretary at such time, in such manner, and containing such information as the Secretary may require, pursuant to the terms and conditions set by the Secretary consistent with section 15063(b) of this title.

(c) Peer review

(1) In general

The Secretary shall require that all applications submitted under this part be subject to technical and qualitative review by peer review groups established under paragraph (2). The Secretary may approve an application under this part only if such application has been recommended by a peer review group that has conducted the peer review required under this paragraph. In conducting the review, the group may conduct onsite visits or inspections of related activities as necessary.

(2) Establishment of peer review groups

(A) In general

The Secretary, acting through the Commissioner of the Administration on Developmental Disabilities, may, notwithstanding—

(i) the provisions of title 5 concerning appointments to the competitive service; and

(ii) the provisions of chapter 51, and subchapter III of chapter 53 of title 5 concerning classification and General Schedule pay rates;

establish such peer review groups and appoint and set the rates of pay of members of such groups.

(B) Composition

Each peer review group shall include such individuals with disabilities and parents, guardians, or advocates of or for individuals with developmental disabilities, as are necessary to carry out this subsection.

(3) Waivers of approval

The Secretary may waive the provisions of paragraph (1) with respect to review and approval of an application if the Secretary determines that exceptional circumstances warrant such a waiver.

(d) Federal share

(1) In general

The Federal share of the cost of administration or operation of a Center, or the cost of carrying out a training initiative, supported by a grant made under this part may not be more than 75 percent of the necessary cost of such project, as determined by the Secretary.

(2) Urban or rural poverty areas

In the case of a project whose activities or products target individuals with developmental disabilities who live in an urban or rural poverty area, as determined by the Secretary, the Federal share of the cost of the project may not be more than 90 percent of the necessary costs of the project, as determined by the Secretary.

(3) Grant expenditures

For the purpose of determining the Federal share with respect to the project, expenditures on that project by a political subdivision of a State or by a public or private entity shall, subject to such limitations and conditions as the Secretary may by regulation prescribe under section 15004(b) of this title, be considered to be expenditures made by a Center under this part.

(e) Annual report

Each Center shall annually prepare and transmit to the Secretary a report containing—

(1) information on progress made in achieving the projected goals of the Center for the previous year, including—

(A) the extent to which the goals were achieved;

(B) a description of the strategies that contributed to achieving the goals;

(C) to the extent to which the goals were not achieved, a description of factors that impeded the achievement; and

(D) an accounting of the manner in which funds paid to the Center under this part for a fiscal

year were expended;

(2) information on proposed revisions to the goals; and

(3) a description of successful efforts to leverage funds, other than funds made available under this part, to pursue goals consistent with this part.

(Pub. L. 106–402, title I, §154, Oct. 30, 2000, 114 Stat. 1722; Pub. L. 108–364, §3(a)(4), Oct. 25, 2004, 118 Stat. 1737; Pub. L. 108–446, title III, §305(n)(2), Dec. 3, 2004, 118 Stat. 2806.)

EDITORIAL NOTES

AMENDMENTS

2004—Subsec. (a)(3)(E)(ii)(VI). Pub. L. 108–446 substituted "section 1471 or 1472 of title 20" for "section 1482 or 1483 of title 20".

Pub. L. 108–364 substituted "section 3003 or 3004 of title 29" for "section 3011 or 3012 of title 29".

§15065. Definition

In this part, the term "State" means each of the several States of the United States, the District of Columbia, the Commonwealth of Puerto Rico, the United States Virgin Islands, and Guam.

(Pub. L. 106–402, title I, §155, Oct. 30, 2000, 114 Stat. 1725.)

§15066. Authorization of appropriations

(a) Authorization and reservations

(1) Authorization

There are authorized to be appropriated to carry out this part (other than section 15063(c)(4) of this title) $30,000,000 for fiscal year 2001 and such sums as may be necessary for each of fiscal years 2002 through 2007.

(2) Reservation for training initiatives

From any amount appropriated for a fiscal year under paragraph (1) and remaining after each Center described in section 15062(a) of this title has received a grant award of not less than $500,000, as described in section 15062 of this title, the Secretary shall reserve funds for the training initiatives authorized under section 15063(b) of this title.

(3) Reservation for technical assistance

(A) Years before appropriation trigger

For any covered year, the Secretary shall reserve funds in accordance with section 15083(c) of this title to fund technical assistance activities under section 15063(c) of this title (other than section 15063(c)(4) of this title).

(B) Years after appropriation trigger

For any fiscal year that is not a covered year, the Secretary shall reserve not less than $300,000 and not more than 2 percent of the amount appropriated under paragraph (1) to fund technical assistance activities under section 15063(c) of this title (other than section 15063(c)(4) of this title).

(C) Covered year

In this paragraph, the term "covered year" means a fiscal year prior to the first fiscal year for which the amount appropriated under paragraph (1) is not less than $20,000,000.

(b) Limitation

The Secretary may not use, for peer review or other activities directly related to peer review conducted under this part—

(1) for fiscal year 2001, more than $300,000 of the funds made available under subsection (a); and

(2) for any succeeding fiscal year, more than the amount of funds used for the peer review and related activities in fiscal year 2001, adjusted to take into account the most recent percentage change in the Consumer Price Index published by the Secretary of Labor under section 720(c)(1) of title 29 (if the percentage change indicates an increase).

(Pub. L. 106–402, title I, §156, Oct. 30, 2000, 114 Stat. 1725.)

PART E—PROJECTS OF NATIONAL SIGNIFICANCE

§15081. Purpose

The purpose of this part is to provide grants, contracts, or cooperative agreements for projects of national significance that—

(1) create opportunities for individuals with developmental disabilities to directly and fully contribute to, and participate in, all facets of community life; and

(2) support the development of national and State policies that reinforce and promote, with the support of families, guardians, advocates, and communities, of individuals with developmental disabilities, the self-determination, independence, productivity, and integration and inclusion in all facets of community life of such individuals through—

(A) family support activities;

(B) data collection and analysis;

(C) technical assistance to entities funded under parts B and D, subject to the limitations described in sections 15029(b), 15066(a)(3), and 15083(c) of this title; and

(D) other projects of sufficient size and scope that hold promise to expand or improve opportunities for such individuals, including—

(i) projects that provide technical assistance for the development of information and referral systems;

(ii) projects that provide technical assistance to self-advocacy organizations of individuals with developmental disabilities;

(iii) projects that provide education for policymakers;

(iv) Federal interagency initiatives;

(v) projects that enhance the participation of racial and ethnic minorities in public and private sector initiatives in developmental disabilities;

(vi) projects that provide aid to transition youth with developmental disabilities from school to adult life, especially in finding employment and postsecondary education opportunities and in upgrading and changing any assistive technology devices that may be needed as a youth matures;

(vii) initiatives that address the development of community quality assurance systems and the training related to the development, implementation, and evaluation of such systems, including training of individuals with developmental disabilities and their families;

(viii) initiatives that address the needs of aging individuals with developmental disabilities and aging caregivers of adults with developmental disabilities in the community;

(ix) initiatives that create greater access to and use of generic services systems, community organizations, and associations, and initiatives that assist in community economic development;

(x) initiatives that create access to increased living options;

(xi) initiatives that address the challenging behaviors of individuals with developmental

disabilities, including initiatives that promote positive alternatives to the use of restraints and seclusion; and

(xii) initiatives that address other areas of emerging need.

(Pub. L. 106–402, title I, §161, Oct. 30, 2000, 114 Stat. 1725.)

§15082. Grant authority

(a) In general

The Secretary shall award grants, contracts, or cooperative agreements to public or private nonprofit entities for projects of national significance relating to individuals with developmental disabilities to carry out activities described in section 15081(2) of this title.

(b) Federal interagency initiatives

(1) In general

(A) Authority

The Secretary may—

(i) enter into agreements with Federal agencies to jointly carry out activities described in section 15081(2) of this title or to jointly carry out activities of common interest related to the objectives of such section; and

(ii) transfer to such agencies for such purposes funds appropriated under this part, and receive and use funds from such agencies for such purposes.

(B) Relation to program purposes

Funds transferred or received pursuant to this paragraph shall be used only in accordance with statutes authorizing the appropriation of such funds. Such funds shall be made available through grants, contracts, or cooperative agreements only to recipients eligible to receive such funds under such statutes.

(C) Procedures and criteria

If the Secretary enters into an agreement under this subsection for the administration of a jointly funded project—

(i) the agreement shall specify which agency's procedures shall be used to award grants, contracts, or cooperative agreements and to administer such awards;

(ii) the participating agencies may develop a single set of criteria for the jointly funded project, and may require applicants to submit a single application for joint review by such agencies; and

(iii) unless the heads of the participating agencies develop joint eligibility requirements, an applicant for an award for the project shall meet the eligibility requirements of each program involved.

(2) Limitation

The Secretary may not construe the provisions of this subsection to take precedence over a limitation on joint funding contained in an applicable statute.

(Pub. L. 106–402, title I, §162, Oct. 30, 2000, 114 Stat. 1727.)

§15083. Authorization of appropriations

(a) In general

There are authorized to be appropriated to carry out the projects specified in this section $16,000,000 for fiscal year 2001, and such sums as may be necessary for each of fiscal years 2002 through 2007.

(b) Use of funds

(1) Grants, contracts, and agreements

Except as provided in paragraph (2), the amount appropriated under subsection (a) for each fiscal year shall be used to award grants, or enter into contracts, cooperative agreements, or other agreements, under section 15082 of this title.

(2) Administrative costs

Not more than 1 percent of the amount appropriated under subsection (a) for each fiscal year may be used to provide for the administrative costs (other than compensation of Federal employees) of the Administration on Developmental Disabilities for administering this part and parts B, C, and D, including monitoring the performance of and providing technical assistance to, entities that receive funds under this subchapter.

(c) Technical assistance for Councils and Centers

(1) In general

For each covered year, the Secretary shall expend, to provide technical assistance for entities funded under part B or D, an amount from funds appropriated under subsection (a) that is not less than the amount the Secretary expended on technical assistance for entities funded under that part (or a corresponding provision) in the previous fiscal year.

(2) Covered year

In this subsection, the term "covered year" means—

(A) in the case of an expenditure for entities funded under part B, a fiscal year for which the amount appropriated under section 15029(a) of this title is less than $76,000,000; and

(B) in the case of an expenditure for entities funded under part D, a fiscal year prior to the first fiscal year for which the amount appropriated under section 15066(a)(1) of this title is not less than $20,000,000.

(3) References

References in this subsection to part D shall not be considered to include section 15063(c)(4) of this title.

(d) Technical assistance on electronic information sharing

In addition to any funds reserved under subsection (c), the Secretary shall reserve $100,000 from the amount appropriated under subsection (a) for each fiscal year to carry out section 15063(c)(4) of this title.

(e) Limitation

For any fiscal year for which the amount appropriated under subsection (a) is not less than $10,000,000, not more than 50 percent of such amount shall be used for activities carried out under section 15081(2)(A) of this title.

(Pub. L. 106–402, title I, §163, Oct. 30, 2000, 114 Stat. 1727.)

SUBCHAPTER II—FAMILY SUPPORT

§15091. Findings, purposes, and policy

(a) Findings

Congress makes the following findings:

(1) It is in the best interest of our Nation to preserve, strengthen, and maintain the family.

(2) Families of children with disabilities provide support, care, and training to their children that

can save States millions of dollars. Without the efforts of family caregivers, many persons with disabilities would receive care through State-supported out-of-home placements.

(3) Most families of children with disabilities, especially families in unserved and underserved populations, do not have access to family-centered and family-directed services to support such families in their efforts to care for such children at home.

(4) Medical advances and improved health care have increased the life span of many people with disabilities, and the combination of the longer life spans and the aging of family caregivers places a continually increasing demand on the finite service delivery systems of the States.

(5) In 1996, 49 States provided family support initiatives in response to the needs of families of children with disabilities. Such initiatives included the provision of cash subsidies, respite care, and other forms of support. There is a need in each State, however, to strengthen, expand, and coordinate the activities of a system of family support services for families of children with disabilities that is easily accessible, avoids duplication, uses resources efficiently, and prevents gaps in services to families in all areas of the State.

(6) The goals of the Nation properly include the goal of providing to families of children with disabilities the family support services necessary—

(A) to support the family;

(B) to enable families of children with disabilities to nurture and enjoy their children at home;

(C) to enable families of children with disabilities to make informed choices and decisions regarding the nature of supports, resources, services, and other assistance made available to such families; and

(D) to support family caregivers of adults with disabilities.

(b) Purposes

The purposes of this subchapter are—

(1) to promote and strengthen the implementation of comprehensive State systems of family support services, for families with children with disabilities, that are family-centered and family-directed, and that provide families with the greatest possible decisionmaking authority and control regarding the nature and use of services and support;

(2) to promote leadership by families in planning, policy development, implementation, and evaluation of family support services for families of children with disabilities;

(3) to promote and develop interagency coordination and collaboration between agencies responsible for providing the services; and

(4) to increase the availability of, funding for, access to, and provision of family support services for families of children with disabilities.

(c) Policy

It is the policy of the United States that all programs, projects, and activities funded under this subchapter shall be family-centered and family-directed, and shall be provided in a manner consistent with the goal of providing families of children with disabilities with the support the families need to raise their children at home.

(Pub. L. 106–402, title II, §202, Oct. 30, 2000, 114 Stat. 1728.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

SHORT TITLE

For short title of this subchapter as the "Families of Children With Disabilities Support Act of 2000", see section 201 of Pub. L. 106–402, set out as a note under section 15001 of this title.

§15092. Definitions and special rule

(a) Definitions

In this subchapter:

(1) Child with a disability

The term "child with a disability" means an individual who—

(A) has a significant physical or mental impairment, as defined pursuant to State policy to the extent that such policy is established without regard to type of disability; or

(B) is an infant or a young child from birth through age 8 and has a substantial developmental delay or specific congenital or acquired condition that presents a high probability of resulting in a disability if services are not provided to the infant or child.

(2) Family

(A) In general

Subject to subparagraph (B), for purposes of the application of this subchapter in a State, the term "family" has the meaning given the term by the State.

(B) Exclusion of employees

The term does not include an employee who, acting in a paid employment capacity, provides services to a child with a disability in an out-of-home setting such as a hospital, nursing home, personal care home, board and care home, group home, or other facility.

(3) Family support for families of children with disabilities

The term "family support for families of children with disabilities" means supports, resources, services, and other assistance provided to families of children with disabilities pursuant to State policy that are designed to—

(A) support families in the efforts of such families to raise their children with disabilities in the home;

(B) strengthen the role of the family as primary caregiver for such children;

(C) prevent involuntary out-of-the-home placement of such children and maintain family unity; and

(D) reunite families with children with disabilities who have been placed out of the home, whenever possible.

(4) Secretary

The term "Secretary" means the Secretary of Health and Human Services.

(5) State

The term "State" means each of the 50 States of the United States, the District of Columbia, the Commonwealth of Puerto Rico, the United States Virgin Islands, Guam, American Samoa, and the Commonwealth of the Northern Mariana Islands.

(6) Systems change activities

The term "systems change activities" means efforts that result in laws, regulations, policies, practices, or organizational structures—

(A) that are family-centered and family-directed;

(B) that facilitate and increase access to, provision of, and funding for, family support services for families of children with disabilities; and

(C) that otherwise accomplish the purposes of this subchapter.

(b) Special rule

References in this subchapter to a child with a disability shall be considered to include references to an individual who is not younger than age 18 who—

(1) has a significant impairment described in subsection (a)(1)(A); and

(2) is residing with and receiving assistance from a family member.

(Pub. L. 106–402, title II, §203, Oct. 30, 2000, 114 Stat. 1729.)

§15093. Grants to States

(a) In general

The Secretary shall make grants to States on a competitive basis, in accordance with the provisions of this subchapter, to support systems change activities designed to assist States to develop and implement, or expand and enhance, a statewide system of family support services for families of children with disabilities that accomplishes the purposes of this subchapter.

(b) Award period and grant limitation

No grant shall be awarded under this section for a period of more than 3 years. No State shall be eligible for more than 1 grant under this section.

(c) Amount of grants

(1) Grants to States

(A) Federal matching share

From amounts appropriated under section 15101(a) of this title, the Secretary shall pay to each State that has an application approved under section 15094 of this title, for each year of the grant period, an amount that is—

(i) equal to not more than 75 percent of the cost of the systems change activities to be carried out by the State; and

(ii) not less than $100,000 and not more than $500,000.

(B) Non-Federal share

The non-Federal share of the cost of the systems change activities may be in cash or in kind, fairly evaluated, including plant, equipment, or services.

(2) Calculation of amounts

The Secretary shall calculate a grant amount described in paragraph (1) on the basis of—

(A) the amounts available for making grants under this section; and

(B) the child population of the State concerned.

(d) Priority for previously participating States

For the second and third fiscal years for which amounts are appropriated to carry out this section, the Secretary, in providing payments under this section, shall give priority to States that received payments under this section during the preceding fiscal year.

(e) Priorities for distribution

To the extent practicable, the Secretary shall award grants to States under this section in a manner that—

(1) is geographically equitable;

(2) distributes the grants among States that have differing levels of development of statewide systems of family support services for families of children with disabilities; and

(3) distributes the grants among States that attempt to meet the needs of unserved and underserved populations, such as individuals from racial and ethnic minority backgrounds, disadvantaged individuals, individuals with limited English proficiency, and individuals from underserved geographic areas (rural or urban).

(Pub. L. 106–402, title II, §204, Oct. 30, 2000, 114 Stat. 1730.)

§15094. Application

To be eligible to receive a grant under this subchapter, a State shall submit an application to the Secretary at such time, in such manner, and containing such information and assurances as the Secretary may require, including information about the designation of a lead entity, a description of available State resources, and assurances that systems change activities will be family-centered and family-directed.

(Pub. L. 106–402, title II, §205, Oct. 30, 2000, 114 Stat. 1731.)

§15095. Designation of the lead entity

(a) Designation

The Chief Executive Officer of a State that desires to receive a grant under section 15093 of this title, shall designate the office or entity (referred to in this subchapter as the "lead entity") responsible for—

(1) submitting the application described in section 15094 of this title on behalf of the State;

(2) administering and supervising the use of the amounts made available under the grant;

(3) coordinating efforts related to and supervising the preparation of the application;

(4) coordinating the planning, development, implementation (or expansion and enhancement), and evaluation of a statewide system of family support services for families of children with disabilities among public agencies and between public agencies and private agencies, including coordinating efforts related to entering into interagency agreements;

(5) coordinating efforts related to the participation by families of children with disabilities in activities carried out under a grant made under this subchapter; and

(6) submitting the report described in section 15097 of this title on behalf of the State.

(b) Qualifications

In designating the lead entity, the Chief Executive Officer may designate—

(1) an office of the Chief Executive Officer;

(2) a commission appointed by the Chief Executive Officer;

(3) a public agency;

(4) a council established under Federal or State law; or

(5) another appropriate office, agency, or entity.

(Pub. L. 106–402, title II, §206, Oct. 30, 2000, 114 Stat. 1731.)

§15096. Authorized activities

(a) In general

A State that receives a grant under section 15093 of this title shall use the funds made available through the grant to carry out systems change activities that accomplish the purposes of this subchapter.

(b) Special rule

In carrying out activities authorized under this subchapter, a State shall ensure that such activities address the needs of families of children with disabilities from unserved or underserved populations.

(Pub. L. 106–402, title II, §207, Oct. 30, 2000, 114 Stat. 1732.)

§15097. Reporting

A State that receives a grant under this subchapter shall prepare and submit to the Secretary, at the end of the grant period, a report containing the results of State efforts to develop and implement, or expand and enhance, a statewide system of family support services for families of children with disabilities.

(Pub. L. 106–402, title II, §208, Oct. 30, 2000, 114 Stat. 1732.)

§15098. Technical assistance

(a) In general

The Secretary shall enter into contracts or cooperative agreements with appropriate public or private agencies and organizations, including institutions of higher education, with documented experience, expertise, and capacity, for the purpose of providing technical assistance and information with respect to the development and implementation, or expansion and enhancement, of a statewide system of family support services for families of children with disabilities.

(b) Purpose

An agency or organization that provides technical assistance and information under this section in a State that receives a grant under this subchapter shall provide the technical assistance and information to the lead entity of the State, family members of children with disabilities, organizations, service providers, and policymakers involved with children with disabilities and their families. Such an agency or organization may also provide technical assistance and information to a State that does not receive a grant under this subchapter.

(c) Reports to the Secretary

An entity providing technical assistance and information under this section shall prepare and submit to the Secretary periodic reports regarding Federal policies and procedures identified within the States that facilitate or impede the delivery of family support services to families of children with disabilities. The report shall include recommendations to the Secretary regarding the delivery of services, coordination with other programs, and integration of the policies described in section 15091 of this title in Federal law, other than this subchapter.

(Pub. L. 106–402, title II, §209, Oct. 30, 2000, 114 Stat. 1732.)

§15099. Evaluation

(a) In general

The Secretary shall conduct a national evaluation of the program of grants to States authorized by this subchapter.

(b) Purpose

(1) In general

The Secretary shall conduct the evaluation under subsection (a) to assess the status and effects of State efforts to develop and implement, or expand and enhance, statewide systems of family support services for families of children with disabilities in a manner consistent with the provisions of this subchapter. In particular, the Secretary shall assess the impact of such efforts on families of children with disabilities, and recommend amendments to this subchapter that are necessary to assist States to accomplish fully the purposes of this subchapter.

(2) Information systems

The Secretary shall work with the States to develop an information system designed to compile and report, from information provided by the States, qualitative and quantitative descriptions of the impact of the program of grants to States authorized by this subchapter on—

(A) families of children with disabilities, including families from unserved and underserved populations;

(B) access to and funding for family support services for families of children with disabilities;

(C) interagency coordination and collaboration between agencies responsible for providing the services; and

(D) the involvement of families of children with disabilities at all levels of the statewide systems.

(c) Report to Congress

Not later than 2½ years after October 30, 2000, the Secretary shall prepare and submit to the appropriate committees of Congress a report concerning the results of the evaluation conducted

under this section.

(Pub. L. 106–402, title II, §210, Oct. 30, 2000, 114 Stat. 1733.)

§15100. Projects of national significance

(a) Study by the Secretary

The Secretary shall review Federal programs to determine the extent to which such programs facilitate or impede access to, provision of, and funding for family support services for families of children with disabilities, consistent with the policies described in section 15091 of this title.

(b) Projects of national significance

The Secretary shall make grants or enter into contracts for projects of national significance to support the development of national and State policies and practices related to the development and implementation, or expansion and enhancement, of family-centered and family-directed systems of family support services for families of children with disabilities.

(Pub. L. 106–402, title II, §211, Oct. 30, 2000, 114 Stat. 1733.)

§15101. Authorization of appropriations

(a) In general

There are authorized to be appropriated to carry out this subchapter such sums as may be necessary for each of fiscal years 2001 through 2007.

(b) Reservation

(1) In general

The Secretary shall reserve for each fiscal year 10 percent, or $400,000 (whichever is greater), of the amount appropriated pursuant to subsection (a) to carry out—

(A) section 15098 of this title (relating to the provision of technical assistance and information to States); and

(B) section 15099 of this title (relating to the conduct of evaluations).

(2) Special rule

For each year that the amount appropriated pursuant to subsection (a) is $10,000,000 or greater, the Secretary may reserve 5 percent of such amount to carry out section 15100 of this title.

(Pub. L. 106–402, title II, §212, Oct. 30, 2000, 114 Stat. 1734.)

SUBCHAPTER III—PROGRAM FOR DIRECT SUPPORT WORKERS WHO ASSIST INDIVIDUALS WITH DEVELOPMENTAL DISABILITIES

§15111. Findings

Congress finds that—

(1) direct support workers, especially young adults, have played essential roles in providing the support needed by individuals with developmental disabilities and expanding community options for those individuals;

(2) 4 factors have contributed to a decrease in the available pool of direct support workers, specifically—

(A) the small population of individuals who are age 18 through 25, an age group that has been attracted to direct support work in the past;

(B) the rapid expansion of the service sector, which attracts individuals who previously would have elected to pursue employment as direct support workers;

(C) the failure of wages in the human services sector to keep pace with wages in other service sectors; and

(D) the lack of quality training and career advancement opportunities available to direct support workers; and

(3) individuals with developmental disabilities benefit from assistance from direct support workers who are well trained, and benefit from receiving services from professionals who have spent time as direct support workers.

(Pub. L. 106–402, title III, §301, Oct. 30, 2000, 114 Stat. 1734.)

§15112. Definitions

In this subchapter:

(1) Developmental disability

The term "developmental disability" has the meaning given the term in section 15002 of this title.

(2) Institution of higher education

The term "institution of higher education" has the meaning given the term in section 1141 [1] of title 20.

(3) Secretary

The term "Secretary" means the Secretary of Health and Human Services.

(Pub. L. 106–402, title III, §302, Oct. 30, 2000, 114 Stat. 1734.)

EDITORIAL NOTES

REFERENCES IN TEXT

Section 1141 of title 20, referred to in par. (2), was repealed by Pub. L. 105–244, §3, title I, §101(b), title VII, §702, Oct. 7, 1998, 112 Stat. 1585, 1616, 1803, effective Oct. 1, 1998. However, the term "institution of higher education" is defined in section 1001 of Title 20, Education.

[1] *See References in Text note below.*

§15113. Reaching up scholarship program

(a) Program authorization

The Secretary may award grants to eligible entities, on a competitive basis, to enable the entities to carry out scholarship programs by providing vouchers for postsecondary education to direct support workers who assist individuals with developmental disabilities residing in diverse settings. The Secretary shall award the grants to pay for the Federal share of the cost of providing the vouchers.

(b) Eligible entity

To be eligible to receive a grant under this section, an entity shall be—

(1) an institution of higher education;

(2) a State agency; or

(3) a consortium of such institutions or agencies.

(c) Application requirements

To be eligible to receive a grant under this section, an eligible entity shall submit to the Secretary

an application at such time, in such manner, and containing such information as the Secretary may require, including a description of—

(1) the basis for awarding the vouchers;

(2) the number of individuals to receive the vouchers; and

(3) the amount of funds that will be made available by the eligible entity to pay for the non-Federal share of the cost of providing the vouchers.

(d) Selection criteria

In awarding a grant under this section for a scholarship program, the Secretary shall give priority to an entity submitting an application that—

(1) specifies that individuals who receive vouchers through the program will be individuals—

(A) who are direct support workers who assist individuals with developmental disabilities residing in diverse settings, while pursuing postsecondary education; and

(B) each of whom verifies, prior to receiving the voucher, that the worker has completed 250 hours as a direct support worker in the past 90 days;

(2) states that the vouchers that will be provided through the program will be in amounts of not more than $2,000 per year;

(3) provides an assurance that the eligible entity (or another specified entity that is not a voucher recipient) will contribute the non-Federal share of the cost of providing the vouchers; and

(4) meets such other conditions as the Secretary may specify.

(e) Federal share

The Federal share of the cost of providing the vouchers shall be not more than 80 percent.

(Pub. L. 106–402, title III, §303, Oct. 30, 2000, 114 Stat. 1735.)

§15114. Staff development curriculum authorization

(a) Funding

(1) In general

The Secretary shall award funding, on a competitive basis, through a grant, cooperative agreement, or contract, to a public or private entity or a combination of such entities, for the development, evaluation, and dissemination of a staff development curriculum, and related guidelines, for computer-assisted, competency-based, multimedia, interactive instruction, relating to service as a direct support worker.

(2) Participants

The curriculum shall be developed for individuals who—

(A) seek to become direct support workers who assist individuals with developmental disabilities or are such direct support workers; and

(B) seek to upgrade their skills and competencies related to being a direct support worker.

(b) Application requirements

To be eligible to receive an award under this section, an entity shall submit to the Secretary an application at such time, in such manner, and containing such information as the Secretary may require, including—

(1) a comprehensive analysis of the content of direct support roles;

(2) information identifying an advisory group that—

(A) is comprised of individuals with experience and expertise with regard to the support provided by direct support workers, and effective ways to provide the support, for individuals with developmental disabilities in diverse settings; and

(B) will advise the entity throughout the development, evaluation, and dissemination of the staff development curriculum and guidelines;

(3) information describing how the entity will—

(A) develop, field test, and validate a staff development curriculum that—

(i) relates to the appropriate reading level for direct service workers who assist individuals with disabilities;

(ii) allows for multiple levels of instruction;

(iii) provides instruction appropriate for direct support workers who work in diverse settings; and

(iv) is consistent with subsections (b) and (c) of section 15001 of this title and section 15009 of this title;

(B) develop, field test, and validate guidelines for the organizations that use the curriculum that provide for—

(i) providing necessary technical and instructional support to trainers and mentors for the participants;

(ii) ensuring easy access to and use of such curriculum by workers that choose to participate in using, and agencies that choose to use, the curriculum;

(iii) evaluating the proficiency of the participants with respect to the content of the curriculum;

(iv) providing necessary support to the participants to assure that the participants have access to, and proficiency in using, a computer in order to participate in the development, testing, and validation process;

(v) providing necessary technical and instructional support to trainers and mentors for the participants in conjunction with the development, testing, and validation process;

(vi) addressing the satisfaction of participants, individuals with developmental disabilities and their families, providers of services for such individuals and families, and other relevant entities with the curriculum; and

(vii) developing methods to maintain a record of the instruction completed, and the content mastered, by each participant under the curriculum; and

(C) nationally disseminate the curriculum and guidelines, including dissemination through—

(i) parent training and information centers funded under part D of the Individuals with Disabilities Education Act (20 U.S.C. 1451 et seq.);

(ii) community-based organizations of and for individuals with developmental disabilities and their families;

(iii) entities funded under subchapter I;

(iv) centers for independent living;

(v) State educational agencies and local educational agencies;

(vi) entities operating appropriate medical facilities;

(vii) postsecondary education entities; and

(viii) other appropriate entities; and

(4) such other information as the Secretary may require.

(Pub. L. 106–402, title III, §304, Oct. 30, 2000, 114 Stat. 1735.)

EDITORIAL NOTES

REFERENCES IN TEXT

The Individuals with Disabilities Education Act, referred to in subsec. (b)(3)(C)(i), is title VI of Pub. L. 91–230, Apr. 13, 1970, 84 Stat. 175, as amended. Part D of the Act is classified generally to subchapter IV (§1450 et seq.) of chapter 33 of Title 20, Education. For complete classification of this Act to the Code, see section 1400 of Title 20 and Tables.

§15115. Authorization of appropriations

(a) Scholarships

There are authorized to be appropriated to carry out section 15113 of this title $800,000 for fiscal year 2001 and such sums as may be necessary for each of fiscal years 2002 through 2007.

(b) Staff development curriculum

There are authorized to be appropriated to carry out section 15114 of this title $800,000 for fiscal year 2001 and such sums as may be necessary for each of fiscal years 2002 and 2003.

(Pub. L. 106–402, title III, §305, Oct. 30, 2000, 114 Stat. 1737.)

CHAPTER 145—PUBLIC SAFETY OFFICER MEDAL OF VALOR AND TRIBUTES

Sec.

§15201. Authorization of Medal

After September 1, 2001, the President may award, and present in the name of Congress, a Medal of Valor of appropriate design, with ribbons and appurtenances, to a public safety officer who is cited by the Attorney General, upon the recommendation of the Medal of Valor Review Board, for extraordinary valor above and beyond the call of duty. The Public Safety Medal of Valor shall be the highest national award for valor by a public safety officer.

(Pub. L. 107–12, §2, May 30, 2001, 115 Stat. 20.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

SHORT TITLE

Pub. L. 107–12, §1, May 30, 2001, 115 Stat. 20, provided that: "This Act [enacting this chapter and amending section 2214 of Title 15, Commerce and Trade] may be cited as the 'Public Safety Officer Medal of Valor Act of 2001'."

§15202. Medal of Valor Board

(a) Establishment of Board

There is established a Medal of Valor Review Board (hereinafter in this chapter referred to as the "Board"), which shall be composed of 11 members appointed in accordance with subsection (b) and shall conduct its business in accordance with this chapter.

(b) Membership

(1) Members

The members of the Board shall be individuals with knowledge or expertise, whether by experience or training, in the field of public safety, of which—

(A) two shall be appointed by the majority leader of the Senate;
(B) two shall be appointed by the minority leader of the Senate;
(C) two shall be appointed by the Speaker of the House of Representatives;
(D) two shall be appointed by the minority leader of the House of Representatives; and
(E) three shall be appointed by the President, including one with experience in firefighting, one with experience in law enforcement, and one with experience in emergency services.

(2) Term

The term of a Board member shall be 4 years.

(3) Vacancies

Any vacancy in the membership of the Board shall not affect the powers of the Board and shall be filled in the same manner as the original appointment.

(4) Operation of the Board

(A) Chairman

The Chairman of the Board shall be elected by the members of the Board from among the members of the Board.

(B) Meetings

The Board shall conduct its first meeting not later than 90 days after the appointment of the last member appointed of the initial group of members appointed to the Board. Thereafter, the Board shall meet at the call of the Chairman of the Board. The Board shall meet not less often than twice each year.

(C) Voting and rules

A majority of the members shall constitute a quorum to conduct business, but the Board may establish a lesser quorum for conducting hearings scheduled by the Board. The Board may establish by majority vote any other rules for the conduct of the Board's business, if such rules are not inconsistent with this chapter or other applicable law.

(c) Duties

The Board shall select candidates as recipients of the Medal of Valor from among those applications received by the National Medal of Valor Office. Not more often than once each year, the Board shall present to the Attorney General the name or names of those it recommends as Medal of Valor recipients. In a given year, the Board shall not be required to select any recipients but may not select more than 5 individuals, or groups of individuals, as recipients. The Attorney General may in extraordinary cases increase the number of recipients in a given year. The Board shall set an annual timetable for fulfilling its duties under this chapter.

(d) Hearings

(1) In general

The Board may hold such hearings, sit and act at such times and places, administer such oaths, take such testimony, and receive such evidence as the Board considers advisable to carry out its duties.

(2) Witness expenses

Witnesses requested to appear before the Board may be paid the same fees as are paid to witnesses under section 1821 of title 28. The per diem and mileage allowances for witnesses shall be paid from funds appropriated to the Board.

(e) Information from Federal agencies

The Board may secure directly from any Federal department or agency such information as the Board considers necessary to carry out its duties. Upon the request of the Board, the head of such department or agency may furnish such information to the Board.

(f) Information to be kept confidential

The Board shall not disclose any information which may compromise an ongoing law enforcement investigation or is otherwise required by law to be kept confidential.

(Pub. L. 107–12, §3, May 30, 2001, 115 Stat. 20; Pub. L. 109–162, title XI, §1112, Jan. 5, 2006, 119 Stat. 3103.)

EDITORIAL NOTES

REFERENCES IN TEXT

This chapter, referred to in subsecs. (a), (b)(4)(C), and (c), was in the original "this Act", meaning Pub. L. 107–12, May. 30, 2001, 115 Stat. 20, which enacted this chapter and amended section 2214 of Title 15, Commerce and Trade. For complete classification of this Act to the Code, see Short Title note set out under section 15201 of this title and Tables.

AMENDMENTS

2006—Subsec. (c). Pub. L. 109–162 substituted "more than 5 individuals, or groups of individuals, as recipients" for "more than 5 recipients".

§15203. Board personnel matters

(a) Compensation of members

(1) Except as provided in paragraph (2), each member of the Board shall be compensated at a rate equal to the daily equivalent of the annual rate of basic pay prescribed for level IV of the Executive Schedule under section 5315 of title 5 for each day (including travel time) during which such member is engaged in the performance of the duties of the Board.

(2) All members of the Board who serve as officers or employees of the United States, a State, or a local government, shall serve without compensation in addition to that received for those services.

(b) Travel expenses

The members of the Board shall be allowed travel expenses, including per diem in lieu of subsistence, at rates authorized for employees of agencies under subchapter I of chapter 57 of title 5, while away from their homes or regular places of business in the performance of service for the Board.

(Pub. L. 107–12, §4, May 30, 2001, 115 Stat. 21.)

§15204. Definitions

In this chapter:

(1) Public safety officer

The term "public safety officer" means a person serving a public agency, with or without compensation, as a firefighter, law enforcement officer, or emergency services officer, as determined by the Attorney General. For the purposes of this paragraph, the term "law enforcement officer" includes a person who is a corrections or court officer or a civil defense officer.

(2) State

The term "State" means each of the several States of the United States, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, American Samoa, and the Commonwealth of the Northern Mariana Islands.

(Pub. L. 107–12, §5, May 30, 2001, 115 Stat. 22.)

EDITORIAL NOTES

REFERENCES IN TEXT

This chapter, referred to in introductory provisions, was in the original "this Act", meaning Pub. L. 107–12, May. 30, 2001, 115 Stat. 20, known as the Public Safety Officer Medal of Valor Act of 2001, which is classified principally to this chapter. For complete classification of this Act to the Code, see Short Title note set out under section 15201 of this title and Tables.

§15205. Authorization of appropriations

There are authorized to be appropriated to the Attorney General such sums as may be necessary to carry out this chapter.

(Pub. L. 107–12, §6, May 30, 2001, 115 Stat. 22.)

EDITORIAL NOTES

REFERENCES IN TEXT

This chapter, referred to in text, was in the original "this Act", meaning Pub. L. 107–12, May. 30, 2001, 115 Stat. 20, known as the Public Safety Officer Medal of Valor Act of 2001, which is classified principally to this chapter. For complete classification of this Act to the Code, see Short Title note set out under section 15201 of this title and Tables.

§15206. National Medal of Valor Office

There is established within the Department of Justice a National Medal of Valor Office. The Office shall provide staff support to the Board to establish criteria and procedures for the submission of recommendations of nominees for the Medal of Valor and for the final design of the Medal of Valor.

(Pub. L. 107–12, §7, May 30, 2001, 115 Stat. 22.)

§15207. Consultation requirement

The Board shall consult with the Institute of Heraldry within the Department of Defense regarding the design and artistry of the Medal of Valor. The Board may also consider suggestions received by the Department of Justice regarding the design of the medal, including those made by persons not employed by the Department.

(Pub. L. 107–12, §9, May 30, 2001, 115 Stat. 22.)

§15208. Law enforcement tribute acts

(a) Short title

This section may be cited as the "Law Enforcement Tribute Act".

(b) Findings

Congress finds the following:

(1) The well-being of all citizens of the United States is preserved and enhanced as a direct result of the vigilance and dedication of law enforcement and public safety personnel.

(2) More than 700,000 law enforcement officers, both men and women, at great risk to their personal safety, serve their fellow citizens as guardians of peace.

(3) Nationwide, 51 law enforcement officers were killed in the line of duty in 2000, according to statistics released by the Federal Bureau of Investigation. This number is an increase of 9 from the 1999 total of 42.

(4) In 1999, 112 firefighters died while on duty, an increase of 21 deaths from the previous

year.

(5) Every year, 1 in 9 peace officers is assaulted, 1 in 25 is injured, and 1 in 4,400 is killed in the line of duty.

(6) In addition, recent statistics indicate that 83 officers were accidentally killed in the performance of their duties in 2000, an increase of 18 from the 65 accidental deaths in 1999.

(7) A permanent tribute is a powerful means of honoring the men and women who have served our Nation with distinction. However, many law enforcement and public safety agencies lack the resources to honor their fallen colleagues.

(c) Program authorized

From amounts made available to carry out this section, the Attorney General may make grants to States, units of local government, and Indian tribes to carry out programs to honor, through permanent tributes, men and women of the United States who were killed or disabled while serving as law enforcement or public safety officers.

(d) Uses of funds

Grants awarded under this section shall be distributed directly to the State, unit of local government, or Indian tribe, and shall be used for the purposes specified in subsection (c).

(e) $150,000 limitation

A grant under this section may not exceed $150,000 to any single recipient.

(f) Matching funds

(1) The Federal portion of the costs of a program provided by a grant under this section may not exceed 50 percent.

(2) Any funds appropriated by Congress for the activities of any agency of an Indian tribal government or the Bureau of Indian Affairs performing law enforcement or public safety functions on any Indian lands may be used to provide the non-Federal share of a matching requirement funded under this subsection.

(g) Applications

To request a grant under this section, the chief executive of a State, unit of local government, or Indian tribe shall submit an application to the Attorney General at such time, in such manner, and accompanied by such information as the Attorney General may require.

(h) Annual report to Congress

Not later than November 30 of each year, the Attorney General shall submit a report to the Congress regarding the activities carried out under this section. Each such report shall include, for the preceding fiscal year, the number of grants funded under this section, the amount of funds provided under those grants, and the activities for which those funds were used.

(i) Authorization of appropriations

There are authorized to be appropriated to carry out this section $3,000,000 for each of fiscal years 2002 through 2009.

(Pub. L. 107–273, div. C, title I, §11001, Nov. 2, 2002, 116 Stat. 1815; Pub. L. 109–162, title XI, §1185, Jan. 5, 2006, 119 Stat. 3127.)

EDITORIAL NOTES

CODIFICATION

Section was enacted as the Law Enforcement Tribute Act, and also as part of the 21st Century Department of Justice Appropriations Authorization Act, and not as part of the Public Safety Officer Medal of Valor Act of 2001 which comprises this chapter.

AMENDMENTS

2006—Subsec. (i). Pub. L. 109–162 substituted "2009" for "2006".

CHAPTER 148—WINDSTORM IMPACT REDUCTION

Sec.

§15701. Findings

The Congress finds the following:

(1) Hurricanes, tropical storms, tornadoes, and thunderstorms can cause significant loss of life, injury, destruction of property, and economic and social disruption. All States and regions are vulnerable to these hazards.

(2) The United States currently sustains several billion dollars in economic damages each year due to these windstorms. In recent decades, rapid development and population growth in high-risk areas has greatly increased overall vulnerability to windstorms.

(3) Improved windstorm impact reduction measures have the potential to reduce these losses through—

(A) cost-effective and affordable design and construction methods and practices;

(B) effective mitigation programs at the local, State, and national level;

(C) improved data collection and analysis and impact prediction methodologies;

(D) engineering research on improving new structures and retrofitting existing ones to better withstand windstorms, atmospheric-related research to better understand the behavior and impact of windstorms on the built environment, and subsequent application of those research results; and

(E) public education and outreach.

(4) There is an appropriate role for the Federal Government in supporting windstorm impact reduction. An effective Federal program in windstorm impact reduction will require interagency coordination, and input from individuals, academia, the private sector, and other interested non-Federal entities.

(Pub. L. 108–360, title II, §202, Oct. 25, 2004, 118 Stat. 1675.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

SHORT TITLE OF 2015 AMENDMENT

Pub. L. 114–52, §1, Sept. 30, 2015, 129 Stat. 496, provided that: "This Act [amending sections 15702 to 15704 and 15706 of this title] may be cited as the 'National Windstorm Impact Reduction Act Reauthorization of 2015'."

SHORT TITLE

Pub. L. 108–360, title II, §201, Oct. 25, 2004, 118 Stat. 1675, provided that: "This Act [probably should be 'this title', enacting this chapter and amending section 1885d of this title] may be cited as the 'National Windstorm Impact Reduction Act of 2004'."

§15702. Definitions

In this chapter:

(1) Director

The term "Director" means the Director of the National Institute of Standards and Technology.

(2) Lifelines

The term "lifelines" means public works and utilities, including transportation facilities and infrastructure, oil and gas pipelines, electrical power and communication facilities and infrastructure, and water supply and sewage treatment facilities.

(3) Program

The term "Program" means the National Windstorm Impact Reduction Program established by section 15703(a) of this title.

(4) State

The term "State" means each of the States of the United States, the District of Columbia, the Commonwealth of Puerto Rico, the United States Virgin Islands, Guam, American Samoa, the Commonwealth of the Northern Mariana Islands, and any other territory or possession of the United States.

(5) Windstorm

The term "windstorm" means any storm with a damaging or destructive wind component, such as a hurricane, tropical storm, northeaster, tornado, or thunderstorm.

(Pub. L. 108–360, title II, §203, Oct. 25, 2004, 118 Stat. 1676; Pub. L. 114–52, §2, Sept. 30, 2015, 129 Stat. 496.)

EDITORIAL NOTES

REFERENCES IN TEXT

This chapter, referred to in text, was in the original "this title", meaning title II of Pub. L. 108–360, Oct. 25, 2004, 118 Stat. 1675, which is classified principally to this chapter. For complete classification of title II to the Code, see Short Title note set out under section 15701 of this title and Tables.

AMENDMENTS

2015—Par. (1). Pub. L. 114–52, §2(a), substituted "Director of the National Institute of Standards and Technology" for "Director of the Office of Science and Technology Policy".

Par. (2). Pub. L. 114–52, §2(b)(2), added par. (2). Former par. (2) redesignated (3).

Pars. (3), (4). Pub. L. 114–52, §2(b)(1), redesignated pars. (2) and (3) as (3) and (4), respectively. Former par. (4) redesignated (5).

Par. (5). Pub. L. 114–52, §2(b)(1), (c), redesignated par. (4) as (5) and inserted "northeaster," after "tropical storm,".

§15703. National Windstorm Impact Reduction Program

(a) Establishment

There is established the National Windstorm Impact Reduction Program, the purpose of which is to achieve major measurable reductions in the losses of life and property from windstorms through a coordinated Federal effort, in cooperation with other levels of government, academia, and the private sector, aimed at improving the understanding of windstorms and their impacts and developing and encouraging the implementation of cost-effective mitigation measures to reduce those impacts.

(b) Responsibilities of Program agencies

(1) Lead agency

The National Institute of Standards and Technology shall have the primary responsibility for planning and coordinating the Program. In carrying out this paragraph, the Director shall—

(A) ensure that the Program includes the necessary components to promote the implementation of windstorm risk reduction measures by Federal, State, and local governments, national standards and model building code organizations, architects and engineers, and others with a role in planning and constructing buildings and lifelines;

(B) support the development of performance-based engineering tools, and work with appropriate groups to promote the commercial application of such tools, including through wind-related model building codes, voluntary standards, and construction best practices;

(C) request the assistance of Federal agencies other than the Program agencies, as necessary to assist in carrying out this chapter;

(D) coordinate all Federal post-windstorm investigations to the extent practicable; and

(E) when warranted by research or investigative findings, issue recommendations to assist in informing the development of model codes, and provide information to Congress on the use of such recommendations.

(2) National Institute of Standards and Technology

In addition to the lead agency responsibilities described under paragraph (1), the National Institute of Standards and Technology shall be responsible for carrying out research and development to improve model building codes, voluntary standards, and best practices for the design, construction, and retrofit of buildings, structures, and lifelines.

(3) National Science Foundation

The National Science Foundation shall support research in—

(A) engineering and the atmospheric sciences to improve the understanding of the behavior of windstorms and their impact on buildings, structures, and lifelines; and

(B) economic and social factors influencing windstorm risk reduction measures.

(4) National Oceanic and Atmospheric Administration

The National Oceanic and Atmospheric Administration shall support atmospheric sciences research to improve the understanding of the behavior of windstorms and their impact on buildings, structures, and lifelines.

(5) Federal Emergency Management Agency

The Federal Emergency Management Agency shall—

(A) support—

(i) the development of risk assessment tools and effective mitigation techniques;
(ii) windstorm-related data collection and analysis;
(iii) public outreach and information dissemination; and
(iv) promotion of the adoption of windstorm preparedness and mitigation measures, including for households, businesses, and communities, consistent with the Agency's all-hazards approach; and

(B) work closely with national standards and model building code organizations, in conjunction with the National Institute of Standards and Technology, to promote the implementation of research results and promote better building practices within the building design and construction industry, including architects, engineers, contractors, builders, and inspectors.

(c) Program components

(1) In general

The Program shall consist of three primary mitigation components: improved understanding of windstorms, windstorm impact assessment, and windstorm impact reduction. The components shall be implemented through activities such as data collection and analysis, risk assessment, outreach, technology transfer, and research and development. To the extent practicable, research activities authorized under this chapter shall be peer-reviewed, and the components shall be designed to be complementary to, and avoid duplication of, other public and private hazard reduction efforts.

(2) Understanding of windstorms

Activities to enhance the understanding of windstorms shall include research to improve knowledge of and data collection on the impact of severe wind on buildings, structures, and infrastructure.

(3) Windstorm impact assessment

Activities to improve windstorm impact assessment shall include—

(A) development of mechanisms for collecting and inventorying information on the performance of buildings, structures, and infrastructure in windstorms and improved collection of pertinent information from sources, including the design and construction industry, insurance companies, and building officials;

(B) research, development, and technology transfer to improve loss estimation and risk assessment systems; and

(C) research, development, and technology transfer to improve simulation and computational modeling of windstorm impacts.

(4) Windstorm impact reduction

Activities to reduce windstorm impacts shall include—

(A) development of improved outreach and implementation mechanisms to translate existing information and research findings into cost-effective and affordable practices for design and construction professionals, and State and local officials;

(B) development of cost-effective and affordable windstorm-resistant systems, structures, and materials for use in new construction and retrofit of existing construction; and

(C) outreach and information dissemination related to cost-effective and affordable construction techniques, loss estimation and risk assessment methodologies, and other pertinent information regarding windstorm phenomena to Federal, State, and local officials, the construction industry, and the general public.

(d) Budget activities

The Director of the National Institute of Standards and Technology, the Director of the National Science Foundation, the Director of the National Oceanic and Atmospheric Administration, and the Director of the Federal Emergency Management Agency shall each include in their agency's annual

budget request to Congress a description of their agency's projected activities under the Program for the fiscal year covered by the budget request, along with an assessment of what they plan to spend on those activities for that fiscal year.

(e) Interagency Coordinating Committee on Windstorm Impact Reduction

(1) Establishment

There is established an Interagency Coordinating Committee on Windstorm Impact Reduction, chaired by the Director or the Director's designee.

(2) Membership

In addition to the chair, the Committee shall be composed of—

(A) the heads or such designees of—

(i) the Federal Emergency Management Agency;

(ii) the National Oceanic and Atmospheric Administration;

(iii) the National Science Foundation;

(iv) the Office of Science and Technology Policy; and

(v) the Office of Management and Budget; and

(B) the head of any other Federal agency, or such designee, the chair considers appropriate.

(3) Meetings

The Committee shall meet not less than once a year at the call of the Director of the National Institute of Standards and Technology.

(4) General purpose and duties

The Committee shall oversee the planning and coordination of the Program.

(5) Strategic plan

The Committee shall develop and submit to Congress, not later than 1 year after September 30, 2015, a Strategic Plan for the Program that includes—

(A) prioritized goals for the Program that will mitigate against the loss of life and property from future windstorms;

(B) short-term, mid-term, and long-term research objectives to achieve those goals;

(C) a description of the role of each Program agency in achieving the prioritized goals;

(D) the methods by which progress towards the goals will be assessed; and

(E) an explanation of how the Program will foster the transfer of research results into outcomes, such as improved model building codes.

(6) Progress report

Not later than 18 months after September 30, 2015, the Committee shall submit to the Congress a report on the progress of the Program that includes—

(A) a description of the activities funded under the Program, a description of how these activities align with the prioritized goals and research objectives established in the Strategic Plan, and the budgets, per agency, for these activities;

(B) the outcomes achieved by the Program for each of the goals identified in the Strategic Plan;

(C) a description of any recommendations made to change existing building codes that were the result of Program activities; and

(D) a description of the extent to which the Program has incorporated recommendations from the Advisory Committee on Windstorm Impact Reduction.

(7) Coordinated budget

The Committee shall develop a coordinated budget for the Program, which shall be submitted to the Congress not later than 60 days after the date of the President's budget submission for each fiscal year.

(Pub. L. 108–360, title II, §204, Oct. 25, 2004, 118 Stat. 1676; Pub. L. 114–52, §3, Sept. 30, 2015, 129 Stat. 496.)

EDITORIAL NOTES

REFERENCES IN TEXT

This chapter, referred to in subsec. (b)(1)(C), was in the original "this Act" and was translated as reading "this title", to reflect the probable intent of Congress. See below.

This chapter, referred to in subsec. (c)(1), was in the original "this title", meaning title II of Pub. L. 108–360, Oct. 25, 2004, 118 Stat. 1675, which is classified principally to this chapter. For complete classification of title II to the Code, see Short Title note set out under section 15701 of this title and Tables.

AMENDMENTS

2015—Subsecs. (a), (b). Pub. L. 114–52, §3(1), added subsecs. (a) and (b) and struck out former subsecs. (a) and (b) which related to the establishment and objective of the National Windstorm Impact Reduction Program.

Subsec. (c). Pub. L. 114–52, §3(1), (2), redesignated subsec. (d) as (c) and struck out former subsec. (c) which established an Interagency Working Group.

Subsecs. (d), (e). Pub. L. 114–52, §3(2), (3), added subsecs. (d) and (e), redesignated former subsec. (d) as (c), and struck out former subsec. (e) which required an implementation plan from the Interagency Working Group.

Subsec. (f). Pub. L. 114–52, §3(2), struck out subsec. (f) which required biennial reports on the status of the windstorm impact reduction program.

STATUTORY NOTES AND RELATED SUBSIDIARIES

TRANSFER OF FUNCTIONS

For transfer of all functions, personnel, assets, components, authorities, grant programs, and liabilities of the Federal Emergency Management Agency, including the functions of the Under Secretary for Federal Emergency Management relating thereto, to the Federal Emergency Management Agency, see section 315(a)(1) of Title 6, Domestic Security.

§15704. National Advisory Committee on Windstorm Impact Reduction

(a) In general

The Director of the National Institute of Standards and Technology shall establish an Advisory Committee on Windstorm Impact Reduction, which shall be composed of at least 7 and not more than 15 members who are qualified to provide advice on windstorm impact reduction and represent related scientific, architectural, and engineering disciplines, none of whom may be employees of the Federal Government, including—

(1) representatives of research and academic institutions;
(2) industry standards development organizations;
(3) emergency management agencies;
(4) State and local government; and
(5) business communities, including the insurance industry.

(b) Assessments

The Advisory Committee on Windstorm Impact Reduction shall offer assessments and recommendations on—

(1) trends and developments in the natural, engineering, and social sciences and practices of windstorm impact mitigation;
(2) the priorities of the Program's Strategic Plan;
(3) the coordination of the Program;
(4) the effectiveness of the Program in meeting its purposes; and

(5) any revisions to the Program which may be necessary.

(c) Compensation

The members of the Advisory Committee established under this section shall serve without compensation.

(d) Reports

At least every 2 years, the Advisory Committee shall report to the Director on the assessments carried out under subsection (b) and its recommendations for ways to improve the Program.

(e) Charter

Notwithstanding section 14(b)(2) of the Federal Advisory Committee Act (5 U.S.C. App.), the Advisory Committee shall not be required to file a charter subsequent to its initial charter, filed under section 9(c) of such Act, before the termination date specified in subsection (f) of this section.

(f) Termination

The Advisory Committee shall terminate on September 30, 2017.

(g) Conflict of interest

An Advisory Committee member shall recuse himself from any Advisory Committee activity in which he has an actual pecuniary interest.

(Pub. L. 108–360, title II, §205, Oct. 25, 2004, 118 Stat. 1678; Pub. L. 114–52, §4, Sept. 30, 2015, 129 Stat. 499.)

EDITORIAL NOTES

REFERENCES IN TEXT

Sections 9 and 14 of the Federal Advisory Committee Act, referred to in subsec. (e), are sections 9 and 14, respectively, of Pub. L. 92–463, which are set out in the Appendix to Title 5, Government Organization and Employees.

AMENDMENTS

2015—Pub. L. 114–52 amended section generally. Prior to amendment, section established a National Advisory Committee on Windstorm Impact Reduction.

§15705. Savings clause

Nothing in this chapter supersedes any provision of the National Manufactured Housing Construction and Safety Standards Act of 1974 [42 U.S.C. 5401 et seq.]. No design, construction method, practice, technology, material, mitigation methodology, or hazard reduction measure of any kind developed under this chapter shall be required for a home certified under section 616 of the National Manufactured Housing Construction and Safety Standards Act of 1974 (42 U.S.C. 5415), pursuant to standards issued under such Act, without being subject to the consensus development process and rulemaking procedures of that Act.

(Pub. L. 108–360, title II, §206, Oct. 25, 2004, 118 Stat. 1679.)

For complete classification of title II to the Code, see Short Title note set out under section 15701 of this title and Tables.

The National Manufactured Housing Construction and Safety Standards Act of 1974, referred to in text, is title VI of Pub. L. 93–383, Aug. 22, 1974, 88 Stat. 700, as amended, which is classified generally to chapter 70 (§5401 et seq.) of this title. For complete classification of this Act to the Code, see Short Title note set out

under section 5401 of this title and Tables.

§15706. Authorization of appropriations

(a) Federal Emergency Management Agency

There are authorized to be appropriated to the Federal Emergency Management Agency for carrying out this chapter—

(1) $5,332,000 for fiscal year 2015;
(2) $5,332,000 for fiscal year 2016; and
(3) $5,332,000 for fiscal year 2017.

(b) National Science Foundation

There are authorized to be appropriated to the National Science Foundation for carrying out this chapter—

(1) $9,682,000 for fiscal year 2015;
(2) $9,682,000 for fiscal year 2016; and
(3) $9,682,000 for fiscal year 2017.

(c) National Institute of Standards and Technology

There are authorized to be appropriated to the National Institute of Standards and Technology for carrying out this chapter—

(1) $4,120,000 for fiscal year 2015;
(2) $4,120,000 for fiscal year 2016; and
(3) $4,120,000 for fiscal year 2017.

(d) National Oceanic and Atmospheric Administration

There are authorized to be appropriated to the National Oceanic and Atmospheric Administration for carrying out this chapter—

(1) $2,266,000 for fiscal year 2015;
(2) $2,266,000 for fiscal year 2016; and
(3) $2,266,000 for fiscal year 2017.

(Pub. L. 108–360, title II, §207, Oct. 25, 2004, 118 Stat. 1679; Pub. L. 114–52, §5, Sept. 30, 2015, 129 Stat. 500.)

AMENDMENTS

2015—Pub. L. 114–52 amended section generally. Prior to amendment, section authorized appropriations for fiscal years 2006 to 2008.

STATUTORY NOTES AND RELATED SUBSIDIARIES

TRANSFER OF FUNCTIONS

For transfer of all functions, personnel, assets, components, authorities, grant programs, and liabilities of the Federal Emergency Management Agency, including the functions of the Under Secretary for Federal Emergency Management relating thereto, to the Federal Emergency Management Agency, see section 315(a)(1) of Title 6, Domestic Security.

§15707. Coordination

The Secretary of Commerce, the Director of the National Institute of Standards and Technology, the Director of the Office of Science and Technology Policy and the heads of other Federal departments and agencies carrying out activities under this chapter and the statutes amended by this chapter shall work together to ensure that research, technologies, and response techniques are shared among the programs authorized in this chapter in order to coordinate the Nation's efforts to reduce vulnerability to the hazards described in this chapter.

(Pub. L. 108–360, title II, §209, Oct. 25, 2004, 118 Stat. 1680.)

CHAPTER 149—NATIONAL ENERGY POLICY AND PROGRAMS

Sec.

[1] *So in original.*

§15801. Definitions

Except as otherwise provided, in this Act:

(1) Department

The term "Department" means the Department of Energy.

(2) Institution of higher education

(A) In general

The term "institution of higher education" has the meaning given the term in section 1001(a) of title 20.

(B) Inclusion

The term "institution of higher education" includes an organization that—

(i) is organized, and at all times thereafter operated, exclusively for the benefit of, to perform the functions of, or to carry out the functions of one or more organizations referred to in subparagraph (A); and

(ii) is operated, supervised, or controlled by or in connection with one or more of those organizations.

(3) National Laboratory

The term "National Laboratory" means any of the following laboratories owned by the Department:

(A) Ames Laboratory.
(B) Argonne National Laboratory.
(C) Brookhaven National Laboratory.
(D) Fermi National Accelerator Laboratory.
(E) Idaho National Laboratory.
(F) Lawrence Berkeley National Laboratory.
(G) Lawrence Livermore National Laboratory.
(H) Los Alamos National Laboratory.
(I) National Energy Technology Laboratory.
(J) National Renewable Energy Laboratory.
(K) Oak Ridge National Laboratory.
(L) Pacific Northwest National Laboratory.

(M) Princeton Plasma Physics Laboratory.
(N) Sandia National Laboratories.
(O) Savannah River National Laboratory.
(P) Stanford Linear Accelerator Center.
(Q) Thomas Jefferson National Accelerator Facility.

(4) Secretary

The term "Secretary" means the Secretary of Energy.

(5) Small business concern

The term "small business concern" has the meaning given the term in section 632 of title 15.

(Pub. L. 109–58, §2, Aug. 8, 2005, 119 Stat. 604.)

REFERENCES IN TEXT

This Act, referred to in text, is Pub. L. 109–58, Aug. 8, 2005, 119 Stat. 594, as amended, known as the Energy Policy Act of 2005, which enacted this chapter and enacted, amended, and repealed numerous other sections and notes in the Code. For complete classification of this Act to the Code, see Short Title note below and Tables.

STATUTORY NOTES AND RELATED SUBSIDIARIES

SHORT TITLE OF 2018 AMENDMENT

Pub. L. 115–248, §1, Sept. 28, 2018, 132 Stat. 3154, provided that: "This Act [enacting sections 16278 to 16280 of this title and amending sections 16021, 16271 to 16274, and 16275 to 16277 of this title] may be cited as the 'Nuclear Energy Innovation Capabilities Act of 2017'."

SHORT TITLE OF 2011 AMENDMENT

Pub. L. 111–364, §1, Jan. 4, 2011, 124 Stat. 4056, provided that: "This Act [amending sections 16131 to 16134 and 16137 of this title and enacting provisions set out as a note under section 16131 of this title] may be cited as the 'Diesel Emissions Reduction Act of 2010'."

SHORT TITLE OF 2007 AMENDMENT

Pub. L. 110–69, title V, §5001, Aug. 9, 2007, 121 Stat. 600, provided that: "This title [enacting subchapter XVII of this chapter and sections 7381g to 7381r of this title, amending sections 7381a, 7381d, 7381e, and 16311 of this title, and enacting provisions set out as a note under section 7381g of this title] may be cited as the 'Protecting America's Competitive Edge Through Energy Act' or the 'PACE–Energy Act'."

SHORT TITLE OF 2006 AMENDMENT

Pub. L. 109–375, §1, Dec. 1, 2006, 120 Stat. 2656, provided that: "This Act [amending section 15855 of this title] may be cited as the 'Sierra National Forest Land Exchange Act of 2006'."

SHORT TITLE

Pub. L. 109–58, §1(a), Aug. 8, 2005, 119 Stat. 594, provided that: "This Act [see Tables for classification] may be cited as the 'Energy Policy Act of 2005'."

Pub. L. 109–58, title IV, §431, Aug. 8, 2005, 119 Stat. 760, provided that: "This subtitle [subtitle D (§§431–438) of title IV of Pub. L. 109–58, enacting part C (§15991) of subchapter IV of this chapter, amending sections 201, 202a, 203, and 207 of Title 30, Mineral Lands and Mining, and enacting provisions set out as a note under section 201 of Title 30] may be cited as the 'Coal Leasing Amendments Act of 2005'."

Pub. L. 109–58, title V, §501, Aug. 8, 2005, 119 Stat. 763, provided that: "This title [enacting subchapter V of this chapter, section 7144e of this title, and chapter 37 (§3501 et seq.) of Title 25, Indians, amending section 5315 of Title 5, Government Organization and Employees, and section 4132 of Title 25, and enacting provisions set out as a note under section 3501 of Title 25] may be cited as the 'Indian Tribal Energy Development and Self-Determination Act of 2005'."

Pub. L. 109–58, title VIII, §801, Aug. 8, 2005, 119 Stat. 844, provided that: "This title [enacting subchapter VIII of this chapter] may be cited as the 'Spark M. Matsunaga Hydrogen Act of 2005'."

Pub. L. 109–58, title IX, §901, Aug. 8, 2005, 119 Stat. 856, provided that: "This title [enacting subchapter IX of this chapter, amending sections 8101 and 8102 of Title 7, Agriculture, and section 5523 of Title 15, Commerce and Trade, enacting provisions set out as notes under section 8102 of Title 7 and section 2001 of Title 30, Mineral Lands and Mining, amending provisions set out as notes under section 8101 of Title 7, and section 1902 of Title 30] may be cited as the 'Energy Research, Development, Demonstration, and Commercial Application Act of 2005'."

Pub. L. 109–58, title XII, §1201, Aug. 8, 2005, 119 Stat. 941, provided that: "This title [enacting subchapter XII of this chapter and sections 824j–1 and 824o to 824w of Title 16, Conservation, amending sections 796, 824, 824a–3, 824b, 824e, 824j, 824m, 825e, 825f, 825l to 825o, 825o–1, 2621, 2622, 2625, 2634, and 2642 of Title 16, repealing chapter 2C (§79 et seq.) of Title 15, Commerce and Trade, and sections 824n and 825q of Title 16, and enacting provisions set out as notes under section 16451 of this title and sections 824b, 824o, 824q, and 2642 of Title 16] may be cited as the 'Electricity Modernization Act of 2005'."

Pub. L. 109–58, title XII, §1261, Aug. 8, 2005, 119 Stat. 972, provided that: "This subtitle [subtitle F (§§1261–1277) of title XII of Pub.L. 109–58, enacting part D (§16451 et seq.) of subchapter XII of this chapter, amending sections 824 and 824m of Title 16, Conservation, repealing chapter 2C (§79 et seq.) of Title 15, Commerce and Trade, and section 825q of Title 16, and enacting provisions set out as a note under section 16451 of this title] may be cited as the 'Public Utility Holding Company Act of 2005'."

SUBCHAPTER I—ENERGY EFFICIENCY

PART A—FEDERAL PROGRAMS

§15811. Voluntary commitments to reduce industrial energy intensity

(a) Definition of energy intensity

In this section, the term "energy intensity" means the primary energy consumed for each unit of physical output in an industrial process.

(b) Voluntary agreements

The Secretary may enter into voluntary agreements with one or more persons in industrial sectors that consume significant quantities of primary energy for each unit of physical output to reduce the energy intensity of the production activities of the persons.

(c) Goal

Voluntary agreements under this section shall have as a goal the reduction of energy intensity by not less than 2.5 percent each year during the period of calendar years 2007 through 2016.

(d) Recognition

The Secretary, in cooperation with other appropriate Federal agencies, shall develop mechanisms to recognize and publicize the achievements of participants in voluntary agreements under this section.

(e) Technical assistance

A person that enters into an agreement under this section and continues to make a good faith effort to achieve the energy efficiency goals specified in the agreement shall be eligible to receive from the Secretary a grant or technical assistance, as appropriate, to assist in the achievement of those goals.

(f) Report

Not later than each of June 30, 2012, and June 30, 2017, the Secretary shall submit to Congress a report that—

(1) evaluates the success of the voluntary agreements under this section; and

(2) provides independent verification of a sample of the energy savings estimates provided by

participating firms.

(Pub. L. 109–58, title I, §106, Aug. 8, 2005, 119 Stat. 611.)

§15812. Advanced Building Efficiency Testbed

(a) Establishment

The Secretary, in consultation with the Administrator of General Services, shall establish an Advanced Building Efficiency Testbed program for the development, testing, and demonstration of advanced engineering systems, components, and materials to enable innovations in building technologies. The program shall evaluate efficiency concepts for government and industry buildings, and demonstrate the ability of next generation buildings to support individual and organizational productivity and health (including by improving indoor air quality) as well as flexibility and technological change to improve environmental sustainability. Such program shall complement and not duplicate existing national programs.

(b) Participants

The program established under subsection (a) shall be led by a university with the ability to combine the expertise from numerous academic fields including, at a minimum, intelligent workplaces and advanced building systems and engineering, electrical and computer engineering, computer science, architecture, urban design, and environmental and mechanical engineering. Such university shall partner with other universities and entities who have established programs and the capability of advancing innovative building efficiency technologies.

(c) Authorization of appropriations

There are authorized to be appropriated to the Secretary to carry out this section $6,000,000 for each of the fiscal years 2006 through 2008, to remain available until expended. For any fiscal year in which funds are expended under this section, the Secretary shall provide one-third of the total amount to the lead university described in subsection (b), and provide the remaining two-thirds to the other participants referred to in subsection (b) on an equal basis.

(Pub. L. 109–58, title I, §107, Aug. 8, 2005, 119 Stat. 612.)

§15813. Enhancing energy efficiency in management of Federal lands

(a) Sense of the Congress

It is the sense of the Congress that Federal agencies should enhance the use of energy efficient technologies in the management of natural resources.

(b) Energy efficient buildings

To the extent practicable, the Secretary of the Interior, the Secretary of Commerce, and the Secretary of Agriculture shall seek to incorporate energy efficient technologies in public and administrative buildings associated with management of the National Park System, National Wildlife Refuge System, National Forest System, National Marine Sanctuaries System, and other public lands and resources managed by the Secretaries.

(c) Energy efficient vehicles

To the extent practicable, the Secretary of the Interior, the Secretary of Commerce, and the Secretary of Agriculture shall seek to use energy efficient motor vehicles, including vehicles equipped with biodiesel or hybrid engine technologies, in the management of the National Park System, National Wildlife Refuge System, National Forest System, National Marine Sanctuaries System, and other public lands and resources managed by the Secretaries.

(Pub. L. 109–58, title I, §111, Aug. 8, 2005, 119 Stat. 615.)

PART B—ENERGY ASSISTANCE AND STATE PROGRAMS

§15821. Energy efficient appliance rebate programs

(a) Definitions

In this section:

(1) Eligible State

The term "eligible State" means a State that meets the requirements of subsection (b).

(2) Energy Star program

The term "Energy Star program" means the program established by section 6294a of this title.

(3) Residential Energy Star product

The term "residential Energy Star product" means a product for a residence that is rated for energy efficiency under the Energy Star program.

(4) State energy office

The term "State energy office" means the State agency responsible for developing State energy conservation plans under section 6322 of this title.

(5) State program

The term "State program" means a State energy efficient appliance rebate program described in subsection (b)(1).

(b) Eligible States

A State shall be eligible to receive an allocation under subsection (c) if the State—

(1) establishes (or has established) a State energy efficient appliance rebate program to provide rebates to residential consumers for the purchase of residential Energy Star products, or products with improved energy efficiency in cold climates, to replace used appliances of the same type;

(2) submits an application for the allocation at such time, in such form, and containing such information as the Secretary may require; and

(3) provides assurances satisfactory to the Secretary that the State will use the allocation to supplement, but not supplant, funds made available to carry out the State program.

(c) Amount of allocations

(1) In general

Subject to paragraph (2), for each fiscal year, the Secretary shall allocate to the State energy office of each eligible State to carry out subsection (d) an amount equal to the product obtained by multiplying the amount made available under subsection (f) for the fiscal year by the ratio that the population of the State in the most recent calendar year for which data are available bears to the total population of all eligible States in that calendar year.

(2) Minimum allocations

For each fiscal year, the amounts allocated under this subsection shall be adjusted proportionately so that no eligible State is allocated a sum that is less than an amount determined by the Secretary.

(d) Use of allocated funds

The allocation to a State energy office under subsection (c) may be used to pay up to 50 percent of the cost of establishing and carrying out a State program.

(e) Issuance of rebates

Rebates may be provided to residential consumers that meet the requirements of the State program. The amount of a rebate shall be determined by the State energy office, taking into

consideration—

(1) the amount of the allocation to the State energy office under subsection (c);

(2) the amount of any Federal or State tax incentive available for the purchase of the residential Energy Star product or product with improved energy efficiency in a cold climate; and

(3) the difference between the cost of the residential Energy Star product or product with improved energy efficiency in a cold climate and the cost of an appliance that is not a residential Energy Star product or product with improved energy efficiency in a cold climate, but is of the same type as, and is the nearest capacity, performance, and other relevant characteristics (as determined by the State energy office) to, the residential Energy Star product or product with improved energy efficiency in a cold climate.

(f) Authorization of appropriations

There are authorized to be appropriated to the Secretary to carry out this section $50,000,000 for each of the fiscal years 2006 through 2010.

(Pub. L. 109–58, title I, §124, Aug. 8, 2005, 119 Stat. 617; Pub. L. 110–140, title III, §315(b), Dec. 19, 2007, 121 Stat. 1572.)

EDITORIAL NOTES

AMENDMENTS

2007—Subsec. (b)(1). Pub. L. 110–140, §315(b)(1), inserted ", or products with improved energy efficiency in cold climates," after "residential Energy Star products".

Subsec. (e)(2), (3). Pub. L. 110–140, §315(b)(2), inserted "or product with improved energy efficiency in a cold climate" after "residential Energy Star product" wherever appearing.

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE OF 2007 AMENDMENT

Amendment by Pub. L. 110–140 effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as an Effective Date note under section 1824 of Title 2, The Congress.

§15822. Energy efficient public buildings

(a) Grants

The Secretary may make grants to the State agency responsible for developing State energy conservation plans under section 6322 of this title, or, if no such agency exists, a State agency designated by the Governor of the State, to assist units of local government in the State in improving the energy efficiency of public buildings and facilities—

(1) through construction of new energy efficient public buildings that use at least 30 percent less energy than a comparable public building constructed in compliance with standards prescribed in the most recent version of the International Energy Conservation Code, or a similar State code intended to achieve substantially equivalent efficiency levels; or

(2) through renovation of existing public buildings to achieve reductions in energy use of at least 30 percent as compared to the baseline energy use in such buildings prior to renovation, assuming a 3-year, weather-normalized average for calculating such baseline.

(b) Administration

State energy offices receiving grants under this section shall—

(1) maintain such records and evidence of compliance as the Secretary may require; and

(2) develop and distribute information and materials and conduct programs to provide technical services and assistance to encourage planning, financing, and design of energy efficient public buildings by units of local government.

(c) Authorization of appropriations

For the purposes of this section, there are authorized to be appropriated to the Secretary $30,000,000 for each of fiscal years 2006 through 2010. Not more than 10 percent of appropriated funds shall be used for administration.

(Pub. L. 109–58, title I, §125, Aug. 8, 2005, 119 Stat. 618.)

§15823. Low income community energy efficiency pilot program

(a) Grants

The Secretary is authorized to make grants to units of local government, private, non-profit community development organizations, and Indian tribe economic development entities to improve energy efficiency; identify and develop alternative, renewable, and distributed energy supplies; and increase energy conservation in low income rural and urban communities.

(b) Purpose of grants

The Secretary may make grants on a competitive basis for—

(1) investments that develop alternative, renewable, and distributed energy supplies;

(2) energy efficiency projects and energy conservation programs;

(3) studies and other activities that improve energy efficiency in low income rural and urban communities;

(4) planning and development assistance for increasing the energy efficiency of buildings and facilities; and

(5) technical and financial assistance to local government and private entities on developing new renewable and distributed sources of power or combined heat and power generation.

(c) Definition

For purposes of this section, the term "Indian tribe" means any Indian tribe, band, nation, or other organized group or community, including any Alaskan Native village or regional or village corporation as defined in or established pursuant to the Alaska Native Claims Settlement Act (43 U.S.C. 1601 et seq.), that is recognized as eligible for the special programs and services provided by the United States to Indians because of their status as Indians.

(d) Authorization of appropriations

For the purposes of this section there are authorized to be appropriated to the Secretary $20,000,000 for each of fiscal years 2006 through 2008.

(Pub. L. 109–58, title I, §126, Aug. 8, 2005, 119 Stat. 618.)

EDITORIAL NOTES

REFERENCES IN TEXT

The Alaska Native Claims Settlement Act, referred to in subsec. (c), is Pub. L. 92–203, Dec. 18, 1971, 85 Stat. 688, as amended, which is classified generally to chapter 33 (§1601 et seq.) of Title 43, Public Lands. For complete classification of this Act to the Code, see Short Title note set out under section 1601 of Title 43 and Tables.

§15824. State Technologies Advancement Collaborative

(a) In general

The Secretary, in cooperation with the States, shall establish a cooperative program for research, development, demonstration, and deployment of technologies in which there is a common Federal and State energy efficiency, renewable energy, and fossil energy interest, to be known as the "State Technologies Advancement Collaborative" (referred to in this section as the "Collaborative").

(b) Duties

The Collaborative shall—

(1) leverage Federal and State funding through cost-shared activity;

(2) reduce redundancies in Federal and State funding; and

(3) create multistate projects to be awarded through a competitive process.

(c) Administration

The Collaborative shall be administered through an agreement between the Department and appropriate State-based organizations.

(d) Funding sources

Funding for the Collaborative may be provided from—

(1) amounts specifically appropriated for the Collaborative; or

(2) amounts that may be allocated from other appropriations without changing the purpose for which the amounts are appropriated.

(e) Authorization of appropriations

There are authorized to carry out this section such sums as are necessary for each of fiscal years 2006 through 2010.

(Pub. L. 109–58, title I, §127, Aug. 8, 2005, 119 Stat. 619.)

PART C—ENERGY EFFICIENT PRODUCTS

§15831. Public energy education program

(a) In general

Not later than 180 days after August 8, 2005, the Secretary shall convene an organizational conference for the purpose of establishing an ongoing, self-sustaining national public energy education program.

(b) Participants

The Secretary shall invite to participate in the conference individuals and entities representing all aspects of energy production and distribution, including—

(1) industrial firms;

(2) professional societies;

(3) educational organizations;

(4) trade associations; and

(5) governmental agencies.

(c) Purpose, scope, and structure

(1) Purpose

The purpose of the conference shall be to establish an ongoing, self-sustaining national public energy education program to examine and recognize interrelationships between energy sources in all forms, including—

(A) conservation and energy efficiency;

(B) the role of energy use in the economy; and

(C) the impact of energy use on the environment.

(2) Scope and structure

Taking into consideration the purpose described in paragraph (1), the participants in the conference invited under subsection (b) shall design the scope and structure of the program described in subsection (a).

(d) Technical assistance

The Secretary shall provide technical assistance and other guidance necessary to carry out the program described in subsection (a).

(e) Authorization of appropriations

There are authorized to be appropriated such sums as are necessary to carry out this section.

(Pub. L. 109–58, title I, §133, Aug. 8, 2005, 119 Stat. 622.)

§15832. Energy efficiency public information initiative

(a) In general

The Secretary shall carry out a comprehensive national program, including advertising and media awareness, to inform consumers about—

(1) the need to reduce energy consumption during the 4-year period beginning on August 8, 2005;

(2) the benefits to consumers of reducing consumption of electricity, natural gas, and petroleum, particularly during peak use periods;

(3) the importance of low energy costs to economic growth and preserving manufacturing jobs in the United States; and

(4) practical, cost-effective measures that consumers can take to reduce consumption of electricity, natural gas, and gasoline, including—

(A) maintaining and repairing heating and cooling ducts and equipment;

(B) weatherizing homes and buildings;

(C) purchasing energy efficient products; and

(D) proper tire maintenance.

(b) Cooperation

The program carried out under subsection (a) shall—

(1) include collaborative efforts with State and local government officials and the private sector; and

(2) incorporate, to the maximum extent practicable, successful State and local public education programs.

(c) Report

Not later than July 1, 2009, the Secretary shall submit to Congress a report describing the effectiveness of the program under this section.

(d) Termination of authority

The program carried out under this section shall terminate on December 31, 2010.

(e) Authorization of appropriations

There are authorized to be appropriated to carry out this section $90,000,000 for each of fiscal years 2006 through 2010.

(Pub. L. 109–58, title I, §134, Aug. 8, 2005, 119 Stat. 623.)

§15833. Energy efficiency pilot program

(a) In general

The Secretary shall establish a pilot program under which the Secretary provides financial assistance to at least 3, but not more than 7, States to carry out pilot projects in the States for—

(1) planning and adopting statewide programs that encourage, for each year in which the pilot project is carried out—

(A) energy efficiency; and

(B) reduction of consumption of electricity or natural gas in the State by at least 0.75 percent,

as compared to a baseline determined by the Secretary for the period preceding the implementation of the program; or

(2) for any State that has adopted a statewide program as of August 8, 2005, activities that reduce energy consumption in the State by expanding and improving the program.

(b) Verification

A State that receives financial assistance under subsection (a)(1) shall submit to the Secretary independent verification of any energy savings achieved through the statewide program.

(c) Authorization of appropriations

There is authorized to be appropriated to carry out this section $5,000,000 for each of fiscal years 2006 through 2010, to remain available until expended.

(Pub. L. 109–58, title I, §140, Aug. 8, 2005, 119 Stat. 647.)

§15834. Report on failure to comply with deadlines for new or revised energy conservation standards

(a) Initial report

The Secretary shall submit a report to Congress regarding each new or revised energy conservation or water use standard which the Secretary has failed to issue in conformance with the deadlines established in the Energy Policy and Conservation Act [42 U.S.C. 6201 et seq.]. Such report shall state the reasons why the Secretary has failed to comply with the deadline for issuances of the new or revised standard and set forth the Secretary's plan for expeditiously prescribing such new or revised standard. The Secretary's initial report shall be submitted not later than 6 months following August 8, 2005, and subsequent reports shall be submitted whenever the Secretary determines that additional deadlines for issuance of new or revised standards have been missed.

(b) Implementation report

Every 6 months following the submission of a report under subsection (a) until the adoption of a new or revised standard described in such report, the Secretary shall submit to the Congress an implementation report describing the Secretary's progress in implementing the Secretary's plan or the issuance of the new or revised standard.

(Pub. L. 109–58, title I, §141, Aug. 8, 2005, 119 Stat. 648.)

EDITORIAL NOTES

REFERENCES IN TEXT

The Energy Policy and Conservation Act, referred to in subsec. (a), is Pub. L. 94–163, Dec. 22, 1975, 89 Stat. 871, as amended, which is classified principally to chapter 77 (§6201 et seq.) of this title. For complete classification of this Act to the Code, see Short Title note set out under section 6201 of this title and Tables.

PART D—PUBLIC HOUSING

§15841. Energy-efficient appliances

In purchasing appliances, a public housing agency shall purchase energy-efficient appliances that are Energy Star products or FEMP-designated products, as such terms are defined in section 8259b of this title, unless the purchase of energy-efficient appliances is not cost-effective to the agency.

(Pub. L. 109–58, title I, §152, Aug. 8, 2005, 119 Stat. 649.)

§15842. Energy strategy for HUD

The Secretary of Housing and Urban Development shall develop and implement an integrated strategy to reduce utility expenses through cost-effective energy conservation and efficiency measures and energy efficient design and construction of public and assisted housing. The energy strategy shall include the development of energy reduction goals and incentives for public housing agencies. The Secretary shall submit a report to Congress, not later than 1 year after August 8, 2005, on the energy strategy and the actions taken by the Department of Housing and Urban Development to monitor the energy usage of public housing agencies and shall submit an update every 2 years thereafter on progress in implementing the strategy.

(Pub. L. 109–58, title I, §154, Aug. 8, 2005, 119 Stat. 650.)

SUBCHAPTER II—RENEWABLE ENERGY

PART A—GENERAL PROVISIONS

§15851. Assessment of renewable energy resources

(a) Resource assessment

Not later than 6 months after August 8, 2005, and each year thereafter, the Secretary shall review the available assessments of renewable energy resources within the United States, including solar, wind, biomass, marine, geothermal, and hydroelectric energy resources, and undertake new assessments as necessary, taking into account changes in market conditions, available technologies, and other relevant factors.

(b) Contents of reports

Not later than 1 year after August 8, 2005, and each year thereafter, the Secretary shall publish a report based on the assessment under subsection (a). The report shall contain—

(1) a detailed inventory describing the available amount and characteristics of the renewable energy resources; and

(2) such other information as the Secretary believes would be useful in developing such renewable energy resources, including descriptions of surrounding terrain, population and load centers, nearby energy infrastructure, location of energy and water resources, and available estimates of the costs needed to develop each resource, together with an identification of any barriers to providing adequate transmission for remote sources of renewable energy resources to current and emerging markets, recommendations for removing or addressing such barriers, and ways to provide access to the grid that do not unfairly disadvantage renewable or other energy producers.

(c) Authorization of appropriations

For the purposes of this section, there are authorized to be appropriated to the Secretary $10,000,000 for each of fiscal years 2006 through 2010.

(Pub. L. 109–58, title II, §201, Aug. 8, 2005, 119 Stat. 650; Pub. L. 116–260, div. Z, title III, §3006(b)(1), Dec. 27, 2020, 134 Stat. 2512.)

EDITORIAL NOTES

AMENDMENTS

2020—Subsec. (a). Pub. L. 116–260 substituted "marine" for "ocean (including tidal, wave, current, and thermal)".

§15852. Federal purchase requirement

(a) Requirement

The President, acting through the Secretary, shall seek to ensure that, to the extent economically feasible and technically practicable, of the total amount of electric energy the Federal Government consumes during any fiscal year, the following amounts shall be renewable energy:

(1) Not less than 3 percent in fiscal years 2007 through 2009.

(2) Not less than 5 percent in fiscal years 2010 through 2012.

(3) Not less than 7.5 percent in fiscal year 2013 and each fiscal year thereafter.

(b) Definitions

In this section:

(1) Biomass

The term "biomass" means any lignin waste material that is segregated from other waste materials and is determined to be nonhazardous by the Administrator of the Environmental Protection Agency and any solid, nonhazardous, cellulosic material that is derived from—

(A) any of the following forest-related resources: mill residues, precommercial thinnings, slash, and brush, or nonmerchantable material;

(B) solid wood waste materials, including waste pallets, crates, dunnage, manufacturing and construction wood wastes (other than pressure-treated, chemically-treated, or painted wood wastes), and landscape or right-of-way tree trimmings, but not including municipal solid waste (garbage), gas derived from the biodegradation of solid waste, or paper that is commonly recycled;

(C) agriculture wastes, including orchard tree crops, vineyard, grain, legumes, sugar, and other crop by-products or residues, and livestock waste nutrients; or

(D) a plant that is grown exclusively as a fuel for the production of electricity.

(2) Renewable energy

The term "renewable energy" means marine energy (as defined in section 17211 of this title), or electric energy produced from solar, wind, biomass, landfill gas, geothermal, municipal solid waste, or new hydroelectric generation capacity achieved from increased efficiency or additions of new capacity at an existing hydroelectric project.

(c) Calculation

(1) In general

For purposes of determining compliance with the requirement of this section, the amount of renewable energy shall be doubled if—

(A) the renewable energy is produced and used on-site at a Federal facility;

(B) the renewable energy is produced on Federal lands and used at a Federal facility; or

(C) the renewable energy is produced on Indian land as defined in title XXVI of the Energy Policy Act of 1992 (25 U.S.C. 3501 et seq.) and used at a Federal facility.

(2) Separate calculation

(A) In general

For purposes of determining compliance with the requirement of this section, any energy consumption that is avoided through the use of geothermal energy shall be considered to be renewable energy produced.

(B) Efficiency accounting

Energy consumption that is avoided through the use of geothermal energy that is considered

to be renewable energy under this section shall not be considered energy efficiency for the purpose of compliance with Federal energy efficiency goals, targets, and incentives.

(d) Report

Not later than April 15, 2007, and every 2 years thereafter, the Secretary shall provide a report to Congress on the progress of the Federal Government in meeting the goals established by this section.

(Pub. L. 109–58, title II, §203, Aug. 8, 2005, 119 Stat. 652; Pub. L. 116–260, div. Z, title III, §§3002(o), 3006(b)(2), Dec. 27, 2020, 134 Stat. 2497, 2512.)

EDITORIAL NOTES

REFERENCES IN TEXT

The Energy Policy Act of 1992, referred to in subsec. (c)(1)(C), is Pub. L. 102–486, Oct. 24, 1992, 106 Stat. 2776. Title XXVI of the Act is classified generally to chapter 37 (§3501 et seq.) of Title 25, Indians. For complete classification of this Act to the Code, see Short Title note set out under section 13201 of this title and Tables.

AMENDMENTS

2020—Subsec. (b)(2). Pub. L. 116–260, §3006(b)(2), inserted "marine energy (as defined in section 17202 of this title), or" before "electric energy" and struck out "ocean (including tidal, wave, current, and thermal)," before "geothermal".

Pub. L. 116–260, §3002(o)(1), substituted "produced" for "generated".

Subsec. (c). Pub. L. 116–260, §3002(o)(2), designated existing provisions as par. (1) and inserted heading, redesignated former pars. (1) to (3) as subpars. (A) to (C), respectively, of par. (1), and added par. (2).

EXECUTIVE DOCUMENTS

FEDERAL LEADERSHIP ON ENERGY MANAGEMENT

Memorandum of President of the United States, Dec. 5, 2013, 78 F.R. 75209, which set a renewable energy target and building performance and energy management requirements for Federal agencies, was revoked by Ex. Ord. No. 13693, §16(b), Mar. 19, 2015, 80 F.R. 15880, formerly set out in a note under section 4321 of this title.

§15853. Rebate program

(1) Establishment

The Secretary shall establish a program providing rebates for consumers for expenditures made for the installation of a renewable energy system in connection with a dwelling unit or small business.

(2) Amount of rebate

Rebates provided under the program established under paragraph (1) shall be in an amount not to exceed the lesser of—

(A) 25 percent of the expenditures described in paragraph (1) made by the consumer; or

(B) $3,000.

(3) Definition

For purposes of this section, the term "renewable energy system" has the meaning given that term in section 6865(c)(6)(A) of this title.

(4) Authorization of appropriations

There are authorized to be appropriated to the Secretary for carrying out this section, to remain available until expended—

(A) $150,000,000 for fiscal year 2006;

(B) $150,000,000 for fiscal year 2007;

(C) $200,000,000 for fiscal year 2008;

(D) $250,000,000 for fiscal year 2009; and
(E) $250,000,000 for fiscal year 2010.

(Pub. L. 109–58, title II, §206(c), Aug. 8, 2005, 119 Stat. 655.)

§15854. Sugar Cane Ethanol Program

(a) Definition of program

In this section, the term "program" means the Sugar Cane Ethanol Program established by subsection (b).

(b) Establishment

There is established within the Environmental Protection Agency a program to be known as the "Sugar Cane Ethanol Program".

(c) Project

(1) In general

Subject to the availability of appropriations under subsection (d), in carrying out the program, the Administrator of the Environmental Protection Agency shall establish a project that is—

(A) carried out in multiple States—

(i) in each of which is produced cane sugar that is eligible for loans under section 7272 of title 7, or a similar subsequent authority; and

(ii) at the option of each such State, that have an incentive program that requires the use of ethanol in the State; and

(B) designed to study the production of ethanol from cane sugar, sugarcane, and sugarcane byproducts.

(2) Requirements

A project described in paragraph (1) shall—

(A) be limited to sugar producers and the production of ethanol in the States of Florida, Louisiana, Texas, and Hawaii, divided equally among the States, to demonstrate that the process may be applicable to cane sugar, sugarcane, and sugarcane byproducts;

(B) include information on the ways in which the scale of production may be replicated once the sugar cane industry has located sites for, and constructed, ethanol production facilities; and

(C) not last more than 3 years.

(d) Authorization of appropriations

There is authorized to be appropriated to carry out this section $36,000,000, to remain available until expended.

(Pub. L. 109–58, title II, §208, Aug. 8, 2005, 119 Stat. 656.)

§15855. Grants to improve the commercial value of forest biomass for electric energy, useful heat, transportation fuels, and other commercial purposes

(a) Definitions

In this section:

(1) Biomass

The term "biomass" means nonmerchantable materials or precommercial thinnings that are byproducts of preventive treatments, such as trees, wood, brush, thinnings, chips, and slash, that are removed—

(A) to reduce hazardous fuels;

(B) to reduce or contain disease or insect infestation; or
(C) to restore forest health.

(2) Indian tribe

The term "Indian tribe" has the meaning given the term in section 5304(e) of title 25.

(3) Nonmerchantable

For purposes of subsection (b), the term "nonmerchantable" means that portion of the byproducts of preventive treatments that would not otherwise be used for higher value products.

(4) Person

The term "person" includes—
(A) an individual;
(B) a community (as determined by the Secretary concerned);
(C) an Indian tribe;
(D) a small business or a corporation that is incorporated in the United States; and
(E) a nonprofit organization.

(5) Preferred community

The term "preferred community" means—
(A) any Indian tribe;
(B) any town, township, municipality, or other similar unit of local government (as determined by the Secretary concerned) that—
(i) has a population of not more than 50,000 individuals; and
(ii) the Secretary concerned, in the sole discretion of the Secretary concerned, determines contains or is located near Federal or Indian land, the condition of which is at significant risk of catastrophic wildfire, disease, or insect infestation or which suffers from disease or insect infestation; or

(C) any county that—
(i) is not contained within a metropolitan statistical area; and
(ii) the Secretary concerned, in the sole discretion of the Secretary concerned, determines contains or is located near Federal or Indian land, the condition of which is at significant risk of catastrophic wildfire, disease, or insect infestation or which suffers from disease or insect infestation.

(6) Secretary concerned

The term "Secretary concerned" means the Secretary of Agriculture or the Secretary of the Interior.

(b) Biomass commercial use grant program

(1) In general

The Secretary concerned may make grants to any person in a preferred community that owns or operates a facility that uses biomass as a raw material to produce electric energy, sensible heat, or transportation fuels to offset the costs incurred to purchase biomass for use by such facility.

(2) Grant amounts

A grant under this subsection may not exceed $20 per green ton of biomass delivered.

(3) Monitoring of grant recipient activities

As a condition of a grant under this subsection, the grant recipient shall keep such records as the Secretary concerned may require to fully and correctly disclose the use of the grant funds and all transactions involved in the purchase of biomass. Upon notice by a representative of the Secretary concerned, the grant recipient shall afford the representative reasonable access to the facility that purchases or uses biomass and an opportunity to examine the inventory and records of the facility.

(c) Improved biomass use grant program

(1) In general

The Secretary concerned may make grants to persons to offset the cost of projects to develop or research opportunities to improve the use of, or add value to, biomass. In making such grants, the Secretary concerned shall give preference to persons in preferred communities.

(2) Selection

The Secretary concerned shall select a grant recipient under paragraph (1) after giving consideration to—

(A) the anticipated public benefits of the project, including the potential to develop thermal or electric energy resources or affordable energy;

(B) opportunities for the creation or expansion of small businesses and micro-businesses;

(C) the potential for new job creation;

(D) the potential for the project to improve efficiency or develop cleaner technologies for biomass utilization; and

(E) the potential for the project to reduce the hazardous fuels from the areas in greatest need of treatment.

(3) Grant amount

A grant under this subsection may not exceed $500,000.

(d) Authorization of appropriations

There are authorized to be appropriated $50,000,000 for fiscal year 2006 and $35,000,000 for each of fiscal years 2007 through 2016 to carry out this section.

(e) Report

Not later than October 1, 2010, the Secretary of Agriculture, in consultation with the Secretary of the Interior, shall submit to the Committee on Energy and Natural Resources and the Committee on Agriculture, Nutrition, and Forestry of the Senate, and the Committee on Resources, the Committee on Energy and Commerce, and the Committee on Agriculture of the House of Representatives, a report describing the results of the grant programs authorized by this section. The report shall include the following:

(1) An identification of the size, type, and use of biomass by persons that receive grants under this section.

(2) The distance between the land from which the biomass was removed and the facility that used the biomass.

(3) The economic impacts, particularly new job creation, resulting from the grants to and operation of the eligible operations.

(Pub. L. 109–58, title II, §210, Aug. 8, 2005, 119 Stat. 658; Pub. L. 109–375, §6, Dec. 1, 2006, 120 Stat. 2658.)

EDITORIAL NOTES

AMENDMENTS

2006—Subsec. (d). Pub. L. 109–375 substituted "$50,000,000 for fiscal year 2006 and $35,000,000 for each of fiscal years 2007 through 2016" for "$50,000,000 for each of the fiscal years 2006 through 2016".

STATUTORY NOTES AND RELATED SUBSIDIARIES

CHANGE OF NAME

Committee on Resources of House of Representatives changed to Committee on Natural Resources of House of Representatives by House Resolution No. 6, One Hundred Tenth Congress, Jan. 5, 2007.

PART B—GEOTHERMAL ENERGY

§15871. Coordination of geothermal leasing and permitting on Federal lands

(a) In general

Not later than 180 days after August 8, 2005, the Secretary of the Interior and the Secretary of Agriculture shall enter into and submit to Congress a memorandum of understanding in accordance with this section, the Geothermal Steam Act of 1970 (as amended by this Act) [30 U.S.C. 1001 et seq.], and other applicable laws, regarding coordination of leasing and permitting for geothermal development of public lands and National Forest System lands under their respective jurisdictions.

(b) Lease and permit applications

The memorandum of understanding shall—

(1) establish an administrative procedure for processing geothermal lease applications, including lines of authority, steps in application processing, and time limits for application procession;

(2) establish a 5-year program for geothermal leasing of lands in the National Forest System, and a process for updating that program every 5 years; and

(3) establish a program for reducing the backlog of geothermal lease application pending on January 1, 2005, by 90 percent within the 5-year period beginning on August 8, 2005, including, as necessary, by issuing leases, rejecting lease applications for failure to comply with the provisions of the regulations under which they were filed, or determining that an original applicant (or the applicant's assigns, heirs, or estate) is no longer interested in pursuing the lease application.

(c) Data retrieval system

The memorandum of understanding shall establish a joint data retrieval system that is capable of tracking lease and permit applications and providing to the applicant information as to their status within the Departments of the Interior and Agriculture, including an estimate of the time required for administrative action.

(Pub. L. 109–58, title II, §225, Aug. 8, 2005, 119 Stat. 665.)

EDITORIAL NOTES

REFERENCES IN TEXT

The Geothermal Steam Act of 1970, referred to in subsec. (a), is Pub. L. 91–581, Dec. 24, 1970, 84 Stat. 1566, as amended, which is classified principally to chapter 23 (§1001 et seq.) of Title 30, Mineral Lands and Mining. For complete classification of this Act to the Code, see Short Title note set out under section 1001 of Title 30 and Tables.

This Act, referred to in subsec. (a), is Pub. L. 109–58, Aug. 8, 2005, 119 Stat. 594, as amended, known as the Energy Policy Act of 2005, which enacted this chapter and enacted, amended, and repealed numerous other sections and notes in the Code. For complete classification of this Act to the Code, see Short Title note set out under section 15801 of this title and Tables.

§15872. Assessment of geothermal energy potential

Not later than 3 years after August 8, 2005, and thereafter as the availability of data and developments in technology warrants, the Secretary of the Interior, acting through the Director of the United States Geological Survey and in cooperation with the States, shall—

(1) update the Assessment of Geothermal Resources made during 1978; and

(2) submit to Congress the updated assessment.

(Pub. L. 109–58, title II, §226, Aug. 8, 2005, 119 Stat. 665.)

§15873. Deposit and use of geothermal lease revenues for 5 fiscal years

(a) Deposit of geothermal resources leases

Notwithstanding any other provision of law, amounts received by the United States in the first 5 fiscal years beginning after August 8, 2005, as rentals, royalties, and other payments required under leases under the Geothermal Steam Act of 1970 [30 U.S.C. 1001 et seq.], excluding funds required to be paid to State and county governments, shall be deposited into a separate account in the Treasury.

(b) Use of deposits

Amounts deposited under subsection (a) shall be available to the Secretary of the Interior for expenditure, without further appropriation and without fiscal year limitation, to implement the Geothermal Steam Act of 1970 [30 U.S.C. 1001 et seq.] and this Act.

(c) Transfer of funds

For the purposes of coordination and processing of geothermal leases and geothermal use authorizations on Federal land the Secretary of the Interior may authorize the expenditure or transfer of such funds as are necessary to the Forest Service.

(Pub. L. 109–58, title II, §234, Aug. 8, 2005, 119 Stat. 671.)

§15874. Intermountain West Geothermal Consortium

(a) Participation authorized

The Secretary, acting through the Idaho National Laboratory, may participate in a consortium described in subsection (b) to address science and science policy issues surrounding the expanded discovery and use of geothermal energy, including from geothermal resources on public lands.

(b) Members

The consortium referred to in subsection (a) shall—

(1) be known as the "Intermountain West Geothermal Consortium";

(2) be a regional consortium of institutions and government agencies that focuses on building collaborative efforts among the universities in the State of Idaho, other regional universities, State agencies, and the Idaho National Laboratory;

(3) include Boise State University, the University of Idaho (including the Idaho Water Resources Research Institute), the Oregon Institute of Technology, the Desert Research Institute with the University and Community College System of Nevada, and the Energy and Geoscience Institute at the University of Utah;

(4) be hosted and managed by Boise State University; and

(5) have a director appointed by Boise State University, and associate directors appointed by each participating institution.

(c) Financial assistance

The Secretary, acting through the Idaho National Laboratory and subject to the availability of

appropriations, will provide financial assistance to Boise State University for expenditure under contracts with members of the consortium to carry out the activities of the consortium.

(Pub. L. 109–58, title II, §237, Aug. 8, 2005, 119 Stat. 673.)

PART C—HYDROELECTRIC

§15881. Hydroelectric production incentives

(a) Incentive payments

For electric energy generated and sold by a qualified hydroelectric facility during the incentive period, the Secretary shall make, subject to the availability of appropriations, incentive payments to the owner or operator of such facility. The amount of such payment made to any such owner or operator shall be as determined under subsection (e) of this section. Payments under this section may only be made upon receipt by the Secretary of an incentive payment application which establishes that the applicant is eligible to receive such payment and which satisfies such other requirements as the Secretary deems necessary. Such application shall be in such form, and shall be submitted at such time, as the Secretary shall establish.

(b) Definitions

For purposes of this section:

(1) Qualified hydroelectric facility

The term "qualified hydroelectric facility" means a turbine or other generating device owned or solely operated by a non-Federal entity—

(A) that generates hydroelectric energy for sale; and

(B)(i) that is added to an existing dam or conduit; or

(ii)(I) that has a generating capacity of not more than 20 megawatts;

(II) for which the non-Federal entity has received a construction authorization from the Federal Energy Regulatory Commission, if applicable; and

(III) that is constructed in an area in which there is inadequate electric service, as determined by the Secretary, including by taking into consideration—

(aa) access to the electric grid;

(bb) the frequency of electric outages; or

(cc) the affordability of electricity.

(2) Existing dam or conduit

The term "existing dam or conduit" means any dam or conduit the construction of which was completed before November 15, 2021, and which does not require any construction or enlargement of impoundment or diversion structures (other than repair or reconstruction) in connection with the installation of a turbine or other generating device.

(3) Conduit

The term "conduit" has the same meaning as when used in section 823a(a)(2) of title 16.

The terms defined in this subsection shall apply without regard to the hydroelectric kilowatt capacity of the facility concerned, without regard to whether the facility uses a dam owned by a governmental or nongovernmental entity, and without regard to whether the facility begins operation on or after November 15, 2021.

(c) Eligibility window

Payments may be made under this section only for electric energy generated from a qualified hydroelectric facility which begins operation during the period of 22 fiscal years beginning with the

first full fiscal year occurring after August 8, 2005.

(d) Incentive period

A qualified hydroelectric facility may receive payments under this section for a period of 10 fiscal years (referred to in this section as the "incentive period"). Such period shall begin with the fiscal year in which electric energy generated from the facility is first eligible for such payments.

(e) Amount of payment

(1) In general

Payments made by the Secretary under this section to the owner or operator of a qualified hydroelectric facility shall be based on the number of kilowatt hours of hydroelectric energy generated by the facility during the incentive period. For any such facility, the amount of such payment shall be 1.8 cents per kilowatt hour (adjusted as provided in paragraph (2)), subject to the availability of appropriations under subsection (g), except that no facility may receive more than $1,000,000 in 1 calendar year.

(2) Adjustments

The amount of the payment made to any person under this section as provided in paragraph (1) shall be adjusted for inflation for each fiscal year beginning after calendar year 2005 in the same manner as provided in the provisions of section 45K(d)(2)(B) of title 26, except that in applying such provisions the calendar year 2005 shall be substituted for calendar year 1979.

(f) Sunset

No payment may be made under this section to any qualified hydroelectric facility after the expiration of the period of 32 fiscal years beginning with the first full fiscal year occurring after August 8, 2005, and no payment may be made under this section to any such facility after a payment has been made with respect to such facility for a period of 10 fiscal years.

(g) Authorization of appropriations

There is authorized to be appropriated to the Secretary to carry out this section $125,000,000 for fiscal year 2022, to remain available until expended.

(Pub. L. 109–58, title II, §242, Aug. 8, 2005, 119 Stat. 677; Pub. L. 116–260, div. Z, title III, §3005(a), Dec. 27, 2020, 134 Stat. 2511; Pub. L. 117–58, div. D, title III, §40331, Nov. 15, 2021, 135 Stat. 1022.)

EDITORIAL NOTES

AMENDMENTS

2021—Subsec. (b). Pub. L. 117–58, §40331(2), substituted "November 15, 2021" for "August 8, 2005" in concluding provisions.

Subsec. (b)(2). Pub. L. 117–58, §40331(1), substituted "before November 15, 2021" for "before August 8, 2005".

Subsec. (e)(1). Pub. L. 117–58, §40331(3), substituted "$1,000,000" for "$750,000".

Subsec. (g). Pub. L. 117–58, §40331(4), added subsec. (g) and struck out former subsec. (g). Prior to amendment, text read as follows: "There are authorized to be appropriated to the Secretary to carry out the purposes of this section $10,000,000 for each of fiscal years 2021 through 2036."

2020—Subsec. (b)(1). Pub. L. 116–260, §3005(a)(1), added par. (1) and struck out former par. (1). Prior to amendment, text read as follows: "The term 'qualified hydroelectric facility' means a turbine or other generating device owned or solely operated by a non-Federal entity which generates hydroelectric energy for sale and which is added to an existing dam or conduit."

Subsec. (c). Pub. L. 116–260, §3005(a)(2), substituted "22" for "10".

Subsec. (e)(2). Pub. L. 116–260, §3005(a)(3), substituted "section 45K(d)(2)(B)" for "section 29(d)(2)(B)".

Subsec. (f). Pub. L. 116–260, §3005(a)(4), substituted "32" for "20".

Subsec. (g). Pub. L. 116–260, §3005(a)(5), substituted "each of fiscal years 2021 through 2036" for "each of the fiscal years 2006 through 2015".

§15882. Hydroelectric efficiency improvement incentives

(a) Incentive payments

The Secretary shall make incentive payments to the owners or operators of hydroelectric facilities at existing dams to be used to make capital improvements in the facilities that are directly related to improving the efficiency of such facilities by at least 3 percent.

(b) Limitations

Incentive payments under this section shall not exceed 30 percent of the costs of the capital improvement concerned and not more than 1 payment may be made with respect to improvements at a single facility. No payment in excess of $5,000,000 may be made with respect to improvements at a single facility in any 1 fiscal year.

(c) Authorization of appropriations

There is authorized to be appropriated to carry out this section $75,000,000 for fiscal year 2022 to remain available until expended.

(Pub. L. 109–58, title II, §243, Aug. 8, 2005, 119 Stat. 678; Pub. L. 116–260, div. Z, title III, §3005(b), Dec. 27, 2020, 134 Stat. 2511; Pub. L. 117–58, div. D, title III, §40332(a), Nov. 15, 2021, 135 Stat. 1023.)

EDITORIAL NOTES

AMENDMENTS

2021—Pub. L. 117–58, §40332(a)(1), inserted "incentives" after "improvement" in section catchline.

Subsec. (b). Pub. L. 117–58, §40332(a)(2), substituted "30 percent" for "10 percent" and "$5,000,000" for "$750,000" and inserted "in any 1 fiscal year" before period.

Subsec. (c). Pub. L. 117–58, §40332(a)(3), added subsec. (c) and struck out subsec. (c). Prior to amendment, text read as follows: "There are authorized to be appropriated to carry out this section not more than $10,000,000 for each of fiscal years 2021 through 2036."

2020—Subsec. (c). Pub. L. 116–260 substituted "each of fiscal years 2021 through 2036" for "each of the fiscal years 2006 through 2015".

§15883. Maintaining and enhancing hydroelectricity incentives

(a) Definition of qualified hydroelectric facility

In this section, the term "qualified hydroelectric facility" means a hydroelectric project that—

(1)(A) is licensed by the Federal Energy Regulatory Commission; or

(B) is a hydroelectric project constructed, operated, or maintained pursuant to a permit or valid existing right-of-way granted prior to June 10, 1920, or a license granted pursuant to the Federal Power Act (16 U.S.C. 791a et seq.);

(2) is placed into service before November 15, 2021; and

(3)(A) is in compliance with all applicable Federal, Tribal, and State requirements; or

(B) would be brought into compliance with the requirements described in subparagraph (A) as a result of the capital improvements carried out using an incentive payment under this section.

(b) Incentive payments

The Secretary shall make incentive payments to the owners or operators of qualified hydroelectric facilities for capital improvements directly related to—

(1) improving grid resiliency, including—

(A) adapting more quickly to changing grid conditions;

(B) providing ancillary services (including black start capabilities, voltage support, and spinning reserves);

(C) integrating other variable sources of electricity generation; and

(D) managing accumulated reservoir sediments;

(2) improving dam safety to ensure acceptable performance under all loading conditions (including static, hydrologic, and seismic conditions), including—

(A) the maintenance or upgrade of spillways or other appurtenant structures;

(B) dam stability improvements, including erosion repair and enhanced seepage controls; and

(C) upgrades or replacements of floodgates or natural infrastructure restoration or protection to improve flood risk reduction; or

(3) environmental improvements, including—

(A) adding or improving safe and effective fish passage, including new or upgraded turbine technology, fish ladders, fishways, and all other associated technology, equipment, or other fish passage technology to a qualified hydroelectric facility;

(B) improving the quality of the water retained or released by a qualified hydroelectric facility;

(C) promoting downstream sediment transport processes and habitat maintenance; and

(D) improving recreational access to the project vicinity, including roads, trails, boat ingress and egress, flows to improve recreation, and infrastructure that improves river recreation opportunity.

(c) Limitations

(1) Costs

Incentive payments under this section shall not exceed 30 percent of the costs of the applicable capital improvement.

(2) Maximum amount

Not more than 1 incentive payment may be made under this section with respect to capital improvements at a single qualified hydroelectric facility in any 1 fiscal year, the amount of which shall not exceed $5,000,000.

(d) Authorization of appropriations

There is authorized to be appropriated to the Secretary to carry out this section $553,600,000 for fiscal year 2022, to remain available until expended.

(Pub. L. 109–58, title II, §247, as added Pub. L. 117–58, div. D, title III, §40333(a), Nov. 15, 2021, 135 Stat. 1023.)

EDITORIAL NOTES

REFERENCES IN TEXT

The Federal Power Act, referred to in subsec. (a)(1)(B), is act June 10, 1920, ch. 285, 41 Stat. 1063, which is classified generally to chapter 12 (§791a et seq.) of Title 16, Conservation. For complete classification of this Act to the Code, see section 791a of Title 16 and Tables.

PART D—INSULAR ENERGY

§15891. Projects enhancing insular energy independence

(a) Project feasibility studies

(1) In general

On a request described in paragraph (2), the Secretary shall conduct a feasibility study of a

project to implement a strategy or project identified in the plans submitted to Congress pursuant to section 1492 of title 48 as having the potential to—

(A) significantly reduce the dependence of an insular area on imported fossil fuels; or

(B) provide needed distributed generation to an insular area.

(2) Request

The Secretary shall conduct a feasibility study under paragraph (1) on—

(A) the request of an electric utility located in an insular area that commits to fund at least 10 percent of the cost of the study; and

(B) if the electric utility is located in the Federated States of Micronesia, the Republic of the Marshall Islands, or the Republic of Palau, written support for that request by the President or the Ambassador of the affected freely associated state.

(3) Consultation

The Secretary shall consult with regional utility organizations in—

(A) conducting feasibility studies under paragraph (1); and

(B) determining the feasibility of potential projects.

(4) Feasibility

For the purpose of a feasibility study under paragraph (1), a project shall be determined to be feasible if the project would significantly reduce the dependence of an insular area on imported fossil fuels, or provide needed distributed generation to an insular area, at a reasonable cost.

(b) Implementation

(1) In general

On a determination by the Secretary (in consultation with the Secretary of the Interior) that a project is feasible under subsection (a) and a commitment by an electric utility to operate and maintain the project, the Secretary may provide such technical and financial assistance as the Secretary determines is appropriate for the implementation of the project.

(2) Regional utility organizations

In providing assistance under paragraph (1), the Secretary shall consider providing the assistance through regional utility organizations.

(c) Authorization of appropriations

(1) In general

There are authorized to be appropriated to the Secretary—

(A) $500,000 for each fiscal year for project feasibility studies under subsection (a); and

(B) $4,000,000 for each fiscal year for project implementation under subsection (b).

(2) Limitation of funds received by insular areas

No insular area may receive, during any 3-year period, more than 20 percent of the total funds made available during that 3-year period under subparagraphs (A) and (B) of paragraph (1) unless the Secretary determines that providing funding in excess of that percentage best advances existing opportunities to meet the objectives of this section.

(Pub. L. 109–58, title II, §252, Aug. 8, 2005, 119 Stat. 682.)

SUBCHAPTER III—OIL AND GAS

PART A—PRODUCTION INCENTIVES

§15901. Definition of Secretary

In this part, the term "Secretary" means the Secretary of the Interior.

(Pub. L. 109–58, title III, §341, Aug. 8, 2005, 119 Stat. 697.)

EDITORIAL NOTES

REFERENCES IN TEXT

This part, referred to in text, was in the original "this subtitle", meaning subtitle E (§§341–357) of title III of Pub. L. 109–58, Aug. 8, 2005, 119 Stat. 697, which enacted this part, amended sections 6504, 6506a, 6507, and 6508 of this title, sections 184 and 226 of Title 30, Mineral Lands and Mining, and section 1337 of Title 43, Public Lands, and enacted provisions set out as a note under section 226 of Title 30. For complete classification of subtitle E to the Code, see Tables.

§15902. Program on oil and gas royalties in-kind

(a) Applicability of section

Notwithstanding any other provision of law, this section applies to all royalty in-kind accepted by the Secretary on or after August 8, 2005, under any Federal oil or gas lease or permit under—

(1) section 192 of title 30;

(2) section 1353 of title 43; or

(3) any other Federal law governing leasing of Federal land for oil and gas development.

(b) Terms and conditions

All royalty accruing to the United States shall, on the demand of the Secretary, be paid in-kind. If the Secretary makes such a demand, the following provisions apply to the payment:

(1) Satisfaction of royalty obligation

Delivery by, or on behalf of, the lessee of the royalty amount and quality due under the lease satisfies royalty obligation of the lessee for the amount delivered, except that transportation and processing reimbursements paid to, or deductions claimed by, the lessee shall be subject to review and audit.

(2) Marketable condition

(A) Definition of marketable condition

In this paragraph, the term "in marketable condition" means sufficiently free from impurities and otherwise in a condition that the royalty production will be accepted by a purchaser under a sales contract typical of the field or area in which the royalty production was produced.

(B) Requirement

Royalty production shall be placed in marketable condition by the lessee at no cost to the United States.

(3) Disposition by the Secretary

The Secretary may—

(A) sell or otherwise dispose of any royalty production taken in-kind (other than oil or gas transferred under section 1353(a)(3) of title 43 [1] for not less than the market price; and

(B) transport or process (or both) any royalty production taken in-kind.

(4) Retention by the Secretary

The Secretary may, notwithstanding section 3302 of title 31, retain and use a portion of the revenues from the sale of oil and gas taken in-kind that otherwise would be deposited to miscellaneous receipts, without regard to fiscal year limitation, or may use oil or gas received as royalty taken in-kind (referred to in this paragraph as "royalty production") to pay the cost of—

(A) transporting the royalty production;
(B) processing the royalty production;
(C) disposing of the royalty production; or
(D) any combination of transporting, processing, and disposing of the royalty production.

(5) Limitation

(A) In general

Except as provided in subparagraph (B), the Secretary may not use revenues from the sale of oil and gas taken in-kind to pay for personnel, travel, or other administrative costs of the Federal Government.

(B) Exception

Notwithstanding subparagraph (A), the Secretary may use a portion of the revenues from royalty in-kind sales, without fiscal year limitation, to pay salaries and other administrative costs directly related to the royalty in-kind program.

(c) Reimbursement of cost

If the lessee, pursuant to an agreement with the United States or as provided in the lease, processes the royalty gas or delivers the royalty oil or gas at a point not on or adjacent to the lease area, the Secretary shall—

(1) reimburse the lessee for the reasonable costs of transportation (not including gathering) from the lease to the point of delivery or for processing costs; or

(2) allow the lessee to deduct the transportation or processing costs in reporting and paying royalties in-value for other Federal oil and gas leases.

(d) Benefit to the United States required

The Secretary may receive oil or gas royalties in-kind only if the Secretary determines that receiving royalties in-kind provides benefits to the United States that are greater than or equal to the benefits that are likely to have been received had royalties been taken in-value.

(e) Deduction of expenses

(1) In general

Before making payments under section 191 of title 30 or section 1337(g) of title 43 of revenues derived from the sale of royalty production taken in-kind from a lease, the Secretary shall deduct amounts paid or deducted under subsections (b)(4) and (c) and deposit the amount of the deductions in the miscellaneous receipts of the Treasury.

(2) Accounting for deductions

When the Secretary allows the lessee to deduct transportation or processing costs under subsection (c), the Secretary may not reduce any payments to recipients of revenues derived from any other Federal oil and gas lease as a consequence of that deduction.

(f) Consultation with States

The Secretary—

(1) shall consult with a State before conducting a royalty in-kind program under this part within the State;

(2) may delegate management of any portion of the Federal royalty in-kind program to the State except as otherwise prohibited by Federal law; and

(3) shall consult annually with any State from which Federal oil or gas royalty is being taken in-kind to ensure, to the maximum extent practicable, that the royalty in-kind program provides revenues to the State greater than or equal to the revenues likely to have been received had royalties been taken in-value.

(g) Small refineries

(1) Preference

If the Secretary finds that sufficient supplies of crude oil are not available in the open market to refineries that do not have their own source of supply for crude oil, the Secretary may grant preference to those refineries in the sale of any royalty oil accruing or reserved to the United States under Federal oil and gas leases issued under any mineral leasing law, for processing or use in those refineries at private sale at not less than the market price.

(2) Proration among refineries in production area

In disposing of oil under this subsection, the Secretary may, at the discretion of the Secretary, prorate the oil among refineries described in paragraph (1) in the area in which the oil is produced.

(h) Disposition to Federal agencies

(1) Onshore royalty

Any royalty oil or gas taken by the Secretary in-kind from onshore oil and gas leases may be sold at not less than the market price to any Federal agency.

(2) Offshore royalty

Any royalty oil or gas taken in-kind from a Federal oil or gas lease on the outer Continental Shelf may be disposed of only under section 1353 of title 43.

(i) Federal low-income energy assistance programs

(1) Preference

In disposing of royalty oil or gas taken in-kind under this section, the Secretary may grant a preference to any person, including any Federal or State agency, for the purpose of providing additional resources to any Federal low-income energy assistance program.

(2) Report

Not later than 3 years after August 8, 2005, the Secretary shall submit a report to Congress—

(A) assessing the effectiveness of granting preferences specified in paragraph (1); and

(B) providing a specific recommendation on the continuation of authority to grant preferences.

(Pub. L. 109–58, title III, §342, Aug. 8, 2005, 119 Stat. 697; Pub. L. 113–188, title XI, §1101, Nov. 26, 2014, 128 Stat. 2023.)

EDITORIAL NOTES

REFERENCES IN TEXT

This part, referred to in subsec. (f)(1), was in the original "this subtitle", meaning subtitle E (§§341–357) of title III of Pub. L. 109–58, Aug. 8, 2005, 119 Stat. 697, which enacted this part, amended sections 6504, 6506a, 6507, and 6508 of this title, sections 184 and 226 of Title 30, Mineral Lands and Mining, and section 1337 of Title 43, Public Lands, and enacted provisions set out as a note under section 226 of Title 30. For complete classification of subtitle E to the Code, see Tables.

AMENDMENTS

2014—Subsecs. (e) to (j). Pub. L. 113–188 redesignated subsecs. (f) to (j) as (e) to (i), respectively, and struck out former subsec. (e) which required various reports on oil and gas royalties in-kind.

[1] *So in original. Probably should be followed by a closing parenthesis.*

§15903. Marginal property production incentives

(a) Definition of marginal property

Until such time as the Secretary issues regulations under subsection (e) that prescribe a different definition, in this section, the term "marginal property" means an onshore unit, communitization agreement, or lease not within a unit or communitization agreement, that produces on average the

combined equivalent of less than 15 barrels of oil per well per day or 90,000,000 British thermal units of gas per well per day calculated based on the average over the 3 most recent production months, including only wells that produce on more than half of the days during those 3 production months.

(b) Conditions for reduction of royalty rate

Until such time as the Secretary issues regulations under subsection (e) that prescribe different standards or requirements, the Secretary shall reduce the royalty rate on—

(1) oil production from marginal properties as prescribed in subsection (c) if the spot price of West Texas Intermediate crude oil at Cushing, Oklahoma, is, on average, less than $15 per barrel (adjusted in accordance with the Consumer Price Index for all-urban consumers, United States city average, as published by the Bureau of Labor Statistics) for 90 consecutive trading days; and

(2) gas production from marginal properties as prescribed in subsection (c) if the spot price of natural gas delivered at Henry Hub, Louisiana, is, on average, less than $2.00 per million British thermal units (adjusted in accordance with the Consumer Price Index for all-urban consumers, United States city average, as published by the Bureau of Labor Statistics) for 90 consecutive trading days.

(c) Reduced royalty rate

(1) In general

When a marginal property meets the conditions specified in subsection (b), the royalty rate shall be the lesser of—

(A) 5 percent; or

(B) the applicable rate under any other statutory or regulatory royalty relief provision that applies to the affected production.

(2) Period of effectiveness

The reduced royalty rate under this subsection shall be effective beginning on the first day of the production month following the date on which the applicable condition specified in subsection (b) is met.

(d) Termination of reduced royalty rate

A royalty rate prescribed in subsection (c)(1) shall terminate—

(1) with respect to oil production from a marginal property, on the first day of the production month following the date on which—

(A) the spot price of West Texas Intermediate crude oil at Cushing, Oklahoma, on average, exceeds $15 per barrel (adjusted in accordance with the Consumer Price Index for all-urban consumers, United States city average, as published by the Bureau of Labor Statistics) for 90 consecutive trading days; or

(B) the property no longer qualifies as a marginal property; and

(2) with respect to gas production from a marginal property, on the first day of the production month following the date on which—

(A) the spot price of natural gas delivered at Henry Hub, Louisiana, on average, exceeds $2.00 per million British thermal units (adjusted in accordance with the Consumer Price Index for all-urban consumers, United States city average, as published by the Bureau of Labor Statistics) for 90 consecutive trading days; or

(B) the property no longer qualifies as a marginal property.

(e) Regulations prescribing different relief

(1) Discretionary regulations

The Secretary may by regulation prescribe different parameters, standards, and requirements for, and a different degree or extent of, royalty relief for marginal properties in lieu of those prescribed in subsections (a) through (d).

(2) Mandatory regulations

Unless a determination is made under paragraph (3), not later than 18 months after August 8, 2005, the Secretary shall by regulation—

(A) prescribe standards and requirements for, and the extent of royalty relief for, marginal properties for oil and gas leases on the outer Continental Shelf; and

(B) define what constitutes a marginal property on the outer Continental Shelf for purposes of this section.

(3) Report

To the extent the Secretary determines that it is not practicable to issue the regulations referred to in paragraph (2), the Secretary shall provide a report to Congress explaining such determination by not later than 18 months after August 8, 2005.

(4) Considerations

In issuing regulations under this subsection, the Secretary may consider—

(A) oil and gas prices and market trends;

(B) production costs;

(C) abandonment costs;

(D) Federal and State tax provisions and the effects of those provisions on production economics;

(E) other royalty relief programs;

(F) regional differences in average wellhead prices;

(G) national energy security issues; and

(H) other relevant matters, as determined by the Secretary.

(f) Savings provision

Nothing in this section prevents a lessee from receiving royalty relief or a royalty reduction pursuant to any other law (including a regulation) that provides more relief than the amounts provided by this section.

(Pub. L. 109–58, title III, §343, Aug. 8, 2005, 119 Stat. 700.)

§15904. Incentives for natural gas production from deep wells in the shallow waters of the Gulf of Mexico

(a) Royalty incentive regulations for ultra deep gas wells

(1) In general

Not later than 180 days after August 8, 2005, in addition to any other regulations that may provide royalty incentives for natural gas produced from deep wells on oil and gas leases issued pursuant to the Outer Continental Shelf Lands Act (43 U.S.C. 1331 et seq.), the Secretary shall issue regulations granting royalty relief suspension volumes of not less than 35 billion cubic feet with respect to the production of natural gas from ultra deep wells on leases issued in shallow waters less than 400 meters deep located in the Gulf of Mexico wholly west of 87 degrees, 30 minutes west longitude. Regulations issued under this subsection shall be retroactive to the date that the notice of proposed rulemaking is published in the Federal Register.

(2) Suspension volumes

The Secretary may grant suspension volumes of not less than 35 billion cubic feet in any case in which—

(A) the ultra deep well is a sidetrack; or

(B) the lease has previously produced from wells with a perforated interval the top of which is at least 15,000 feet true vertical depth below the datum at mean sea level.

(3) Definitions

In this subsection:

(A) Ultra deep well

The term "ultra deep well" means a well drilled with a perforated interval, the top of which is at least 20,000 true vertical depth below the datum at mean sea level.

(B) Sidetrack

(i) In general

The term "sidetrack" means a well resulting from drilling an additional hole to a new objective bottom-hole location by leaving a previously drilled hole.

(ii) Inclusion

The term "sidetrack" includes—

(I) drilling a well from a platform slot reclaimed from a previously drilled well;

(II) re-entering and deepening a previously drilled well; and

(III) a bypass from a sidetrack, including drilling around material blocking a hole or drilling to straighten a crooked hole.

(b) Royalty incentive regulations for deep gas wells

Not later than 180 days after August 8, 2005, in addition to any other regulations that may provide royalty incentives for natural gas produced from deep wells on oil and gas leases issued pursuant to the Outer Continental Shelf Lands Act (43 U.S.C. 1331 et seq.), the Secretary shall issue regulations granting royalty relief suspension volumes with respect to production of natural gas from deep wells on leases issued in waters more than 200 meters but less than 400 meters deep located in the Gulf of Mexico wholly west of 87 degrees, 30 minutes west longitude. The suspension volumes for deep wells within 200 to 400 meters of water depth shall be calculated using the same methodology used to calculate the suspension volumes for deep wells in the shallower waters of the Gulf of Mexico, and in no case shall the suspension volumes for deep wells within 200 to 400 meters of water depth be lower than those for deep wells in shallower waters. Regulations issued under this subsection shall be retroactive to the date that the notice of proposed rulemaking is published in the Federal Register.

(c) Limitations

The Secretary may place limitations on the royalty relief granted under this section based on market price. The royalty relief granted under this section shall not apply to a lease for which deep water royalty relief is available.

(Pub. L. 109–58, title III, §344, Aug. 8, 2005, 119 Stat. 702.)

EDITORIAL NOTES

REFERENCES IN TEXT

The Outer Continental Shelf Lands Act, referred to in subsecs. (a)(1) and (b), is act Aug. 7, 1953, ch. 345, 67 Stat. 462, as amended, which is classified generally to subchapter III (§1331 et seq.) of chapter 29 of Title 43, Public Lands. For complete classification of this Act to the Code, see Short Title note set out under section 1301 of Title 43 and Tables.

§15905. Royalty relief for deep water production

(a) In general

Subject to subsections (b) and (c), for each tract located in water depths of greater than 400 meters in the Western and Central Planning Area of the Gulf of Mexico (including the portion of the Eastern Planning Area of the Gulf of Mexico encompassing whole lease blocks lying west of 87 degrees, 30 minutes West longitude), any oil or gas lease sale under the Outer Continental Shelf Lands Act (43 U.S.C. 1331 et seq.) occurring during the 5-year period beginning on August 8, 2005, shall use the

bidding system authorized under section 8(a)(1)(H) of the Outer Continental Shelf Lands Act (43 U.S.C. 1337(a)(1)(H)).

(b) Suspension of royalties

The suspension of royalties under subsection (a) shall be established at a volume of not less than—

(1) 5,000,000 barrels of oil equivalent for each lease in water depths of 400 to 800 meters;

(2) 9,000,000 barrels of oil equivalent for each lease in water depths of 800 to 1,600 meters;

(3) 12,000,000 barrels of oil equivalent for each lease in water depths of 1,600 to 2,000 meters; and

(4) 16,000,000 barrels of oil equivalent for each lease in water depths greater than 2,000 meters.

(c) Limitation

The Secretary may place limitations on royalty relief granted under this section based on market price.

(Pub. L. 109–58, title III, §345, Aug. 8, 2005, 119 Stat. 703.)

§15906. North Slope Science Initiative

(a) Establishment

(1) In general

The Secretary of the Interior shall establish a long-term initiative to be known as the "North Slope Science Initiative" (referred to in this section as the "Initiative").

(2) Purpose

The purpose of the Initiative shall be to implement efforts to coordinate collection of scientific data that will provide a better understanding of the terrestrial, aquatic, and marine ecosystems of the North Slope of Alaska.

(b) Objectives

To ensure that the Initiative is conducted through a comprehensive science strategy and implementation plan, the Initiative shall, at a minimum—

(1) identify and prioritize information needs for inventory, monitoring, and research activities to address the individual and cumulative effects of past, ongoing, and anticipated development activities and environmental change on the North Slope;

(2) develop an understanding of information needs for regulatory and land management agencies, local governments, and the public;

(3) focus on prioritization of pressing natural resource management and ecosystem information needs, coordination, and cooperation among agencies and organizations;

(4) coordinate ongoing and future inventory, monitoring, and research activities to minimize duplication of effort, share financial resources and expertise, and assure the collection of quality information;

(5) identify priority needs not addressed by agency science programs in effect on August 8, 2005, and develop a funding strategy to meet those needs;

(6) provide a consistent approach to high caliber science, including inventory, monitoring, and

research;

(7) maintain and improve public and agency access to—

(A) accumulated and ongoing research; and

(B) contemporary and traditional local knowledge; and

(8) ensure through appropriate peer review that the science conducted by participating agencies and organizations is of the highest technical quality.

(c) Membership

(1) In general

To ensure comprehensive collection of scientific data, in carrying out the Initiative, the Secretary shall consult and coordinate with Federal, State, and local agencies that have responsibilities for land and resource management across the North Slope.

(2) Cooperative agreements

The Secretary shall enter into cooperative agreements with the State of Alaska, the North Slope Borough, the Arctic Slope Regional Corporation, and other Federal agencies as appropriate to coordinate efforts, share resources, and fund projects under this section.

(d) Science technical advisory panel

(1) In general

The Initiative shall include a panel to provide advice on proposed inventory, monitoring, and research functions.

(2) Membership

The panel described in paragraph (1) shall consist of a representative group of not more than 15 scientists and technical experts from diverse professions and interests, including the oil and gas industry, subsistence users, Native Alaskan entities, conservation organizations, wildlife management organizations, and academia, as determined by the Secretary.

(e) Reports

Not later than 3 years after August 8, 2005, and each year thereafter, the Secretary shall publish a report that describes the studies and findings of the Initiative.

(f) Authorization of appropriations

There are authorized to be appropriated such sums as are necessary to carry out this section.

(Pub. L. 109–58, title III, §348, Aug. 8, 2005, 119 Stat. 708.)

§15907. Orphaned well site plugging, remediation, and restoration

(a) Definitions

In this section:

(1) Federal land

The term "Federal land" means land administered by a land management agency within—

(A) the Department of Agriculture; or

(B) the Department of the Interior.

(2) Idled well

The term "idled well" means a well—

(A) that has been nonoperational for not fewer than 4 years; and

(B) for which there is no anticipated beneficial future use.

(3) Indian Tribe

The term "Indian Tribe" has the meaning given the term in section 5304 of title 25.

(4) Operator

The term "operator", with respect to an oil or gas operation, means any entity, including a lessee or operating rights owner, that has provided to a relevant authority a written statement that the entity is responsible for the oil or gas operation, or any portion of the operation.

(5) Orphaned well

The term "orphaned well"—

(A) with respect to Federal land or Tribal land, means a well—

(i)(I) [1] that is not used for an authorized purpose, such as production, injection, or monitoring; and

(II)(aa) for which no operator can be located;

(bb) the operator of which is unable—

(AA) to plug the well; and

(BB) to remediate and reclaim the well site; or

(cc) that is within the National Petroleum Reserve–Alaska; and

(B) with respect to State or private land—

(i) has the meaning given the term by the applicable State; or

(ii) if that State uses different terminology, has the meaning given another term used by the State to describe a well eligible for plugging, remediation, and reclamation by the State.

(6) Tribal land

The term "Tribal land" means any land or interest in land owned by an Indian Tribe, the title to which is—

(A) held in trust by the United States; or

(B) subject to a restriction against alienation under Federal law.

(b) Federal program

(1) Establishment

Not later than 60 days after November 15, 2021, the Secretary shall establish a program to plug, remediate, and reclaim orphaned wells located on Federal land.

(2) Included activities

The program under this subsection shall—

(A) include a method of—

(i) identifying, characterizing, and inventorying orphaned wells and associated pipelines, facilities, and infrastructure on Federal land; and

(ii) ranking those orphaned wells for priority in plugging, remediation, and reclamation, based on—

(I) public health and safety;

(II) potential environmental harm; and

(III) other subsurface impacts or land use priorities;

(B) distribute funding in accordance with the priorities established under subparagraph (A)(ii) for—

(i) plugging orphaned wells;

(ii) remediating and reclaiming well pads and facilities associated with orphaned wells;

(iii) remediating soil and restoring native species habitat that has been degraded due to the presence of orphaned wells and associated pipelines, facilities, and infrastructure; and

(iv) remediating land adjacent to orphaned wells and decommissioning or removing associated pipelines, facilities, and infrastructure;

(C) provide a public accounting of the costs of plugging, remediation, and reclamation for

each orphaned well;

(D) seek to determine the identities of potentially responsible parties associated with the orphaned well (or a surety or guarantor of such a party), to the extent such information can be ascertained, and make efforts to obtain reimbursement for expenditures to the extent practicable;

(E) measure or estimate and track—

(i) emissions of methane and other gases associated with orphaned wells; and

(ii) contamination of groundwater or surface water associated with orphaned wells; and

(F) identify and address any disproportionate burden of adverse human health or environmental effects of orphaned wells on communities of color, low-income communities, and Tribal and indigenous communities.

(3) Idled wells

The Secretary, acting through the Director of the Bureau of Land Management, shall—

(A) periodically review all idled wells on Federal land; and

(B) reduce the inventory of idled wells on Federal land.

(4) Cooperation and consultation

In carrying out the program under this subsection, the Secretary shall—

(A) work cooperatively with—

(i) the Secretary of Agriculture;

(ii) affected Indian Tribes; and

(iii) each State within which Federal land is located; and

(B) consult with—

(i) the Secretary of Energy; and

(ii) the Interstate Oil and Gas Compact Commission.

(c) Funding for State programs

(1) In general

The Secretary shall provide to States, in accordance with this subsection—

(A) initial grants under paragraph (3);

(B) formula grants under paragraph (4); and

(C) performance grants under paragraph (5).

(2) Activities

(A) In general

A State may use funding provided under this subsection for any of the following purposes:

(i) To plug, remediate, and reclaim orphaned wells located on State-owned or privately owned land.

(ii) To identify and characterize undocumented orphaned wells on State and private land.

(iii) To rank orphaned wells based on factors including—

(I) public health and safety;

(II) potential environmental harm; and

(III) other land use priorities.

(iv) To make information regarding the use of funds received under this subsection available on a public website.

(v) To measure and track—

(I) emissions of methane and other gases associated with orphaned wells; and

(II) contamination of groundwater or surface water associated with orphaned wells.

(vi) To remediate soil and restore native species habitat that has been degraded due to the

presence of orphaned wells and associated pipelines, facilities, and infrastructure.

(vii) To remediate land adjacent to orphaned wells and decommission or remove associated pipelines, facilities, and infrastructure.

(viii) To identify and address any disproportionate burden of adverse human health or environmental effects of orphaned wells on communities of color, low-income communities, and Tribal and indigenous communities.

(ix) Subject to subparagraph (B), to administer a program to carry out any activities described in clauses (i) through (viii).

(B) Administrative cost limitation

(i) In general

Except as provided in clause (ii), a State shall not use more than 10 percent of the funds received under this subsection during a fiscal year for administrative costs under subparagraph (A)(ix).

(ii) Exception

The limitation under clause (i) shall not apply to funds used by a State as described in paragraph (3)(A)(ii).

(3) Initial grants

(A) In general

Subject to the availability of appropriations, the Secretary shall distribute—

(i) not more than $25,000,000 to each State that submits to the Secretary, by not later than 180 days after November 15, 2021, a request for funding under this clause, including—

(I) an estimate of the number of jobs that will be created or saved through the activities proposed to be funded; and

(II) a certification that—

(aa) the State is a Member State or Associate Member State of the Interstate Oil and Gas Compact Commission;

(bb) there are 1 or more documented orphaned wells located in the State; and

(cc) the State will use not less than 90 percent of the funding requested under this subsection to issue new contracts, amend existing contracts, or issue grants for plugging, remediation, and reclamation work by not later than 90 days after the date of receipt of the funds; and

(ii) not more than $5,000,000 to each State that—

(I) requests funding under this clause;

(II) does not receive a grant under clause (i); and

(III) certifies to the Secretary that—

(aa) the State—

(AA) has in effect a plugging, remediation, and reclamation program for orphaned wells; or

(BB) the capacity to initiate such a program; or

(bb) the funds provided under this paragraph will be used to carry out any administrative actions necessary to develop an application for a formula grant under paragraph (4) or a performance grant under paragraph (5).

(B) Distribution

Subject to the availability of appropriations, the Secretary shall distribute funds to a State under this paragraph by not later than the date that is 30 days after the date on which the State submits to the Secretary the certification required under clause (i)(II) or (ii)(III) of subparagraph (A), as applicable.

(C) Deadline for expenditure

A State that receives funds under this paragraph shall reimburse the Secretary in an amount equal to the amount of the funds that remain unobligated on the date that is 1 year after the date of receipt of the funds.

(D) Report

Not later than 15 months after the date on which a State receives funds under this paragraph, the State shall submit to the Secretary a report that describes the means by which the State used the funds in accordance with the certification submitted by the State under subparagraph (A).

(4) Formula grants

(A) Establishment

(i) In general

The Secretary shall establish a formula for the distribution to each State described in clause (ii) of funds under this paragraph.

(ii) Description of States

A State referred to in clause (i) is a State that, by not later than 45 days after November 15, 2021, submits to the Secretary a notice of the intent of the State to submit an application under subparagraph (B), including a description of the factors described in clause (iii) with respect to the State.

(iii) Factors

The formula established under clause (i) shall account for, with respect to an applicant State, the following factors:

(I) Job losses in the oil and gas industry in the State during the period—

(aa) beginning on March 1, 2020; and

(bb) ending on November 15, 2021.

(II) The number of documented orphaned wells located in the State, and the projected cost—

(aa) to plug or reclaim those orphaned wells;

(bb) to reclaim adjacent land; and

(cc) to decommission or remove associated pipelines, facilities, and infrastructure.

(iv) Publication

Not later than 75 days after November 15, 2021, the Secretary shall publish on a public website the amount that each State is eligible to receive under the formula under this subparagraph.

(B) Application

To be eligible to receive a formula grant under this paragraph, a State shall submit to the Secretary an application that includes—

(i) a description of—

(I) the State program for orphaned well plugging, remediation, and restoration, including legal authorities, processes used to identify and prioritize orphaned wells, procurement mechanisms, and other program elements demonstrating the readiness of the State to carry out proposed activities using the grant;

(II) the activities to be carried out with the grant, including an identification of the estimated health, safety, habitat, and environmental benefits of plugging, remediating, or reclaiming orphaned wells; and

(III) the means by which the information regarding the activities of the State under this paragraph will be made available on a public website;

(ii) an estimate of—

(I) the number of orphaned wells in the State that will be plugged, remediated, or

reclaimed;

(II) the projected cost of—

(aa) plugging, remediating, or reclaiming orphaned wells;

(bb) remediating or reclaiming adjacent land; and

(cc) decommissioning or removing associated pipelines, facilities, and infrastructure;

(III) the amount of that projected cost that will be offset by the forfeiture of financial assurance instruments, the estimated salvage of well site equipment, or other proceeds from the orphaned wells and adjacent land;

(IV) the number of jobs that will be created or saved through the activities to be funded under this paragraph; and

(V) the amount of funds to be spent on administrative costs;

(iii) a certification that any financial assurance instruments available to cover plugging, remediation, or reclamation costs will be used by the State; and

(iv) the definitions and processes used by the State to formally identify a well as—

(I) an orphaned well; or

(II) if the State uses different terminology, otherwise eligible for plugging, remediation, and reclamation by the State.

(C) Distribution

Subject to the availability of appropriations, the Secretary shall distribute funds to a State under this paragraph by not later than the date that is 60 days after the date on which the State submits to the Secretary a completed application under subparagraph (B).

(D) Deadline for expenditure

A State that receives funds under this paragraph shall reimburse the Secretary in an amount equal to the amount of the funds that remain unobligated on the date that is 5 years after the date of receipt of the funds.

(E) Consultation

In making a determination under this paragraph regarding the eligibility of a State to receive a formula grant, the Secretary shall consult with—

(i) the Administrator of the Environmental Protection Agency;

(ii) the Secretary of Energy; and

(iii) the Interstate Oil and Gas Compact Commission.

(5) Performance grants

(A) Establishment

The Secretary shall provide to States, in accordance with this paragraph—

(i) regulatory improvement grants under subparagraph (E); and

(ii) matching grants under subparagraph (F).

(B) Application

To be eligible to receive a grant under this paragraph, a State shall submit to the Secretary an application including—

(i) each element described in an application for a grant under paragraph (4)(B);

(ii) activities carried out by the State to address orphaned wells located in the State, including—

(I) increasing State spending on well plugging, remediation, and reclamation; or

(II) improving regulation of oil and gas wells; and

(iii) the means by which the State will use funds provided under this paragraph—

(I) to lower unemployment in the State; and

(II) to improve economic conditions in economically distressed areas of the State.

(C) Distribution

Subject to the availability of appropriations, the Secretary shall distribute funds to a State under this paragraph by not later than the date that is 60 days after the date on which the State submits to the Secretary a completed application under subparagraph (B).

(D) Consultation

In making a determination under this paragraph regarding the eligibility of a State to receive a grant under subparagraph (E) or (F), the Secretary shall consult with—

(i) the Administrator of the Environmental Protection Agency;

(ii) the Secretary of Energy; and

(iii) the Interstate Oil and Gas Compact Commission.

(E) Regulatory improvement grants

(i) In general

Beginning on the date that is 180 days after the date on which an initial grant is provided to a State under paragraph (3), the Secretary shall, subject to the availability of appropriations, provide to the State a regulatory improvement grant under this subparagraph, if the State meets, during the 10-year period ending on the date on which the State submits to the Secretary an application under subparagraph (B), 1 of the following criteria:

(I) The State has strengthened plugging standards and procedures designed to ensure that wells located in the State are plugged in an effective manner that protects groundwater and other natural resources, public health and safety, and the environment.

(II) The State has made improvements to State programs designed to reduce future orphaned well burdens, such as financial assurance reform, alternative funding mechanisms for orphaned well programs, and reforms to programs relating to well transfer or temporary abandonment.

(ii) Limitations

(I) Number

The Secretary may issue to a State under this subparagraph not more than 1 grant for each criterion described in subclause (I) or (II) of clause (i).

(II) Maximum amount

The amount of a single grant provided to a State under this subparagraph shall be not more than $20,000,000.

(iii) Reimbursement for failure to maintain protections

A State that receives a grant under this subparagraph shall reimburse the Secretary in an amount equal to the amount of the grant in any case in which, during the 10-year period beginning on the date of receipt of the grant, the State enacts a law or regulation that, if in effect on the date of submission of the application under subparagraph (B), would have prevented the State from being eligible to receive the grant under clause (i).

(F) Matching grants

(i) In general

Beginning on the date that is 180 days after the date on which an initial grant is provided to a State under paragraph (3), the Secretary shall, subject to the availability of appropriations, provide to the State funding, in an amount equal to the difference between—

(I) the average annual amount expended by the State during the period of fiscal years 2010 through 2019—

(aa) to plug, remediate, and reclaim orphaned wells; and

(bb) to decommission or remove associated pipelines, facilities, or infrastructure; and

(II) the amount that the State certifies to the Secretary the State will expend, during the

fiscal year in which the State will receive the grant under this subparagraph—

(aa) to plug, remediate, and reclaim orphaned wells;

(bb) to remediate or reclaim adjacent land; and

(cc) to decommission or remove associated pipelines, facilities, and infrastructure.

(ii) Limitations

(I) Fiscal year

The Secretary may issue to a State under this subparagraph not more than 1 grant for each fiscal year.

(II) Total funds provided

The Secretary may provide to a State under this subparagraph a total amount equal to not more than $30,000,000 during the period of fiscal years 2022 through 2031.

(d) Tribal orphaned well site plugging, remediation, and restoration

(1) Establishment

The Secretary shall establish a program under which the Secretary shall—

(A) provide to Indian Tribes grants in accordance with this subsection; or

(B) on request of an Indian Tribe and in lieu of a grant under subparagraph (A), administer and carry out plugging, remediation, and reclamation activities in accordance with paragraph (7).

(2) Eligible activities

(A) In general

An Indian Tribe may use a grant received under this subsection—

(i) to plug, remediate, or reclaim an orphaned well on Tribal land;

(ii) to remediate soil and restore native species habitat that has been degraded due to the presence of an orphaned well or associated pipelines, facilities, or infrastructure on Tribal land;

(iii) to remediate Tribal land adjacent to orphaned wells and decommission or remove associated pipelines, facilities, and infrastructure;

(iv) to provide an online public accounting of the cost of plugging, remediation, and reclamation for each orphaned well site on Tribal land;

(v) to identify and characterize undocumented orphaned wells on Tribal land; and

(vi) to develop or administer a Tribal program to carry out any activities described in clauses (i) through (v).

(B) Administrative cost limitation

(i) In general

Except as provided in clause (ii), an Indian Tribe shall not use more than 10 percent of the funds received under this subsection during a fiscal year for administrative costs under subparagraph (A)(vi).

(ii) Exception

The limitation under clause (i) shall not apply to any funds used to carry out an administrative action necessary for the development of a Tribal program described in subparagraph (A)(vi).

(3) Factors for consideration

In determining whether to provide to an Indian Tribe a grant under this subsection, the Secretary shall take into consideration—

(A) the unemployment rate of the Indian Tribe on the date on which the Indian Tribe submits an application under paragraph (4); and

(B) the estimated number of orphaned wells on the Tribal land of the Indian Tribe.

(4) Application

To be eligible to receive a grant under this subsection, an Indian Tribe shall submit to the Secretary an application that includes—

(A) a description of—

(i) the Tribal program for orphaned well plugging, remediation, and restoration, including legal authorities, processes used to identify and prioritize orphaned wells, procurement mechanisms, and other program elements demonstrating the readiness of the Indian Tribe to carry out the proposed activities, or plans to develop such a program; and

(ii) the activities to be carried out with the grant, including an identification of the estimated health, safety, habitat, and environmental benefits of plugging, remediating, or reclaiming orphaned wells and remediating or reclaiming adjacent land; and

(B) an estimate of—

(i) the number of orphaned wells that will be plugged, remediated, or reclaimed; and

(ii) the projected cost of—

(I) plugging, remediating, or reclaiming orphaned wells;

(II) remediating or reclaiming adjacent land; and

(III) decommissioning or removing associated pipelines, facilities, and infrastructure.

(5) Distribution

Subject to the availability of appropriations, the Secretary shall distribute funds to an Indian Tribe under this subsection by not later than the date that is 60 days after the date on which the Indian Tribe submits to the Secretary a completed application under paragraph (4).

(6) Deadline for expenditure

An Indian Tribe that receives funds under this subsection shall reimburse the Secretary in an amount equal to the amount of the funds that remain unobligated on the date that is 5 years after the date of receipt of the funds, except for cases in which the Secretary has granted the Indian Tribe an extended deadline for completion of the eligible activities after consultation.

(7) Delegation to Secretary in lieu of a grant

(A) In general

In lieu of a grant under this subsection, an Indian Tribe may submit to the Secretary a request for the Secretary to administer and carry out plugging, remediation, and reclamation activities relating to an orphaned well on behalf of the Indian Tribe.

(B) Administration

Subject to the availability of appropriations under subsection (h)(1)(E), on submission of a request under subparagraph (A), the Secretary shall administer or carry out plugging, remediation, and reclamation activities for an orphaned well on Tribal land.

(e) Technical assistance

The Secretary of Energy, in cooperation with the Secretary and the Interstate Oil and Gas Compact Commission, shall provide technical assistance to the Federal land management agencies and oil and gas producing States and Indian Tribes to support practical and economical remedies for environmental problems caused by orphaned wells on Federal land, Tribal land, and State and private land, including the sharing of best practices in the management of oil and gas well inventories to ensure the availability of funds to plug, remediate, and restore oil and gas well sites on cessation of operation.

(f) Report to Congress

Not later than 1 year after November 15, 2021, and not less frequently than annually thereafter, the Secretary shall submit to the Committees on Appropriations and Energy and Natural Resources of

the Senate and the Committees on Appropriations and Natural Resources of the House of Representatives a report describing the program established and grants awarded under this section, including—

(1) an updated inventory of wells located on Federal land, Tribal land, and State and private land that are—

(A) orphaned wells; or

(B) at risk of becoming orphaned wells;

(2) an estimate of the quantities of—

(A) methane and other gasses emitted from orphaned wells; and

(B) emissions reduced as a result of plugging, remediating, and reclaiming orphaned wells;

(3) the number of jobs created and saved through the plugging, remediation, and reclamation of orphaned wells; and

(4) the acreage of habitat restored using grants awarded to plug, remediate, and reclaim orphaned wells and to remediate or reclaim adjacent land, together with a description of the purposes for which that land is likely to be used in the future.

(g) Effect of section

(1) No expansion of liability

Nothing in this section establishes or expands the responsibility or liability of any entity with respect to—

(A) plugging any well; or

(B) remediating or reclaiming any well site.

(2) Tribal land

Nothing in this section—

(A) relieves the Secretary of any obligation under section 396c of title 25, to plug, remediate, or reclaim an orphaned well located on Tribal land; or

(B) absolves the United States from a responsibility to plug, remediate, or reclaim an orphaned well located on Tribal land or any other responsibility to an Indian Tribe, including any responsibility that derives from—

(i) the trust relationship between the United States and Indian Tribes;

(ii) any treaty, law, or Executive order; or

(iii) any agreement between the United States and an Indian Tribe.

(3) Owner or operator not absolved

Nothing in this section absolves the owner or operator of an oil or gas well of any potential liability for—

(A) reimbursement of any plugging or reclamation costs associated with the well; or

(B) any adverse effect of the well on the environment.

(h) Authorization of appropriations

There are authorized to be appropriated for fiscal year 2022, to remain available until September 30, 2030:

(1) to the Secretary—

(A) $250,000,000 to carry out the program under subsection (b);

(B) $775,000,000 to provide grants under subsection (c)(3);

(C) $2,000,000,000 to provide grants under subsection (c)(4);

(D) $1,500,000,000 to provide grants under subsection (c)(5); and

(E) $150,000,000 to carry out the program under subsection (d);

(2) to the Secretary of Energy, $30,000,000 to conduct research and development activities in cooperation with the Interstate Oil and Gas Compact Commission to assist the Federal land

management agencies, States, and Indian Tribes in—

(A) identifying and characterizing undocumented orphaned wells; and

(B) mitigating the environmental risks of undocumented orphaned wells; and

(3) to the Interstate Oil and Gas Compact Commission, $2,000,000 to carry out this section.

(Pub. L. 109–58, title III, §349, Aug. 8, 2005, 119 Stat. 709; Pub. L. 113–40, §10(b), Oct. 2, 2013, 127 Stat. 545; Pub. L. 117–58, div. D, title VI, §40601, Nov. 15, 2021, 135 Stat. 1080.)

EDITORIAL NOTES

AMENDMENTS

2021—Pub. L. 117–58 amended section generally. Prior to amendment, section related to orphaned, abandoned, or idled wells on Federal land.

2013—Subsec. (i). Pub. L. 113–40 added subsec. (i).

[1] *So in original. No cl. (ii) enacted.*

§15908. Preservation of geological and geophysical data

(a) Short title

This section may be cited as the "National Geological and Geophysical Data Preservation Program Act of 2005".

(b) Program

The Secretary shall carry out a National Geological and Geophysical Data Preservation Program in accordance with this section—

(1) to archive geologic, geophysical, and engineering data, maps, well logs, and samples;

(2) to provide a national catalog of such archival material;

(3) to provide technical and financial assistance related to the archival material; and

(4) to provide for preservation of samples to track geochemical signatures from critical mineral (as defined in section 1606(a) of title 30) ore bodies for use in provenance tracking frameworks.

(c) Plan

Not later than 1 year after August 8, 2005, the Secretary shall submit to Congress a plan for the implementation of the Program.

(d) Data archive system

(1) Establishment

The Secretary shall establish, as a component of the Program, a data archive system to provide for the storage, preservation, and archiving of subsurface, surface, geological, geophysical, and engineering data and samples. The Secretary, in consultation with the Advisory Committee, shall develop guidelines relating to the data archive system, including the types of data and samples to be preserved.

(2) System components

The system shall be comprised of State agencies that elect to be part of the system and agencies within the Department of the Interior that maintain geological and geophysical data and samples that are designated by the Secretary in accordance with this subsection. The Program shall provide for the storage of data and samples through data repositories operated by such agencies.

(3) Limitation of designation

The Secretary may not designate a State agency as a component of the data archive system unless that agency is the agency that acts as the geological survey in the State.

(4) Data from Federal land

The data archive system shall provide for the archiving of relevant subsurface data and samples obtained from Federal land—

(A) in the most appropriate repository designated under paragraph (2), with preference being given to archiving data in the State in which the data were collected; and

(B) consistent with all applicable law and requirements relating to confidentiality and proprietary data.

(e) National catalog

(1) In general

As soon as practicable after August 8, 2005, the Secretary shall develop and maintain, as a component of the Program, a national catalog that identifies—

(A) data and samples available in the data archive system established under subsection (d);

(B) the repository for particular material in the system; and

(C) the means of accessing the material.

(2) Availability

The Secretary shall make the national catalog accessible to the public on the site of the Survey on the Internet, consistent with all applicable requirements related to confidentiality and proprietary data.

(f) Advisory Committee

(1) In general

The Advisory Committee shall advise the Secretary on planning and implementation of the Program.

(2) New duties

In addition to its duties under the National Geologic Mapping Act of 1992 (43 U.S.C. 31a et seq.), the Advisory Committee shall perform the following duties:

(A) Advise the Secretary on developing guidelines and procedures for providing assistance for facilities under subsection (g)(1).

(B) Review and critique the draft implementation plan prepared by the Secretary under subsection (c).

(C) Identify useful studies of data archived under the Program that will advance understanding of the Nation's energy and mineral resources, geologic hazards, and engineering geology.

(D) Review the progress of the Program in archiving significant data and preventing the loss of such data, and the scientific progress of the studies funded under the Program.

(E) Include in the annual report to the Secretary required under section 5(b)(3) [1] of the National Geologic Mapping Act of 1992 (43 U.S.C. 31d(b)(3)) an evaluation of the progress of the Program toward fulfilling the purposes of the Program under subsection (b).

(g) Financial assistance

(1) Archive facilities

Subject to the availability of appropriations, the Secretary shall provide financial assistance to a State agency that is designated under subsection (d)(2) for providing facilities to archive energy material.

(2) Studies

Subject to the availability of appropriations, the Secretary shall provide financial assistance to any State agency designated under subsection (d)(2) for studies and technical assistance activities that enhance understanding, interpretation, and use of materials archived in the data archive system established under subsection (d).

(3) Federal share

The Federal share of the cost of an activity carried out with assistance under this subsection shall be not more than 50 percent of the total cost of the activity.

(4) Private contributions

The Secretary shall apply to the non-Federal share of the cost of an activity carried out with assistance under this subsection the value of private contributions of property and services used for that activity.

(h) Report

The Secretary shall include in each report under section 8 of the National Geologic Mapping Act of 1992 (43 U.S.C. 31g)—

(1) a description of the status of the Program;

(2) an evaluation of the progress achieved in developing the Program during the period covered by the report; and

(3) any recommendations for legislative or other action the Secretary considers necessary and appropriate to fulfill the purposes of the Program under subsection (b).

(i) Maintenance of State effort

It is the intent of Congress that the States not use this section as an opportunity to reduce State resources applied to the activities that are the subject of the Program.

(j) Definitions

In this section:

(1) Advisory Committee

The term "Advisory Committee" means the advisory committee established under section 5 of the National Geologic Mapping Act of 1992 (43 U.S.C. 31d).

(2) Program

The term "Program" means the National Geological and Geophysical Data Preservation Program carried out under this section.

(3) Secretary

The term "Secretary" means the Secretary of the Interior, acting through the Director of the United States Geological Survey.

(4) Survey

The term "Survey" means the United States Geological Survey.

(k) Authorization of appropriations

There are authorized to be appropriated to carry out this section $5,000,000 for each of fiscal years 2021 through 2029, to remain available until expended.

(Pub. L. 109–58, title III, §351, Aug. 8, 2005, 119 Stat. 711; Pub. L. 116–260, div. Z, title VII, §7002(l), Dec. 27, 2020, 134 Stat. 2575; Pub. L. 117–58, div. D, title II, §40203, Nov. 15, 2021, 135 Stat. 959.)

EDITORIAL NOTES

REFERENCES IN TEXT

The National Geologic Mapping Act of 1992, referred to in subsec. (f)(2), is Pub. L. 102–285, May 18, 1992, 106 Stat. 166, which is classified principally to sections 31a to 31h of Title 43, Public Lands. Par. (3) of section 5(b) of the Act was redesignated par. (4) by Pub. L. 111–11, title XI, §11001(f)(2)(B), Mar. 30, 2009, 123 Stat. 1415, and is now classified to section 31d(b)(4) of Title 43. For complete classification of this Act to the Code, see Short Title note set out under section 31a of Title 43 and Tables.

AMENDMENTS

2021—Subsec. (b)(4). Pub. L. 117–58 added par. (4).

2020—Subsec. (k). Pub. L. 116–260 substituted "$5,000,000 for each of fiscal years 2021 through 2029, to remain available until expended" for "$30,000,000 for each of fiscal years 2006 through 2010".

§15909. Gas hydrate production incentive

(a) Purpose

The purpose of this section is to promote natural gas production from the natural gas hydrate resources on the outer Continental Shelf and Federal lands in Alaska by providing royalty incentives.

(b) Suspension of royalties

(1) In general

The Secretary may grant royalty relief in accordance with this section for natural gas produced from gas hydrate resources under an eligible lease.

(2) Eligible leases

A lease shall be an eligible lease for purposes of this section if—

(A) it is issued under the Outer Continental Shelf Lands Act (43 U.S.C. 1331 et seq.), or is an oil and gas lease issued for onshore Federal lands in Alaska;

(B) it is issued prior to January 1, 2016; and

(C) production under the lease of natural gas from gas hydrate resources commences prior to January 1, 2018.

(3) Amount of relief

The Secretary shall conduct a rulemaking and grant royalty relief under this section as a suspension volume if the Secretary determines that such royalty relief would encourage production of natural gas from gas hydrate resources from an eligible lease. The maximum suspension volume shall be 30 billion cubic feet of natural gas per lease. Such relief shall be in addition to any other royalty relief under any other provision applicable to the lease that does not specifically grant a gas hydrate production incentive. Such royalty suspension volume shall be applied to any eligible production occurring on or after the date of publication of the advanced notice of proposed rulemaking.

(4) Limitation

The Secretary may place limitations on royalty relief granted under this section based on market price.

(c) Application

This section shall apply to any eligible lease issued before, on, or after August 8, 2005.

(d) Rulemakings

(1) Requirement

The Secretary shall publish the advanced notice of proposed rulemaking within 180 days after August 8, 2005, and complete the rulemaking implementing this section within 365 days after August 8, 2005.

(2) Gas hydrate resources defined

Such regulations shall define the term "gas hydrate resources" to include both the natural gas content of gas hydrates within the hydrate stability zone and free natural gas trapped by and beneath the hydrate stability zone.

(e) Review

Not later than 365 days after August 8, 2005, the Secretary, in consultation with the Secretary of

Energy, shall carry out a review of, and submit to Congress a report on, further opportunities to enhance production of natural gas from gas hydrate resources on the outer Continental Shelf and on Federal lands in Alaska through the provision of other production incentives or through technical or financial assistance.

(Pub. L. 109–58, title III, §353, Aug. 8, 2005, 119 Stat. 714.)

EDITORIAL NOTES

REFERENCES IN TEXT

The Outer Continental Shelf Lands Act, referred to in subsec. (b)(2)(A), is act Aug. 7, 1953, ch. 345, 67 Stat. 462, as amended, which is classified generally to subchapter III (§1331 et seq.) of chapter 29 of Title 43, Public Lands. For complete classification of this Act to the Code, see Short Title note set out under section 1301 of Title 43 and Tables.

§15910. Enhanced oil and natural gas production through carbon dioxide injection

(a) Production incentive

(1) Findings

Congress finds the following:

(A) Approximately two-thirds of the original oil in place in the United States remains unproduced.

(B) Enhanced oil and natural gas production from the sequestering of carbon dioxide and other appropriate gases has the potential to increase oil and natural gas production.

(C) Capturing and productively using carbon dioxide would help reduce the carbon intensity of the economy.

(2) Purpose

The purpose of this section is—

(A) to promote the capturing, transportation, and injection of produced carbon dioxide, natural carbon dioxide, and other appropriate gases or other matter for sequestration into oil and gas fields; and

(B) to promote oil and natural gas production from the outer Continental Shelf and onshore Federal lands under lease by providing royalty incentives to use enhanced recovery techniques using injection of the substances referred to in subparagraph (A).

(b) Suspension of royalties

(1) In general

If the Secretary determines that reduction of the royalty under a Federal oil and gas lease that is an eligible lease is in the public interest and promotes the purposes of this section, the Secretary shall undertake a rulemaking to provide for such reduction for an eligible lease.

(2) Rulemakings

The Secretary shall publish the advanced notice of proposed rulemaking within 180 days after August 8, 2005, and complete the rulemaking implementing this section within 365 days after August 8, 2005.

(3) Eligible leases

A lease shall be an eligible lease for purposes of this section if—

(A) it is a lease for production of oil and gas from the outer Continental Shelf or Federal onshore lands;

(B) the injection of the substances referred to in subsection (a)(2)(A) will be used as an enhanced recovery technique on such lease; and

(C) the Secretary determines that the lease contains oil or gas that would not likely be produced without the royalty reduction provided under this section.

(4) Amount of relief

The rulemaking shall provide for a suspension volume, which shall not exceed 5,000,000 barrels of oil equivalent for each eligible lease. Such suspension volume shall be applied to any production from an eligible lease occurring on or after the date of publication of any advanced notice of proposed rulemaking under this subsection.

(5) Limitation

The Secretary may place limitations on the royalty reduction granted under this section based on market price.

(6) Application

This section shall apply to any eligible lease issued before, on, or after August 8, 2005.

(c) Demonstration program

(1) Establishment

(A) In general

The Secretary of Energy shall establish a competitive grant program to provide grants to producers of oil and gas to carry out projects to inject carbon dioxide for the purpose of enhancing recovery of oil or natural gas while increasing the sequestration of carbon dioxide.

(B) Projects

The demonstration program shall provide for—

(i) not more than 10 projects in the Willistin Basin in North Dakota and Montana; and

(ii) 1 project in the Cook Inlet Basin in Alaska.

(2) Requirements

(A) In general

The Secretary of Energy shall issue requirements relating to applications for grants under paragraph (1).

(B) Rulemaking

The issuance of requirements under subparagraph (A) shall not require a rulemaking.

(C) Minimum requirements

At a minimum, the Secretary shall require under subparagraph (A) that an application for a grant include—

(i) a description of the project proposed in the application;

(ii) an estimate of the production increase and the duration of the production increase from the project, as compared to conventional recovery techniques, including water flooding;

(iii) an estimate of the carbon dioxide sequestered by project, over the life of the project;

(iv) a plan to collect and disseminate data relating to each project to be funded by the grant;

(v) a description of the means by which the project will be sustainable without Federal assistance after the completion of the term of the grant;

(vi) a complete description of the costs of the project, including acquisition, construction, operation, and maintenance costs over the expected life of the project;

(vii) a description of which costs of the project will be supported by Federal assistance under this section; and

(viii) a description of any secondary or tertiary recovery efforts in the field and the efficacy of water flood recovery techniques used.

(3) Partners

An applicant for a grant under paragraph (1) may carry out a project under a pilot program in

partnership with 1 or more other public or private entities.

(4) Selection criteria

In evaluating applications under this subsection, the Secretary of Energy shall—

(A) consider the previous experience with similar projects of each applicant; and

(B) give priority consideration to applications that—

(i) are most likely to maximize production of oil and gas in a cost-effective manner;

(ii) sequester significant quantities of carbon dioxide from anthropogenic sources;

(iii) demonstrate the greatest commitment on the part of the applicant to ensure funding for the proposed project and the greatest likelihood that the project will be maintained or expanded after Federal assistance under this section is completed; and

(iv) minimize any adverse environmental effects from the project.

(5) Demonstration program requirements

(A) Maximum amount

The Secretary of Energy shall not provide more than $3,000,000 in Federal assistance under this subsection to any applicant.

(B) Cost sharing

The Secretary of Energy shall require cost-sharing under this subsection in accordance with section 16352 of this title.

(C) Period of grants

(i) In general

A project funded by a grant under this subsection shall begin construction not later than 2 years after the date of provision of the grant, but in any case not later than December 31, 2010.

(ii) Term

The Secretary shall not provide grant funds to any applicant under this subsection for a period of more than 5 years.

(6) Transfer of information and knowledge

The Secretary of Energy shall establish mechanisms to ensure that the information and knowledge gained by participants in the program under this subsection are transferred among other participants and interested persons, including other applicants that submitted applications for a grant under this subsection.

(7) Schedule

(A) Publication

Not later than 180 days after August 8, 2005, the Secretary of Energy shall publish in the Federal Register, and elsewhere, as appropriate, a request for applications to carry out projects under this subsection.

(B) Date for applications

An application for a grant under this subsection shall be submitted not later than 180 days after the date of publication of the request under subparagraph (A).

(C) Selection

After the date by which applications for grants are required to be submitted under subparagraph (B), the Secretary of Energy, in a timely manner, shall select, after peer review and based on the criteria under paragraph (4), those projects to be awarded a grant under this subsection.

(d) Records and inventory

The Secretary of the Interior, acting through the Bureau of Land Management, shall maintain

records on, and an inventory of, the quantity of carbon dioxide stored within Federal mineral leaseholds.

(e) Authorization of appropriations

There are authorized to be appropriated such sums as are necessary to carry out this section.

(Pub. L. 109–58, title III, §354, Aug. 8, 2005, 119 Stat. 715; Pub. L. 110–140, title VII, §713, Dec. 19, 2007, 121 Stat. 1715.)

EDITORIAL NOTES

AMENDMENTS

2007—Subsecs. (d), (e). Pub. L. 110–140 added subsec. (d) and redesignated former subsec. (d) as (e).

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE OF 2007 AMENDMENT

Amendment by Pub. L. 110–140 effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as an Effective Date note under section 1824 of Title 2, The Congress.

§15911. Denali Commission

(a) Definition of Commission

In this section, the term "Commission" means the Denali Commission established by the Denali Commission Act of 1998 (42 U.S.C. 3121 note; Public Law 105–277).

(b) Energy programs

The Commission shall use amounts made available under subsection (d) to carry out energy programs, including—

(1) energy generation and development, including—
(A) fuel cells, hydroelectric, solar, wind, wave, and tidal energy; and
(B) alternative energy sources;

(2) the construction of energy transmission, including interties;
(3) the replacement and cleanup of fuel tanks;
(4) the construction of fuel transportation networks and related facilities;
(5) power cost equalization programs; and
(6) projects using coal as a fuel, including coal gasification projects.

(c) Open meetings

(1) In general

Except as provided in paragraph (2), a meeting of the Commission shall be open to the public if—

(A) the Commission members take action on behalf of the Commission; or
(B) the deliberations of the Commission determine, or result in the joint conduct or disposition of, official Commission business.

(2) Exceptions

Paragraph (1) shall not apply to any portion of a Commission meeting for which the Commission, in public session, votes to close the meeting for the reasons described in paragraph (2), (4), (5), or (6) of subsection (c) of section 552b of title 5.

(3) Public notice

(A) In general

At least 1 week before a meeting of the Commission, the Commission shall make a public announcement of the meeting that describes—

(i) the time, place, and subject matter of the meeting;

(ii) whether the meeting is to be open or closed to the public; and

(iii) the name and telephone number of an appropriate person to respond to requests for information about the meeting.

(B) Additional notice

The Commission shall make a public announcement of any change to the information made available under subparagraph (A) at the earliest practicable time.

(4) Minutes

The Commission shall keep, and make available to the public, a transcript, electronic recording, or minutes from each Commission meeting, except for portions of the meeting closed under paragraph (2).

(d) Authorization of appropriations

There is authorized to be appropriated to the Commission not more than $55,000,000 for each of fiscal years 2006 through 2015 to carry out subsection (b).

(Pub. L. 109–58, title III, §356, Aug. 8, 2005, 119 Stat. 719.)

EDITORIAL NOTES

REFERENCES IN TEXT

The Denali Commission Act of 1998, referred to in subsec. (a), is title III of Pub. L. 105–277, div. C, Oct. 21, 1998, 112 Stat. 2681–637, which is set out as a note under section 3121 of this title. For complete classification of this Act to the Code, see Tables.

§15912. Comprehensive inventory of OCS oil and natural gas resources

(a) In general

The Secretary shall conduct an inventory and analysis of oil and natural gas resources beneath all of the waters of the United States Outer Continental Shelf ("OCS"). The inventory and analysis shall—

(1) use available data on oil and gas resources in areas offshore of Mexico and Canada that will provide information on trends of oil and gas accumulation in areas of the OCS;

(2) use any available technology, except drilling, but including 3–D seismic technology to obtain accurate resource estimates;

(3) analyze how resource estimates in OCS areas have changed over time in regards to gathering geological and geophysical data, initial exploration, or full field development, including areas such as the deepwater and subsalt areas in the Gulf of Mexico;

(4) estimate the effect that understated oil and gas resource inventories have on domestic energy investments; and

(5) identify and explain how legislative, regulatory, and administrative programs or processes restrict or impede the development of identified resources and the extent that they affect domestic supply, such as moratoria, lease terms and conditions, operational stipulations and requirements, approval delays by the Federal Government and coastal States, and local zoning restrictions for onshore processing facilities and pipeline landings.

(b) Reports

The Secretary shall submit a report to Congress on the inventory of estimates and the analysis of restrictions or impediments, together with any recommendations, within 6 months of August 8, 2005. The report shall be publicly available and updated at least every 5 years.

(Pub. L. 109–58, title III, §357, Aug. 8, 2005, 119 Stat. 720.)

PART B—ACCESS TO FEDERAL LANDS

§15921. Management of Federal oil and gas leasing programs

(a) Timely action on leases and permits

(1) Secretary of the Interior

To ensure timely action on oil and gas leases and applications for permits to drill on land otherwise available for leasing, the Secretary of the Interior (referred to in this section as the "Secretary") shall—

(A) ensure expeditious compliance with section 4332(2)(C) of this title and any other applicable environmental and cultural resources laws;

(B) improve consultation and coordination with the States and the public; and

(C) improve the collection, storage, and retrieval of information relating to the oil and gas leasing activities.

(2) Secretary of Agriculture

To ensure timely action on oil and gas lease applications for permits to drill on land otherwise available for leasing, the Secretary of Agriculture shall—

(A) ensure expeditious compliance with all applicable environmental and cultural resources laws; and

(B) improve the collection, storage, and retrieval of information relating to the oil and gas leasing activities.

(b) Best management practices

(1) In general

Not later than 18 months after August 8, 2005, the Secretary shall develop and implement best management practices to—

(A) improve the administration of the onshore oil and gas leasing program under the Mineral Leasing Act (30 U.S.C. 181 et seq.); and

(B) ensure timely action on oil and gas leases and applications for permits to drill on land otherwise available for leasing.

(2) Considerations

In developing the best management practices under paragraph (1), the Secretary shall consider any recommendations from the review under section 361.[1]

(3) Regulations

Not later than 180 days after the development of the best management practices under paragraph (1), the Secretary shall publish, for public comment, proposed regulations that set forth specific timeframes for processing leases and applications in accordance with the best management practices, including deadlines for—

(A) approving or disapproving—

(i) resource management plans and related documents;

(ii) lease applications;

(iii) applications for permits to drill; and

(iv) surface use plans; and

(B) related administrative appeals.

(c) Improved enforcement

The Secretary and the Secretary of Agriculture shall improve inspection and enforcement of oil and gas activities, including enforcement of terms and conditions in permits to drill on land under the jurisdiction of the Secretary and the Secretary of Agriculture, respectively.

(d) Authorization of appropriations

In addition to amounts made available to carry out activities relating to oil and gas leasing on public land administered by the Secretary and National Forest System land administered by the Secretary of Agriculture, there are authorized to be appropriated for each of fiscal years 2006 through 2010—

(1) to the Secretary, acting through the Director of the Bureau of Land Management—

(A) $40,000,000 to carry out subsections (a)(1) and (b); and

(B) $20,000,000 to carry out subsection (c);

(2) to the Secretary, acting through the Director of the United States Fish and Wildlife Service, $5,000,000 to carry out subsection (a)(1); and

(3) to the Secretary of Agriculture, acting through the Chief of the Forest Service, $5,000,000 to carry out subsections (a)(2) and (c).

(Pub. L. 109–58, title III, §362, Aug. 8, 2005, 119 Stat. 721.)

EDITORIAL NOTES

§15922. Consultation regarding oil and gas leasing on public land

(a) In general

Not later than 180 days after August 8, 2005, the Secretary of the Interior and the Secretary of Agriculture shall enter into a memorandum of understanding regarding oil and gas leasing on—

(1) public land under the jurisdiction of the Secretary of the Interior; and

(2) National Forest System land under the jurisdiction of the Secretary of Agriculture.

(b) Contents

The memorandum of understanding shall include provisions that—

(1) establish administrative procedures and lines of authority that ensure timely processing of—

(A) oil and gas lease applications;

(B) surface use plans of operation, including steps for processing surface use plans; and

(C) applications for permits to drill consistent with applicable timelines;

(2) eliminate duplication of effort by providing for coordination of planning and environmental compliance efforts;

(3) ensure that lease stipulations are—

(A) applied consistently;

(B) coordinated between agencies; and

(C) only as restrictive as necessary to protect the resource for which the stipulations are

applied;

(4) establish a joint data retrieval system that is capable of—
(A) tracking applications and formal requests made in accordance with procedures of the Federal onshore oil and gas leasing program; and
(B) providing information regarding the status of the applications and requests within the Department of the Interior and the Department of Agriculture; and

(5) establish a joint geographic information system mapping system for use in—
(A) tracking surface resource values to aid in resource management; and
(B) processing surface use plans of operation and applications for permits to drill.

(Pub. L. 109–58, title III, §363, Aug. 8, 2005, 119 Stat. 722.)

§15923. Methodology

The Secretary of the Interior shall use the same assessment methodology across all geological provinces, areas, and regions in preparing and issuing national geological assessments to ensure accurate comparisons of geological resources.

(Pub. L. 109–58, title III, §364(b), Aug. 8, 2005, 119 Stat. 723.)

§15924. Project to improve Federal permit coordination

(a) Establishment

The Secretary of the Interior (referred to in this section as the "Secretary") shall establish a Federal Permit Streamlining Project (referred to in this section as the "Project").

(b) Memorandum of understanding

(1) In general

Not later than 90 days after August 8, 2005, the Secretary shall enter into a memorandum of understanding for purposes of this section with—
(A) the Secretary of Agriculture;
(B) the Administrator of the Environmental Protection Agency; and
(C) the Chief of Engineers.

(2) State participation

The Secretary may request that the Governors of the States in which Project offices are located be signatories to the memorandum of understanding.

(c) Designation of qualified staff

(1) In general

Not later than 30 days after the date of the signing of the memorandum of understanding under subsection (b), all Federal signatory parties shall, if appropriate, assign to each of the field offices identified in subsection (d) an employee who has expertise in the regulatory issues relating to the office in which the employee is employed, including, as applicable, particular expertise in—
(A) the consultations and the preparation of biological opinions under section 1536 of title 16;
(B) permits under section 1344 of title 33;
(C) regulatory matters under the Clean Air Act (42 U.S.C. 7401 et seq.);
(D) planning under the National Forest Management Act of 1976 (16 U.S.C. 472a et seq.); and
(E) the preparation of analyses under the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.).

(2) Duties

Each employee assigned under paragraph (1) shall—

(A) not later than 90 days after the date of assignment, report to the Bureau of Land Management Field Managers in the office to which the employee is assigned;

(B) be responsible for all issues relating to the jurisdiction of the home office or agency of the employee; and

(C) participate as part of the team of personnel working on proposed energy projects, planning, and environmental analyses.

(d) Project offices

The following Bureau of Land Management Offices shall serve as the Project offices:

(1) Rawlins Field Office, Wyoming.

(2) High Plains District Office, Wyoming.

(3) Montana/Dakotas State Office, Montana.

(4) Farmington Field Office, New Mexico.

(5) Carlsbad Field Office, New Mexico.

(6) Grand Junction/Glenwood Springs Field Office, Colorado.

(7) Vernal Field Office, Utah.

(8) Any other State, district, or field office of the Bureau of Land Management determined by the Secretary.

(e) Report to Congress

Not later than February 1 of the first fiscal year beginning after the date of enactment of the National Defense Authorization Act for Fiscal Year 2015 and each February 1 thereafter, the Secretary shall report to the Chairman and ranking minority Member of the Committee on Energy and Natural Resources of the Senate and the Committee on Natural Resources of the House of Representatives, which shall include—

(1) the allocation of funds to each Project office for the previous fiscal year; and

(2) the accomplishments of each Project office relating to the coordination and processing of oil and gas use authorizations during that fiscal year.

(f) Additional personnel

The Secretary shall assign to each field office identified in subsection (d) any additional personnel that are necessary to ensure the effective implementation of—

(1) the Project; and

(2) other programs administered by the field offices, including inspection and enforcement relating to energy development on Federal land, in accordance with the multiple use mandate of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1701 et seq.).

(g) Omitted

(h) Transfer of funds

For the purposes of coordination and processing of oil and gas use authorizations on Federal land under the administration of the Project offices identified in subsection (d), the Secretary may authorize the expenditure or transfer of such funds as are necessary to—

(1) the United States Fish and Wildlife Service;

(2) the Bureau of Indian Affairs;

(3) the Forest Service;

(4) the Environmental Protection Agency;

(5) the Corps of Engineers; and

(6) the States in which Project offices are located.

(i) Savings provision

Nothing in this section affects—

(1) the operation of any Federal or State law; or

(2) any delegation of authority made by the head of a Federal agency whose employees are participating in the Project.

(Pub. L. 109–58, title III, §365, Aug. 8, 2005, 119 Stat. 723; Pub. L. 113–69, §1, Dec. 26, 2013, 127 Stat. 1207; Pub. L. 113–291, div. B, title XXX, §3021(a), Dec. 19, 2014, 128 Stat. 3759.)

The Clean Air Act, referred to in subsec. (c)(1)(C), is act July 14, 1955, ch. 360, 69 Stat. 322, as amended, which is classified generally to chapter 85 (§7401 et seq.) of this title. For complete classification of this Act to the Code, see Short Title note set out under section 7401 of this title and Tables.

The National Forest Management Act of 1976, referred to in subsec. (c)(1)(D), is Pub. L. 94–588, Oct. 22, 1976, 90 Stat. 2949, as amended, which enacted sections 472a, 521b, 1600, and 1611 to 1614 of Title 16, Conservation, amended sections 500, 515, 516, 518, 576b, and 1601 to 1610 of Title 16, repealed sections 476, 513, and 514 of Title 16, and enacted provisions set out as notes under sections 476, 513, 528, 594–2, and 1600 of Title 16. For complete classification of this Act to the Code, see Short Title of 1976 Amendment note set out under section 1600 of Title 16 and Tables.

The National Environmental Policy Act of 1969, referred to in subsec. (c)(1)(E), is Pub. L. 91–190, Jan. 1, 1970, 83 Stat. 852, as amended, which is classified generally to chapter 55 (§4321 et seq.) of this title. For complete classification of this Act to the Code, see Short Title note set out under section 4321 of this title and Tables.

The date of enactment of the National Defense Authorization Act for Fiscal Year 2015, referred to in subsec. (e), probably means the date of enactment of the Carl Levin and Howard P. "Buck" McKeon National Defense Authorization Act for Fiscal Year 2015, Pub. L. 113–291, which was approved Dec. 19, 2014.

The Federal Land Policy and Management Act of 1976, referred to in subsec. (f)(2), is Pub. L. 94–579, Oct. 21, 1976, 90 Stat. 2743, as amended, which is classified principally to chapter 35 (§1701 et seq.) of Title 43, Public Lands. For complete classification of this Act to the Code, see Short Title note set out under section 1701 of Title 43 and Tables.

CODIFICATION

Section is comprised of section 365 of Pub. L. 109–58. Subsec. (g) of section 365 of Pub. L. 109–58 amended section 191 of Title 30, Mineral Lands and Mining.

AMENDMENTS

2014—Pub. L. 113–291, §3021(a)(1), struck out "Pilot" before "Project" in section catchline.

Subsec. (a). Pub. L. 113–291, §3021(a)(2), substituted "Project" for "Pilot Project" in two places.

Subsec. (b)(2). Pub. L. 113–291, §3021(a)(3), substituted "the States in which Project offices are located" for "Wyoming, Montana, Colorado, Utah, and New Mexico".

Subsec. (d). Pub. L. 113–291, §3021(a)(4)(A), struck out "Pilot" before "Project" in heading.

Pub. L. 113–291, §3021(a)(2), substituted "Project" for "Pilot Project" in introductory provisions.

Subsec. (d)(8). Pub. L. 113–291, §3021(a)(4)(B), added par. (8).

Subsec. (e). Pub. L. 113–291, §3021(a)(5), added subsec. (e) and struck out former subsec. (e) which required the Secretary to submit to Congress a report about the Pilot Project not later than 3 years after Aug. 8, 2005.

Subsecs. (e)(1), (2), (f)(1), (h). Pub. L. 113–291, §3021(a)(2), substituted "Project" for "Pilot Project".

Subsec. (h)(6). Pub. L. 113–291, §3021(a)(6), added par. (6) and struck out former par. (6) which read as follows: "the States of Wyoming, Montana, Colorado, Utah, and New Mexico."

Subsec. (i). Pub. L. 113–291, §3021(a)(7), (8), redesignated subsec. (j) as (i) and struck out former subsec. (i). Prior to amendment, text read as follows: "During the period in which the Project is authorized, the Secretary shall not implement a rulemaking that would enable an increase in fees to recover additional costs related to processing drilling-related permit applications and use authorizations."

Pub. L. 113–291, §3021(a)(2), substituted "Project" for "Pilot Project".

Subsec. (j)(2). Pub. L. 113–291, §3021(a)(2), substituted "Project" for "Pilot Project".

2013—Subsec. (d). Pub. L. 113–69 added subsec. (d) and struck out former subsec. (d). Prior to amendment, text read as follows: "The following Bureau of Land Management Field Offices shall serve as the Pilot Project offices:

"(1) Rawlins, Wyoming.

"(2) Buffalo, Wyoming.
"(3) Miles City, Montana.
"(4) Farmington, New Mexico.
"(5) Carlsbad, New Mexico.
"(6) Grand Junction/Glenwood Springs, Colorado.
"(7) Vernal, Utah."

§15925. Fair market value determinations for linear rights-of-way across public lands and national forests

(a) Update of fee schedule

Not later than 1 year after August 8, 2005—

(1) the Secretary of the Interior shall update section 2806.20 of title 43, Code of Federal Regulations, as in effect on August 8, 2005, to revise the per acre rental fee zone value schedule by State, county, and type of linear right-of-way use to reflect current values of land in each zone; and

(2) the Secretary of Agriculture shall make the same revision for linear rights-of-way granted, issued, or renewed under title V of the Federal Lands Policy and Management Act of 1976 (43 U.S.C. 1761 et seq.) on National Forest System land.

(b) Fair market value rental determination for linear rights-of-way

The fair market value rent of a linear right-of-way across public lands or National Forest System lands issued under section 504 of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1764) or section 185 of title 30 shall be determined in accordance with subpart 2806 of title 43, Code of Federal Regulations, as in effect on August 8, 2005 (including the annual or periodic updates specified in the regulations), and as updated in accordance with subsection (a).

(Pub. L. 109–58, title III, §367, Aug. 8, 2005, 119 Stat. 726.)

EDITORIAL NOTES

REFERENCES IN TEXT

The Federal Land Policy and Management Act of 1976, referred to in subsec. (a)(2), is Pub. L. 94–579, Oct. 21, 1976, 90 Stat. 2743, as amended. Title V of the Act is classified generally to subchapter V (§1761 et seq.) of chapter 35 of Title 43, Public Lands. For complete classification of this Act to the Code, see Short Title note set out under section 1701 of Title 43 and Tables.

§15926. Energy right-of-way corridors on Federal land

(a) Western States

Not later than 2 years after August 8, 2005, the Secretary of Agriculture, the Secretary of Commerce, the Secretary of Defense, the Secretary of Energy, and the Secretary of the Interior (in this section referred to collectively as "the Secretaries"), in consultation with the Federal Energy Regulatory Commission, States, tribal or local units of governments as appropriate, affected utility industries, and other interested persons, shall consult with each other and shall—

(1) designate, under their respective authorities, corridors for oil, gas, and hydrogen pipelines and electricity transmission and distribution facilities on Federal land in the eleven contiguous Western States (as defined in section 1702(o) of title 43; [1]

(2) perform any environmental reviews that may be required to complete the designation of such corridors; and

(3) incorporate the designated corridors into the relevant agency land use and resource management plans or equivalent plans.

(b) Other States

Not later than 4 years after August 8, 2005, the Secretaries, in consultation with the Federal Energy Regulatory Commission, affected utility industries, and other interested persons, shall jointly—

(1) identify corridors for oil, gas, and hydrogen pipelines and electricity transmission and distribution facilities on Federal land in States other than those described in subsection (a); and

(2) schedule prompt action to identify, designate, and incorporate the corridors into the applicable land use plans.

(c) Ongoing responsibilities

The Secretaries, in consultation with the Federal Energy Regulatory Commission, affected utility industries, and other interested parties, shall establish procedures under their respective authorities that—

(1) ensure that additional corridors for oil, gas, and hydrogen pipelines and electricity transmission and distribution facilities on Federal land are promptly identified and designated as necessary; and

(2) expedite applications to construct or modify oil, gas, and hydrogen pipelines and electricity transmission and distribution facilities within such corridors, taking into account prior analyses and environmental reviews undertaken during the designation of such corridors.

(d) Considerations

In carrying out this section, the Secretaries shall take into account the need for upgraded and new electricity transmission and distribution facilities to—

(1) improve reliability;

(2) relieve congestion; and

(3) enhance the capability of the national grid to deliver electricity.

(e) Specifications of corridor

A corridor designated under this section shall, at a minimum, specify the centerline, width, and compatible uses of the corridor.

(Pub. L. 109–58, title III, §368, Aug. 8, 2005, 119 Stat. 727.)

EXECUTIVE DOCUMENTS

TRANSFORMING OUR NATION'S ELECTRIC GRID THROUGH IMPROVED SITING, PERMITTING, AND REVIEW

Memorandum of President of the United States, June 7, 2013, 78 F.R. 35539, provided:

Memorandum for the Heads of Executive Departments and Agencies

Our Nation's electric transmission grid is the backbone of our economy, a key factor in future economic growth, and a critical component of our energy security. Countries that harness the power of clean, renewable energy will be best positioned to thrive in the global economy while protecting the environment and increasing prosperity. In order to ensure the growth of America's clean energy economy and improve energy security, we must modernize and expand our electric transmission grid. Modernizing our grid will improve energy reliability and resiliency, allowing us to minimize power outages and manage cyber-security threats. By diversifying power sources and reducing congestion, a modernized grid will also create cost savings for consumers and spur economic growth.

Modernizing our Nation's electric transmission grid requires improvements in how transmission lines are sited, permitted, and reviewed. As part of our efforts to improve the performance of Federal siting, permitting, and review processes for infrastructure development, my Administration created a Rapid Response Team for Transmission (RRTT), a collaborative effort involving nine different executive departments and agencies (agencies), which is working to improve the efficiency and effectiveness of transmission siting, permitting, and review, increase interagency coordination and transparency, and increase the predictability of the siting, permitting, and review processes. In furtherance of Executive Order 13604 of March 22, 2012 (Improving Performance of Federal Permitting and Review of Infrastructure Projects), this memorandum builds upon the

work of the RRTT to improve the Federal siting, permitting, and review processes for transmission projects. Because a single project may cross multiple governmental jurisdictions over hundreds of miles, robust collaboration among Federal, State, local, and tribal governments must be a critical component of this effort.

An important avenue to improve these processes is the designation of energy right-of-way corridors (energy corridors) on Federal lands. Section 368 of the Energy Policy Act of 2005 (the "Act") (42 U.S.C. 15926), requires the Secretaries of Agriculture, Commerce, Defense, Energy, and the Interior (Secretaries) to undertake a continued effort to identify and designate such energy corridors. Energy corridors include areas on Federal lands that are most suitable for siting transmission projects because the chosen areas minimize regulatory conflicts and impacts on environmental and cultural resources, and also address concerns of local communities. Designated energy corridors provide an opportunity to co-locate projects and share environmental and cultural resource impact data to reduce overall impacts on environmental and cultural resources and reduce the need for land use plan amendments in support of the authorization of transmission rights-of-way. The designation of energy corridors can help expedite the siting, permitting, and review processes for projects within such corridors, as well as improve the predictability and transparency of these processes. Pursuant to the Act, in 2009, the Secretaries of the Interior and Agriculture each designated energy corridors for the 11 contiguous Western States, as defined in section 368 of the Act. Energy corridors have not yet been designated in States other than those identified as Western States. It is important that agencies build on their existing efforts in a coordinated manner.

By the authority vested in me as President by the Constitution and the laws of the United States of America, I hereby direct the following:

SECTION 1. *Principles for Establishing Energy Corridors*. (a) In carrying out the requirements of this memorandum regarding energy corridors, the Secretaries shall:

(i) collaborate with Member Agencies of the Steering Committee on Federal Infrastructure Permitting and Review Process Improvement (Steering Committee), established by Executive Order 13604, which shall provide prompt and adequate information to ensure that additional corridor designations and revisions are consistent with the statutory responsibilities and activities of the Member Agencies and enable timely actions by the Secretaries;

(ii) focus on facilitating renewable energy resources and improving grid resiliency and comply with the requirements in section 368 of the Act, by ensuring that energy corridors address the need for upgraded and new electric transmission and distribution facilities to improve reliability, relieve congestion, and enhance the capability of the national grid to deliver electricity;

(iii) use integrated project planning and consult with other Federal agencies, State, local, and tribal governments, non-governmental organizations, and the public early in the process of designating the energy corridors, so as to avoid resource conflicts to the extent practicable and make strategic decisions to balance policy priorities;

(iv) collaborate with State, local, and tribal governments to ensure, to the extent practicable, that energy corridors can connect effectively between Federal lands;

(v) minimize the proliferation of dispersed and duplicative rights-of-way crossing Federal lands while acting consistent with subsection (a)(ii) of this section;

(vi) design energy corridors to minimize impacts on environmental and cultural resources to the extent practicable, including impacts that may occur outside the boundaries of Federal lands, and minimize impacts on the Nation's aviation system and the mission of the Armed Forces; and

(vii) develop interagency mitigation plans, where appropriate, for environmental and cultural resources potentially impacted by projects sited in the energy corridors to provide project developers predictability on how to seek first to avoid, then attempt to minimize any negative effects from, and lastly to mitigate such impacts, where otherwise unavoidable. Mitigation plans shall:

(A) be developed at the landscape or watershed scale with interagency collaboration, be based on conservation and resource management plans and regional environmental and cultural resource analyses, and identify priority areas for compensatory mitigation where appropriate;

(B) be developed in consultation with other Federal agencies, State, local, and tribal governments, non-governmental organizations, and the public;

(C) include clear and measurable mitigation goals, apply adaptive management methods, and use performance measures to evaluate outcomes and ensure accountability and the long-term effectiveness of mitigation activities;

(D) include useful mechanisms, such as mitigation banks and in lieu fee programs, where appropriate for achieving statutory and regulatory goals; and

(E) be considered in the energy corridor designation process.

(b) The Secretary of Energy shall assess and synthesize current research related to the requirements set forth

in subsection (a)(ii) of this section, such as transmission planning authority studies, congestion studies, and renewable energy assessments. Based on that analysis, the Secretary of Energy shall provide to the Steering Committee a Transmission Corridor Assessment Report (Report) that provides recommendations on how to best achieve the requirements set forth in subsection (a)(ii) of this section. Where research is available, the Report shall include an assessment of whether investment in co-locating with or upgrading existing transmission facilities, distributed generation, improved energy efficiency, or demand response may play a role in meeting these requirements. In preparing the Report, the Secretary of Energy shall consult with Federal, State, local, and tribal governments, affected industries, environmental and community representatives, transmission planning authorities, and other interested parties. The Report shall be provided in two parts. The first part, which shall provide recommendations with respect to the Western States, shall be provided by December 1, 2013, and the second part, which shall provide recommendations with respect to States other than the Western States, shall be provided by April 1, 2014.

SEC. 2. *Energy Corridors for the Western States*. (a) The Secretaries shall strongly encourage the use of designated energy corridors on Federal land in the Western States where the energy corridors are consistent with the requirements in this memorandum and other applicable requirements, unless it can be demonstrated that a project cannot be constructed within a designated corridor due to resource constraints on Federal lands. Additionally, the Secretaries, pursuant to section 368 of the Act, shall continue to evaluate designated energy corridors to determine the necessity for revisions, deletions, or additions to those energy corridors. Also, the Secretaries, coordinated by the Secretaries of the Interior and Agriculture, shall:

(i) by July 12, 2013, provide to the Steering Committee a plan for producing the Western corridor study and regional corridor assessments (as specified in subsection (a)(ii) and (a)(iii) of this section), which shall include descriptions of timelines and milestones, existing resources to be utilized, plans for collaborating with Member Agencies, and plans for consulting with other Federal agencies, State, local, and tribal governments, affected industries, environmental and community representatives, and other interested parties;

(ii) within 12 months of completion of the plan pursuant to subsection (a)(i) of this section, provide to the Steering Committee a Western corridor study, which shall assess the utility of the existing designated energy corridors;

(iii) provide to the Steering Committee regional corridor assessments, which shall examine the need for additions, deletions, and revisions to the existing energy corridors for the Western States by region. The regional corridor assessments shall evaluate energy corridors based on the requirements set forth in subsection (a) of section 1, the Report issued pursuant to subsection (b) of section 1, and the Western corridor study. The regional corridor assessments shall be completed promptly, depending on resource availability, with at least the first assessment completed within 12 months of completion of the plan pursuant to subsection (a)(i) of this section;

(iv) by November 12, 2014, provide to the Steering Committee and the Office of Management and Budget (OMB) an implementation plan for achieving the requirements set forth in subsections (a)(v) and (a)(vi) of this section based on the regional corridor assessments. The implementation plan shall include timelines and milestones that prioritize coordinated agency actions and a detailed budget;

(v) promptly after the completion of the regional corridor assessments and prioritized based on the availability of resources, undertake coordinated land use planning and environmental and cultural resource review processes to consider additions, deletions, or revisions to the current Western energy corridors, consistent with the requirements set forth in subsection (a) of section 1, the Report required issued pursuant to subsection (b) of section 1, and the Western corridor study; and

(vi) as appropriate, after completing the required environmental and cultural resource analyses, promptly incorporate the designated Western corridor additions, deletions, or revisions and any mitigation plans developed pursuant to subsection (a)(vii) of section 1 into relevant agency land use and resource management plans or equivalent plans prioritized based on the availability of resources.

(b) The Member Agencies, where authorized, shall complete any required land use planning, internal policy, and interagency agreements to formalize the designation of energy corridors implemented pursuant to subsection (a)(vi) of this section. The Secretaries and Member Agencies shall also develop and implement a process for expediting applications for applicants whose projects are sited primarily within the designated energy corridors in the Western States, and who have committed to implement the necessary mitigation activities, including those required by the interagency mitigation plans required by subsection (a)(vii) of section 1.

SEC. 3. *Energy Corridors for the Non-Western States*. The Secretaries, in collaboration with the Member Agencies, shall continue to analyze where energy corridors on Federal land in States other than those identified as Western States may be necessary to address the recommendations in the Report issued pursuant to subsection (b) of section 1 and the requirements set forth in subsection (a) of section 1, and to expedite the

siting, permitting, and review of electric transmission projects on Federal lands in those States. By September 1, 2014, the Secretaries shall provide the Steering Committee with updated recommendations regarding designating energy corridors in those States.

SEC. 4. *Improved Transmission Siting, Permitting, and Review Processes*. (a) Member Agencies shall develop an integrated, interagency pre-application process for significant onshore electric transmission projects requiring Federal approval. The process shall be designed to: promote predictability in the Federal siting, permitting, and review processes; encourage early engagement, coordination, and collaboration of Federal, State, local, and tribal governments, non-governmental organizations, and the public; increase the use of integrated project planning early in the siting, permitting, and review processes; facilitate early identification of issues that could diminish the likelihood that projects will ultimately be permitted; promote early planning for integrated and strategic mitigation plans; expedite siting, permitting, and review processes through a mutual understanding of the needs of all affected Federal agencies and State, local, and tribal governments; and improve environmental and cultural outcomes.

By September 30, 2013, Member Agencies shall provide to the Chief Performance Officer (CPO) and the Chair of the Council on Environmental Quality a plan, including timelines and milestones, for implementing this process.

(b) In implementing Executive Order 13604, Member Agencies shall:

(i) improve siting, permitting, and review processes for all electric transmission projects, both onshore and offshore, requiring Federal approval. Such improvements shall include: increasing efficiency and interagency coordination; increasing accountability; ensuring an efficient decision-making process within each agency; to the extent possible, unifying and harmonizing processes among agencies; improving consistency and transparency within each agency and among all agencies; improving environmental and cultural outcomes; providing mechanisms for early and frequent public and local community outreach; and enabling innovative mechanisms for mitigation and mitigation at the landscape or watershed scale; and

(ii) facilitate coordination, integration, and harmonization of the siting, permitting, and review processes of Federal, State, local, and tribal governments for transmission projects to reduce the overall regulatory burden while improving environmental and cultural outcomes.

SEC. 5. *General Provisions*. (a) The Secretaries and the Member Agencies shall coordinate the activities required by this memorandum with the Steering Committee and shall report to the Steering Committee their progress on meeting the milestones identified pursuant to this memorandum, consistent with the plans developed pursuant to sections 2 and 4 of this memorandum. The CPO shall report on the implementation of this memorandum in the report to the President submitted pursuant to section 2(e) of Executive Order 13604.

(b) In carrying out their responsibilities under this memorandum, Member Agencies shall consult relevant independent agencies, including the Federal Energy Regulatory Commission.

(c) This memorandum shall be implemented consistent with applicable law and subject to the availability of appropriations.

(d) This memorandum shall be implemented consistent with Executive Order 13175 of November 6, 2000 (Consultation and Coordination with Indian Tribal Governments) and my memorandum of November 5, 2009 (Tribal Consultation).

(e) Nothing in this memorandum shall be construed to impair or otherwise affect:

(i) the authority granted by law to an executive department or agency, or the head thereof; or

(ii) the functions of the Director of OMB relating to budgetary, administrative, or legislative proposals.

(f) This memorandum is not intended to, and does not, create any right or benefit, substantive or procedural, enforceable at law or in equity by any party against the United States, its departments, agencies, or entities, its officers, employees, or agents, or any other person.

(g) The Director of OMB is hereby authorized and directed to publish this memorandum in the Federal Register.

BARACK OBAMA.

[1] *So in original. A closing parenthesis probably should follow "title 43".*

§15927. Oil shale, tar sands, and other strategic unconventional fuels

(a) Short title

This section may be cited as the "Oil Shale, Tar Sands, and Other Strategic Unconventional Fuels Act of 2005".

(b) Declaration of policy

Congress declares that it is the policy of the United States that—

(1) United States oil shale, tar sands, and other unconventional fuels are strategically important domestic resources that should be developed to reduce the growing dependence of the United States on politically and economically unstable sources of foreign oil imports;

(2) the development of oil shale, tar sands, and other strategic unconventional fuels, for research and commercial development, should be conducted in an environmentally sound manner, using practices that minimize impacts; and

(3) development of those strategic unconventional fuels should occur, with an emphasis on sustainability, to benefit the United States while taking into account affected States and communities.

(c) Leasing program for research and development of oil shale and tar sands

In accordance with section 241 of title 30 and any other applicable law, except as provided in this section, not later than 180 days after August 8, 2005, from land otherwise available for leasing, the Secretary of the Interior (referred to in this section as the "Secretary") shall make available for leasing such land as the Secretary considers to be necessary to conduct research and development activities with respect to technologies for the recovery of liquid fuels from oil shale and tar sands resources on public lands. Prospective public lands within each of the States of Colorado, Utah, and Wyoming shall be made available for such research and development leasing.

(d) Programmatic environmental impact statement and commercial leasing program for oil shale and tar sands

(1) Programmatic environmental impact statement

Not later than 18 months after August 8, 2005, in accordance with section 4332(2)(C) of this title, the Secretary shall complete a programmatic environmental impact statement for a commercial leasing program for oil shale and tar sands resources on public lands, with an emphasis on the most geologically prospective lands within each of the States of Colorado, Utah, and Wyoming.

(2) Final regulation

Not later than 6 months after the completion of the programmatic environmental impact statement under this subsection, the Secretary shall publish a final regulation establishing such program.

(e) Commencement of commercial leasing of oil shale and tar sands

Not later than 180 days after publication of the final regulation required by subsection (d), the Secretary shall consult with the Governors of States with significant oil shale and tar sands resources on public lands, representatives of local governments in such States, interested Indian tribes, and other interested persons, to determine the level of support and interest in the States in the development of tar sands and oil shale resources. If the Secretary finds sufficient support and interest exists in a State, the Secretary may conduct a lease sale in that State under the commercial leasing program regulations. Evidence of interest in a lease sale under this subsection shall include, but not be limited to, appropriate areas nominated for leasing by potential lessees and other interested parties.

(f) Diligent development requirements

The Secretary shall, by regulation, designate work requirements and milestones to ensure the diligent development of the lease.

(g) Initial report by the Secretary of the Interior

Within 90 days after August 8, 2005, the Secretary of the Interior shall report to the Committee on Resources of the House of Representatives and the Committee on Energy and Natural Resources of the Senate on—

(1) the interim actions necessary to—

(A) develop the program, complete the programmatic environmental impact statement, and promulgate the final regulation as required by subsection (d); and

(B) conduct the first lease sales under the program as required by subsection (e); and

(2) a schedule to complete such actions within the time limits mandated by this section.

(h) Task Force

(1) Establishment

The Secretary of Energy, in cooperation with the Secretary of the Interior and the Secretary of Defense, shall establish a task force to develop a program to coordinate and accelerate the commercial development of strategic unconventional fuels, including but not limited to oil shale and tar sands resources within the United States, in an integrated manner.

(2) Composition

The Task Force shall be composed of—

(A) the Secretary of Energy (or the designee of the Secretary);

(B) the Secretary of the Interior (or the designee of the Secretary of the Interior);

(C) the Secretary of Defense (or the designee of the Secretary of Defense);

(D) the Governors of affected States; and

(E) representatives of local governments in affected areas.

(3) Recommendations

The Task Force shall make such recommendations regarding promoting the development of the strategic unconventional fuels resources within the United States as it may deem appropriate.

(4) Partnerships

The Task Force shall make recommendations with respect to initiating a partnership with the Province of Alberta, Canada, for purposes of sharing information relating to the development and production of oil from tar sands, and similar partnerships with other nations that contain significant oil shale resources.

(5) Reports

(A) Initial report

Not later than 180 days after August 8, 2005, the Task Force shall submit to the President and Congress a report that describes the analysis and recommendations of the Task Force.

(B) Subsequent reports

The Secretary shall provide an annual report describing the progress in developing the strategic unconventional fuels resources within the United States for each of the 5 years following submission of the report provided for in subparagraph (A).

(i) Office of Petroleum Reserves

(1) In general

The Office of Petroleum Reserves of the Department of Energy shall—

(A) coordinate the creation and implementation of a commercial strategic fuel development program for the United States;

(B) evaluate the strategic importance of unconventional sources of strategic fuels to the security of the United States;

(C) promote and coordinate Federal Government actions that facilitate the development of strategic fuels in order to effectively address the energy supply needs of the United States;

(D) identify, assess, and recommend appropriate actions of the Federal Government required to assist in the development and manufacturing of strategic fuels; and

(E) coordinate and facilitate appropriate relationships between private industry and the Federal Government to promote sufficient and timely private investment to commercialize strategic fuels for domestic and military use.

(2) Consultation and coordination

The Office of Petroleum Reserves shall work closely with the Task Force and coordinate its staff support.

(j) Omitted

(k) Interagency coordination and expeditious review of permitting process

(1) Department of the Interior as lead agency

Upon written request of a prospective applicant for Federal authorization to develop a proposed oil shale or tar sands project, the Department of the Interior shall act as the lead Federal agency for the purposes of coordinating all applicable Federal authorizations and environmental reviews. To the maximum extent practicable under applicable Federal law, the Secretary shall coordinate this Federal authorization and review process with any Indian tribes and State and local agencies responsible for conducting any separate permitting and environmental reviews.

(2) Implementing regulations

Not later than 6 months after August 8, 2005, the Secretary shall issue any regulations necessary to implement this subsection.

(l) Cost-shared demonstration technologies

(1) Identification

The Secretary of Energy shall identify technologies for the development of oil shale and tar sands that—

(A) are ready for demonstration at a commercially-representative scale; and

(B) have a high probability of leading to commercial production.

(2) Assistance

For each technology identified under paragraph (1), the Secretary of Energy may provide—

(A) technical assistance;

(B) assistance in meeting environmental and regulatory requirements; and

(C) cost-sharing assistance.

(m) National oil shale and tar sands assessment

(1) Assessment

(A) In general

The Secretary shall carry out a national assessment of oil shale and tar sands resources for the purposes of evaluating and mapping oil shale and tar sands deposits, in the geographic areas described in subparagraph (B). In conducting such an assessment, the Secretary shall make use of the extensive geological assessment work for oil shale and tar sands already conducted by the United States Geological Survey.

(B) Geographic areas

The geographic areas referred to in subparagraph (A), listed in the order in which the Secretary shall assign priority, are—

(i) the Green River Region of the States of Colorado, Utah, and Wyoming;

(ii) the Devonian oil shales and other hydrocarbon-bearing rocks having the nomenclature of "shale" located east of the Mississippi River; and

(iii) any remaining area in the central and western United States (including the State of Alaska) that contains oil shale and tar sands, as determined by the Secretary.

(2) Use of State surveys and universities

In carrying out the assessment under paragraph (1), the Secretary may request assistance from any State-administered geological survey or university.

(n) Land exchanges

(1) In general

To facilitate the recovery of oil shale and tar sands, especially in areas where Federal, State, and private lands are intermingled, the Secretary shall consider the use of land exchanges where appropriate and feasible to consolidate land ownership and mineral interests into manageable areas.

(2) Identification and priority of public lands

The Secretary shall identify public lands containing deposits of oil shale or tar sands within the Green River, Piceance Creek, Uintah, and Washakie geologic basins, and shall give priority to implementing land exchanges within those basins. The Secretary shall consider the geology of the respective basin in determining the optimum size of the lands to be consolidated.

(3) Compliance with section 1716 of title 43

A land exchange undertaken in furtherance of this subsection shall be implemented in accordance with section 1716 of title 43.

(o) Royalty rates for leases

The Secretary shall establish royalties, fees, rentals, bonus, or other payments for leases under this section that shall—

(1) encourage development of the oil shale and tar sands resource; and

(2) ensure a fair return to the United States.

(p) Heavy oil technical and economic assessment

The Secretary of Energy shall update the 1987 technical and economic assessment of domestic heavy oil resources that was prepared by the Interstate Oil and Gas Compact Commission. Such an update should include all of North America and cover all unconventional oil, including heavy oil, tar sands (oil sands), and oil shale.

(q) Omitted

(r) State water rights

Nothing in this section preempts or affects any State water law or interstate compact relating to water.

(s) Authorization of appropriations

There are authorized to be appropriated such sums as are necessary to carry out this section.

(Pub. L. 109–58, title III, §369, Aug. 8, 2005, 119 Stat. 728; Pub. L. 113–188, title VI, §601(b), Nov. 26, 2014, 128 Stat. 2019.)

EDITORIAL NOTES

CODIFICATION

Section is comprised of section 369 of Pub. L. 109–58. Subsecs. (j) and (q) of section 369 of Pub. L. 109–58 enacted section 2398a of Title 10, Armed Forces, and amended the table of sections for chapter 141 of Title 10 and sections 226 and 241 of Title 30, Mineral Lands and Mining.

AMENDMENTS

2014—Subsec. (i)(3). Pub. L. 113–188 struck out par. (3). Text read as follows: "Not later than 180 days after August 8, 2005, and annually thereafter, the Secretary shall submit to Congress a report that describes the activities of the Office of Petroleum Reserves carried out under this subsection."

STATUTORY NOTES AND RELATED SUBSIDIARIES

CHANGE OF NAME

Committee on Resources of House of Representatives changed to Committee on Natural Resources of House of Representatives by House Resolution No. 6, One Hundred Tenth Congress, Jan. 5, 2007.

§15928. Consultation regarding energy rights-of-way on public land

(a) Memorandum of understanding

(1) In general

Not later than 6 months after August 8, 2005, the Secretary of Energy, in consultation with the Secretary of the Interior, the Secretary of Agriculture, and the Secretary of Defense with respect to lands under their respective jurisdictions, shall enter into a memorandum of understanding to coordinate all applicable Federal authorizations and environmental reviews relating to a proposed or existing utility facility. To the maximum extent practicable under applicable law, the Secretary of Energy shall, to ensure timely review and permit decisions, coordinate such authorizations and reviews with any Indian tribes, multi-State entities, and State agencies that are responsible for conducting any separate permitting and environmental reviews of the affected utility facility.

(2) Contents

The memorandum of understanding shall include provisions that—

(A) establish—

(i) a unified right-of-way application form; and

(ii) an administrative procedure for processing right-of-way applications, including lines of authority, steps in application processing, and timeframes for application processing;

(B) provide for coordination of planning relating to the granting of the rights-of-way;

(C) provide for an agreement among the affected Federal agencies to prepare a single environmental review document to be used as the basis for all Federal authorization decisions; and

(D) provide for coordination of use of right-of-way stipulations to achieve consistency.

(b) Natural gas pipelines

(1) In general

With respect to permitting activities for interstate natural gas pipelines, the May 2002 document entitled "Interagency Agreement On Early Coordination Of Required Environmental And Historic Preservation Reviews Conducted In Conjunction With The Issuance Of Authorizations To Construct And Operate Interstate Natural Gas Pipelines Certificated By The Federal Energy Regulatory Commission" shall constitute compliance with subsection (a).

(2) Report

(A) In general

Not later than 1 year after August 8, 2005, and every 2 years thereafter, agencies that are signatories to the document referred to in paragraph (1) shall transmit to Congress a report on how the agencies under the jurisdiction of the Secretaries are incorporating and implementing the provisions of the document referred to in paragraph (1).

(B) Contents

The report shall address—

(i) efforts to implement the provisions of the document referred to in paragraph (1);

(ii) whether the efforts have had a streamlining effect;

(iii) further improvements to the permitting process of the agency; and

(iv) recommendations for inclusion of State and tribal governments in a coordinated permitting process.

(c) Definition of utility facility

In this section, the term "utility facility" means any privately, publicly, or cooperatively owned line, facility, or system—

(1) for the transportation of—

(A) oil, natural gas, synthetic liquid fuel, or gaseous fuel;

(B) any refined product produced from oil, natural gas, synthetic liquid fuel, or gaseous fuel; or

(C) products in support of the production of material referred to in subparagraph (A) or (B);

(2) for storage and terminal facilities in connection with the production of material referred to in paragraph (1); or

(3) for the generation, transmission, and distribution of electric energy.

(Pub. L. 109–58, title III, §372, Aug. 8, 2005, 119 Stat. 734.)

PART C—MISCELLANEOUS

§15941. Great Lakes oil and gas drilling ban

No Federal or State permit or lease shall be issued for new oil and gas slant, directional, or offshore drilling in or under one or more of the Great Lakes.

(Pub. L. 109–58, title III, §386, Aug. 8, 2005, 119 Stat. 744.)

§15942. NEPA review

(a) NEPA review

Action by the Secretary of the Interior in managing the public lands, or the Secretary of Agriculture in managing National Forest System Lands, with respect to any of the activities described in subsection (b) shall be subject to a rebuttable presumption that the use of a categorical exclusion under the National Environmental Policy Act of 1969 [42 U.S.C. 4321 et seq.] (NEPA) would apply if the activity is conducted pursuant to the Mineral Leasing Act [30 U.S.C. 181 et seq.] for the purpose of exploration or development of oil or gas.

(b) Activities described

The activities referred to in subsection (a) are the following:

(1) Individual surface disturbances of less than 5 acres so long as the total surface disturbance on the lease is not greater than 150 acres and site-specific analysis in a document prepared pursuant to NEPA has been previously completed.

(2) Drilling an oil or gas well at a location or well pad site at which drilling has occurred previously within 5 years prior to the date of spudding the well.

(3) Drilling an oil or gas well within a developed field for which an approved land use plan or any environmental document prepared pursuant to NEPA analyzed such drilling as a reasonably foreseeable activity, so long as such plan or document was approved within 5 years prior to the date of spudding the well.

(4) Placement of a pipeline in an approved right-of-way corridor, so long as the corridor was approved within 5 years prior to the date of placement of the pipeline.

(5) Maintenance of a minor activity, other than any construction or major renovation or a building or facility.

(Pub. L. 109–58, title III, §390, Aug. 8, 2005, 119 Stat. 747.)

EDITORIAL NOTES

The National Environmental Policy Act of 1969, referred to in subsec. (a), is Pub. L. 91–190, Jan. 1, 1970,

83 Stat. 852, as amended, which is classified generally to chapter 55 (§4321 et seq.) of this title. For complete classification of this Act to the Code, see Short Title note set out under section 4321 of this title and Tables.

The Mineral Leasing Act, referred to in subsec. (a), is act Feb. 25, 1920, ch. 85, 41 Stat. 437, as amended, which is classified generally to chapter 3A (§181 et seq.) of Title 30, Mineral Lands and Mining. For complete classification of this Act to the Code, see Short Title note set out under section 181 of Title 30 and Tables.

§15943. Certain gathering lines located on Federal land and Indian land

(a) Definitions

In this section:

(1) Federal land

(A) In general

The term "Federal land" means land the title to which is held by the United States.

(B) Exclusions

The term "Federal land" does not include—

(i) a unit of the National Park System;

(ii) a unit of the National Wildlife Refuge System;

(iii) a component of the National Wilderness Preservation System;

(iv) a wilderness study area within the National Forest System; or

(v) Indian land.

(2) Gathering line and associated field compression or pumping unit

(A) In general

The term "gathering line and associated field compression or pumping unit" means—

(i) a pipeline that is installed to transport oil, natural gas and related constituents, or produced water from 1 or more wells drilled and completed to produce oil or gas; and

(ii) if necessary, 1 or more compressors or pumps to raise the pressure of the transported oil, natural gas and related constituents, or produced water to higher pressures necessary to enable the oil, natural gas and related constituents, or produced water to flow into pipelines and other facilities.

(B) Inclusions

The term "gathering line and associated field compression or pumping unit" includes a pipeline or associated compression or pumping unit that is installed to transport oil or natural gas from a processing plant to a common carrier pipeline or facility.

(C) Exclusions

The term "gathering line and associated field compression or pumping unit" does not include a common carrier pipeline.

(3) Indian land

The term "Indian land" means land the title to which is held by—

(A) the United States in trust for an Indian Tribe or an individual Indian; or

(B) an Indian Tribe or an individual Indian subject to a restriction by the United States against alienation.

(4) Produced water

The term "produced water" means water produced from an oil or gas well bore that is not a fluid prepared at, or transported to, the well site to resolve a specific oil or gas well bore or reservoir condition.

(5) Secretary

The term "Secretary" means the Secretary of the Interior.

(b) Certain gathering lines

(1) In general

Subject to paragraph (2), the issuance of a sundry notice or right-of-way for a gathering line and associated field compression or pumping unit that is located on Federal land or Indian land and that services any oil or gas well may be considered by the Secretary to be an action that is categorically excluded (as defined in section 1508.1 of title 40, Code of Federal Regulations (as in effect on November 15, 2021)) for purposes of the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.) if the gathering line and associated field compression or pumping unit—

(A) are within a field or unit for which an approved land use plan or an environmental document prepared pursuant to the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.) analyzed transportation of oil, natural gas, or produced water from 1 or more oil or gas wells in the field or unit as a reasonably foreseeable activity;

(B) are located adjacent to or within—

(i) any existing disturbed area; or

(ii) an existing corridor for a right-of-way; and

(C) would reduce—

(i) in the case of a gathering line and associated field compression or pumping unit transporting methane, the total quantity of methane that would otherwise be vented, flared, or unintentionally emitted from the field or unit; or

(ii) in the case of a gathering line and associated field compression or pumping unit not transporting methane, the vehicular traffic that would otherwise service the field or unit.

(2) Applicability

Paragraph (1) shall apply to Indian land, or a portion of Indian land—

(A) to which the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.) applies; and

(B) for which the Indian Tribe with jurisdiction over the Indian land submits to the Secretary a written request that paragraph (1) apply to that Indian land (or portion of Indian land).

(c) Effect on other law

Nothing in this section—

(1) affects or alters any requirement—

(A) relating to prior consent under—

(i) section 324 of title 25; or

(ii) section 5123(e) of title 25 (commonly known as the "Indian Reorganization Act" [1]);

(B) under section 306108 of title 54; or

(C) under any other Federal law (including regulations) relating to Tribal consent for rights-of-way across Indian land; or

(2) makes the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.) applicable to land to which that Act otherwise would not apply.

(Pub. L. 117–58, div. A, title I, §11318, Nov. 15, 2021, 135 Stat. 543.)

EDITORIAL NOTES

REFERENCES IN TEXT

The National Environmental Policy Act of 1969, referred to in subsecs. (b)(1), (2)(A) and (c)(2), is Pub. L. 91–190, Jan. 1, 1970, 83 Stat. 852, which is classified generally to chapter 55 (§4321 et seq.) of this title. For complete classification of this Act to the Code, see Short Title note set out under section 4321 of this title and Tables.

The Indian Reorganization Act, referred to in subsec. (c)(1)(A)(ii), is act June 18, 1934, ch. 576, 48 Stat.

984, which is classified generally to chapter 45 (§5101 et seq.) of Title 25, Indians. For complete classification of this Act to the Code, see Short Title note set out under section 5101 of Title 25 and Tables.

CODIFICATION

Section was enacted as part of the Surface Transportation Reauthorization Act of 2021, and also as part of the Infrastructure Investment and Jobs Act, and not as part of the Energy Policy Act of 2005 which comprises this chapter.

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective Oct. 1, 2021, see section 10003 of Pub. L. 117–58, set out as an Effective Date of 2021 Amendment note under section 101 of Title 23, Highways.

PART D—REFINERY REVITALIZATION

§15951. Findings and definitions

(a) Findings

Congress finds that—

(1) it serves the national interest to increase petroleum refining capacity for gasoline, heating oil, diesel fuel, jet fuel, kerosene, and petrochemical feedstocks wherever located within the United States, to bring more supply to the markets for the use of the American people;

(2) United States demand for refined petroleum products currently exceeds the country's petroleum refining capacity to produce such products;

(3) this excess demand has been met with increased imports;

(4) due to lack of capacity, refined petroleum product imports are expected to grow from 7.9 percent to 10.7 percent of total refined product by 2025;

(5) refiners are still subject to significant environmental and other regulations and face several new requirements under the Clean Air Act (42 U.S.C. 7401 et seq.) over the next decade; and

(6) better coordination of Federal and State regulatory reviews may help facilitate siting and construction of new refineries to meet the demand in the United States for refined products.

(b) Definitions

In this part:

(1) Administrator

The term "Administrator" means the Administrator of the Environmental Protection Agency.

(2) State

The term "State" means—

(A) a State;

(B) the Commonwealth of Puerto Rico; and

(C) any other territory or possession of the United States.

(Pub. L. 109–58, title III, §391, Aug. 8, 2005, 119 Stat. 748.)

EDITORIAL NOTES

REFERENCES IN TEXT

The Clean Air Act, referred to in subsec. (a)(5), is act July 14, 1955, ch. 360, 69 Stat. 322, as amended,

which is classified generally to chapter 85 (§7401 et seq.) of this title. For complete classification of this Act to the Code, see Short Title note set out under section 7401 of this title and Tables.

§15952. Federal-State regulatory coordination and assistance

(a) In general

At the request of the Governor of a State, the Administrator may enter into a refinery permitting cooperative agreement with the State, under which each party to the agreement identifies steps, including timelines, that it will take to streamline the consideration of Federal and State environmental permits for a new refinery.

(b) Authority under agreement

The Administrator shall be authorized to—

(1) accept from a refiner a consolidated application for all permits required from the Environmental Protection Agency, to the extent consistent with other applicable law;

(2) enter into memoranda of agreement with other Federal agencies to coordinate consideration of refinery applications and permits among Federal agencies; and

(3) enter into memoranda of agreement with a State, under which Federal and State review of refinery permit applications will be coordinated and concurrently considered, to the extent practicable.

(c) State assistance

The Administrator is authorized to provide financial assistance to State governments to facilitate the hiring of additional personnel with expertise in fields relevant to consideration of refinery permits.

(d) Other assistance

The Administrator is authorized to provide technical, legal, or other assistance to State governments to facilitate their review of applications to build new refineries.

(Pub. L. 109–58, title III, §392, Aug. 8, 2005, 119 Stat. 749.)

SUBCHAPTER IV—COAL

PART A—CLEAN COAL POWER INITIATIVE

§15961. Authorization of appropriations

(a) Clean coal power initiative

There are authorized to be appropriated to the Secretary to carry out the activities authorized by this part $200,000,000 for each of fiscal years 2006 through 2014, to remain available until expended.

(b) Report

The Secretary shall submit to Congress the report required by this subsection not later than March 31, 2007. The report shall include, with respect to subsection (a), a plan containing—

(1) a detailed assessment of whether the aggregate funding levels provided under subsection (a) are the appropriate funding levels for that program;

(2) a detailed description of how proposals will be solicited and evaluated, including a list of all activities expected to be undertaken;

(3) a detailed list of technical milestones for each coal and related technology that will be pursued; and

(4) a detailed description of how the program will avoid problems enumerated in Government Accountability Office reports on the Clean Coal Technology Program, including problems that have resulted in unspent funds and projects that failed either financially or scientifically.

(Pub. L. 109–58, title IV, §401, Aug. 8, 2005, 119 Stat. 749.)

§15962. Project criteria

(a) In general

To be eligible to receive assistance under this part, a project shall advance efficiency, environmental performance, and cost competitiveness well beyond the level of technologies that are in commercial service or have been demonstrated on a scale that the Secretary determines is sufficient to demonstrate that commercial service is viable as of August 8, 2005.

(b) Technical criteria for clean coal power initiative

(1) Gasification projects

(A) In general

In allocating the funds made available under section 15961(a) of this title, the Secretary shall ensure that at least 70 percent of the funds are used only to fund projects on coal-based gasification technologies, including—

(i) gasification combined cycle;

(ii) gasification fuel cells and turbine combined cycle;

(iii) gasification coproduction;

(iv) hybrid gasification and combustion; and

(v) other advanced coal based technologies capable of producing a concentrated stream of carbon dioxide.

(B) Technical milestones

(i) Periodic determination

(I) In general

The Secretary shall periodically set technical milestones specifying the emission and thermal efficiency levels that coal gasification projects under this part shall be designed, and reasonably expected, to achieve.

(II) Prescriptive milestones

The technical milestones shall become more prescriptive during the period of the clean coal power initiative.

(ii) 2020 goals

The Secretary shall establish the periodic milestones so as to achieve by the year 2020 coal gasification projects able—

(I)(aa) to remove at least 99 percent of sulfur dioxide; or

(bb) to emit not more than 0.04 pound SO_2 per million Btu, based on a 30-day average;

(II) to emit not more than .05 lbs of NO_x per million Btu;

(III) to achieve at least 95 percent reductions in mercury emissions; and

(IV) to achieve a thermal efficiency of at least—

(aa) 50 percent for coal of more than 9,000 Btu;

(bb) 48 percent for coal of 7,000 to 9,000 Btu; and

(cc) 46 percent for coal of less than 7,000 Btu.

(2) Other projects

(A) Allocation of funds

The Secretary shall ensure that up to 30 percent of the funds made available under section 15961(a) of this title are used to fund projects other than those described in paragraph (1).

(B) Technical milestones

(i) Periodic determination

(I) In general

The Secretary shall periodically establish technical milestones specifying the emission and thermal efficiency levels that projects funded under this paragraph shall be designed, and reasonably expected, to achieve.

(II) Prescriptive milestones

The technical milestones shall become more prescriptive during the period of the clean coal power initiative.

(ii) 2020 goals

The Secretary shall set the periodic milestones so as to achieve by the year 2020 projects able—

(I) to remove at least 97 percent of sulfur dioxide;

(II) to emit no more than .08 lbs of NO_x per million Btu;

(III) to achieve at least 90 percent reductions in mercury emissions; and

(IV) to achieve a thermal efficiency of at least—

(aa) 43 percent for coal of more than 9,000 Btu;

(bb) 41 percent for coal of 7,000 to 9,000 Btu; and

(cc) 39 percent for coal of less than 7,000 Btu.

(3) Consultation

Before setting the technical milestones under paragraphs (1)(B) and (2)(B), the Secretary shall consult with—

(A) the Administrator of the Environmental Protection Agency; and

(B) interested entities, including—

(i) coal producers;

(ii) industries using coal;

(iii) organizations that promote coal or advanced coal technologies;

(iv) environmental organizations;

(v) organizations representing workers; and

(vi) organizations representing consumers.

(4) Existing units

In the case of projects at units in existence on August 8, 2005, in lieu of the thermal efficiency requirements described in paragraphs (1)(B)(ii)(IV) and (2)(B)(ii)(IV), the milestones shall be designed to achieve an overall thermal design efficiency improvement, compared to the efficiency of the unit as operated, of not less than—

(A) 7 percent for coal of more than 9,000 Btu;

(B) 6 percent for coal of 7,000 to 9,000 Btu; or

(C) 4 percent for coal of less than 7,000 Btu.

(5) Administration

(A) Elevation of site

In evaluating project proposals to achieve thermal efficiency levels established under paragraphs (1)(B)(i) and (2)(B)(i) and in determining progress towards thermal efficiency milestones under paragraphs (1)(B)(ii)(IV), (2)(B)(ii)(IV), and (4), the Secretary shall take into account and make adjustments for the elevation of the site at which a project is proposed to be constructed.

(B) Applicability of milestones

In applying the thermal efficiency milestones under paragraphs (1)(B)(ii)(IV), (2)(B)(ii)(IV), and (4) to projects that separate and capture at least 50 percent of the potential emissions of carbon dioxide by a facility, the energy used for separation and capture of carbon dioxide shall not be counted in calculating the thermal efficiency.

(C) Permitted uses

In carrying out this section, the Secretary may give priority to projects that include, as part of the project—

(i) the separation or capture of carbon dioxide; or

(ii) the reduction of the demand for natural gas if deployed.

(c) Financial criteria

The Secretary shall not provide financial assistance under this part for a project unless the recipient documents to the satisfaction of the Secretary that—

(1) the recipient is financially responsible;

(2) the recipient will provide sufficient information to the Secretary to enable the Secretary to ensure that the funds are spent efficiently and effectively; and

(3) a market exists for the technology being demonstrated or applied, as evidenced by statements of interest in writing from potential purchasers of the technology.

(d) Financial assistance

The Secretary shall provide financial assistance to projects that, as determined by the Secretary—

(1) meet the requirements of subsections (a), (b), and (c); and

(2) are likely—

(A) to achieve overall cost reductions in the use of coal to generate useful forms of energy or chemical feedstocks;

(B) to improve the competitiveness of coal among various forms of energy in order to maintain a diversity of fuel choices in the United States to meet electricity generation requirements; and

(C) to demonstrate methods and equipment that are applicable to 25 percent of the electricity generating facilities, using various types of coal, that use coal as the primary feedstock as of August 8, 2005.

(e) Cost-sharing

In carrying out this part, the Secretary shall require cost sharing in accordance with section 16352 of this title.

(f) Scheduled completion of selected projects

(1) In general

In selecting a project for financial assistance under this section, the Secretary shall establish a reasonable period of time during which the owner or operator of the project shall complete the construction or demonstration phase of the project, as the Secretary determines to be appropriate.

(2) Condition of financial assistance

The Secretary shall require as a condition of receipt of any financial assistance under this part that the recipient of the assistance enter into an agreement with the Secretary not to request an extension of the time period established for the project by the Secretary under paragraph (1).

(3) Extension of time period

(A) In general

Subject to subparagraph (B), the Secretary may extend the time period established under paragraph (1) if the Secretary determines, in the sole discretion of the Secretary, that the owner or operator of the project cannot complete the construction or demonstration phase of the project within the time period due to circumstances beyond the control of the owner or operator.

(B) Limitation

The Secretary shall not extend a time period under subparagraph (A) by more than 4 years.

(g) Fee title

The Secretary may vest fee title or other property interests acquired under cost-share clean coal power initiative agreements under this part in any entity, including the United States.

(h) Data protection

For a period not exceeding 5 years after completion of the operations phase of a cooperative agreement, the Secretary may provide appropriate protections (including exemptions from subchapter II of chapter 5 of title 5) against the dissemination of information that—

(1) results from demonstration activities carried out under the clean coal power initiative program; and

(2) would be a trade secret or commercial or financial information that is privileged or confidential if the information had been obtained from and first produced by a non-Federal party participating in a clean coal power initiative project.

(i) Applicability

No technology, or level of emission reduction, solely by reason of the use of the technology, or the achievement of the emission reduction, by 1 or more facilities receiving assistance under this Act, shall be considered to be—

(1) adequately demonstrated for purposes of section 7411 of this title;

(2) achievable for purposes of section 7479 of this title; or

(3) achievable in practice for purposes of section 7501 of this title.

(Pub. L. 109–58, title IV, §402, Aug. 8, 2005, 119 Stat. 750; Pub. L. 110–140, title VI, §653, Dec. 19, 2007, 121 Stat. 1695.)

EDITORIAL NOTES

REFERENCES IN TEXT

This Act, referred to in subsec. (i), is Pub. L. 109–58, Aug. 8, 2005, 119 Stat. 594, as amended, known as the Energy Policy Act of 2005, which enacted this chapter and enacted, amended, and repealed numerous other sections and notes in the Code. For complete classification of this Act to the Code, see Short Title note set out under section 15801 of this title and Tables.

AMENDMENTS

2007—Subsec. (b)(1)(B)(ii)(I). Pub. L. 110–140 added subcl. (I) and struck out former subcl. (I) which read as follows: "to remove at least 99 percent of sulfur dioxide;".

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE OF 2007 AMENDMENT

Amendment by Pub. L. 110–140 effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as an Effective Date note under section 1824 of Title 2, The Congress.

§15963. Report

Not later than 1 year after August 8, 2005, and once every 2 years thereafter through 2014, the Secretary, in consultation with other appropriate Federal agencies, shall submit to Congress a report describing—

(1) the technical milestones set forth in section 15962 of this title and how those milestones ensure progress toward meeting the requirements of subsections (b)(1)(B) and (b)(2) of section 15962 of this title; and

(2) the status of projects funded under this part.

(Pub. L. 109–58, title IV, §403, Aug. 8, 2005, 119 Stat. 753.)

§15964. Clean coal centers of excellence

(a) In general

As part of the clean coal power initiative, the Secretary shall award competitive, merit-based grants to institutions of higher education for the establishment of centers of excellence for energy systems of the future.

(b) Basis for grants

The Secretary shall award grants under this section to institutions of higher education that show the greatest potential for advancing new clean coal technologies.

(Pub. L. 109–58, title IV, §404, Aug. 8, 2005, 119 Stat. 753.)

§15965. Time limit for award; extension

If a Clean Coal Power Initiative project selected after March 11, 2009, for negotiation under this or any other Act in any fiscal year, is not awarded within 2 years from the date the application was selected, negotiations shall cease and the Federal funds committed to the application shall be retained by the Department for future coal-related research, development and demonstration projects, except that the time limit may be extended at the Secretary's discretion for matters outside the control of the applicant, or if the Secretary determines that extension of the time limit is in the public interest.

(Pub. L. 111–8, div. C, title III, Mar. 11, 2009, 123 Stat. 616.)

EDITORIAL NOTES

CODIFICATION

Section was enacted as part of the Energy and Water Development and Related Agencies Appropriations Act, 2009, and also as part of the Omnibus Appropriations Act, 2009, and not as part of the Energy Policy Act of 2005 which comprises this chapter.

PART B—CLEAN POWER PROJECTS

§15971. Integrated coal/renewable energy system

(a) In general

Subject to the availability of appropriations, the Secretary may provide loan guarantees for a project to produce energy from coal of less than 7,000 Btu/lb. using appropriate advanced integrated gasification combined cycle technology, including repowering of existing facilities, that—

(1) is combined with wind and other renewable sources;

(2) minimizes and offers the potential to sequester carbon dioxide emissions; and

(3) provides a ready source of hydrogen for near-site fuel cell demonstrations.

(b) Requirements

The facility—

(1) may be built in stages;

(2) shall have a combined output of at least 200 megawatts at successively more competitive rates; and

(3) shall be located in the Upper Great Plains.

(c) Technical criteria

Technical criteria described in section 15962(b) of this title shall apply to the facility.

(d) Investment tax credits

(1) In general

The loan guarantees provided under this section do not preclude the facility from receiving an allocation for investment tax credits under section 48A of title 26.

(2) Other funding

Use of the investment tax credit described in paragraph (1) does not prohibit the use of other clean coal program funding.

(Pub. L. 109–58, title IV, §411, Aug. 8, 2005, 119 Stat. 754.)

§15972. Loan to place Alaska clean coal technology facility in service

(a) Definitions

In this section:

(1) Borrower

The term "borrower" means the owner of the clean coal technology plant.

(2) Clean coal technology plant

The term "clean coal technology plant" means the plant located near Healy, Alaska, constructed under Department cooperative agreement number DE–FC–22–91PC90544.

(3) Cost of a direct loan

The term "cost of a direct loan" has the meaning given the term in section 661a(5)(B) of title 2.

(b) Authorization

Subject to subsection (c), the Secretary shall use amounts made available under subsection (e) to provide the cost of a direct loan to the borrower for purposes of placing the clean coal technology plant into reliable operation for the generation of electricity.

(c) Requirements

(1) Maximum loan amount

The amount of the direct loan provided under subsection (b) shall not exceed $80,000,000.

(2) Determinations by Secretary

Before providing the direct loan to the borrower under subsection (b), the Secretary shall determine that—

(A) the plan of the borrower for placing the clean coal technology plant in reliable operation has a reasonable prospect of success;

(B) the amount of the loan (when combined with amounts available to the borrower from other sources) will be sufficient to carry out the project; and

(C) there is a reasonable prospect that the borrower will repay the principal and interest on the loan.

(3) Interest; term

The direct loan provided under subsection (b) shall bear interest at a rate and for a term that the Secretary determines appropriate, after consultation with the Secretary of the Treasury, taking into account the needs and capacities of the borrower and the prevailing rate of interest for similar loans made by public and private lenders.

(4) Additional terms and conditions

The Secretary may require any other terms and conditions that the Secretary determines to be

appropriate.

(d) Use of payments

The Secretary shall retain any payments of principal and interest on the direct loan provided under subsection (b) to support energy research and development activities, to remain available until expended, subject to any other conditions in an applicable appropriations Act.

(e) Authorization of appropriations

There are authorized to be appropriated such sums as are necessary to provide the cost of a direct loan under subsection (b).

(Pub. L. 109–58, title IV, §412, Aug. 8, 2005, 119 Stat. 754.)

§15973. Western integrated coal gasification demonstration project

(a) In general

Subject to the availability of appropriations, the Secretary shall carry out a project to demonstrate production of energy from coal mined in the western United States using integrated gasification combined cycle technology (referred to in this section as the "demonstration project").

(b) Components

The demonstration project—

(1) may include repowering of existing facilities;

(2) shall be designed to demonstrate the ability to use coal with an energy content of not more than 9,000 Btu/lb.; and

(3) shall be capable of removing and sequestering carbon dioxide emissions.

(c) All types of western coals

Notwithstanding the foregoing, and to the extent economically feasible, the demonstration project shall also be designed to demonstrate the ability to use a variety of types of coal (including subbituminous and bituminous coal with an energy content of up to 13,000 Btu/lb.) mined in the western United States.

(d) Location

The demonstration project shall be located in a western State at an altitude of greater than 4,000 feet above sea level.

(e) Cost sharing

The Federal share of the cost of the demonstration project shall be determined in accordance with section 16352 of this title.

(f) Loan guarantees

Notwithstanding subchapter XIII, the demonstration project shall not be eligible for Federal loan guarantees.

(Pub. L. 109–58, title IV, §413, Aug. 8, 2005, 119 Stat. 755.)

EDITORIAL NOTES

REFERENCES IN TEXT

Subchapter XIII, referred to in subsec. (f), was in the original "title XIV", meaning title XIV of Pub. L. 109–58, Aug. 8, 2005, 119 Stat. 1061, which enacted subchapter XIII of this chapter and section 13557 of this title. For complete classification of title XIV to the Code, see Tables.

§15974. Coal gasification

The Secretary is authorized to provide loan guarantees for a project to produce energy from a plant using integrated gasification combined cycle technology of at least 400 megawatts in capacity that produces power at competitive rates in deregulated energy generation markets and that does not receive any subsidy (direct or indirect) from ratepayers.

(Pub. L. 109–58, title IV, §414, Aug. 8, 2005, 119 Stat. 755.)

§15975. Petroleum coke gasification

The Secretary is authorized to provide loan guarantees for at least 5 petroleum coke gasification projects.

(Pub. L. 109–58, title IV, §415, Aug. 8, 2005, 119 Stat. 756.)

§15976. Electron scrubbing demonstration

The Secretary shall use $5,000,000 from amounts appropriated to initiate, through the Chicago Operations Office, a project to demonstrate the viability of high-energy electron scrubbing technology on commercial-scale electrical generation using high-sulfur coal.

(Pub. L. 109–58, title IV, §416, Aug. 8, 2005, 119 Stat. 756.)

§15977. Department of Energy transportation fuels from Illinois basin coal

(a) In general

The Secretary shall carry out a program to evaluate the commercial and technical viability of advanced technologies for the production of Fischer-Tropsch transportation fuels, and other transportation fuels, manufactured from Illinois basin coal, including the capital modification of existing facilities and the construction of testing facilities under subsection (b).

(b) Facilities

For the purpose of evaluating the commercial and technical viability of different processes for producing Fischer-Tropsch transportation fuels, and other transportation fuels, from Illinois basin coal, the Secretary shall support the use and capital modification of existing facilities and the construction of new facilities at—

(1) Southern Illinois University Coal Research Center;
(2) University of Kentucky Center for Applied Energy Research; and
(3) Energy Center at Purdue University.

(c) Gasification products test center

In conjunction with the activities described in subsections (a) and (b), the Secretary shall construct a test center to evaluate and confirm liquid and gas products from syngas catalysis in order that the system has an output of at least 500 gallons of Fischer-Tropsch transportation fuel per day in a 24-hour operation.

(d) Milestones

(1) Selection of processes

Not later than 180 days after August 8, 2005, the Secretary shall select processes for evaluating the commercial and technical viability of different processes of producing Fischer-Tropsch transportation fuels, and other transportation fuels, from Illinois basin coal.

(2) Agreements

Not later than 1 year after August 8, 2005, the Secretary shall offer to enter into agreements—

(A) to carry out the activities described in this section, at the facilities described in subsection (b); and

(B) for the capital modifications or construction of the facilities at the locations described in subsection (b).

(3) Evaluations

Not later than 3 years after August 8, 2005, the Secretary shall begin, at the facilities described in subsection (b), evaluation of the technical and commercial viability of different processes of producing Fischer-Tropsch transportation fuels, and other transportation fuels, from Illinois basin coal.

(4) Construction of facilities

(A) In general

The Secretary shall construct the facilities described in subsection (b) at the lowest cost practicable.

(B) Grants or agreements

The Secretary may make grants or enter into agreements or contracts with the institutions of higher education described in subsection (b).

(e) Cost sharing

The cost of making grants under this section shall be shared in accordance with section 16352 of this title.

(f) Authorization of appropriations

There is authorized to be appropriated to carry out this section $85,000,000 for the period of fiscal years 2006 through 2010.

(Pub. L. 109–58, title IV, §417, Aug. 8, 2005, 119 Stat. 756.)

PART C—FEDERAL COAL LEASES

§15991. Inventory requirement

(a) Review of assessments

(1) In general

The Secretary of the Interior, in consultation with the Secretary of Agriculture and the Secretary, shall review coal assessments and other available data to identify—

(A) Federal lands with coal resources that are available for development;

(B) the extent and nature of any restrictions on the development of coal resources on Federal lands identified under paragraph (1); and

(C) with respect to areas of such lands for which sufficient data exists, resources of compliant coal and supercompliant coal.

(2) Definitions

For purposes of this subsection—

(A) the term "compliant coal" means coal that contains not less than 1.0 and not more than 1.2 pounds of sulfur dioxide per million Btu; and

(B) the term "supercompliant coal" means coal that contains less than 1.0 pounds of sulfur dioxide per million Btu.

(b) Completion and updating of the inventory

The Secretary—

(1) shall complete the inventory under subsection (a) by not later than 2 years after August 8, 2005; and

(2) shall update the inventory as the availability of data and developments in technology warrant.

(c) Report

The Secretary shall submit to the Committee on Resources of the House of Representatives and to the Committee on Energy and Natural Resources of the Senate and make publicly available—

(1) a report containing the inventory under this section, by not later than 2 years after the effective date of this section; and

(2) each update of such inventory.

(Pub. L. 109–58, title IV, §437, Aug. 8, 2005, 119 Stat. 762.)

EDITORIAL NOTES

The effective date of this section, referred to in subsec. (c)(1), probably means the date of enactment of Pub. L. 109–58, which enacted this section.

STATUTORY NOTES AND RELATED SUBSIDIARIES

CHANGE OF NAME

Committee on Resources of House of Representatives changed to Committee on Natural Resources of House of Representatives by House Resolution No. 6, One Hundred Tenth Congress, Jan. 5, 2007.

SHORT TITLE

For short title of subtitle D of title IV of Pub. L. 109–58, which enacted this part, as the "Coal Leasing Amendments Act of 2005", see section 431 of Pub. L. 109–58, set out as a note under section 15801 of this title.

SUBCHAPTER V—INDIAN ENERGY

§16001. Energy efficiency in federally assisted housing

The Secretary of Housing and Urban Development shall promote energy conservation in housing that is located on Indian land and assisted with Federal resources through—

(1) the use of energy-efficient technologies and innovations (including the procurement of energy-efficient refrigerators and other appliances);

(2) the promotion of shared savings contracts; and

(3) the use and implementation of such other similar technologies and innovations as the Secretary of Housing and Urban Development considers to be appropriate.

(Pub. L. 109–58, title V, §506(a), Aug. 8, 2005, 119 Stat. 779.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

SHORT TITLE

For short title of title V of Pub. L. 109–58, which enacted this subchapter, as the "Indian Tribal Energy Development and Self-Determination Act of 2005", see section 501 of Pub. L. 109–58, set out as a note under section 15801 of this title.

SUBCHAPTER VI—NUCLEAR MATTERS

PART A—GENERAL NUCLEAR MATTERS

§16011. Demonstration hydrogen production at existing nuclear power plants

(a) Demonstration projects

The Secretary shall provide for the establishment of 2 projects in geographic areas that are regionally and climatically diverse to demonstrate the commercial production of hydrogen at existing nuclear power plants.

(b) Economic analysis

Prior to making an award under subsection (a), the Secretary shall determine whether the use of existing nuclear power plants is a cost-effective means of producing hydrogen.

(c) Authorization of appropriations

There are authorized to be appropriated to the Secretary for the purposes of carrying out this section not more than $100,000,000.

(Pub. L. 109–58, title VI, §634, Aug. 8, 2005, 119 Stat. 790.)

§16012. Prohibition on assumption by United States Government of liability for certain foreign incidents

(a) In general

Notwithstanding any other provision of law, no officer of the United States or of any department, agency, or instrumentality of the United States Government may enter into any contract or other arrangement, or into any amendment or modification of a contract or other arrangement, the purpose or effect of which would be to directly or indirectly impose liability on the United States Government, or any department, agency, or instrumentality of the United States Government, or to otherwise directly or indirectly require an indemnity by the United States Government, for nuclear incidents occurring in connection with the design, construction, or operation of a production facility or utilization facility in any country whose government has been identified by the Secretary of State as engaged in state sponsorship of terrorist activities (specifically including any country the government of which, as of September 11, 2001, had been determined by the Secretary of State under section 2371(a) of title 22, section 4605(j)(1) [1] of title 50, or section 2780(d) of title 22 to have repeatedly provided support for acts of international terrorism). This section shall not apply to nuclear incidents occurring as a result of missions, carried out under the direction of the Secretary, the Secretary of Defense, or the Secretary of State, that are necessary to safely secure, store, transport, or remove nuclear materials for nuclear safety or nonproliferation purposes.

(b) Definitions

The terms used in this section shall have the same meaning as those terms have under section 2014 of this title, unless otherwise expressly provided in this section.

(Pub. L. 109–58, title VI, §635, Aug. 8, 2005, 119 Stat. 790.)

EDITORIAL NOTES

REFERENCES IN TEXT

Section 4605(j)(1) of title 50, referred to in subsec. (a), was repealed by Pub. L. 115–232, div. A, title XVII, §1766(a), Aug. 13, 2018, 132 Stat. 2232.

[1] *See References in Text note below.*

§16013. Authorization of appropriations

There are authorized to be appropriated such sums as are necessary to carry out this subtitle and the amendments made by this subtitle.

(Pub. L. 109–58, title VI, §636, Aug. 8, 2005, 119 Stat. 791.)

EDITORIAL NOTES

REFERENCES IN TEXT

This subtitle, referred to in text, is subtitle B (§§621–639) of title VI of Pub. L. 109–58, Aug. 8, 2005, 119 Stat. 782, which enacted this part and sections 2015b, 2210c, and 5853 of this title, amended sections 2133, 2135, 2158, 2160d, 2201, 2210a, 2214, 2297h–8, and 5851 of this title, repealed section 2213 of this title, and enacted provisions set out as notes under sections 2158 and 2214 of this title. For complete classification of this subtitle to the Code, see Tables.

§16014. Standby support for certain nuclear plant delays

(a) Definitions

In this section:

(1) Advanced nuclear facility

The term "advanced nuclear facility" means any nuclear facility the reactor design for which is approved after December 31, 1993, by the Commission (and such design or a substantially similar design of comparable capacity was not approved on or before that date).

(2) Combined license

The term "combined license" means a combined construction and operating license for an advanced nuclear facility issued by the Commission.

(3) Commission

The term "Commission" means the Nuclear Regulatory Commission.

(4) Sponsor

The term "sponsor" means a person who has applied for or been granted a combined license.

(b) Contract authority

(1) In general

The Secretary may enter into contracts under this section with sponsors of an advanced nuclear facility that cover a total of 6 reactors, with the 6 reactors consisting of not more than 3 different reactor designs, in accordance with paragraph (2).

(2) Requirement for contracts

(A) Definition of loan cost

In this paragraph, the term "loan cost" has the meaning given the term "cost of a loan guarantee" under section 661a(5)(C) of title 2.

(B) Establishment of accounts

There is established in the Department 2 separate accounts, which shall be known as the—

(i) "Standby Support Program Account"; and

(ii) "Standby Support Grant Account".

(C) Requirement

The Secretary shall not enter into a contract under this section unless the Secretary deposits—

(i) in the Standby Support Program Account established under subparagraph (B), funds appropriated to the Secretary in advance of the contract or a combination of appropriated funds and loan guarantee fees that are in an amount sufficient to cover the loan costs described in subsection (d)(5)(A); and

(ii) in the Standby Support Grant Account established under subparagraph (B), funds appropriated to the Secretary in advance of the contract, paid to the Secretary by the sponsor of the advanced nuclear facility, or a combination of appropriations and payments that are in an amount sufficient [1] cover the costs described in subparagraphs (B), (C), and (D) of subsection (d)(5).

(c) Covered delays

(1) Inclusions

Under each contract authorized by this section, the Secretary shall pay the costs specified in subsection (d), using funds appropriated or collected for the covered costs, if full power operation of the advanced nuclear facility is delayed by—

(A) the failure of the Commission to comply with schedules for review and approval of inspections, tests, analyses, and acceptance criteria established under the combined license or the conduct of preoperational hearings by the Commission for the advanced nuclear facility; or

(B) litigation that delays the commencement of full-power operations of the advanced nuclear facility.

(2) Exclusions

The Secretary may not enter into any contract under this section that would obligate the Secretary to pay any costs resulting from—

(A) the failure of the sponsor to take any action required by law or regulation;

(B) events within the control of the sponsor; or

(C) normal business risks.

(d) Covered costs

(1) In general

Subject to paragraphs (2), (3), and (4), the costs that shall be paid by the Secretary pursuant to a contract entered into under this section are the costs that result from a delay covered by the contract.

(2) Initial 2 reactors

In the case of the first 2 reactors that receive combined licenses and on which construction is commenced, the Secretary shall pay—

(A) 100 percent of the covered costs of delay; but

(B) not more than $500,000,000 per contract.

(3) Subsequent 4 reactors

In the case of the next 4 reactors that receive a combined license and on which construction is commenced, the Secretary shall pay—

(A) 50 percent of the covered costs of delay that occur after the initial 180-day period of covered delay; but

(B) not more than $250,000,000 per contract.

(4) Conditions on payment of certain covered costs

(A) In general

The obligation of the Secretary to pay the covered costs described in subparagraph (B) of paragraph (5) is subject to the Secretary receiving from appropriations or payments from other non-Federal sources amounts sufficient to pay the covered costs.

(B) Non-Federal sources

The Secretary may receive and accept payments from any non-Federal source, which shall be made available without further appropriation for the payment of the covered costs.

(5) Types of covered costs

Subject to paragraphs (2), (3), and (4), the contract entered into under this section for an advanced nuclear facility shall include as covered costs those costs that result from a delay during construction and in gaining approval for fuel loading and full-power operation, including—

(A) principal or interest on any debt obligation of an advanced nuclear facility owned by a non-Federal entity; and

(B) the incremental difference between—

(i) the fair market price of power purchased to meet the contractual supply agreements that would have been met by the advanced nuclear facility but for the delay; and

(ii) the contractual price of power from the advanced nuclear facility subject to the delay.

(e) Requirements

Any contract between a sponsor and the Secretary covering an advanced nuclear facility under this section shall require the sponsor to use due diligence to shorten, and to end, the delay covered by the contract.

(f) Reports

For each advanced nuclear facility that is covered by a contract under this section, the Commission shall submit to Congress and the Secretary quarterly reports summarizing the status of licensing actions associated with the advanced nuclear facility.

(g) Regulations

(1) In general

Subject to paragraphs (2) and (3), the Secretary shall issue such regulations as are necessary to carry out this section.

(2) Interim final rulemaking

Not later than 270 days after August 8, 2005, the Secretary shall issue for public comment an interim final rule regulating contracts authorized by this section.

(3) Notice of final rulemaking

Not later than 1 year after August 8, 2005, the Secretary shall issue a notice of final rulemaking regulating the contracts.

(h) Authorization of appropriations

There are authorized to be appropriated such sums as are necessary to carry out this section.

(Pub. L. 109–58, title VI, §638, Aug. 8, 2005, 119 Stat. 791.)

[1] *So in original. Probably should be followed by "to".*

PART B—NEXT GENERATION NUCLEAR PLANT PROJECT

§16021. Project establishment

(a) Establishment

The Secretary shall establish a project to be known as the "Next Generation Nuclear Plant Project" (referred to in this part as the "Project").

(b) Content

The Project shall consist of the research, development, design, construction, and operation of a

prototype plant, including a nuclear reactor that—

(1) is based on research and development activities supported by the Generation IV Nuclear Energy Systems Initiative under section 16272(c) [1] of this title; and

(2) shall be used—

(A) to generate electricity;

(B) to produce hydrogen; or

(C) both to generate electricity and to produce hydrogen.

(Pub. L. 109–58, title VI, §641, Aug. 8, 2005, 119 Stat. 794; Pub. L. 115–248, §2(b)(2), Sept. 28, 2018, 132 Stat. 3155.)

EDITORIAL NOTES

REFERENCES IN TEXT

Section 16272 of this title, referred to in subsec. (b)(1), was amended generally by Pub. L. 116–260, div. Z, title II, §2003(a), Dec. 27, 2020, 134 Stat. 2459 and, as amended, section 16272(c) of this title no longer refers to the Generation IV Nuclear Energy Systems Initiative.

AMENDMENTS

2018—Pub. L. 115–248 substituted "section 16272(c)" for "section 16272(d)", which had been an editorial translation of a reference in original text to section 942(d) of Pub. L. 109–58.

[1] *See References in Text note below.*

§16022. Project management

(a) Departmental management

(1) In general

The Project shall be managed in the Department by the Office of Nuclear Energy, Science, and Technology.

(2) Generation IV Nuclear Energy Systems program

The Secretary may combine the Project with the Generation IV Nuclear Energy Systems Initiative.

(3) Existing DOE project management expertise

The Secretary may utilize capabilities for review of construction projects for advanced scientific facilities within the Office of Science to track the progress of the Project.

(b) Laboratory management

(1) Lead Laboratory

The Idaho National Laboratory shall be the lead National Laboratory for the Project and shall collaborate with other National Laboratories, institutions of higher education, other research institutes, industrial researchers, and international researchers to carry out the Project.

(2) Industrial partnerships

(A) In general

The Idaho National Laboratory shall organize a consortium of appropriate industrial partners that will carry out cost-shared research, development, design, and construction activities, and operate research facilities, on behalf of the Project.

(B) Cost-sharing

Activities of industrial partners funded by the Project shall be cost-shared in accordance with section 16352 of this title.

(C) Preference

Preference in determining the final structure of the consortium or any partnerships under this part shall be given to a structure (including designating as a lead industrial partner an entity incorporated in the United States) that retains United States technological leadership in the Project while maximizing cost sharing opportunities and minimizing Federal funding responsibilities.

(3) Prototype plant siting

The prototype nuclear reactor and associated plant shall be sited at the Idaho National Laboratory in Idaho.

(4) Reactor test capabilities

The Project shall use, if appropriate, reactor test capabilities at the Idaho National Laboratory.

(5) Other Laboratory capabilities

The Project may use, if appropriate, facilities at other National Laboratories.

(Pub. L. 109–58, title VI, §642, Aug. 8, 2005, 119 Stat. 795.)

§16023. Project organization

(a) Major project elements

The Project shall consist of the following major program elements:

(1) High-temperature hydrogen production technology development and validation.
(2) Energy conversion technology development and validation.
(3) Nuclear fuel development, characterization, and qualification.
(4) Materials selection, development, testing, and qualification.
(5) Reactor and balance-of-plant design, engineering, safety analysis, and qualification.

(b) Project phases

The Project shall be conducted in the following phases:

(1) First project phase

A first project phase shall be conducted to—

(A) select and validate the appropriate technology under subsection (a)(1);

(B) carry out enabling research, development, and demonstration activities on technologies and components under paragraphs (2) through (4) of subsection (a);

(C) determine whether it is appropriate to combine electricity generation and hydrogen production in a single prototype nuclear reactor and plant; and

(D) carry out initial design activities for a prototype nuclear reactor and plant, including development of design methods and safety analytical methods and studies under subsection (a)(5).

(2) Second project phase

A second project phase shall be conducted to—

(A) continue appropriate activities under paragraphs (1) through (5) of subsection (a);

(B) develop, through a competitive process, a final design for the prototype nuclear reactor and plant;

(C) apply for licenses to construct and operate the prototype nuclear reactor from the Nuclear Regulatory Commission; and

(D) construct and start up operations of the prototype nuclear reactor and its associated hydrogen or electricity production facilities.

(c) Project requirements

(1) In general

The Secretary shall ensure that the Project is structured so as to maximize the technical interchange and transfer of technologies and ideas into the Project from other sources of relevant expertise, including—

(A) the nuclear power industry, including nuclear powerplant construction firms, particularly with respect to issues associated with plant design, construction, and operational and safety issues;

(B) the chemical processing industry, particularly with respect to issues relating to—

(i) the use of process energy for production of hydrogen; and

(ii) the integration of technologies developed by the Project into chemical processing environments; and

(C) international efforts in areas related to the Project, particularly with respect to hydrogen production technologies.

(2) International collaboration

(A) In general

The Secretary shall seek international cooperation, participation, and financial contributions for the Project.

(B) Assistance from international partners

The Secretary, through the Idaho National Laboratory, may contract for assistance from specialists or facilities from member countries of the Generation IV International Forum, the Russian Federation, or other international partners if the specialists or facilities provide access to cost-effective and relevant skills or test capabilities.

(C) Partner nations

The Project may involve demonstration of selected project objectives in a partner country.

(D) Generation IV International Forum

The Secretary shall ensure that international activities of the Project are coordinated with the Generation IV International Forum.

(3) Review by Nuclear Energy Research Advisory Committee

(A) In general

The Nuclear Energy Research Advisory Committee of the Department (referred to in this paragraph as the "NERAC") shall—

(i) review all program plans for the Project and all progress under the Project on an ongoing basis; and

(ii) ensure that important scientific, technical, safety, and program management issues receive attention in the Project and by the Secretary.

(B) Additional expertise

The NERAC shall supplement the expertise of the NERAC or appoint subpanels to incorporate into the review by the NERAC the relevant sources of expertise described under paragraph (1).

(C) Initial review

Not later than 180 days after August 8, 2005, the NERAC shall—

(i) review existing program plans for the Project in light of the recommendations of the document entitled "Design Features and Technology Uncertainties for the Next Generation Nuclear Plant," dated June 30, 2004; and

(ii) address any recommendations of the document not incorporated in program plans for the Project.

(D) First project phase review

On a determination by the Secretary that the appropriate activities under the first project

phase under subsection (b)(1) are nearly complete, the Secretary shall request the NERAC to conduct a comprehensive review of the Project and to report to the Secretary the recommendation of the NERAC concerning whether the Project is ready to proceed to the second project phase under subsection (b)(2).

(E) Transmittal of reports to Congress

Not later than 60 days after receiving any report from the NERAC related to the Project, the Secretary shall submit to the appropriate committees of the Senate and the House of Representatives a copy of the report, along with any additional views of the Secretary that the Secretary may consider appropriate.

(Pub. L. 109–58, title VI, §643, Aug. 8, 2005, 119 Stat. 795.)

§16024. Nuclear Regulatory Commission

(a) In general

In accordance with section 5842 of this title, the Nuclear Regulatory Commission shall have licensing and regulatory authority for any reactor authorized under this part.

(b) Licensing strategy

Not later than 3 years after August 8, 2005, the Secretary and the Chairman of the Nuclear Regulatory Commission shall jointly submit to the appropriate committees of the Senate and the House of Representatives a licensing strategy for the prototype nuclear reactor, including—

(1) a description of ways in which current licensing requirements relating to light-water reactors need to be adapted for the types of prototype nuclear reactor being considered by the Project;

(2) a description of analytical tools that the Nuclear Regulatory Commission will have to develop to independently verify designs and performance characteristics of components, equipment, systems, or structures associated with the prototype nuclear reactor;

(3) other research or development activities that may be required on the part of the Nuclear Regulatory Commission in order to review a license application for the prototype nuclear reactor; and

(4) an estimate of the budgetary requirements associated with the licensing strategy.

(c) Ongoing interaction

The Secretary shall seek the active participation of the Nuclear Regulatory Commission throughout the duration of the Project to—

(1) avoid design decisions that will compromise adequate safety margins in the design of the reactor or impair the accessibility of nuclear safety-related components of the prototype reactor for inspection and maintenance;

(2) develop tools to facilitate inspection and maintenance needed for safety purposes; and

(3) develop risk-based criteria for any future commercial development of a similar reactor architectures.

(Pub. L. 109–58, title VI, §644, Aug. 8, 2005, 119 Stat. 797.)

§16025. Project timelines and authorization of appropriations

(a) Target date to complete the first project phase

Not later than September 30, 2011, the Secretary shall—

(1) select the technology to be used by the Project for high-temperature hydrogen production and the initial design parameters for the prototype nuclear plant; or

(2) submit to Congress a report establishing an alternative date for making the selection.

(b) Design competition for second project phase

(1) In general

The Secretary, acting through the Idaho National Laboratory, shall fund not more than 4 teams for not more than 2 years to develop detailed proposals for competitive evaluation and selection of a single proposal for a final design of the prototype nuclear reactor.

(2) Systems integration

The Secretary may structure Project activities in the second project phase to use the lead industrial partner of the competitively selected design under paragraph (1) in a systems integration role for final design and construction of the Project.

(c) Target date to complete project construction

Not later than September 30, 2021, the Secretary shall—

(1) complete construction and begin operations of the prototype nuclear reactor and associated energy or hydrogen facilities; or

(2) submit to Congress a report establishing an alternative date for completion.

(d) Authorization of appropriations

There is authorized to be appropriated to the Secretary for research and construction activities under this part (including for transfer to the Nuclear Regulatory Commission for activities under section 16024 of this title as appropriate)—

(1) $1,250,000,000 for the period of fiscal years 2006 through 2015; and

(2) such sums as are necessary for each of fiscal years 2016 through 2021.

(Pub. L. 109–58, title VI, §645, Aug. 8, 2005, 119 Stat. 798.)

PART C—NUCLEAR SECURITY

§16041. Nuclear facility and materials security

(a) In general

(1), (2) Omitted

(3) Federal security coordinators

(A) Regional offices

Not later than 18 months after August 8, 2005, the Nuclear Regulatory Commission (referred to in this section as the "Commission") shall assign a Federal security coordinator, under the employment of the Commission, to each region of the Commission.

(B) Responsibilities

The Federal security coordinator shall be responsible for—

(i) communicating with the Commission and other Federal, State, and local authorities concerning threats, including threats against such classes of facilities as the Commission determines to be appropriate;

(ii) monitoring such classes of facilities as the Commission determines to be appropriate to ensure that they maintain security consistent with the security plan in accordance with the appropriate threat level; and

(iii) assisting in the coordination of security measures among the private security forces at such classes of facilities as the Commission determines to be appropriate and Federal, State, and local authorities, as appropriate.

(b) Backup power for certain emergency notification systems

For any licensed nuclear power plants located where there is a permanent population, as determined by the 2000 decennial census, in excess of 15,000,000 within a 50-mile radius of the

power plant, not later than 18 months after August 8, 2005, the Commission shall require that backup power to be available for the emergency notification system of the power plant, including the emergency siren warning system, if the alternating current supply within the 10-mile emergency planning zone of the power plant is lost.

(c), (d) Omitted

(e) Final regulations; waivers

(1) to (3) Omitted

(4) Final regulations

(A) Regulations

(i) In general

Not later than 18 months after August 8, 2005, the Commission, after consultation with States and other stakeholders, shall issue final regulations establishing such requirements as the Commission determines to be necessary to carry out this section and the amendments made by this section.

(ii) Inclusions

The regulations shall include a definition of the term "discrete source" for purposes of paragraphs (3) and (4) of section 2014(e) of this title.

(B) Cooperation

In promulgating regulations under paragraph (1),[1] the Commission shall, to the maximum extent practicable—

(i) cooperate with States; and

(ii) use model State standards in existence on August 8, 2005.

(C) Transition plan

(i) Definition of byproduct material

In this paragraph, the term "byproduct material" has the meaning given the term in paragraphs (3) and (4) of section 2014(e) of this title.

(ii) Preparation and publication

To facilitate an orderly transition of regulatory authority with respect to byproduct material, the Commission, in issuing regulations under subparagraph (A), shall prepare and publish a transition plan for—

(I) States that have not, before the date on which the plan is published, entered into an agreement with the Commission under section 2021(b) of this title; and

(II) States that have entered into an agreement with the Commission under that section before the date on which the plan is published.

(iii) Inclusions

The transition plan under clause (ii) shall include—

(I) a description of the conditions under which a State may exercise authority over byproduct material; and

(II) a statement of the Commission that any agreement covering byproduct material, as defined in paragraph (1) or (2) of section 2014(e) of this title, entered into between the Commission and a State under section 2021(b) of this title before the date of publication of the transition plan shall be considered to include byproduct material, as defined in paragraph (3) or (4) of section 2014(e) of this title, if the Governor of the State certifies to the Commission on the date of publication of the transition plan that—

(aa) the State has a program for licensing byproduct material, as defined in paragraph (3) or (4) of section 2014(e) of this title, that is adequate to protect the public health and safety, as determined by the Commission; and

(bb) the State intends to continue to implement the regulatory responsibility of the State with respect to the byproduct material.

(D) Availability of radiopharmaceuticals

In promulgating regulations under subparagraph (A), the Commission shall consider the impact on the availability of radiopharmaceuticals to—

(i) physicians; and

(ii) patients the medical treatment of which relies on radiopharmaceuticals.

(5) Waivers

(A) In general

Except as provided in subparagraph (B), the Commission may grant a waiver to any entity of any requirement under this section or an amendment made by this section with respect to a matter relating to byproduct material (as defined in paragraphs (3) and (4) of section 2014(e) of this title) if the Commission determines that the waiver is in accordance with the protection of the public health and safety and the promotion of the common defense and security.

(B) Exceptions

(i) In general

The Commission may not grant a waiver under subparagraph (A) with respect to—

(I) any requirement under the amendments made by subsection (c)(1);

(II) a matter relating to an importation into, or exportation from, the United States for a period ending after the date that is 1 year after August 8, 2005; or

(III) any other matter for a period ending after the date that is 4 years after August 8, 2005.

(ii) Waivers to States

The Commission shall terminate any waiver granted to a State under subparagraph (A) if the Commission determines that—

(I) the State has entered into an agreement with the Commission under section 2021(b) of this title;

(II) the agreement described in subclause (I) covers byproduct material (as described in paragraph (3) or (4) of section 2014(e) of this title); and

(III) the program of the State for licensing such byproduct material is adequate to protect the public health and safety.

(C) Publication

The Commission shall publish in the Federal Register a notice of any waiver granted under this subsection.

(Pub. L. 109–58, title VI, §651, Aug. 8, 2005, 119 Stat. 799.)

EDITORIAL NOTES

REFERENCES IN TEXT

For references to "the amendments made by this section", "an amendment made by this section", and "the amendments made by subsection (c)(1)", appearing in subsecs. (e)(4)(A)(i), (e)(5)(A), and (e)(5)(B)(i)(I), respectively, see Codification note below.

CODIFICATION

Section is comprised of section 651 of Pub. L. 109–58. Subsec. (a)(1), (2) of section 651 of Pub. L. 109–58 enacted sections 2210d and 2210e of this title, subsec. (c)(1) of section 651 of Pub. L. 109–58 amended section 2051 of this title, subsecs. (c)(2) to (5) and (d) of section 651 of Pub. L. 109–58 enacted sections 2210f to 2210h and 2015c of this title, and subsec. (e)(1) to (3) of section 651 of Pub. L. 109–58 amended sections 2014, 2021, 2021b, and 2111 of this title.

§16042. Department of Homeland Security consultation

Before issuing a license for a utilization facility, the Nuclear Regulatory Commission shall consult with the Department of Homeland Security concerning the potential vulnerabilities of the location of the proposed facility to terrorist attack.

(Pub. L. 109–58, title VI, §657, Aug. 8, 2005, 119 Stat. 814.)

SUBCHAPTER VII—VEHICLES AND FUELS

PART A—EXISTING PROGRAMS

§16051. Joint flexible fuel/hybrid vehicle commercialization initiative

(a) Definitions

In this section:

(1) Eligible entity

The term "eligible entity" means—

(A) a for-profit corporation;

(B) a nonprofit corporation; or

(C) an institution of higher education.

(2) Program

The term "program" means a program established under subsection (b).

(b) Establishment

The Secretary shall establish a program to improve technologies for the commercialization of—

(1) a combination hybrid/flexible fuel vehicle; or

(2) a plug-in hybrid/flexible fuel vehicle.

(c) Grants

In carrying out the program, the Secretary shall provide grants that give preference to proposals that—

(1) achieve the greatest reduction in miles per gallon of petroleum fuel consumption;

(2) achieve not less than 250 miles per gallon of petroleum fuel consumption; and

(3) have the greatest potential of commercialization to the general public within 5 years.

(d) Verification

Not later than 90 days after August 8, 2005, the Secretary shall publish in the Federal Register procedures to verify—

(1) the hybrid/flexible fuel vehicle technologies to be demonstrated; and

(2) that grants are administered in accordance with this section.

(e) Report

Not later than 260 days after August 8, 2005, and annually thereafter, the Secretary shall submit to Congress a report that—

(1) identifies the grant recipients;

(2) describes the technologies to be funded under the program;

(3) assesses the feasibility of the technologies described in paragraph (2) in meeting the goals described in subsection (c);

(4) identifies applications submitted for the program that were not funded; and

(5) makes recommendations for Federal legislation to achieve commercialization of the technology demonstrated.

(f) Authorization of appropriations

There are authorized to be appropriated to carry out this section, to remain available until expended—

(1) $3,000,000 for fiscal year 2006;

(2) $7,000,000 for fiscal year 2007;

(3) $10,000,000 for fiscal year 2008; and

(4) $20,000,000 for fiscal year 2009.

(Pub. L. 109–58, title VII, §706, Aug. 8, 2005, 119 Stat. 817.)

PART B—HYBRID VEHICLES, ADVANCED VEHICLES, AND FUEL CELL BUSES

SUBPART 1—HYBRID VEHICLES

§16061. Hybrid vehicles

The Secretary shall accelerate efforts directed toward the improvement of batteries and other rechargeable energy storage systems, power electronics, hybrid systems integration, and other technologies for use in hybrid vehicles.

(Pub. L. 109–58, title VII, §711, Aug. 8, 2005, 119 Stat. 818.)

§16062. Domestic manufacturing conversion grant program

(a) Program

(1) In general

The Secretary shall establish a program to encourage domestic production and sales of efficient hybrid and advanced diesel vehicles and components of those vehicles.

(2) Inclusions

The program shall include grants and loan guarantees under section 16513 of this title to automobile manufacturers and suppliers and hybrid component manufacturers to encourage domestic production of efficient hybrid, plug-in electric hybrid, plug-in electric drive, and advanced diesel vehicles.

(3) Priority

Priority shall be given to the refurbishment or retooling of manufacturing facilities that have recently ceased operation or will cease operation in the near future.

(b) Coordination with State and local programs

The Secretary may coordinate implementation of this section with State and local programs designed to accomplish similar goals, including the retention and retraining of skilled workers from

the manufacturing facilities, including by establishing matching grant arrangements.

(c) Authorization of appropriations

There are authorized to be appropriated to the Secretary such sums as may be necessary to carry out this section.

(Pub. L. 109–58, title VII, §712, Aug. 8, 2005, 119 Stat. 818; Pub. L. 110–140, title I, §§132, 134(a), Dec. 19, 2007, 121 Stat. 1511, 1513.)

EDITORIAL NOTES

AMENDMENTS

2007—Pub. L. 110–140, §132, amended section generally. Prior to amendment, section related to program to encourage domestic production and sales of efficient hybrid and advanced diesel vehicles and authorization of appropriations.

Subsec. (a)(2). Pub. L. 110–140, §134(a), inserted "and loan guarantees under section 16513 of this title" after "grants".

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE OF 2007 AMENDMENT

Amendment by Pub. L. 110–140 effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as an Effective Date note under section 1824 of Title 2, The Congress.

SUBPART 2—ADVANCED VEHICLES

§16071. Pilot program

(a) Establishment

The Secretary, in consultation with the Secretary of Transportation, shall establish a competitive grant pilot program (referred to in this subpart as the "pilot program"), to be administered through the Clean Cities Program of the Department, to provide not more than 30 geographically dispersed project grants to State governments, local governments, or metropolitan transportation authorities to carry out a project or projects for the purposes described in subsection (b).

(b) Grant purposes

A grant under this section may be used for the following purposes:

(1) The acquisition of alternative fueled vehicles or fuel cell vehicles, including—

(A) passenger vehicles (including neighborhood electric vehicles); and

(B) motorized 2-wheel bicycles or other vehicles for use by law enforcement personnel or other State or local government or metropolitan transportation authority employees.

(2) The acquisition of alternative fueled vehicles, hybrid vehicles, or fuel cell vehicles, including—

(A) buses used for public transportation or transportation to and from schools;

(B) delivery vehicles for goods or services; and

(C) ground support vehicles at public airports (including vehicles to carry baggage or push or pull airplanes toward or away from terminal gates).

(3) The acquisition of ultra-low sulfur diesel vehicles.

(4) Installation or acquisition of infrastructure necessary to directly support an alternative fueled vehicle, fuel cell vehicle, or hybrid vehicle project funded by the grant, including fueling and other

support equipment.

(5) Operation and maintenance of vehicles, infrastructure, and equipment acquired as part of a project funded by the grant.

(c) Applications

(1) Requirements

(A) In general

The Secretary shall issue requirements for applying for grants under the pilot program.

(B) Minimum requirements

At a minimum, the Secretary shall require that an application for a grant—

(i) be submitted by the head of a State or local government or a metropolitan transportation authority, or any combination thereof, and a registered participant in the Clean Cities Program of the Department; and

(ii) include—

(I) a description of the project proposed in the application, including how the project meets the requirements of this subpart;

(II) an estimate of the ridership or degree of use of the project;

(III) an estimate of the air pollution emissions reduced and fossil fuel displaced as a result of the project, and a plan to collect and disseminate environmental data, related to the project to be funded under the grant, over the life of the project;

(IV) a description of how the project will be sustainable without Federal assistance after the completion of the term of the grant;

(V) a complete description of the costs of the project, including acquisition, construction, operation, and maintenance costs over the expected life of the project;

(VI) a description of which costs of the project will be supported by Federal assistance under this subpart; and

(VII) documentation to the satisfaction of the Secretary that diesel fuel containing sulfur at not more than 15 parts per million is available for carrying out the project, and a commitment by the applicant to use such fuel in carrying out the project.

(2) Partners

An applicant under paragraph (1) may carry out a project under the pilot program in partnership with public and private entities.

(d) Selection criteria

In evaluating applications under the pilot program, the Secretary shall—

(1) consider each applicant's previous experience with similar projects; and

(2) give priority consideration to applications that—

(A) are most likely to maximize protection of the environment;

(B) demonstrate the greatest commitment on the part of the applicant to ensure funding for the proposed project and the greatest likelihood that the project will be maintained or expanded after Federal assistance under this subpart is completed; and

(C) exceed the minimum requirements of subsection (c)(1)(B)(ii).

(e) Pilot project requirements

(1) Maximum amount

The Secretary shall not provide more than $15,000,000 in Federal assistance under the pilot program to any applicant.

(2) Cost sharing

The Secretary shall not provide more than 50 percent of the cost, incurred during the period of the grant, of any project under the pilot program.

(3) Maximum period of grants

The Secretary shall not fund any applicant under the pilot program for more than 5 years.

(4) Deployment and distribution

The Secretary shall seek to the maximum extent practicable to ensure a broad geographic distribution of project sites.

(5) Transfer of information and knowledge

The Secretary shall establish mechanisms to ensure that the information and knowledge gained by participants in the pilot program are transferred among the pilot program participants and to other interested parties, including other applicants that submitted applications.

(f) Schedule

(1) Publication

Not later than 90 days after August 8, 2005, the Secretary shall publish in the Federal Register, Commerce Business Daily, and elsewhere as appropriate, a request for applications to undertake projects under the pilot program. Applications shall be due not later than 180 days after the date of publication of the notice.

(2) Selection

Not later than 180 days after the date by which applications for grants are due, the Secretary shall select by competitive, peer reviewed proposal, all applications for projects to be awarded a grant under the pilot program.

(g) Definitions

For purposes of carrying out the pilot program, the Secretary shall issue regulations defining any term, as the Secretary determines to be necessary.

(Pub. L. 109–58, title VII, §721, Aug. 8, 2005, 119 Stat. 818.)

§16072. Reports to Congress

(a) Initial report

Not later than 60 days after the date on which grants are awarded under this subpart, the Secretary shall submit to Congress a report containing—

(1) an identification of the grant recipients and a description of the projects to be funded;

(2) an identification of other applicants that submitted applications for the pilot program; and

(3) a description of the mechanisms used by the Secretary to ensure that the information and knowledge gained by participants in the pilot program are transferred among the pilot program participants and to other interested parties, including other applicants that submitted applications.

(b) Evaluation

Not later than 3 years after August 8, 2005, and annually thereafter until the pilot program ends, the Secretary shall submit to Congress a report containing an evaluation of the effectiveness of the pilot program, including—

(1) an assessment of the benefits to the environment derived from the projects included in the pilot program; and

(2) an estimate of the potential benefits to the environment to be derived from widespread application of alternative fueled vehicles and ultra-low sulfur diesel vehicles.

(Pub. L. 109–58, title VII, §722, Aug. 8, 2005, 119 Stat. 820.)

§16073. Authorization of appropriations

There are authorized to be appropriated to the Secretary to carry out this subpart $200,000,000, to remain available until expended.

(Pub. L. 109–58, title VII, §723, Aug. 8, 2005, 119 Stat. 821.)

SUBPART 3—FUEL CELL BUSES

§16081. Fuel cell transit bus demonstration

(a) In general

The Secretary, in consultation with the Secretary of Transportation, shall establish a transit bus demonstration program to make competitive, merit-based awards for 5-year projects to demonstrate not more than 25 fuel cell transit buses (and necessary infrastructure) in 5 geographically dispersed localities.

(b) Preference

In selecting projects under this section, the Secretary shall give preference to projects that are most likely to mitigate congestion and improve air quality.

(c) Authorization of appropriations

There are authorized to be appropriated to the Secretary to carry out this section $10,000,000 for each of fiscal years 2006 through 2010.

(Pub. L. 109–58, title VII, §731, Aug. 8, 2005, 119 Stat. 821.)

PART C—CLEAN SCHOOL BUSES

§16091. Clean school bus program

(a) Definitions

In this section:

(1) Administrator

The term "Administrator" means the Administrator of the Environmental Protection Agency.

(2) Alternative fuel

The term "alternative fuel" means liquefied natural gas, compressed natural gas, hydrogen, propane, or biofuels.

(3) Clean school bus

The term "clean school bus" means a school bus that—

(A) the Administrator certifies reduces emissions and is operated entirely or in part using an alternative fuel; or

(B) is a zero-emission school bus.

(4) Eligible contractor

The term "eligible contractor" means a contractor that is a for-profit, not-for-profit, or nonprofit entity that has the capacity—

(A) to sell clean school buses, zero-emission school buses, charging or fueling infrastructure, or other equipment needed to charge, fuel, or maintain clean school buses or zero-emission school buses, to individuals or entities that own a school bus or a fleet of school buses; or

(B) to arrange financing for such a sale.

(5) Eligible recipient

(A) In general

Subject to subparagraph (B), the term "eligible recipient" means—

(i) 1 or more local or State governmental entities responsible for—

(I) providing school bus service to 1 or more public school systems; or

(II) the purchase of school buses;

(ii) an eligible contractor;

(iii) a nonprofit school transportation association; or

(iv) an Indian Tribe (as defined in section 5304 of title 25), Tribal organization (as defined in that section), or tribally controlled school (as defined in section 2511 of title 25) that is responsible for—

(I) providing school bus service to 1 or more Bureau-funded schools (as defined in section 2021 of title 25); or

(II) the purchase of school buses.

(B) Special requirements

In the case of eligible recipients identified under clauses (ii) and (iii) of subparagraph (A), the Administrator shall establish timely and appropriate requirements for notice and shall establish timely and appropriate requirements for approval by the public school systems that would be served by buses purchased using award funds made available under this section.

(6) High-need local educational agency

The term "high-need local educational agency" means a local educational agency (as defined in section 7801 of title 20) that is among the local educational agencies in the applicable State with high percentages of children counted under section 6333(c) of title 20, on the basis of the most recent satisfactory data available, as determined by the Secretary of Education (or, for a local educational agency for which no such data is available, such other data as the Secretary of Education determines to be satisfactory).

(7) School bus

The term "school bus" has the meaning given the term "schoolbus" in section 30125(a) of title 49.

(8) Zero-emission school bus

The term "zero-emission school bus" means a school bus that is certified by the Administrator to have a drivetrain that produces, under any possible operational mode or condition, zero exhaust emission of—

(A) any air pollutant that is listed pursuant to section 7408(a) of this title (or any precursor to such an air pollutant); and

(B) any greenhouse gas.

(b) Program for replacement of existing school buses with clean school buses and zero-emission school buses

(1) Establishment

The Administrator shall establish a program—

(A) to award grants and rebates on a competitive basis to eligible recipients for the replacement of existing school buses with clean school buses;

(B) to award grants and rebates on a competitive basis to eligible recipients for the replacement of existing school buses with zero-emission school buses;

(C) to award contracts to eligible contractors to provide rebates for the replacement of existing school buses with clean school buses; and

(D) to award contracts to eligible contractors to provide rebates for the replacement of existing school buses with zero-emission school buses.

(2) Allocation of funds

Of the amounts made available for awards under paragraph (1) in a fiscal year, the Administrator shall award—

(A) 50 percent to replace existing school buses with zero-emission school buses; and

(B) 50 percent to replace existing school buses with clean school buses and zero-emission school buses.

(3) Considerations

In making awards under paragraph (2)(B), the Administrator shall take into account the following criteria and shall not give preference to any individual criterion:

(A) Lowest overall cost of bus replacement.

(B) Local conditions, including the length of bus routes and weather conditions.

(C) Technologies that most reduce emissions.

(D) Whether funds will bring new technologies to scale or promote cost parity between old technology and new technology.

(4) Priority of applications

In making awards under paragraph (1), the Administrator may prioritize applicants that—

(A) propose to replace school buses that serve—

(i) a high-need local educational agency;

(ii) a Bureau-funded school (as defined in section 2021 of title 25); or

(iii) a local educational agency that receives a basic support payment under section 7703(b)(1) of title 20 for children who reside on Indian land;

(B) serve rural or low-income areas; or

(C) propose to complement the assistance received through the award by securing additional sources of funding for the activities supported through the award, such as through—

(i) public-private partnerships;

(ii) grants from other entities; or

(iii) issuance of school bonds.

(5) Use of school bus fleet

All clean school buses and zero-emission school buses acquired with funds provided under this section shall—

(A) be operated as part of the school bus fleet for which the award was made for not less than 5 years;

(B) be maintained, operated, and charged or fueled according to manufacturer recommendations or State requirements; and

(C) not be manufactured or retrofitted with, or otherwise have installed, a power unit or other technology that creates air pollution within the school bus, such as an unvented diesel passenger heater.

(6) Awards

(A) In general

In making awards under paragraph (1), the Administrator may make awards for up to 100 percent of the costs for replacement of existing school buses with clean school buses, zero-emission school buses, and charging or fueling infrastructure.

(B) Structuring awards

In making an award under paragraph (1)(A), the Administrator shall decide whether to award a grant or rebate, or a combination thereof, based primarily on how best to facilitate replacing existing school buses with clean school buses or zero-emission school buses, as applicable.

(7) Deployment and distribution

(A) In general

The Administrator shall—

(i) to the maximum extent practicable, achieve nationwide deployment of clean school buses and zero-emission school buses through the program under this section; and

(ii) ensure a broad geographic distribution of awards.

(B) Limitation

The Administrator shall ensure that the amount received by all eligible entities in a State from grants and rebates under this section does not exceed 10 percent of the amounts made available to carry out this section during a fiscal year.

(8) Annual report

Not later than January 31 of each year, the Administrator shall submit to Congress a report that evaluates the implementation of this section and describes—

(A) the total number of applications received;

(B) the quantity and amount of grants and rebates awarded and the location of the recipients of the grants and rebates;

(C) the criteria used to select the recipients; and

(D) any other information the Administrator considers appropriate.

(c) Education and outreach

(1) In general

Not later than 120 days after November 15, 2021, the Administrator shall develop an education and outreach program to promote and explain the award program under this section.

(2) Coordination with stakeholders

The education and outreach program under paragraph (1) shall be designed and conducted in conjunction with interested stakeholders.

(3) Components

The education and outreach program under paragraph (1) shall—

(A) inform potential award recipients on the process of applying for awards and fulfilling the requirements of awards;

(B) describe the available technologies and the benefits of using the technologies;

(C) explain the benefits and costs incurred by participating in the award program;

(D) make available information regarding best practices, lessons learned, and technical and other information regarding—

(i) clean school bus and zero-emission school bus acquisition and deployment;

(ii) the build-out of associated infrastructure and advance planning with the local electricity supplier;

(iii) workforce development, training, and Registered Apprenticeships that meet the requirements under parts 29 and 30 of title 29, Code of Federal Regulations (as in effect on December 1, 2019); and

(iv) any other information that is necessary, as determined by the Administrator; and

(E) include, as appropriate, information from the annual report required under subsection (b)(7).[1]

(d) Administrative costs

The Administrator may use, for the administrative costs of carrying out this section, not more than 3 percent of the amounts made available to carry out this section for any fiscal year.

(e) Regulations

The Administrator shall have the authority to issue such regulations or other guidance, forms, instructions, and publications as may be necessary or appropriate to carry out the programs, projects,

or activities authorized under this section, including to ensure that such programs, projects, or activities are completed in a timely and effective manner, result in emissions reductions, and maximize public health benefits.

(f) Authorization of appropriations

There is authorized to be appropriated to the Administrator to carry out this section, to remain available until expended, $1,000,000,000 for each of fiscal years 2022 through 2026, of which—

(1) $500,000,000 shall be made available for the adoption of clean school buses and zero-emission school buses; and

(2) $500,000,000 shall be made available for the adoption of zero-emission school buses.

(Pub. L. 109–58, title VII, §741, Aug. 8, 2005, 119 Stat. 821; Pub. L. 117–58, div. G, title XI, §71101, Nov. 15, 2021, 135 Stat. 1321.)

EDITORIAL NOTES

AMENDMENTS

2021—Pub. L. 117–58 amended section generally. Prior to amendment, section related to program for retrofit or replacement of certain existing school buses with clean school buses.

[1] *So in original. Probably should be "subsection (b)(8).".*

§16091a. Clean school bus program

(a) Definitions

In this section, the following definitions apply:

(1) Administrator

The term "Administrator" means the Administrator of the Environmental Protection Agency.

(2) Alternative fuel

The term "alternative fuel" means—

(A) liquefied natural gas, compressed natural gas, liquefied petroleum gas, hydrogen, or propane;

(B) methanol or ethanol at no less than 85 percent by volume; or

(C) biodiesel conforming with standards published by the American Society for Testing and Materials as of August 10, 2005.

(3) Clean school bus

The term "clean school bus" means a school bus with a gross vehicle weight of greater than 14,000 pounds that—

(A) is powered by a heavy duty engine; and

(B) is operated solely on an alternative fuel or ultra-low sulfur diesel fuel.

(4) Eligible recipient

(A) In general

Subject to subparagraph (B), the term "eligible recipient" means—

(i) one or more local or State governmental entities responsible for providing school bus service to one or more public school systems or the purchase of school buses;

(ii) one or more contracting entities that provide school bus service to one or more public school systems; or

(iii) a nonprofit school transportation association.

(B) Special requirements

In the case of eligible recipients identified under clauses (ii) and (iii) of subparagraph (A), the

Administrator shall establish timely and appropriate requirements for notice and may establish timely and appropriate requirements for approval by the public school systems that would be served by buses purchased or retrofit using grant funds made available under this section.

(5) Retrofit technology

The term "retrofit technology" means a particulate filter or other emissions control equipment that is verified or certified by the Administrator or the California Air Resources Board as an effective emission reduction technology when installed on an existing school bus.

(6) Secretary

The term "Secretary" means the Secretary of Energy.

(7) Ultra-low sulfur diesel fuel

The term "ultra-low sulfur diesel fuel" means diesel fuel that contains sulfur at not more than 15 parts per million.

(b) Program for retrofit or replacement of certain existing school buses with clean school buses

(1) Establishment

(A) In general

The Administrator, in consultation with the Secretary and other appropriate Federal departments and agencies, shall establish a program for awarding grants on a competitive basis to eligible recipients for the replacement of, retrofit (including repowering, aftertreatment, and remanufactured engines) of, or purchase of alternative fuels for, certain existing school buses. The awarding of grants for the purchase of alternative fuels should be consistent with the historic funding levels of the program for such purchase.

(B) Balancing

In awarding grants under this section, the Administrator shall achieve, to the maximum extent practicable, achieve [1] an appropriate balance between awarding grants—

(i) to replace school buses;
(ii) to install retrofit technologies; and
(iii) to purchase and use alternative fuel.

(2) Priority of grant applications

(A) Replacement

In the case of grant applications to replace school buses, the Administrator shall give priority to applicants that propose to replace school buses manufactured before model year 1977.

(B) Retrofitting

In the case of grant applications to retrofit school buses, the Administrator shall give priority to applicants that propose to retrofit school buses manufactured in or after model year 1991.

(3) Use of school bus fleet

(A) In general

All school buses acquired or retrofitted with funds provided under this section shall be operated as part of the school bus fleet for which the grant was made for not less than 5 years.

(B) Maintenance, operation, and fueling

New school buses and retrofit technology shall be maintained, operated, and fueled according to manufacturer recommendations or State requirements.

(4) Retrofit grants

The Administrator may award grants under this section for up to 100 percent of the retrofit technologies and installation costs.

(5) Replacement grants

(A) Eligibility for 50 percent grants

The Administrator may award grants under this section for replacement of school buses in the amount of up to one-half of the acquisition costs (including fueling infrastructure) for—

(i) clean school buses with engines manufactured in model year 2005 or 2006 that emit not more than—

(I) 1.8 grams per brake horsepower-hour of non-methane hydrocarbons and oxides of nitrogen; and

(II) .01 grams per brake horsepower-hour of particulate matter; or

(ii) clean school buses with engines manufactured in model year 2007, 2008, or 2009 that satisfy regulatory requirements established by the Administrator for emissions of oxides of nitrogen and particulate matter to be applicable for school buses manufactured in model year 2010.

(B) Eligibility for 25 percent grants

The Administrator may award grants under this section for replacement of school buses in the amount of up to one-fourth of the acquisition costs (including fueling infrastructure) for—

(i) clean school buses with engines manufactured in model year 2005 or 2006 that emit not more than—

(I) 2.5 grams per brake horsepower-hour of non-methane hydrocarbons and oxides of nitrogen; and

(II) .01 grams per brake horsepower-hour of particulate matter; or

(ii) clean school buses with engines manufactured in model year 2007 or thereafter that satisfy regulatory requirements established by the Administrator for emissions of oxides of nitrogen and particulate matter from school buses manufactured in that model year.

(6) Ultra-low sulfur diesel fuel

(A) [2] In general

In the case of a grant recipient receiving a grant for the acquisition of ultra-low sulfur diesel fuel school buses with engines manufactured in model year 2005 or 2006, the grant recipient shall provide, to the satisfaction of the Administrator—

(i) documentation that diesel fuel containing sulfur at not more than 15 parts per million is available for carrying out the purposes of the grant; and

(ii) a commitment by the applicant to use that fuel in carrying out the purposes of the grant.

(7) Deployment and distribution

The Administrator, to the maximum extent practicable, shall—

(A) achieve nationwide deployment of clean school buses through the program under this section; and

(B) ensure a broad geographic distribution of grant awards, with no State receiving more than 10 percent of the grant funding made available under this section during a fiscal year.

(8) Annual report

(A) [2] In general

Not later than January 31 of each year, the Administrator shall submit to Congress a report that—

(i) evaluates the implementation of this section; and

(ii) describes—

(I) the total number of grant applications received;

(II) the number and types of alternative fuel school buses, ultra-low sulfur diesel fuel school buses, and retrofitted buses requested in grant applications;

(III) grants awarded and the criteria used to select the grant recipients;

(IV) certified engine emission levels of all buses purchased or retrofitted under this section;

(V) an evaluation of the in-use emission level of buses purchased or retrofitted under this section; and

(VI) any other information the Administrator considers appropriate.

(c) Education

(1) In general

Not later than 90 days after August 10, 2005, the Administrator shall develop an education outreach program to promote and explain the grant program.

(2) Coordination with stakeholders

The outreach program shall be designed and conducted in conjunction with national school bus transportation associations and other stakeholders.

(3) Components

The outreach program shall—

(A) inform potential grant recipients on the process of applying for grants;

(B) describe the available technologies and the benefits of the technologies;

(C) explain the benefits of participating in the grant program; and

(D) include, as appropriate, information from the annual report required under subsection (b)(8).

(d) Authorization of appropriations

There are authorized to be appropriated to the Administrator to carry out this section, to remain available until expended—

(1) $55,000,000 for each of fiscal years 2006 and 2007; and

(2) such sums as are necessary for each of fiscal years 2008, 2009, and 2010.

(Pub. L. 109–59, title VI, §6015, Aug. 10, 2005, 119 Stat. 1884.)

EDITORIAL NOTES

CODIFICATION

Section was enacted as part of the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users or the SAFETEA–LU, and not as part of the Energy Policy Act of 2005 which comprises this chapter.

[1] So in original. The word "achieve" probably should not appear.

[2] So in original. No subpar. (B) was enacted.

§16092. Diesel truck retrofit and fleet modernization program

(a) Establishment

The Administrator, in consultation with the Secretary, shall establish a program for awarding grants on a competitive basis to public agencies and entities for fleet modernization programs including installation of retrofit technologies for diesel trucks.

(b) Eligible recipients

A grant shall be awarded under this section only to a State or local government or an agency or instrumentality of a State or local government or of two or more State or local governments who will allocate funds, with preference to ports and other major hauling operations.

(c) Awards

(1) In general

The Administrator shall seek, to the maximum extent practicable, to ensure a broad geographic distribution of grants under this section.

(2) Preferences

In making awards of grants under this section, the Administrator shall give preference to proposals that—

(A) will achieve the greatest reductions in emissions of nonmethane hydrocarbons, oxides of nitrogen, and/or particulate matter per proposal or per truck; or

(B) involve the use of Environmental Protection Agency or California Air Resources Board verified emissions control retrofit technology on diesel trucks that operate solely on ultra-low sulfur diesel fuel after September 2006.

(d) Conditions of grant

A grant shall be provided under this section on the conditions that—

(1) trucks which are replacing scrapped trucks and on which retrofit emissions-control technology are to be demonstrated—

(A) will operate on ultra-low sulfur diesel fuel where such fuel is reasonably available or required for sale by State or local law or regulation;

(B) were manufactured in model year 1998 and before; and

(C) will be used for the transportation of cargo goods especially in port areas or used in goods movement and major hauling operations;

(2) grant funds will be used for the purchase of emission control retrofit technology, including State taxes and contract fees; and

(3) grant recipients will provide at least 50 percent of the total cost of the retrofit, including the purchase of emission control retrofit technology and all necessary labor for installation of the retrofit, from any source other than this section.

(e) Verification

Not later than 90 days after August 8, 2005, the Administrator shall publish in the Federal Register procedures to—

(1) make grants pursuant to this section;

(2) verify that trucks powered by ultra-low sulfur diesel fuel on which retrofit emissions-control technology are to be demonstrated will operate on diesel fuel containing not more than 15 parts per million of sulfur after September 2006; and

(3) verify that grants are administered in accordance with this section.

(f) Authorization of appropriations

There are authorized to be appropriated to the Administrator to carry out this section, to remain available until expended the following sums:

(1) $20,000,000 for fiscal year 2006.

(2) $35,000,000 for fiscal year 2007.

(3) $45,000,000 for fiscal year 2008.

(4) Such sums as are necessary for each of fiscal years 2009 and 2010.

(Pub. L. 109–58, title VII, §742, Aug. 8, 2005, 119 Stat. 824.)

§16093. Fuel cell school buses

(a) Establishment

The Secretary shall establish a program for entering into cooperative agreements—

(1) with private sector fuel cell bus developers for the development of fuel cell-powered school buses; and

(2) subsequently, with not less than 2 units of local government using natural gas-powered school buses and such private sector fuel cell bus developers to demonstrate the use of fuel cell-powered school buses.

(b) Cost sharing

The non-Federal contribution for activities funded under this section shall be not less than—

(1) 20 percent for fuel infrastructure development activities; and

(2) 50 percent for demonstration activities and for development activities not described in paragraph (1).

(c) Reports to Congress

Not later than 3 years after August 8, 2005, the Secretary shall transmit to Congress a report that—

(1) evaluates the process of converting natural gas infrastructure to accommodate fuel cell-powered school buses; and

(2) assesses the results of the development and demonstration program under this section.

(d) Authorization of appropriations

There are authorized to be appropriated to the Secretary to carry out this section $25,000,000 for the period of fiscal years 2006 through 2009.

(Pub. L. 109–58, title VII, §743, Aug. 8, 2005, 119 Stat. 826.)

PART D—MISCELLANEOUS

§16101. Railroad efficiency

(a) Establishment

The Secretary shall (in cooperation with the Secretary of Transportation and the Administrator of the Environmental Protection Agency) establish a cost-shared, public-private research partnership involving the Federal Government, railroad carriers, locomotive manufacturers and equipment suppliers, and the Association of American Railroads, to develop and demonstrate railroad locomotive technologies that increase fuel economy, reduce emissions, and lower costs of operation.

(b) Authorization of appropriations

There are authorized to be appropriated to the Secretary to carry out this section—

(1) $15,000,000 for fiscal year 2006;

(2) $20,000,000 for fiscal year 2007; and

(3) $30,000,000 for fiscal year 2008.

(Pub. L. 109–58, title VII, §751, Aug. 8, 2005, 119 Stat. 826.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

ADVANCED TECHNOLOGY LOCOMOTIVE GRANT PILOT PROGRAM

Pub. L. 110–140, title XI, §1111, Dec. 19, 2007, 121 Stat. 1757, provided that:

"(a) IN GENERAL.—The Secretary of Transportation, in consultation with the Administrator of the Environmental Protection Agency, shall establish and carry out a pilot program for making grants to railroad carriers (as defined in section 20102 of title 49, United States Code) and State and local governments—

"(1) for assistance in purchasing hybrid or other energy-efficient locomotives, including hybrid switch and generator-set locomotives; and

"(2) to demonstrate the extent to which such locomotives increase fuel economy, reduce emissions, and lower costs of operation.

"(b) LIMITATION.—Notwithstanding subsection (a), no grant under this section may be used to fund the costs of emissions reductions that are mandated under Federal law.

"(c) GRANT CRITERIA.—In selecting applicants for grants under this section, the Secretary of Transportation shall consider—

"(1) the level of energy efficiency that would be achieved by the proposed project;

"(2) the extent to which the proposed project would assist in commercial deployment of hybrid or other energy-efficient locomotive technologies;

"(3) the extent to which the proposed project complements other private or governmental partnership efforts to improve air quality or fuel efficiency in a particular area; and

"(4) the extent to which the applicant demonstrates innovative strategies and a financial commitment to increasing energy efficiency and reducing greenhouse gas emissions of its railroad operations.

"(d) COMPETITIVE GRANT SELECTION PROCESS.—

"(1) APPLICATIONS.—A railroad carrier or State or local government seeking a grant under this section shall submit for approval by the Secretary of Transportation an application for the grant containing such information as the Secretary of Transportation may require.

"(2) COMPETITIVE SELECTION.—The Secretary of Transportation shall conduct a national solicitation for applications for grants under this section and shall select grantees on a competitive basis.

"(e) FEDERAL SHARE.—The Federal share of the cost of a project under this section shall not exceed 80 percent of the project cost.

"(f) REPORT.—Not later than 3 years after the date of enactment of this Act [Dec. 19, 2007], the Secretary of Transportation shall submit to Congress a report on the results of the pilot program carried out under this section.

"(g) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to the Secretary of Transportation $10,000,000 for each of the fiscal years 2008 through 2011 to carry out this section. Such funds shall remain available until expended."

§16102. Diesel fueled vehicles

(a) Definition of tier 2 emission standards

In this section, the term "tier 2 emission standards" means the motor vehicle emission standards that apply to passenger cars, light trucks, and larger passenger vehicles manufactured after the 2003 model year, as issued on February 10, 2000, by the Administrator of the Environmental Protection Agency under sections 7521 and 7545 of this title.

(b) Diesel combustion and after-treatment technologies

The Secretary shall accelerate efforts to improve diesel combustion and after-treatment technologies for use in diesel fueled motor vehicles.

(c) Goals

The Secretary shall carry out subsection (b) with a view toward achieving the following goals:

(1) Developing and demonstrating diesel technologies that, not later than 2010, meet the following standards:

(A) Tier 2 emission standards.

(B) The heavy-duty emissions standards of 2007 that are applicable to heavy-duty vehicles under regulations issued by the Administrator of the Environmental Protection Agency as of August 8, 2005.

(2) Developing the next generation of low-emission, high efficiency diesel engine technologies, including homogeneous charge compression ignition technology.

(Pub. L. 109–58, title VII, §754, Aug. 8, 2005, 119 Stat. 828.)

§16103. Conserve by Bicycling Program

(a) Definitions

In this section:

(1) Program

The term "program" means the Conserve by Bicycling Program established by subsection (b).

(2) Secretary

The term "Secretary" means the Secretary of Transportation.

(b) Establishment

There is established within the Department of Transportation a program to be known as the "Conserve by Bicycling Program".

(c) Projects

(1) In general

In carrying out the program, the Secretary shall establish not more than 10 pilot projects that are—

(A) dispersed geographically throughout the United States; and

(B) designed to conserve energy resources by encouraging the use of bicycles in place of motor vehicles.

(2) Requirements

A pilot project described in paragraph (1) shall—

(A) use education and marketing to convert motor vehicle trips to bicycle trips;

(B) document project results and energy savings (in estimated units of energy conserved);

(C) facilitate partnerships among interested parties in at least 2 of the fields of—

(i) transportation;

(ii) law enforcement;

(iii) education;

(iv) public health;

(v) environment; and

(vi) energy;

(D) maximize bicycle facility investments;

(E) demonstrate methods that may be used in other regions of the United States; and

(F) facilitate the continuation of ongoing programs that are sustained by local resources.

(3) Cost sharing

At least 20 percent of the cost of each pilot project described in paragraph (1) shall be provided from non-Federal sources.

(d) Energy and bicycling research study

(1) In general

Not later than 2 years after August 8, 2005, the Secretary shall enter into a contract with the National Academy of Sciences for, and the National Academy of Sciences shall conduct and submit to Congress a report on, a study on the feasibility of converting motor vehicle trips to bicycle trips.

(2) Components

The study shall—

(A) document the results or progress of the pilot projects under subsection (c);

(B) determine the type and duration of motor vehicle trips that people in the United States may feasibly make by bicycle, taking into consideration factors such as—

(i) weather;

(ii) land use and traffic patterns;

(iii) the carrying capacity of bicycles; and

(iv) bicycle infrastructure;

(C) determine any energy savings that would result from the conversion of motor vehicle trips to bicycle trips;

(D) include a cost-benefit analysis of bicycle infrastructure investments; and

(E) include a description of any factors that would encourage more motor vehicle trips to be replaced with bicycle trips.

(e) Authorization of appropriations

There is authorized to be appropriated to the Secretary to carry out this section $6,200,000, to remain available until expended, of which—

(1) $5,150,000 shall be used to carry out pilot projects described in subsection (c);

(2) $300,000 shall be used by the Secretary to coordinate, publicize, and disseminate the results of the program; and

(3) $750,000 shall be used to carry out subsection (d).

(Pub. L. 109–58, title VII, §755, Aug. 8, 2005, 119 Stat. 828.)

§16104. Reduction of engine idling

(a) Definitions

In this section:

(1) Administrator

The term "Administrator" means the Administrator of the Environmental Protection Agency.

(2) Advanced truck stop electrification system

The term "advanced truck stop electrification system" means a stationary system that delivers heat, air conditioning, electricity, or communications, and is capable of providing verifiable and auditable evidence of use of those services, to a heavy-duty vehicle and any occupants of the heavy-duty vehicle with or without relying on components mounted onboard the heavy-duty vehicle for delivery of those services.

(3) Auxiliary power unit

The term "auxiliary power unit" means an integrated system that—

(A) provides heat, air conditioning, engine warming, or electricity to components on a heavy-duty vehicle; and

(B) is certified by the Administrator under part 89 of title 40, Code of Federal Regulations (or any successor regulation), as meeting applicable emission standards.

(4) Heavy-duty vehicle

The term "heavy-duty vehicle" means a vehicle that—

(A) has a gross vehicle weight rating greater than 8,500 pounds; and

(B) is powered by a diesel engine.

(5) Idle reduction technology

The term "idle reduction technology" means an advanced truck stop electrification system, auxiliary power unit, or other technology that—

(A) is used to reduce long-duration idling; and

(B) allows for the main drive engine or auxiliary refrigeration engine to be shut down.

(6) Energy conservation technology

the [1] term "energy conservation technology" means any device, system of devices, or equipment that improves the fuel economy.

(7) Long-duration idling

(A) In general

The term "long-duration idling" means the operation of a main drive engine or auxiliary

refrigeration engine, for a period greater than 15 consecutive minutes, at a time at which the main drive engine is not engaged in gear.

(B) Exclusions

The term "long-duration idling" does not include the operation of a main drive engine or auxiliary refrigeration engine during a routine stoppage associated with traffic movement or congestion.

(b) Idle reduction technology benefits, programs, and studies

(1) In general

Not later than 90 days after August 8, 2005, the Administrator shall—

(A)(i) commence a review of the mobile source air emission models of the Environmental Protection Agency used under the Clean Air Act (42 U.S.C. 7401 et seq.) to determine whether the models accurately reflect the emissions resulting from long-duration idling of heavy-duty vehicles and other vehicles and engines; and

(ii) update those models as the Administrator determines to be appropriate; and

(B)(i) commence a review of the emission reductions achieved by the use of idle reduction technology; and

(ii) complete such revisions of the regulations and guidance of the Environmental Protection Agency as the Administrator determines to be appropriate.

(2) Deadline for completion

Not later than 180 days after August 8, 2005, the Administrator shall—

(A) complete the reviews under subparagraphs (A)(i) and (B)(i) of paragraph (1); and

(B) prepare and make publicly available one or more reports on the results of the reviews.

(3) Discretionary inclusions

The reviews under subparagraphs (A)(i) and (B)(i) of paragraph (1) and the reports under paragraph (2)(B) may address the potential fuel savings resulting from use of idle reduction technology.

(4) Idle reduction and energy conservation deployment program

(A) Establishment

(i) In general

Not later than 90 days after August 8, 2005, the Administrator, in consultation with the Secretary of Transportation shall, through the Environmental Protection Agency's SmartWay Transport Partnership, establish a program to support deployment of idle reduction and energy conservation technologies.

(ii) Priority

The Administrator shall give priority to the deployment of idle reduction and energy conservation technologies based on the costs and beneficial effects on air quality and ability to lessen the emission of criteria air pollutants.

(B) Funding

(i) Authorization of appropriations

There are authorized to be appropriated to the Administrator to carry out subparagraph (A) for the purpose of reducing extended idling from heavy-duty vehicles $19,500,000 for fiscal year 2006, $30,000,000 for fiscal year 2007, and $45,000,000 for fiscal year 2008.

(ii) Locomotives

There are authorized to be appropriated to the administrator to carry out subparagraph (A) for the purpose of reducing extended idling from locomotives $10,000,000 for fiscal year 2006, $15,000,000 for fiscal year 2007, and $20,000,000 for fiscal year 2008.

(iii) Cost sharing

Subject to clause (iv), the Administrator shall require at least 50 percent of the costs directly and specifically related to any project under this section to be provided from non-Federal sources.

(iv) Necessary and appropriate reductions

The Administrator may reduce the non-Federal requirement under clause (iii) if the Administrator determines that the reduction is necessary and appropriate to meet the objectives of this section.

(5) Idling location study

(A) In general

Not later than 90 days after August 8, 2005, the Administrator, in consultation with the Secretary of Transportation, shall commence a study to analyze all locations at which heavy-duty vehicles stop for long-duration idling, including—

(i) truck stops;
(ii) rest areas;
(iii) border crossings;
(iv) ports;
(v) transfer facilities; and
(vi) private terminals.

(B) Deadline for completion

Not later than 180 days after August 8, 2005, the Administrator shall—

(i) complete the study under subparagraph (A); and
(ii) prepare and make publicly available one or more reports of the results of the study.

(c) Omitted

(d) Report

Not later than 60 days after the date on which funds are initially awarded under this section, and on an annual basis thereafter, the Administrator shall submit to Congress a report containing—

(1) an identification of the grant recipients, a description of the projects to be funded and the amount of funding provided; and

(2) an identification of all other applicants that submitted applications under the program.

(Pub. L. 109–58, title VII, §756, Aug. 8, 2005, 119 Stat. 829.)

EDITORIAL NOTES

REFERENCES IN TEXT

The Clean Air Act, referred to in subsec. (b)(1)(A)(i), is act July 14, 1955, ch. 360, 69 Stat. 322, as amended, which is classified generally to chapter 85 (§7401 et seq.) of this title. For complete classification of this Act to the Code, see Short Title note set out under section 7401 of this title and Tables.

CODIFICATION

Section is comprised of section 756 of Pub. L. 109–58. Subsec. (c) of section 756 of Pub. L. 109–58 amended section 127 of Title 23, Highways.

[1] *So in original. Probably should be capitalized.*

§16105. Biodiesel engine testing program

(a) In general

Not later that [1] 180 days after August 8, 2005, the Secretary shall initiate a partnership with diesel

engine, diesel fuel injection system, and diesel vehicle manufacturers and diesel and biodiesel fuel providers, to include biodiesel testing in advanced diesel engine and fuel system technology.

(b) Scope

The program shall provide for testing to determine the impact of biodiesel from different sources on current and future emission control technologies, with emphasis on—

(1) the impact of biodiesel on emissions warranty, in-use liability, and antitampering provisions;

(2) the impact of long-term use of biodiesel on engine operations;

(3) the options for optimizing these technologies for both emissions and performance when switching between biodiesel and diesel fuel; and

(4) the impact of using biodiesel in these fueling systems and engines when used as a blend with 2006 Environmental Protection Agency-mandated diesel fuel containing a maximum of 15-parts-per-million sulfur content.

(c) Report

Not later than 2 years after August 8, 2005, the Secretary shall provide an interim report to Congress on the findings of the program, including a comprehensive analysis of impacts from biodiesel on engine operation for both existing and expected future diesel technologies, and recommendations for ensuring optimal emissions reductions and engine performance with biodiesel.

(d) Authorization of appropriations

There are authorized to be appropriated $5,000,000 for each of fiscal years 2006 through 2010 to carry out this section.

(e) Definition

For purposes of this section, the term "biodiesel" means a diesel fuel substitute produced from nonpetroleum renewable resources that meets the registration requirements for fuels and fuel additives established by the Environmental Protection Agency under section 7545 of this title and that meets the American Society for Testing and Materials D6751–02a Standard Specification for Biodiesel Fuel (B100) Blend Stock for Distillate Fuels.

(Pub. L. 109–58, title VII, §757, Aug. 8, 2005, 119 Stat. 832.)

[1] *So in original. Probably should be "than".*

§16106. Ultra-efficient engine technology for aircraft

(a) Ultra-efficient engine technology partnership

The Secretary shall enter into a cooperative agreement with the National Aeronautics and Space Administration for the development of ultra-efficient engine technology for aircraft.

(b) Performance objective

The Secretary shall establish the following performance objectives for the program set forth in subsection (a):

(1) A fuel efficiency increase of at least 10 percent.

(2) A reduction in the impact of landing and takeoff nitrogen oxides emissions on local air quality of 70 percent.

(3) Exploring advanced concepts, alternate propulsion, and power configurations, including hybrid fuel cell powered systems.

(4) Exploring the use of alternate fuel in conventional or nonconventional turbine-based systems.

(c) Authorization of appropriations

There are authorized to be appropriated to the Secretary for carrying out this section $50,000,000 for each of the fiscal years 2006, 2007, 2008, 2009, and 2010.

(Pub. L. 109–58, title VII, §758, Aug. 8, 2005, 119 Stat. 833.)

PART E—FEDERAL AND STATE PROCUREMENT

§16121. Definitions

In this part:

(1) Fuel cell

The term "fuel cell" means a device that directly converts the chemical energy of a fuel and an oxidant into electricity by electrochemical processes occurring at separate electrodes in the device.

(2) Light-duty or heavy-duty vehicle fleet

The term "light-duty or heavy-duty vehicle fleet" does not include any vehicle designed or procured for combat or combat-related missions.

(3) Stationary; portable

The terms "stationary" and "portable", when used in reference to a fuel cell, include—

(A) continuous electric power; and

(B) backup electric power.

(4) Task Force

The term "Task Force" means the Hydrogen and Fuel Cell Technical Task Force established under section 16155 of this title.

(5) Technical Advisory Committee

The term "Technical Advisory Committee" means the independent Technical Advisory Committee selected under section 16156 of this title.

(Pub. L. 109–58, title VII, §781, Aug. 8, 2005, 119 Stat. 835.)

§16122. Federal and State procurement of fuel cell vehicles and hydrogen energy systems

(a) Purposes

The purposes of this section are—

(1) to stimulate acceptance by the market of fuel cell vehicles and hydrogen energy systems;

(2) to support development of technologies relating to fuel cell vehicles, public refueling stations, and hydrogen energy systems; and

(3) to require the Federal government, [1] which is the largest single user of energy in the United States, to adopt those technologies as soon as practicable after the technologies are developed, in conjunction with private industry partners.

(b) Federal leases and purchases

(1) Requirement

(A) In general

Not later than January 1, 2010, the head of any Federal agency that uses a light-duty or heavy-duty vehicle fleet shall lease or purchase fuel cell vehicles and hydrogen energy systems to meet any applicable energy savings goal described in subsection (c).

(B) Learning demonstration vehicles

The Secretary may lease or purchase appropriate vehicles developed under subsections

(a)(10) and (b)(1)(A) of section 16157 of this title to meet the requirement in subparagraph (A).

(2) Costs of leases and purchases

(A) In general

The Secretary, in cooperation with the Task Force and the Technical Advisory Committee, shall pay to Federal agencies (or share the cost under interagency agreements) the difference in cost between—

(i) the cost to the agencies of leasing or purchasing fuel cell vehicles and hydrogen energy systems under paragraph (1); and

(ii) the cost to the agencies of a feasible alternative to leasing or purchasing fuel cell vehicles and hydrogen energy systems, as determined by the Secretary.

(B) Competitive costs and management structures

In carrying out subparagraph (A), the Secretary, in consultation with the agency, may use the General Services Administration or any commercial vendor to ensure—

(i) a cost-effective purchase of a fuel cell vehicle or hydrogen energy system; or

(ii) a cost-effective management structure of the lease of a fuel cell vehicle or hydrogen energy system.

(3) Exception

(A) In general

If the Secretary determines that the head of an agency described in paragraph (1) cannot find an appropriately efficient and reliable fuel cell vehicle or hydrogen energy system in accordance with paragraph (1), that agency shall be excepted from compliance with paragraph (1).

(B) Consideration

In making a determination under subparagraph (A), the Secretary shall consider—

(i) the needs of the agency; and

(ii) an evaluation performed by—

(I) the Task Force; or

(II) the Technical Advisory Committee.

(c) Energy savings goals

(1) In general

(A) Regulations

Not later than December 31, 2006, the Secretary shall—

(i) in cooperation with the Task Force, promulgate regulations for the period of 2008 through 2010 that extend and augment energy savings goals for each Federal agency, in accordance with any Executive order issued after March 2000; and

(ii) promulgate regulations to expand the minimum Federal fleet requirement and credit allowances for fuel cell vehicle systems under section 13212 of this title.

(B) Review, evaluation, and new regulations

Not later than December 31, 2010, the Secretary shall—

(i) review the regulations promulgated under subparagraph (A);

(ii) evaluate any progress made toward achieving energy savings by Federal agencies; and

(iii) promulgate new regulations for the period of 2011 through 2015 to achieve additional energy savings by Federal agencies relating to technical and cost-performance standards.

(2) Offsetting energy savings goals

An agency that leases or purchases a fuel cell vehicle or hydrogen energy system in accordance with subsection (b)(1) may use that lease or purchase to count toward an energy savings goal of the agency.

(d) Cooperative program with State agencies

(1) In general

The Secretary may establish a cooperative program with State agencies managing motor vehicle fleets to encourage purchase of fuel cell vehicles by the agencies.

(2) Incentives

In carrying out the cooperative program, the Secretary may offer incentive payments to a State agency to assist with the cost of planning, differential purchases, and administration.

(e) Authorization of appropriations

There is authorized to be appropriated to carry out this section—

(1) $15,000,000 for fiscal year 2008;
(2) $25,000,000 for fiscal year 2009;
(3) $65,000,000 for fiscal year 2010; and
(4) such sums as are necessary for each of fiscal years 2011 through 2015.

(Pub. L. 109–58, title VII, §782, Aug. 8, 2005, 119 Stat. 835.)

[1] *So in original. Probably should be capitalized.*

§16123. Federal procurement of stationary, portable, and micro fuel cells

(a) Purposes

The purposes of this section are—

(1) to stimulate acceptance by the market of stationary, portable, and micro fuel cells; and
(2) to support development of technologies relating to stationary, portable, and micro fuel cells.

(b) Federal leases and purchases

(1) In general

Not later than January 1, 2006, the head of any Federal agency that uses electrical power from stationary, portable, or microportable devices shall lease or purchase a stationary, portable, or micro fuel cell to meet any applicable energy savings goal described in subsection (c).

(2) Costs of leases and purchases

(A) In general

The Secretary, in cooperation with the Task Force and the Technical Advisory Committee, shall pay the cost to Federal agencies (or share the cost under interagency agreements) of leasing or purchasing stationary, portable, and micro fuel cells under paragraph (1).

(B) Competitive costs and management structures

In carrying out subparagraph (A), the Secretary, in consultation with the agency, may use the General Services Administration or any commercial vendor to ensure—

(i) a cost-effective purchase of a stationary, portable, or micro fuel cell; or
(ii) a cost-effective management structure of the lease of a stationary, portable, or micro fuel cell.

(3) Exception

(A) In general

If the Secretary determines that the head of an agency described in paragraph (1) cannot find an appropriately efficient and reliable stationary, portable, or micro fuel cell in accordance with paragraph (1), that agency shall be excepted from compliance with paragraph (1).

(B) Consideration

In making a determination under subparagraph (A), the Secretary shall consider—

(i) the needs of the agency; and

(ii) an evaluation performed by—
(I) the Task Force; or
(II) the Technical Advisory Committee of the Task Force.

(c) Energy savings goals

An agency that leases or purchases a stationary, portable, or micro fuel cell in accordance with subsection (b)(1) may use that lease or purchase to count toward an energy savings goal described in section 16157 of this title that is applicable to the agency.

(d) Authorization of appropriations

There is authorized to be appropriated to carry out this section—
(1) $20,000,000 for fiscal year 2006;
(2) $50,000,000 for fiscal year 2007;
(3) $75,000,000 for fiscal year 2008;
(4) $100,000,000 for fiscal year 2009;
(5) $100,000,000 for fiscal year 2010; and
(6) such sums as are necessary for each of fiscal years 2011 through 2015.

(Pub. L. 109–58, title VII, §783, Aug. 8, 2005, 119 Stat. 837.)

PART F—DIESEL EMISSIONS REDUCTION

§16131. Definitions

In this part:

(1) Administrator

The term "Administrator" means the Administrator of the Environmental Protection Agency.

(2) Certified engine configuration

The term "certified engine configuration" means a new, rebuilt, or remanufactured engine configuration—
(A) that has been certified or verified by—
(i) the Administrator; or
(ii) the California Air Resources Board;

(B) that meets or is rebuilt or remanufactured to a more stringent set of engine emission standards, as determined by the Administrator; and
(C) in the case of a certified engine configuration involving the replacement of an existing engine or vehicle, an engine configuration that replaced an engine that was—
(i) removed from the vehicle; and
(ii) returned to the supplier for remanufacturing to a more stringent set of engine emissions standards or for scrappage.

(3) Eligible entity

The term "eligible entity" means—
(A) a regional, State, local, or tribal agency or port authority with jurisdiction over transportation or air quality;
(B) a nonprofit organization or institution that—
(i) represents or provides pollution reduction or educational services to persons or organizations that own or operate diesel fleets; or
(ii) has, as its principal purpose, the promotion of transportation or air quality; and

(C) any private individual or entity that—

(i) is the owner of record of a diesel vehicle or fleet operated pursuant to a contract, license, or lease with a Federal department or agency or an entity described in subparagraph (A); and

(ii) meets such timely and appropriate requirements as the Administrator may establish for vehicle use and for notice to and approval by the Federal department or agency or entity described in subparagraph (A) with respect to which the owner has entered into a contract, license, or lease as described in clause (i).

(4) Emerging technology

The term "emerging technology" means a technology that is not currently, or has not been previously, certified or verified by the Administrator or the California Air Resources Board but for which an approvable application and test plan has been submitted for verification to the Administrator or the California Air Resources Board.

(5) Fleet

The term "fleet" means one or more diesel vehicles or mobile or stationary diesel engines.

(6) Heavy-duty truck

The term "heavy-duty truck" has the meaning given the term "heavy duty vehicle" in section 7521 of this title.

(7) Medium-duty truck

The term "medium-duty truck" has such meaning as shall be determined by the Administrator, by regulation.

(8) State

The term "State" means the several States, the District of Columbia, the Commonwealth of Puerto Rico, Guam, the United States Virgin Islands, American Samoa, and the Commonwealth of the Northern Mariana Islands.

(9) Verified technology

The term "verified technology" means a pollution control technology, including a retrofit technology or auxiliary power unit, that has been verified by—

(A) the Administrator; or

(B) the California Air Resources Board.

(Pub. L. 109–58, title VII, §791, Aug. 8, 2005, 119 Stat. 838; Pub. L. 110–255, §3(a), June 30, 2008, 122 Stat. 2423; Pub. L. 111–364, §2(a), Jan. 4, 2011, 124 Stat. 4056.)

EDITORIAL NOTES

AMENDMENTS

2011—Par. (3)(C). Pub. L. 111–364, §2(a)(1), added subpar. (C).

Par. (4). Pub. L. 111–364, §2(a)(2), inserted "currently, or has not been previously," after "that is not".

Par. (8). Pub. L. 111–364, §2(a)(6), added par. (8). Former par. (8) redesignated (9).

Par. (9). Pub. L. 111–364, §2(a)(5), struck out ", advanced truckstop electrification system," after "retrofit technology" in introductory provisions.

Pub. L. 111–364, §2(a)(4), redesignated par. (8) as (9). Former par. (9) struck out.

Pub. L. 111–364, §2(a)(3), struck out par. (9) which defined "State" to include the District of Columbia.

2008—Par. (9). Pub. L. 110–255 added par. (9).

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE OF 2011 AMENDMENT

Pub. L. 111–364, §4, Jan. 4, 2011, 124 Stat. 4061, provided that:

"(a) GENERAL RULE.—Except as provided in subsection (b), the amendments made by section 2 [amending this section and sections 16132 to 16134 and 16137 of this title] shall take effect on October 1,

2011.

"(b) EXCEPTION.—The amendments made by subsections (a)(4) and (6) and (c)(4) of section 2 [amending this section and section 16133 of this title] shall take effect on the date of enactment of this Act [Jan. 4, 2011]."

§16132. National grant, rebate, and loan programs

(a) In general

The Administrator shall use 70 percent of the funds made available to carry out this part for each fiscal year to provide grants, rebates, or low-cost revolving loans, as determined by the Administrator, on a competitive basis, to eligible entities, including through contracts entered into under subsection (e) of this section, to achieve significant reductions in diesel emissions in terms of—

(1) pollution produced; and

(2) diesel emissions exposure, particularly from fleets operating in areas designated by the Administrator as poor air quality areas.

(b) Distribution

(1) In general

The Administrator shall distribute funds made available for a fiscal year under this part in accordance with this section.

(2) Engine configurations and technologies

(A) Certified engine configurations and verified technologies

The Administrator shall provide not less than 95 percent of funds available for a fiscal year under this section to eligible entities for projects using—

(i) a certified engine configuration; or

(ii) a verified technology.

(B) Emerging technologies

(i) In general

The Administrator shall provide not more than 5 percent of funds available for a fiscal year under this section to eligible entities for the development and commercialization of emerging technologies.

(ii) Application and test plan

To receive funds under clause (i), a manufacturer, in consultation with an eligible entity, shall submit for verification to the Administrator or the California Air Resources Board a test plan for the emerging technology, together with a verification application.

(c) Applications

(1) Expedited process

(A) In general

The Administrator shall develop a simplified application process for all applicants under this section to expedite the provision of funds.

(B) Requirements

In developing the expedited process under subparagraph (A), the Administrator—

(i) shall take into consideration the special circumstances affecting small fleet owners; and

(ii) to avoid duplicative procedures, may require applicants to include in an application under this section the results of a competitive bidding process for equipment and installation.

(2) Eligibility

(A) Grants

To be eligible to receive a grant under this section, an eligible entity shall submit to the Administrator an application at such time, in such manner, and containing such information as the Administrator may require.

(B) Rebates and low-cost loans

To be eligible to receive a rebate or a low-cost loan under this section, an eligible entity shall submit an application in accordance with such guidance as the Administrator may establish—

(i) to the Administrator; or

(ii) to an entity that has entered into a contract under subsection (e).

(3) Inclusions

An application under this subsection shall include—

(A) a description of the air quality of the area served by the eligible entity;

(B) the quantity of air pollution produced by the diesel fleets in the area served by the eligible entity;

(C) a description of the project proposed by the eligible entity, including—

(i) any certified engine configuration, verified technology, or emerging technology to be used or funded by the eligible entity; and

(ii) the means by which the project will achieve a significant reduction in diesel emissions;

(D) an evaluation (using methodology approved by the Administrator or the National Academy of Sciences) of the quantifiable and unquantifiable benefits of the emissions reductions of the proposed project;

(E) an estimate of the cost of the proposed project;

(F) a description of the age and expected lifetime control of the equipment used or funded by the eligible entity;

(G) in the case of an application relating to nonroad engines or vehicles, a description of the diesel fuel available in the areas to be served by the eligible entity, including the sulfur content of the fuel; and

(H) provisions for the monitoring and verification of the project.

(4) Priority

In providing a grant, rebate, or loan under this section, the Administrator shall give highest priority to proposed projects that, as determined by the Administrator—

(A) maximize public health benefits;

(B) are the most cost-effective;

(C) serve areas—

(i) with the highest population density;

(ii) that are poor air quality areas, including areas identified by the Administrator as—

(I) in nonattainment or maintenance of national ambient air quality standards for a criteria pollutant;

(II) Federal Class I areas; or

(III) areas with toxic air pollutant concerns;

(iii) that receive a disproportionate quantity of air pollution from diesel fleets, including truckstops, ports, rail yards, terminals, construction sites, schools, and distribution centers; or

(iv) that use a community-based multistakeholder collaborative process to reduce toxic emissions;

(D) include a certified engine configuration, verified technology, or emerging technology that has a long expected useful life;

(E) will maximize the useful life of any certified engine configuration, verified technology, or emerging technology used or funded by the eligible entity; and

(F) conserve diesel fuel.

(d) Use of funds

(1) In general

An eligible entity may use a grant, rebate, or loan provided under this section to fund the costs of—

(A) a retrofit technology (including any incremental costs of a repowered or new diesel engine) that significantly reduces emissions through development and implementation of a certified engine configuration, verified technology, or emerging technology for—

(i) a bus;
(ii) a medium-duty truck or a heavy-duty truck;
(iii) a marine engine;
(iv) a locomotive; or
(v) a nonroad engine or vehicle used in—
(I) construction;
(II) handling of cargo (including at a port or airport);
(III) agriculture;
(IV) mining; or
(V) energy production; or

(B) programs or projects to reduce long-duration idling using verified technology involving a vehicle or equipment described in subparagraph (A).

(2) Regulatory programs

(A) In general

Notwithstanding paragraph (1), no grant, rebate, or loan provided, or contract entered into, under this section shall be used to fund the costs of emissions reductions that are mandated under any Federal law, except that this subparagraph shall not apply to a mandate in a State implementation plan approved by the Administrator under the Clean Air Act [42 U.S.C. 7401 et seq.].

(B) Mandated

For purposes of subparagraph (A), voluntary or elective emission reduction measures shall not be considered "mandated", regardless of whether the reductions are included in the State implementation plan of a State.

(e) Contract programs

(1) Authority

In addition to the use of contracting authority otherwise available to the Administrator, the Administrator may enter into contracts with eligible contractors described in paragraph (2) for the administration of programs for providing rebates or loans, subject to the requirements of this part.

(2) Eligible contractors

The Administrator may enter into a contract under this subsection with a for-profit or nonprofit entity that has the capacity—

(A) to sell diesel vehicles or equipment to, or to arrange financing for, individuals or entities that own a diesel vehicle or fleet; or

(B) to upgrade diesel vehicles or equipment with verified or Environmental Protection Agency-certified engines or technologies, or to arrange financing for such upgrades.

(f) Public notification

Not later than 60 days after the date of the award of a grant, rebate, or loan, the Administrator shall publish on the website of the Environmental Protection Agency—

(1) for rebates and loans provided to the owner of a diesel vehicle or fleet, the total number and

dollar amount of rebates or loans provided, as well as a breakdown of the technologies funded through the rebates or loans; and

(2) for other rebates and loans, and for grants, a description of each application for which the grant, rebate, or loan is provided.

(Pub. L. 109–58, title VII, §792, Aug. 8, 2005, 119 Stat. 839; Pub. L. 111–364, §2(b), Jan. 4, 2011, 124 Stat. 4056.)

EDITORIAL NOTES

REFERENCES IN TEXT

The Clean Air Act, referred to in subsec. (d)(2)(A), is act July 14, 1955, ch. 360, 69 Stat. 322, which is classified generally to chapter 85 (§7401 et seq.) of this title. For complete classification of this Act to the Code, see Short Title note set out under section 7401 of this title and Tables.

AMENDMENTS

2011—Pub. L. 111–364, §2(b)(1), inserted ", rebate," after "grant" in section catchline.

Subsec. (a). Pub. L. 111–364, §2(b)(2)(A), substituted "to provide grants, rebates, or low-cost revolving loans, as determined by the Administrator, on a competitive basis, to eligible entities, including through contracts entered into under subsection (e) of this section," for "to provide grants and low-cost revolving loans, as determined by the Administrator, on a competitive basis, to eligible entities" in introductory provisions.

Subsec. (a)(1). Pub. L. 111–364, §2(b)(2)(B), struck out "tons of" before "pollution produced".

Subsec. (b)(2). Pub. L. 111–364, §2(b)(3)(A), (B), redesignated par. (3) as (2) and struck out former par. (2). Prior to amendment, text read as follows: "The Administrator shall provide not less than 50 percent of funds available for a fiscal year under this section to eligible entities for the benefit of public fleets."

Subsec. (b)(2)(A). Pub. L. 111–364, §2(b)(3)(C)(i), substituted "95" for "90" in introductory provisions.

Subsec. (b)(2)(B)(i). Pub. L. 111–364, §2(b)(3)(C)(ii), substituted "5 percent" for "10 percent".

Subsec. (b)(2)(B)(ii). Pub. L. 111–364, §2(b)(3)(C)(iii), substituted "a verification application" for "the application under subsection (c)".

Subsec. (b)(3). Pub. L. 111–364, §2(b)(3)(B), redesignated par. (3) as (2).

Subsec. (c). Pub. L. 111–364, §2(b)(4)(A), (B), added pars. (1) and (2), redesignated former pars. (2) and (3) as (3) and (4), respectively, and struck out former par. (1). Prior to amendment, text of par. (1) read as follows: "To receive a grant or loan under this section, an eligible entity shall submit to the Administrator an application at a time, in a manner, and including such information as the Administrator may require."

Subsec. (c)(3)(G). Pub. L. 111–364, §2(b)(4)(C), inserted "in the case of an application relating to nonroad engines or vehicles," before "a description of the diesel".

Subsec. (c)(4). Pub. L. 111–364, §2(b)(4)(D)(i), inserted ", rebate," after "grant" and "highest" before "priority" in introductory provisions.

Subsec. (c)(4)(C)(iii). Pub. L. 111–364, §2(b)(4)(D)(ii), substituted "diesel fleets" for "a diesel fleets" and inserted "construction sites, schools," after "terminals,".

Subsec. (c)(4)(E) to (G). Pub. L. 111–364, §2(b)(4)(D)(iii)–(v), inserted "and" at end of subpar. (E), substituted a period for "; and" in subpar. (F), and struck out subpar. (G) which read as follows: "use diesel fuel with a sulfur content of less than or equal to 15 parts per million, as the Administrator determines to be appropriate."

Subsec. (d)(1). Pub. L. 111–364, §2(b)(5)(A), inserted ", rebate," after "grant" in introductory provisions.

Subsec. (d)(2)(A). Pub. L. 111–364, §2(b)(5)(B), substituted "grant, rebate, or loan provided, or contract entered into," for "grant or loan provided" and "any Federal law, except that this subparagraph shall not apply to a mandate in a State implementation plan approved by the Administrator under the Clean Air Act" for "Federal, State or local law".

Subsecs. (e), (f). Pub. L. 111–364, §2(b)(6), added subsecs. (e) and (f).

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE OF 2011 AMENDMENT

Amendment by Pub. L. 111–364 effective Oct. 1, 2011, except as otherwise provided, see section 4 of Pub. L. 111–364, set out as a note under section 16131 of this title.

§16133. State grant, rebate, and loan programs

(a) In general

Subject to the availability of adequate appropriations, the Administrator shall use 30 percent of the funds made available for a fiscal year under this part to support grant, rebate, and loan programs administered by States that are designed to achieve significant reductions in diesel emissions.

(b) Applications

The Administrator shall—

(1) provide to States guidance for use in applying for grant, rebate, or loan funds under this section, including information regarding—

(A) the process and forms for applications;

(B) permissible uses of funds received; and

(C) the cost-effectiveness of various emission reduction technologies eligible to be carried out using funds provided under this section; and

(2) establish, for applications described in paragraph (1)—

(A) an annual deadline for submission of the applications;

(B) a process by which the Administrator shall approve or disapprove each application; and

(C) a streamlined process by which a State may renew an application described in paragraph (1) for subsequent fiscal years.

(c) Allocation of funds

(1) In general

For each fiscal year, the Administrator shall allocate among States for which applications are approved by the Administrator under subsection (b)(2)(B) funds made available to carry out this section for the fiscal year.

(2) Allocation

(A) In general

Except as provided in subparagraphs (B) and (C), using not more than 20 percent of the funds made available to carry out this part for a fiscal year, the Administrator shall provide to each State qualified for an allocation for the fiscal year an allocation equal to 1/53 of the funds made available for that fiscal year for distribution to States under this paragraph.

(B) Certain territories

(i) In general

Except as provided in clause (ii), Guam, the United States Virgin Islands, American Samoa, and the Commonwealth of the Northern Mariana Islands shall collectively receive an allocation equal to 1/53 of the funds made available for that fiscal year for distribution to States under this subsection, divided equally among those 4 States.

(ii) Exception

If any State described in clause (i) does not qualify for an allocation under this paragraph, the share of funds otherwise allocated for that State under clause (i) shall be reallocated pursuant to subparagraph (C).

(C) Reallocation

If any State does not qualify for an allocation under this paragraph, the share of funds otherwise allocated for that State under this paragraph shall be reallocated to each remaining qualified State in an amount equal to the product obtained by multiplying—

(i) the proportion that the population of the State bears to the population of all States described in paragraph (1); by

(ii) the amount otherwise allocatable to the nonqualifying State under this paragraph.

(3) State matching incentive

(A) In general

If a State agrees to match the allocation provided to the State under paragraph (2) for a fiscal year, the Administrator shall provide to the State for the fiscal year an additional amount equal to 50 percent of the allocation of the State under paragraph (2).

(B) Requirements

A State—

(i) may not use funds received under this part to pay a matching share required under this subsection; and

(ii) shall not be required to provide a matching share for any additional amount received under subparagraph (A).

(4) Unclaimed funds

Any funds that are not claimed by a State for a fiscal year under this subsection shall be used to carry out section 16132 of this title.

(d) Administration

(1) In general

Subject to paragraphs (2) and (3) and, to the extent practicable, the priority areas listed in section 16132(c)(3) of this title, a State shall use any funds provided under this section to develop and implement such grant, rebate, and low-cost revolving loan programs in the State as are appropriate to meet State needs and goals relating to the reduction of diesel emissions.

(2) Apportionment of funds

The chief executive of a State that receives funding under this section may determine the portion of funds to be provided as grants, rebates, or loans.

(3) Use of funds

A grant, rebate, or loan provided under this section shall be used for a project relating to—

(A) a certified engine configuration; or

(B) a verified technology.

(4) Priority

In providing grants, rebates, and loans under this section, a State shall use the priorities in section 16132(c)(4) of this title.

(5) Public notification

Not later than 60 days after the date of the award of a grant, rebate, or loan by a State, the State shall publish on the Web site of the State—

(A) for rebates, grants, and loans provided to the owner of a diesel vehicle or fleet, the total number and dollar amount of rebates, grants, or loans provided, as well as a breakdown of the technologies funded through the rebates, grants, or loans; and

(B) for other rebates, grants, and loans, a description of each application for which the grant, rebate, or loan is provided.

(Pub. L. 109–58, title VII, §793, Aug. 8, 2005, 119 Stat. 841; Pub. L. 110–255, §3(b), June 30, 2008, 122 Stat. 2424; Pub. L. 111–364, §2(c), Jan. 4, 2011, 124 Stat. 4059.)

EDITORIAL NOTES

AMENDMENTS

2011—Pub. L. 111–364, §2(c)(1), inserted ", rebate," after "grant" in section catchline.
Subsec. (a). Pub. L. 111–364, §2(c)(2), inserted ", rebate," after "grant".

Subsec. (b)(1). Pub. L. 111–364, §2(c)(3), inserted ", rebate," after "grant" in introductory provisions.

Subsec. (c)(2). Pub. L. 111–364, §2(c)(4), amended par. (2) generally. Prior to amendment, par. (2) related to allocation of funds.

Subsec. (d)(1). Pub. L. 111–364, §2(c)(5)(A), inserted ", rebate," after "grant".

Subsec. (d)(2). Pub. L. 111–364, §2(c)(5)(B), inserted ", rebates," after "grants".

Subsec. (d)(3). Pub. L. 111–364, §2(c)(5)(C), substituted "grant, rebate, or loan provided under this section shall be used" for "grant or loan provided under this section may be used" in introductory provisions.

Subsec. (d)(4), (5). Pub. L. 111–364, §2(c)(5)(D), added pars. (4) and (5).

2008—Subsec. (c)(2)(A). Pub. L. 110–255, §3(b)(2), substituted "51" for "50" and "1.96 percent" for "2 percent".

Subsec. (c)(2)(B). Pub. L. 110–255, §3(b)(2), substituted "51" for "50" in introductory provisions.

Subsec. (c)(2)(B)(ii). Pub. L. 110–255, §3(b)(2), which directed substitution of "1.96 percent" for "2 percent", was executed by making the substitution for "2-percent", to reflect the probable intent of Congress.

Subsec. (d)(2). Pub. L. 110–255, §3(b)(1), substituted "chief executive" for "Governor".

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE OF 2011 AMENDMENT

Amendment by Pub. L. 111–364 effective Oct. 1, 2011, except that amendment by section 2(c)(4) of Pub. L. 111–364 effective Jan. 4, 2011, see section 4 of Pub. L. 111–364, set out as a note under section 16131 of this title.

§16134. Evaluation and report

(a) In general

Not later than 1 year after the date on which funds are made available under this part, and biennially thereafter, the Administrator shall submit to Congress a report evaluating the implementation of the programs under this part.

(b) Inclusions

The report shall include a description of—

(1) the total number of grant applications received;

(2) each grant, rebate, or loan made under this part, including the amount of the grant, rebate, or loan;

(3) each project for which a grant, rebate, or loan is provided under this part, including the criteria used to select the grant, rebate, or loan recipients;

(4) the actual and estimated air quality and diesel fuel conservation benefits, cost-effectiveness, and cost-benefits of the grant, rebate, and loan programs under this part;

(5) the problems encountered by projects for which a grant, rebate, or loan is provided under this part;

(6) any other information the Administrator considers to be appropriate; and

(7) in the last report sent to Congress before January 1, 2016, an analysis of the need to continue the program, including an assessment of the size of the vehicle and engine fleet that could provide benefits from being retrofit under this program and a description of the number and types of applications that were not granted in the preceding year.

(Pub. L. 109–58, title VII, §794, Aug. 8, 2005, 119 Stat. 843; Pub. L. 111–364, §2(d), Jan. 4, 2011, 124 Stat. 4060.)

EDITORIAL NOTES

AMENDMENTS

2011—Subsec. (b)(2) to (5). Pub. L. 111–364, §2(d)(1), inserted ", rebate," after "grant" wherever appearing.

Subsec. (b)(7). Pub. L. 111–364, §2(d)(2)–(4), added par. (7).

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE OF 2011 AMENDMENT

Amendment by Pub. L. 111–364 effective Oct. 1, 2011, except as otherwise provided, see section 4 of Pub. L. 111–364, set out as a note under section 16131 of this title.

§16135. Outreach and incentives

(a) Definition of eligible technology

In this section, the term "eligible technology" means—

(1) a verified technology; or

(2) an emerging technology.

(b) Technology transfer program

(1) In general

The Administrator shall establish a program under which the Administrator—

(A) informs stakeholders of the benefits of eligible technologies; and

(B) develops nonfinancial incentives to promote the use of eligible technologies.

(2) Eligible stakeholders

Eligible stakeholders under this section include—

(A) equipment owners and operators;

(B) emission and pollution control technology manufacturers;

(C) engine and equipment manufacturers;

(D) State and local officials responsible for air quality management;

(E) community organizations; and

(F) public health, educational, and environmental organizations.

(c) State implementation plans

The Administrator shall develop appropriate guidance to provide credit to a State for emission reductions in the State created by the use of eligible technologies through a State implementation plan under section 7410 of this title.

(d) International markets

The Administrator, in coordination with the Department of Commerce and industry stakeholders, shall inform foreign countries with air quality problems of the potential of technology developed or used in the United States to provide emission reductions in those countries.

(Pub. L. 109–58, title VII, §795, Aug. 8, 2005, 119 Stat. 843.)

§16136. Effect of part

Nothing in this part affects any authority under the Clean Air Act (42 U.S.C. 7401 et seq.) in existence on the day before August 8, 2005.

(Pub. L. 109–58, title VII, §796, Aug. 8, 2005, 119 Stat. 844.)

EDITORIAL NOTES

REFERENCES IN TEXT

The Clean Air Act, referred to in text, is act July 14, 1955, ch. 360, 69 Stat. 322, as amended, which is classified generally to chapter 85 (§7401 et seq.) of this title. For complete classification of this Act to the Code, see Short Title note set out under section 7401 of this title and Tables.

§16137. Authorization of appropriations

(a) In general

There is authorized to be appropriated to carry out this part $100,000,000 for each of fiscal years 2012 through 2024, to remain available until expended.

(b) Management and oversight

The Administrator may use not more than 1 percent of the amounts made available under subsection (a) for each fiscal year for management and oversight purposes.

(Pub. L. 109–58, title VII, §797, Aug. 8, 2005, 119 Stat. 844; Pub. L. 111–364, §2(e), Jan. 4, 2011, 124 Stat. 4060; Pub. L. 116–260, div. S, §101, Dec. 27, 2020, 134 Stat. 2243.)

EDITORIAL NOTES

AMENDMENTS

2020—Subsec. (a). Pub. L. 116–260 substituted "2024" for "2016".

2011—Pub. L. 111–364 amended section generally. Prior to amendment, text read as follows: "There is authorized to be appropriated to carry out this part $200,000,000 for each of fiscal years 2007 through 2011, to remain available until expended."

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE OF 2011 AMENDMENT

Amendment by Pub. L. 111–364 effective Oct. 1, 2011, except as otherwise provided, see section 4 of Pub. L. 111–364, set out as a note under section 16131 of this title.

§16138. EPA authority to accept diesel emissions reduction Supplemental Environmental Projects

The Administrator of the Environmental Protection Agency (hereinafter, the "Agency") may accept (notwithstanding sections 3302 and 1301 of title 31) diesel emissions reduction Supplemental Environmental Projects if the projects, as part of a settlement of any alleged violations of environmental law—

(1) protect human health or the environment;

(2) are related to the underlying alleged violations;

(3) do not constitute activities that the defendant would otherwise be legally required to perform; and

(4) do not provide funds for the staff of the Agency or for contractors to carry out the Agency's internal operations.

(Pub. L. 110–255, §1, June 30, 2008, 122 Stat. 2423.)

EDITORIAL NOTES

CODIFICATION

Section was not enacted as part of the Energy Policy Act of 2005 which comprises this chapter.

§16139. Settlement agreement provisions

In any settlement agreement regarding alleged violations of environmental law in which a defendant agrees to perform a diesel emissions reduction Supplemental Environmental Project, the Administrator of the Environmental Protection Agency shall require the defendant to include in the

settlement documents a certification under penalty of law that the defendant would have agreed to perform a comparably valued, alternative project other than a diesel emissions reduction Supplemental Environmental Project if the Administrator were precluded by law from accepting a diesel emission reduction Supplemental Environmental Project. A failure by the Administrator to include this language in such a settlement agreement shall not create a cause of action against the United States under the Clean Air Act [42 U.S.C. 7401 et seq.] or any other law or create a basis for overturning a settlement agreement entered into by the United States.

(Pub. L. 110–255, §2, June 30, 2008, 122 Stat. 2423.)

EDITORIAL NOTES

REFERENCES IN TEXT

The Clean Air Act, referred to in text, is act July 14, 1955, ch. 360, 69 Stat. 322, which is classified generally to chapter 85 (§7401 et seq.) of this title. For complete classification of this Act to the Code, see Short Title note set out under section 7401 of this title and Tables.

CODIFICATION

Section was not enacted as part of the Energy Policy Act of 2005 which comprises this chapter.

SUBCHAPTER VIII—HYDROGEN

§16151. Purposes

The purposes of this subchapter are—

(1) to enable and promote comprehensive development, demonstration, and commercialization of hydrogen and fuel cell technology in partnership with industry;

(2) to make critical public investments in building strong links to private industry, institutions of higher education, National Laboratories, and research institutions to expand innovation and industrial growth;

(3) to build a mature hydrogen economy that creates fuel diversity in the massive transportation sector of the United States;

(4) to sharply decrease the dependency of the United States on imported oil, eliminate most emissions from the transportation sector, and greatly enhance our energy security; and

(5) to create, strengthen, and protect a sustainable national energy economy.

(Pub. L. 109–58, title VIII, §802, Aug. 8, 2005, 119 Stat. 844.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

SHORT TITLE

For short title of title VIII of Pub. L. 109–58, which enacted this subchapter, as the "Spark M. Matsunaga Hydrogen Act of 2005", see section 801 of Pub. L. 109–58, set out as a note under section 15801 of this title.

FINDINGS; PURPOSE

Pub. L. 117–58, div. D, title III, §40311, Nov. 15, 2021, 135 Stat. 1005, provided that:

"(a) FINDINGS.—Congress finds that—

"(1) hydrogen plays a critical part in the comprehensive energy portfolio of the United States;

"(2) the use of the hydrogen resources of the United States—

"(A) promotes energy security and resilience; and

"(B) provides economic value and environmental benefits for diverse applications across multiple sectors of the economy; and

"(3) hydrogen can be produced from a variety of domestically available clean energy sources, including—

"(A) renewable energy resources, including biomass;
"(B) fossil fuels with carbon capture, utilization, and storage; and
"(C) nuclear power.

"(b) PURPOSE.—The purpose of this subtitle [Subtitle B (§§40311–40315) of title III of Pub. L. 117–58, see Tables for classification] is to accelerate research, development, demonstration, and deployment of hydrogen from clean energy sources by—

"(1) providing a statutory definition for the term 'clean hydrogen';
"(2) establishing a clean hydrogen strategy and roadmap for the United States;
"(3) establishing a clearing house for clean hydrogen program information at the National Energy Technology Laboratory;
"(4) developing a robust clean hydrogen supply chain and workforce by prioritizing clean hydrogen demonstration projects in major shale gas regions;
"(5) establishing regional clean hydrogen hubs; and
"(6) authorizing appropriations to carry out the Department of Energy Hydrogen Program Plan, dated November 2020, developed pursuant to title VIII of the Energy Policy Act of 2005 (42 U.S.C. 16151 et seq.)."

§16152. Definitions

In this subchapter:

(1) Clean hydrogen; hydrogen

The terms "clean hydrogen" and "hydrogen" mean hydrogen produced in compliance with the greenhouse gas emissions standard established under section 16166(a) of this title, including production from any fuel source.

(2) Fuel cell

The term "fuel cell" means a device that directly converts the chemical energy of a fuel, which is supplied from an external source, and an oxidant into electricity by electrochemical processes occurring at separate electrodes in the device.

(3) Heavy-duty vehicle

The term "heavy-duty vehicle" means a motor vehicle that—

(A) is rated at more than 8,500 pounds gross vehicle weight;
(B) has a curb weight of more than 6,000 pounds; or
(C) has a basic vehicle frontal area in excess of 45 square feet.

(4) Infrastructure

The term "infrastructure" means the equipment, systems, or facilities used to produce, distribute, deliver, or store hydrogen (except for onboard storage).

(5) Light-duty vehicle

The term "light-duty vehicle" means a motor vehicle that is rated at 8,500 or less pounds gross vehicle weight.

(6) Portable; storage

The terms "portable" and "storage", when used in reference to a fuel cell, include—

(A) continuous electric power; and
(B) backup electric power.

(7) Task Force

The term "Task Force" means the Hydrogen and Fuel Cell Technical Task Force established under section 16155 of this title.

(8) Technical Advisory Committee

The term "Technical Advisory Committee" means the independent Technical Advisory Committee established under section 16156 of this title.

(Pub. L. 109–58, title VIII, §803, Aug. 8, 2005, 119 Stat. 844; Pub. L. 117–58, div. D, title III, §40312, Nov. 15, 2021, 135 Stat. 1006.)

EDITORIAL NOTES

AMENDMENTS

2021—Pars. (1) to (4). Pub. L. 117–58, §40312(2), (3), added par. (1) and redesignated former pars. (1) to (4) as (2) to (5), respectively.

Par. (5). Pub. L. 117–58, §40312(2), redesignated par. (4) as (5). Former par. (5) redesignated (6).

Pub. L. 117–58, §40312(1), substituted "Portable; storage" for "Stationary; portable" in heading and "The terms 'portable' and 'storage', when" for "The terms 'stationary' and 'portable', when" in introductory provisions.

Pars. (6) to (8). Pub. L. 117–58, §40312(2), redesignated pars. (5) to (7) as (6) to (8), respectively.

§16153. Plan

Not later than 6 months after August 8, 2005, the Secretary shall transmit to Congress a coordinated plan for the programs described in this subchapter and any other programs of the Department that are directly related to fuel cells or hydrogen. The plan shall describe, at a minimum—

(1) the agenda for the next 5 years for the programs authorized under this subchapter, including the agenda for each activity enumerated in section 16154(e) of this title;

(2) the types of entities that will carry out the activities under this subchapter and what role each entity is expected to play;

(3) the milestones that will be used to evaluate the programs for the next 5 years;

(4) the most significant technical and nontechnical hurdles that stand in the way of achieving the goals described in section 16154 of this title, and how the programs will address those hurdles; and

(5) the policy assumptions that are implicit in the plan, including any assumptions that would affect the sources of hydrogen or the marketability of hydrogen-related products.

(Pub. L. 109–58, title VIII, §804, Aug. 8, 2005, 119 Stat. 845.)

§16154. Clean hydrogen research and development program

(a) In general

The Secretary, in consultation with other Federal agencies and the private sector, shall conduct a crosscutting research and development program (referred to in this section as the "program") on technologies relating to the production, processing, purification, distribution, storage, and use of hydrogen energy, fuel cells, and related infrastructure.

(b) Goals

The goals of the program shall be—

(1) to advance research and development to demonstrate and commercialize the use of clean hydrogen in the transportation, utility, industrial, commercial, and residential sectors; and

(2) to demonstrate a standard of clean hydrogen production in the transportation, utility, industrial, commercial, and residential sectors by 2040.

(c) Focus

In carrying out activities under this section, the Secretary shall focus on factors that are common to the development of hydrogen infrastructure and the supply of vehicle and electric power for critical consumer and commercial applications, and that achieve continuous technical evolution and cost reduction, particularly for hydrogen production, the supply of hydrogen, storage of hydrogen, and end uses of hydrogen that—

(1) steadily increase production, distribution, and end use efficiency and reduce life-cycle emissions;

(2) resolve critical problems relating to catalysts, membranes, storage, lightweight materials, electronic controls, manufacturability, and other problems that emerge from the program;

(3) enhance sources of fossil fuels with carbon capture, utilization, and sequestration, renewable fuels, biofuels, and nuclear energy for hydrogen production; and

(4) enable widespread use of distributed electricity generation and storage.

(d) Public education and research

In carrying out this section, the Secretary shall support enhanced public education and research conducted at institutions of higher education in fundamental sciences, application design, and systems concepts (including education and research relating to materials, subsystems, manufacturability, maintenance, and safety) relating to hydrogen and fuel cells.

(e) Activities

In carrying out the program, the Secretary, in partnership with the private sector, shall conduct activities to advance and support—

(1) the establishment of a series of technology cost goals oriented toward achieving the standard of clean hydrogen production developed under section 16166(a) of this title;

(2) the production of clean hydrogen from diverse energy sources, including—

(A) fossil fuels with carbon capture, utilization, and sequestration;

(B) hydrogen-carrier fuels (including ethanol and methanol);

(C) renewable energy resources, including biomass;

(D) nuclear energy; and

(E) any other methods the Secretary determines to be appropriate;

(3) the use of clean hydrogen for commercial, industrial, and residential electric power generation;

(4) the use of clean hydrogen in industrial applications, including steelmaking, cement, chemical feedstocks, and process heat;

(5) the use of clean hydrogen for use as a fuel source for both residential and commercial comfort heating and hot water requirements;

(6) the safe and efficient delivery of hydrogen or hydrogen-carrier fuels, including—

(A) transmission by pipelines, including retrofitting the existing natural gas transportation infrastructure system to enable a transition to transport and deliver increasing levels of clean hydrogen, clean hydrogen blends, or clean hydrogen carriers;

(B) tanks and other distribution methods; and

(C) convenient and economic refueling of vehicles, locomotives, maritime vessels, or planes—

(i) at central refueling stations; or

(ii) through distributed onsite generation;

(7) advanced vehicle, locomotive, maritime vessel, or plane technologies, including—

(A) engine and emission control systems;

(B) energy storage, electric propulsion, and hybrid systems;

(C) automotive, locomotive, maritime vessel, or plane materials; and

(D) other advanced vehicle, locomotive, maritime vessel, or plane technologies;

(8) storage of hydrogen or hydrogen-carrier fuels, including the development of materials for safe and economic storage in gaseous, liquid, or solid form;

(9) the development of safe, durable, affordable, and efficient fuel cells, including fuel-flexible fuel cell power systems, improved manufacturing processes, high-temperature membranes, cost-effective fuel processing for natural gas, fuel cell stack and system reliability, low-temperature operation, and cold start capability;

(10) the ability of domestic clean hydrogen equipment manufacturers to manufacture commercially available competitive technologies in the United States;

(11) the use of clean hydrogen in the transportation sector, including in light-, medium-, and heavy-duty vehicles, rail transport, aviation, and maritime applications; and

(12) in coordination with relevant agencies, the development of appropriate, uniform codes and standards for the safe and consistent deployment and commercialization of clean hydrogen production, processing, delivery, and end-use technologies.

(f) Program goals

(1) Vehicles

For vehicles, the goals of the program are—

(A) to enable a commitment by automakers no later than year 2015 to offer safe, affordable, and technically viable hydrogen fuel cell vehicles in the mass consumer market; and

(B) to enable production, delivery, and acceptance by consumers of model year 2020 hydrogen fuel cell and other hydrogen-powered vehicles that will have, when compared to light duty vehicles in model year 2005—

(i) fuel economy that is substantially higher;

(ii) substantially lower emissions of air pollutants; and

(iii) equivalent or improved vehicle fuel system crash integrity and occupant protection.

(2) Hydrogen energy and energy infrastructure

For hydrogen energy and energy infrastructure, the goals of the program are to enable a commitment not later than 2015 that will lead to infrastructure by 2020 that will provide—

(A) safe and convenient refueling;

(B) improved overall efficiency;

(C) widespread availability of hydrogen from domestic energy sources through—

(i) production, with consideration of emissions levels;

(ii) delivery, including transmission by pipeline and other distribution methods for hydrogen; and

(iii) storage, including storage in surface transportation vehicles;

(D) hydrogen for fuel cells, internal combustion engines, and other energy conversion devices for portable, stationary, micro, critical needs facilities, and transportation applications; and

(E) other technologies consistent with the Department's plan.

(3) Fuel cells

The goals for fuel cells and their portable, stationary, and transportation applications are to enable—

(A) safe, economical, and environmentally sound hydrogen fuel cells;

(B) fuel cells for light duty and other vehicles; and

(C) other technologies consistent with the Department's plan.

(g) Funding

(1) In general

The Secretary shall carry out the programs under this section using a competitive, merit-based review process and consistent with the generally applicable Federal laws and regulations governing awards of financial assistance, contracts, or other agreements.

(2) Research centers

Activities under this section may be carried out by funding nationally recognized university-based or Federal laboratory research centers.

(h) Hydrogen supply

There are authorized to be appropriated to carry out projects and activities relating to hydrogen production, storage, distribution and dispensing, transport, education and coordination, and

technology transfer under this section—

(1) $160,000,000 for fiscal year 2006;
(2) $200,000,000 for fiscal year 2007;
(3) $220,000,000 for fiscal year 2008;
(4) $230,000,000 for fiscal year 2009;
(5) $250,000,000 for fiscal year 2010; and
(6) such sums as are necessary for each of fiscal years 2011 through 2020.

(i) Fuel cell technologies

There are authorized to be appropriated to carry out projects and activities relating to fuel cell technologies under this section—

(1) $150,000,000 for fiscal year 2006;
(2) $160,000,000 for fiscal year 2007;
(3) $170,000,000 for fiscal year 2008;
(4) $180,000,000 for fiscal year 2009;
(5) $200,000,000 for fiscal year 2010; and
(6) such sums as are necessary for each of fiscal years 2011 through 2020.

(j) Targets

Not later than 180 days after November 15, 2021, the Secretary shall establish targets for the program to address near-term (up to 2 years), mid-term (up to 7 years), and long-term (up to 15 years) challenges to the advancement of clean hydrogen systems and technologies.

(Pub. L. 109–58, title VIII, §805, Aug. 8, 2005, 119 Stat. 845; Pub. L. 117–58, div. D, title III, §40313(a), Nov. 15, 2021, 135 Stat. 1006.)

EDITORIAL NOTES

AMENDMENTS

2021—Pub. L. 117–58, §40313(a)(1), substituted "Clean hydrogen research and development program" for "Programs" in section catchline.

Subsec. (a). Pub. L. 117–58, §40313(a)(2), substituted "crosscutting research and development program (referred to in this section as the 'program')" for "research and development program" and inserted "processing," after "production,".

Subsec. (b). Pub. L. 117–58, §40313(a)(3), added subsec. (b) and struck out former subsec. (b). Prior to amendment, text read as follows: "The goal of the program shall be to demonstrate and commercialize the use of hydrogen for transportation (in light-duty vehicles and heavy-duty vehicles), utility, industrial, commercial, and residential applications."

Subsec. (c)(3). Pub. L. 117–58, §40313(a)(4), substituted "fossil fuels with carbon capture, utilization, and sequestration, renewable fuels, biofuels, and nuclear energy" for "renewable fuels and biofuels".

Subsec. (e). Pub. L. 117–58, §40313(a)(5), added subsec. (e) and struck out former subsec. (e) which required Secretary, in partnership with private sector, to conduct programs to address certain activities.

Subsec. (j). Pub. L. 117–58, §40313(a)(6), added subsec. (j).

§16155. Hydrogen and Fuel Cell Technical Task Force

(a) Establishment

Not later than 120 days after August 8, 2005, the President shall establish an interagency task force chaired by the Secretary with representatives from each of the following:

(1) The Office of Science and Technology Policy within the Executive Office of the President.
(2) The Department of Transportation.
(3) The Department of Defense.
(4) The Department of Commerce (including the National Institute of Standards and Technology).
(5) The Department of State.

(6) The Environmental Protection Agency.
(7) The National Aeronautics and Space Administration.
(8) Other Federal agencies as the Secretary determines appropriate.

(b) Duties

(1) Planning

The Task Force shall work toward—

(A) a safe, economical, and environmentally sound fuel infrastructure for hydrogen and hydrogen-carrier fuels, including an infrastructure that supports buses and other fleet transportation;

(B) fuel cells in government and other applications, including portable, stationary, and transportation applications;

(C) distributed power generation, including the generation of combined heat, power, and clean fuels including hydrogen;

(D) uniform hydrogen codes, standards, and safety protocols; and

(E) vehicle hydrogen fuel system integrity safety performance.

(2) Activities

The Task Force may organize workshops and conferences, may issue publications, and may create databases to carry out its duties. The Task Force shall—

(A) foster the exchange of generic, nonproprietary information and technology among industry, academia, and government;

(B) develop and maintain an inventory and assessment of hydrogen, fuel cells, and other advanced technologies, including the commercial capability of each technology for the economic and environmentally safe production, distribution, delivery, storage, and use of hydrogen;

(C) integrate technical and other information made available as a result of the programs and activities under this subchapter;

(D) promote the marketplace introduction of infrastructure for hydrogen fuel vehicles; and

(E) conduct an education program to provide hydrogen and fuel cell information to potential end-users.

(c) Agency cooperation

The heads of all agencies, including those whose agencies are not represented on the Task Force, shall cooperate with and furnish information to the Task Force, the Technical Advisory Committee, and the Department.

(Pub. L. 109–58, title VIII, §806, Aug. 8, 2005, 119 Stat. 848.)

§16156. Technical Advisory Committee

(a) Establishment

The Hydrogen Technical and Fuel Cell Advisory Committee is established to advise the Secretary on the programs and activities under this subchapter.

(b) Membership

(1) Members

The Technical Advisory Committee shall be comprised of not fewer than 12 nor more than 25 members. The members shall be appointed by the Secretary to represent domestic industry, academia, professional societies, government agencies, Federal laboratories, previous advisory panels, and financial, environmental, and other appropriate organizations based on the Department's assessment of the technical and other qualifications of Technical Advisory Committee members and the needs of the Technical Advisory Committee.

(2) Terms

The term of a member of the Technical Advisory Committee shall not be more than 3 years. The Secretary may appoint members of the Technical Advisory Committee in a manner that allows the terms of the members serving at any time to expire at spaced intervals so as to ensure continuity in the functioning of the Technical Advisory Committee. A member of the Technical Advisory Committee whose term is expiring may be reappointed.

(3) Chairperson

The Technical Advisory Committee shall have a chairperson, who shall be elected by the members from among their number.

(c) Review

The Technical Advisory Committee shall review and make recommendations to the Secretary on—

(1) the implementation of programs and activities under this subchapter;

(2) the safety, economical, and environmental consequences of technologies for the production, distribution, delivery, storage, or use of hydrogen energy and fuel cells; and

(3) the plan under section 16153 of this title.

(d) Response

(1) Consideration of recommendations

The Secretary shall consider, but need not adopt, any recommendations of the Technical Advisory Committee under subsection (c).

(2) Biennial report

The Secretary shall transmit a biennial report to Congress describing any recommendations made by the Technical Advisory Committee since the previous report. The report shall include a description of how the Secretary has implemented or plans to implement the recommendations, or an explanation of the reasons that a recommendation will not be implemented. The report shall be transmitted along with the President's budget proposal.

(e) Support

The Secretary shall provide resources necessary in the judgment of the Secretary for the Technical Advisory Committee to carry out its responsibilities under this subchapter.

(Pub. L. 109–58, title VIII, §807, Aug. 8, 2005, 119 Stat. 849.)

§16157. Demonstration

(a) In general

In carrying out the programs under this section, the Secretary shall fund a limited number of demonstration projects, consistent with this subchapter and a determination of the maturity, cost-effectiveness, and environmental impacts of technologies supporting each project. In selecting projects under this subsection, the Secretary shall, to the extent practicable and in the public interest, select projects that—

(1) involve using hydrogen and related products at existing facilities or installations, such as existing office buildings, military bases, vehicle fleet centers, transit bus authorities, or units of the National Park System;

(2) depend on reliable power from hydrogen to carry out essential activities;

(3) lead to the replication of hydrogen technologies and draw such technologies into the marketplace;

(4) include vehicle, portable, and stationary demonstrations of fuel cell and hydrogen-based energy technologies;

(5) address the interdependency of demand for hydrogen fuel cell applications and hydrogen

fuel infrastructure;

(6) raise awareness of hydrogen technology among the public;

(7) facilitate identification of an optimum technology among competing alternatives;

(8) address distributed generation using renewable sources;

(9) carry out demonstrations of evolving hydrogen and fuel cell technologies in national parks, remote island areas, and on Indian tribal land, as selected by the Secretary;

(10) carry out a program to demonstrate developmental hydrogen and fuel cell systems for mobile, portable, and stationary uses, using improved versions of the learning demonstrations program concept of the Department including demonstrations involving—

(A) light-duty vehicles;

(B) heavy-duty vehicles;

(C) fleet vehicles;

(D) specialty industrial and farm vehicles; and

(E) commercial and residential portable, continuous, and backup electric power generation;

(11) in accordance with any code or standards developed in a region, fund prototype, pilot fleet, and infrastructure regional hydrogen supply corridors along the interstate highway system in varied climates across the United States; and

(12) fund demonstration programs that explore the use of hydrogen blends, hybrid hydrogen, and hydrogen reformed from renewable agricultural fuels, including the use of hydrogen in hybrid electric, heavier duty, and advanced internal combustion-powered vehicles.

The Secretary shall give preference to projects which address multiple elements contained in paragraphs (1) through (12).

(b) System demonstrations

(1) [1] In general

As a component of the demonstration program under this section, the Secretary shall provide grants, on a cost share basis as appropriate, to eligible entities (as determined by the Secretary) for use in—

(A) devising system design concepts that provide for the use of advanced composite vehicles in programs under section 16122 of this title that—

(i) have as a primary goal the reduction of drive energy requirements;

(ii) after 2010, add another research and development phase, as defined in subsection (c), including the vehicle and infrastructure partnerships developed under the learning demonstrations program concept of the Department; and

(iii) are managed through an enhanced FreedomCAR program within the Department that encourages involvement in cost-shared projects by manufacturers and governments; and

(B) designing a local distributed energy system that—

(i) incorporates renewable hydrogen production, off-grid electricity production, and fleet applications in industrial or commercial service;

(ii) integrates energy or applications described in clause (i), such as stationary, portable, micro, and mobile fuel cells, into a high-density commercial or residential building complex or agricultural community; and

(iii) is managed in cooperation with industry, State, tribal, and local governments, agricultural organizations, and nonprofit generators and distributors of electricity.

(c) Identification of new program requirements

In carrying out the demonstrations under subsection (a), the Secretary, in consultation with the Task Force and the Technical Advisory Committee, shall—

(1) after 2008 for stationary and portable applications, and after 2010 for vehicles, identify new requirements that refine technological concepts, planning, and applications; and

(2) during the second phase of the learning demonstrations under subsection (b)(1)(A)(ii), redesign subsequent program work to incorporate those requirements.

(d) Authorization of appropriations

There are authorized to be appropriated to carry out this section—

(1) $185,000,000 for fiscal year 2006;
(2) $200,000,000 for fiscal year 2007;
(3) $250,000,000 for fiscal year 2008;
(4) $300,000,000 for fiscal year 2009;
(5) $375,000,000 for fiscal year 2010; and
(6) such sums as are necessary for each of fiscal years 2011 through 2020.

(Pub. L. 109–58, title VIII, §808, Aug. 8, 2005, 119 Stat. 850.)

[1] *So in original. No par. (2) has been enacted.*

§16158. Codes and standards

(a) In general

The Secretary, in cooperation with the Task Force, shall provide grants to, or offer to enter into contracts with, such professional organizations, public service organizations, and government agencies as the Secretary determines appropriate to support timely and extensive development of safety codes and standards relating to fuel cell vehicles, hydrogen energy systems, and stationary, portable, and micro fuel cells.

(b) Educational efforts

The Secretary shall support educational efforts by organizations and agencies described in subsection (a) to share information, including information relating to best practices, among those organizations and agencies.

(c) Authorization of appropriations

There are authorized to be appropriated to carry out this section—

(1) $4,000,000 for fiscal year 2006;
(2) $7,000,000 for fiscal year 2007;
(3) $8,000,000 for fiscal year 2008;
(4) $10,000,000 for fiscal year 2009;
(5) $9,000,000 for fiscal year 2010; and
(6) such sums as are necessary for each of fiscal years 2011 through 2020.

(Pub. L. 109–58, title VIII, §809, Aug. 8, 2005, 119 Stat. 851.)

§16159. Disclosure

Section 13293 of this title shall apply to any project carried out through a grant, cooperative agreement, or contract under this subchapter.

(Pub. L. 109–58, title VIII, §810, Aug. 8, 2005, 119 Stat. 852.)

§16160. Reports

(a) Secretary

Subject to subsection (c), not later than 2 years after August 8, 2005, and triennially thereafter, the Secretary shall submit to Congress a report describing—

(1) activities carried out by the Department under this subchapter,[1] for hydrogen and fuel cell

technology;

(2) measures the Secretary has taken during the preceding 3 years to support the transition of primary industry (or a related industry) to a fully commercialized hydrogen economy;

(3) any change made to the strategy relating to hydrogen and fuel cell technology to reflect the results of a learning demonstrations;

(4) progress, including progress in infrastructure, made toward achieving the goal of producing and deploying not less than—

(A) 100,000 hydrogen-fueled vehicles in the United States by 2010; and

(B) 2,500,000 hydrogen-fueled vehicles in the United States by 2020;

(5) progress made toward achieving the goal of supplying hydrogen at a sufficient number of fueling stations in the United States by 2010 including by integrating—

(A) hydrogen activities; and

(B) associated targets and timetables for the development of hydrogen technologies;

(6) any problem relating to the design, execution, or funding of a program under this subchapter;

(7) progress made toward and goals achieved in carrying out this subchapter and updates to the developmental roadmap, including the results of the reviews conducted by the National Academy of Sciences under subsection (b) for the fiscal years covered by the report; and

(8) any updates to strategic plans that are necessary to meet the goals described in paragraph (4).

(b) External review

The Secretary shall enter into an arrangement with the National Academy of Sciences under which the Academy will review the programs under sections 16154 and 16157 of this title every fourth year following August 8, 2005. The Academy's review shall include the program priorities and technical milestones, and evaluate the progress toward achieving them. The first review shall be completed not later than 5 years after August 8, 2005. Not later than 45 days after receiving the review, the Secretary shall transmit the review to Congress along with a plan to implement the review's recommendations or an explanation for the reasons that a recommendation will not be implemented.

(c) Authorization of appropriations

There is authorized to be appropriated to carry out this section $1,500,000 for each of fiscal years 2006 through 2020.

(Pub. L. 109–58, title VIII, §811, Aug. 8, 2005, 119 Stat. 852.)

[1] *So in original. The comma probably should not appear.*

§16161. Solar and wind technologies

(a) Solar energy technologies

The Secretary shall—

(1) prepare a detailed roadmap for carrying out the provisions in this subchapter related to solar energy technologies and for implementing the recommendations related to solar energy technologies that are included in the report transmitted under subsection (e);

(2) provide for the establishment of 5 projects in geographic areas that are regionally and climatically diverse to demonstrate the production of hydrogen at solar energy facilities, including one demonstration project at a National Laboratory or institution of higher education;

(3) establish a program—

(A) to develop optimized concentrating solar power devices that may be used for the production of both electricity and hydrogen; and

(B) to evaluate the use of thermochemical cycles for hydrogen production at the temperatures attainable with concentrating solar power devices;

(4) coordinate with activities sponsored by the Department's Office of Nuclear Energy, Science, and Technology on high-temperature materials, thermochemical cycles, and economic issues related to solar energy;

(5) provide for the construction and operation of new concentrating solar power devices or solar power cogeneration facilities that produce hydrogen either concurrently with, or independently of, the production of electricity;

(6) support existing facilities and programs of study related to concentrating solar power devices; and

(7) establish a program—

(A) to develop methods that use electricity from photovoltaic devices for the onsite production of hydrogen, such that no intermediate transmission or distribution infrastructure is required or used and future demand growth may be accommodated;

(B) to evaluate the economics of small-scale electrolysis for hydrogen production; and

(C) to study the potential of modular photovoltaic devices for the development of a hydrogen infrastructure, the security implications of a hydrogen infrastructure, and the benefits potentially derived from a hydrogen infrastructure.

(b) Wind energy technologies

The Secretary shall—

(1) prepare a detailed roadmap for carrying out the provisions in this subchapter related to wind energy technologies and for implementing the recommendations related to wind energy technologies that are included in the report transmitted under subsection (e); and

(2) provide for the establishment of 5 projects in geographic areas that are regionally and climatically diverse to demonstrate the production of hydrogen at existing wind energy facilities, including one demonstration project at a National Laboratory or institution of higher education.

(c) Program support

The Secretary shall support programs at institutions of higher education for the development of solar energy technologies and wind energy technologies for the production of hydrogen. The programs supported under this subsection shall—

(1) enhance fellowship and faculty assistance programs;

(2) provide support for fundamental research;

(3) encourage collaborative research among industry, National Laboratories, and institutions of higher education;

(4) support communication and outreach; and

(5) to the greatest extent possible—

(A) be located in geographic areas that are regionally and climatically diverse; and

(B) be located at part B institutions, minority institutions, and institutions of higher education located in States participating in the Experimental Program to Stimulate Competitive Research of the Department.

(d) Institutions of higher education and National Laboratory interactions

In conjunction with the programs supported under this section, the Secretary shall develop sabbatical, fellowship, and visiting scientist programs to encourage National Laboratories and institutions of higher education to share and exchange personnel.

(e) Report

The Secretary shall transmit to the Congress not later than 120 days after August 8, 2005, a report containing detailed summaries of the roadmaps prepared under subsections (a)(1) and (b)(1), descriptions of the Secretary's progress in establishing the projects and other programs required under this section, and recommendations for promoting the availability of advanced solar and wind energy technologies for the production of hydrogen.

(f) Definitions

For purposes of this section—

(1) the term "concentrating solar power devices" means devices that concentrate the power of the sun by reflection or refraction to improve the efficiency of a photovoltaic or thermal generation process;

(2) the term "minority institution" has the meaning given to that term in section 1067k of title 20;

(3) the term "part B institution" has the meaning given to that term in section 1061 of title 20; and

(4) the term "photovoltaic devices" means devices that convert light directly into electricity through a solid-state, semiconductor process.

(g) Authorization of appropriations

There is authorized to be appropriated such sums as are necessary for carrying out the activities under this section for each of fiscal years 2006 through 2020.

(Pub. L. 109–58, title VIII, §812, Aug. 8, 2005, 119 Stat. 853.)

§16161a. Regional clean hydrogen hubs

(a) Definition of regional clean hydrogen hub

In this section, the term "regional clean hydrogen hub" means a network of clean hydrogen producers, potential clean hydrogen consumers, and connective infrastructure located in close proximity.

(b) Establishment of program

The Secretary shall establish a program to support the development of at least 4 regional clean hydrogen hubs that—

(1) demonstrably aid the achievement of the clean hydrogen production standard developed under section 16166(a) of this title;

(2) demonstrate the production, processing, delivery, storage, and end-use of clean hydrogen; and

(3) can be developed into a national clean hydrogen network to facilitate a clean hydrogen economy.

(c) Selection of regional clean hydrogen hubs

(1) Solicitation of proposals

Not later than 180 days after November 15, 2021, the Secretary shall solicit proposals for regional clean hydrogen hubs.

(2) Selection of hubs

Not later than 1 year after the deadline for the submission of proposals under paragraph (1), the Secretary shall select at least 4 regional clean hydrogen hubs to be developed under subsection (b).

(3) Criteria

The Secretary shall select regional clean hydrogen hubs under paragraph (2) using the following criteria:

(A) Feedstock diversity

To the maximum extent practicable—

(i) at least 1 regional clean hydrogen hub shall demonstrate the production of clean hydrogen from fossil fuels;

(ii) at least 1 regional clean hydrogen hub shall demonstrate the production of clean hydrogen from renewable energy; and

(iii) at least 1 regional clean hydrogen hub shall demonstrate the production of clean

hydrogen from nuclear energy.

(B) End-use diversity

To the maximum extent practicable—

(i) at least 1 regional clean hydrogen hub shall demonstrate the end-use of clean hydrogen in the electric power generation sector;

(ii) at least 1 regional clean hydrogen hub shall demonstrate the end-use of clean hydrogen in the industrial sector;

(iii) at least 1 regional clean hydrogen hub shall demonstrate the end-use of clean hydrogen in the residential and commercial heating sector; and

(iv) at least 1 regional clean hydrogen hub shall demonstrate the end-use of clean hydrogen in the transportation sector.

(C) Geographic diversity

To the maximum extent practicable, each regional clean hydrogen hub—

(i) shall be located in a different region of the United States; and

(ii) shall use energy resources that are abundant in that region.

(D) Hubs in natural gas-producing regions

To the maximum extent practicable, at least 2 regional clean hydrogen hubs shall be located in the regions of the United States with the greatest natural gas resources.

(E) Employment

The Secretary shall give priority to regional clean hydrogen hubs that are likely to create opportunities for skilled training and long-term employment to the greatest number of residents of the region.

(F) Additional criteria

The Secretary may take into consideration other criteria that, in the judgment of the Secretary, are necessary or appropriate to carry out this subchapter [1]

(4) Funding of regional clean hydrogen hubs

The Secretary may make grants to each regional clean hydrogen hub selected under paragraph (2) to accelerate commercialization of, and demonstrate the production, processing, delivery, storage, and end-use of, clean hydrogen.

(d) Authorization of appropriations

There is authorized to be appropriated to the Secretary to carry out this section $8,000,000,000 for the period of fiscal years 2022 through 2026.

(Pub. L. 109–58, title VIII, §813, as added Pub. L. 117–58, div. D, title III, §40314(2), Nov. 15, 2021, 135 Stat. 1008.)

EDITORIAL NOTES

PRIOR PROVISIONS

A prior section 813 of Pub. L. 109–58 was renumbered section 818 and is classified to section 16162 of this title.

[1] So in original. Probably should be followed by a period.

§16161b. National clean hydrogen strategy and roadmap

(a) Development

(1) In general

In carrying out the programs established under sections 16154 and 16161a of this title, the Secretary, in consultation with the heads of relevant offices of the Department, shall develop a technologically and economically feasible national strategy and roadmap to facilitate widescale production, processing, delivery, storage, and use of clean hydrogen.

(2) Inclusions

The national clean hydrogen strategy and roadmap developed under paragraph (1) shall focus on—

(A) establishing a standard of hydrogen production that achieves the standard developed under section 16166(a) of this title, including interim goals towards meeting that standard;

(B)(i) clean hydrogen production and use from natural gas, coal, renewable energy sources, nuclear energy, and biomass; and

(ii) identifying potential barriers, pathways, and opportunities, including Federal policy needs, to transition to a clean hydrogen economy;

(C) identifying—

(i) economic opportunities for the production, processing, transport, storage, and use of clean hydrogen that exist in the major shale natural gas-producing regions of the United States;

(ii) economic opportunities for the production, processing, transport, storage, and use of clean hydrogen that exist for merchant nuclear power plants operating in deregulated markets; and

(iii) environmental risks associated with potential deployment of clean hydrogen technologies in those regions, and ways to mitigate those risks;

(D) approaches, including substrategies, that reflect geographic diversity across the country, to advance clean hydrogen based on resources, industry sectors, environmental benefits, and economic impacts in regional economies;

(E) identifying opportunities to use, and barriers to using, existing infrastructure, including all components of the natural gas infrastructure system, the carbon dioxide pipeline infrastructure system, end-use local distribution networks, end-use power generators, LNG terminals, industrial users of natural gas, and residential and commercial consumers of natural gas, for clean hydrogen deployment;

(F) identifying the needs for and barriers and pathways to developing clean hydrogen hubs (including, where appropriate, clean hydrogen hubs coupled with carbon capture, utilization, and storage hubs) that—

(i) are regionally dispersed across the United States and can leverage natural gas to the maximum extent practicable;

(ii) can demonstrate the efficient production, processing, delivery, and use of clean hydrogen;

(iii) include transportation corridors and modes of transportation, including transportation of clean hydrogen by pipeline and rail and through ports; and

(iv) where appropriate, could serve as joint clean hydrogen and carbon capture, utilization, and storage hubs;

(G) prioritizing activities that improve the ability of the Department to develop tools to model, analyze, and optimize single-input, multiple-output integrated hybrid energy systems and multiple-input, multiple-output integrated hybrid energy systems that maximize efficiency in providing hydrogen, high-value heat, electricity, and chemical synthesis services;

(H) identifying the appropriate points of interaction between and among Federal agencies involved in the production, processing, delivery, storage, and use of clean hydrogen and clarifying the responsibilities of those Federal agencies, and potential regulatory obstacles and recommendations for modifications, in order to support the deployment of clean hydrogen; and

(I) identifying geographic zones or regions in which clean hydrogen technologies could efficiently and economically be introduced in order to transition existing infrastructure to rely

on clean hydrogen, in support of decarbonizing all relevant sectors of the economy.

(b) Reports to Congress

(1) In general

Not later than 180 days after November 15, 2021, the Secretary shall submit to Congress the clean hydrogen strategy and roadmap developed under subsection (a).

(2) Updates

The Secretary shall submit to Congress updates to the clean hydrogen strategy and roadmap under paragraph (1) not less frequently than once every 3 years after the date on which the Secretary initially submits the report and roadmap.

(Pub. L. 109–58, title VIII, §814, as added Pub. L. 117–58, div. D, title III, §40314(2), Nov. 15, 2021, 135 Stat. 1010.)

EDITORIAL NOTES

PRIOR PROVISIONS

A prior section 814 of Pub. L. 109–58 was renumbered section 819 and is classified to section 16163 of this title.

§16161c. Clean hydrogen manufacturing and recycling

(a) Clean hydrogen manufacturing initiative

(1) In general

In carrying out the programs established under sections 16154 and 16161a of this title, the Secretary shall award multiyear grants to, and enter into contracts, cooperative agreements, or any other agreements authorized under this Act or other Federal law with, eligible entities (as determined by the Secretary) for research, development, and demonstration projects to advance new clean hydrogen production, processing, delivery, storage, and use equipment manufacturing technologies and techniques.

(2) Priority

In awarding grants or entering into contracts, cooperative agreements, or other agreements under paragraph (1), the Secretary, to the maximum extent practicable, shall give priority to clean hydrogen equipment manufacturing projects that—

(A) increase efficiency and cost-effectiveness in—

(i) the manufacturing process; and

(ii) the use of resources, including existing energy infrastructure;

(B) support domestic supply chains for materials and components;

(C) identify and incorporate nonhazardous alternative materials for components and devices;

(D) operate in partnership with tribal energy development organizations, Indian Tribes, Tribal organizations, Native Hawaiian community-based organizations, or territories or freely associated States; or

(E) are located in economically distressed areas of the major natural gas-producing regions of the United States.

(3) Evaluation

Not later than 3 years after November 15, 2021, and not less frequently than once every 4 years thereafter, the Secretary shall conduct, and make available to the public and the relevant committees of Congress, an independent review of the progress of the projects carried out through grants awarded, or contracts, cooperative agreements, or other agreements entered into, under paragraph (1).

(b) Clean hydrogen technology recycling research, development, and demonstration program

(1) In general

In carrying out the programs established under sections 16154 and 16161a of this title, the Secretary shall award multiyear grants to, and enter into contracts, cooperative agreements, or any other agreements authorized under this Act or other Federal law with, eligible entities for research, development, and demonstration projects to create innovative and practical approaches to increase the reuse and recycling of clean hydrogen technologies, including by—

(A) increasing the efficiency and cost-effectiveness of the recovery of raw materials from clean hydrogen technology components and systems, including enabling technologies such as electrolyzers and fuel cells;

(B) minimizing environmental impacts from the recovery and disposal processes;

(C) addressing any barriers to the research, development, demonstration, and commercialization of technologies and processes for the disassembly and recycling of devices used for clean hydrogen production, processing, delivery, storage, and use;

(D) developing alternative materials, designs, manufacturing processes, and other aspects of clean hydrogen technologies;

(E) developing alternative disassembly and resource recovery processes that enable efficient, cost-effective, and environmentally responsible disassembly of, and resource recovery from, clean hydrogen technologies; and

(F) developing strategies to increase consumer acceptance of, and participation in, the recycling of fuel cells.

(2) Dissemination of results

The Secretary shall make available to the public and the relevant committees of Congress the results of the projects carried out through grants awarded, or contracts, cooperative agreements, or other agreements entered into, under paragraph (1), including any educational and outreach materials developed by the projects.

(c) Authorization of appropriations

There is authorized to be appropriated to the Secretary to carry out this section $500,000,000 for the period of fiscal years 2022 through 2026.

(Pub. L. 109–58, title VIII, §815, as added Pub. L. 117–58, div. D, title III, §40314(2), Nov. 15, 2021, 135 Stat. 1011.)

EDITORIAL NOTES

REFERENCES IN TEXT

This Act, referred to subsecs. (a)(1) and (b)(1), is Pub. L. 109–58, Aug. 8, 2005, 119 Stat. 594, known as the Energy Policy Act of 2005, which enacted this chapter and enacted, amended, and repealed numerous other sections and notes in the Code. For complete classification of this Act to the Code, see Short Title note below and Tables.

PRIOR PROVISIONS

A prior section 815 of Pub. L. 109–58 was renumbered section 820 and is classified to section 16164 of this title.

§16161d. Clean hydrogen electrolysis program

(a) Definitions

In this section:

(1) Electrolysis

The term "electrolysis" means a process that uses electricity to split water into hydrogen and

oxygen.

(2) Electrolyzer

The term "electrolyzer" means a system that produces hydrogen using electrolysis.

(3) Program

The term "program" means the program established under subsection (b).

(b) Establishment

Not later than 90 days after November 15, 2021, the Secretary shall establish a research, development, demonstration, commercialization, and deployment program for purposes of commercialization to improve the efficiency, increase the durability, and reduce the cost of producing clean hydrogen using electrolyzers.

(c) Goals

The goals of the program are—

(1) to reduce the cost of hydrogen produced using electrolyzers to less than $2 per kilogram of hydrogen by 2026; and

(2) any other goals the Secretary determines are appropriate.

(d) Demonstration projects

In carrying out the program, the Secretary shall fund demonstration projects—

(1) to demonstrate technologies that produce clean hydrogen using electrolyzers; and

(2) to validate information on the cost, efficiency, durability, and feasibility of commercial deployment of the technologies described in paragraph (1).

(e) Focus

The program shall focus on research relating to, and the development, demonstration, and deployment of—

(1) low-temperature electrolyzers, including liquid-alkaline electrolyzers, membrane-based electrolyzers, and other advanced electrolyzers, capable of converting intermittent sources of electric power to clean hydrogen with enhanced efficiency and durability;

(2) high-temperature electrolyzers that combine electricity and heat to improve the efficiency of clean hydrogen production;

(3) advanced reversible fuel cells that combine the functionality of an electrolyzer and a fuel cell;

(4) new highly active, selective, and durable electrolyzer catalysts and electro-catalysts that—

(A) greatly reduce or eliminate the need for platinum group metals; and

(B) enable electrolysis of complex mixtures with impurities, including seawater;

(5) modular electrolyzers for distributed energy systems and the bulk-power system (as defined in section 824o(a) of title 16);

(6) low-cost membranes or electrolytes and separation materials that are durable in the presence of impurities or seawater;

(7) improved component design and material integration, including with respect to electrodes, porous transport layers and bipolar plates, and balance-of-system components, to allow for scale-up and domestic manufacturing of electrolyzers at a high volume;

(8) clean hydrogen storage technologies;

(9) technologies that integrate hydrogen production with—

(A) clean hydrogen compression and drying technologies;

(B) clean hydrogen storage; and

(C) transportation or stationary systems; and

(10) integrated systems that combine hydrogen production with renewable power or nuclear power generation technologies, including hybrid systems with hydrogen storage.

(f) Grants, contracts, cooperative agreements

(1) Grants

In carrying out the program, the Secretary shall award grants, on a competitive basis, to eligible entities for projects that the Secretary determines would provide the greatest progress toward achieving the goal of the program described in subsection (c).

(2) Contracts and cooperative agreements

In carrying out the program, the Secretary may enter into contracts and cooperative agreements with eligible entities and Federal agencies for projects that the Secretary determines would further the purpose of the program described in subsection (b).

(3) Eligibility; applications

(A) In general

The eligibility of an entity to receive a grant under paragraph (1), to enter into a contract or cooperative agreement under paragraph (2), or to receive funding for a demonstration project under subsection (d) shall be determined by the Secretary.

(B) Applications

An eligible entity desiring to receive a grant under paragraph (1), to enter into a contract or cooperative agreement under paragraph (2), or to receive funding for a demonstration project under subsection (d) shall submit to the Secretary an application at such time, in such manner, and containing such information as the Secretary may require.

(g) Authorization of appropriations

There is authorized to be appropriated to the Secretary to carry out the program $1,000,000,000 for the period of fiscal years 2022 through 2026, to remain available until expended.

(Pub. L. 109–58, title VIII, §816, as added Pub. L. 117–58, div. D, title III, §40314(2), Nov. 15, 2021, 135 Stat. 1013.)

EDITORIAL NOTES

PRIOR PROVISIONS

A prior section 816 of Pub. L. 109–58 was renumbered section 821 and is classified to section 16165 of this title.

§16161e. Laboratory management

(a) In general

The National Energy Technology Laboratory, the Idaho National Laboratory, and the National Renewable Energy Laboratory shall continue to work in a crosscutting manner to carry out the programs established under sections 16161a and 16161c of this title.

(b) Coordination; clearinghouse

In carrying out subsection (a), the National Energy Technology Laboratory shall—

(1) coordinate with—

(A) the Idaho National Laboratory, the National Renewable Energy Laboratory, and other National Laboratories in a cross-cutting manner;

(B) institutions of higher education;

(C) research institutes;

(D) industrial researchers; and

(E) international researchers; and

(2) act as a clearinghouse to collect information from, and distribute information to, the

National Laboratories and other entities described in subparagraphs (B) through (E) of paragraph (1).

(Pub. L. 109–58, title VIII, §817, as added Pub. L. 117–58, div. D, title III, §40314(2), Nov. 15, 2021, 135 Stat. 1014.)

§16162. Technology transfer

In carrying out this subchapter, the Secretary shall carry out programs that—

(1) provide for the transfer of critical hydrogen and fuel cell technologies to the private sector;

(2) accelerate wider application of those technologies in the global market;

(3) foster the exchange of generic, nonproprietary information; and

(4) assess technical and commercial viability of technologies relating to the production, distribution, storage, and use of hydrogen energy and fuel cells.

(Pub. L. 109–58, title VIII, §818, formerly §813, Aug. 8, 2005, 119 Stat. 855; renumbered §818, Pub. L. 117–58, div. D, title III, §40314(1), Nov. 15, 2021, 135 Stat. 1008.)

§16163. Miscellaneous provisions

(a) Representation

The Secretary may represent the United States interests with respect to activities and programs under this subchapter, in coordination with the Department of Transportation, the National Institute of Standards and Technology, and other relevant Federal agencies, before governments and nongovernmental organizations including—

(1) other Federal, State, regional, and local governments and their representatives;

(2) industry and its representatives, including members of the energy and transportation industries; and

(3) in consultation with the Department of State, foreign governments and their representatives including international organizations.

(b) Regulatory authority

Nothing in this subchapter shall be construed to alter the regulatory authority of the Department.

(Pub. L. 109–58, title VIII, §819, formerly §814, Aug. 8, 2005, 119 Stat. 855; renumbered §819, Pub. L. 117–58, div. D, title III, §40314(1), Nov. 15, 2021, 135 Stat. 1008.)

§16164. Cost sharing

The costs of carrying out projects and activities under this subchapter shall be shared in accordance with section 16352 of this title.

(Pub. L. 109–58, title VIII, §820, formerly §815, Aug. 8, 2005, 119 Stat. 855; renumbered §820, Pub. L. 117–58, div. D, title III, §40314(1), Nov. 15, 2021, 135 Stat. 1008.)

§16165. Savings clause

Nothing in this subchapter shall be construed to affect the authority of the Secretary of Transportation that may exist prior to August 8, 2005, with respect to—

(1) research into, and regulation of, hydrogen-powered vehicles fuel systems integrity, standards, and safety under subtitle VI of title 49;

(2) regulation of hazardous materials transportation under chapter 51 of title 49;

(3) regulation of pipeline safety under chapter 601 of title 49;

(4) encouragement and promotion of research, development, and deployment activities relating

to advanced vehicle technologies under section 5506 [1] of title 49;

(5) regulation of motor vehicle safety under chapter 301 of title 49;

(6) automobile fuel economy under chapter 329 of title 49; or

(7) representation of the interests of the United States with respect to the activities and programs under the authority of title 49.

(Pub. L. 109–58, title VIII, §821, formerly §816, Aug. 8, 2005, 119 Stat. 855; renumbered §821, Pub. L. 117–58, div. D, title III, §40314(1), Nov. 15, 2021, 135 Stat. 1008.)

EDITORIAL NOTES

REFERENCES IN TEXT

Section 5506 of title 49, referred to in par. (4), was repealed by Pub. L. 112–141, div. E, title II, §52010(a), July 6, 2012, 126 Stat. 887.

§16166. Clean hydrogen production qualifications

(a) In general

Not later than 180 days after November 15, 2021, the Secretary, in consultation with the Administrator of the Environmental Protection Agency and after taking into account input from industry and other stakeholders, as determined by the Secretary, shall develop an initial standard for the carbon intensity of clean hydrogen production that shall apply to activities carried out under this subchapter.

(b) Requirements

(1) In general

The standard developed under subsection (a) shall—

(A) support clean hydrogen production from each source described in section 16154(e)(2) of this title;

(B) define the term "clean hydrogen" to mean hydrogen produced with a carbon intensity equal to or less than 2 kilograms of carbon dioxide-equivalent produced at the site of production per kilogram of hydrogen produced; and

(C) take into consideration technological and economic feasibility.

(2) Adjustment

Not later than the date that is 5 years after the date on which the Secretary develops the standard under subsection (a), the Secretary, in consultation with the Administrator of the Environmental Protection Agency and after taking into account input from industry and other stakeholders, as determined by the Secretary, shall—

(A) determine whether the definition of clean hydrogen required under paragraph (1)(B) should be adjusted below the standard described in that paragraph; and

(B) if the Secretary determines the adjustment described in subparagraph (A) is appropriate, carry out the adjustment.

(c) Application

The standard developed under subsection (a) shall apply to clean hydrogen production from renewable, fossil fuel with carbon capture, utilization, and sequestration technologies, nuclear, and other fuel sources using any applicable production technology.

(Pub. L. 109–58, title VIII, §822, as added Pub. L. 117–58, div. D, title III, §40315(a), Nov. 15, 2021, 135 Stat. 1015.)

EDITORIAL NOTES

CODIFICATION

Section 40315(a) of Pub. L. 117–58, which directed the amendment of the Energy Policy Act of 2005 by adding this section at the end, was executed by adding this section at the end of title VIII of the Act, to reflect the probable intent of Congress.

SUBCHAPTER IX—RESEARCH AND DEVELOPMENT

§16181. Goals

(a) In general

In order to achieve the purposes of this subchapter, the Secretary shall conduct a balanced set of programs of energy research, development, demonstration, and commercial application with the general goals of—

(1) increasing the efficiency of all energy intensive sectors through conservation and improved technologies;

(2) promoting diversity of energy supply;

(3) decreasing the dependence of the United States on foreign energy supplies;

(4) improving the energy security of the United States; and

(5) decreasing the environmental impact of energy-related activities.

(b) Goals

The Secretary shall publish measurable cost and performance-based goals, comparable over time, with each annual budget submission in at least the following areas:

(1) Energy efficiency for buildings, energy-consuming industries, and vehicles.

(2) Electric energy generation (including distributed generation), transmission, and storage.

(3) Renewable energy technologies, including wind power, photovoltaics, solar thermal systems, geothermal energy, hydrogen-fueled systems, biomass-based systems, biofuels, and hydropower.

(4) Fossil energy, including power generation, onshore and offshore oil and gas resource recovery, and transportation fuels.

(5) Nuclear energy, including programs for existing and advanced reactors, and education of future specialists.

(c) Public comment

The Secretary shall provide mechanisms for input on the annually published goals from industry, institutions of higher education, and other public sources.

(d) Effect of goals

Nothing in subsection (a) or the annually published goals creates any new authority for any Federal agency, or may be used by any Federal agency, to support the establishment of regulatory standards or regulatory requirements.

(Pub. L. 109–58, title IX, §902, Aug. 8, 2005, 119 Stat. 856.)

EDITORIAL NOTES

REFERENCES IN TEXT

This subchapter, referred to in subsec. (a), was in the original "this title", meaning title IX of Pub. L. 109–58, Aug. 8, 2005, 119 Stat. 856, which enacted this subchapter, amended sections 8101 and 8102 of Title 7, Agriculture, and section 5523 of Title 15, Commerce and Trade, enacted provisions set out as notes under section 15801 of this title, section 8102 of Title 7, and section 2001 of Title 30, Mineral Lands and Mining,

and amended provisions set out as notes under section 8101 of Title 7 and section 1902 of Title 30. For complete classification of title IX to the Code, see Short Title note set out under section 15801 of this title and Tables.

STATUTORY NOTES AND RELATED SUBSIDIARIES

SHORT TITLE

For short title of title IX of Pub. L. 109–58, which enacted this subchapter, as the "Energy Research, Development, Demonstration, and Commercial Application Act of 2005", see section 431 of Pub. L. 109–58, set out as a note under section 15801 of this title.

§16182. Definitions

In this subchapter:

(1) Departmental mission

The term "departmental mission" means any of the functions vested in the Secretary by the Department of Energy Organization Act (42 U.S.C. 7101 et seq.) or other law.

(2) Hispanic-serving institution

The term "Hispanic-serving institution" has the meaning given the term in section 1101a(a) of title 20.

(3) Nonmilitary energy laboratory

The term "nonmilitary energy laboratory" means a National Laboratory other than a National Laboratory listed in subparagraph (G), (H), or (N) of section 15801(3) of this title.

(4) Part B institution

The term "part B institution" has the meaning given the term in section 1061 of title 20.

(5) Single-purpose research facility

The term "single-purpose research facility" means—

(A) any of the primarily single-purpose entities owned by the Department; or

(B) any other organization of the Department designated by the Secretary.

(6) University

The term "university" has the meaning given the term "institution of higher education" in section 1001 of title 20.

(Pub. L. 109–58, title IX, §903, Aug. 8, 2005, 119 Stat. 856.)

EDITORIAL NOTES

REFERENCES IN TEXT

This subchapter, referred to in text, was in the original "this title", meaning title IX of Pub. L. 109–58, Aug. 8, 2005, 119 Stat. 856, which enacted this subchapter, amended sections 8101 and 8102 of Title 7, Agriculture, and section 5523 of Title 15, Commerce and Trade, enacted provisions set out as notes under section 15801 of this title, section 8102 of Title 7, and section 2001 of Title 30, Mineral Lands and Mining, and amended provisions set out as notes under section 8101 of Title 7 and section 1902 of Title 30. For complete classification of title IX to the Code, see Short Title note set out under section 15801 of this title and Tables.

The Department of Energy Organization Act, referred to in par. (1), is Pub. L. 95–91, Aug. 4, 1977, 91 Stat. 565, as amended, which is classified principally to chapter 84 (§7101 et seq.) of this title. For complete classification of this Act to the Code, see Short Title note set out under section 7101 of this title and Tables.

§16183. Energy and water for sustainability

(a) Nexus of energy and water for sustainability

(1) Definitions

In this section:

(A) Department

The term "Department" means the Department of Energy.

(B) Energy-water nexus

The term "energy-water nexus" means the links between—

(i) the water needed to produce fuels, electricity, and other forms of energy; and

(ii) the energy needed to transport, reclaim, and treat water and wastewater.

(C) Interagency RD&D Coordination Committee

The term "Interagency RD&D Coordination Committee" means the Interagency RD&D Coordination Committee on the Nexus of Energy and Water for Sustainability (or the "NEWS RD&D Committee") established under paragraph (3)(A).

(D) Nexus of Energy and Water Sustainability RD&D Office; NEWS RD&D Office

The term "Nexus of Energy and Water Sustainability RD&D Office" or the "NEWS RD&D Office" means an office located at the Department and managed in cooperation with the Department of the Interior pursuant to an agreement between the 2 agencies to carry out leadership and administrative functions for the Interagency RD&D Coordination Committee.

(E) RD&D

The term "RD&D" means research, development, and demonstration.

(F) Secretary

The term "Secretary" means the Secretary of Energy.

(2) Statement of policy

Recognizing States' primacy over allocation and administration of water resources (except in specific instances where preempted under Federal law) and the siting of energy infrastructure within State boundaries on non-Federal lands, it is the national policy that the Federal government, in all energy-water nexus management activities, shall maximize coordination and consultation among Federal agencies and with State and local governments, and disseminate information to the public in the most effective manner.

(3) Interagency RD&D Coordination Committee

(A) Establishment

Not later than 180 days after December 27, 2020, the Secretary and the Secretary of the Interior shall establish the joint NEWS RD&D Office and Interagency RD&D Coordination Committee on the Nexus of Energy and Water for Sustainability (or the "NEWS RD&D Committee") to carry out the duties described in subparagraph (C).

(B) Administration

(i) Chairs

The Secretary and the Secretary of the Interior shall jointly manage the NEWS RD&D Office and serve as co-chairs of the Interagency RD&D Coordination Committee.

(ii) Membership; staffing

Membership and staffing shall be determined by the co-chairs.

(C) Duties

The Interagency RD&D Coordination Committee shall—

(i) serve as a forum for developing common Federal goals and plans on energy-water nexus RD&D activities, in coordination with the National Science and Technology Council;

(ii) not later than 1 year after December 27, 2020, and biennially thereafter, issue a strategic plan on energy-water nexus RD&D activities, priorities, and objectives pursuant to subparagraph (D), which shall be developed in consultation with relevant State and local governments;

(iii) convene and promote coordination of RD&D activities of relevant Federal departments and agencies on energy-water nexus;

(iv)(I) coordinate and develop capabilities and methodologies related to RD&D activities for data collection, data communication protocols (including models and modeling results), data management, and dissemination of validated data and results related to energy-water nexus RD&D activities to requesting Federal departments and agencies; and

(II) promote information exchange between Federal departments and agencies—

(aa) to identify and document Federal and non-Federal RD&D programs and funding opportunities that support basic and applied RD&D proposals to advance energy-water nexus related science and technologies;

(bb) to leverage existing RD&D programs by encouraging joint solicitations, block grants, and matching programs with non-Federal entities; and

(cc) to identify opportunities for domestic and international public-private partnerships, innovative financing mechanisms, and information and data exchange with respect to RD&D activities;

(v) identify ways to leverage existing RD&D programs, including programs at the State and local level;

(vi) make publicly available the results of RD&D activities on the energy water nexus;

(vii) with regard to RD&D programs, recommend improvements and best practices for the collection and dissemination of federal water use data and the use of monitoring networks; and

(viii) promote coordination on RD&D with non-Federal interests by—

(I) consulting with representatives of research and academic institutions, State, local, and Tribal governments, public utility commissions, and industry, who have expertise in technologies, technological innovations, or practices relating to the energy-water nexus; and

(II) considering conducting technical workshops.

(D) Strategic plan

In developing the strategic plan pursuant to (C)(ii), the Interagency RD&D Coordination Committee shall—

(i) to the maximum extent possible, avoid duplication with other Federal RD&D programs, and projects, including with those of the National Laboratories;

(ii) consider inclusion of specific research, development and demonstration needs, including—

(I) innovative practices, technologies and other advancements improving water efficiency, treatment, recovery, or reuse associated with energy generation, including cooling, and fuel production;

(II) innovative practices, technologies and other advancements associated with energy use in water collection, supply, delivery, distribution, treatment, or reuse;

(III) innovative practices, technologies and other advancements associated with generation or production of energy from water or wastewater systems; and

(IV) modeling and systems analysis related to energy-water nexus; and

(iii) submit the plan to the Committee on Energy and Natural Resources of the Senate and the Committees on Science, Space, and Technology, Energy and Commerce, and Natural Resources of the House of Representatives.

(E) Rules of construction

(i) Nothing in this section grants to the Interagency RD&D Coordination Committee the authority to promulgate regulations or set standards.

(ii) Notwithstanding any other provision of law, nothing in this section shall be construed to require State, Tribal, or local governments to take any action that may result in an increased financial burden to such governments.

(F) Additional participation

In developing the strategic plan described in subparagraph (C)(ii), the Secretary shall consult and coordinate with a diverse group of representatives from research and academic institutions, industry, public utility commissions, and State and local governments who have expertise in technologies and practices relating to the energy-water nexus.

(G) Review; report

At the end of the 5-year period beginning on the date on which the Interagency RD&D Coordination Committee and NEWS RD&D Office are established, the NEWS RD&D Office shall—

(i) review the activities, relevance, and effectiveness of the Interagency RD&D Coordination Committee; and

(ii) submit to the Committee on Energy and Natural Resources of the Senate and the Committees on Science, Space, and Technology, Energy and Commerce, and Natural Resources of the House of Representatives a report that—

(I) describes the results of the review conducted under clause (i); and

(II) includes a recommendation on whether the Interagency RD&D Coordination Committee should continue.

(4) Crosscut budget

Not later than 30 days after the President submits the budget of the United States Government under section 1105 of title 31, the co-chairs of the Interagency RD&D Coordination Committee (acting through the NEWS RD&D Office) shall submit to the Committee on Energy and Natural Resources of the Senate and the Committees on Science, Space, and Technology, Energy and Commerce, and Natural Resources of the House of Representatives, an interagency budget crosscut report that displays at the program-, project-, and activity-level for each of the Federal agencies that carry out or support (including through grants, contracts, interagency and intraagency transfers, and multiyear and no-year funds) basic and applied RD&D activities to advance the energy-water nexus related science and technologies, including—

(A) the budget proposed in the budget request of the President for the upcoming fiscal year;

(B) expenditures and obligations for the prior fiscal year; and

(C) estimated expenditures and obligations for the current fiscal year.

(5) Termination

(A) In general

The authority provided to the NEWS RD&D Office and NEWS RD&D Committee under this subsection shall terminate on the date that is 7 years after December 27, 2020.

(B) Effect

The termination of authority under subparagraph (A) shall not affect ongoing interagency planning, coordination, or other RD&D activities relating to the energy-water nexus.

(b) Integrating energy and water research

The Secretary shall integrate the following considerations into energy RD&D programs and projects of the Department by—

(1) advancing RD&D for energy and energy efficiency technologies and practices that meet the objectives of—

(A) minimizing freshwater withdrawal and consumption;

(B) increasing water use efficiency; and

(C) utilizing nontraditional water sources;

(2) considering the effects climate variability may have on water supplies and quality for energy generation and fuel production; and

(3) improving understanding of the energy-water nexus (as defined in subsection (a)(1)).

(c) Additional activities

The Secretary may provide for such additional RD&D activities as appropriate to integrate the considerations described in subsection (b) into the RD&D activities of the Department.

(Pub. L. 116–260, div. Z, title I, §1010, Dec. 27, 2020, 134 Stat. 2438.)

EDITORIAL NOTES

CODIFICATION

Section was enacted as part of the Energy Act of 2020, and not as part of the Energy Policy Act of 2005 which comprises this chapter.

PART A—ENERGY EFFICIENCY

§16191. Energy efficiency

(a) In general

(1) Objectives

The Secretary shall conduct programs of energy efficiency research, development, demonstration, and commercial application, including activities described in this part. Such programs shall take into consideration the following objectives:

(A) Increasing the energy efficiency of vehicles, buildings, and industrial processes.

(B) Reducing the demand of the United States for energy, especially energy from foreign sources.

(C) Reducing the cost of energy and making the economy more efficient and competitive.

(D) Improving the energy security of the United States.

(E) Reducing the environmental impact of energy-related activities.

(2) Programs

Programs under this part shall include research, development, demonstration, and commercial application of—

(A) advanced, cost-effective technologies to improve the energy efficiency and environmental performance of vehicles, including—

(i) hybrid and electric propulsion systems;

(ii) plug-in hybrid systems;

(iii) advanced combustion engines;

(iv) weight and drag reduction technologies;

(v) whole-vehicle design optimization; and

(vi) advanced drive trains;

(B) cost-effective technologies, for new construction and retrofit, to improve the energy efficiency and environmental performance of buildings, using a whole-buildings approach, including onsite renewable energy generation;

(C) advanced technologies to improve the energy efficiency, environmental performance, and process efficiency of energy-intensive and waste-intensive industries;

(D) advanced control devices to improve the energy efficiency of electric motors, including those used in industrial processes, heating, ventilation, and cooling; and

(E) technologies to improve the energy efficiency of appliances and mechanical systems for buildings in cold climates, including combined heat and power units and increased use of renewable resources, including fuel.

(b) Authorization of appropriations

There are authorized to be appropriated to the Secretary to carry out energy efficiency and conservation research, development, demonstration, and commercial application activities, including activities authorized under this part—

(1) $783,000,000 for fiscal year 2007;

(2) $865,000,000 for fiscal year 2008; and

(3) $952,000,000 for fiscal year 2009.

(c) Allocations

From amounts authorized under subsection (b), the following sums are authorized:

(1) For activities under section 16192 of this title, $50,000,000 for each of fiscal years 2007 through 2009.

(2) For activities under section 16195 of this title, $7,000,000 for each of fiscal years 2007 through 2009.

(3) For activities under subsection (a)(2)(A)—

(A) $200,000,000 for fiscal year 2007;

(B) $270,000,000 for fiscal year 2008; and

(C) $310,000,000 for fiscal year 2009.

(4) For activities under subsection (a)(2)(D), $2,000,000 for each of fiscal years 2007 and 2008.

(d) Extended authorization

There are authorized to be appropriated to the Secretary to carry out section 16192 of this title $50,000,000 for each of fiscal years 2010 through 2013.

(e) Limitations

None of the funds authorized to be appropriated under this section may be used for—

(1) the issuance or implementation of energy efficiency regulations;

(2) the weatherization program established under part A of title IV of the Energy Conservation and Production Act (42 U.S.C. 6861 et seq.);

(3) a State energy conservation plan established under part D of title III of the Energy Policy and Conservation Act (42 U.S.C. 6321 et seq.); or

(4) a Federal energy management measure carried out under part 3 of title V of the National Energy Conservation Policy Act (42 U.S.C. 8251 et seq.).

(Pub. L. 109–58, title IX, §911, Aug. 8, 2005, 119 Stat. 857; Pub. L. 110–140, title III, §315(a), Dec. 19, 2007, 121 Stat. 1571.)

EDITORIAL NOTES

REFERENCES IN TEXT

The Energy Conservation and Production Act, referred to in subsec. (e)(2), is Pub. L. 94–385, Aug. 14, 1976, 90 Stat. 1125, as amended. Part A of title IV of the Act is classified generally to part A (§6861 et seq.) of subchapter III of chapter 81 of this title. For complete classification of this Act to the Code, see Short Title note set out under section 6801 of this title and Tables.

The Energy Policy and Conservation Act, referred to in subsec. (e)(3), is Pub. L. 94–163, Dec. 22, 1975, 89 Stat. 871, as amended. Part D of title III of the Act is classified generally to part B (§6321 et seq.) of subchapter III of chapter 77 of this title. For complete classification of this Act to the Code, see Short Title note set out under section 6201 of this title and Tables.

The National Energy Conservation Policy Act, referred to in subsec. (e)(4), is Pub. L. 95–619, Nov. 9,

1978, 92 Stat. 3206, as amended. Part 3 of title V of the Act is classified generally to part B (§8251 et seq.) of subchapter III of chapter 91 of this title. For complete classification of this Act to the Code, see Short Title note set out under section 8201 of this title and Tables.

AMENDMENTS

2007—Subsec. (a)(2)(E). Pub. L. 110–140 added subpar. (E).

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE OF 2007 AMENDMENT

Amendment by Pub. L. 110–140 effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as an Effective Date note under section 1824 of Title 2, The Congress.

§16192. Next Generation Lighting Initiative

(a) Definitions

In this section:

(1) Advanced solid-state lighting

The term "advanced solid-state lighting" means a semiconducting device package and delivery system that produces white light using externally applied voltage.

(2) Industry Alliance

The term "Industry Alliance" means an entity selected by the Secretary under subsection (d).

(3) Initiative

The term "Initiative" means the Next Generation Lighting Initiative carried out under this section.

(4) Research

The term "research" includes research on the technologies, materials, and manufacturing processes required for white light emitting diodes.

(5) White light emitting diode

The term "white light emitting diode" means a semiconducting package, using either organic or inorganic materials, that produces white light using externally applied voltage.

(b) Initiative

The Secretary shall carry out a Next Generation Lighting Initiative in accordance with this section to support research, development, demonstration, and commercial application activities related to advanced solid-state lighting technologies based on white light emitting diodes.

(c) Objectives

The objectives of the Initiative shall be to develop advanced solid-state organic and inorganic lighting technologies based on white light emitting diodes that, compared to incandescent and fluorescent lighting technologies, are longer lasting, are more energy-efficient and cost-competitive, and have less environmental impact.

(d) Industry Alliance

Not later than 90 days after August 8, 2005, the Secretary shall competitively select an Industry Alliance to represent participants who are private, for-profit firms, open to large and small businesses, that, as a group, are broadly representative of United States solid-state lighting research, development, infrastructure, and manufacturing expertise as a whole.

(e) Research

(1) Grants

The Secretary shall carry out the research activities of the Initiative through competitively awarded grants to—

(A) researchers, including Industry Alliance participants;

(B) small businesses;

(C) National Laboratories; and

(D) institutions of higher education.

(2) Industry alliance

The Secretary shall annually solicit from the Industry Alliance—

(A) comments to identify solid-state lighting technology needs;

(B) an assessment of the progress of the research activities of the Initiative; and

(C) assistance in annually updating solid-state lighting technology roadmaps.

(3) Availability to public

The information and roadmaps under paragraph (2) shall be available to the public.

(f) Development, demonstration, and commercial application

(1) In general

The Secretary shall carry out a development, demonstration, and commercial application program for the Initiative through competitively selected awards.

(2) Preference

In making the awards, the Secretary may give preference to participants in the Industry Alliance.

(g) Cost sharing

In carrying out this section, the Secretary shall require cost sharing in accordance with section 16352 of this title.

(h) Intellectual property

The Secretary may require (in accordance with section 202(a)(ii) of title 35, section 2182 of this title, and section 5908 of this title) that for any new invention developed under subsection (e)—

(1) that the Industry Alliance participants who are active participants in research, development, and demonstration activities related to the advanced solid-state lighting technologies that are covered by this section shall be granted the first option to negotiate with the invention owner, at least in the field of solid-state lighting, nonexclusive licenses and royalties on terms that are reasonable under the circumstances;

(2)(A) that, for 1 year after a United States patent is issued for the invention, the patent holder shall not negotiate any license or royalty with any entity that is not a participant in the Industry Alliance described in paragraph (1); and

(B) that, during the year described in subparagraph (A), the patent holder shall negotiate nonexclusive licenses and royalties in good faith with any interested participant in the Industry Alliance described in paragraph (1); and

(3) such other terms as the Secretary determines are required to promote accelerated commercialization of inventions made under the Initiative.

(i) National Academy review

The Secretary shall enter into an arrangement with the National Academy of Sciences to conduct periodic reviews of the Initiative.

(Pub. L. 109–58, title IX, §912, Aug. 8, 2005, 119 Stat. 858.)

§16193. National Building Performance Initiative

(a) Interagency group

(1) In general

Not later than 90 days after August 8, 2005, the Director of the Office of Science and Technology Policy shall establish an interagency group to develop, in coordination with the advisory committee established under subsection (e), a National Building Performance Initiative (referred to in this section as the "Initiative").

(2) Cochairs

The interagency group shall be co-chaired by appropriate officials of the Department and the Department of Commerce, who shall jointly arrange for the provision of necessary administrative support to the group.

(b) Integration of efforts

The Initiative shall integrate Federal, State, and voluntary private sector efforts to reduce the costs of construction, operation, maintenance, and renovation of commercial, industrial, institutional, and residential buildings.

(c) Plan

(1) In general

Not later than 1 year after August 8, 2005, the interagency group shall submit to Congress a plan for carrying out the appropriate Federal role in the Initiative.

(2) Inclusions

The plan shall include—

(A) research, development, demonstration, and commercial application of energy technology systems and materials for new construction and retrofit relating to the building envelope and building system components;

(B) research, development, demonstration, and commercial application of energy technology and infrastructure enabling the energy efficient, automated operation of buildings and building equipment; and

(C) the collection, analysis, and dissemination of research results and other pertinent information on enhancing building performance to industry, government entities, and the public.

(d) Department of Energy role

Within the Federal portion of the Initiative, the Department shall be the lead agency for all aspects of building performance related to use and conservation of energy.

(e) Advisory committee

The Director of the Office of Science and Technology Policy shall establish an advisory committee to—

(1) analyze and provide recommendations on potential private sector roles and participation in the Initiative; and

(2) review and provide recommendations on the plan described in subsection (c).

(f) Administration

Nothing in this section provides any Federal agency with new authority to regulate building performance.

(Pub. L. 109–58, title IX, §913, Aug. 8, 2005, 119 Stat. 860.)

§16194. Building standards

(a) Definition of high performance building

In this section, the term "high performance building" means a building that integrates and optimizes all major high-performance building attributes, including energy efficiency, durability, life-cycle performance, and occupant productivity.

(b) Assessment

Not later than 120 days after August 8, 2005, the Secretary shall enter into an agreement with the National Institute of Building Sciences to—

(1) conduct an assessment (in cooperation with industry, standards development organizations, and other entities, as appropriate) of whether the current voluntary consensus standards and rating systems for high performance buildings are consistent with the current technological state of the art, including relevant results from the research, development and demonstration activities of the Department;

(2) determine if additional research is required, based on the findings of the assessment; and

(3) recommend steps for the Secretary to accelerate the development of voluntary consensus-based standards for high performance buildings that are based on the findings of the assessment.

(c) Grant and technical assistance program

Consistent with subsection (b) and section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note), the Secretary shall establish a grant and technical assistance program to support the development of voluntary consensus-based standards for high performance buildings.

(Pub. L. 109–58, title IX, §914, Aug. 8, 2005, 119 Stat. 861.)

EDITORIAL NOTES

REFERENCES IN TEXT

Section 12(d) of the National Technology Transfer and Advancement Act of 1995, referred to in subsec. (c), is section 12(d) of Pub. L. 104–113, as amended, which is set out as a note under section 272 of Title 15, Commerce and Trade.

§16195. Secondary electric vehicle battery use program

(a) Definitions

In this section:

(1) Battery

The term "battery" means an energy storage device that previously has been used to provide motive power in a vehicle powered in whole or in part by electricity.

(2) Associated equipment

The term "associated equipment" means equipment located where the batteries will be used that is necessary to enable the use of the energy stored in the batteries.

(b) Program

(1) In general

The Secretary shall establish and conduct a program of research, development, demonstration, and commercial application of energy technology for the secondary use of batteries, if the Secretary finds that there are sufficient numbers of batteries to support the program.

(2) Administration

The program shall be—

(A) designed to demonstrate the use of batteries in secondary applications, including utility and commercial power storage and power quality;

(B) structured to evaluate the performance, including useful service life and costs, of such batteries in field operations, and the necessary supporting infrastructure, including reuse and disposal of batteries; and

(C) coordinated with ongoing secondary battery use programs at the National Laboratories

and in industry.

(c) Solicitation

(1) In general

Not later than 180 days after August 8, 2005, the Secretary shall solicit proposals to demonstrate the secondary use of batteries and associated equipment and supporting infrastructure in geographic locations throughout the United States.

(2) Additional solicitations

The Secretary may make additional solicitations for proposals if the Secretary determines that the solicitations are necessary to carry out this section.

(d) Selection of proposals

(1) In general

Not later than 90 days after the closing date established by the Secretary for receipt of proposals under subsection (c), the Secretary shall select up to five proposals that may receive financial assistance under this section once the Department receives appropriated funds to carry out this section.

(2) Factors

In selecting proposals, the Secretary shall consider—

(A) the diversity of battery type;

(B) geographic and climatic diversity; and

(C) life-cycle environmental effects of the approaches.

(3) Limitation

No one project selected under this section shall receive more than 25 percent of the funds made available to carry out the program under this section.

(4) Non-Federal involvement

In selecting proposals, the Secretary shall consider the extent of involvement of State or local government and other persons in each demonstration project to optimize use of Federal resources.

(5) Other criteria

In selecting proposals, the Secretary may consider such other criteria as the Secretary considers appropriate.

(e) Conditions

In carrying out this section, the Secretary shall require that—

(1) relevant information be provided to—

(A) the Department;

(B) the users of the batteries;

(C) the proposers of a project under this section; and

(D) the battery manufacturers; and

(2) the costs of carrying out projects and activities under this section are shared in accordance with section 16352 of this title.

(Pub. L. 109–58, title IX, §915, Aug. 8, 2005, 119 Stat. 861.)

§16196. Energy Efficiency Science Initiative

(a) Establishment

The Secretary shall establish an Energy Efficiency Science Initiative to be managed by the Assistant Secretary in the Department with responsibility for energy conservation under section

7133(a)(9) of this title, in consultation with the Director of the Office of Science, for grants to be competitively awarded and subject to peer review for research relating to energy efficiency.

(b) Report

The Secretary shall submit to Congress, along with the annual budget request of the President submitted to Congress, a report on the activities of the Energy Efficiency Science Initiative, including a description of the process used to award the funds and an explanation of how the research relates to energy efficiency.

(Pub. L. 109–58, title IX, §916, Aug. 8, 2005, 119 Stat. 862.)

§16197. Advanced Energy Technology Transfer Centers

(a) Grants

Not later than 18 months after May 8, 2008, the Secretary shall make grants to nonprofit institutions, State and local governments, cooperative extension services, or institutions of higher education (or consortia thereof), to establish a geographically dispersed network of Advanced Energy Technology Transfer Centers, to be located in areas the Secretary determines have the greatest need of the services of such Centers. In making awards under this section, the Secretary shall—

(1) give priority to applicants already operating or partnered with an outreach program capable of transferring knowledge and information about advanced energy efficiency methods and technologies;

(2) ensure that, to the extent practicable, the program enables the transfer of knowledge and information—

(A) about a variety of technologies; and

(B) in a variety of geographic areas;

(3) give preference to applicants that would significantly expand on or fill a gap in existing programs in a geographical region; and

(4) consider the special needs and opportunities for increased energy efficiency for manufactured and site-built housing, including construction, renovation, and retrofit.

(b) Activities

Each Center shall operate a program to encourage demonstration and commercial application of advanced energy methods and technologies through education and outreach to building and industrial professionals, and to other individuals and organizations with an interest in efficient energy use. Funds awarded under this section may be used for the following activities:

(1) Developing and distributing informational materials on technologies that could use energy more efficiently.

(2) Carrying out demonstrations of advanced energy methods and technologies.

(3) Developing and conducting seminars, workshops, long-distance learning sessions, and other activities to aid in the dissemination of knowledge and information on technologies that could use energy more efficiently.

(4) Providing or coordinating onsite energy evaluations, including instruction on the commissioning of building heating and cooling systems, for a wide range of energy end-users.

(5) Examining the energy efficiency needs of energy end-users to develop recommended research projects for the Department.

(6) Hiring experts in energy efficient technologies to carry out activities described in paragraphs (1) through (5).

(c) Application

A person seeking a grant under this section shall submit to the Secretary an application in such form and containing such information as the Secretary may require. The Secretary may award a grant

under this section to an entity already in existence if the entity is otherwise eligible under this section. The application shall include, at a minimum—

(1) a description of the applicant's outreach program, and the geographic region it would serve, and of why the program would be capable of transferring knowledge and information about advanced energy technologies that increase efficiency of energy use;

(2) a description of the activities the applicant would carry out, of the technologies that would be transferred, and of any other organizations that will help facilitate a regional approach to carrying out those activities;

(3) a description of how the proposed activities would be appropriate to the specific energy needs of the geographic region to be served;

(4) an estimate of the number and types of energy end-users expected to be reached through such activities; and

(5) a description of how the applicant will assess the success of the program.

(d) Selection criteria

The Secretary shall award grants under this section on the basis of the following criteria, at a minimum:

(1) The ability of the applicant to carry out the proposed activities.

(2) The extent to which the applicant will coordinate the activities of the Center with other entities as appropriate, such as State and local governments, utilities, institutions of higher education, and National Laboratories.

(3) The appropriateness of the applicant's outreach program for carrying out the program described in this section.

(4) The likelihood that proposed activities could be expanded or used as a model for other areas.

(e) Cost-sharing

In carrying out this section, the Secretary shall require cost-sharing in accordance with the requirements of section 16352 of this title for commercial application activities.

(f) Duration

(1) Initial grant period

A grant awarded under this section shall be for a period of 5 years.

(2) Initial evaluation

Each grantee under this section shall be evaluated during its third year of operation under procedures established by the Secretary to determine if the grantee is accomplishing the purposes of this section described in subsection (a). The Secretary shall terminate any grant that does not receive a positive evaluation. If an evaluation is positive, the Secretary may extend the grant for 3 additional years beyond the original term of the grant.

(3) Additional extension

If a grantee receives an extension under paragraph (2), the grantee shall be evaluated again during the second year of the extension. The Secretary shall terminate any grant that does not receive a positive evaluation. If an evaluation is positive, the Secretary may extend the grant for a final additional period of 3 additional years beyond the original extension.

(4) Limitation

No grantee may receive more than 11 years of support under this section without reapplying for support and competing against all other applicants seeking a grant at that time.

(g) Prohibition

None of the funds awarded under this section may be used for the construction of facilities.

(h) Definitions

For purposes of this section:

(1) Advanced energy methods and technologies

The term "advanced energy methods and technologies" means all methods and technologies that promote energy efficiency and conservation, including distributed generation technologies, and life-cycle analysis of energy use.

(2) Center

The term "Center" means an Advanced Energy Technology Transfer Center established pursuant to this section.

(3) Distributed generation

The term "distributed generation" means an electric power generation technology, including photovoltaic, small wind, and micro-combined heat and power, that serves electric consumers at or near the site of production.

(4) Cooperative Extension

The term "Cooperative Extension" means the extension services established at the land-grant colleges and universities under the Smith-Lever Act of May 8, 1914 [7 U.S.C. 341 et seq.].

(5) Land-grant colleges and universities

The term "land-grant colleges and universities" means—

(A) 1862 Institutions (as defined in section 7601 of title 7);

(B) 1890 Institutions (as defined in section 7601 of title 7); and

(C) 1994 Institutions (as defined in section 7601 of title 7).

(i) Authorization of appropriations

In addition to amounts otherwise authorized to be appropriated in section 16191 of this title, there are authorized to be appropriated for the program under this section such sums as may be appropriated.

(Pub. L. 109–58, title IX, §917, Aug. 8, 2005, 119 Stat. 863; Pub. L. 110–229, title VI, §601, May 8, 2008, 122 Stat. 850.)

EDITORIAL NOTES

REFERENCES IN TEXT

The Smith-Lever Act of May 8, 1914, referred to in subsec. (h)(4), is act May 8, 1914, ch. 79, 38 Stat. 372, which is classified generally to subchapter IV (§341 et seq.) of chapter 13 of Title 7, Agriculture. For complete classification of this Act to the Code, see Short Title note set out under section 341 of Title 7 and Tables.

CODIFICATION

May 8, 2008, referred to in subsec. (a), was in the original "the date of enactment of the National Forests, Parks, Public Land, and Reclamation Projects Authorization Act of 2008" and was translated as meaning the date of enactment of the Consolidated Natural Resources Act of 2008, Pub. L. 110–229, which amended this section generally, to reflect the probable intent of Congress. The National Forests, Parks, Public Land, and Reclamation Projects Authorization Act of 2008, was S. 2616, 110th Congress, introduced in the Senate on Feb. 8, 2008, with action thereon indefinitely postponed. The provisions of section 601 of that bill generally amended section 917 of Pub. L. 109–58 (this section) and was a predecessor version of section 601 of Pub. L. 109–229.

AMENDMENTS

2008—Pub. L. 110–229 amended section generally. Prior to amendment, section related to grants for the establishment of a network of Advanced Energy Efficiency Technology Transfer Centers.

§16198. Smart energy and water efficiency pilot program

(a) Definitions

In this section:

(1) Eligible entity

The term "eligible entity" means—

(A) a utility;

(B) a municipality;

(C) a water district;

(D) an Indian Tribe or Alaska Native village; and

(E) any other authority that provides water, wastewater, or water reuse services.

(2) Smart energy and water efficiency pilot program

The term "smart energy and water efficiency pilot program" or "pilot program" means the pilot program established under subsection (b).

(b) Smart energy and water efficiency pilot program

(1) In general

The Secretary shall establish and carry out a smart energy and water efficiency pilot program in accordance with this section.

(2) Purpose

The purpose of the smart energy and water efficiency pilot program is to award grants to eligible entities to demonstrate unique, advanced, or innovative technology-based solutions that will—

(A) improve the net energy balance of water, wastewater, and water reuse systems;

(B) improve the net energy balance of water, wastewater, and water reuse systems to help communities across the United States make measurable progress in conserving water, saving energy, and reducing costs;

(C) support the implementation of innovative and unique processes and the installation of established advanced automated systems that provide real-time data on energy and water; and

(D) improve energy-water conservation and quality and predictive maintenance through technologies that utilize internet connected technologies, including sensors, intelligent gateways, and security embedded in hardware.

(3) Project selection

(A) In general

The Secretary shall make competitive, merit-reviewed grants under the pilot program to not less than 3, but not more than 5, eligible entities.

(B) Selection criteria

In selecting an eligible entity to receive a grant under the pilot program, the Secretary shall consider—

(i) energy and cost savings;

(ii) the uniqueness, commercial viability, and reliability of the technology to be used;

(iii) the degree to which the project integrates next-generation sensors software, analytics, and management tools;

(iv) the anticipated cost-effectiveness of the pilot project through measurable energy savings, water savings or reuse, and infrastructure costs averted;

(v) whether the technology can be deployed in a variety of geographic regions and the degree to which the technology can be implemented in a wide range of applications ranging in scale from small towns to large cities, including Tribal communities;

(vi) whether the technology has been successfully deployed elsewhere;

(vii) whether the technology was sourced from a manufacturer based in the United States; and

(viii) whether the project will be completed in 5 years or less.

(C) Applications

(i) In general

Subject to clause (ii), an eligible entity seeking a grant under the pilot program shall submit to the Secretary an application at such time, in such manner, and containing such information as the Secretary determines to be necessary.

(ii) Contents

An application under clause (i) shall, at a minimum, include—

(I) a description of the project;

(II) a description of the technology to be used in the project;

(III) the anticipated results, including energy and water savings, of the project;

(IV) a comprehensive budget for the project;

(V) the names of the project lead organization and any partners;

(VI) the number of users to be served by the project;

(VII) a description of the ways in which the proposal would meet performance measures established by the Secretary; and

(VIII) any other information that the Secretary determines to be necessary to complete the review and selection of a grant recipient.

(4) Administration

(A) In general

Not later than 1 year after December 27, 2020, the Secretary shall select grant recipients under this section.

(B) Evaluations

(i) Annual evaluations

The Secretary shall annually carry out an evaluation of each project for which a grant is provided under this section that meets performance measures and benchmarks developed by the Secretary, consistent with the purposes of this section.

(ii) Requirements

Consistent with the performance measures and benchmarks developed under clause (i), in carrying out an evaluation under that clause, the Secretary shall—

(I) evaluate the progress and impact of the project; and

(II) assess the degree to which the project is meeting the goals of the pilot program.

(C) Technical and policy assistance

On the request of a grant recipient, the Secretary shall provide technical and policy assistance.

(D) Best practices

The Secretary shall make available to the public through the Internet and other means the Secretary considers to be appropriate—

(i) a copy of each evaluation carried out under subparagraph (B); and

(ii) a description of any best practices identified by the Secretary as a result of those evaluations.

(E) Report to Congress

The Secretary shall submit to Congress a report containing the results of each evaluation carried out under subparagraph (B).

(c) Authorization of appropriations

There is authorized to be appropriated to the Secretary to carry out this section $15,000,000, to remain available until expended.

(Pub. L. 109–58, title IX, §918, as added Pub. L. 116–260, div. Z, title I, §1014(a), Dec. 27, 2020, 134 Stat. 2451.)

PART B—DISTRIBUTED ENERGY AND ELECTRIC ENERGY SYSTEMS

§16211. Distributed energy and electric energy systems

(a) In general

The Secretary shall carry out programs of research, development, demonstration, and commercial application on distributed energy resources and systems reliability and efficiency, to improve the reliability and efficiency of distributed energy resources and systems, integrating advanced energy technologies with grid connectivity, including activities described in this part. The programs shall address advanced energy technologies and systems and advanced grid reliability technologies.

(b) Authorization of appropriations

(1) Distributed energy and electric energy systems activities

There are authorized to be appropriated to the Secretary to carry out distributed energy and electric energy systems activities, including activities authorized under this part—

(A) $240,000,000 for fiscal year 2007;
(B) $255,000,000 for fiscal year 2008; and
(C) $273,000,000 for fiscal year 2009.

(2) Power delivery research initiative

There are authorized to be appropriated to the Secretary to carry out the Power Delivery Research Initiative under subsection [1] 16215(e) of this title such sums as may be necessary for each of fiscal years 2007 through 2009.

(c) Micro-cogeneration energy technology

From amounts authorized under subsection (b), $20,000,000 for each of fiscal years 2007 and 2008 shall be available to carry out activities under section 16213 of this title.

(d) High-voltage transmission lines

From amounts authorized under subsection (b), $2,000,000 for fiscal year 2007 shall be available to carry out activities under section 16215(g) of this title.

(Pub. L. 109–58, title IX, §921, Aug. 8, 2005, 119 Stat. 864.)

[1] So in original. Probably should be "section".

§16212. High power density industry program

(a) In general

The Secretary shall establish a comprehensive research, development, demonstration, and commercial application to improve the energy efficiency of high power density facilities, including data centers, server farms, and telecommunications facilities.

(b) Technologies

The program shall consider technologies that provide significant improvement in thermal controls, metering, load management, peak load reduction, or the efficient cooling of electronics.

(Pub. L. 109–58, title IX, §922, Aug. 8, 2005, 119 Stat. 864.)

§16213. Micro-cogeneration energy technology

(a) In general

The Secretary shall make competitive, merit-based grants to consortia for the development of micro-cogeneration energy technology.

(b) Uses

The consortia shall explore—

(1) the use of small-scale combined heat and power in residential heating appliances;

(2) the use of excess power to operate other appliances within the residence; and

(3) the supply of excess generated power to the power grid.

(Pub. L. 109–58, title IX, §923, Aug. 8, 2005, 119 Stat. 865.)

§16214. Distributed energy technology demonstration programs

(a) Coordinating consortia program

The Secretary may provide financial assistance to coordinating consortia of interdisciplinary participants for demonstrations designed to accelerate the use of distributed energy technologies (such as fuel cells, microturbines, reciprocating engines, thermally activated technologies, and combined heat and power systems) in high-energy intensive commercial applications.

(b) Small-scale portable power program

(1) In general

The Secretary shall—

(A) establish a research, development, and demonstration program to develop working models of small scale portable power devices; and

(B) to the fullest extent practicable, identify and utilize the resources of universities that have shown expertise with respect to advanced portable power devices for either civilian or military use.

(2) Organization

The universities identified and utilized under paragraph (1)(B) are authorized to establish an organization to promote small scale portable power devices.

(3) Definition

For purposes of this subsection, the term "small scale portable power device" means a field-deployable portable mechanical or electromechanical device that can be used for applications such as communications, computation, mobility enhancement, weapons systems, optical devices, cooling, sensors, medical devices, and active biological agent detection systems.

(Pub. L. 109–58, title IX, §924, Aug. 8, 2005, 119 Stat. 865.)

§16215. Electric transmission and distribution programs

(a) Program

The Secretary shall establish a comprehensive research, development, and demonstration program to ensure the reliability, efficiency, and environmental integrity of electrical transmission and distribution systems, which shall include—

(1) advanced energy delivery technologies, energy storage technologies, materials, and systems, giving priority to new transmission technologies, including composite conductor materials and other technologies that enhance reliability, operational flexibility, or power-carrying capability;

(2) advanced grid reliability and efficiency technology development;

(3) technologies contributing to significant load reductions;

(4) advanced metering, load management, and control technologies;

(5) technologies to enhance existing grid components;

(6) the development and use of high-temperature superconductors to—

(A) enhance the reliability, operational flexibility, or power-carrying capability of electric transmission or distribution systems; or

(B) increase the efficiency of electric energy generation, transmission, distribution, or storage systems;

(7) integration of power systems, including systems to deliver high-quality electric power, electric power reliability, and combined heat and power;

(8) supply of electricity to the power grid by small scale, distributed and residential-based power generators;

(9) the development and use of advanced grid design, operation, and planning tools;

(10) the development of cost-effective technologies that enable two-way information and power flow between distributed energy resources and the electric grid;

(11) the development of technologies and concepts that enable interoperability between distributed energy resources and other behind-the-meter devices and the electric grid;

(12) any other infrastructure technologies, as appropriate; and

(13) technology transfer and education.

(b) Program plan

(1) In general

Not later than 1 year after August 8, 2005, the Secretary, in consultation with other appropriate Federal agencies, shall prepare and submit to Congress a 5-year program plan to guide activities under this section.

(2) Consultation

In preparing the program plan, the Secretary shall consult with—

(A) utilities;

(B) energy service providers;

(C) manufacturers;

(D) institutions of higher education;

(E) other appropriate State and local agencies;

(F) environmental organizations;

(G) professional and technical societies; and

(H) any other persons the Secretary considers appropriate.

(c) Implementation

The Secretary shall consider implementing the program under this section using a consortium of participants from industry, institutions of higher education, and National Laboratories.

(d) Report

Not later than 2 years after the submission of the plan under subsection (b), the Secretary shall submit to Congress a report—

(1) describing the progress made under this section; and

(2) identifying any additional resources needed to continue the development and commercial application of transmission and distribution of infrastructure technologies.

(e) Power delivery research initiative

(1) In general

The Secretary shall establish a research, development, and demonstration initiative specifically focused on power delivery using components incorporating high temperature superconductivity.

(2) Goals

The goals of the Initiative shall be—

(A) to establish world-class facilities to develop high temperature superconductivity power applications in partnership with manufacturers and utilities;

(B) to provide technical leadership for establishing reliability for high temperature superconductivity power applications, including suitable modeling and analysis;

(C) to facilitate the commercial transition toward direct current power transmission, storage, and use for high power systems using high temperature superconductivity; and

(D) to facilitate the integration of very low impedance high temperature superconducting wires and cables in existing electric networks to improve system performance, power flow control, and reliability.

(3) Inclusions

The Initiative shall include—

(A) feasibility analysis, planning, research, and design to construct demonstrations of superconducting links in high power, direct current, and controllable alternating current transmission systems;

(B) public-private partnerships to demonstrate deployment of high temperature superconducting cable into testbeds simulating a realistic transmission grid and under varying transmission conditions, including actual grid insertions; and

(C) testbeds developed in cooperation with National Laboratories, industries, and institutions of higher education to—

(i) demonstrate those technologies;

(ii) prepare the technologies for commercial introduction; and

(iii) address cost or performance roadblocks to successful commercial use.

(f) Transmission and distribution grid planning and operations initiative

(1) In general

The Secretary shall establish a research, development, and demonstration initiative specifically focused on tools needed to plan, operate, and expand the transmission and distribution grids in the presence of competitive market mechanisms for energy, load demand, customer response, and ancillary services.

(2) Goals

The goals of the Initiative shall be—

(A)(i) to develop and use a geographically distributed center, consisting of institutions of higher education, and National Laboratories, with expertise and facilities to develop the underlying theory and software for power system application; and

(ii) to ensure commercial development in partnership with software vendors and utilities;

(B) to provide technical leadership in engineering and economic analysis for the reliability and efficiency of power systems planning and operations in the presence of competitive markets for electricity;

(C) to model, simulate, and experiment with new market mechanisms and operating practices to understand and optimize those new methods before actual use; and

(D) to provide technical support and technology transfer to electric utilities and other participants in the domestic electric industry and marketplace.

(g) High-voltage transmission lines

As part of the program described in subsection (a), the Secretary shall award a grant to a university research program to design and test, in consultation with the Tennessee Valley Authority, state-of-the-art optimization techniques for power flow through existing high voltage transmission lines.

(Pub. L. 109–58, title IX, §925, Aug. 8, 2005, 119 Stat. 865; Pub. L. 116–260, div. Z, title VIII, §8004(a), Dec. 27, 2020, 134 Stat. 2583.)

EDITORIAL NOTES

AMENDMENTS

2020—Subsec. (a)(10) to (13). Pub. L. 116–260 added pars. (10) and (11) and redesignated former pars. (10) and (11) as (12) and (13), respectively.

COORDINATION OF EFFORTS

Pub. L. 116–260, div. Z, title VIII, §8006, Dec. 27, 2020, 134 Stat. 2586, provided that: "In carrying out the amendments made by this title [enacting sections 16236, 17014, 17384a, 17387, and 17388 of this title and amending this section, section 17384 of this title and sections 3501 and 3502 of Title 25, Indians], the Secretary [probably means Secretary of Energy] shall coordinate with relevant entities to the maximum extent practicable, including—

"(1) electric utilities;
"(2) private sector entities;
"(3) representatives of all sectors of the electric power industry;
"(4) transmission organizations;
"(5) transmission owners and operators;
"(6) distribution organizations;
"(7) distribution asset owners and operators;
"(8) State, Tribal, local, and territorial governments and regulatory authorities;
"(9) academic institutions;
"(10) the National Laboratories;
"(11) other Federal agencies;
"(12) nonprofit organizations;
"(13) the Federal Energy Regulatory Commission;
"(14) the North American Reliability Corporation;
"(15) independent system operators; and
"(16) programs and program offices at the Department."

PART C—RENEWABLE ENERGY

§16231. Renewable energy

(a) In general

(1) Objectives

The Secretary shall conduct programs of renewable energy research, development, demonstration, and commercial application, including activities described in this part. Such programs shall take into consideration the following objectives:

(A) Increasing the conversion efficiency of all forms of renewable energy through improved technologies.

(B) Decreasing the cost of renewable energy generation and delivery.

(C) Promoting the diversity of the energy supply.

(D) Decreasing the dependence of the United States on foreign energy supplies.

(E) Improving United States energy security.

(F) Decreasing the environmental impact of energy-related activities.

(G) Increasing the export of renewable generation equipment from the United States.

(2) Programs

(A) Geothermal

The Secretary shall conduct a program of research, development, demonstration, and commercial application for geothermal energy. The program shall focus on developing improved technologies for reducing the costs of geothermal energy installations, including technologies for—

(i) improving detection of geothermal resources;

(ii) decreasing drilling costs;

(iii) decreasing maintenance costs through improved materials;
(iv) increasing the potential for other revenue sources, such as mineral production; and
(v) increasing the understanding of reservoir life cycle and management.

(B) Hydropower

The Secretary shall conduct a program of research, development, demonstration, and commercial application for cost competitive technologies that enable the development of new and incremental hydropower capacity, adding to the diversity of the energy supply of the United States, including:

(i) Fish-friendly large turbines.
(ii) Advanced technologies to enhance environmental performance and yield greater energy efficiencies.

(C) Miscellaneous projects

The Secretary shall conduct research, development, demonstration, and commercial application programs for—

(i) ocean energy, including wave energy;
(ii) the combined use of renewable energy technologies with one another and with other energy technologies, including the combined use of wind power and coal gasification technologies;
(iii) renewable energy technologies for cogeneration of hydrogen and electricity; and
(iv) kinetic hydro turbines.

(b) Authorization of appropriations

There are authorized to be appropriated to the Secretary to carry out renewable energy research, development, demonstration, and commercial application activities, including activities authorized under this part—

(1) $632,000,000 for fiscal year 2007;
(2) $743,000,000 for fiscal year 2008;
(3) $852,000,000 for fiscal year 2009; and
(4) $963,000,000 for fiscal year 2010.

(c) Bioenergy

From the amounts authorized under subsection (b), there are authorized to be appropriated to carry out section 16232 of this title—

(1) $213,000,000 for fiscal year 2007, of which $100,000,000 shall be for section 16232(d) of this title;
(2) $377,000,000 for fiscal year 2008, of which $125,000,000 shall be for section 16232(d) of this title;
(3) $398,000,000 for fiscal year 2009, of which $150,000,000 shall be for section 16232(d) of this title; and
(4) $419,000,000 for fiscal year 2010, of which $150,000,000 shall be for section 16232(d) of this title.

(d) Administration

Of the funds authorized under subsection (c), not less than $5,000,000 for each fiscal year shall be made available for grants to—

(1) part B institutions;
(2) Tribal Colleges or Universities (as defined in section 1059c(b) of title 20); and
(3) Hispanic-serving institutions.

(e) Rural demonstration projects

In carrying out this section, the Secretary, in consultation with the Secretary of Agriculture, shall demonstrate the use of renewable energy technologies to assist in delivering electricity to rural and remote locations including —

(1) advanced wind power technology, including combined use with coal gasification;

(2) biomass; and
(3) geothermal energy systems.

(f) Analysis and evaluation

(1) In general

The Secretary shall conduct analysis and evaluation in support of the renewable energy programs under this part. These activities shall be used to guide budget and program decisions, and shall include—

(A) economic and technical analysis of renewable energy potential, including resource assessment;

(B) analysis of past program performance, both in terms of technical advances and in market introduction of renewable energy; and

(C) any other analysis or evaluation that the Secretary considers appropriate.

(2) Funding

The Secretary may designate up to 1 percent of the funds appropriated for carrying out this part for analysis and evaluation activities under this subsection.

(Pub. L. 109–58, title IX, §931, Aug. 8, 2005, 119 Stat. 868; Pub. L. 110–140, title II, §231, Dec. 19, 2007, 121 Stat. 1536; Pub. L. 116–260, div. Z, title III, §3006(b)(3), Dec. 27, 2020, 134 Stat. 2512.)

EDITORIAL NOTES

AMENDMENTS

2020—Subsec. (a)(2). Pub. L. 116–260, §3006(b)(3)(A)(i), (ii), redesignated subpars. (C) to (E) as (A) to (C), respectively, and struck out former subpars. (A) and (B) which related to solar and wind energy programs.

Subsecs. (d) to (g). Pub. L. 116–260, §3006(b)(3)(B), (C), redesignated subsecs. (e) to (g) as (d) to (f), respectively, and struck out former subsec. (d) which related to solar power.

2007—Subsec. (b)(4). Pub. L. 110–140, §231(1), added par. (4).

Subsec. (c)(2) to (4). Pub. L. 110–140, §231(2), in par. (2), substituted "$377,000,000" for "$251,000,000", in par. (3), substituted "$398,000,000" for "$274,000,000", and added par. (4).

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE OF 2007 AMENDMENT

Amendment by Pub. L. 110–140 effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as an Effective Date note under section 1824 of Title 2, The Congress.

§16232. Bioenergy program

(a) Definitions

In this section:

(1) Biomass

The term "biomass" means—

(A) any organic material grown for the purpose of being converted to energy;

(B) any organic byproduct of agriculture (including wastes from food production and processing) that can be converted into energy; or

(C) any waste material that can be converted to energy, is segregated from other waste materials, and is derived from—

(i) any of the following forest-related resources: mill residues, precommercial thinnings, slash, brush, or otherwise nonmerchantable material; or

(ii) wood waste materials, including waste pallets, crates, dunnage, manufacturing and

construction wood wastes (other than pressure-treated, chemically-treated, or painted wood wastes), and landscape or right-of-way tree trimmings, but not including municipal solid waste, gas derived from the biodegradation of municipal solid waste, or paper that is commonly recycled.

(2) Lignocellulosic feedstock

The term "lignocellulosic feedstock" means any portion of a plant or coproduct from conversion, including crops, trees, forest residues, and agricultural residues not specifically grown for food, including from barley grain, grapeseed, rice bran, rice hulls, rice straw, soybean matter, and sugarcane bagasse.

(b) Program

The Secretary shall conduct a program of research, development, demonstration, and commercial application for bioenergy, including—

(1) biopower energy systems;
(2) biofuels;
(3) bioproducts;
(4) integrated biorefineries that may produce biopower, biofuels, and bioproducts;
(5) cross-cutting research and development in feedstocks; and
(6) economic analysis.

(c) Biofuels and bioproducts

The goals of the biofuels and bioproducts programs shall be to develop, in partnership with industry and institutions of higher education—

(1) advanced biochemical and thermochemical conversion technologies capable of making fuels from lignocellulosic feedstocks that are price-competitive with gasoline or diesel in either internal combustion engines or fuel cell-powered vehicles;

(2) advanced biotechnology processes capable of making biofuels and bioproducts with emphasis on development of biorefinery technologies using enzyme-based processing systems;

(3) advanced biotechnology processes capable of increasing energy production from lignocellulosic feedstocks, with emphasis on reducing the dependence of industry on fossil fuels in manufacturing facilities; and

(4) other advanced processes that will enable the development of cost-effective bioproducts, including biofuels.

(d) Integrated biorefinery demonstration projects

(1) In general

The Secretary shall carry out a program to demonstrate the commercial application of integrated biorefineries. The Secretary shall ensure geographical distribution of biorefinery demonstrations under this subsection. The Secretary shall not provide more than $100,000,000 under this subsection for any single biorefinery demonstration. In making awards under this subsection, the Secretary shall encourage—

(A) the demonstration of a wide variety of lignocellulosic feedstocks;
(B) the commercial application of biomass technologies for a variety of uses, including—
(i) liquid transportation fuels;
(ii) high-value biobased chemicals;
(iii) substitutes for petroleum-based feedstocks and products; and
(iv) energy in the form of electricity or useful heat; and

(C) the demonstration of the collection and treatment of a variety of biomass feedstocks.

(2) Proposals

Not later than 6 months after August 8, 2005, the Secretary shall solicit proposals for demonstration of advanced biorefineries. The Secretary shall select only proposals that—

(A) demonstrate that the project will be able to operate profitably without direct Federal

subsidy after initial construction costs are paid; and

(B) enable the biorefinery to be easily replicated.

(e) University biodiesel program

The Secretary shall establish a demonstration program to determine the feasibility of the operation of diesel electric power generators, using biodiesel fuels with ratings as high as B100, at electric generation facilities owned by institutions of higher education. The program shall examine—

(1) heat rates of diesel fuels with large quantities of cellulosic content;

(2) the reliability of operation of various fuel blends;

(3) performance in cold or freezing weather;

(4) stability of fuel after extended storage; and

(5) other criteria, as determined by the Secretary.

(g) [1] Biorefinery energy efficiency

The Secretary shall establish a program of research, development, demonstration, and commercial application for increasing energy efficiency and reducing energy consumption in the operation of biorefinery facilities.

(h) Retrofit technologies for the development of ethanol from cellulosic materials

The Secretary shall establish a program of research, development, demonstration, and commercial application on technologies and processes to enable biorefineries that exclusively use corn grain or corn starch as a feedstock to produce ethanol to be retrofitted to accept a range of biomass, including lignocellulosic feedstocks.

(Pub. L. 109–58, title IX, §932, Aug. 8, 2005, 119 Stat. 870; Pub. L. 110–140, title II, §224, Dec. 19, 2007, 121 Stat. 1533.)

EDITORIAL NOTES

AMENDMENTS

2007—Subsecs. (g), (h). Pub. L. 110–140 added subsecs. (g) and (h).

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE OF 2007 AMENDMENT

Amendment by Pub. L. 110–140 effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as an Effective Date note under section 1824 of Title 2, The Congress.

[1] So in original. No subsec. (f) has been enacted.

§16233. Low-cost renewable hydrogen and infrastructure for vehicle propulsion

The Secretary shall—

(1) establish a research, development, and demonstration program to determine the feasibility of using hydrogen propulsion in light-weight vehicles and the integration of the associated hydrogen production infrastructure using off-the-shelf components; and

(2) identify universities and institutions that—

(A) have expertise in researching and testing vehicles fueled by hydrogen, methane, and other fuels;

(B) have expertise in integrating off-the-shelf components to minimize cost; and

(C) within 2 years can test a vehicle based on an existing commercially available platform with a curb weight of not less than 2,000 pounds before modifications, that—

(i) operates solely on hydrogen;

(ii) qualifies as a light-duty passenger vehicle; and

(iii) uses hydrogen produced from water using only solar energy.

(Pub. L. 109–58, title IX, §933, Aug. 8, 2005, 119 Stat. 872.)

§16234. Concentrating solar power research program

(a) In general

The Secretary shall conduct a program of research and development to evaluate the potential for concentrating solar power for hydrogen production, including cogeneration approaches for both hydrogen and electricity.

(b) Administration

The program shall take advantage of existing facilities to the extent practicable and shall include—

(1) development of optimized technologies that are common to both electricity and hydrogen production;

(2) evaluation of thermochemical cycles for hydrogen production at the temperatures attainable with concentrating solar power;

(3) evaluation of materials issues for the thermochemical cycles described in paragraph (2);

(4) cogeneration of solar thermal electric power and photo-synthetic-based hydrogen production;

(5) system architectures and economics studies; and

(6) coordination with activities under the Next Generation Nuclear Plant Project established under part B of subchapter VI on high temperature materials, thermochemical cycles, and economic issues.

(c) Assessment

In carrying out the program under this section, the Secretary shall—

(1) assess conflicting guidance on the economic potential of concentrating solar power for electricity production received from the National Research Council in the report entitled "Renewable Power Pathways: A Review of the U.S. Department of Energy's Renewable Energy Programs" and dated 2000 and subsequent reviews of that report funded by the Department; and

(2) provide an assessment of the potential impact of technology used to concentrate solar power for electricity before, or concurrent with, submission of the budget for fiscal year 2008.

(d) Report

Not later than 5 years after August 8, 2005, the Secretary shall provide to Congress a report on the economic and technical potential for electricity or hydrogen production, with or without cogeneration, with concentrating solar power, including the economic and technical feasibility of potential construction of a pilot demonstration facility suitable for commercial production of electricity or hydrogen from concentrating solar power.

(Pub. L. 109–58, title IX, §934, Aug. 8, 2005, 119 Stat. 872.)

§16235. Renewable energy in public buildings

(a) Demonstration and technology transfer program

The Secretary shall establish a program for the demonstration of innovative technologies for solar and other renewable energy sources in buildings owned or operated by a State or local government, and for the dissemination of information resulting from such demonstration to interested parties.

(b) Limit on Federal funding

Notwithstanding section 16352 of this title, the Secretary shall provide under this section no more than 40 percent of the incremental costs of the solar or other renewable energy source project funded.

(c) Requirements

As part of the application for awards under this section, the Secretary shall require all applicants—

(1) to demonstrate a continuing commitment to the use of solar and other renewable energy sources in buildings they own or operate; and

(2) to state how they expect any award to further their transition to the significant use of renewable energy.

(Pub. L. 109–58, title IX, §935, Aug. 8, 2005, 119 Stat. 873.)

§16236. Research and development into integrating renewable energy onto the electric grid

(a) In general

Not later than 180 days after December 27, 2020, the Secretary shall establish a research, development, and demonstration program on technologies that enable integration of renewable energy generation sources onto the electric grid across multiple program offices of the Department. The program shall include—

(1) forecasting for predicting generation from variable renewable energy sources;

(2) development of cost-effective low-loss, long-distance transmission lines; and

(3) development of cost-effective advanced technologies for variable renewable generation sources to provide grid services.

(b) Coordination

In carrying out this program, the Secretary shall coordinate across all relevant program offices at the Department to achieve the goals established in this section, including the Office of Electricity.

(c) Adoption of technologies

In carrying out this section, the Secretary shall consider barriers to adoption and commercial application of technologies that enable integration of renewable energy sources onto the electric grid, including cost and other economic barriers, and shall coordinate with relevant entities to reduce these barriers.

(Pub. L. 109–58, title IX, §936, as added Pub. L. 116–260, div. Z, title VIII, §8004(b), Dec. 27, 2020, 134 Stat. 2583.)

§16237. Wind energy research and development

(a) Definitions

In this section:

(1) Critical material

The term "critical material" has the meaning given the term in section 1606 of title 30.

(2) Economically distressed area

The term "economically distressed area" means an area described in section 3161(a) of this title.

(3) Eligible entity

The term "eligible entity" means—

(A) an institution of higher education, including a minority-serving institution;

(B) a National Laboratory;

(C) a Federal research agency;

(D) a State research agency;

(E) a research agency associated with a territory or freely associated state;

(F) a Tribal energy development organization;

(G) an Indian Tribe;
(H) a Tribal organization;
(I) a Native Hawaiian community-based organization;
(J) a nonprofit research organization;
(K) an industrial entity;
(L) any other entity, as determined by the Secretary; and
(M) a consortium of 2 or more entities described in subparagraphs (A) through (L).

(4) Indian Tribe

The term "Indian Tribe" has the meaning given the term in section 5304 of title 25.

(5) Institution of higher education

The term "institution of higher education" means—
(A) an institution of higher education (as defined in section 1001(a) of title 20); or
(B) a postsecondary vocational institution (as defined in section 1002(c) of title 20).

(6) Minority serving institution

The term "minority-serving institution" has the meaning given the term "eligible institution" in section 1067q(a) of title 20.

(7) National Laboratory

The term "National Laboratory" has the meaning given such term in section 15801(3) of this title.

(8) Native Hawaiian community-based organization

The term "Native Hawaiian community-based organization" has the meaning given the term in section 7517 of title 20.

(9) Program

The term "program" means the program established under subsection (b)(1).

(10) Secretary

The term "Secretary" means the Secretary of Energy.

(11) Territory or freely associated state

The term "territory or freely associated state" has the meaning given the term "insular area" in section 3103 of title 7.

(12) Tribal energy development organization

The term "Tribal energy development organization" has the meaning given the term "tribal energy development organization" in section 3501 of title 25.

(13) Tribal organization

The term "Tribal organization" has the meaning given the term in section 5304 of title 25.

(b) Wind energy technology program

(1) Establishment

(A) In general

The Secretary shall establish a program to conduct research, development, demonstration, and commercialization of wind energy technologies in accordance with this subsection.

(B) Purposes

The purposes of the program are the following:
(i) To improve the energy efficiency, cost effectiveness, reliability, resilience, security, siting, integration, manufacturability, installation, decommissioning, and recyclability of wind energy technologies.
(ii) To optimize the performance and operation of wind energy components, turbines, and

systems, including through the development of new materials, hardware, and software.

(iii) To optimize the design and adaptability of wind energy technologies to the broadest practical range of geographic, atmospheric, offshore, and other site conditions, including—

(I) at varying hub heights; and

(II) through the use of computer modeling.

(iv) To support the integration of wind energy technologies with the electric grid and other energy technologies and systems.

(v) To reduce the cost, risk, and other potential negative impacts across the lifespan of wind energy technologies, including—

(I) manufacturing, siting, permitting, installation, operations, maintenance, decommissioning, and recycling; and

(II) through the development of solutions to transportation barriers to wind components.

(vi) To reduce and mitigate potential negative impacts of wind energy technologies on human communities, the environment, or commerce.

(vii) To address barriers to the commercialization and export of wind energy technologies.

(viii) To support the domestic wind industry, workforce, and supply chain.

(C) Targets

Not later than 180 days after December 27, 2020, the Secretary shall establish targets for the program relating to near-term (up to 2 years), mid-term (up to 7 years), and long-term (up to 15 years) challenges to the advancement of wind energy technologies, including onshore, offshore, distributed, and off-grid technologies.

(2) Activities

(A) Types of activities

In carrying out the program, the Secretary shall carry out research, development, demonstration, and commercialization activities, including—

(i) awarding grants and awards, on a competitive, merit-reviewed basis;

(ii) performing precompetitive research and development;

(iii) establishing or maintaining demonstration facilities and projects, including through stewardship of existing facilities such as the National Wind Test Center;

(iv) providing technical assistance;

(v) entering into contracts and cooperative agreements;

(vi) providing small business vouchers;

(vii) establishing prize competitions;

(viii) conducting education and outreach activities;

(ix) conducting professional development activities; and

(x) conducting analyses, studies, and reports.

(B) Subject areas

The Secretary shall carry out research, development, demonstration, and commercialization activities in the following subject areas:

(i) Wind power plant siting, performance, operations, and security.

(ii) New materials and designs relating to all hardware, software, and components of wind energy technologies, including technologies and strategies that reduce the use of energy, water, critical materials, and other commodities that are determined to be vulnerable to disruption.

(iii) Advanced wind energy manufacturing and installation technologies and practices, including materials, processes, such as onsite or near site manufacturing, and design.

(iv) Offshore wind-specific projects and plants, including—

(I) fixed and floating substructure systems, materials, and components;

(II) the operation of offshore facilities, such as—

(aa) an offshore research facility to conduct research for oceanic, biological, geological, and atmospheric resource characterization relevant to offshore wind energy development in coordination with the ocean and atmospheric science communities; and

(bb) an offshore support structure testing facility to conduct development, demonstration, and commercialization of large-scale and full-scale offshore wind energy support structure components and systems;

(III) the monitoring and analysis of site and environmental considerations unique to offshore sites, including freshwater environments.

(v) Integration of wind energy technologies with—

(I) the electric grid, including transmission, distribution, microgrids, and distributed energy systems; and

(II) other energy technologies, including—

(aa) other generation sources;

(bb) demand response technologies; and

(cc) energy storage technologies.

(vi) Methods to improve the lifetime, maintenance, decommissioning, recycling, reuse, and sustainability of wind energy components and systems, including technologies and strategies to reduce the use of energy, water, critical materials, and other valuable or harmful inputs.

(vii) Wind power forecasting and atmospheric measurement systems, including for turbines and plant systems of varying height.

(viii) Integrated wind energy systems, grid-connected and off-grid, that incorporate diverse—

(I) generation sources;

(II) loads; and

(III) storage technologies.

(ix) Reducing market barriers, including non-hardware and information-based barriers, to the adoption of wind energy technologies, such as impacts on, or challenges relating to—

(I) distributed wind technologies, including the development of best practices, models, and voluntary streamlined processes for local siting and permitting of distributed wind energy systems to reduce costs;

(II) airspace;

(III) military operations;

(IV) radar;

(V) local communities, with special consideration given to economically distressed areas, previously disturbed lands such as landfills and former mines, and other areas disproportionately impacted by environmental pollution;

(VI) wildlife and wildlife habitats; and

(VII) any other appropriate matter, as determined by the Secretary.

(x) Technologies or strategies to avoid, minimize, and offset the potential impacts of wind energy facilities on bird species, bat species, marine wildlife, and other sensitive species and habitats.

(xi) Advanced physics-based and data analysis computational tools, in coordination with the high-performance computing programs of the Department, to more efficiently design, site, permit, manufacture, install, operate, decommission, and recycle wind energy systems.

(xii) Technologies for distributed wind, including micro, small, and medium turbines and the components of those turbines and their microgrid applications.

(xiii) Transformational technologies for harnessing wind energy.

(xiv) Other research areas that advance the purposes of the program, as determined by the

Secretary.

(C) Prioritization

In carrying out activities under the program, the Secretary shall, to the maximum extent practicable, give special consideration to—

(i) projects that—

(I) are located in a geographically diverse range of eligible entities;

(II) support the development or demonstration of projects—

(aa) in economically distressed areas and areas disproportionately impacted by pollution; and

(bb) that provide the greatest potential to reduce energy costs, as well as promote accessibility and community implementation of demonstrated technologies;

(III) can be replicated in a variety of regions and climates;

(IV) include business commercialization plans that have the potential for—

(aa) domestic manufacturing and production of wind energy technologies; or

(bb) exports of wind energy technologies; and

(V) are carried out in collaboration with Tribal energy development organizations, Indian Tribes, Tribal organizations, Native Hawaiian community-based organizations, minority-serving institutions, or territories or freely associated States; and

(ii) with regards to professional development, activities that expand the number of individuals from underrepresented groups pursuing and attaining skills relevant to wind energy.

(D) Coordination

To the maximum extent practicable, the Secretary shall coordinate activities under the program with other relevant programs and capabilities of the Department and other Federal research programs.

(E) Use of funds

To the extent that funding is not otherwise available through other Federal programs or power purchase agreements, funding awarded for demonstration projects may be used for additional nontechnology costs, as determined to be appropriate by the Secretary, such as engineering or feasibility studies.

(F) Solicitation

Not less than once every two years, the Secretary shall conduct a national solicitation for applications for demonstration projects under this section.

(G) Report

(i) In general

Not later than 180 days after December 27, 2020, the Secretary shall submit to the Committee on Science, Space, and Technology of the House of Representatives and the Committee on Energy and Natural Resources of the Senate a report on the potential for, and technical viability of, airborne wind energy systems to provide a significant source of energy in the United States.

(ii) Contents

The report under paragraph (1) shall include a summary of research, development, demonstration, and commercialization needs, including an estimate of Federal funding requirements, to further examine and validate the technical and economic viability of airborne wind energy concepts over the 10-year period beginning on December 27, 2020.

(3) Wind technician training grant program

The Secretary may award grants, on a competitive basis, to eligible entities to purchase large pieces of wind component equipment, such as nacelles, towers, and blades, for use in training wind technician students in onshore or offshore wind applications.

(4) Wind energy technology recycling research, development, and demonstration program

(A) In general

In addition to the program activities described in paragraph (2), in carrying out the program, the Secretary shall award financial assistance to eligible entities for research, development, and demonstration, and commercialization projects to create innovative and practical approaches to increase the reuse and recycling of wind energy technologies, including—

(i) by increasing the efficiency and cost effectiveness of the recovery of raw materials from wind energy technology components and systems, including enabling technologies such as inverters;

(ii) by minimizing potential environmental impacts from the recovery and disposal processes;

(iii) by advancing technologies and processes for the disassembly and recycling of wind energy devices;

(iv) by developing alternative materials, designs, manufacturing processes, and other aspects of wind energy technologies and the disassembly and resource recovery process that enable efficient, cost effective, and environmentally responsible disassembly of, and resource recovery from, wind energy technologies; and

(v) strategies to increase consumer acceptance of, and participation in, the recycling of wind energy technologies.

(B) Dissemination of results

The Secretary shall make available to the public and the relevant committees of Congress the results of the projects carried out through financial assistance awarded under subparagraph (A), including—

(i) development of best practices or training materials for use in the wind energy technology manufacturing, design, installation, decommissioning, or recycling industries;

(ii) dissemination at industry conferences;

(iii) coordination with information dissemination programs relating to recycling of electronic devices in general;

(iv) demonstration projects; and

(v) educational materials.

(C) Priority

In carrying out the activities authorized under this subsection, the Secretary shall give special consideration to projects that recover critical materials.

(D) Sensitive information

In carrying out the activities authorized under this subsection, the Secretary shall ensure proper security controls are in place to protect proprietary or sensitive information, as appropriate.

(5) Wind energy technology materials physical property database

(A) In general

Not later than September 1, 2022, the Secretary shall establish a comprehensive physical property database of materials for use in wind energy technologies, which shall identify the type, quantity, country of origin, source, significant uses, projected availability, and physical properties of materials used in wind energy technologies.

(B) Coordination

In establishing the database described in subparagraph (A), the Secretary shall coordinate and, to the extent practicable, avoid duplication with—

(i) other Department activities, including those carried out by the Office of Science;
(ii) the Director of the National Institute of Standards and Technology;
(iii) the Administrator of the Environmental Protection Agency;
(iv) the Secretary of the Interior; and
(v) relevant industry stakeholders, as determined by the Secretary.

(6) Wind energy program strategic vision

(A) In general

Not later than September 1, 2022, and every 6 years thereafter, the Secretary shall submit to Congress a report on the strategic vision, progress, goals, and targets of the program, including assessments of wind energy markets and manufacturing.

(B) Preparation

The Secretary shall coordinate the preparation of the report under subparagraph (A) with—
(i) existing peer review processes;
(ii) studies conducted by the National Laboratories; and
(iii) the multiyear program planning required under section 16358 of this title.

(7) Authorization of appropriations

There is authorized to be appropriated to the Secretary to carry out the program $125,000,000 for each of fiscal years 2021 through 2025.

(Pub. L. 116–260, div. Z, title III, §3003, Dec. 27, 2020, 134 Stat. 2497.)

EDITORIAL NOTES

CODIFICATION

Section was enacted as part of the Energy Act of 2020, and not as part of the Energy Policy Act of 2005 which comprises this chapter.

STATUTORY NOTES AND RELATED SUBSIDIARIES

APPLICATION

Pub. L. 116–260, div. Z, title IX, §9006(b), Dec. 27, 2020, 134 Stat. 2600, provided that: "The provisions of section 602 of the Public Works and Economic Development Act of 1965 (42 U.S.C. 3212) shall apply with respect to construction, alteration, or repair work of demonstration projects funded by grants or contracts authorized under sections 3001 [enacting part C of subchapter III of chapter 152 of this title], 3003 [enacting this section], 3004 [enacting section 16238 of this title], 5001 [enacting section 16298d of this title], and 8007 [enacting section 17389 of this title] and the amendments made by such sections."

§16238. Solar energy research and development

(a) Definitions

In this section:

(1) Critical material

The term "critical material" has the meaning given the term in section 1606 of title 30.

(2) Economically distressed area

The term "economically distressed area" means an area described in section 3161(a) of this title.

(3) Eligible entity

The term "eligible entity" means—
(A) an institution of higher education, including a minority-serving institution;
(B) a National Laboratory;

(C) a Federal research agency;
(D) a State research agency;
(E) a research agency associated with a territory or freely associated state;
(F) a Tribal energy development organization;
(G) an Indian Tribe;
(H) a Tribal organization;
(I) a Native Hawaiian community-based organization;
(J) a nonprofit research organization;
(K) an industrial entity;
(L) any other entity, as determined by the Secretary; and
(M) a consortium of 2 or more entities described in subparagraphs (A) through (L).

(4) Indian Tribe

The term "Indian Tribe" has the meaning given the term in section 5304 of title 25.

(5) Institution of higher education

The term "institution of higher education" has the meaning given the term in section 1001 of title 20.

(6) Mine land

The term "mine land" means—

(A) land subject to titles IV and V of the Surface Mining Control and Reclamation Act of 1977 (30 U.S.C. 1231 et seq.; 30 U.S.C. 1251 et seq.); and

(B) land that has been claimed or patented subject to sections 2319 through 2344 of the Revised Statutes (commonly known as the "Mining Law of 1872") (30 U.S.C. 22 et seq.).

(7) Minority-serving institution

The term "minority-serving institution" has the meaning given the term "eligible institution" in section 1067q(a) of title 20.

(8) National Laboratory

The term "National Laboratory" has the meaning given such term in section 15801(3) of this title.

(9) Native Hawaiian community-based organization

The term "Native Hawaiian community-based organization" has the meaning given the term in section 7517 of title 20.

(10) Photovoltaic device

The term "photovoltaic device" means—

(A) a device that converts light directly into electricity through a solid-state, semiconductor process;

(B) the photovoltaic cells of a device described in subparagraph (A); and

(C) the electronic and electrical components of a device described in subparagraph (A).

(11) Program

The term "program" means the program established under subsection (b)(1)(A).

(12) Secretary

The term "Secretary" means the Secretary of Energy.

(13) Solar energy

The term "solar energy" means—

(A) thermal or electric energy derived from radiation from the Sun; or

(B) energy resulting from a chemical reaction caused by radiation recently originated in the Sun.

(14) Territory or freely associated state

The term "territory or freely associated state" has the meaning given the term "insular area" in section 3103 of title 7.

(15) Tribal energy development organization

The term "Tribal energy development organization" has the meaning given the term "tribal energy development organization" in section 3501 of title 25.

(16) Tribal organization

The term "Tribal organization" has the meaning given the term in section 5304 of title 25.

(b) Solar energy technology program

(1) Establishment

(A) In general

The Secretary shall establish a program to conduct research, development, demonstration, and commercialization of solar energy technologies in accordance with this subsection.

(B) Purposes

The purposes of the program are the following:

(i) To improve the energy efficiency, cost effectiveness, reliability, resilience, security, siting, integration, manufacturability, installation, decommissioning, and recyclability of solar energy technologies.

(ii) To optimize the performance and operation of solar energy components, cells, and systems, and enabling technologies, including through the development of new materials, hardware, and software.

(iii) To optimize the design and adaptability of solar energy systems to the broadest practical range of geographic and atmospheric conditions.

(iv) To support the integration of solar energy technologies with the electric grid and complementary energy technologies.

(v) To create and improve the conversion of solar energy to other useful forms of energy or other products.

(vi) To reduce the cost, risk, and other potential negative impacts across the lifespan of solar energy technologies, including manufacturing, siting, permitting, installation, operations, maintenance, decommissioning, and recycling.

(vii) To reduce and mitigate potential life cycle negative impacts of solar energy technologies on human communities, wildlife, and wildlife habitats.

(viii) To address barriers to the commercialization and export of solar energy technologies.

(ix) To support the domestic solar industry, workforce, and supply chain.

(C) Targets

Not later than 180 days after December 27, 2020, the Secretary shall establish targets for the program to address near-term (up to 2 years), mid-term (up to 7 years), and long-term (up to 15 years) challenges to the advancement of all types of solar energy systems.

(2) Activities

(A) Types of activities

In carrying out the program, the Secretary shall carry out research, development, demonstration, and commercialization activities, including—

(i) awarding grants and awards, on a competitive, merit-reviewed basis;

(ii) performing precompetitive research and development;

(iii) establishing or maintaining demonstration facilities and projects, including through stewardship of existing facilities;

(iv) providing technical assistance;

(v) entering into contracts and cooperative agreements;

(vi) providing small business vouchers;

(vii) establishing prize competitions;
(viii) conducting education and outreach activities;
(ix) conducting workforce development activities; and
(x) conducting analyses, studies, and reports.

(B) Subject areas

The Secretary shall carry out research, development, demonstration, and commercialization activities in the following subject areas:

(i) Advanced solar energy technologies of varying scale and power production, including—

(I) new materials, components, designs, and systems, including perovskites, cadmium telluride, and organic materials;

(II) advanced photovoltaic and thin-film devices;

(III) concentrated solar power;

(IV) solar heating and cooling; and

(V) enabling technologies for solar energy systems, including hardware and software.

(ii) Solar energy technology siting, performance, installation, operations, resilience, and security.

(iii) Integration of solar energy technologies with—

(I) the electric grid, including transmission, distribution, microgrids, and distributed energy systems;

(II) other energy technologies, including—

(aa) other generation sources;

(bb) demand response technologies; and

(cc) energy storage technologies; and

(III) other applications, such as in the agriculture, transportation, buildings, industrial, and fuels sectors.

(iv) Advanced solar energy manufacturing technologies and practices, including materials, processes, and design.

(v) Methods to improve the lifetime, maintenance, decommissioning, recycling, reuse, and sustainability of solar energy components and systems, including technologies and strategies that reduce the use of energy, water, critical materials, and other commodities that are determined to be vulnerable to disruption.

(vi) Solar energy forecasting, modeling, and atmospheric measurement systems, including for small-scale, large-scale, and aggregated systems.

(vii) Integrated solar energy systems that incorporate diverse—

(I) generation sources;

(II) loads; and

(III) storage technologies.

(viii) Reducing market barriers, including nonhardware and information-based barriers, to the adoption of solar energy technologies, including impacts on, or challenges relating to—

(I) distributed and community solar technologies, including the development of best practices, models, and voluntary streamlined processes for local siting and permitting of distributed solar energy systems to reduce costs;

(II) local communities, with special consideration given to economically distressed areas, previously disturbed lands such as landfills and former mines, and other areas disproportionately impacted by environmental pollution;

(III) wildlife and wildlife habitats; and

(IV) any other appropriate matter, as determined by the Secretary.

(ix) Transformational technologies for harnessing solar energy.

(x) Other research areas that advance the purposes of the program, as determined by the Secretary.

(C) Prioritization

In carrying out activities under the program, the Secretary shall, to the maximum extent practicable, give priority to projects that—

(i) are located in a geographically diverse range of eligible entities;

(ii) support the development or demonstration of projects—

(I) in economically distressed areas and areas disproportionately impacted by pollution; or

(II) that provide the greatest potential to reduce energy costs, as well as promote accessibility and community implementation of demonstrated technologies;

(iii) can be replicated in a variety of regions and climates;

(iv) include business commercialization plans that have the potential for—

(I) domestic manufacturing and production of solar energy technologies; or

(II) exports of solar energy technologies;

(v) are carried out in collaboration with Tribal energy development organizations, Indian Tribes, Tribal organizations, Native Hawaiian community-based organizations, minority-serving institutions, or territories or freely associated States; and

(vi) with regards to workforce development, activities that expand the number of individuals from underrepresented groups pursuing and attaining skills relevant to solar energy.

(D) Coordination

To the maximum extent practicable, the Secretary shall coordinate activities under the program with other relevant programs and capabilities of the Department and other Federal research programs.

(E) Use of funds

To the extent that funding is not otherwise available through other Federal programs or power purchase agreements, funding awarded for demonstration projects may be used for additional nontechnology costs, as determined to be appropriate by the Secretary, such as engineering or feasibility studies.

(F) Solicitation

Not less than once every two years, the Secretary shall conduct a national solicitation for applications for demonstration projects under this section.

(3) Advanced solar energy manufacturing initiative

(A) Grants

In addition to the program activities described in paragraph (2), in carrying out the program, the Secretary shall award financial assistance to eligible entities for research, development, demonstration, and commercialization projects to advance new solar energy manufacturing technologies and techniques.

(B) Priority

In awarding grants under subparagraph (A), to the extent practicable, the Secretary shall give priority to solar energy manufacturing projects that—

(i) increase efficiency and cost effectiveness in—

(I) the manufacturing process; and

(II) the use of resources, such as energy, water, and critical materials;

(ii) support domestic supply chains for materials and components;

(iii) identify and incorporate nonhazardous alternative materials for components and devices;

(iv) operate in partnership with Tribal energy development organizations, Indian Tribes, Tribal organizations, Native Hawaiian community-based organizations, minority-serving institutions, or territories or freely associated states; or

(v) are located in economically distressed areas.

(C) Evaluation

Not later than 3 years after December 27, 2020, and every 4 years thereafter, the Secretary shall conduct, and make available to the public and the relevant committees of Congress, an independent review of the progress of the grants awarded under subparagraph (A).

(4) Solar energy technology recycling research, development, and demonstration program

(A) In general

In addition to the program activities described in paragraph (2), in carrying out the program, the Secretary shall award financial assistance to eligible entities for research, development, demonstration, and commercialization projects to create innovative and practical approaches to increase the reuse and recycling of solar energy technologies, including—

(i) by increasing the efficiency and cost effectiveness of the recovery of raw materials from solar energy technology components and systems, including enabling technologies such as inverters;

(ii) by minimizing potential environmental impacts from the recovery and disposal processes;

(iii) by advancing technologies and processes for the disassembly and recycling of solar energy devices;

(iv) by developing alternative materials, designs, manufacturing processes, and other aspects of solar energy technologies and the disassembly and resource recovery process that enable efficient, cost effective, and environmentally responsible disassembly of, and resource recovery from, solar energy technologies; and

(v) strategies to increase consumer acceptance of, and participation in, the recycling of photovoltaic devices.

(B) Dissemination of results

The Secretary shall make available to the public and the relevant committees of Congress the results of the projects carried out through financial assistance awarded under subparagraph (A), including—

(i) development of best practices or training materials for use in the photovoltaics manufacturing, design, installation, refurbishing, disposal, or recycling industries;

(ii) dissemination at industry conferences;

(iii) coordination with information dissemination programs relating to recycling of electronic devices in general;

(iv) demonstration projects; and

(v) educational materials.

(C) Priority

In carrying out the activities authorized under this subsection, the Secretary shall give special consideration to projects that recover critical materials.

(D) Sensitive information

In carrying out the activities authorized under this subsection, the Secretary shall ensure proper security controls are in place to protect proprietary or sensitive information, as appropriate.

(5) Solar energy technology materials physical property database

(A) In general

Not later than September 1, 2022, the Secretary shall establish a comprehensive physical property database of materials for use in solar energy technologies, which shall identify the type, quantity, country of origin, source, significant uses, projected availability, and physical properties of materials used in solar energy technologies.

(B) Coordination

In establishing the database described in subparagraph (A), the Secretary shall coordinate with—

(i) other Department activities, including those carried out by the Office of Science;
(ii) the Director of the National Institute of Standards and Technology;
(iii) the Administrator of the Environmental Protection Agency;
(iv) the Secretary of the Interior; and
(v) relevant industry stakeholders, as determined by the Secretary.

(6) Solar energy technology program strategic vision

(A) In general

Not later than September 1, 2022, and every 6 years thereafter, the Secretary shall submit to Congress a report on the strategic vision, progress, goals, and targets of the program, including assessments of solar energy markets and manufacturing.

(B) Inclusion

As a part of the report described in subparagraph (A), the Secretary, in consultation with the Secretary of the Interior and the Administrator of the Environmental Protection Agency for purposes of clause (iv), shall include a study that examines the viable market opportunities available for solar energy technology manufacturing in the United States, including—

(i) a description of—

(I) the ability to competitively manufacture solar technology in the United States, including the manufacture of—

(aa) new and advanced materials, such as cells made with new, high efficiency materials;

(bb) solar module equipment and enabling technologies, including smart inverters, sensors, and tracking equipment; and

(cc) innovative solar module designs and applications, including those that can directly integrate with new and existing buildings and other infrastructure; and

(II) opportunities and barriers within the United States and international solar energy technology market;

(ii) policy recommendations for enhancing solar energy technology manufacturing in the United States;

(iii) a 10-year target and plan to enhance the competitiveness of solar energy technology manufacturing in the United States;

(iv) a description of the technical and economic viability of siting solar energy technologies on current and former mine land, including necessary interconnection and transmission siting and the impact on local job creation; and

(v) any other research areas as determined by the Secretary.

(C) Preparation

The Secretary shall coordinate the preparation of the report under subparagraph (A) with—

(i) existing peer review processes;
(ii) studies conducted by the National Laboratories; and
(iii) the multiyear program planning required under section 16358 of this title.

(7) Authorization of appropriations

There is authorized to be appropriated to the Secretary to carry out the program $300,000,000 for each of fiscal years 2021 through 2025.

(Pub. L. 116–260, div. Z, title III, §3004, Dec. 27, 2020, 134 Stat. 2504; Pub. L. 117–58, div. D, title III, §40341, Nov. 15, 2021, 135 Stat. 1030.)

EDITORIAL NOTES

REFERENCES IN TEXT

The Surface Mining Control and Reclamation Act of 1977, referred to in subsec. (a)(6)(A), is Pub. L. 95–87, Aug. 3, 1977, 91 Stat. 445. Titles IV and V of the Act are classified generally to subchapters IV (§1231 et seq.) and V (§1251 et seq.), respectively, of chapter 25 of Title 30, Mineral Lands and Mining. For complete classification of this Act to the Code, see Short Title note set out under section 1201 of Title 30 and Tables.

The Mining Law of 1872, referred to in subsec. (a)(6)(B), is act May 10, 1872, ch. 152, 17 Stat. 91, which was incorporated into the Revised Statutes of 1878 as R.S. §§2319 to 2328, 2331, 2333 to 2337, and 2344, which are classified to sections 22 to 24, 26 to 28, 29, 30, 33 to 35, 37, 39 to 42, and 47 of Title 30, Mineral Lands and Mining. For complete classification of such Revised Statutes sections to the Code, see Tables.

CODIFICATION

Section was enacted as part of the Energy Act of 2020, and not as part of the Energy Policy Act of 2005 which comprises this chapter.

AMENDMENTS

2021—Subsec. (a)(6) to (16). Pub. L. 117–58, §40341(1), added par. (6) and redesignated former pars. (6) to (15) as (7) to (16), respectively.

Subsec. (b)(6)(B). Pub. L. 117–58, §40341(2)(A), inserted ", in consultation with the Secretary of the Interior and the Administrator of the Environmental Protection Agency for purposes of clause (iv)," after "the Secretary" in introductory provisions.

Subsec. (b)(6)(B)(iv), (v). Pub. L. 117–58, §40341(2)(B)–(D), added cl. (iv) and redesignated former cl. (iv) as (v).

STATUTORY NOTES AND RELATED SUBSIDIARIES

APPLICATION

Provisions of section 3212 of this title applicable to construction, alteration, or repair work of demonstration projects funded by grants or contracts authorized under this section, see section 9006(b) of div. Z of Pub. L. 116–260, set out as a note under section 16237 of this title.

PART D—AGRICULTURAL BIOMASS RESEARCH AND DEVELOPMENT PROGRAMS

§16251. Production incentives for cellulosic biofuels

(a) Purpose

The purpose of this section is to—

(1) accelerate deployment and commercialization of biofuels;

(2) deliver the first 1,000,000,000 gallons in annual cellulosic biofuels production by 2015;

(3) ensure biofuels produced after 2015 are cost competitive with gasoline and diesel; and

(4) ensure that small feedstock producers and rural small businesses are full participants in the development of the cellulosic biofuels industry.

(b) Definitions

In this section:

(1) Cellulosic biofuels

The term "cellulosic biofuels" means any fuel that is produced from cellulosic feedstocks.

(2) Eligible entity

The term "eligible entity" means a producer of fuel from cellulosic biofuels the production facility of which—

(A) is located in the United States;

(B) meets all applicable Federal and State permitting requirements; and

(C) meets any financial criteria established by the Secretary.

(c) Program

(1) Establishment

The Secretary, in consultation with the Secretary of Agriculture, the Secretary of Defense, and the Administrator of the Environmental Protection Agency, shall establish an incentive program for the production of cellulosic biofuels.

(2) Basis of incentives

Under the program, the Secretary shall award production incentives on a per gallon basis of cellulosic biofuels from eligible entities, through—

(A) set payments per gallon of cellulosic biofuels produced in an amount determined by the Secretary, until initiation of the first reverse auction; and

(B) reverse auction thereafter.

(3) First reverse auction

The first reverse auction shall be held on the earlier of—

(A) not later than 1 year after the first year of annual production in the United States of 100,000,000 gallons of cellulosic biofuels, as determined by the Secretary; or

(B) not later than 3 years after August 8, 2005.

(4) Reverse auction procedure

(A) In general

On initiation of the first reverse auction, and each year thereafter until the earlier of the first year of annual production in the United States of 1,000,000,000 gallons of cellulosic biofuels, as determined by the Secretary, or 10 years after August 8, 2005, the Secretary shall conduct a reverse auction at which—

(i) the Secretary shall solicit bids from eligible entities;

(ii) eligible entities shall submit—

(I) a desired level of production incentive on a per gallon basis; and

(II) an estimated annual production amount in gallons; and

(iii) the Secretary shall issue awards for the production amount submitted, beginning with the eligible entity submitting the bid for the lowest level of production incentive on a per gallon basis and meeting such other criteria as are established by the Secretary, until the amount of funds available for the reverse auction is committed.

(B) Amount of incentive received

An eligible entity selected by the Secretary through a reverse auction shall receive the amount of performance incentive requested in the auction for each gallon produced and sold by the entity during the first 6 years of operation.

(C) Commencement of production of cellulosic biofuels

As a condition of the receipt of an award under this section, an eligible entity shall enter into an agreement with the Secretary under which the eligible entity agrees to begin production of cellulosic biofuels not later than 3 years after the date of the reverse auction in which the

eligible entity participates.

(d) Limitations

Awards under this section shall be limited to—

(1) a per gallon amount determined by the Secretary during the first 4 years of the program;

(2) a declining per gallon cap over the remaining lifetime of the program, to be established by the Secretary so that cellulosic biofuels produced after the first year of annual cellulosic biofuels production in the United States in excess of 1,000,000,000 gallons are cost competitive with gasoline and diesel;

(3) not more than 25 percent of the funds committed within each reverse auction to any 1 project;

(4) not more than $100,000,000 in any 1 year; and

(5) not more than $1,000,000,000 over the lifetime of the program.

(e) Priority

In selecting a project under the program, the Secretary shall give priority to projects that—

(1) demonstrate outstanding potential for local and regional economic development;

(2) include agricultural producers or cooperatives of agricultural producers as equity partners in the ventures; and

(3) have a strategic agreement in place to fairly reward feedstock suppliers.

(f) Authorizations of appropriations

There is authorized to be appropriated to carry out this section $250,000,000.

(Pub. L. 109–58, title IX, §942, Aug. 8, 2005, 119 Stat. 878.)

§16252. Education

(1) In general

The Architect of the Capitol shall establish in the Capitol Complex a program of public education regarding use by the Architect of the Capitol of biobased products.

(2) Purposes

The purposes of the program shall be—

(A) to establish the Capitol Complex as a showcase for the existence and benefits of biobased products; and

(B) to provide access to further information on biobased products to occupants and visitors.

(Pub. L. 109–58, title IX, §943(c), Aug. 8, 2005, 119 Stat. 881.)

§16253. Small business bioproduct marketing and certification grants

(a) In general

Using amounts made available under subsection (g), the Secretary of Agriculture (referred to in this section as the "Secretary") shall make available on a competitive basis grants to eligible entities described in subsection (b) for the biobased product marketing and certification purposes described in subsection (c).

(b) Eligible entities

(1) In general

An entity eligible for a grant under this section is any manufacturer of biobased products that—

(A) proposes to use the grant for the biobased product marketing and certification purposes described in subsection (c); and

(B) has not previously received a grant under this section.

(2) Preference

In making grants under this section, the Secretary shall provide a preference to an eligible entity that has fewer than 50 employees.

(c) Biobased product marketing and certification grant purposes

A grant made under this section shall be used—

(1) to provide working capital for marketing of biobased products; and

(2) to provide for the certification of biobased products to—

(A) qualify for the label described in section 8102(b) of title 7; or

(B) meet other biobased standards determined appropriate by the Secretary.

(d) Matching funds

(1) In general

Grant recipients shall provide matching non-Federal funds equal to the amount of the grant received.

(2) Expenditure

Matching funds shall be expended in advance of grant funding, so that for every dollar of grant that is advanced, an equal amount of matching funds shall have been funded prior to submitting the request for reimbursement.

(e) Amount

A grant made under this section shall not exceed $100,000.

(f) Administration

The Secretary shall establish such administrative requirements for grants under this section, including requirements for applications for the grants, as the Secretary considers appropriate.

(g) Authorizations of appropriations

There are authorized to be appropriated to make grants under this section—

(1) $1,000,000 for fiscal year 2006; and

(2) such sums as are necessary for each of fiscal years 2007 through 2015.

(Pub. L. 109–58, title IX, §944, Aug. 8, 2005, 119 Stat. 881; Pub. L. 113–79, title IX, §9002(b), Feb. 7, 2014, 128 Stat. 928.)

EDITORIAL NOTES

AMENDMENTS

2014—Subsec. (c)(2)(A). Pub. L. 113–79 substituted "section 8102(b)" for "section 8102(h)(1)".

§16254. Regional bioeconomy development grants

(a) In general

Using amounts made available under subsection (g), the Secretary of Agriculture (referred to in this section as the "Secretary") shall make available on a competitive basis grants to eligible entities described in subsection (b) for the purposes described in subsection (c).

(b) Eligible entities

An entity eligible for a grant under this section is any regional bioeconomy development association, agricultural or energy trade association, or Land Grant institution that—

(1) proposes to use the grant for the purposes described in subsection (c); and

(2) has not previously received a grant under this section.

(c) Regional bioeconomy development association grant purposes

A grant made under this section shall be used to support and promote the growth and development

of the bioeconomy within the region served by the eligible entity, through coordination, education, outreach, and other endeavors by the eligible entity.

(d) Matching funds

(1) In general

Grant recipients shall provide matching non-Federal funds equal to the amount of the grant received.

(2) Expenditure

Matching funds shall be expended in advance of grant funding, so that for every dollar of grant that is advanced, an equal amount of matching funds shall have been funded prior to submitting the request for reimbursement.

(e) Administration

The Secretary shall establish such administrative requirements for grants under this section, including requirements for applications for the grants, as the Secretary considers appropriate.

(f) Amount

A grant made under this section shall not exceed $500,000.

(g) Authorizations of appropriations

There are authorized to be appropriated to make grants under this section—

(1) $1,000,000 for fiscal year 2006; and

(2) such sums as are necessary for each of fiscal years 2007 through 2015.

(Pub. L. 109–58, title IX, §945, Aug. 8, 2005, 119 Stat. 882.)

§16255. Preprocessing and harvesting demonstration grants

(a) In general

The Secretary of Agriculture (referred to in this section as the "Secretary") shall make grants available on a competitive basis to enterprises owned by agricultural producers, for the purposes of demonstrating cost-effective, cellulosic biomass innovations in—

(1) preprocessing of feedstocks, including cleaning, separating and sorting, mixing or blending, and chemical or biochemical treatments, to add value and lower the cost of feedstock processing at a biorefinery; or

(2) 1-pass or other efficient, multiple crop harvesting techniques.

(b) Limitations on grants

(1) Number of grants

Not more than 5 demonstration projects per fiscal year shall be funded under this section.

(2) Non-Federal cost share

The non-Federal cost share of a project under this section shall be not less than 20 percent, as determined by the Secretary.

(c) Condition of grant

To be eligible for a grant for a project under this section, a recipient of a grant or a participating entity shall agree to use the material harvested under the project—

(1) to produce ethanol; or

(2) for another energy purpose, such as the generation of heat or electricity.

(d) Authorization for appropriations

There is authorized to be appropriated to carry out this section $5,000,000 for each of fiscal years 2006 through 2010.

(Pub. L. 109–58, title IX, §946, Aug. 8, 2005, 119 Stat. 883.)

§16256. Education and outreach

(a) In general

The Secretary of Agriculture shall establish, within the Department of Agriculture or through an independent contracting entity, a program of education and outreach on biobased fuels and biobased products consisting of—

(1) training and technical assistance programs for feedstock producers to promote producer ownership, investment, and participation in the operation of processing facilities; and

(2) public education and outreach to familiarize consumers with the biobased fuels and biobased products.

(b) Authorization of appropriations

There is authorized to be appropriated to carry out this section $1,000,000 for each of fiscal years 2006 through 2010.

(Pub. L. 109–58, title IX, §947, Aug. 8, 2005, 119 Stat. 883.)

PART E—NUCLEAR ENERGY

§16271. Nuclear energy

(a) Mission

(1) In general

The Secretary shall carry out programs of civilian nuclear research, development, demonstration, and commercial application, including activities under this part.

(2) Considerations

The programs carried out under paragraph (1) shall take into consideration the following objectives:

(A) Providing research infrastructure to promote scientific progress and enable users from academia, the National Laboratories, and the private sector to make scientific discoveries relevant for nuclear, chemical, and materials science engineering.

(B) Maintaining nuclear energy research and development programs at the National Laboratories and institutions of higher education, including infrastructure at the National Laboratories and institutions of higher education.

(C) Providing the technical means to reduce the likelihood of nuclear proliferation.

(D) Increasing confidence margins for public safety of nuclear energy systems.

(E) Reducing the environmental impact of activities relating to nuclear energy.

(F) Supporting technology transfer from the National Laboratories to the private sector.

(G) Enabling the private sector to partner with the National Laboratories to demonstrate novel reactor concepts for the purpose of resolving technical uncertainty associated with the objectives described in subparagraphs (A) through (F).

(b) Definitions

In this part:

(1) Advanced nuclear reactor

The term "advanced nuclear reactor" means—

(A) a nuclear fission reactor, including a prototype plant (as defined in sections 50.2 and 52.1 of title 10, Code of Federal Regulations (or successor regulations)), with significant

improvements compared to reactors operating on December 27, 2020, including improvements such as—

(i) additional inherent safety features;

(ii) lower waste yields;

(iii) improved fuel and material performance;

(iv) increased tolerance to loss of fuel cooling;

(v) enhanced reliability or improved resilience;

(vi) increased proliferation resistance;

(vii) increased thermal efficiency;

(viii) reduced consumption of cooling water and other environmental impacts;

(ix) the ability to integrate into electric applications and nonelectric applications;

(x) modular sizes to allow for deployment that corresponds with the demand for electricity or process heat; and

(xi) operational flexibility to respond to changes in demand for electricity or process heat and to complement integration with intermittent renewable energy or energy storage;

(B) a fusion reactor; and

(C) a radioisotope power system that utilizes heat from radioactive decay to generate energy.

(2) Commission

The term "Commission" means the Nuclear Regulatory Commission.

(3) Fast neutron

The term "fast neutron" means a neutron with kinetic energy above 100 kiloelectron volts.

(4) National Laboratory

(A) In general

Except as provided in subparagraph (B), the term "National Laboratory" has the meaning given the term in section 15801 of this title.

(B) Limitation

With respect to the Lawrence Livermore National Laboratory, the Los Alamos National Laboratory, and the Sandia National Laboratories, the term "National Laboratory" means only the civilian activities of the laboratory.

(5) Neutron flux

The term "neutron flux" means the intensity of neutron radiation measured as a rate of flow of neutrons applied over an area.

(6) Neutron source

The term "neutron source" means a research machine that provides neutron irradiation services for—

(A) research on materials sciences and nuclear physics; and

(B) testing of advanced materials, nuclear fuels, and other related components for reactor systems.

(Pub. L. 109–58, title IX, §951, Aug. 8, 2005, 119 Stat. 884; Pub. L. 115–248, §2(a), Sept. 28, 2018, 132 Stat. 3154; Pub. L. 116–260, div. Z, title II, §2002, Dec. 27, 2020, 134 Stat. 2459; Pub. L. 117–58, div. D, title X, §41002(b)(1), Nov. 15, 2021, 135 Stat. 1127.)

EDITORIAL NOTES

AMENDMENTS

2021—Subsec. (b)(1)(C). Pub. L. 117–58 added subpar. (C).

2020—Subsec. (b)(1). Pub. L. 116–260 amended par. (1) generally. Prior to amendment, par. (1) defined the term "advanced nuclear reactor".

2018—Pub. L. 115–248 amended section generally. Prior to amendment, section related to civilian nuclear energy research programs and authorizations of appropriations to carry out such programs.

§16272. Reactor concepts research, development, demonstration, and commercial application

(a) Sustainability program for light water reactors

(1) In general

The Secretary shall carry out a program of research, development, demonstration, and commercial application, including through the use of modeling and simulation, to support existing operating nuclear power plants which shall address technologies to modernize and improve, with respect to such plants—

(A) reliability;
(B) capacity;
(C) component aging;
(D) safety;
(E) physical security and security costs;
(F) plant lifetime;
(G) operations and maintenance costs, including by utilizing risk-informed systems analysis;
(H) the ability for plants to operate flexibly;
(I) nuclear integrated energy system applications described in subsection (c);
(J) efficiency;
(K) environmental impacts; and
(L) resilience.

(2) Authorization of appropriations

There are authorized to be appropriated to the Secretary to carry out the program under this subsection $55,000,000 for each of fiscal years 2021 through 2025.

(3) Report

The Secretary shall submit annually a public report to the Committee on Science, Space, and Technology of the House of Representatives and the Committee on Energy and Natural Resources of the Senate documenting funds spent under the program that describes program activities, objectives, and outcomes, including those that could benefit the entirety of the existing reactor fleet, such as with respect to aging management and related sustainability concerns, and identifying funds awarded to private entities.

(b) Advanced reactor technologies

(1) In general

The Secretary shall carry out a program of research, development, demonstration, and commercial application to support advanced reactor technologies.

(2) Requirements

In carrying out the program under this subsection, the Secretary shall—

(A) prioritize designs for advanced nuclear reactors that are proliferation resistant and passively safe, including designs that, compared to reactors operating on December 27, 2020—

(i) are economically competitive with other electric power generation plants;

(ii) have higher efficiency, lower cost, less environmental impacts, increased resilience, and improved safety;

(iii) use fuels that are proliferation resistant and have reduced production of high-level waste per unit of output; and

(iv) use advanced instrumentation and monitoring systems;

(B) consult with the Nuclear Regulatory Commission on appropriate metrics to consider for the criteria specified in subparagraph (A);

(C) support research and development to resolve materials challenges relating to extreme environments, including environments that contain high levels of—

(i) radiation fluence;

(ii) temperature;

(iii) pressure; and

(iv) corrosion;

(D) support research and development to aid in the qualification of advanced fuels, including fabrication techniques;

(E) support activities that address near-term challenges in modeling and simulation to enable accelerated design of and licensing of advanced nuclear reactors, including the identification of tools and methodologies for validating such modeling and simulation efforts;

(F) develop technologies, including technologies to manage, reduce, or reuse nuclear waste;

(G) ensure that nuclear research infrastructure is maintained or constructed, including—

(i) currently operational research reactors at the National Laboratories and institutions of higher education;

(ii) hot cell research facilities;

(iii) a versatile fast neutron source; and

(iv) advanced coolant testing facilities, including coolants such as lead, sodium, gas, and molten salt;

(H) improve scientific understanding of nonlight water coolant physics and chemistry;

(I) develop advanced sensors and control systems, including the identification of tools and methodologies for validating such sensors and systems;

(J) investigate advanced manufacturing and advanced construction techniques and materials to reduce the cost of advanced nuclear reactors, including the use of digital twins and of strategies to implement project and construction management best practices, and study the effects of radiation and corrosion on materials created with these techniques;

(K) consult with the Administrator of the National Nuclear Security Administration to integrate reactor safeguards and security into design;

(L) support efforts to reduce any technical barriers that would prevent commercial application of advanced nuclear energy systems; and

(M) develop various safety analyses and emergency preparedness and response methodologies.

(3) Coordination

The Secretary shall coordinate with individuals engaged in the private sector and individuals who are experts in nuclear nonproliferation, environmental and public health and safety, and economics to advance the development of various designs of advanced nuclear reactors. In carrying out this paragraph, the Secretary shall convene an advisory committee of such individuals and such committee shall submit annually a report to the relevant committees of Congress with respect to the progress of the program.

(4) Authorization of appropriations

There are authorized to be appropriated to the Secretary to carry out the program under this subsection $55,000,000 for each of fiscal years 2021 through 2025.

(c) Nuclear integrated energy systems research, development, demonstration, and commercial application program

(1) In general

The Secretary shall carry out a program of research, development, demonstration, and commercial application to develop nuclear integrated energy systems, composed of 2 or more

co-located or jointly operated subsystems of energy generation, energy storage, or other technologies and in which not less than 1 such subsystem is a nuclear energy system, to—

(A) reduce greenhouse gas emissions in both the power and nonpower sectors; and

(B) maximize energy production and efficiency.

(2) Coordination

In carrying out the program under paragraph (1), the Secretary shall coordinate with—

(A) relevant program offices within the Department of Energy;

(B) National Laboratories;

(C) institutions of higher education; and

(D) the private sector.

(3) Focus areas

The program under paragraph (1) may include research, development, demonstration, or commercial application of nuclear integrated energy systems with respect to—

(A) desalination technologies and processes;

(B) hydrogen or other liquid and gaseous fuel or chemical production;

(C) heat for industrial processes;

(D) district heating;

(E) heat or electricity generation and storage;

(F) carbon capture, use, utilization, and storage;

(G) microgrid or island applications;

(H) integrated systems modeling, analysis, and optimization, inclusive of different configurations of integrated energy systems; and

(I) integrated design, planning, building, and operation of systems with existing infrastructure, including interconnection requirements with the electric grid, as appropriate.

(4) Authorization of appropriations

There are authorized to be appropriated to the Secretary to carry out the program under this subsection—

(A) $20,000,000 for fiscal year 2021;

(B) $30,000,000 for fiscal year 2022;

(C) $30,000,000 for fiscal year 2023;

(D) $40,000,000 for fiscal year 2024; and

(E) $40,000,000 for fiscal year 2025.

(Pub. L. 109–58, title IX, §952, Aug. 8, 2005, 119 Stat. 885; Pub. L. 115–248, §2(b)(1), Sept. 28, 2018, 132 Stat. 3155; Pub. L. 116–260, div. Z, title II, §2003(a), Dec. 27, 2020, 134 Stat. 2459.)

EDITORIAL NOTES

AMENDMENTS

2020—Pub. L. 116–260 amended section generally. Prior to amendment, section related to nuclear energy research programs.

2018—Subsecs. (c) to (e). Pub. L. 115–248 redesignated subsecs. (d) and (e) as (c) and (d), respectively, and struck out former subsec. (c) which related to establishment and administration of a Nuclear Power 2010 Program.

§16273. Fuel cycle research, development, demonstration, and commercial application

(a) Used nuclear fuel research, development, demonstration, and commercial application

(1) In general

The Secretary shall conduct an advanced fuel cycle research, development, demonstration, and

commercial application program to improve fuel cycle performance, minimize environmental and public health and safety impacts, and support a variety of options for used nuclear fuel storage, use, and disposal, including advanced nuclear reactor and non-reactor concepts (such as radioisotope power systems), which may include—

(A) dry cask storage;

(B) consolidated interim storage;

(C) deep geological storage and disposal, including mined repository, and other technologies;

(D) used nuclear fuel transportation;

(E) integrated waste management systems;

(F) vitrification;

(G) fuel recycling and transmutation technologies, including advanced reprocessing technologies such as electrochemical and molten salt technologies, and advanced redox extraction technologies;

(H) advanced materials to be used in subparagraphs (A) through (G); and

(I) other areas as determined by the Secretary.

(2) Requirements

In carrying out the program under this subsection, the Secretary shall—

(A) ensure all activities and designs incorporate state of the art safeguards technologies and techniques to reduce risk of proliferation;

(B) consult with the Administrator of the National Nuclear Security Administration to integrate safeguards and security by design;

(C) consider the potential benefits and other impacts of those activities for civilian nuclear applications, environmental health and safety, and national security, including consideration of public consent; and

(D) consider the economic viability of all activities and designs.

(3) Authorization of appropriations

There are authorized to be appropriated to the Secretary to carry out the program under this subsection $60,000,000 for each of fiscal years 2021 through 2025.

(b) Advanced fuels

(1) In general

The Secretary shall conduct an advanced fuels research, development, demonstration, and commercial application program on next-generation light water reactor and advanced reactor fuels that demonstrate the potential for improved—

(A) performance;

(B) accident tolerance;

(C) proliferation resistance;

(D) use of resources;

(E) environmental impact; and

(F) economics.

(2) Requirements

In carrying out the program under this subsection, the Secretary shall focus on the development of advanced technology fuels, including fabrication techniques, that offer improved accident-tolerance and economic performance with the goal of initial commercial application by December 31, 2025.

(3) Report

Not later than 180 days December 27, 2020, the Secretary shall submit to the Committee on Science, Space, and Technology of the House of Representatives and the Committee on Energy and Natural Resources of the Senate a report that describes how the technologies and concepts studied under this program would impact reactor economics, the fuel cycle, operations, safety, proliferation, and the environment.

(4) Authorization of appropriations

There are authorized to be appropriated to the Secretary to carry out the program under this subsection $125,000,000 for each of fiscal years 2021 through 2025.

(Pub. L. 109–58, title IX, §953, Aug. 8, 2005, 119 Stat. 886; Pub. L. 115–248, §2(c), Sept. 28, 2018, 132 Stat. 3155; Pub. L. 116–260, div. Z, title II, §2003(b), Dec. 27, 2020, 134 Stat. 2462.)

EDITORIAL NOTES

AMENDMENTS

2020—Pub. L. 116–260 amended section generally. Prior to amendment, section related to advanced fuel cycle initiative.

2018—Subsec. (a). Pub. L. 115–248 struck out ", acting through the Director of the Office of Nuclear Energy, Science and Technology," after "The Secretary".

§16274. Nuclear science and engineering support

(a) University nuclear science and engineering support

(1) In general

The Secretary shall conduct a program to invest in human resources and infrastructure in the nuclear sciences and related fields, including health physics, nuclear engineering, and radiochemistry, consistent with missions of the Department related to civilian nuclear research, development, demonstration, and commercial application.

(2) Requirements

In carrying out the program under this subsection, the Secretary shall—

(A) conduct a graduate and undergraduate fellowship program to attract new and talented students, which may include fellowships for students to spend time at National Laboratories in the areas of nuclear science, engineering, and health physics with a member of the National Laboratory staff acting as a mentor;

(B) conduct a junior faculty research initiation grant program to assist universities in recruiting and retaining new faculty in the nuclear sciences and engineering by awarding grants to junior faculty for research on issues related to nuclear energy engineering and science;

(C) support fundamental nuclear sciences, engineering, and health physics research through a nuclear engineering education and research program;

(D) encourage collaborative nuclear research among industry, National Laboratories, and universities; and

(E) support communication and outreach related to nuclear science, engineering, and health physics.

(3) University-National Laboratory interactions

The Secretary shall conduct—

(A) a fellowship program for professors at universities to spend sabbaticals at National Laboratories in the areas of nuclear science and technology; and

(B) a visiting scientist program in which National Laboratory staff can spend time in academic nuclear science and engineering departments.

(4) Strengthening university research and training reactors and associated infrastructure

In carrying out the program under this subsection, the Secretary may support—

(A) converting research reactors from high-enrichment fuels to low-enrichment fuels and upgrading operational instrumentation;

(B) consortia of universities to broaden access to university research reactors;

(C) student training programs, in collaboration with the United States nuclear industry, in relicensing and upgrading reactors, including through the provision of technical assistance; and

(D) reactor improvements that emphasize research, training, and education, including through the Innovations in Nuclear Infrastructure and Education Program or any similar program.

(5) Radiological facilities management

(A) In general

The Secretary shall carry out a program under which the Secretary shall provide project management, technical support, quality engineering and inspection, and nuclear material handling support to research reactors located at universities.

(B) Authorization of appropriations

Of any amounts appropriated to carry out the program under this subsection, there are authorized to be appropriated to the Secretary to carry out the program under this paragraph $20,000,000 for each of fiscal years 2021 through 2025.

(6) Nuclear energy university program

In carrying out the programs under this section, the Department shall, to the maximum extent practicable, allocate 20 percent of funds appropriated to nuclear energy research and development programs annually, excluding funds appropriated for the Advanced Reactor Demonstration Program of the Department, to fund university-led research and university infrastructure projects through an open, competitive solicitation process.

(7) Operations and maintenance

Funding for a project provided under this subsection may be used for a portion of the operating and maintenance costs of a research reactor at a university used in the project.

(8) Definition

In this subsection, the term "junior faculty" means a faculty member who was awarded a doctorate less than 10 years before receipt of an award from the grant program described in paragraph (2)(B).

(b) Nuclear energy graduate traineeship subprogram

(1) Establishment

In carrying out the program under subsection (a), the Secretary shall establish a nuclear energy graduate traineeship subprogram under which the Secretary shall competitively award graduate traineeships in coordination with universities to provide focused, advanced training to meet critical mission needs of the Department, including in industries that are represented by skilled labor unions.

(2) Requirements

In carrying out the subprogram under this subsection, the Secretary shall—

(A) encourage appropriate partnerships among National Laboratories, affected universities, and industry; and

(B) on an annual basis, evaluate the needs of the nuclear energy community to implement graduate traineeships for focused topical areas addressing mission-specific workforce needs.

(3) Authorization of appropriations

There are authorized to be appropriated to the Secretary to carry out the subprogram under this subsection $5,000,000 for each of fiscal years 2021 through 2025.

(Pub. L. 109–58, title IX, §954, Aug. 8, 2005, 119 Stat. 886; Pub. L. 115–248, §2(d), Sept. 28, 2018, 132 Stat. 3155; Pub. L. 116–260, div. Z, title II, §2003(c), Dec. 27, 2020, 134 Stat. 2463; Pub. L. 117–58, div. D, title X, §41002(b)(2), Nov. 15, 2021, 135 Stat. 1128.)

EDITORIAL NOTES

AMENDMENTS

2021—Subsec. (a)(6). Pub. L. 117–58 inserted ", excluding funds appropriated for the Advanced Reactor Demonstration Program of the Department," after "annually".

2020—Pub. L. 116–260, §2003(c)(1), substituted "Nuclear" for "University nuclear" in section catchline.

Subsec. (a). Pub. L. 116–260, §2003(c)(10), designated existing provisions as subsec. (a) and inserted heading.

Pub. L. 116–260, §2003(c)(9), added pars. (5) and (6).

Subsec. (b). Pub. L. 116–260, §2003(c)(11), added subsec. (b).

Pub. L. 116–260, §2003(c)(7), redesignated subsec. (b) as par. (2).

Pub. L. 116–260, §2003(c)(2), substituted "this subsection" for "this section" in introductory provisions, redesignated pars. (1) to (5) as subpars. (A) to (E), respectively, and realigned margins.

Subsec. (c). Pub. L. 116–260, §2003(c)(7), redesignated subsec. (c) as par. (3).

Pub. L. 116–260, §2003(c)(3), redesignated pars. (1) and (2) as subpars. (A) and (B), respectively, and realigned margins.

Subsec. (d). Pub. L. 116–260, §2003(c)(7), redesignated subsec. (d) as par. (4).

Pub. L. 116–260, §2003(c)(4), substituted "this subsection" for "this section" in introductory provisions, redesignated pars. (1) to (4) as subpars. (A) to (D), respectively, and realigned margins.

Subsec. (e). Pub. L. 116–260, §2003(c)(8), redesignated subsec. (e) as par. (7). Margins realigned to reflect the probable intent of Congress.

Pub. L. 116–260, §2003(c)(5), substituted "this subsection" for "this section".

Subsec. (f). Pub. L. 116–260, §2003(c)(8), redesignated subsec. (f) as par. (8). Margins realigned to reflect the probable intent of Congress.

Pub. L. 116–260, §2003(c)(6), substituted "this subsection" for "this section" and "paragraph (2)(B)" for "subsection (b)(2)".

2018—Subsec. (d)(4). Pub. L. 115–248 substituted "that emphasize" for "as part of a taking into consideration effort that emphasizes".

§16274a. University Nuclear Leadership Program

(a) In general

The Secretary of Energy, the Administrator of the National Nuclear Security Administration, and the Chairman of the Nuclear Regulatory Commission shall jointly establish a program, to be known as the "University Nuclear Leadership Program".

(b) Use of funds

(1) In general

Except as provided in paragraph (2), amounts made available to carry out the Program shall be used to provide financial assistance for scholarships, fellowships, and research and development projects at institutions of higher education in areas relevant to the programmatic mission of the applicable Federal agency, with an emphasis on providing the financial assistance with respect to research, development, demonstration, and commercial application activities relevant to civilian advanced nuclear reactors including, but not limited to—

(A) relevant fuel cycle technologies;

(B) project management; and

(C) advanced construction, manufacturing, and fabrication methods.

(2) Exception

Notwithstanding paragraph (1), amounts made available to carry out the Program may be used to provide financial assistance for a scholarship, fellowship, or multiyear research and development project that does not align directly with a programmatic mission of the Department of Energy, if the activity for which assistance is provided would facilitate the maintenance of the discipline of nuclear science or engineering.

(c) Definitions

In this section:

(1) Advanced nuclear reactor; institution of higher education

The terms "advanced nuclear reactor" and "institution of higher education" have the meanings given those terms in section 16271 of this title.

(2) Program

The term "Program" means the University Nuclear Leadership Program established under this section.

(d) Authorization of appropriations

There are authorized to be appropriated to carry out the Program for each of fiscal years 2021 through 2025—

(1) $30,000,000 to the Secretary of Energy, of which $15,000,000 shall be for use by the Administrator of the National Nuclear Security Administration; and

(2) $15,000,000 to the Nuclear Regulatory Commission.

(Pub. L. 111–8, div. C, title III, §313, Mar. 11, 2009, 123 Stat. 627; Pub. L. 116–260, div. Z, title II, §2003(e), Dec. 27, 2020, 134 Stat. 2465.)

EDITORIAL NOTES

CODIFICATION

Section was enacted as part of the Energy and Water Development and Related Agencies Appropriations Act, 2009, and also as part of the Omnibus Appropriations Act, 2009, and not as part of the Energy Policy Act of 2005 which comprises this chapter.

AMENDMENTS

2020—Pub. L. 116–260 amended section generally. Prior to amendment, section related to Integrated University Program.

§16275. Department of Energy civilian nuclear infrastructure and facilities

(a) In general

The Secretary shall operate and maintain infrastructure and facilities to support the nuclear energy research, development, demonstration, and commercial application programs, including radiological facilities management, isotope production, and facilities management.

(b) Duties

In carrying out this section, the Secretary shall—

(1) develop an inventory of nuclear science and engineering facilities, equipment, expertise, and other assets at all of the National Laboratories;

(2) develop a prioritized list of nuclear science and engineering plant and equipment improvements needed at each of the National Laboratories;

(3) consider the available facilities and expertise at all National Laboratories and emphasize investments which complement rather than duplicate capabilities; and

(4) develop a timeline and a proposed budget for the completion of deferred maintenance on plant and equipment, with the goal of ensuring that Department programs under this part will be generally recognized to be among the best in the world.

(c) Versatile neutron source

(1) Authorization

(A) In general

Not later than December 31, 2017, the Secretary shall provide for a versatile reactor-based fast neutron source, which shall operate as a national user facility.

(B) Consultations required

In carrying out subparagraph (A), the Secretary shall consult with the private sector,

institutions of higher education, the National Laboratories, and relevant Federal agencies to ensure that the user facility described in subparagraph (A) will meet the research needs of the largest practicable majority of prospective users.

(2) Establishment

As soon as practicable after determining the mission need under paragraph (1)(A), the Secretary shall submit to the appropriate committees of Congress a detailed plan for the establishment of the user facility.

(3) Facility requirements

(A) Capabilities

The Secretary shall ensure that the user facility will provide, at a minimum, the following capabilities:

(i) Fast neutron spectrum irradiation capability.

(ii) Capacity for upgrades to accommodate new or expanded research needs.

(B) Considerations

In carrying out the plan submitted under paragraph (2), the Secretary shall consider the following:

(i) Capabilities that support experimental high-temperature testing.

(ii) Providing a source of fast neutrons at a neutron flux, higher than that at which current research facilities operate, sufficient to enable research for an optimal base of prospective users.

(iii) Maximizing irradiation flexibility and irradiation volume to accommodate as many concurrent users as possible.

(iv) Capabilities for irradiation with neutrons of a lower energy spectrum.

(v) Multiple loops for fuels and materials testing in different coolants.

(vi) Additional pre-irradiation and post-irradiation examination capabilities.

(vii) Lifetime operating costs and lifecycle costs.

(4) Deadline for establishment

The Secretary shall, to the maximum extent practicable, complete construction of, and approve the start of operations for, the user facility by not later than December 31, 2026.

(5) Reporting

The Secretary shall include in the annual budget request of the Department an explanation for any delay in the progress of the Department in completing the user facility by the deadline described in paragraph (4).

(6) Coordination

The Secretary shall leverage the best practices for management, construction, and operation of national user facilities from the Office of Science.

(7) Authorization of appropriations

There are authorized to be appropriated to the Secretary to carry out to completion the construction of the facility under this section—

(A) $295,000,000 for fiscal year 2021;

(B) $348,000,000 for fiscal year 2022;

(C) $525,000,000 for fiscal year 2023;

(D) $534,000,000 for fiscal year 2024; and

(E) $584,000,000 for fiscal year 2025.

(d) Gateway for Accelerated Innovation in Nuclear

(1) In general

In carrying out the programs under this part, the Secretary is authorized to establish a new initiative to be known as the Gateway for Accelerated Innovation in Nuclear (GAIN). The

initiative shall, to the maximum extent practicable and consistent with national security, provide the nuclear energy industry with access to cutting edge research and development along with the technical, regulatory, and financial support necessary to move innovative nuclear energy technologies toward commercialization in an accelerated and cost-effective fashion. The Secretary shall make available, as a minimum—

(A) experimental capabilities and testing facilities;

(B) computational capabilities, modeling, and simulation tools;

(C) access to existing datasets and data validation tools; and

(D) technical assistance with guidance or processes as needed.

(2) Selection

(A) In general

The Secretary shall select industry partners for awards on a competitive merit-reviewed basis.

(B) Considerations

In selecting industry partners under subparagraph (A), the Secretary shall consider—

(i) the information disclosed by the Department as described in paragraph (1); and

(ii) any existing facilities the Department will provide for public private partnership activities.

(Pub. L. 109–58, title IX, §955, Aug. 8, 2005, 119 Stat. 887; Pub. L. 115–248, §2(e), Sept. 28, 2018, 132 Stat. 3156; Pub. L. 116–260, div. Z, title II, §2003(f), Dec. 27, 2020, 134 Stat. 2466.)

EDITORIAL NOTES

AMENDMENTS

2020—Subsec. (c)(1). Pub. L. 116–260, §2003(f)(1)(A), substituted "Authorization" for "Mission need" in heading.

Subsec. (c)(1)(A). Pub. L. 116–260, §2003(f)(1)(B), substituted "provide" for "determine the mission need".

Subsec. (c)(4). Pub. L. 116–260, §2003(f)(3), substituted "2026" for "2025".

Subsec. (c)(7). Pub. L. 116–260, §2003(f)(2), added par. (7).

Subsec. (d). Pub. L. 116–260, §2003(f)(4), added subsec.(d).

2018—Subsecs. (c), (d). Pub. L. 115–248 added subsec. (c) and struck out former subsecs. (c) and (d) which required development of a comprehensive plan for the facilities at the Idaho National Laboratory and transmittal of the plan to Congress.

§16276. Security of nuclear facilities

The Secretary shall conduct a research and development program on cost-effective technologies for increasing—

(1) the safety of nuclear facilities from natural phenomena; and

(2) the security of nuclear facilities from deliberate attacks.

(Pub. L. 109–58, title IX, §956, Aug. 8, 2005, 119 Stat. 888; Pub. L. 115–248, §2(f), Sept. 28, 2018, 132 Stat. 3157.)

EDITORIAL NOTES

AMENDMENTS

2018—Pub. L. 115–248 struck out ", acting through the Director of the Office of Nuclear Energy, Science and Technology," after "The Secretary" in introductory provisions.

§16277. High-performance computation and supportive research

(a) Modeling and simulation

The Secretary shall carry out a program to enhance the capabilities of the United States to develop new reactor technologies through high-performance computation modeling and simulation techniques.

(b) Coordination

In carrying out the program under subsection (a), the Secretary shall coordinate with relevant Federal agencies as described by the National Strategic Computing Initiative established by Executive Order 13702 (80 Fed. Reg. 46177 (July 29, 2015)), while taking into account the following objectives:

(1) Using expertise from the private sector, institutions of higher education, and the National Laboratories to develop computational software and capabilities that prospective users may access to accelerate research and development of advanced nuclear reactor systems and reactor systems for space exploration.

(2) Developing computational tools to simulate and predict nuclear phenomena that may be validated through physical experimentation.

(3) Increasing the utility of the research infrastructure of the Department by coordinating with the Advanced Scientific Computing Research program within the Office of Science.

(4) Leveraging experience from the Energy Innovation Hub for Modeling and Simulation.

(5) Ensuring that new experimental and computational tools are accessible to relevant research communities, including private sector entities engaged in nuclear energy technology development.

(c) Supportive research activities

The Secretary shall consider support for additional research activities to maximize the utility of the research facilities of the Department, including physical processes—

(1) to simulate degradation of materials and behavior of fuel forms; and

(2) for validation of computational tools.

(d) Duplication

The Secretary shall ensure the coordination of, and avoid unnecessary duplication of, the activities of the program under subsection (a) with the activities of—

(1) other research entities of the Department, including the National Laboratories, the Advanced Research Projects Agency–Energy, and the Advanced Scientific Computing Research program; and

(2) industry.

(Pub. L. 109–58, title IX, §957, Aug. 8, 2005, 119 Stat. 888; Pub. L. 115–248, §2(g), Sept. 28, 2018, 132 Stat. 3157; Pub. L. 116–260, div. Z, title II, §2004, Dec. 27, 2020, 134 Stat. 2470.)

EDITORIAL NOTES

REFERENCES IN TEXT

Executive Order 13702, referred to in subsec. (b), is set out as a note under section 5501 of Title 15, Commerce and Trade.

AMENDMENTS

2020—Subsec. (d). Pub. L. 116–260 added subsec. (d).

2018—Pub. L. 115–248 amended section generally. Prior to amendment, section related to survey and plan regarding alternatives to industrial radioactive sources.

§16278. Enabling nuclear energy innovation

(a) National Reactor Innovation Center

There is authorized a program to enable the testing and demonstration of reactor concepts to be proposed and funded, in whole or in part, by the private sector.

(b) Technical expertise

In carrying out the program under subsection (a), the Secretary shall leverage the technical expertise of relevant Federal agencies and the National Laboratories in order to minimize the time required to enable construction and operation of privately funded experimental reactors at National Laboratories or other Department-owned sites.

(c) Objectives

The reactors described in subsection (b) shall operate to meet the following objectives:

(1) Enabling physical validation of advanced nuclear reactor concepts.

(2) Resolving technical uncertainty and increasing practical knowledge relevant to safety, resilience, security, and functionality of advanced nuclear reactor concepts.

(3) General research and development to improve nascent technologies.

(d) Sharing technical expertise

In carrying out the program under subsection (a), the Secretary may enter into a memorandum of understanding with the Chairman of the Commission in order to share technical expertise and knowledge through—

(1) enabling the testing and demonstration of advanced nuclear reactor concepts to be proposed and funded, in whole or in part, by the private sector;

(2) operating a database to store and share data and knowledge relevant to nuclear science and engineering between Federal agencies and the private sector;

(3) developing and testing electric and nonelectric integration and energy conversion systems relevant to advanced nuclear reactors;

(4) leveraging expertise from the Commission with respect to safety analysis; and

(5) enabling technical staff of the Commission to actively observe and learn about technologies developed under the program.

(e) Agency coordination

The Chairman of the Commission and the Secretary shall enter into a memorandum of understanding regarding the following:

(1) Ensuring that—

(A) the Department has sufficient technical expertise to support the timely research, development, demonstration, and commercial application by the civilian nuclear industry of safe and innovative advanced nuclear reactor technology; and

(B) the Commission has sufficient technical expertise to support the evaluation of applications for licenses, permits, and design certifications and other requests for regulatory approval for advanced nuclear reactors.

(2) The use of computers and software codes to calculate the behavior and performance of advanced nuclear reactors based on mathematical models of the physical behavior of advanced nuclear reactors.

(3) Ensuring that—

(A) the Department maintains and develops the facilities necessary to enable the timely research, development, demonstration, and commercial application by the civilian nuclear industry of safe and innovative reactor technology; and

(B) the Commission has access to the facilities described in subparagraph (A), as needed.

(f) Reporting requirements

(1) In general

Not later than 180 days after September 28, 2018, the Secretary, in consultation with the National Laboratories, relevant Federal agencies, and other stakeholders, shall submit to the appropriate committees of Congress a report assessing the capabilities of the Department to authorize, host, and oversee privately funded experimental advanced nuclear reactors as described in subsection (b).

(2) Contents

The report submitted under paragraph (1) shall address—

(A) the safety review and oversight capabilities of the Department, including options to leverage expertise from the Commission and the National Laboratories;

(B) options to regulate privately proposed and funded experimental reactors hosted by the Department;

(C) potential sites capable of hosting privately funded experimental advanced nuclear reactors;

(D) the efficacy of the available contractual mechanisms of the Department to partner with the private sector and Federal agencies, including cooperative research and development agreements, strategic partnership projects, and agreements for commercializing technology;

(E) the liability of the Federal Government with respect to the disposal of low-level radioactive waste, spent nuclear fuel, or high-level radioactive waste (as those terms are defined in section 10101 of this title);

(F) the impact on the aggregate inventory in the United States of low-level radioactive waste, spent nuclear fuel, or high-level radioactive waste (as those terms are defined in section 10101 of this title);

(G) potential cost structures relating to physical security, decommissioning, liability, and other long-term project costs; and

(H) other challenges or considerations identified by the Secretary.

(3) Updates

Once every 2 years, the Secretary shall update relevant provisions of the report submitted under paragraph (1) and submit to the appropriate committees of Congress the update.

(g) Savings clauses

(1) Licensing requirement

Nothing in this section authorizes the Secretary or any person to construct or operate a nuclear reactor for the purpose of demonstrating the suitability for commercial application of the nuclear reactor unless licensed by the Commission in accordance with section 5842 of this title.

(2) Financial protection

Any activity carried out under this section that involves the risk of public liability shall be subject to the financial protection or indemnification requirements of section 2210 of this title (commonly known as the "Price-Anderson Act").

(Pub. L. 109–58, title IX, §958, as added Pub. L. 115–248, §2(h), Sept. 28, 2018, 132 Stat. 3157.)

§16279. Budget plan

(a) In general

Not later than 1 year after September 28, 2018, the Secretary shall submit to the Committee on Energy and Natural Resources of the Senate and the Committee on Science, Space, and Technology of the House of Representatives 2 alternative 10-year budget plans for civilian nuclear energy research and development by the Secretary, as described in subsections (b) through (d).

(b) Budget plan alternative 1

One of the budget plans submitted under subsection (a) shall assume constant annual funding for 10 years at the appropriated level for the current fiscal year for the civilian nuclear energy research and development of the Department.

(c) Budget plan alternative 2

One of the budget plans submitted under subsection (a) shall be an unconstrained budget.

(d) Inclusions

Each alternative budget plan submitted under subsection (a) shall include—

(1) a prioritized list of the programs, projects, and activities of the Department to best support the development of advanced nuclear reactor technologies;

(2) realistic budget requirements for the Department to implement sections 16275(c), 16277, and 16278 of this title;

(3) the justification of the Department for continuing or terminating existing civilian nuclear energy research and development programs; and

(4) a description of the progress made under the programs described in section 16279a of this title.

(e) Updates

Not less frequently than once every 2 years, the Secretary shall submit to the Committee on Science, Space, and Technology of the House of Representatives and the Committee on Energy and Natural Resources of the Senate updated 10-year budget plans which shall identify, and provide a justification for, any major deviation from a previous budget plan submitted under this section.

(Pub. L. 109–58, title IX, §959, as added Pub. L. 115–248, §2(i), Sept. 28, 2018, 132 Stat. 3160; amended Pub. L. 116–260, div. Z, title II, §2005, 134 Stat. 2470.)

EDITORIAL NOTES

AMENDMENTS

2020—Subsec. (b). Pub. L. 116–260, §2005(1), amended subsec. (b) generally. Prior to amendment, text read as follows: "One of the budget plans submitted under subsection (a) shall assume constant annual funding for 10 years at the appropriated level for the civilian nuclear energy research and development of the Department for fiscal year 2016."

Subsec. (d)(4). Pub. L. 116–260, §2005(2)–(4), added par. (4).

Subsec. (e). Pub. L. 116–260, §2005(5), added subsec. (e).

§16279a. Advanced reactor demonstration program

(a) Demonstration project defined

For the purposes of this section, the term "demonstration project" means an advanced nuclear reactor operated in any manner, including as part of the power generation facilities of an electric utility system, for the purpose of demonstrating the suitability for commercial application of the advanced nuclear reactor.

(b) Establishment

The Secretary shall establish a program to advance the research, development, demonstration, and commercial application of domestic advanced, affordable, nuclear energy technologies by—

(1) demonstrating a variety of advanced nuclear reactor technologies, including those that could be used to produce—

(A) safer, emissions-free power at a competitive cost of electricity compared to other new energy generation technologies on December 27, 2020;

(B) heat for community heating, industrial purposes, heat storage, or synthetic fuel production;

(C) remote or off-grid energy supply; or

(D) backup or mission-critical power supplies;

(2) identifying research areas that the private sector is unable or unwilling to undertake due to the cost of, or risks associated with, the research; and

(3) facilitating the access of the private sector—

(A) to Federal research facilities and personnel; and

(B) to the results of research relating to civil nuclear technology funded by the Federal

Government.

(c) Demonstration projects

In carrying out demonstration projects under the program established in subsection (b), the Secretary shall—

(1) include, as an evaluation criterion, diversity in designs for the advanced nuclear reactors demonstrated under this section, including designs using various—

(A) primary coolants;

(B) fuel types and compositions; and

(C) neutron spectra;

(2) consider, as evaluation criterions—

(A) the likelihood that the operating cost for future commercial units for each design implemented through a demonstration project under this subsection is cost-competitive in the applicable market, including those designs configured as integrated energy systems as described in section 16272(c) of this title;

(B) the technology readiness level of a proposed advanced nuclear reactor technology;

(C) the technical abilities and qualifications of teams desiring to demonstrate a proposed advanced nuclear reactor technology; and

(D) the capacity to meet cost-share requirements of the Department;

(3) ensure that each evaluation of candidate technologies for the demonstration projects is completed through an external review of proposed designs, which review shall—

(A) be conducted by a panel that includes not fewer than 1 representative that does not have a conflict of interest of each within the applicable market of the design of—

(i) an electric utility;

(ii) an entity that uses high-temperature process heat for manufacturing or industrial processing, such as a petrochemical or synthetic fuel company, a manufacturer of metals or chemicals, or a manufacturer of concrete;

(iii) an expert from the investment community;

(iv) a project management practitioner; and

(v) an environmental health and safety expert; and

(B) include a review of each demonstration project under this subsection which shall include consideration of cost-competitiveness and other value streams, together with the technology readiness level, the technical abilities and qualifications of teams desiring to demonstrate a proposed advanced nuclear reactor technology, the capacity to meet cost-share requirements of the Department, if Federal funding is provided, and environmental impacts;

(4) for federally funded demonstration projects, enter into cost-sharing agreements with private sector partners in accordance with section 16352 of this title for the conduct of activities relating to the research, development, and demonstration of advanced nuclear reactor designs under the program;

(5) consult with—

(A) National Laboratories;

(B) institutions of higher education;

(C) traditional end users (such as electric utilities);

(D) potential end users of new technologies (such as users of high-temperature process heat for manufacturing processing, including petrochemical or synthetic fuel companies, manufacturers of metals or chemicals, or manufacturers of concrete);

(E) developers of advanced nuclear reactor technology;

(F) environmental and public health and safety experts; and

(G) non-proliferation experts;

(6) seek to ensure that the demonstration projects carried out under this section do not cause any delay in the progress of an advanced reactor project by private industry and the Department of Energy that is underway as of December 27, 2020;

(7) establish a streamlined approval process for expedited contracting between awardees and the Department;

(8) identify technical challenges to candidate technologies;

(9) support near-term research and development to address the highest risk technical challenges to the successful demonstration of a selected advanced reactor technology, in accordance with—

(A) paragraph (8);

(B) the research and development activities under section 16272(b) of this title; and

(C) the research and development activities under section 16278 of this title; and

(10) establish such technology advisory working groups as the Secretary determines to be appropriate to advise the Secretary regarding the technical challenges identified under paragraph (8) and the scope of research and development programs to address the challenges, in accordance with paragraph (9), to be comprised of—

(A) private sector advanced nuclear reactor technology developers;

(B) technical experts with respect to the relevant technologies at institutions of higher education;

(C) technical experts at the National Laboratories;

(D) environmental and public health and safety experts;

(E) non-proliferation experts; and

(F) any other entities the Secretary determines appropriate.

(d) Milestone-based demonstration projects

The Secretary may carry out demonstration projects under subsection (c) as a milestone-based demonstration project under section 7256c of this title.

(e) Nonduplication

Entities may not receive funds under this program if receiving funds from another reactor demonstration program at the Department in the same fiscal year.

(f) Authorization of appropriations

There are authorized to be appropriated to the Secretary to carry out the program under this subsection—

(1) $405,000,000 for fiscal year 2021;

(2) $405,000,000 for fiscal year 2022;

(3) $420,000,000 for fiscal year 2023;

(4) $455,000,000 for fiscal year 2024; and

(5) $455,000,000 for fiscal year 2025.

(Pub. L. 109–58, title IX, §959A, as added Pub. L. 116–260, div. Z, title II, §2003(g)(1), Dec. 27, 2020, 134 Stat. 2467.)

§16279b. International nuclear energy cooperation

The Secretary shall carry out a program—

(1) to collaborate in international efforts with respect to research, development, demonstration, and commercial application of nuclear technology that supports diplomatic, financing, nonproliferation, climate, and international economic objectives for the safe, secure, and peaceful use of such technology; and

(2) to develop collaboration initiatives with respect to such efforts with a variety of countries through—

(A) preparations for research and development agreements;

(B) the development of coordinated action plans; and

(C) new or existing multilateral cooperation commitments including—
(i) the International Framework for Nuclear Energy Cooperation;
(ii) the Generation IV International Forum;
(iii) the International Atomic Energy Agency;
(iv) the Organization for Economic Co-operation and Development Nuclear Energy Agency; and
(v) any other international collaborative effort with respect to advanced nuclear reactor operations and safety.

(Pub. L. 109–58, title IX, §959B, as added Pub. L. 116–260, div. Z, title II, §2003(h)(1), Dec. 27, 2020, 134 Stat. 2470.)

§16279c. Organization and administration of programs

(a) Coordination

In carrying out this part, the Secretary shall coordinate activities, and effectively manage crosscutting research priorities across programs of the Department and other relevant Federal agencies, including the National Laboratories.

(b) Collaboration

(1) In general

In carrying out this part, the Secretary shall collaborate with industry, National Laboratories, other relevant Federal agencies, institutions of higher education, including minority-serving institutions and research reactors, Tribal entities, including Alaska Native Corporations, and international bodies with relevant scientific and technical expertise.

(2) Participation

To the extent practicable, the Secretary shall encourage research projects that promote collaboration between entities specified in paragraph (1).

(c) Dissemination of results and public availability

The Secretary shall, except to the extent protected from disclosure under section 552(b) of title 5, publish the results of projects supported under this part through Department websites, reports, databases, training materials, and industry conferences, including information discovered after the completion of such projects.

(d) Education and outreach

In carrying out the activities described in this part, the Secretary shall support education and outreach activities to disseminate information and promote public understanding of nuclear energy.

(e) Technical assistance

In carrying out this part, for the purposes of supporting technical, nonhardware, and information-based advances in nuclear energy development and operations, the Secretary shall also conduct technical assistance and analysis activities, including activities that support commercial application of nuclear energy in rural, Tribal, and low-income communities.

(f) Program review

At least annually, all programs in this part shall be subject to an annual review by the Nuclear Energy Advisory Committee of the Department or other independent entity, as appropriate.

(g) Sensitive information

The Secretary shall not publish any information generated under this part that is detrimental to national security, as determined by the Secretary.

(Pub. L. 109–58, title IX, §959C, as added Pub. L. 116–260, div. Z, title II, §2006(a), Dec. 27, 2020, 134 Stat. 2471.)

§16280. Advanced Nuclear Energy Licensing Cost-Share Grant Program

(a) Definitions

In this section:

(1) Commission

The term "Commission" means the Nuclear Regulatory Commission.

(2) Program

The term "program" means the Advanced Nuclear Energy Cost-Share Grant Program established under subsection (b).

(3) Secretary

The term "Secretary" means the Secretary of Energy.

(b) Establishment

The Secretary shall establish a grant program, to be known as the "Advanced Nuclear Energy Cost-Share Grant Program", under which the Secretary shall make cost-share grants to applicants for the purpose of funding a portion of the Commission fees of the applicant for pre-application review activities and application review activities.

(c) Requirement

The Secretary shall seek out technology diversity in making grants under the program.

(d) Cost-share amount

The Secretary shall determine the cost-share amount for each grant under the program in accordance with section 16352 of this title.

(e) Use of funds

A recipient of a grant under the program may use the grant funds to cover Commission fees, including those fees associated with—

(1) developing a licensing project plan;
(2) obtaining a statement of licensing feasibility;
(3) reviewing topical reports; and
(4) other—
  (A) pre-application review activities;
  (B) application review activities; and
  (C) interactions with the Commission.

(Pub. L. 115–248, §3, Sept. 28, 2018, 132 Stat. 3160.)

EDITORIAL NOTES

CODIFICATION

Section was enacted as part of the Nuclear Energy Innovation Capabilities Act of 2017, and not as part of the Energy Policy Act of 2005 which comprises this chapter.

§16281. Advanced nuclear fuel availability

(a) Program

(1) Establishment

The Secretary shall establish and carry out, through the Office of Nuclear Energy, a program to support the availability of HA–LEU for civilian domestic research, development, demonstration, and commercial use.

(2) Program elements

In carrying out the program under paragraph (1), the Secretary—

(A) shall develop, in consultation with the Commission, criticality benchmark data to assist the Commission in—

(i) the licensing and regulation of special nuclear material fuel fabrication and enrichment facilities under part 70 of title 10, Code of Federal Regulations; and

(ii) certification of transportation packages under part 71 of title 10, Code of Federal Regulations;

(B) shall conduct research and development, and provide financial assistance to assist commercial entities, to design and license transportation packages for HA–LEU, including canisters for metal, gas, and other HA–LEU compositions;

(C) shall, to the extent practicable—

(i) by January 1, 2024, support commercial entity submission of such transportation package designs to the Commission for certification by the Commission under part 71 of title 10, Code of Federal Regulations; and

(ii) encourage the Commission to have such transportation package designs so certified by the Commission within 24 months after receipt of an application;

(D) shall consider options for acquiring or providing HA–LEU from a stockpile of uranium owned by the Department, or using enrichment technology, to make available to members of the consortium established pursuant to subparagraph (F) for commercial use or demonstration projects, taking into account cost and amount of time required, and prioritizing methods that would produce usable HA–LEU the quickest, including options for acquiring or providing HA–LEU—

(i) that—

(I) directly meets the needs of an end user; and

(II) has been previously used or fabricated for another purpose;

(ii) that meets the needs of an end user after having radioactive or other contaminants that resulted from a previous use or fabrication of the fuel for research, development, demonstration, or deployment activities of the Department removed;

(iii) that is produced from high-enriched uranium that is blended with lower assay uranium to become HA–LEU to meet the needs of an end user;

(iv) that is produced by Department research, development, and demonstration activities;

(v) that is produced in the United States by—

(I) a United States-owned commercial entity operating United States-origin technology;

(II) a United States-owned commercial entity operating a foreign-origin technology; or

(III) a foreign-owned entity operating a foreign-origin technology;

(vi) that does not require extraction of uranium or development of uranium from lands managed by the Federal Government, cause harm to the natural or cultural resources of Tribal communities or sovereign Native Nations, or result in degraded ground or surface water quality on publicly managed or privately owned lands; or

(vii) that does not negatively impact the availability of HA–LEU by the Department to support the production of medical isotopes, including the medical isotopes defined under the American Medical Isotopes Production Act of 2012 (Public Law 112–239; 126 Stat. 2211);

(E) not later than 1 year after December 27, 2020, and biennially thereafter, shall conduct a survey of stakeholders to estimate the quantity of HA–LEU necessary for domestic commercial use for each of the 5 subsequent years;

(F) shall establish, and from time to time update, a consortium, which may include entities involved in any stage of the nuclear fuel cycle, to partner with the Department to support the

availability of HA–LEU for civilian domestic demonstration and commercial use, including by—

(i) providing information to the Secretary for purposes of surveys conducted under subparagraph (E);

(ii) purchasing HA–LEU made available by the Secretary to members of the consortium for commercial use under the program; and

(iii) carrying out demonstration projects using HA–LEU provided by the Secretary under the program;

(G) if applicable, shall, prior to acquiring or providing HA–LEU under subparagraph (H), in coordination with the consortium established pursuant to subparagraph (F), develop a schedule for cost recovery of HA–LEU made available to members of the consortium using HA–LEU for commercial use pursuant to subparagraph (H);

(H) shall, beginning not later than 3 years after the establishment of a consortium under subparagraph (F), have the capability to acquire or provide HA–LEU, in order to make such HA–LEU available to members of the consortium beginning not later than January 1, 2026, in amounts that are consistent, to the extent practicable, with—

(i) the quantities estimated under the surveys conducted under subparagraph (E); plus

(ii) the quantities necessary for demonstration projects carried out under the program, as determined by the Secretary;

(I) shall, for advanced reactor demonstration projects, prioritize the provision of HA–LEU made available under this section through a merit-based, competitive selection process; and

(J) shall seek to ensure that the activities carried out under this section do not cause any delay in the progress of any HA–LEU project between private industry and the Department that is underway as of December 27, 2020.

(3) Applicability of USEC Privatization Act

(A) Sale or transfer to consortium

The requirements of section 3112 of the USEC Privatization Act (42 U.S.C. 2297h–10), except for the requirements of subparagraph (A) of section 3112(d)(2), shall not apply to the provision of enrichment services, or the sale or transfer of HA–LEU for commercial use by the Secretary to a member of the consortium under this subsection.

(B) Demonstration

HA–LEU made available to members of the consortium established pursuant to paragraph (2)(F) for demonstration projects shall remain the property of and title will remain with the Department, which shall be responsible for the storage, use, and disposition of all radioactive waste and spent nuclear fuel created by the irradiation, processing, or purification of such uranium, and shall not be subject to the requirements of a sale or transfer of uranium under sections 3112, except for the requirements of subparagraph (A) of section 3112, and 3113 of the USEC Privatization Act (42 U.S.C. 2297h–10; 42 U.S.C. 2297h–11).

(4) National security needs

The Secretary shall only make available to a member of the consortium under this section for commercial or demonstration project use material that the President has determined is not necessary for national security needs, provided that this available material shall not include any material that the Secretary may determine to be necessary for the National Nuclear Security Administration or other critical Departmental missions.

(5) DOE acquisition of HA–LEU

The Secretary may not make commitments under this section (including cooperative agreements (used in accordance with section 6305 of title 31), purchase agreements, guarantees, leases, service contracts, or any other type of commitment) for the purchase or other acquisition of

HA–LEU unless—

(A) funds are specifically provided for such purposes in advance in subsequent appropriations Acts, and only to the extent that the full extent of anticipated costs stemming from such commitments is recorded as an obligation up front and in full at the time it is made; or

(B) such committing agreement includes a clause conditioning the Federal Government's obligation on the availability of future year appropriations.

(6) Sunset

The authority of the Secretary to carry out the program under this subsection shall expire on the earlier of—

(A) September 30, 2034; or

(B) 90 days after the date on which HA–LEU is available to provide a reliable and adequate supply for civilian domestic advanced nuclear reactors in the commercial market.

(7) Limitation

The Secretary shall not barter or otherwise sell or transfer uranium in any form in exchange for services relating to the final disposition of radioactive waste from uranium that is made available under this subsection.

(b) Reports to Congress

(1) Commission report on necessary regulatory updates

Not later than 12 months after December 27, 2020, the Commission shall submit to Congress a report that includes—

(A) identification of updates to regulations, certifications, and other regulatory policies that the Commission determines are necessary in order for HA–LEU to be commercially available, including—

(i) guidance for material control and accountability of special nuclear material;

(ii) certifications relating to transportation packaging for HA–LEU; and

(iii) licensing of enrichment, conversion, and fuel fabrication facilities for HA–LEU, and associated physical security plans for such facilities;

(B) a description of such updates; and

(C) a timeline to complete such updates.

(2) DOE report on program to support the availability of HA–LEU for civilian domestic demonstration and commercial use

(A) In general

Not later than 180 days after December 27, 2020, the Secretary shall submit to Congress a report that describes actions proposed to be carried out by the Secretary under the program described in subsection (a)(1).

(B) Coordination and stakeholder input

In developing the report under this paragraph, the Secretary shall consult with—

(i) the Commission;

(ii) suppliers of medical isotopes that have converted their operations to use HA–LEU;

(iii) the National Laboratories;

(iv) institutions of higher education;

(v) a diverse group of entities from the nuclear energy industry;

(vi) a diverse group of technology developers;

(vii) experts in nuclear nonproliferation, environmental safety, safeguards and security, and public health and safety; and

(viii) members of the consortium created under subsection (a)(2)(F).

(C) Cost and schedule estimates

The report under this paragraph shall include estimated costs, budgets, and timeframes for all

activities carried out under this section.

(D) Required evaluations

The report under this paragraph shall evaluate—

(i) the actions required to establish and carry out the program under subsection (a)(1) and the cost of such actions, including with respect to—

(I) proposed preliminary terms for contracting between the Department and recipients of HA–LEU under the program (including guidelines defining the roles and responsibilities between the Department and the recipient); and

(II) the potential to coordinate with recipients of HA–LEU under the program regarding—

(aa) fuel fabrication; and

(bb) fuel transport;

(ii) the potential sources and fuel forms available to provide uranium for the program under subsection (a)(1);

(iii) options to coordinate the program under subsection (a)(1) with the operation of the versatile, reactor-based fast neutron source under section 16279a of this title (as added by section 2003);

(iv) the ability of uranium producers to provide materials for advanced nuclear reactor fuel;

(v) any associated legal, regulatory, and policy issues that should be addressed to enable—

(I) implementation of the program under subsection (a)(1); and

(II) the establishment of an industry capable of providing HA–LEU; and

(vi) any research and development plans to develop criticality benchmark data under subsection (a)(2)(A), if needed.

(3) Alternate fuels report

Not later than 180 days after December 27, 2020, the Secretary shall, after consulting with relevant entities, including National Laboratories, institutions of higher education, and technology developers, submit to Congress a report identifying any and all options for providing nuclear material, containing isotopes other than the uranium-235 isotope, such as uranium-233 and thorium-232 to be used as fuel for advanced nuclear reactor research, development, demonstration, or commercial application purposes.

(c) Authorization of appropriations

There are authorized to be appropriated to carry out research, development, demonstration, and transportation activities in this section—

(1) $31,500,000 for fiscal year 2021;

(2) $33,075,000 for fiscal year 2022;

(3) $34,728,750 for fiscal year 2023;

(4) $36,465,188 for fiscal year 2024; and

(5) $38,288,447 for fiscal year 2025.

(d) Definitions

In this section:

(1) Commission

The term "Commission" means the Nuclear Regulatory Commission.

(2) Demonstration project

The term "demonstration project" has the meaning given such term in section 16279a of this title.

(3) HA–LEU

The term "HA–LEU" means high-assay low-enriched uranium.

(4) High-assay low-enriched uranium

The term "high-assay low-enriched uranium" means uranium having an assay greater than 5.0 weight percent and less than 20.0 weight percent of the uranium-235 isotope.

(5) High-enriched uranium

The term "high-enriched uranium" means uranium with an assay of 20.0 weight percent or more of the uranium-235 isotope.

(6) Secretary

The term "Secretary" means the Secretary of Energy.

EDITORIAL NOTES

REFERENCES IN TEXT

The American Medical Isotopes Production Act of 2012, referred to in subsec. (a)(2)(D)(vii), is subtitle F (§3171 et seq.) of title XXXI of div. C of Pub. L. 112–239, Jan. 2, 2013, 126 Stat. 2211. For complete classification of this Act to the Code, see Short Title of 2013 Amendment note set out under section 2011 of this title and Tables.

Section 16279a of this title (as added by section 2003), referred to in subsec. (b)(2)(D)(iii), is section 16279a of this title as added by section 2003 of div. Z of Pub. L. 116–260.

CODIFICATION

Section was enacted as part of the Energy Act of 2020, and not as part of the Energy Policy Act of 2005 which comprises this chapter.

PART F—FOSSIL ENERGY

§16291. Fossil energy

(a) Establishment

(1) In general

The Secretary shall carry out research, development, demonstration, and commercial application programs in fossil energy, including activities under this part, with the goal of improving the efficiency, effectiveness, and environmental performance of fossil energy production, upgrading, conversion, and consumption.

(2) Objectives

The programs described in paragraph (1) shall take into consideration the following objectives:

(A) Increasing the energy conversion efficiency of all forms of fossil energy through improved technologies.

(B) Decreasing the cost of all fossil energy production, generation, and delivery.

(C) Promoting diversity of energy supply.

(D) Decreasing the dependence of the United States on foreign energy supplies.

(E) Improving United States energy security.

(F) Decreasing the environmental impact of energy-related activities, including technology development to reduce emissions of carbon dioxide and associated emissions of heavy metals within coal combustion residues and gas streams resulting from fossil fuel use and production.

(G) Increasing the export of fossil energy-related equipment, technology, including emissions control technologies, and services from the United States.

(H) Decreasing the cost of emissions control technologies for fossil energy production,

generation, and delivery.

(I) Significantly lowering greenhouse gas emissions for all fossil fuel production, generation, delivery, and utilization technologies.

(J) Developing carbon removal and utilization technologies, products, and methods that result in net reductions in greenhouse gas emissions, including direct air capture and storage, and carbon use and reuse for commercial application.

(K) Improving the conversion, use, and storage of carbon oxides produced from fossil fuels.

(L) Reducing water use, improving water reuse, and minimizing surface and subsurface environmental impact in the development of unconventional domestic oil and natural gas resources.

(3) Priority

In carrying out the objectives described in subparagraphs (F) through (K) of paragraph (2), the Secretary shall prioritize activities and strategies that have the potential to significantly reduce emissions for each technology relevant to the applicable objective and the international commitments of the United States.

(b) Authorization of appropriations

There are authorized to be appropriated to the Secretary to carry out fossil energy research, development, demonstration, and commercial application activities, including activities authorized under this part—

(1) $611,000,000 for fiscal year 2007;
(2) $626,000,000 for fiscal year 2008; and
(3) $641,000,000 for fiscal year 2009.

(c) Allocations

From amounts authorized under subsection (a), the following sums are authorized:

(1) For activities under section 16292 [1] of this title—
(A) $367,000,000 for fiscal year 2007;
(B) $376,000,000 for fiscal year 2008; and
(C) $394,000,000 for fiscal year 2009.

(2) For activities under section 16294 of this title—
(A) $20,000,000 for fiscal year 2007;
(B) $25,000,000 for fiscal year 2008; and
(C) $30,000,000 for fiscal year 2009.

(3) For activities under section 16296 of this title—
(A) $1,500,000 for fiscal year 2007; and
(B) $450,000 for each of fiscal years 2008 and 2009.

(4) For the Office of Arctic Energy under section 7144d of this title $25,000,000 for each of fiscal years 2007 through 2009.

(d) Extended authorization

There are authorized to be appropriated to the Secretary for the Office of Arctic Energy established under section 7144d of this title $25,000,000 for each of fiscal years 2010 through 2012.

(e) Limitations

(1) Uses

None of the funds authorized under this section may be used for Fossil Energy Environmental Restoration or Import/Export Authorization.

(2) Institutions of higher education

Of the funds authorized under subsection (c)(2), not less than 20 percent of the funds

appropriated for each fiscal year shall be dedicated to research and development carried out at institutions of higher education.

(Pub. L. 109–58, title IX, §961, Aug. 8, 2005, 119 Stat. 889; Pub. L. 116–260, div. Z, title IV, §4001, Dec. 27, 2020, 134 Stat. 2527.)

EDITORIAL NOTES

REFERENCES IN TEXT

This part, referred to in subsecs. (a)(1) and (b), was in the original "this subtitle", meaning subtitle F (§§961–968) of title IX of Pub. L. 109–58, Aug. 8, 2005, 119 Stat. 889, which enacted this part and provisions set out as notes under section 2001 of Title 30, Mineral Lands and Mining, and amended provisions set out as a note under section 1902 of Title 30. For complete classification of subtitle F to the Code, see Tables.

Section 16292 of this title, referred to in subsec. (c)(1), relating to coal and related technologies program, was repealed and a new section 16292 of this title, relating to carbon capture technology program, was enacted by Pub. L. 116–260, div. Z, title IV, §4002(a), Dec. 27, 2020, 134 Stat. 2528.

AMENDMENTS

2020—Subsec. (a). Pub. L. 116–260, §4001(5), designated second sentence of par. (1), as redesignated, as par. (2), inserted heading, and substituted "The programs described in paragraph (1) shall" for "Such programs".

Pub. L. 116–260, §4001(4), designated existing provisions of subsec. (a) as par. (1), substituted "Establishment" for "In general" in subsec. heading, and inserted par. (1) heading.

Pub. L. 116–260, §4001(3), added subpars. (G) to (L) and struck out former subpar. (G), as redesignated, which read as follows: "Increasing the export of fossil energy-related equipment, technology, and services from the United States."

Pub. L. 116–260, §4001(2), in subpar. (F), as redesignated, inserted ", including technology development to reduce emissions of carbon dioxide and associated emissions of heavy metals within coal combustion residues and gas streams resulting from fossil fuel use and production" before period at end.

Pub. L. 116–260, §4001(1), redesignated pars. (1) to (7) of subsec. (a) as subpars. (A) to (G) and realigned margins.

Subsec. (a)(3). Pub. L. 116–260, §4001(6), added par. (3)

[1] *See References in Text note below.*

§16291a. Property interests

That for all programs funded under Fossil Energy appropriations in this and subsequent Acts, the Secretary may vest fee title or other property interests acquired under projects in any entity, including the United States.

(Pub. L. 113–76, div. D, title III, Jan. 17, 2014, 128 Stat. 165.)

EDITORIAL NOTES

CODIFICATION

Section was enacted as part of the Energy and Water Development and Related Agencies Appropriations Act, 2014, and also as part of the Consolidated Appropriations Act, 2014, and not as part of the Energy Policy Act of 2005 which comprises this chapter.

STATUTORY NOTES AND RELATED SUBSIDIARIES

DEFINITIONS

For definition of "this [Act]", referred to in text, see section 3 of Pub. L. 113–76, set out as a note under section 1 of Title 1, General Provisions.

§16292. Carbon capture technology program

(a) Definitions

In this section:

(1) Large-scale pilot project

The term "large-scale pilot project" means a pilot project that—

(A) represents the scale of technology development beyond laboratory development and bench scale testing, but not yet advanced to the point of being tested under real operational conditions at commercial scale;

(B) represents the scale of technology necessary to gain the operational data needed to understand the technical and performance risks of the technology before the application of that technology at commercial scale or in commercial-scale demonstration; and

(C) is large enough—

(i) to validate scaling factors; and

(ii) to demonstrate the interaction between major components so that control philosophies for a new process can be developed and enable the technology to advance from large-scale pilot project application to commercial-scale demonstration or application.

(2) Natural gas

The term "natural gas" means any fuel consisting in whole or in part of—

(A) natural gas;

(B) liquid petroleum gas;

(C) synthetic gas derived from petroleum or natural gas liquids;

(D) any mixture of natural gas and synthetic gas; or

(E) biomethane.

(3) Natural gas electric generation facility

(A) In general

The term "natural gas electric generation facility" means a facility that generates electric energy using natural gas as the fuel.

(B) Inclusions

The term "natural gas electric generation facility" includes without limitation a new or existing—

(i) simple cycle plant;

(ii) combined cycle plant;

(iii) combined heat and power plant; or

(iv) steam methane reformer that produces hydrogen from natural gas for use in the production of electric energy.

(4) Program

The term "program" means the program established under subsection (b)(1).

(5) Transformational technology

(A) In general

The term "transformational technology" means a technology that represents a significant change in the methods used to convert energy that will enable a step change in performance, efficiency, cost of electricity, and reduction of emissions as compared to the technology in existence on December 27, 2020.

(B) Inclusions

The term "transformational technology" includes a broad range of potential technology improvements, including—

(i) thermodynamic improvements in energy conversion and heat transfer, including—

(I) advanced combustion systems, including oxygen combustion systems and chemical looping; and

(II) the replacement of steam cycles with supercritical carbon dioxide cycles;

(ii) improvements in steam or carbon dioxide turbine technology;

(iii) improvements in carbon capture, utilization, and storage systems technology;

(iv) improvements in small-scale and modular coal-fired technologies with reduced carbon output or carbon capture that can support incremental power generation capacity additions;

(v) fuel cell technologies for low-cost, high-efficiency modular power systems;

(vi) advanced gasification systems;

(vii) thermal cycling technologies; and

(viii) any other technology the Secretary recognizes as transformational technology.

(b) Carbon capture technology program

(1) In general

The Secretary shall establish a carbon capture technology program for the development of transformational technologies that will significantly improve the efficiency, effectiveness, costs, emissions reductions, and environmental performance of coal and natural gas use, including in manufacturing and industrial facilities.

(2) Requirements

The program shall include—

(A) a research and development program;

(B) large-scale pilot projects;

(C) demonstration projects, in accordance with paragraph (4);

(D) a front-end engineering and design program for carbon capture technologies; and

(E) a front-end engineering and design program for carbon dioxide transport infrastructure necessary to enable deployment of carbon capture, utilization, and storage technologies.

(3) Program goals and objectives

In consultation with the interested entities described in paragraph (6)(C), the Secretary shall develop goals and objectives for the program to be applied to the transformational technologies developed within the program, taking into consideration the following:

(A) Increasing the performance of coal electric generation facilities and natural gas electric generation facilities, including by—

(i) ensuring reliable, low-cost power from new and existing coal electric generation facilities and natural gas electric generation facilities;

(ii) achieving high conversion efficiencies;

(iii) addressing emissions of carbon dioxide and other air pollutants;

(iv) developing small-scale and modular technologies to support incremental capacity additions and load following generation, in addition to large-scale generation technologies;

(v) supporting dispatchable operations for new and existing applications of coal and natural gas generation; and

(vi) accelerating the development of technologies that have transformational energy conversion characteristics.

(B) Using carbon capture, utilization, and sequestration technologies to decrease the carbon dioxide emissions, and the environmental impact from carbon dioxide emissions, from new and existing coal electric generation facilities and natural gas electric generation facilities, including by—

(i) accelerating the development, deployment, and commercialization of technologies to capture and sequester carbon dioxide emissions from new and existing coal electric generation facilities and natural gas electric generation facilities;

(ii) supporting sites for safe geological storage of large volumes of anthropogenic sources

of carbon dioxide and the development of the infrastructure needed to support a carbon dioxide utilization and storage industry;

(iii) improving the conversion, utilization, and storage of carbon dioxide produced from fossil fuels and other anthropogenic sources of carbon dioxide;

(iv) lowering greenhouse gas emissions for all fossil fuel production, generation, delivery, and use, to the maximum extent practicable;

(v) developing carbon utilization technologies, products, and methods, including carbon use and reuse for commercial application;

(vi) developing net-negative carbon dioxide emissions technologies; and

(vii) developing technologies for the capture of carbon dioxide produced during the production of hydrogen from natural gas.

(C) Decreasing the non-carbon dioxide relevant environmental impacts of coal and natural gas production, including by—

(i) further reducing non-carbon dioxide air emissions; and

(ii) reducing the use, and managing the discharge, of water in power plant operations.

(D) Accelerating the development of technologies to significantly decrease emissions from manufacturing and industrial facilities, including—

(i) nontraditional fuel manufacturing facilities, including ethanol or other biofuel production plants or hydrogen production plants; and

(ii) energy-intensive manufacturing facilities that produce carbon dioxide as a byproduct of operations.

(E) Entering into cooperative agreements to carry out and expedite demonstration projects (including pilot projects) to demonstrate the technical and commercial viability of technologies to reduce carbon dioxide emissions released from coal electric generation facilities and natural gas electric generation facilities for commercial deployment.

(F) Identifying any barriers to the commercial deployment of any technologies under development for the capture of carbon dioxide produced by coal electric generation facilities and natural gas electric generation facilities.

(4) Demonstration projects

(A) In general

In carrying out the program, the Secretary shall establish a demonstration program under which the Secretary, through a competitive, merit-reviewed process, shall enter into cooperative agreements by not later than September 30, 2025, for demonstration projects to demonstrate the construction and operation of 6 facilities to capture carbon dioxide from coal electric generation facilities, natural gas electric generation facilities, and industrial facilities.

(B) Technical assistance

The Secretary, to the maximum extent practicable, shall provide technical assistance to any eligible entity seeking to enter into a cooperative agreement described in subparagraph (A) for the purpose of obtaining any necessary permits and licenses to demonstrate qualifying technologies.

(C) Eligible entities

The Secretary may enter into cooperative agreements under subparagraph (A) with industry stakeholders, including any industry stakeholder operating in partnership with the National Laboratories, institutions of higher education, multiinstitutional collaborations, and other appropriate entities.

(D) Commercial-scale demonstration projects

(i) In general

In carrying out the program, the Secretary shall establish a carbon capture technology commercialization program to demonstrate substantial improvements in the efficiency, effectiveness, cost, and environmental performance of carbon capture technologies for power, industrial, and other commercial applications.

(ii) Requirement

The program established under clause (i) shall include funding for commercial-scale carbon capture technology demonstrations of projects supported by the Department, including projects in addition to the projects described in subparagraph (A), including funding for not more than 2 projects to demonstrate substantial improvements in a particular technology type beyond the first of a kind demonstration and to account for considerations described in subparagraph (G).

(E) Requirement

Of the demonstration projects carried out under subparagraph (A)—

(i) 2 shall be designed to capture carbon dioxide from a natural gas electric generation facility;

(ii) 2 shall be designed to capture carbon dioxide from a coal electric generation facility; and

(iii) 2 shall be designed to capture carbon dioxide from an industrial facility not purposed for electric generation.

(F) Goals

Each demonstration project under the demonstration program under subparagraph (A)—

(i) shall be designed to further the development, deployment, and commercialization of technologies to capture and sequester carbon dioxide emissions from new and existing coal electric generation facilities, natural gas electric generation facilities, and industrial facilities;

(ii) shall be financed in part by the private sector; and

(iii) if necessary, shall secure agreements for the offtake of carbon dioxide emissions captured by qualifying technologies during the project.

(G) Applications

(i) In general

To be eligible to enter into an agreement with the Secretary for a demonstration project under subparagraphs (A) and (D), an entity shall submit to the Secretary an application at such time, in such manner, and containing such information as the Secretary may require.

(ii) Review of applications

In reviewing applications submitted under clause (i), the Secretary, to the maximum extent practicable, shall—

(I) ensure a broad geographic distribution of project sites;

(II) ensure that a broad selection of electric generation facilities are represented;

(III) ensure that a broad selection of technologies are represented; and

(IV) leverage existing public-private partnerships and Federal resources.

(H) GAO study and report

(i) Study and report

(I) In general

Not later than 1 year after December 27, 2020, the Comptroller General of the United States shall conduct, and submit to the Committee on Energy and Natural Resources of the Senate and the Committee on Science, Space, and Technology of the House of Representatives a report on the results of, a study of the successes, failures, practices, and improvements of the Department in carrying out demonstration projects under this paragraph.

(II) Considerations

In conducting the study under subclause (I), the Comptroller General of the United States shall consider—

(aa) applicant and contractor qualifications;

(bb) project management practices at the Department;

(cc) economic or market changes and other factors impacting project viability;

(dd) completion of third-party agreements, including power purchase agreements and carbon dioxide offtake agreements;

(ee) regulatory challenges; and

(ff) construction challenges.

(ii) Recommendations

The Secretary shall—

(I) consider any relevant recommendations, as determined by the Secretary, provided in the report required under clause (i)(I); and

(II) adopt such recommendations as the Secretary considers appropriate.

(I) Report

(i) In general

Not later than 180 days after the date on which the Secretary solicits applications under subparagraph (G), and annually thereafter, the Secretary shall submit to the appropriate committees of jurisdiction of the Senate and the House of Representatives a report that includes a detailed description of how the applications under the demonstration program established under subparagraph (A) were or will be solicited and how the applications were or will be evaluated, including—

(I) a list of any activities carried out by the Secretary to solicit or evaluate the applications; and

(II) a process for ensuring that any projects carried out under a cooperative agreement entered into under subparagraph (A) are designed to result in the development or demonstration of qualifying technologies.

(ii) Inclusions

The Secretary shall include—

(I) in the first report required under clause (i), a detailed list of technical milestones for the development and demonstration of each qualifying technology pursued under the demonstration program established under subparagraph (A);

(II) in each subsequent report required under clause (i), a description of the progress made towards achieving the technical milestones described in subclause (I) during the applicable period covered by the report; and

(III) in each report required under clause (i)—

(aa) an estimate of the cost of licensing, permitting, constructing, and operating each carbon capture facility expected to be constructed under the demonstration program established under subparagraph (A);

(bb) a schedule for the planned construction and operation of each demonstration or pilot project under the demonstration program; and

(cc) an estimate of any financial assistance, compensation, or incentives proposed to be paid by the host State, Indian Tribe, or local government with respect to each facility described in item (aa).

(5) Intraagency coordination for carbon capture, utilization, and sequestration activities

The carbon capture, utilization, and sequestration activities described in paragraph (3)(B) shall be carried out by the Assistant Secretary for Fossil Energy, in coordination with the heads of other relevant offices of the Department and the National Laboratories.

(6) Consultations required

In carrying out the program, the Secretary shall—

(A) undertake international collaborations, taking into consideration the recommendations of the National Coal Council and the National Petroleum Council;

(B) use existing authorities to encourage international cooperation; and

(C) consult with interested entities, including—

(i) coal and natural gas producers;

(ii) industries that use coal and natural gas;

(iii) organizations that promote coal, advanced coal, and natural gas technologies;

(iv) environmental organizations;

(v) organizations representing workers; and

(vi) organizations representing consumers.

(c) Report

(1) In general

Not later than 18 months after December 27, 2020, the Secretary shall submit to Congress a report describing the program goals and objectives adopted under subsection (b)(3).

(2) Update

Not less frequently than once every 2 years after the initial report is submitted under paragraph (1), the Secretary shall submit to Congress a report describing the progress made towards achieving the program goals and objectives adopted under subsection (b)(3).

(d) Funding

(1) Authorization of appropriations

There are authorized to be appropriated to the Secretary to carry out this section, to remain available until expended—

(A) for activities under the research and development program component described in subsection (b)(2)(A)—

(i) $230,000,000 for each of fiscal years 2021 and 2022; and

(ii) $150,000,000 for each of fiscal years 2023 through 2025;

(B) subject to paragraph (2), for activities under the large-scale pilot projects program component described in subsection (b)(2)(B)—

(i) $225,000,000 for each of fiscal years 2021 and 2022;

(ii) $200,000,000 for each of fiscal years 2023 and 2024; and

(iii) $150,000,000 for fiscal year 2025;

(C) for activities under the demonstration projects program component described in subsection (b)(2)(C)—

(i) $500,000,000 for each of fiscal years 2021 though 2024; and

(ii) $600,000,000 for fiscal year 2025;

(D) for activities under the front-end engineering and design program described in subsection (b)(2)(D), $50,000,000 for each of fiscal years 2021 through 2024; and

(E) for activities under the front-end engineering and design program described in subsection (b)(2)(E), $100,000,000 for the period of fiscal years 2022 through 2026.

(2) Cost sharing for large-scale pilot projects

Activities under subsection (b)(2)(B) shall be subject to the cost-sharing requirements of section 16352(b) of this title.

(e) Carbon capture test centers

(1) In general

Not later than 2 years after December 27, 2020, the Secretary shall award grants to 1 or more

entities for the operation of 1 or more test centers (referred to in this subsection as a "Center") to provide distinct testing capabilities for innovative carbon capture technologies.

(2) Purpose

Each Center shall—

(A) advance research, development, demonstration, and commercial application of carbon capture technologies;

(B) support large-scale pilot projects and demonstration projects and test carbon capture technologies; and

(C) develop front-end engineering design and economic analysis.

(3) Selection

(A) In general

The Secretary shall select entities to receive grants under this subsection according to such criteria as the Secretary may develop.

(B) Competitive basis

The Secretary shall select entities to receive grants under this subsection on a competitive basis.

(C) Priority criteria

In selecting entities to receive grants under this subsection, the Secretary shall prioritize consideration of applicants that—

(i) have access to existing or planned research facilities for carbon capture technologies;

(ii) are institutions of higher education with established expertise in engineering for carbon capture technologies, or partnerships with such institutions of higher education; or

(iii) have access to existing research and test facilities for bulk materials design and testing, component design and testing, or professional engineering design.

(D) Existing centers

In selecting entities to receive grants under this subsection, the Secretary shall prioritize carbon capture test centers in existence on December 27, 2020.

(4) Formula for awarding grants

The Secretary may develop a formula for awarding grants under this subsection.

(5) Schedule

(A) In general

Each grant awarded under this subsection shall be for a term of not more than 5 years, subject to the availability of appropriations.

(B) Renewal

The Secretary may renew a grant for 1 or more additional 5-year terms, subject to a competitive merit review and the availability of appropriations.

(6) Termination

To the extent otherwise authorized by law, the Secretary may eliminate, and terminate grant funding under this subsection for, a Center during any 5-year term described in paragraph (5) if the Secretary determines that the Center is underperforming.

(7) Authorization of appropriations

There is authorized to be appropriated to carry out this subsection $25,000,000 for each of fiscal years 2021 through 2025.

(Pub. L. 109–58, title IX, §962, as added Pub. L. 116–260, div. Z, title IV, §4002(a), Dec. 27, 2020, 134 Stat. 2528; Pub. L. 117–58, div. D, title III, §40303, Nov. 15, 2021, 135 Stat. 988.)

EDITORIAL NOTES

PRIOR PROVISIONS

A prior section 16292, Pub. L. 109–58, title IX, §962, Aug. 8, 2005, 119 Stat. 890, related to coal and related technologies program, prior to repeal by Pub. L. 116–260, div. Z, title IV, §4002(a), Dec. 27, 2020, 134 Stat. 2528.

AMENDMENTS

2021—Subsec. (b)(2)(D). Pub. L. 117–58, §40303(1)(B), substituted "program for carbon capture technologies; and" for "program."

Subsec. (b)(2)(E). Pub. L. 117–58, §40303(1)(A), (C), added subpar. (E).

Subsec. (d)(1)(E). Pub. L. 117–58, §40303(2), added subpar. (E).

STATUTORY NOTES AND RELATED SUBSIDIARIES

FINDINGS

Pub. L. 117–58, div. D, title III, §40301, Nov. 15, 2021, 135 Stat. 986, provided that: "Congress finds that—

"(1) the industrial sector is integral to the economy of the United States—

"(A) providing millions of jobs and essential products; and

"(B) demonstrating global leadership in manufacturing and innovation;

"(2) carbon capture and storage technologies are necessary for reducing hard-to-abate emissions from the industrial sector, which emits nearly 25 percent of carbon dioxide emissions in the United States;

"(3) carbon removal and storage technologies, including direct air capture, must be deployed at large-scale in the coming decades to remove carbon dioxide directly from the atmosphere;

"(4) large-scale deployment of carbon capture, removal, utilization, transport, and storage—

"(A) is critical for achieving mid-century climate goals; and

"(B) will drive regional economic development, technological innovation, and high-wage employment;

"(5) carbon capture, removal, and utilization technologies require a backbone system of shared carbon dioxide transport and storage infrastructure to enable large-scale deployment, realize economies of scale, and create an interconnected carbon management market;

"(6) carbon dioxide transport infrastructure and permanent geological storage are proven and safe technologies with existing Federal and State regulatory frameworks;

"(7) carbon dioxide transport and storage infrastructure share similar barriers to deployment previously faced by other types of critical national infrastructure, such as high capital costs and chicken-and-egg challenges, that require Federal and State support, in combination with private investment, to be overcome; and

"(8) each State should take into consideration, with respect to new carbon dioxide transportation infrastructure—

"(A) qualifying the infrastructure as pollution control devices under applicable laws (including regulations) of the State; and

"(B) establishing a waiver of ad valorem and property taxes for the infrastructure for a period of not less than 10 years."

§16293. Carbon storage validation and testing

(a) Definitions

In this section:

(1) Large-scale carbon sequestration

The term "large-scale carbon sequestration" means a scale that—

(A) demonstrates the ability to inject into geologic formations and sequester carbon dioxide; and

(B) has a goal of sequestering not less than 50 million metric tons of carbon dioxide.

(2) Program

The term "program" means the program established under subsection (b)(1).

(b) Carbon storage program

(1) In general

The Secretary shall establish a program of research, development, demonstration, and commercialization for carbon storage.

(2) Program activities

Activities under the program shall include—

(A) in coordination with relevant Federal agencies, developing and maintaining mapping tools and resources that assess the capacity of geologic storage formation in the United States;

(B) developing monitoring tools, modeling of geologic formations, and analyses—

(i) to predict carbon dioxide containment; and

(ii) to account for sequestered carbon dioxide in geologic storage sites;

(C) researching—

(i) potential environmental, safety, and health impacts in the event of a leak into the atmosphere or to an aquifer; and

(ii) any corresponding mitigation actions or responses to limit harmful consequences of such a leak;

(D) evaluating the interactions of carbon dioxide with formation solids and fluids, including the propensity of injections to induce seismic activity;

(E) assessing and ensuring the safety of operations relating to geologic sequestration of carbon dioxide;

(F) determining the fate of carbon dioxide concurrent with and following injection into geologic formations;

(G) supporting cost and business model assessments to examine the economic viability of technologies and systems developed under the program;

(H) providing information to the Environmental Protection Agency, States, local governments, Tribal governments, and other appropriate entities, to ensure the protection of human health and the environment; and

(I) evaluating the quantity, location, and timing of geologic carbon storage deployment that may be needed, and developing strategies and resources to enable the deployment.

(3) Geologic settings

In carrying out research activities under this subsection, the Secretary shall consider a variety of candidate onshore and offshore geologic settings, including—

(A) operating oil and gas fields;

(B) depleted oil and gas fields;

(C) residual oil zones;

(D) unconventional reservoirs and rock types;

(E) unmineable coal seams;

(F) saline formations in both sedimentary and basaltic geologies;

(G) geologic systems that may be used as engineered reservoirs to extract economical quantities of brine from geothermal resources of low permeability or porosity; and

(H) geologic systems containing in situ carbon dioxide mineralization formations.

(c) Large-scale carbon sequestration demonstration program

(1) In general

The Secretary shall establish a demonstration program under which the Secretary shall provide funding for demonstration projects to collect and validate information on the cost and feasibility of commercial deployment of large-scale carbon sequestration technologies.

(2) Existing regional carbon sequestration partnerships

In carrying out paragraph (1), the Secretary may provide additional funding to regional carbon sequestration partnerships that are carrying out or have completed a large-scale carbon sequestration demonstration project under this section (as in effect on the day before December 27, 2020) for additional work on that project.

(3) Demonstration components

Each demonstration project carried out under this subsection shall include longitudinal tests involving carbon dioxide injection and monitoring, mitigation, and verification operations.

(4) Clearinghouse

The National Energy Technology Laboratory shall act as a clearinghouse of shared information and resources for—

(A) existing or completed demonstration projects receiving additional funding under paragraph (2); and

(B) any new demonstration projects funded under this subsection.

(5) Report

Not later than 1 year after December 27, 2020, the Secretary shall submit to the Committee on Energy and Natural Resources of the Senate and the Committee on Science, Space, and Technology of the House of Representatives a report that—

(A) assesses the progress of all regional carbon sequestration partnerships carrying out a demonstration project under this subsection;

(B) identifies the remaining challenges in achieving large-scale carbon sequestration that is reliable and safe for the environment and public health; and

(C) creates a roadmap for carbon storage research and development activities of the Department through 2025, with the goal of reducing economic and policy barriers to commercial carbon sequestration.

(d) Integrated storage

(1) In general

The Secretary may transition large-scale carbon sequestration demonstration projects under subsection (c) into integrated commercial storage complexes.

(2) Goals and objectives

The goals and objectives of the Secretary in seeking to transition large-scale carbon sequestration demonstration projects into integrated commercial storage complexes under paragraph (1) shall be—

(A) to identify geologic storage sites that are able to accept large volumes of carbon dioxide acceptable for commercial contracts;

(B) to understand the technical and commercial viability of carbon dioxide geologic storage sites; and

(C) to carry out any other activities necessary to transition the large-scale carbon sequestration demonstration projects under subsection (c) into integrated commercial storage complexes.

(e) Large-scale carbon storage commercialization program

(1) In general

The Secretary shall establish a commercialization program under which the Secretary shall provide funding for the development of new or expanded commercial large-scale carbon sequestration projects and associated carbon dioxide transport infrastructure, including funding for the feasibility, site characterization, permitting, and construction stages of project development.

(2) Applications; selection

(A) In general

To be eligible to enter into an agreement with the Secretary for funding under paragraph (1),

an entity shall submit to the Secretary an application at such time, in such manner, and containing such information as the Secretary determines to be appropriate.

(B) Application process

The Secretary shall establish an application process that, to the maximum extent practicable—

(i) is open to projects at any stage of development described in paragraph (1); and

(ii) facilitates expeditious development of projects described in that paragraph.

(C) Project selection

In selecting projects for funding under paragraph (1), the Secretary shall give priority to—

(i) projects with substantial carbon dioxide storage capacity; or

(ii) projects that will store carbon dioxide from multiple carbon capture facilities.

(f) Preference in project selection from meritorious proposals

In making competitive awards under this section, subject to the requirements of section 16353 of this title, the Secretary shall—

(1) with respect to the research, development, demonstration program components described in subsections (b) through (d) give preference to proposals from partnerships among industrial, academic, and government entities; and

(2) require recipients to provide assurances that all laborers and mechanics employed by contractors and subcontractors in the construction, repair, or alteration of new or existing facilities performed in order to carry out a demonstration or commercial application activity authorized under this section shall be paid wages at rates not less than those prevailing on similar construction in the locality, as determined by the Secretary of Labor in accordance with subchapter IV of chapter 31 of title 40, and the Secretary of Labor shall, with respect to the labor standards in this paragraph, have the authority and functions set forth in Reorganization Plan Numbered 14 of 1950 (15 Fed. Reg. 3176; 5 U.S.C. Appendix) and section 3145 of title 40.

(g) Cost sharing

Activities carried out under this section shall be subject to the cost-sharing requirements of section 16352 of this title.

(h) Authorization of appropriations

There is authorized to be appropriated to the Secretary to carry out this section $2,500,000,000 for the period of fiscal years 2022 through 2026.

(Pub. L. 109–58, title IX, §963, Aug. 8, 2005, 119 Stat. 891; Pub. L. 110–140, title VII, §702(a), Dec. 19, 2007, 121 Stat. 1704; Pub. L. 116–260, div. Z, title IV, §4003(a), Dec. 27, 2020, 134 Stat. 2536; Pub. L. 117–58, div. D, title III, §40305, Nov. 15, 2021, 135 Stat. 1001.)

EDITORIAL NOTES

AMENDMENTS

2021—Subsec. (a)(1)(B). Pub. L. 117–58, §40305(1), struck out "over a 10-year period" after "carbon dioxide".

Subsec. (b)(1). Pub. L. 117–58, §40305(2)(A), substituted "demonstration, and commercialization" for "and demonstration".

Subsec. (b)(2)(I). Pub. L. 117–58, §40305(2)(B), added subpar. (I).

Subsec. (e). Pub. L. 117–58, §40305(3), (4), added subsec. (e) and redesignated former subsec. (e) as (f).

Subsec. (f). Pub. L. 117–58, §40305(3), redesignated subsec. (e) as (f). Former subsec. (f) redesignated (g).

Subsec. (f)(1). Pub. L. 117–58, §40305(5), inserted "with respect to the research, development, demonstration program components described in subsections (b) through (d)" before "give preference".

Subsec. (g). Pub. L. 117–58, §40305(3), redesignated subsec. (f) as (g). Former subsec. (g) redesignated (h).

Subsec. (h). Pub. L. 117–58, §40305(6), added subsec. (h) and struck out former subsec. (h) which authorized appropriations for fiscal years 2021 to 2025.

Pub. L. 117–58, §40305(3), redesignated subsec. (g) as (h).

2020—Pub. L. 116–260, §4003(a)(4), substituted "Carbon storage validation and testing" for "Carbon capture and sequestration research, development, and demonstration program" in section catchline.

Subsecs. (a), (b). Pub. L. 116–260, §4003(a)(4), added subsecs. (a) and (b) and struck out former subsecs. (a) and (b) which related to the establishment of a carbon capture and sequestration research, development, and demonstration program and program objectives.

Subsec. (c). Pub. L. 116–260, §4003(a)(4), added subsec. (c) and struck out pars. (1) to (3) of former subsec. (c) which related to fundamental science and engineering research and development and demonstration supporting carbon capture and sequestration technologies and carbon use activities, field validation testing activities, and large-scale carbon dioxide sequestration testing, respectively.

Subsec. (c)(4). Pub. L. 116–260, §4003(a)(2)(B), redesignated par. (4) as subsec. (e).

Subsec. (c)(5), (6). Pub. L. 116–260, §4003(a)(2)(A), struck out pars. (5) and (6) which related to cost sharing and program review and report.

Subsec. (d). Pub. L. 116–260, §4003(a)(4), added subsec. (d).

Pub. L. 116–260, §4003(a)(1), struck out subsec. (d) which authorized appropriations for fiscal years 2008 to 2012.

Subsec. (e). Pub. L. 116–260, §4003(a)(3), redesignated subpars. (A) and (B) as pars. (1) and (2), respectively, substituted "section" for "subsection" in introductory provisions and in par. (2), and realigned margins.

Pub. L. 116–260, §4003(a)(2)(B), redesignated par. (4) of subsec. (c) as (e).

Subsec. (f). Pub. L. 116–260, §4003(a)(2)(A), added subsec. (f).

Subsec. (g). Pub. L. 116–260, §4003(a)(1), added subsec. (g).

2007—Pub. L. 110–140, §702(a)(1), substituted "and sequestration research, development, and demonstration" for "research and development" in section catchline.

Subsec. (a). Pub. L. 110–140, §702(a)(2), in introductory provisions, substituted "and sequestration research, development, and demonstration" for "research and development" and "capture and sequestration technologies related to industrial sources of carbon dioxide" for "capture technologies on combustion-based systems".

Subsec. (b)(5). Pub. L. 110–140, §702(a)(3), added par. (5).

Subsecs. (c), (d). Pub. L. 110–140, §702(a)(4), added subsecs. (c) and (d) and struck out former subsec. (c). Text of former subsec. (c) read as follows: "From amounts authorized under section 16291(b) of this title, the following sums are authorized for activities described in subsection (a)(2):

"(1) $25,000,000 for fiscal year 2006;

"(2) $30,000,000 for fiscal year 2007; and

"(3) $35,000,000 for fiscal year 2008."

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE OF 2007 AMENDMENT

Amendment by Pub. L. 110–140 effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as an Effective Date note under section 1824 of Title 2, The Congress.

§16294. Research and development for coal mining technologies

(a) Establishment

The Secretary shall carry out a program for research and development on coal mining technologies.

(b) Cooperation

In carrying out the program, the Secretary shall cooperate with appropriate Federal agencies, coal producers, trade associations, equipment manufacturers, institutions of higher education with mining engineering departments, and other relevant entities.

(c) Program

The research and development activities carried out under this section shall—

(1) be guided by the mining research and development priorities identified by the Mining Industry of the Future Program and in the recommendations from relevant reports of the National

Academy of Sciences on mining technologies;

(2) include activities exploring minimization of contaminants in mined coal that contribute to environmental concerns including development and demonstration of electromagnetic wave imaging ahead of mining operations;

(3) develop and demonstrate coal bed electromagnetic wave imaging, spectroscopic reservoir analysis technology, and techniques for horizontal drilling in order to—

(A) identify areas of high coal gas content;

(B) increase methane recovery efficiency;

(C) prevent spoilage of domestic coal reserves; and

(D) minimize water disposal associated with methane extraction; and

(4) expand mining research capabilities at institutions of higher education.

(Pub. L. 109–58, title IX, §964, Aug. 8, 2005, 119 Stat. 892.)

§16295. Oil and gas research programs

(a) In general

The Secretary shall conduct a program of research, development, demonstration, and commercial application of oil and gas, including—

(1) exploration and production;

(2) gas hydrates;

(3) reservoir life and extension;

(4) transportation and distribution infrastructure;

(5) ultraclean fuels;

(6) heavy oil, oil shale, and tar sands; and

(7) related environmental research.

(b) Objectives

The objectives of this program shall include advancing the science and technology available to domestic petroleum producers, particularly independent operators, to minimize the economic dislocation caused by the decline of domestic supplies of oil and natural gas resources.

(c) Natural gas and oil deposits report

Not later than 2 years after August 8, 2005, and every 2 years thereafter, the Secretary of the Interior, in consultation with other appropriate Federal agencies, shall submit to Congress a report on the latest estimates of natural gas and oil reserves, reserves growth, and undiscovered resources in Federal and State waters off the coast of Louisiana, Texas, Alabama, and Mississippi.

(d) Integrated clean power and energy research

(1) Establishment of center

The Secretary shall establish a national center or consortium of excellence in clean energy and power generation, using the resources of the Clean Power and Energy Research Consortium in existence on August 8, 2005, to address the critical dependence of the United States on energy and the need to reduce emissions.

(2) Focus areas

The center or consortium shall conduct a program of research, development, demonstration, and commercial application on integrating the following 6 focus areas:

(A) Efficiency and reliability of gas turbines for power generation.

(B) Reduction in emissions from power generation.

(C) Promotion of energy conservation issues.

(D) Effectively using alternative fuels and renewable energy.

(E) Development of advanced materials technology for oil and gas exploration and use in

harsh environments.

(F) Education on energy and power generation issues.

(Pub. L. 109–58, title IX, §965, Aug. 8, 2005, 119 Stat. 892.)

§16296. Low-volume oil and gas reservoir research program

(a) Definition of GIS

In this section, the term "GIS" means geographic information systems technology that facilitates the organization and management of data with a geographic component.

(b) Program

The Secretary shall establish a program of research, development, demonstration, and commercial application to maximize the productive capacity of marginal wells and reservoirs.

(c) Data collection

Under the program, the Secretary shall collect data on—

(1) the status and location of marginal wells and oil and gas reservoirs;

(2) the production capacity of marginal wells and oil and gas reservoirs;

(3) the location of low-pressure gathering facilities and pipelines; and

(4) the quantity of natural gas vented or flared in association with crude oil production.

(d) Analysis

Under the program, the Secretary shall—

(1) estimate the remaining producible reserves based on variable pipeline pressures; and

(2) recommend measures that will enable the continued production of those resources.

(e) Study

(1) In general

The Secretary may award a grant to an organization of States that contain significant numbers of marginal oil and natural gas wells to conduct an annual study of low-volume natural gas reservoirs.

(2) Organization with no GIS capabilities

If an organization receiving a grant under paragraph (1) does not have GIS capabilities, the organization shall contract with an institution of higher education with GIS capabilities.

(3) State geologists

The organization receiving a grant under paragraph (1) shall collaborate with the State geologist of each State being studied.

(f) Public information

The Secretary may use the data collected and analyzed under this section to produce maps and literature to disseminate to States to promote conservation of natural gas reserves.

(Pub. L. 109–58, title IX, §966, Aug. 8, 2005, 119 Stat. 893.)

§16297. Complex Well Technology Testing Facility

The Secretary, in coordination with industry leaders in extended research drilling technology, shall establish a Complex Well Technology Testing Facility at the Rocky Mountain Oilfield Testing Center to increase the range of extended drilling technologies.

(Pub. L. 109–58, title IX, §967, Aug. 8, 2005, 119 Stat. 894.)

§16298. Carbon utilization program

(a) In general

The Secretary, in consultation with the Administrator of the Environmental Protection Agency, shall carry out a program of research, development, demonstration, and commercialization relating to carbon utilization.

(b) Activities

Under the program described in subsection (a), the Secretary shall—

(1) assess and monitor—

(A) potential changes in lifecycle carbon dioxide and other greenhouse gas emissions; and

(B) other environmental safety indicators of new technologies, practices, processes, or methods used in enhanced hydrocarbon recovery as part of the activities authorized under section 16293 of this title;

(2) identify and evaluate novel uses for carbon (including conversion of carbon oxides) that, on a full lifecycle basis, achieve a permanent reduction, or avoidance of a net increase, in carbon dioxide in the atmosphere, for use in commercial and industrial products such as—

(A) chemicals;

(B) plastics;

(C) building materials;

(D) fuels;

(E) cement;

(F) products of coal utilization in power systems or in other applications; and

(G) other products with demonstrated market value;

(3) identify and assess carbon capture technologies for industrial systems; and

(4) identify and assess alternative uses for coal that result in zero net emissions of carbon dioxide or other pollutants, including products derived from carbon engineering, carbon fiber, and coal conversion methods.

(c) Prioritization

In supporting demonstration and commercialization research under the program described in subsection (a), the Secretary shall prioritize consideration of projects that—

(1) have access to a carbon dioxide emissions stream generated by a stationary source in the United States that is capable of supplying not less than 250 metric tons per day of carbon dioxide for research;

(2) have access to equipment for testing small-scale carbon dioxide utilization technologies, with onsite access to larger test bays for scale-up; and

(3) have 1 or more existing partnerships with a National Laboratory, an institution of higher education, a private company, or a State or other government entity.

(d) Coordination

The Secretary shall coordinate the activities authorized under this section with the activities authorized in section 16298a of this title as part of a single consolidated program of the Department.

(e) Authorization of appropriations

There is authorized to be appropriated to the Secretary to carry out this section $50,000,000, to remain available until expended.

(Pub. L. 109–58, title IX, §969, as added Pub. L. 116–260, div. S, §102(c)(1), Dec. 27, 2020, 134 Stat. 2248.)

§16298a. Carbon utilization program

(a) In general

The Secretary shall establish a program of research, development, and demonstration for carbon utilization—

(1) to assess and monitor—

(A) potential changes in lifecycle carbon dioxide and other greenhouse gas emissions; and

(B) other environmental safety indicators of new technologies, practices, processes, or methods used in enhanced hydrocarbon recovery as part of the activities authorized under section 16293 of this title;

(2) to identify and assess novel uses for carbon, including the conversion of carbon and carbon oxides for commercial and industrial products and other products with potential market value;

(3) to develop or obtain, in coordination with other applicable Federal agencies and standard-setting organizations, standards and certifications, as appropriate, to facilitate the commercialization of the products and technologies described in paragraph (2);

(4) to identify and assess carbon capture technologies for industrial systems; and

(5) to identify and assess alternative uses for raw coal and processed coal products in all phases that result in no significant emissions of carbon dioxide or other pollutants, including products derived from carbon engineering, carbon fiber, and coal conversion methods.

(b) Demonstration programs for the purpose of commercialization

(1) In general

Not later than 180 days after December 27, 2020, as part of the program established under subsection (a), the Secretary shall establish a 2-year demonstration program in each of the 2 major coal-producing regions of the United States for the purpose of partnering with private institutions in coal mining regions to accelerate the commercial deployment of coal-carbon products.

(2) Grant program

(A) In general

Not later than 1 year after November 15, 2021, the Secretary shall establish a program to provide grants to eligible entities to use in accordance with subparagraph (D).

(B) Eligible entities

To be eligible to receive a grant under this paragraph, an entity shall be—

(i) a State;

(ii) a unit of local government; or

(iii) a public utility or agency.

(C) Applications

Eligible entities desiring a grant under this paragraph shall submit to the Secretary an application at such time, in such manner, and containing such information as the Secretary determines to be appropriate.

(D) Use of funds

An eligible entity shall use a grant received under this paragraph to procure and use commercial or industrial products that—

(i) use or are derived from anthropogenic carbon oxides; and

(ii) demonstrate significant net reductions in lifecycle greenhouse gas emissions compared to incumbent technologies, processes, and products.

(3) Cost sharing

Activities under this subsection shall be subject to the cost-sharing requirements of section 16352 of this title.

(c) Carbon Utilization Research Center

(1) In general

In carrying out the program under subsection (a), the Secretary shall establish and operate a national Carbon Utilization Research Center (referred to in this subsection as the "Center"), which shall focus on early stage research and development activities including—

(A) post-combustion and pre-combustion capture of carbon dioxide;

(B) advanced compression technologies for new and existing fossil fuel-fired power plants;

(C) technologies to convert carbon dioxide to valuable products and commodities; and

(D) advanced carbon dioxide storage technologies that consider a range of storage regimes.

(2) Selection

The Secretary shall—

(A) select the Center under this subsection on a competitive, merit-reviewed basis; and

(B) consider applications from the National Laboratories, institutions of higher education, multiinstitutional collaborations, and other appropriate entities.

(3) Existing centers

In selecting the Center under this subsection, the Secretary shall prioritize carbon utilization research centers in existence on December 27, 2020.

(4) Duration

The Center established under this subsection shall receive support for a period of not more than 5 years, subject to the availability of appropriations.

(5) Renewal

On the expiration of any period of support of the Center, the Secretary may renew support for the Center, on a merit-reviewed basis, for a period of not more than 5 years.

(6) Termination

Consistent with the existing authorities of the Department, the Secretary may terminate the Center for cause during the performance period.

(d) Authorization of appropriations

There are authorized to be appropriated to the Secretary to carry out this section—

(1) $41,000,000 for fiscal year 2022;

(2) $65,250,000 for fiscal year 2023;

(3) $66,562,500 for fiscal year 2024;

(4) $67,940,625 for fiscal year 2025; and

(5) $69,387,656 for fiscal year 2026.

(e) Coordination

The Secretary shall coordinate the activities authorized in this section with the activities authorized in section 16298 of this title as part of one consolidated program at the Department. Nothing in section 16298 of this title shall be construed as limiting the authorities provided in this section.

(Pub. L. 109–58, title IX, §969A, as added Pub. L. 116–260, div. Z, title IV, §4004(a)(1), Dec. 27, 2020, 134 Stat. 2539; Pub. L. 117–58, div. D, title III, §40302, Nov. 15, 2021, 135 Stat. 987.)

EDITORIAL NOTES

AMENDMENTS

2021—Subsec. (a)(3) to (5). Pub. L. 117–58, §40302(1), added par. (3) and redesignated former pars. (3) and (4) as (4) and (5), respectively.

Subsec. (b)(2), (3). Pub. L. 117–58, §40302(2), added par. (2), redesignated former par. (2) as (3), and, in par. (3), substituted "this subsection" for "paragraph (1)".

Subsec. (d). Pub. L. 117–58, §40302(3), added subsec. (d) and struck out former subsec. (d) which provided appropriations for fiscal years 2021 to 2025.

§16298b. High efficiency turbines

(a) In general

The Secretary, acting through the Assistant Secretary for Fossil Energy (referred to in this section as the "Secretary"), shall establish a multiyear, multiphase program (referred to in this section as the "program") of research, development, and technology demonstration to improve the efficiency of gas turbines used in power generation systems and aviation.

(b) Program elements

The program shall—

(1) support first-of-a-kind engineering and detailed gas turbine design for small-scale and utility-scale electric power generation, including—

(A) high temperature materials, including superalloys, coatings, and ceramics;

(B) improved heat transfer capability;

(C) manufacturing technology required to construct complex 3-dimensional geometry parts with improved aerodynamic capability;

(D) combustion technology to produce higher firing temperature while lowering nitrogen oxide and carbon monoxide emissions per unit of output;

(E) advanced controls and systems integration;

(F) advanced high performance compressor technology; and

(G) validation facilities for the testing of components and subsystems;

(2) include technology demonstration through component testing, subscale testing, and full-scale testing in existing fleets;

(3) include field demonstrations of the developed technology elements to demonstrate technical and economic feasibility;

(4) assess overall combined cycle and simple cycle system performance;

(5) increase fuel flexibility by enabling gas turbines to operate with high proportions of, or pure, hydrogen or other renewable gas fuels;

(6) enhance foundational knowledge needed for low-emission combustion systems that can work in high-pressure, high-temperature environments required for high-efficiency cycles;

(7) increase operational flexibility by reducing turbine start-up times and improving the ability to accommodate flexible power demand; and

(8) include any other elements necessary to achieve the goals described in subsection (c), as determined by the Secretary, in consultation with private industry.

(c) Program goals

(1) In general

The goals of the program shall be—

(A) in phase I, to develop a conceptual design of, and to develop and demonstrate the technology required for—

(i) advanced high efficiency gas turbines to achieve, on a lower heating value basis—

(I) a combined cycle efficiency of not less than 65 percent; or

(II) a simple cycle efficiency of not less than 47 percent; and

(ii) aviation gas turbines to achieve a 25 percent reduction in fuel burn by improving fuel efficiency to existing best-in-class turbo-fan engines; and

(B) in phase II, to develop a conceptual design of advanced high efficiency gas turbines that can achieve, on a lower heating value basis—

(i) a combined cycle efficiency of not less than 67 percent; or

(ii) a simple cycle efficiency of not less than 50 percent.

(2) Additional goals

If a goal described in paragraph (1) has been achieved, the Secretary, in consultation with private industry and the National Academy of Sciences, may develop additional goals or phases for advanced gas turbine research and development.

(d) Financial assistance

(1) In general

The Secretary may provide financial assistance, including grants, to carry out the program.

(2) Proposals

Not later than 180 days after December 27, 2020, the Secretary shall solicit proposals from industry, small businesses, universities, and other appropriate parties for conducting activities under this section.

(3) Considerations

In selecting proposed projects to receive financial assistance under this subsection, the Secretary shall give special consideration to the extent to which the proposed project will—

(A) stimulate the creation or increased retention of jobs in the United States; and

(B) promote and enhance technology leadership in the United States.

(4) Competitive awards

The Secretary shall provide financial assistance under this subsection on a competitive basis, with an emphasis on technical merit.

(5) Cost sharing

Financial assistance provided under this subsection shall be subject to the cost sharing requirements of section 16352 of this title.

(e) Authorization of appropriations

There is authorized to be appropriated to carry out this section $50,000,000 for each of fiscal years 2021 through 2025.

(Pub. L. 109–58, title IX, §969B, as added Pub. L. 116–260, div. Z, title IV, §4005(a), Dec. 27, 2020, 134 Stat. 2542.)

§16298c. National Energy Technology Laboratory reforms

(a) Special hiring authority for scientific, engineering, and project management personnel

(1) In general

The Director of the National Energy Technology Laboratory (referred to in this section as the "Director") may—

(A) make appointments to positions in the National Energy Technology Laboratory to assist in meeting a specific project or research need, without regard to civil service laws, of individuals who—

(i) have an advanced scientific or engineering background; or

(ii) have a business background and can assist in specific technology-to-market needs;

(B) fix the basic pay of any employee appointed under subparagraph (A) at a rate not to exceed level II of the Executive Schedule under section 5313 of title 5; and

(C) pay any employee appointed under subparagraph (A) payments in addition to the basic pay fixed under subparagraph (B), subject to the condition that the total amount of additional payments paid to an employee under this subparagraph for any 12-month period shall not exceed the least of—

(i) $25,000;

(ii) the amount equal to 25 percent of the annual rate of basic pay of that employee; and

(iii) the amount of the limitation that is applicable for a calendar year under section

5307(a)(1) of title 5.

(2) Limitations

(A) In general

The term of any employee appointed under paragraph (1)(A) shall not exceed 3 years.

(B) Full-time employees

Not more than 10 full-time employees appointed under paragraph (1)(A) may be employed at the National Energy Technology Laboratory at any given time.

(b) Laboratory-directed research and development

(1) In general

Beginning in fiscal year 2021, the National Energy Technology Laboratory shall be eligible for laboratory-directed research and development funding.

(2) Authorization of funding

(A) In general

Each fiscal year, of funds made available to the National Energy Technology Laboratory, the Secretary may deposit an amount, not to exceed the rate made available to the National Laboratories for laboratory-directed research and development, in a special fund account.

(B) Use

Amounts in the account under subparagraph (A) shall only be available for laboratory-directed research and development.

(C) Requirements

The account under subparagraph (A)—

(i) shall be administered by the Secretary;

(ii) shall be available without fiscal year limitation; and

(iii) shall not be subject to appropriation.

(3) Requirement

The Director shall carry out laboratory-directed research and development activities at the National Energy Technology Laboratory consistent with Department of Energy Order 413.2C, dated August 2, 2018 (or a successor order).

(4) Annual report on use of authority

Annually, the Secretary shall submit to the Committee on Energy and Natural Resources of the Senate and the Committee on Science, Space, and Technology of the House of Representatives a report on the use of the authority provided under this subsection during the preceding fiscal year.

(c) Laboratory operations

The Secretary shall delegate human resources operations of the National Energy Technology Laboratory to the Director to assist in carrying out this section.

(d) Review

Not later than 2 years after December 27, 2020, the Secretary shall submit to the Committee on Energy and Natural Resources of the Senate and the Committee on Science, Space, and Technology of the House of Representatives a report assessing the management and research activities of the National Energy Technology Laboratory, which shall include—

(1) an assessment of the quality of science and research at the National Energy Technology Laboratory, relative to similar work at other National Laboratories;

(2) a review of the effectiveness of authorities provided in subsections (a) and (b); and

(3) recommendations for policy changes within the Department and legislative changes to provide the National Energy Technology Laboratory with the necessary tools and resources to advance the research mission of the National Energy Technology Laboratory.

(Pub. L. 109–58, title IX, §969C, as added Pub. L. 116–260, div. Z, title IV, §4006(a), Dec. 27, 2020, 134 Stat. 2544.)

§16298d. Carbon removal

(a) Establishment

The Secretary, in coordination with the heads of appropriate Federal agencies, including the Secretary of Agriculture, shall establish a research, development, and demonstration program (referred to in this section as the "program") to test, validate, or improve technologies and strategies to remove carbon dioxide from the atmosphere on a large scale.

(b) Intraagency coordination

The Secretary shall ensure that the program includes the coordinated participation of the Office of Fossil Energy, the Office of Science, and the Office of Energy Efficiency and Renewable Energy.

(c) Program activities

The program may include research, development, and demonstration activities relating to—

(1) direct air capture and storage technologies;
(2) bioenergy with carbon capture and sequestration;
(3) enhanced geological weathering;
(4) agricultural practices;
(5) forest management and afforestation; and
(6) planned or managed carbon sinks, including natural and artificial.

(d) Requirements

In developing and identifying carbon removal technologies and strategies under the program, the Secretary shall consider—

(1) land use changes, including impacts on natural and managed ecosystems;
(2) ocean acidification;
(3) net greenhouse gas emissions;
(4) commercial viability;
(5) potential for near-term impact;
(6) potential for carbon reductions on a gigaton scale; and
(7) economic cobenefits.

(e) Air capture prize competitions

(1) Definitions

In this subsection:

(A) Dilute media

The term "dilute media" means media in which the concentration of carbon dioxide is less than 1 percent by volume.

(B) Prize competition

The term "prize competition" means the competitive technology prize competition established under paragraph (2).

(C) Qualified carbon dioxide

(i) In general

The term "qualified carbon dioxide" means any carbon dioxide that—

(I) is captured directly from the ambient air; and

(II) is measured at the source of capture and verified at the point of disposal, injection, or utilization.

(ii) Inclusion

The term "qualified carbon dioxide" includes the initial deposit of captured carbon dioxide used as a tertiary injectant.

(iii) Exclusion

The term "qualified carbon dioxide" does not include carbon dioxide that is recaptured, recycled, and reinjected as part of the enhanced oil and natural gas recovery process.

(D) Qualified direct air capture facility

(i) In general

The term "qualified direct air capture facility" means any facility that—

(I) uses carbon capture equipment to capture carbon dioxide directly from the ambient air; and

(II) captures more than 50,000 metric tons of qualified carbon dioxide annually.

(ii) Exclusion

The term "qualified direct air capture facility" does not include any facility that captures carbon dioxide—

(I) that is deliberately released from naturally occurring subsurface springs; or

(II) using natural photosynthesis.

(2) Establishment

Not later than 2 years after December 27, 2020, the Secretary, in consultation with the Administrator of the Environmental Protection Agency, shall establish as part of the program a competitive technology prize competition to award prizes for—

(A) precommercial carbon dioxide capture from dilute media; and

(B) commercial applications of direct air capture technologies.

(3) Requirements

In carrying out this subsection, the Secretary, in accordance with section 3719 of title 15, shall develop requirements for—

(A) the prize competition process; and

(B) monitoring and verification procedures for projects selected to receive a prize under the prize competition.

(4) Eligible projects

(A) Precommercial air capture projects

With respect to projects described in paragraph (2)(A), to be eligible to be awarded a prize under the prize competition, a project shall—

(i) meet minimum performance standards set by the Secretary;

(ii) meet minimum levels set by the Secretary for the capture of carbon dioxide from dilute media; and

(iii) demonstrate in the application of the project for a prize—

(I) a design for a promising carbon capture technology that will—

(aa) be operated on a demonstration scale; and

(bb) have the potential to achieve significant reduction in the level of carbon dioxide in the atmosphere;

(II) a successful bench-scale demonstration of a carbon capture technology; or

(III) an operational carbon capture technology on a commercial scale.

(B) Commercial direct air capture projects

(i) In general

With respect to projects described in paragraph (2)(B), the Secretary shall award prizes under the prize competition to qualified direct air capture facilities for metric tons of qualified carbon dioxide captured and verified at the point of disposal, injection, or utilization.

(ii) Amount of award

The amount of the award per metric ton under clause (i)—

(I) shall be equal for each qualified direct air capture facility selected for a prize under the prize competition; and

(II) shall be determined by the Secretary and in any case shall not exceed—

(aa) $180 for qualified carbon dioxide captured and stored in saline storage formations;

(bb) a lesser amount, as determined by the Secretary, for qualified carbon dioxide captured and stored in conjunction with enhanced oil recovery operations; or

(cc) a lesser amount, as determined by the Secretary, for qualified carbon dioxide captured and utilized in any activity consistent with section 45Q(f)(5) of title 26.

(iii) Requirement

The Secretary shall make awards under this subparagraph until appropriated funds are expended.

(f) Direct air capture test center

(1) In general

Not later than 2 years after December 27, 2020, the Secretary shall award grants to 1 or more entities for the operation of 1 or more test centers (referred to in this subsection as a "Center") to provide distinct testing capabilities for innovative direct air capture and storage technologies.

(2) Purpose

Each Center shall—

(A) advance research, development, demonstration, and commercial application of direct air capture and storage technologies;

(B) support large-scale pilot and demonstration projects and test direct air capture and storage technologies; and

(C) develop front-end engineering design and economic analysis.

(3) Selection

(A) In general

The Secretary shall select entities to receive grants under this subsection according to such criteria as the Secretary may develop.

(B) Competitive basis

The Secretary shall select entities to receive grants under this subsection on a competitive basis.

(C) Priority criteria

In selecting entities to receive grants under this subsection, the Secretary shall prioritize consideration of applicants that—

(i) have access to existing or planned research facilities for direct air capture and storage technologies;

(ii) are institutions of higher education with established expertise in engineering for direct air capture and storage technologies, or partnerships with such institutions of higher education; or

(iii) have access to existing research and test facilities for bulk materials design and testing, component design and testing, or professional engineering design.

(4) Formula for awarding grants

The Secretary may develop a formula for awarding grants under this subsection.

(5) Schedule

(A) In general

Each grant awarded under this subsection shall be for a term of not more than 5 years, subject to the availability of appropriations.

(B) Renewal

The Secretary may renew a grant for 1 or more additional 5-year terms, subject to a competitive merit review and the availability of appropriations.

(6) Termination

To the extent otherwise authorized by law, the Secretary may eliminate, and terminate grant funding under this subsection for, a Center during any 5-year term described in paragraph (5) if the Secretary determines that the Center is underperforming.

(g) Pilot and demonstration projects

In supporting the technology development activities under this section, the Secretary is encouraged to support carbon removal pilot and demonstration projects, including—

(1) pilot projects that test direct air capture systems capable of capturing 10 to 100 tonnes of carbon oxides per year to provide data for demonstration-scale projects; and

(2) direct air capture demonstration projects capable of capturing greater than 1,000 tonnes of carbon oxides per year.

(h) Intraagency collaboration

In carrying out the program, the Secretary shall encourage and promote collaborations among relevant offices and agencies within the Department.

(i) Accounting

The Secretary shall collaborate with the Administrator of the Environmental Protection Agency and the heads of other relevant Federal agencies to develop and improve accounting frameworks and tools to accurately measure carbon removal and sequestration methods and technologies.

(j) Regional direct air capture hubs

(1) Definitions

In this subsection:

(A) Eligible project

The term "eligible project" means a direct air capture project or a component project of a regional direct air capture hub.

(B) Regional direct air capture hub

The term "regional direct air capture hub" means a network of direct air capture projects, potential carbon dioxide utilization off-takers, connective carbon dioxide transport infrastructure, subsurface resources, and sequestration infrastructure located within a region.

(2) Establishment of program

(A) In general

The Secretary shall establish a program under which the Secretary shall provide funding for eligible projects that contribute to the development of 4 regional direct air capture hubs described in subparagraph (B).

(B) Regional direct air capture hubs

Each of the 4 regional direct air capture hubs developed under the program under subparagraph (A) shall be a regional direct air capture hub that—

(i) facilitates the deployment of direct air capture projects;

(ii) has the capacity to capture and sequester, utilize, or sequester and utilize at least 1,000,000 metric tons of carbon dioxide from the atmosphere annually from a single unit or multiple interconnected units;

(iii) demonstrates the capture, processing, delivery, and sequestration or end-use of

captured carbon; and

(iv) could be developed into a regional or interregional carbon network to facilitate sequestration or carbon utilization.

(3) Selection of projects

(A) Solicitation of proposals

(i) In general

Not later than 180 days after November 15, 2021, the Secretary shall solicit applications for funding for eligible projects.

(ii) Additional solicitations

The Secretary shall solicit applications for funding for eligible projects on a recurring basis after the first round of applications is received under clause (i) until all amounts appropriated to carry out this subsection are expended.

(B) Selection of projects for the development of regional direct air capture hubs

Not later than 3 years after the date of the deadline for the submission of proposals under subparagraph (A)(i), the Secretary shall select eligible projects described in paragraph (2)(A).

(C) Criteria

The Secretary shall select eligible projects under subparagraph (B) using the following criteria:

(i) Carbon intensity of local industry

To the maximum extent practicable, each eligible project shall be located in a region with—

(I) existing carbon-intensive fuel production or industrial capacity; or

(II) carbon-intensive fuel production or industrial capacity that has retired or closed in the preceding 10 years.

(ii) Geographic diversity

To the maximum extent practicable, eligible projects shall contribute to the development of regional direct air capture hubs located in different regions of the United States.

(iii) Carbon potential

To the maximum extent practicable, eligible projects shall contribute to the development of regional direct air capture hubs located in regions with high potential for carbon sequestration or utilization.

(iv) Hubs in fossil-producing regions

To the maximum extent practicable, eligible projects shall contribute to the development of at least 2 regional direct air capture hubs located in economically distressed communities in the regions of the United States with high levels of coal, oil, or natural gas resources.

(v) Scalability

The Secretary shall give priority to eligible projects that, as compared to other eligible projects, will contribute to the development of regional direct air capture hubs with larger initial capacity, greater potential for expansion, and lower levelized cost per ton of carbon dioxide removed from the atmosphere.

(vi) Employment

The Secretary shall give priority to eligible projects that are likely to create opportunities for skilled training and long-term employment to the greatest number of residents of the region.

(vii) Additional criteria

The Secretary may take into consideration other criteria that, in the judgment of the

Secretary, are necessary or appropriate to carry out this subsection.

(D) Coordination

To the maximum extent practicable, in carrying out the program under this subsection, the Secretary shall take into account and coordinate with activities of the carbon capture technology program established under section 16292(b)(1) of this title, the carbon storage validation and testing program established under section 16293(b)(1) of this title, and the CIFIA program established under section 16372(a) of this title such that funding from each of the programs is leveraged to contribute toward the development of integrated regional and interregional carbon capture, removal, transport, sequestration, and utilization networks.

(E) Funding of eligible projects

The Secretary may make grants to, or enter into cooperative agreements or contracts with, each eligible project selected under subparagraph (B) to accelerate commercialization of, and demonstrate the removal, processing, transport, sequestration, and utilization of, carbon dioxide captured from the atmosphere.

(4) Authorization of appropriations

There is authorized to be appropriated to the Secretary to carry out this subsection $3,500,000,000 for the period of fiscal years 2022 through 2026, to remain available until expended.

(k) Authorization of appropriations

There are authorized to be appropriated to the Secretary to carry out this section—

(1) $175,000,000 for fiscal year 2021, of which—

(A) $15,000,000 shall be used to carry out subsection (e)(2)(A), to remain available until expended; and

(B) $100,000,000 shall be used to carry out subsection (e)(2)(B), to remain available until expended;

(2) $63,500,000 for fiscal year 2022;

(3) $66,150,000 for fiscal year 2023;

(4) $69,458,000 for fiscal year 2024; and

(5) $72,930,000 for fiscal year 2025.

(Pub. L. 109–58, title IX, §969D, as added Pub. L. 116–260, div. Z, title V, §5001(a), Dec. 27, 2020, 134 Stat. 2547; amended Pub. L. 117–58, div. D, title III, §40308(a), Nov. 15, 2021, 135 Stat. 1003.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

APPLICATION

Provisions of section 3212 of this title applicable to construction, alteration, or repair work of demonstration projects funded by grants or contracts authorized under this section, see section 9006(b) of div. Z of Pub. L. 116–260, set out as a note under section 16237 of this title.

§16298e. Carbon dioxide removal task force and report

(a) Definition of carbon dioxide removal

In this section, the term "carbon dioxide removal" means the capture of carbon dioxide directly from ambient air or, in dissolved form, from seawater, combined with the sequestration of that

carbon dioxide, including through—

(1) direct air capture and sequestration;

(2) enhanced carbon mineralization;

(3) bioenergy with carbon capture and sequestration;

(4) forest restoration;

(5) soil carbon management; and

(6) direct ocean capture.

(b) Report

Not later than 180 days after December 27, 2020, the Secretary of Energy (in this section referred to as the "Secretary"), in consultation with the heads of any other relevant Federal agencies, shall prepare a report that—

(1) estimates the magnitude of excess carbon dioxide in the atmosphere that will need to be removed by 2050 to achieve net-zero emissions and stabilize the climate;

(2) inventories current and emerging approaches of carbon dioxide removal and evaluates the advantages and disadvantages of each of the approaches; and

(3) identifies recommendations for legislation, funding, rules, revisions to rules, financing mechanisms, or other policy tools that the Federal Government can use to sufficiently advance the deployment of carbon dioxide removal projects in order to meet, in the aggregate, the magnitude of needed removals estimated under paragraph (1), including policy tools, such as—

(A) grants;

(B) loans or loan guarantees;

(C) public-private partnerships;

(D) direct procurement;

(E) incentives, including subsidized Federal financing mechanisms available to project developers;

(F) advance market commitments;

(G) regulations; and

(H) any other policy mechanism determined by the Secretary to be beneficial for advancing carbon dioxide removal methods and the deployment of carbon dioxide removal projects.

(c) Submission; publication

The Secretary shall—

(1) submit the report prepared under subsection (b) to the Committee on Energy and Natural Resources of the Senate and the Committees on Energy and Commerce and Science, Space, and Technology of the House of Representatives; and

(2) as soon as practicable after completion of the report, make the report publicly available.

(d) Evaluation; revision

(1) In general

Not later than 2 years after the date on which the Secretary publishes the report under subsection (c)(2), and every 2 years thereafter, the Secretary shall evaluate the findings and recommendations of the report, or the most recent updated report submitted under paragraph (2)(B), as applicable, taking into consideration any issues and recommendations identified by the task force established under subsection (e)(1).

(2) Revision

After completing each evaluation under paragraph (1), the Secretary shall—

(A) revise the report as necessary; and

(B) if the Secretary revises the report under subparagraph (A), submit and publish the updated report in accordance with subsection (c).

(e) Task force

(1) Establishment and duties

Not later than 60 days after December 27, 2020, the Secretary shall establish a task force—

(A) to identify barriers to advancement of carbon dioxide removal methods and the deployment of carbon dioxide removal projects;

(B) to inventory existing or potential Federal legislation, rules, revisions to rules, financing mechanisms, or other policy tools that are capable of advancing carbon dioxide removal methods and the deployment of carbon dioxide removal projects;

(C) to assist in preparing the report described in subsection (b) and any updates to the report under subsection (d); and

(D) to advise the Secretary on matters pertaining to carbon dioxide removal.

(2) Members and selection

The Secretary shall—

(A) develop criteria for the selection of members to the task force established under paragraph (1); and

(B) select members for the task force in accordance with the criteria developed under subparagraph (A).

(3) Meetings

The task force shall meet not less frequently than once each year.

(4) Evaluation

Not later than 7 years after December 27, 2020, the Secretary shall—

(A) reevaluate the need for the task force established under paragraph (1); and

(B) submit to Congress a recommendation as to whether the task force should continue.

(Pub. L. 116–260, div. Z, title V, §5002, Dec. 27, 2020, 134 Stat. 2550.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

CODIFICATION

Section was enacted as part of the Energy Act of 2020, and not as part of the Energy Policy Act of 2005 which comprises this chapter.

PART G—SCIENCE

§16311. Science

(a) In general

The Secretary shall conduct, through the Office of Science, programs of research, development, demonstration, and commercial application in high energy physics, nuclear physics, biological and environmental research, basic energy sciences, advanced scientific computing research, and fusion energy sciences, including activities described in this part. The programs shall include support for facilities and infrastructure, education, outreach, information, analysis, and coordination activities.

(b) Authorization of appropriations

There are authorized to be appropriated to the Secretary to carry out research, development, demonstration, and commercial application activities of the Office of Science, including activities authorized under this part (including the amounts authorized under the amendment made by section 976(b) [1] and including basic energy sciences, advanced scientific and computing research, biological and environmental research, fusion energy sciences, high energy physics, nuclear physics, research analysis, and infrastructure support)—

(1) $4,153,000,000 for fiscal year 2007;

(2) $4,586,000,000 for fiscal year 2008;
(3) $5,200,000,000 for fiscal year 2009;
(4) $5,814,000,000 for fiscal year 2010;
(5) $5,247,000,000 for fiscal year 2011;
(6) $5,614,000,000 for fiscal year 2012; and
(7) $6,007,000,000 for fiscal year 2013.

(c) Allocations

From amounts authorized under subsection (b), the following sums are authorized:

(1) For activities under the Fusion Energy Sciences program (including activities under section 16312 of this title)—

(A) $355,500,000 for fiscal year 2007;
(B) $369,500,000 for fiscal year 2008;
(C) $384,800,000 for fiscal year 2009; and
(D) in addition to the amounts authorized under subparagraphs (A), (B), and (C), such sums as may be necessary for ITER construction, consistent with the limitations of section 16312(c)(5) of this title.

(2) For activities under the catalysis research program under section 16313 of this title—

(A) $36,500,000 for fiscal year 2007;
(B) $38,200,000 for fiscal year 2008; and
(C) such sums as may be necessary for fiscal year 2009.

(3) For activities under the Systems Biology Program under section 16317 of this title such sums as may be necessary for each of fiscal years 2007 through 2009.

(4) For activities under the Energy and Water Supplies program under section 16319 of this title, $30,000,000 for each of fiscal years 2007 through 2009.

(5) For the energy research fellowships programs under section 16324 of this title, $40,000,000 for each of fiscal years 2007 through 2009.

(6) For the advanced scientific computing activities under section 976— [1]

(A) $270,000,000 for fiscal year 2007;
(B) $350,000,000 for fiscal year 2008; and
(C) $375,000,000 for fiscal year 2009.

(7) For the science and engineering education pilot program under section 16323 of this title—

(A) $4,000,000 for each of fiscal years 2007 and 2008; and
(B) $8,000,000 for fiscal year 2009.

(d) Integrated bioenergy research and development

In addition to amounts otherwise authorized by this section, there are authorized to be appropriated to the Secretary for integrated bioenergy research and development programs, projects, and activities, $49,000,000 for each of the fiscal years 2005 through 2009. Activities funded under this subsection shall be coordinated with ongoing related programs of other Federal agencies, including the Plant Genome Program of the National Science Foundation. Of the funds authorized under this subsection, at least $5,000,000 for each fiscal year shall be for training and education targeted to minority and socially disadvantaged farmers and ranchers.

(Pub. L. 109–58, title IX, §971, Aug. 8, 2005, 119 Stat. 898; Pub. L. 110–69, title V, §5007, Aug. 9, 2007, 121 Stat. 617; Pub. L. 111–358, title IX, §903, Jan. 4, 2011, 124 Stat. 4045.)

EDITORIAL NOTES

REFERENCES IN TEXT

This part, referred to in subsecs. (a) and (b), was in the original "this subtitle", meaning subtitle G (§§971–984A) of title IX of Pub. L. 109–58, Aug. 8, 2005, 119 Stat. 898, which enacted this part and

amended section 5523 of Title 15, Commerce and Trade. For complete classification of subtitle G to the Code, see Tables.

Section 976, referred to in subsecs. (b) and (c)(6), is section 976 of Pub. L. 109–58. Subsection (a) of section 976 is classified to section 16316 of this title and subsection (b) of section 976 amended section 5523 of Title 15, Commerce and Trade.

AMENDMENTS

2011—Subsec. (b)(5) to (7). Pub. L. 111–358 added pars. (5) to (7).
2007—Subsec. (b)(4). Pub. L. 110–69 added par. (4).

[1] *See References in Text note below.*

§16312. Fusion energy sciences program

(a) Declaration of policy

It shall be the policy of the United States to conduct research, development, demonstration, and commercial applications to provide for the scientific, engineering, and commercial infrastructure necessary to ensure that the United States is competitive with other countries in providing fusion energy for its own needs and the needs of other countries, including by demonstrating electric power or hydrogen production for the United States energy grid using fusion energy at the earliest date.

(b) Planning

(1) In general

Not later than 180 days after August 8, 2005, the Secretary shall submit to Congress a plan (with proposed cost estimates, budgets, and lists of potential international partners) for the implementation of the policy described in subsection (a) in a manner that ensures that—

(A) existing fusion research facilities are more fully used;

(B) fusion science, technology, theory, advanced computation, modeling, and simulation are strengthened;

(C) new magnetic and inertial fusion research and development facilities are selected based on scientific innovation and cost effectiveness, and the potential of the facilities to advance the goal of practical fusion energy at the earliest date practicable;

(D) facilities that are selected are funded at a cost-effective rate;

(E) communication of scientific results and methods between the fusion energy science community and the broader scientific and technology communities is improved;

(F) inertial confinement fusion facilities are used to the extent practicable for the purpose of inertial fusion energy research and development;

(G) attractive alternative inertial and magnetic fusion energy approaches are more fully explored; and

(H) to the extent practicable, the recommendations of the Fusion Energy Sciences Advisory Committee in the report on workforce planning, dated March 2004, are carried out, including periodic reassessment of program needs.

(2) Costs and schedules

The plan shall also address the status of and, to the extent practicable, costs and schedules for—

(A) the design and implementation of international or national facilities for the testing of fusion materials; and

(B) the design and implementation of international or national facilities for the testing and development of key fusion technologies.

(c) United States participation in ITER

(1) In general

There is authorized United States participation in the construction and operations of the ITER

project, as agreed to under the April 25, 2007 "Agreement on the Establishment of the ITER International Fusion Energy Organization for the Joint Implementation of the ITER Project". The Director shall coordinate and carry out the responsibilities of the United States with respect to this Agreement.

(2) Report

Not later than 1 year after the date of enactment of this section, the Secretary shall submit to Congress a report providing an assessment of the most recent schedule for ITER that has been approved by the ITER Council.

(3) Authorization of appropriations

Out of funds authorized to be appropriated under section 18645(o) of this title, there shall be made available to the Secretary to carry out the construction of ITER—

(A) $374,000,000 for fiscal year 2021; and

(B) $281,000,000 for each of fiscal years 2022 through 2025.

(Pub. L. 109–58, title IX, §972, Aug. 8, 2005, 119 Stat. 899; Pub. L. 116–260, div. Z, title II, §2008(b), Dec. 27, 2020, 134 Stat. 2478.)

EDITORIAL NOTES

REFERENCES IN TEXT

The date of enactment of this section, referred to in subsec. (c)(2), probably means the date of enactment of Pub. L. 116–260, which enacted subsec. (c) of this section and was approved Dec. 27, 2020.

AMENDMENTS

2020—Subsec. (c). Pub. L. 116–260 amended subsec. (c) generally. Prior to amendment, subsec. (c) related to United States participation in ITER.

§16313. Solar Fuels Research Initiative

(a) Initiative

(1) In general

The Secretary shall carry out a research initiative, to be known as the "Solar Fuels Research Initiative" (referred to in this section as the "Initiative") to expand theoretical and fundamental knowledge of photochemistry, electrochemistry, biochemistry, and materials science useful for the practical development of experimental systems to convert solar energy to chemical energy.

(2) Leveraging

In carrying out programs and activities under the Initiative, the Secretary shall leverage expertise and resources from—

(A) the Basic Energy Sciences Program and the Biological and Environmental Research Program of the Office of Science; and

(B) the Office of Energy Efficiency and Renewable Energy.

(3) Teams

(A) In general

In carrying out the Initiative, the Secretary shall organize activities among multidisciplinary teams to leverage, to the maximum extent practicable, expertise from the National Laboratories, institutions of higher education, and the private sector.

(B) Goals

The multidisciplinary teams described in subparagraph (A) shall pursue aggressive, milestone-driven, basic research goals.

(C) Resources

The Secretary shall provide sufficient resources to the multidisciplinary teams described in subparagraph (A) to achieve the goals described in subparagraph (B) over a period of time to be determined by the Secretary.

(4) Additional activities

The Secretary may organize additional activities under this subsection through Energy Frontier Research Centers, Energy Innovation Hubs, or other organizational structures.

(b) Artificial photosynthesis

(1) In general

The Secretary shall carry out under the Initiative a program to support research needed to bridge scientific barriers to, and discover knowledge relevant to, artificial photosynthetic systems.

(2) Activities

As part of the program described in paragraph (1)—

(A) the Director of the Office of Basic Energy Sciences shall support basic research to pursue distinct lines of scientific inquiry, including—

(i) photoinduced production of hydrogen and oxygen from water; and

(ii) the sustainable photoinduced reduction of carbon dioxide to fuel products including hydrocarbons, alcohols, carbon monoxide, and natural gas; and

(B) the Assistant Secretary for Energy Efficiency and Renewable Energy shall support translational research, development, and validation of physical concepts developed under the program.

(3) Standard of review

The Secretary shall review activities carried out under the program described in paragraph (1) to determine the achievement of technical milestones.

(4) Prohibition

No funds allocated to the program described in paragraph (1) may be obligated or expended for commercial application of energy technology.

(c) Biochemistry, replication of natural photosynthesis, and related processes

(1) In general

The Secretary shall carry out under the Initiative a program to support research needed to replicate natural photosynthetic processes by use of artificial photosynthetic components and materials.

(2) Activities

As part of the program described in paragraph (1)—

(A) the Director of the Office of Basic Energy Sciences shall support basic research to expand fundamental knowledge to replicate natural synthesis processes, including—

(i) the photoinduced reduction of dinitrogen to ammonia;

(ii) the absorption of carbon dioxide from ambient air;

(iii) molecular-based charge separation and storage;

(iv) photoinitiated electron transfer; and

(v) catalysis in biological or biomimetic systems;

(B) the Associate Director of Biological and Environmental Research shall support systems biology and genomics approaches to understand genetic and physiological pathways connected to photosynthetic mechanisms; and

(C) the Assistant Secretary for Energy Efficiency and Renewable Energy shall support translational research, development, and validation of physical concepts developed under the

program.

(3) Standard of review

The Secretary shall review activities carried out under the program described in paragraph (1) to determine the achievement of technical milestones.

(4) Prohibition

No funds allocated to the program described in paragraph (1) may be obligated or expended for commercial application of energy technology.

(Pub. L. 109–58, title IX, §973, Aug. 8, 2005, 119 Stat. 902; Pub. L. 115–246, title III, §303(d)(1), Sept. 28, 2018, 132 Stat. 3141.)

EDITORIAL NOTES

AMENDMENTS

2018—Pub. L. 115–246 amended section generally. Prior to amendment, section related to catalysis research program.

§16314. Hydrogen

(a) In general

The Secretary shall conduct a program of fundamental research and development in support of programs authorized under subchapter VIII.

(b) Methods

The program shall include support for methods of generating hydrogen without the use of natural gas.

(Pub. L. 109–58, title IX, §974, Aug. 8, 2005, 119 Stat. 903.)

§16315. Electricity Storage Research Initiative

(a) Initiative

(1) In general

The Secretary shall carry out a research initiative, to be known as the "Electricity Storage Research Initiative" (referred to in this section as the "Initiative")—

(A) to expand theoretical and fundamental knowledge to control, store, and convert—

(i) electrical energy to chemical energy; and

(ii) chemical energy to electrical energy; and

(B) to support scientific inquiry into the practical understanding of chemical and physical processes that occur within systems involving crystalline and amorphous solids, polymers, and organic and aqueous liquids.

(2) Leveraging

In carrying out programs and activities under the Initiative, the Secretary shall leverage expertise and resources from—

(A) the Basic Energy Sciences Program, the Advanced Scientific Computing Research Program, and the Biological and Environmental Research Program of the Office of Science; and

(B) the Office of Energy Efficiency and Renewable Energy.

(3) Teams

(A) In general

In carrying out the Initiative, the Secretary shall organize activities among multidisciplinary teams to leverage, to the maximum extent practicable, expertise from the National Laboratories, institutions of higher education, and the private sector.

(B) Goals

The multidisciplinary teams described in subparagraph (A) shall pursue aggressive, milestone-driven, basic research goals.

(C) Resources

The Secretary shall provide sufficient resources to the multidisciplinary teams described in subparagraph (A) to achieve the goals described in subparagraph (B) over a period of time to be determined by the Secretary.

(4) Additional activities

The Secretary may organize additional activities under this subsection through Energy Frontier Research Centers, Energy Innovation Hubs, or other organizational structures.

(b) Multivalent systems

(1) In general

The Secretary shall carry out under the Initiative a program to support research needed to bridge scientific barriers to, and discover knowledge relevant to, multivalent ion materials in electric energy storage systems.

(2) Activities

As part of the program described in paragraph (1)—

(A) the Director of the Office of Basic Energy Sciences shall investigate electrochemical properties and the dynamics of materials, including charge transfer phenomena and mass transport in materials; and

(B) the Assistant Secretary for Energy Efficiency and Renewable Energy shall support translational research, development, and validation of physical concepts developed under the program.

(3) Standard of review

The Secretary shall review activities carried out under the program described in paragraph (1) to determine the achievement of technical milestones.

(4) Prohibition

No funds allocated to the program described in paragraph (1) may be obligated or expended for commercial application of energy technology.

(c) Electrochemistry modeling and simulation

(1) In general

The Secretary shall carry out under the Initiative a program to support research to model and simulate organic electrolytes, including the static and dynamic electrochemical behavior and phenomena of organic electrolytes at the molecular and atomic level in monovalent and multivalent systems.

(2) Activities

As part of the program described in paragraph (1)—

(A) the Director of the Office of Basic Energy Sciences, in coordination with the Associate Director of Advanced Scientific Computing Research, shall support the development of high performance computational tools through a joint development process to maximize the effectiveness of current and projected high performance computing systems; and

(B) the Assistant Secretary for Energy Efficiency and Renewable Energy shall support translational research, development, and validation of physical concepts developed under the program.

(3) Standard of review

The Secretary shall review activities carried out under the program described in paragraph (1) to determine the achievement of technical milestones.

(4) Prohibition

No funds allocated to the program described in paragraph (1) may be obligated or expended for commercial application of energy technology.

(d) Mesoscale electrochemistry

(1) In general

The Secretary shall carry out under the Initiative a program to support research needed to reveal electrochemistry in confined mesoscale spaces, including scientific discoveries relevant to—

(A) bio-electrochemistry and electrochemical energy conversion and storage in confined spaces; and

(B) the dynamics of the phenomena described in subparagraph (A).

(2) Activities

As part of the program described in paragraph (1)—

(A) the Director of the Office of Basic Energy Sciences and the Associate Director of Biological and Environmental Research shall investigate phenomena of mesoscale electrochemical confinement for the purpose of replicating and controlling new electrochemical behavior; and

(B) the Assistant Secretary for Energy Efficiency and Renewable Energy shall support translational research, development, and validation of physical concepts developed under the program.

(3) Standard of review

The Secretary shall review activities carried out under the program described in paragraph (1) to determine the achievement of technical milestones.

(4) Prohibition

No funds allocated to the program described in paragraph (1) may be obligated or expended for commercial application of energy technology.

(Pub. L. 109–58, title IX, §975, Aug. 8, 2005, 119 Stat. 903; Pub. L. 115–246, title III, §303(e)(1), Sept. 28, 2018, 132 Stat. 3143.)

EDITORIAL NOTES

AMENDMENTS

2018—Pub. L. 115–246 amended section generally. Prior to amendment, text read as follows: "The Secretary shall conduct a program of fundamental research on solid state lighting in support of the Next Generation Lighting Initiative carried out under section 16192 of this title."

§16316. Advanced scientific computing research and development program

(1) In general

The Secretary shall conduct an advanced scientific computing research and development program that includes activities related to applied mathematics and activities authorized by the American Super Computing Leadership Act of 2017 (15 U.S.C. 5541 et seq.).

(2) Goal

The Secretary shall carry out the program with the goal of supporting departmental missions, and providing the high-performance computational, networking, advanced visualization technologies, and workforce resources, that are required for world leadership in science.

(Pub. L. 109–58, title IX, §976(a), Aug. 8, 2005, 119 Stat. 903; Pub. L. 115–246, title III, §304(a)(1)(B), Sept. 28, 2018, 132 Stat. 3145.)

EDITORIAL NOTES

REFERENCES IN TEXT

The American Super Computing Leadership Act of 2017, referred to in par. (1), is Pub. L. 108–423, Nov. 30, 2004, 118 Stat. 2400, which is classified principally to subchapter III (§5541 et seq.) of chapter 81 of Title 15, Commerce and Trade. For complete classification of this Act to the Code, see Short Title note set out under section 5501 of Title 15 and Tables.

AMENDMENTS

2018—Par. (1). Pub. L. 115–246 substituted "American Super Computing Leadership Act of 2017" for "Department of Energy High-End Computing Revitalization Act of 2004".

§16317. Systems biology program

(a) Program

(1) Establishment

The Secretary shall establish a research, development, and demonstration program in microbial and plant systems biology, protein science, computational biology, and environmental science to support the energy, national security, and environmental missions of the Department.

(2) Grants

The program shall support individual researchers and multidisciplinary teams of researchers through competitive, merit-reviewed grants.

(3) Consultation

In carrying out the program, the Secretary shall consult with other Federal agencies that conduct genetic and protein research.

(b) Goals

The program shall have the goal of developing technologies and methods based on the biological functions of genomes, microbes, and plants that—

(1) can facilitate the production of fuels, including hydrogen in sustainable production systems that reduce greenhouse gas emissions;

(2) convert carbon dioxide to organic carbon;

(3) detoxify soils and water, including at facilities of the Department, contaminated with heavy metals and radiological materials;

(4) develop cellulosic and other feedstocks that are less resource and land intensive and that promote sustainable use of resources, including soil, water, energy, forests, and land, and ensure protection of air, water, and soil quality; and

(5) address other Department missions as identified by the Secretary.

(c) Plan

(1) Development of plan

Not later than 1 year after August 8, 2005, the Secretary shall prepare and transmit to Congress a research plan describing how the program authorized pursuant to this section will be undertaken to accomplish the program goals established in subsection (b).

(2) Review of plan

The Secretary shall contract with the National Academy of Sciences to review the research plan developed under this subsection. The Secretary shall transmit the review to Congress not later than 18 months after transmittal of the research plan under paragraph (1), along with the Secretary's

response to the recommendations contained in the review.

(d) User facilities and ancillary equipment

Within the funds authorized to be appropriated pursuant to this part, amounts shall be available for projects to develop, plan, construct, acquire, or operate special equipment, instrumentation, or facilities, including user facilities at National Laboratories, for researchers conducting research, development, demonstration, and commercial application in systems biology and proteomics and associated biological disciplines.

(e) Prohibition on biomedical and human cell and human subject research

(1) No biomedical research

In carrying out the program under this section, the Secretary shall not conduct biomedical research.

(2) Limitations

Nothing in this section shall authorize the Secretary to conduct any research or demonstrations—

(A) on human cells or human subjects; or

(B) designed to have direct application with respect to human cells or human subjects.

(f) Bioenergy research centers

(1) Establishment of centers

In carrying out the program under subsection (a), the Secretary shall establish at least 7 bioenergy research centers, which may be of varying size.

(2) Geographic distribution

The Secretary shall establish at least 1 bioenergy research center in each Petroleum Administration for Defense District or Subdistrict of a Petroleum Administration for Defense District.

(3) Goals

The goals of the centers established under this subsection shall be to accelerate basic transformational research and development of biofuels, including biological processes.

(4) Selection and duration

(A) In general

A center under this subsection shall be selected on a competitive basis for a period of 5 years.

(B) Reapplication

After the end of the period described in subparagraph (A), a grantee may reapply for selection on a competitive basis.

(5) Inclusion

A center that is in existence on December 19, 2007—

(A) shall be counted towards the requirement for establishment of at least 7 bioenergy research centers; and

(B) may continue to receive support for a period of 5 years beginning on the date of establishment of the center.

(Pub. L. 109–58, title IX, §977, Aug. 8, 2005, 119 Stat. 903; Pub. L. 110–140, title II, §§232(a), 233, Dec. 19, 2007, 121 Stat. 1537.)

EDITORIAL NOTES

REFERENCES IN TEXT

This part, referred to in subsec. (d), was in the original "this subtitle", meaning subtitle G (§§971–984A) of

title IX of Pub. L. 109–58, Aug. 8, 2005, 119 Stat. 898, which enacted this part and amended section 5523 of Title 15, Commerce and Trade. For complete classification of subtitle G to the Code, see Tables.

AMENDMENTS

2007—Subsec. (a)(1). Pub. L. 110–140, §232(a)(1), substituted "computational biology, and environmental science" for "and computational biology".

Subsec. (b)(1). Pub. L. 110–140, §232(a)(2)(A), inserted "in sustainable production systems that reduce greenhouse gas emissions" after "hydrogen".

Subsec. (b)(4), (5). Pub. L. 110–140, §232(a)(2)(B)–(D), added par. (4) and redesignated former par. (4) as (5).

Subsec. (f). Pub. L. 110–140, §233, added subsec. (f).

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE OF 2007 AMENDMENT

Amendment by Pub. L. 110–140 effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as an Effective Date note under section 1824 of Title 2, The Congress.

§16318. Fission and fusion energy materials research program

(a) In general

Along with the budget request of the President submitted to Congress for fiscal year 2007, the Secretary shall establish a research and development program on material science issues presented by advanced fission reactors and the fusion energy program of the Department.

(b) Administration

In carrying out the program, the Secretary shall develop—

(1) a catalog of material properties required for applications described in subsection (a);

(2) theoretical models for materials possessing the required properties;

(3) benchmark models against existing data; and

(4) a roadmap to guide further research and development in the area covered by the program.

(Pub. L. 109–58, title IX, §978, Aug. 8, 2005, 119 Stat. 904.)

§16319. Energy and water supplies

(a) In general

The Secretary shall carry out a program of research, development, demonstration, and commercial application to—

(1) address energy-related issues associated with provision of adequate water supplies, optimal management, and efficient use of water;

(2) address water-related issues associated with the provision of adequate supplies, optimal management, and efficient use of energy; and

(3) assess the effectiveness of existing programs within the Department and other Federal agencies to address these energy and water related issues.

(b) Program elements

The program under this section shall include—

(1) arsenic treatment;

(2) desalination; and

(3) planning, analysis, and modeling of energy and water supply and demand.

(c) Collaboration

In carrying out this section, the Secretary shall consult with the Administrator of the

Environmental Protection Agency, the Secretary of the Interior, the Chief Engineer of the Army Corps of Engineers, the Secretary of Commerce, the Secretary of Defense, and other Federal agencies as appropriate.

(d) Facilities

The Secretary may utilize all existing facilities within the Department and may design and construct additional facilities as needed to carry out the purposes of this program.

(e) Advisory committee

The Secretary shall establish or utilize an advisory committee to provide independent advice and review of the program.

(f) Reports

Not later than 2 years after August 8, 2005, the Secretary shall submit to Congress a report on the assessment described in subsection (b) and recommendations for future actions.

(Pub. L. 109–58, title IX, §979, Aug. 8, 2005, 119 Stat. 905.)

§16320. Spallation Neutron Source

(a) Definitions

In this section:

(1) SING

The term "SING" means the Spallation Neutron Source Instruments Next Generation major item of equipment.

(2) SNS power upgrade

The term "SNS power upgrade" means the Spallation Neutron Source power upgrade described in the 20-year facilities plan of the Office of Science of the Department.

(3) SNS second target station

The term "SNS second target station" means the Spallation Neutron Source second target station described in the 20-year facilities plan of the Office of Science of the Department.

(4) Spallation Neutron Source Facility

The terms "Spallation Neutron Source Facility" and "Facility" mean the completed Spallation Neutron Source scientific user facility located at Oak Ridge National Laboratory, Oak Ridge, Tennessee.

(5) Spallation Neutron Source Project

The terms "Spallation Neutron Source Project" and "Project" means Department Project 99–E–334, Oak Ridge National Laboratory, Oak Ridge, Tennessee.

(b) Spallation Neutron Source Project

(1) In general

The Secretary shall submit to Congress, as part of the annual budget request of the President submitted to Congress, a report on progress on the Spallation Neutron Source Project.

(2) Contents

The report shall include for the Project—

(A) a description of the achievement of milestones;

(B) a comparison of actual costs to estimated costs; and

(C) any changes in estimated Project costs or schedule.

(c) Spallation Neutron Source Facility plan

(1) In general

The Secretary shall develop an operational plan for the Spallation Neutron Source Facility that ensures that the Facility is employed to the full capability of the Facility in support of the study of advanced materials, nanoscience, and other missions of the Office of Science of the Department.

(2) Plan

The operational plan shall—

(A) include a plan for the operation of an effective scientific user program that—

(i) is based on peer review of proposals submitted for use of the Facility;

(ii) includes scientific and technical support to ensure that external users, including researchers based at institutions of higher education, are able to make full use of a variety of high quality scientific instruments; and

(iii) phases in systems upgrades to ensure that the Facility remains at the forefront of international scientific endeavors in the field of the Facility throughout the operating life of the Facility;

(B) include an ongoing program to develop new instruments that builds on the high performance neutron source and that allows neutron scattering techniques to be applied to a growing range of scientific problems and disciplines; and

(C) address the status of and, to the maximum extent practicable, costs and schedules for—

(i) full user mode operations of the Facility;

(ii) instrumentation built at the Facility during the operating phase through full use of the experimental hall, including the SING;

(iii) the SNS power upgrade; and

(iv) the SNS second target station.

(d) Authorization of appropriations

(1) Spallation Neutron Source Project

There is authorized to be appropriated to carry out the Spallation Neutron Source Project for the lifetime of the Project $1,411,700,000 for total project costs, of which—

(A) $1,192,700,000 shall be used for the costs of construction; and

(B) $219,000,000 shall be used for other Project costs.

(2) Spallation Neutron Source Facility

(A) In general

Except as provided in subparagraph (B), there is authorized to be appropriated for the Spallation Neutron Source Facility for—

(i) the SING, $75,000,000 for each of fiscal year 2007 through 2009; and

(ii) the SNS power upgrade, $160,000,000, to remain available until expended.

(B) Insufficient stockpiles of heavy water

If stockpiles of heavy water of the Department are insufficient to meet the needs of the Facility, there is authorized to be appropriated for the Facility $12,000,000 for fiscal year 2007.

(Pub. L. 109–58, title IX, §980, Aug. 8, 2005, 119 Stat. 905.)

§16321. Facility for Rare Isotope Beams

(a) Establishment

The Secretary shall construct and operate a Facility for Rare Isotope Beams. The Secretary shall commence construction no later than September 30, 2008.

(b) Authorization of appropriations

There are authorized to be appropriated to the Secretary such sums as may be necessary to carry out this section. The Secretary shall not spend more than $1,100,000,000 in Federal funds for all

activities associated with the Facility for Rare Isotope Beams, prior to operation of the Accelerator.

(Pub. L. 109–58, title IX, §981, Aug. 8, 2005, 119 Stat. 907; Pub. L. 115–246, title III, §308(b), Sept. 28, 2018, 132 Stat. 3150.)

EDITORIAL NOTES

AMENDMENTS

2018—Pub. L. 115–246 substituted "Facility for Rare Isotope Beams" for "Rare Isotope Accelerator" in section catchline and in subsecs. (a) and (b).

§16322. Office of Scientific and Technical Information

The Secretary, through the Office of Scientific and Technical Information, shall maintain within the Department publicly available collections of scientific and technical information resulting from research, development, demonstration, and commercial applications activities supported by the Department.

(Pub. L. 109–58, title IX, §982, Aug. 8, 2005, 119 Stat. 907.)

§16323. Science and engineering education pilot program

(a) Establishment of pilot program

The Secretary shall award a grant to a Southeastern United States consortium of major research universities that currently advances science and education by partnering with National Laboratories, to establish a regional pilot program of its SEEK–16 program for enhancing scientific, technological, engineering, and mathematical literacy, creativity, and decision-making. The consortium shall include leading research universities, one or more universities that train substantial numbers of elementary and secondary school teachers, and (where appropriate) National Laboratories.

(b) Program elements

The regional pilot program shall include—

(1) expanding strategic, formal partnerships among universities with strength in research, universities that train substantial numbers of elementary and secondary school teachers, and the private sector;

(2) combining Department expertise with one or more National Aeronautics and Space Administration Educator Resource Centers;

(3) developing programs to permit current and future teachers to participate in ongoing research projects at National Laboratories and research universities and to adapt lessons learned to the classroom;

(4) designing and implementing course work;

(5) designing and implementing a strategy for measuring and assessing progress under the program; and

(6) developing models for transferring knowledge gained under the pilot program to other institutions and areas of the United States.

(c) Categorization

A grant under this section shall be considered an authorized activity under section 7381b of this title.

(Pub. L. 109–58, title IX, §983, Aug. 8, 2005, 119 Stat. 907; Pub. L. 113–188, title VI, §601(a), Nov. 26, 2014, 128 Stat. 2019.)

EDITORIAL NOTES

AMENDMENTS

2014—Subsec. (d). Pub. L. 113–188 struck out subsec. (d). Text read as follows: "No later than 2 years after the award of the grant, the Secretary shall transmit to Congress a report outlining lessons learned and, if determined appropriate by the Secretary, containing a plan for expanding the program throughout the United States."

§16324. Energy research fellowships

(a) Postdoctoral fellowship program

The Secretary shall establish a program under which the Secretary provides fellowships to encourage outstanding young scientists and engineers to pursue postdoctoral research appointments in energy research and development at institutions of higher education of their choice.

(b) Senior research fellowships

(1) In general

The Secretary shall establish a program under which the Secretary provides fellowships to allow outstanding senior researchers and their research groups in energy research and development to explore research and development topics of their choosing for a period of not less than 3 years, to be determined by the Secretary.

(2) Consideration

In providing a fellowship under the program described in paragraph (1), the Secretary shall consider—

(A) the past scientific or technical accomplishment of a senior researcher; and

(B) the potential for continued accomplishment by the researcher during the period of the fellowship.

(Pub. L. 109–58, title IX, §984, Aug. 8, 2005, 119 Stat. 908.)

§16325. Science and Technology Scholarship Program

(a) In general

The Secretary is authorized to establish a Science and Technology Scholarship Program to award scholarships to individuals that is designed to recruit and prepare students for careers in the Department and National Laboratories.

(b) Service requirement

The Secretary may require that an individual receiving a scholarship under this section serve as a full-time employee of the Department or a National Laboratory for a fixed period in return for receiving the scholarship.

(Pub. L. 109–58, title IX, §984A, Aug. 8, 2005, 119 Stat. 908.)

PART H—INTERNATIONAL COOPERATION

§16341. Western Hemisphere energy cooperation

(a) Program

The Secretary shall carry out a program to promote cooperation on energy issues with countries of the Western Hemisphere.

(b) Activities

Under the program, the Secretary shall fund activities to work with countries of the Western Hemisphere to—

(1) increase the production of energy supplies;

(2) improve energy efficiency; and

(3) assist in the development and transfer of energy supply and efficiency technologies that would have a beneficial impact on world energy markets.

(c) Participation by institutions of higher education

To the extent practicable, the Secretary shall carry out the program under this section with the participation of institutions of higher education so as to take advantage of the acceptance of institutions of higher education by countries of the Western Hemisphere as sources of unbiased technical and policy expertise when assisting the Secretary in—

(1) evaluating new technologies;

(2) resolving technical issues;

(3) working with those countries in the development of new policies; and

(4) training policymakers, particularly in the case of institutions of higher education that involve the participation of minority students, such as—

(A) Hispanic-serving institutions; and

(B) part B institutions.

(d) Authorization of appropriations

There are authorized to be appropriated to carry out this section—

(1) $10,000,000 for fiscal year 2007;

(2) $13,000,000 for fiscal year 2008; and

(3) $16,000,000 for fiscal year 2009.

(Pub. L. 109–58, title IX, §985, Aug. 8, 2005, 119 Stat. 908.)

§16342. International energy training

(a) In general

The Secretary, in consultation with the Secretary of Commerce, the Secretary of the Interior, and Secretary of State, and the Federal Energy Regulatory Commission, shall coordinate training and outreach efforts for international commercial energy markets in countries with developing and restructuring economies.

(b) Components

The training and outreach efforts referred to in subsection (a) may include—

(1) production-related fiscal regimes;

(2) grid and network issues;

(3) energy user and demand side response;

(4) international trade of energy; and

(5) international transportation of energy.

(c) Authorization of appropriations

There is authorized to be appropriated to carry out this section $1,500,000 for each of fiscal years 2007 through 2010.

(Pub. L. 109–58, title IX, §986A, Aug. 8, 2005, 119 Stat. 910.)

PART I—RESEARCH ADMINISTRATION AND OPERATIONS

§16351. Availability of funds

Funds authorized to be appropriated to the Department under this Act or an amendment made by this Act shall remain available until expended.

(Pub. L. 109–58, title IX, §987, Aug. 8, 2005, 119 Stat. 910.)

EDITORIAL NOTES

REFERENCES IN TEXT

This Act, referred to in text, is Pub. L. 109–58, Aug. 8, 2005, 119 Stat. 594, as amended, known as the Energy Policy Act of 2005, which enacted this chapter and enacted, amended, and repealed numerous other sections and notes in the Code. For complete classification of this Act to the Code, see Short Title note set out under section 15801 of this title and Tables.

§16352. Cost sharing

(a) Applicability

Notwithstanding any other provision of law, in carrying out a research, development, demonstration, or commercial application program or activity that is initiated after August 8, 2005, the Secretary shall require cost-sharing in accordance with this section.

(b) Research and development

(1) In general

Except as provided in paragraphs (2), (3), and (4) and subsection (f), the Secretary shall require not less than 20 percent of the cost of a research or development activity described in subsection (a) to be provided by a non-Federal source.

(2) Exclusion

Paragraph (1) shall not apply to a research or development activity described in subsection (a) that is of a basic or fundamental nature, as determined by the appropriate officer of the Department.

(3) Reduction

The Secretary may reduce or eliminate the requirement of paragraph (1) for a research and development activity of an applied nature if the Secretary determines that the reduction is necessary and appropriate.

(4) Exemption for institutions of higher education and other nonprofit institutions

(A) In general

Paragraph (1) shall not apply to a research or development activity performed by an institution of higher education or nonprofit institution (as defined in section 4 of the Stevenson-Wydler Technology Innovation Act of 1980 (15 U.S.C. 3703)).

(B) Termination date

The exemption under subparagraph (A) shall apply during the 2-year period beginning on September 28, 2018.

(c) Demonstration and commercial application

(1) In general

Except as provided in paragraph (2) and subsection (f), the Secretary shall require that not less than 50 percent of the cost of a demonstration or commercial application activity described in subsection (a) to [1] be provided by a non-Federal source.

(2) Reduction of non-Federal share

The Secretary may reduce the non-Federal share required under paragraph (1) if the Secretary determines the reduction to be necessary and appropriate, taking into consideration any technological risk relating to the activity.

(d) Calculation of amount

In calculating the amount of a non-Federal contribution under this section, the Secretary—

(1) may include allowable costs in accordance with the applicable cost principles, including—

(A) cash;

(B) personnel costs;

(C) the value of a service, other resource, or third party in-kind contribution determined in accordance with the applicable circular of the Office of Management and Budget;

(D) indirect costs or facilities and administrative costs; or

(E) any funds received under the power program of the Tennessee Valley Authority (except to the extent that such funds are made available under an annual appropriation Act); and

(2) shall not include—

(A) revenues or royalties from the prospective operation of an activity beyond the time considered in the award;

(B) proceeds from the prospective sale of an asset of an activity; or

(C) other appropriated Federal funds.

(e) Repayment of Federal share

The Secretary shall not require repayment of the Federal share of a cost-shared activity under this section as a condition of making an award.

(f) Exclusions

This section shall not apply to—

(1) a cooperative research and development agreement under the Stevenson-Wydler Technology Innovation Act of 1980 (15 U.S.C. 3701 et seq.);

(2) a fee charged for the use of a Department facility; or

(3) an award under—

(A) the small business innovation research program under section 638 of title 15; or

(B) the small business technology transfer program under that section.

(Pub. L. 109–58, title IX, §988, Aug. 8, 2005, 119 Stat. 910; Pub. L. 115–246, title I, §108(a), Sept. 28, 2018, 132 Stat. 3134.)

EDITORIAL NOTES

REFERENCES IN TEXT

The Stevenson-Wydler Technology Innovation Act of 1980, referred to in subsec. (f)(1), is Pub. L. 96–480, Oct. 21, 1980, 94 Stat. 2311, as amended, which is classified generally to chapter 63 (§3701 et seq.) of Title 15, Commerce and Trade. For complete classification of this Act to the Code, see Short Title note set out under section 3701 of Title 15 and Tables.

AMENDMENTS

2018—Subsec. (b)(1). Pub. L. 115–246, §108(a)(1), substituted "Except as provided in paragraphs (2), (3), and (4)" for "Except as provided in paragraphs (2) and (3)".

Subsec. (b)(4). Pub. L. 115–246, §108(a)(2), added par. (4).

[1] *So in original. The word "to" probably should not appear.*

§16353. Merit review of proposals

(a) Awards

Awards of funds authorized under this Act or an amendment made by this Act shall be made only after an impartial review of the scientific and technical merit of the proposals for the awards has been carried out by or for the Department.

(b) Competition

Competitive awards under this Act shall involve competitions open to all qualified entities within one or more of the following categories:

(1) Institutions of higher education.
(2) National Laboratories.
(3) Nonprofit and for-profit private entities.
(4) State and local governments.
(5) Consortia of entities described in paragraphs (1) through (4).

(c) Sense of Congress

It is the sense of Congress that research, development, demonstration, and commercial application activities carried out by the Department should be awarded using competitive procedures, to the maximum extent practicable.

(Pub. L. 109–58, title IX, §989, Aug. 8, 2005, 119 Stat. 911.)

EDITORIAL NOTES

REFERENCES IN TEXT

This Act, referred to in subsecs. (a) and (b), is Pub. L. 109–58, Aug. 8, 2005, 119 Stat. 594, as amended, known as the Energy Policy Act of 2005, which enacted this chapter and enacted, amended, and repealed numerous other sections and notes in the Code. For complete classification of this Act to the Code, see Short Title note set out under section 15801 of this title and Tables.

§16354. External technical review of departmental programs

(a) National energy research and development advisory boards

(1) Establishment

The Secretary shall establish one or more advisory boards to review research, development, demonstration, and commercial application programs of the Department in energy efficiency, renewable energy, nuclear energy, and fossil energy.

(2) Alternatives

The Secretary may—

(A) designate an existing advisory board within the Department to fulfill the responsibilities of an advisory board under this section; and

(B) enter into appropriate arrangements with the National Academy of Sciences to establish such an advisory board.

(b) Use of existing committees

The Secretary shall continue to use the scientific program advisory committees chartered under the Federal Advisory Committee Act (5 U.S.C. App.) by the Office of Science to oversee research and development programs under that Office.

(c) Membership

Each advisory board under this section shall consist of persons with appropriate expertise representing a diverse range of interests.

(d) Meetings and goals

(1) Meetings

Each advisory board under this section shall meet at least semiannually to review and advise on

the progress made by the respective one or more research, development, demonstration, and commercial application programs.

(2) Goals

The advisory board shall review the measurable cost and performance-based goals for the programs as established under section 16181 of this title, and the progress on meeting the goals.

(e) Periodic reviews and assessments

(1) In general

The Secretary shall enter into appropriate arrangements with the National Academy of Sciences to conduct periodic reviews and assessments of—

(A) the research, development, demonstration, and commercial application programs authorized by this Act and amendments made by this Act;

(B) the measurable cost and performance-based goals for the programs as established under section 16181 of this title, if any; and

(C) the progress on meeting the goals.

(2) Timing

The reviews and assessments shall be conducted every 5 years or more often as the Secretary considers necessary.

(3) Reports

The Secretary shall submit to Congress reports describing the results of all the reviews and assessments.

(Pub. L. 109–58, title IX, §990, Aug. 8, 2005, 119 Stat. 912.)

EDITORIAL NOTES

REFERENCES IN TEXT

The Federal Advisory Committee Act, referred to in subsec. (b), is Pub. L. 92–463, Oct. 6, 1972, 86 Stat. 770, as amended, which is set out in the Appendix to Title 5, Government Organization and Employees.

This Act, referred to in subsec. (e)(1)(A), is Pub. L. 109–58, Aug. 8, 2005, 119 Stat. 594, as amended, known as the Energy Policy Act of 2005, which enacted this chapter and enacted, amended, and repealed numerous other sections and notes in the Code. For complete classification of this Act to the Code, see Short Title note set out under section 15801 of this title and Tables.

§16355. National Laboratory designation

After August 8, 2005, the Secretary shall not designate a facility that is not listed in section 15801(3) of this title as a National Laboratory.

(Pub. L. 109–58, title IX, §991, Aug. 8, 2005, 119 Stat. 913.)

§16356. Report on equal employment opportunity practices

Not later than 12 months after August 8, 2005, and biennially thereafter, the Secretary shall transmit to Congress a report on the equal employment opportunity practices at National Laboratories. Such report shall include—

(1) a thorough review of each National Laboratory contractor's equal employment opportunity policies, including promotion to management and professional positions and pay raises;

(2) a statistical report on complaints and their disposition in the National Laboratories;

(3) a description of how equal employment opportunity practices at the National Laboratories are treated in the contract and in calculating award fees for each contractor;

(4) a summary of disciplinary actions and their disposition by either the Department or the

relevant contractors for each National Laboratory;

(5) a summary of outreach efforts to attract women and minorities to the National Laboratories;

(6) a summary of efforts to retain women and minorities in the National Laboratories; and

(7) a summary of collaboration efforts with the Office of Federal Contract Compliance Programs to improve equal employment opportunity practices at the National Laboratories.

(Pub. L. 109–58, title IX, §992, Aug. 8, 2005, 119 Stat. 913.)

§16357. Strategy for facilities and infrastructure

(a) Facility and infrastructure policy

(1) In general

The Secretary shall develop and implement a strategy for facilities and infrastructure supported primarily from the Office of Science, the Office of Energy Efficiency and Renewable Energy, the Office of Fossil Energy, or the Office of Nuclear Energy, Science and Technology Programs at all National Laboratories and single-purpose research facilities.

(2) Strategy

The strategy shall provide cost-effective means for—

(A) maintaining existing facilities and infrastructure;

(B) closing unneeded facilities;

(C) making facility modifications; and

(D) building new facilities.

(b) Report

(1) In general

The Secretary shall prepare and submit, along with the budget request of the President submitted to Congress for fiscal year 2018, a report describing the strategy developed under subsection (a).

(2) Contents

For each National Laboratory and single-purpose research facility that is primarily used for science and energy research, the report shall contain—

(A) the current priority list of proposed facilities and infrastructure projects, including cost and schedule requirements;

(B) a current 10-year plan that demonstrates the reconfiguration of its facilities and infrastructure to meet its missions and to address its long-term operational costs and return on investment;

(C) the total current budget for all facilities and infrastructure funding; and

(D) the current status of each facility and infrastructure project compared to the original baseline cost, schedule, and scope.

(Pub. L. 109–58, title IX, §993, Aug. 8, 2005, 119 Stat. 913; Pub. L. 115–246, title II, §205(a), Sept. 28, 2018, 132 Stat. 3137.)

EDITORIAL NOTES

AMENDMENTS

2018—Pub. L. 115–246, §205(a)(1), substituted "Strategy for facilities and infrastructure" for "Strategy and plan for science and energy facilities and infrastructure" in section catchline.

Subsec. (b)(1). Pub. L. 115–246, §205(a)(2), substituted "2018" for "2008".

§16358. Strategic research portfolio analysis and coordination plan

(a) In general

The Secretary shall periodically review all of the science and technology activities of the Department in a strategic framework that takes into account—

(1) the frontiers of science to which the Department can contribute;

(2) the national needs relevant to the statutory missions of the Department; and

(3) global energy dynamics.

(b) Coordination analysis and plan

(1) In general

As part of the review under subsection (a), the Secretary shall develop a plan to improve coordination and collaboration in research, development, demonstration, and commercial application activities across organizational boundaries of the Department.

(2) Plan contents

The plan developed under paragraph (1) shall describe—

(A) crosscutting scientific and technical issues and research questions that span more than one program or major office of the Department;

(B) ways in which the applied technology programs of the Department are coordinating activities and addressing the questions referred to in subparagraph (A);

(C) ways in which the technical interchange within the Department, particularly between the Office of Science and the applied technology programs, could be enhanced, including ways in which the research agendas of the Office of Science and the applied programs could better interact and assist each other;

(D) ways in which the Secretary would ensure that the overall research agenda of the Department includes, in addition to fundamental, curiosity-driven research, fundamental research related to topics of concern to the applied programs, and applications in Departmental technology programs of research results generated by fundamental, curiosity-driven research;

(E) critical assessments of any ongoing programs that have experienced subpar performance or cost overruns of 10 percent or more over 1 or more years;

(F) any activities that may be more effectively left to the States, industry, nongovernmental organizations, institutions of higher education, or other stakeholders; and

(G) detailed evaluations and proposals for innovation hubs, institutes, and research centers of the Department, including—

(i) an affirmation that the hubs, institutes, and research centers will—

(I) advance the mission of the Department; and

(II) prioritize research, development, and demonstration; and

(ii) an affirmation that any hubs, institutes, or research centers that are established or renewed within the Office of Science are consistent with the mission of the Office of Science described in subsection (c) of section 7139 of this title.

(c) Submission to Congress

Every 4 years, the Secretary shall submit to Congress—

(1) the results of the review under subsection (a); and

(2) the coordination plan under subsection (b).

(Pub. L. 109–58, title IX, §994, as added Pub. L. 115–246, title II, §204, Sept. 28, 2018, 132 Stat. 3136.)

EDITORIAL NOTES

PRIOR PROVISIONS

A prior section 16358, Pub. L. 109–58, title IX, §994, Aug. 8, 2005, 119 Stat. 914, which required the Secretary to periodically review Department of Energy science and technology activities taking into account the frontiers of science to which the Department can contribute and the national needs relevant to the

Department's statutory missions, was repealed by Pub. L. 115–246, title II, §204, Sept. 28, 2018, 132 Stat. 3135.

§16359. Competitive award of management contracts

None of the funds authorized to be appropriated to the Secretary by this subchapter may be used to award a management and operating contract for a National Laboratory (excluding those named in subparagraphs (G), (H), (N), and (O) of section 15801(3) of this title), unless such contract is competitively awarded, or the Secretary grants, on a case-by-case basis, a waiver. The Secretary may not delegate the authority to grant such a waiver and shall submit to Congress a report notifying it of the waiver, and setting forth the reasons for the waiver, at least 60 days prior to the date of the award of such contract.

(Pub. L. 109–58, title IX, §995, Aug. 8, 2005, 119 Stat. 914.)

EDITORIAL NOTES

REFERENCES IN TEXT

This subchapter, referred to in text, was in the original "this title", meaning title IX of Pub. L. 109–58, Aug. 8, 2005, 119 Stat. 856, which enacted this subchapter, amended sections 8101 and 8102 of Title 7, Agriculture, and section 5523 of Title 15, Commerce and Trade, enacted provisions set out as notes under section 15801 of this title, section 8102 of Title 7, and section 2001 of Title 30, Mineral Lands and Mining, and amended provisions set out as notes under section 8101 of Title 7 and section 1902 of Title 30. For complete classification of title IX to the Code, see Short Title note set out under section 15801 of this title and Tables.

§16360. Western Michigan demonstration project

The Administrator of the Environmental Protection Agency, in consultation with the State of Michigan and affected local officials, shall conduct a demonstration project to address the effect of transported ozone and ozone precursors in Southwestern Michigan. The demonstration program shall address projected nonattainment areas in Southwestern Michigan that include counties with design values for ozone of less than .095 based on years 2000 to 2002 or the most current 3-year period of air quality data. The Administrator shall assess any difficulties such areas may experience in meeting the 8-hour national ambient air quality standard for ozone due to the effect of transported ozone or ozone precursors into the areas. The Administrator shall work with State and local officials to determine the extent of ozone and ozone precursor transport, to assess alternatives to achieve compliance with the 8-hour standard apart from local controls, and to determine the timeframe in which such compliance could take place. The Administrator shall complete this demonstration project no later than 2 years after August 8, 2005, and shall not impose any requirement or sanction under the Clean Air Act (42 U.S.C. 7401 et seq.) that might otherwise apply during the pendency of the demonstration project.

(Pub. L. 109–58, title IX, §996, Aug. 8, 2005, 119 Stat. 915.)

EDITORIAL NOTES

REFERENCES IN TEXT

The Clean Air Act, referred to in text, is act July 14, 1955, ch. 360, 69 Stat. 322, as amended, which is classified generally to chapter 85 (§7401 et seq.) of this title. For complete classification of this Act to the Code, see Short Title note set out under section 7401 of this title and Tables.

§16361. Arctic Engineering Research Center

(a) In general

The Secretary of Transportation, in consultation with the Secretary and the United States Arctic Research Commission, shall provide annual grants to a university located adjacent to the Arctic Energy Office of the Department of Energy, to establish and operate a university research center to be headquartered in Fairbanks and to be known as the "Arctic Engineering Research Center" (referred to in this section as the "Center").

(b) Purpose

The purpose of the Center shall be to conduct research on, and develop improved methods of, construction and use of materials to improve the overall performance of roads, bridges, residential, commercial, and industrial structures, and other infrastructure in the Arctic region, with an emphasis on developing—

(1) new construction techniques for roads, bridges, rail, and related transportation infrastructure and residential, commercial, and industrial infrastructure that are capable of withstanding the Arctic environment and using limited energy resources as efficiently as practicable;

(2) technologies and procedures for increasing road, bridge, rail, and related transportation infrastructure and residential, commercial, and industrial infrastructure safety, reliability, and integrity in the Arctic region;

(3) new materials and improving the performance and energy efficiency of existing materials for the construction of roads, bridges, rail, and related transportation infrastructure and residential, commercial, and industrial infrastructure in the Arctic region; and

(4) recommendations for new local, regional, and State permitting and building codes to ensure transportation and building safety and efficient energy use when constructing, using, and occupying such infrastructure in the Arctic region.

(c) Objectives

The Center shall carry out—

(1) basic and applied research in the subjects described in subsection (b), the products of which shall be judged by peers or other experts in the field to advance the body of knowledge in road, bridge, rail, and infrastructure engineering in the Arctic region; and

(2) an ongoing program of technology transfer that makes research results available to potential users in a form that can be implemented.

(d) Amount of grant

For each of fiscal years 2006 through 2011, the Secretary shall provide a grant in the amount of $3,000,000 to the institution specified in subsection (a) to carry out this section.

(e) Authorization of appropriations

There are authorized to be appropriated to carry out this section $3,000,000 for each of fiscal years 2006 through 2011.

(Pub. L. 109–58, title IX, §997, Aug. 8, 2005, 119 Stat. 915.)

§16362. Barrow Geophysical Research Facility

(a) Establishment

The Secretary of Commerce, in consultation with the Secretaries of Energy and the Interior, the Director of the National Science Foundation, and the Administrator of the Environmental Protection Agency, shall establish a joint research facility in Barrow, Alaska, to be known as the "Barrow Geophysical Research Facility", to support scientific research activities in the Arctic.

(b) Authorization of appropriations

There are authorized to be appropriated to the Secretaries of Commerce, Energy, and the Interior, the Director of the National Science Foundation, and the Administrator of the Environmental Protection Agency for the planning, design, construction, and support of the Barrow Geophysical

Research Facility, $61,000,000.

(Pub. L. 109–58, title IX, §998, Aug. 8, 2005, 119 Stat. 916.)

PART J—CARBON DIOXIDE TRANSPORTATION INFRASTRUCTURE FINANCE AND INNOVATION

EDITORIAL NOTES

PRIOR PROVISIONS

A prior part J related to ultra-deepwater and unconventional natural gas and other petroleum resources, prior to repeal by Pub. L. 113–67, div. A, title III, §301(a), Dec. 26, 2013, 127 Stat. 1181.

§16371. Definitions

In this part:

(1) CIFIA program

The term "CIFIA program" means the carbon dioxide transportation infrastructure finance and innovation program established under section 16372(a) of this title.

(2) Common carrier

The term "common carrier" means a transportation infrastructure operator or owner that—

(A) publishes a publicly available tariff containing the just and reasonable rates, terms, and conditions of nondiscriminatory service; and

(B) holds itself out to provide transportation services to the public for a fee.

(3) Contingent commitment

The term "contingent commitment" means a commitment to obligate funds from future available budget authority that is—

(A) contingent on those funds being made available in law at a future date; and

(B) not an obligation of the Federal Government.

(4) Eligible project costs

The term "eligible project costs" means amounts substantially all of which are paid by, or for the account of, an obligor in connection with a project, including—

(A) the cost of—

(i) development-phase activities, including planning, feasibility analysis, revenue forecasting, environmental review, permitting, preliminary engineering and design work, and other preconstruction activities;

(ii) construction, reconstruction, rehabilitation, replacement, and acquisition of real property (including land relating to the project and improvements to land), environmental mitigation, construction contingencies, and acquisition and installation of equipment (including labor); and

(iii) capitalized interest necessary to meet market requirements, reasonably required reserve funds, capital issuance expenses, and other carrying costs during construction; and

(B) transaction costs associated with financing the project, including—

(i) the cost of legal counsel and technical consultants; and

(ii) any subsidy amount paid in accordance with section 16372(c)(3)(B)(ii) of this title or section 16373(b)(6)(B)(ii) of this title.

(5) Federal credit instrument

The term "Federal credit instrument" means a secured loan or loan guarantee authorized to be provided under the CIFIA program with respect to a project.

(6) Lender

The term "lender" means a qualified institutional buyer (as defined in section 230.144A(a) of title 17, Code of Federal Regulations (or a successor regulation), commonly known as Rule 144A(a) of the Securities and Exchange Commission and issued under the Securities Act of 1933 (15 U.S.C. 77a et seq.)), that is not a Federal qualified institutional buyer.

(7) Letter of interest

The term "letter of interest" means a letter submitted by a potential applicant prior to an application for credit assistance in a format prescribed by the Secretary on the website of the CIFIA program that—

(A) describes the project and the location, purpose, and cost of the project;

(B) outlines the proposed financial plan, including the requested credit and grant assistance and the proposed obligor;

(C) provides a status of environmental review; and

(D) provides information regarding satisfaction of other eligibility requirements of the CIFIA program.

(8) Loan guarantee

The term "loan guarantee" means any guarantee or other pledge by the Secretary to pay all or part of the principal of, and interest on, a loan made to an obligor, or debt obligation issued by an obligor, in each case funded by a lender.

(9) Master credit agreement

The term "master credit agreement" means a conditional agreement that—

(A) is for the purpose of extending credit assistance for—

(i) a project of high priority under section 16372(c)(3)(A) of this title; or

(ii) a project covered under section 16372(c)(3)(B) of this title;

(B) does not provide for a current obligation of Federal funds; and

(C) would—

(i) make a contingent commitment of a Federal credit instrument or grant at a future date, subject to—

(I) the availability of future funds being made available to carry out the CIFIA program; and

(II) the satisfaction of all conditions for the provision of credit assistance under the CIFIA program, including section 16373(b) of this title;

(ii) establish the maximum amounts and general terms and conditions of the Federal credit instruments or grants;

(iii) identify the 1 or more revenue sources that will secure the repayment of the Federal credit instruments;

(iv) provide for the obligation of funds for the Federal credit instruments or grants after all requirements have been met for the projects subject to the agreement, including—

(I) compliance with all applicable requirements specified under the CIFIA program, including sections 16372(d) and 16373(b)(1) of this title; and

(II) the availability of funds to carry out the CIFIA program; and

(v) require that contingent commitments shall result in a financial close and obligation of credit or grant assistance by not later than 4 years after the date of entry into the agreement or release of the commitment, as applicable, unless otherwise extended by the Secretary.

(10) Obligor

The term "obligor" means a corporation, partnership, joint venture, trust, non-Federal governmental entity, agency, or instrumentality, or other entity that is liable for payment of the principal of, or interest on, a Federal credit instrument.

(11) Produced in the United States

The term "produced in the United States", with respect to iron and steel, means that all manufacturing processes for the iron and steel, including the application of any coating, occurs within the United States.

(12) Project

The term "project" means a project for common carrier carbon dioxide transportation infrastructure or associated equipment, including pipeline, shipping, rail, or other transportation infrastructure and associated equipment, that will transport or handle carbon dioxide captured from anthropogenic sources or ambient air, as the Secretary determines to be appropriate.

(13) Project obligation

The term "project obligation" means any note, bond, debenture, or other debt obligation issued by an obligor in connection with the financing of a project, other than a Federal credit instrument.

(14) Secured loan

The term "secured loan" means a direct loan to an obligor or a debt obligation issued by an obligor and purchased by the Secretary, in each case funded by the Secretary in connection with the financing of a project under section 16373 of this title.

(15) Subsidy amount

The term "subsidy amount" means the amount of budget authority sufficient to cover the estimated long-term cost to the Federal Government of a Federal credit instrument—

(A) calculated on a net present value basis; and

(B) excluding administrative costs and any incidental effects on governmental receipts or outlays in accordance with the Federal Credit Reform Act of 1990 (2 U.S.C. 661 et seq.).

(16) Substantial completion

The term "substantial completion", with respect to a project, means the date—

(A) on which the project commences transportation of carbon dioxide; or

(B) of a comparable event to the event described in subparagraph (A), as determined by the Secretary and specified in the project credit agreement.

(Pub. L. 109–58, title IX, §999A, as added Pub. L. 117–58, div. D, title III, §40304(a), Nov. 15, 2021, 135 Stat. 988.)

EDITORIAL NOTES

REFERENCES IN TEXT

The Securities Act of 1933, referred to in par. (6), is title I of act May 27, 1933, ch. 38, 48 Stat. 74, which is classified generally to subchapter I (§77a et seq.) of chapter 2A of Title 15, Commerce and Trade. For complete classification of this Act to the Code, see section 77a of Title 15 and Tables.

The Federal Credit Reform Act of 1990, referred to in par. (15)(B), is title V of Pub. L. 93–344, as added by Pub. L. 101–508, title XIII, §13201(a), Nov. 5, 1990, 104 Stat. 1388–609, which is classified generally to subchapter III (§661 et seq.) of chapter 17A of Title 2, The Congress. For complete classification of this Act to the Code, see Short Title note set out under section 621 of Title 2 and Tables.

PRIOR PROVISIONS

A prior section 16371, Pub. L. 109–58, title IX, §999A, Aug. 8, 2005, 119 Stat. 916, authorized the Secretary of Energy to carry out a program of research, development, demonstration, and commercial application of technologies for ultra-deepwater and unconventional natural gas and other petroleum resources, prior to repeal by Pub. L. 113–67, div. A, title III, §301(a), Dec. 26, 2013, 127 Stat. 1181.

§16372. Determination of eligibility and project selection

(a) Establishment of program

The Secretary shall establish and carry out a carbon dioxide transportation infrastructure finance and innovation program, under which the Secretary shall provide for eligible projects in accordance with this part—

(1) a Federal credit instrument under section 16373 of this title;

(2) a grant under section 16374 of this title; or

(3) both a Federal credit instrument and a grant.

(b) Eligibility

(1) In general

A project shall be eligible to receive a Federal credit instrument or a grant under the CIFIA program if—

(A) the entity proposing to carry out the project submits a letter of interest prior to submission of an application under paragraph (3) for the project; and

(B) the project meets the criteria described in this subsection.

(2) Creditworthiness

(A) In general

Each project and obligor that receives a Federal credit instrument or a grant under the CIFIA program shall be creditworthy, such that there exists a reasonable prospect of repayment of the principal and interest on the Federal credit instrument, as determined by the Secretary under subparagraph (B).

(B) Reasonable prospect of repayment

The Secretary shall base a determination of whether there is a reasonable prospect of repayment under subparagraph (A) on a comprehensive evaluation of whether the obligor has a reasonable prospect of repaying the Federal credit instrument for the eligible project, including evaluation of—

(i) the strength of the contractual terms of an eligible project (if available for the applicable market segment);

(ii) the forecast of noncontractual cash flows supported by market projections from reputable sources, as determined by the Secretary, and cash sweeps or other structural enhancements;

(iii) the projected financial strength of the obligor—

(I) at the time of loan close; and

(II) throughout the loan term, including after the project is completed;

(iv) the financial strength of the investors and strategic partners of the obligor, if applicable; and

(v) other financial metrics and analyses that are relied on by the private lending community and nationally recognized credit rating agencies, as determined appropriate by the Secretary.

(3) Applications

To be eligible for assistance under the CIFIA program, an obligor shall submit to the Secretary a project application at such time, in such manner, and containing such information as the Secretary determines to be appropriate.

(4) Eligible project costs

A project under the CIFIA program shall have eligible project costs that are reasonably anticipated to equal or exceed $100,000,000.

(5) Revenue sources

The applicable Federal credit instrument shall be repayable, in whole or in part, from—

(A) user fees;
(B) payments owing to the obligor under a public-private partnership; or
(C) other revenue sources that also secure or fund the project obligations.

(6) Obligor will be identified later

A State, local government, agency, or instrumentality of a State or local government, or a public authority, may submit to the Secretary an application under paragraph (3), under which a private party to a public-private partnership will be—
(A) the obligor; and
(B) identified at a later date through completion of a procurement and selection of the private party.

(7) Beneficial effects

The Secretary shall determine that financial assistance for each project under the CIFIA program will—
(A) attract public or private investment for the project; or
(B) enable the project to proceed at an earlier date than the project would otherwise be able to proceed or reduce the lifecycle costs (including debt service costs) of the project.

(8) Project readiness

To be eligible for assistance under the CIFIA program, the applicant shall demonstrate a reasonable expectation that the contracting process for construction of the project can commence by not later than 90 days after the date on which a Federal credit instrument or grant is obligated for the project under the CIFIA program.

(c) Selection among eligible projects

(1) Establishment of application process

The Secretary shall establish an application process under which projects that are eligible to receive assistance under subsection (b) may—
(A) receive credit assistance on terms acceptable to the Secretary, if adequate funds are available (including any funds provided on behalf of an eligible project under paragraph (3)(B)(ii)) to cover the subsidy amount associated with the Federal credit instrument; and
(B) receive grants under section 16374 of this title if—
(i) adequate funds are available to cover the amount of the grant; and
(ii) the Secretary determines that the project is eligible under subsection (b).

(2) Priority

In selecting projects to receive credit assistance under subsection (b), the Secretary shall give priority to projects that—
(A) are large-capacity, common carrier infrastructure;
(B) have demonstrated demand for use of the infrastructure by associated projects that capture carbon dioxide from anthropogenic sources or ambient air;
(C) enable geographical diversity in associated projects that capture carbon dioxide from anthropogenic sources or ambient air, with the goal of enabling projects in all major carbon dioxide-emitting regions of the United States; and
(D) are sited within, or adjacent to, existing pipeline or other linear infrastructure corridors, in a manner that minimizes environmental disturbance and other siting concerns.

(3) Master credit agreements

(A) Priority projects

The Secretary may enter into a master credit agreement for a project that the Secretary determines—
(i) will likely be eligible for credit assistance under subsection (b), on obtaining—
(I) additional commitments from associated carbon capture projects to use the project; or
(II) all necessary permits and approvals; and

(ii) is a project of high priority, as determined in accordance with the criteria described in paragraph (2).

(B) Adequate funding not available

If the Secretary fully obligates funding to eligible projects for a fiscal year and adequate funding is not available to fund a Federal credit instrument, a project sponsor (including a unit of State or local government) of an eligible project may elect—

(i)(I) to enter into a master credit agreement in lieu of the Federal credit instrument; and

(II) to wait to execute a Federal credit instrument until the fiscal year for which additional funds are available to receive credit assistance; or

(ii) if the lack of adequate funding is solely with respect to amounts available for the subsidy amount, to pay the subsidy amount to fund the Federal credit instrument.

(d) Federal requirements

(1) In general

Nothing in this part supersedes the applicability of any other requirement under Federal law (including regulations).

(2) NEPA

Federal credit assistance may only be provided under this part for a project that has received an environmental categorical exclusion, a finding of no significant impact, or a record of decision under the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.).

(e) Use of American iron, steel, and manufactured goods

(1) In general

Except as provided in paragraph (2), no Federal credit instrument or grant provided under the CIFIA program shall be made available for a project unless all iron, steel, and manufactured goods used in the project are produced in the United States.

(2) Exceptions

Paragraph (1) shall not apply in any case or category of cases with respect to which the Secretary determines that—

(A) the application would be inconsistent with the public interest;

(B) iron, steel, or a relevant manufactured good is not produced in the United States in sufficient and reasonably available quantity, or of a satisfactory quality; or

(C) the inclusion of iron, steel, or a manufactured good produced in the United States will increase the cost of the overall project by more than 25 percent.

(3) Waivers

If the Secretary receives a request for a waiver under this subsection, the Secretary shall—

(A) make available to the public a copy of the request, together with any information available to the Secretary concerning the request—

(i) on an informal basis; and

(ii) by electronic means, including on the official public website of the Department;

(B) allow for informal public comment relating to the request for not fewer than 15 days before making a determination with respect to the request; and

(C) approve or disapprove the request by not later than the date that is 120 days after the date of receipt of the request.

(4) Applicability

This subsection shall be applied in accordance with any applicable obligations of the United States under international agreements.

(f) Application processing procedures

(1) Notice of complete application

Not later than 30 days after the date of receipt of an application under this section, the Secretary shall provide to the applicant a written notice describing whether—

(A) the application is complete; or

(B) additional information or materials are needed to complete the application.

(2) Approval or denial of application

Not later than 60 days after the date of issuance of a written notice under paragraph (1), the Secretary shall provide to the applicant a written notice informing the applicant whether the Secretary has approved or disapproved the application.

(g) Development-phase activities

Any Federal credit instrument provided under the CIFIA program may be used to finance up to 100 percent of the cost of development-phase activities, as described in section 16371(4)(A) of this title.

(Pub. L. 109–58, title IX, §999B, as added Pub. L. 117–58, div. D, title III, §40304(a), Nov. 15, 2021, 135 Stat. 991.)

EDITORIAL NOTES

REFERENCES IN TEXT

The National Environmental Policy Act of 1969, referred to in subsec. (d)(2), is Pub. L. 91–190, Jan. 1, 1970, 83 Stat. 852, which is classified generally to chapter 55 (§4321 et seq.) of this title. For complete classification of this Act to the Code, see Short Title note set out under section 4321 of this title and Tables.

PRIOR PROVISIONS

A prior section 16372, Pub. L. 109–58, title IX, §999B, Aug. 8, 2005, 119 Stat. 917, related to administration of the program under former part J, prior to repeal by Pub. L. 113–67, div. A, title III, §301(a), Dec. 26, 2013, 127 Stat. 1181.

§16373. Secured loans

(a) Agreements

(1) In general

Subject to paragraph (2), the Secretary may enter into agreements with 1 or more obligors to make secured loans, the proceeds of which—

(A) shall be used—

(i) to finance eligible project costs of any project selected under section 16372 of this title;

(ii) to refinance interim construction financing of eligible project costs of any project selected under section 16372 of this title; or

(iii) to refinance long-term project obligations or Federal credit instruments, if the refinancing provides additional funding capacity for the completion, enhancement, or expansion of any project that—

(I) is selected under section 16372 of this title; or

(II) otherwise meets the requirements of that section; and

(B) may be used in accordance with subsection (b)(7) to pay any fees collected by the Secretary under subparagraph (B) of that subsection.

(2) Risk assessment

Before entering into an agreement under this subsection, the Secretary, in consultation with the Director of the Office of Management and Budget, shall determine an appropriate credit subsidy amount for each secured loan, taking into account all relevant factors, including the

creditworthiness factors under section 16372(b)(2) of this title.

(b) Terms and limitations

(1) In general

A secured loan under this section with respect to a project shall be on such terms and conditions and contain such covenants, representations, warranties, and requirements (including requirements for audits) as the Secretary determines to be appropriate.

(2) Maximum amount

The amount of a secured loan under this section shall not exceed an amount equal to 80 percent of the reasonably anticipated eligible project costs.

(3) Payment

A secured loan under this section shall be payable, in whole or in part, from—

(A) user fees;

(B) payments owing to the obligor under a public-private partnership; or

(C) other revenue sources that also secure or fund the project obligations.

(4) Interest rate

(A) In general

Except as provided in subparagraph (B), the interest rate on a secured loan under this section shall be not less than the interest rate reflected in the yield on United States Treasury securities of a similar maturity to the maturity of the secured loan on the date of execution of the loan agreement.

(B) Limited buydowns

(i) In general

Subject to clause (iii), the Secretary may lower the interest rate of a secured loan under this section to not lower than the interest rate described in clause (ii), if the interest rate has increased during the period—

(I) beginning on, as applicable—

(aa) the date on which an application acceptable to the Secretary is submitted for the applicable project; or

(bb) the date on which the Secretary entered into a master credit agreement for the applicable project; and

(II) ending on the date on which the Secretary executes the Federal credit instrument for the applicable project that is the subject of the secured loan.

(ii) Description of interest rate

The interest rate referred to in clause (i) is the interest rate reflected in the yield on United States Treasury securities of a similar maturity to the maturity of the secured loan in effect, as applicable to the project that is the subject of the secured loan, on—

(I) the date described in clause (i)(I)(aa); or

(II) the date described in clause (i)(I)(bb).

(iii) Limitation

The interest rate of a secured loan may not be lowered pursuant to clause (i) by more than 1½ percentage points (150 basis points).

(5) Maturity date

The final maturity date of the secured loan shall be the earlier of—

(A) the date that is 35 years after the date of substantial completion of the project; and

(B) if the useful life of the capital asset being financed is of a lesser period, the date that is the end of the useful life of the asset.

(6) Nonsubordination

(A) In general

Except as provided in subparagraph (B), the secured loan shall not be subordinated to the claims of any holder of project obligations in the event of bankruptcy, insolvency, or liquidation of the obligor.

(B) Preexisting indenture

(i) In general

The Secretary shall waive the requirement under subparagraph (A) for a public agency borrower that is financing ongoing capital programs and has outstanding senior bonds under a preexisting indenture, if—

(I) the secured loan is rated in the A category or higher; and

(II) the secured loan is secured and payable from pledged revenues not affected by project performance, such as a tax-backed revenue pledge or a system-backed pledge of project revenues.

(ii) Limitation

If the Secretary waives the nonsubordination requirement under this subparagraph—

(I) the maximum credit subsidy amount to be paid by the Federal Government shall be not more than 10 percent of the principal amount of the secured loan; and

(II) the obligor shall be responsible for paying the remainder of the subsidy amount, if any.

(7) Fees

(A) In general

The Secretary may collect a fee on or after the date of the financial close of a Federal credit instrument under this section in an amount equal to not more than $3,000,000 to cover all or a portion of the costs to the Federal Government of providing the Federal credit instrument.

(B) Amendment to add cost of fees to secured loan

If the Secretary collects a fee from an obligor under subparagraph (A) to cover all or a portion of the costs to the Federal Government of providing a secured loan, the obligor and the Secretary may amend the terms of the secured loan to add to the principal of the secured loan an amount equal to the amount of the fee collected by the Secretary.

(8) Maximum Federal involvement

The total Federal assistance provided for a project under the CIFIA program, including any grant provided under section 16374 of this title, shall not exceed an amount equal to 80 percent of the eligible project costs.

(c) Repayment

(1) Schedule

The Secretary shall establish a repayment schedule for each secured loan under this section based on—

(A) the projected cash flow from project revenues and other repayment sources; and

(B) the useful life of the project.

(2) Commencement

Scheduled loan repayments of principal or interest on a secured loan under this section shall commence not later than 5 years after the date of substantial completion of the project.

(3) Deferred payments

(A) In general

If, at any time after the date of substantial completion of a project, the project is unable to

generate sufficient revenues in excess of reasonable and necessary operating expenses to pay the scheduled loan repayments of principal and interest on the secured loan, the Secretary may, subject to subparagraph (C), allow the obligor to add unpaid principal and interest to the outstanding balance of the secured loan.

(B) Interest

Any payment deferred under subparagraph (A) shall—

(i) continue to accrue interest in accordance with subsection (b)(4) until fully repaid; and

(ii) be scheduled to be amortized over the remaining term of the loan.

(C) Criteria

(i) In general

Any payment deferral under subparagraph (A) shall be contingent on the project meeting criteria established by the Secretary.

(ii) Repayment standards

The criteria established pursuant to clause (i) shall include standards for the reasonable prospect of repayment.

(4) Prepayment

(A) Use of excess revenues

Any excess revenues that remain after satisfying scheduled debt service requirements on the project obligations and secured loan and all deposit requirements under the terms of any trust agreement, bond resolution, or similar agreement securing project obligations may be applied annually to prepay the secured loan, without penalty.

(B) Use of proceeds of refinancing

A secured loan may be prepaid at any time without penalty from the proceeds of refinancing from non-Federal funding sources.

(d) Sale of secured loans

(1) In general

Subject to paragraph (2), as soon as practicable after substantial completion of a project and after notifying the obligor, the Secretary may sell to another entity or reoffer into the capital markets a secured loan for the project if the Secretary determines that the sale or reoffering can be made on favorable terms.

(2) Consent of obligor

In making a sale or reoffering under paragraph (1), the Secretary may not change any original term or condition of the secured loan without the written consent of the obligor.

(e) Loan guarantees

(1) In general

The Secretary may provide a loan guarantee to a lender in lieu of making a secured loan under this section if the Secretary determines that the budgetary cost of the loan guarantee is substantially the same as, or less than, that of a secured loan.

(2) Terms

The terms of a loan guarantee under paragraph (1) shall be consistent with the terms required under this section for a secured loan, except that the rate on the guaranteed loan and any prepayment features shall be negotiated between the obligor and the lender, with the consent of the Secretary.

(Pub. L. 109–58, title IX, §999C, as added Pub. L. 117–58, div. D, title III, §40304(a), Nov. 15, 2021, 135 Stat. 995.)

EDITORIAL NOTES

PRIOR PROVISIONS

A prior section 16373, Pub. L. 109–58, title IX, §999C, Aug. 8, 2005, 119 Stat. 921, related to additional requirements for awards, prior to repeal by Pub. L. 113–67, div. A, title III, §301(a), Dec. 26, 2013, 127 Stat. 1181.

§16374. Future growth grants

(a) Establishment

The Secretary may provide grants to pay a portion of the cost differential, with respect to any projected future increase in demand for carbon dioxide transportation by an infrastructure project described in subsection (b), between—

(1) the cost of constructing the infrastructure asset with the capacity to transport an increased flow rate of carbon dioxide, as made practicable under the project; and

(2) the cost of constructing the infrastructure asset with the capacity to transport carbon dioxide at the flow rate initially required, based on commitments for the use of the asset.

(b) Eligibility

To be eligible to receive a grant under this section, an entity shall—

(1) be eligible to receive credit assistance under the CIFIA program;

(2) carry out, or propose to carry out, a project for large-capacity, common carrier infrastructure with a probable future increase in demand for carbon dioxide transportation; and

(3) submit to the Secretary an application at such time, in such manner, and containing such information as the Secretary determines to be appropriate.

(c) Use of funds

A grant provided under this section may be used only to pay the costs of any additional flow rate capacity of a carbon dioxide transportation infrastructure asset that the project sponsor demonstrates to the satisfaction of the Secretary can reasonably be expected to be used during the 20-year period beginning on the date of substantial completion of the project described in subsection (b)(2).

(d) Maximum amount

The amount of a grant provided under this section may not exceed an amount equal to 80 percent of the cost of the additional capacity described in subsection (a).

(Pub. L. 109–58, title IX, §999D, as added Pub. L. 117–58, div. D, title III, §40304(a), Nov. 15, 2021, 135 Stat. 998.)

EDITORIAL NOTES

PRIOR PROVISIONS

A prior section 16374, Pub. L. 109–58, title IX, §999D, Aug. 8, 2005, 119 Stat. 922, related to the Ultra-Deepwater Advisory Committee and Unconventional Resources Technology Advisory Committee, prior to repeal by Pub. L. 113–67, div. A, title III, §301(a), Dec. 26, 2013, 127 Stat. 1181.

§16375. Program administration

(a) Requirement

The Secretary shall establish a uniform system to service the Federal credit instruments provided under the CIFIA program.

(b) Fees

If funding sufficient to cover the costs of services of expert firms retained pursuant to subsection

(d) and all or a portion of the costs to the Federal Government of servicing the Federal credit instruments is not provided in an appropriations Act for a fiscal year, the Secretary, during that fiscal year, may collect fees on or after the date of the financial close of a Federal credit instrument provided under the CIFIA program at a level that is sufficient to cover those costs.

(c) Servicer

(1) In general

The Secretary may appoint a financial entity to assist the Secretary in servicing the Federal credit instruments.

(2) Duties

A servicer appointed under paragraph (1) shall act as the agent for the Secretary.

(3) Fee

A servicer appointed under paragraph (1) shall receive a servicing fee, subject to approval by the Secretary.

(d) Assistance from expert firms

The Secretary may retain the services of expert firms, including counsel, in the field of municipal and project finance to assist in the underwriting and servicing of Federal credit instruments.

(e) Expedited processing

The Secretary shall implement procedures and measures to economize the time and cost involved in obtaining approval and the issuance of credit assistance under the CIFIA program.

(Pub. L. 109–58, title IX, §999E, as added Pub. L. 117–58, div. D, title III, §40304(a), Nov. 15, 2021, 135 Stat. 999.)

EDITORIAL NOTES

PRIOR PROVISIONS

A prior section 16375, Pub. L. 109–58, title IX, §999E, Aug. 8, 2005, 119 Stat. 923, related to limitations on eligibility for awards, prior to repeal by Pub. L. 113–67, div. A, title III, §301(a), Dec. 26, 2013, 127 Stat. 1181.

§16376. State and local permits

The provision of credit assistance under the CIFIA program with respect to a project shall not—

(1) relieve any recipient of the assistance of any project obligation to obtain any required State or local permit or approval with respect to the project;

(2) limit the right of any unit of State or local government to approve or regulate any rate of return on private equity invested in the project; or

(3) otherwise supersede any State or local law (including any regulation) applicable to the construction or operation of the project.

(Pub. L. 109–58, title IX, §999F, as added Pub. L. 117–58, div. D, title III, §40304(a), Nov. 15, 2021, 135 Stat. 999.)

EDITORIAL NOTES

PRIOR PROVISIONS

A prior section 16376, Pub. L. 109–58, title IX, §999F, Aug. 8, 2005, 119 Stat. 923, terminated the authority provided by former part J on Sept. 30, 2014, prior to repeal by Pub. L. 113–67, div. A, title III, §301(a), Dec. 26, 2013, 127 Stat. 1181.

§16377. Regulations

The Secretary may promulgate such regulations as the Secretary determines to be appropriate to carry out the CIFIA program.

(Pub. L. 109–58, title IX, §999G, as added Pub. L. 117–58, div. D, title III, §40304(a), Nov. 15, 2021, 135 Stat. 1000.)

EDITORIAL NOTES

PRIOR PROVISIONS

A prior section 16377, Pub. L. 109–58, title IX, §999G, Aug. 8, 2005, 119 Stat. 923, defined terms for former part J, prior to repeal by Pub. L. 113–67, div. A, title III, §301(a), Dec. 26, 2013, 127 Stat. 1181.

§16378. Authorization of appropriations; contract authority

(a) Authorization of appropriations

(1) In general

There are authorized to be appropriated to the Secretary to carry out this part—

(A) $600,000,000 for each of fiscal years 2022 and 2023; and

(B) $300,000,000 for each of fiscal years 2024 through 2026.

(2) Spending and borrowing authority

Spending and borrowing authority for a fiscal year to enter into Federal credit instruments shall be promptly apportioned to the Secretary on a fiscal-year basis.

(3) Reestimates

If the subsidy amount of a Federal credit instrument is reestimated, the cost increase or decrease of the reestimate shall be borne by, or benefit, the general fund of the Treasury, consistent with section 661c(f) of title 2.

(4) Administrative costs

Of the amounts made available to carry out the CIFIA program, the Secretary may use not more than $9,000,000 (as indexed for United States dollar inflation from November 15, 2021 (as measured by the Consumer Price Index)) each fiscal year for the administration of the CIFIA program.

(b) Contract authority

(1) In general

Notwithstanding any other provision of law, execution of a term sheet by the Secretary of a Federal credit instrument that uses amounts made available under the CIFIA program shall impose on the United States a contractual obligation to fund the Federal credit investment.

(2) Availability

Amounts made available to carry out the CIFIA program for a fiscal year shall be available for obligation on October 1 of the fiscal year.

(Pub. L. 109–58, title IX, §999H, as added Pub. L. 117–58, div. D, title III, §40304(a), Nov. 15, 2021, 135 Stat. 1000.)

A, title III, §301(a), Dec. 26, 2013,

SUBCHAPTER X—DEPARTMENT OF ENERGY MANAGEMENT

§16391. Improved technology transfer of energy technologies

(a) Office of Technology Transitions

(1) Establishment

There is established within the Department an Office of Technology Transitions (referred to in this section as the "Office").

(2) Mission

The mission of the Office shall be—

(A) to expand the commercial impact of the research investments of the Department; and

(B) to focus on commercializing technologies that support the missions of the Department, including reducing greenhouse gas emissions and other pollutants.

(3) Goals

(A) In general

In carrying out the mission and activities of the Office, the Chief Commercialization Officer appointed under paragraph (4) shall, with respect to commercialization activities, meet all of the goals described in subparagraph (B).

(B) Goals described

The goals referred to in subparagraph (A) are the following:

(i) Reduction of greenhouse gas emissions and other pollutants.

(ii) Ensuring economic competitiveness.

(iii) Enhancement of domestic energy security and national security.

(iv) Enhancement of domestic jobs.

(v) Improvement of energy efficiency.

(vi) Any other goals to support the transfer of technology developed by Department-funded programs to the private sector, as consistent with missions of the Department.

(4) Chief Commercialization Officer

(A) In general

The Office shall be headed by an officer, who shall be known as the "Chief Commercialization Officer", and who shall report directly to, and be appointed by, the Secretary.

(B) Principal advisor

The Chief Commercialization Officer shall be the principal advisor to the Secretary on all matters relating to technology transfer and commercialization.

(C) Qualifications

The Chief Commercialization Officer shall be an individual who, by reason of professional background and experience, is specially qualified to advise the Secretary on matters pertaining to technology transfer at the Department.

(D) Duties

The Chief Commercialization Officer shall oversee—

(i) the activities of the Technology Transfer Working Group established under subsection (b);

(ii) the expenditure of funds allocated for technology transfer within the Department;

(iii) the activities of each technology partnership ombudsman appointed under section 7261c of this title; and

(iv) efforts to engage private sector entities, including venture capital companies.

(5) Coordination

In carrying out the mission and activities of the Office, the Chief Commercialization Officer shall coordinate with the senior leadership of the Department, other relevant program offices of the Department, National Laboratories, the Technology Transfer Working Group established under subsection (b), the Technology Transfer Policy Board, and other stakeholders (including private industry).

(b) Technology Transfer Working Group

The Secretary shall establish a Technology Transfer Working Group, which shall consist of representatives of the National Laboratories and single-purpose research facilities, to—

(1) coordinate technology transfer activities occurring at National Laboratories and single-purpose research facilities;

(2) exchange information about technology transfer practices, including alternative approaches to resolution of disputes involving intellectual property rights and other technology transfer matters; and

(3) develop and disseminate to the public and prospective technology partners information about opportunities and procedures for technology transfer with the Department, including opportunities and procedures related to alternative approaches to resolution of disputes involving intellectual property rights and other technology transfer matters.

(c) Technology Commercialization Fund

The Secretary shall establish an Energy Technology Commercialization Fund, using 0.9 percent of the amount made available to the Department for applied energy research, development, demonstration, and commercial application for each fiscal year based on future planned activities and the amount of the appropriations for the fiscal year, to be used to provide matching funds with private partners to promote promising energy technologies for commercial purposes.

(d) Technology transfer responsibility

Nothing in this section affects the technology transfer responsibilities of Federal employees under the Stevenson-Wydler Technology Innovation Act of 1980 (15 U.S.C. 3701 et seq.).

(e) Technology Commercialization Fund

(1) Establishment

The Secretary, acting through the Chief Commercialization Officer established in subsection (a), shall establish a Technology Commercialization Fund (hereafter referred to as the "Fund"), using nine-tenths of one percent of the amount of appropriations made available to the Department for applied energy research, development, demonstration, and commercial application for each fiscal year, to be used to provide, in accordance with the cost-sharing requirements under section 16352 of this title, funds to private partners, including national laboratories, to promote promising energy technologies for commercial purposes.

(2) Applications

(A) Considerations

The Secretary shall develop criteria for evaluating applications for funding under this section, which may include—

(i) the potential that a proposed technology will result in a commercially successful product within a reasonable timeframe; and

(ii) the relative maturity of a proposed technology for commercial application.

(B) Selections

In awarding funds under this section, the Secretary may give special consideration to applications that involve at least one applicant that has participated in an entrepreneurial or commercialization training program, such as Energy Innovation Corps.

(f) Annual report

The Secretary shall include in the annual report required under section 16391a(a) of this title—

(1) description of the projects carried out with awards from the Fund for that fiscal year;

(2) each project's cost-share for that fiscal year; and

(3) each project's partners for that fiscal year.

(g) Technology commercialization fund report

(1) In general

Not later than 1 year after December 27, 2020, the Secretary shall submit to the Committee on Science, Space, and Technology and Committee on Appropriations of the House of Representatives and the Committee on Energy and Natural Resources and Committee on Appropriations of the Senate a report on the current and recommended implementation of the Fund.

(2) Contents

The report under subparagraph (A) shall include—

(A) a summary, with supporting data, of how much Department program offices contribute to and use the Fund each year, including a list of current funding restrictions;

(B) recommendations on how to improve implementation and administration of the Fund; and

(C) an analysis on how to spend funds optimally on technology areas that have the greatest need and opportunity for commercial application, rather than spending funds at the programmatic level or under current funding restrictions.

(h) Planning and reporting

(1) In general

Not later than 180 days after August 8, 2005, the Secretary shall submit to Congress a technology transfer execution plan.

(2) Updates

Each year after the submission of the plan under paragraph (1), the Secretary shall submit to Congress an updated execution plan and reports that describe progress toward meeting goals set forth in the execution plan and the funds expended under subsection (c).

(i) Additional technology transfer programs

The Secretary may develop additional programs to—

(1) support regional energy innovation systems;

(2) support clean energy incubators;

(3) provide small business vouchers;

(4) provide financial and technical assistance for entrepreneurial fellowships at national laboratories;

(5) encourage students, energy researchers, and national laboratory employees to develop entrepreneurial skillsets and engage in entrepreneurial opportunities;

(6) support private companies and individuals in partnering with National Laboratories; and

(7) further support the mission and goals of the Office.

(Pub. L. 109–58, title X, §1001, Aug. 8, 2005, 119 Stat. 926; Pub. L. 113–291, div. C, title XXXI, §3144, Dec. 19, 2014, 128 Stat. 3902; Pub. L. 115–246, title I, §102, Sept. 28, 2018, 132 Stat. 3131; Pub. L. 116–260, div. Z, title IX, §§9001, 9003, Dec. 27, 2020, 134 Stat. 2595, 2597; Pub. L. 117–58, div. D, title XII, §41201(g), Nov. 15, 2021, 135 Stat. 1131.)

EDITORIAL NOTES

REFERENCES IN TEXT

The Stevenson-Wydler Technology Innovation Act of 1980, referred to in subsec. (d), is Pub. L. 96–480, Oct. 21, 1980, 94 Stat. 2311, which is classified generally to chapter 63 (§3701 et seq.) of Title 15, Commerce and Trade. For complete classification of this Act to the Code, see Short Title note set out under section 3701 of Title 15 and Tables.

AMENDMENTS

2021—Subsecs. (f) to (i). Pub. L. 117–58 redesignated subsecs. (f) relating to planning and reporting and (g) relating to additional technology transfer programs as (h) and (i), respectively.

2020—Subsec. (a). Pub. L. 116–260, §9001(1), added subsec. (a) through par. (4)(B) and struck out former subsec. (a). Prior to amendment, text read as follows: "The Secretary shall appoint a Technology Transfer Coordinator to be the principal advisor to the Secretary on all matters relating to technology transfer and commercialization."

Subsec. (a)(4)(C). Pub. L. 116–260, §9001(1), redesignated subsec. (b) as subpar. (C) of subsec. (a)(4) and substituted "The Chief Commercialization Officer" for "The Coordinator".

Subsec. (a)(4)(D). Pub. L. 116–260, §9001(2)(B), (C), redesignated subsec. (c) as subpar. (D) of subsec. (a)(4), substituted "Duties" for "Duties of the Coordinator" in heading and "The Chief Commercialization Officer" for "The Coordinator" in introductory provisions, and redesignated pars. (1) to (4) of former subsec. (c) as cls. (i) to (iv), respectively, of subpar. (D).

Subsec. (a)(5). Pub. L. 116–260, §9001(3), added par. (5).

Subsec. (b). Pub. L. 116–260, §9001(4), redesignated subsec. (d) as (b). Former subsec. (b) effectively redesignated subpar. (C) of subsec. (a)(4).

Subsec. (c). Pub. L. 116–260, §9001(4), redesignated subsec. (e) as (c). Former subsec. (c) effectively redesignated subpar. (D) of subsec. (a)(4).

Subsec. (c)(1). Pub. L. 116–260, §9001(2)(A), substituted "subsection (b)" for "subsection (d)" in par. (1) prior to its redesignation as cl. (i) of subsec. (a)(4)(D).

Subsec. (d). Pub. L. 116–260, §9001(4), redesignated subsec. (f) as (d). Former subsec. (d) redesignated (b).

Subsec. (e). Pub. L. 116–260, §9003, amended subsec. (e) generally. Prior to amendment, text read as follows: "The Secretary shall permit the directors of the National Laboratories to use funds authorized to support technology transfer within the Department to carry out early stage and precommercial technology demonstration activities to remove technology barriers that limit private sector interest and demonstrate potential commercial applications of any research and technologies arising from National Laboratory activities."

Pub. L. 116–260, §9001(4), redesignated subsec. (g) as (e). Former subsec. (e) redesignated (c).

Subsec. (f). Pub. L. 116–260, §9003, which directed the general amendment of subsec. (e) and included in the new text a subsec. (f) relating to annual report, was executed by adding such subsec. (f).

Pub. L. 116–260, §9001(4), redesignated subsec. (h) as (f) relating to planning and reporting. Former subsec. (f) redesignated (d).

Subsec. (f)(2). Pub. L. 116–260, §9001(5), substituted "subsection (c)" for "subsection (e)" in par. (2) of subsec. (f) relating to planning and reporting.

Subsec. (g). Pub. L. 116–260, §9003, which directed the general amendment of subsec. (e) and included in the new text a subsec. (g) relating to Technology Commercialization Fund report, was executed by adding such subsec. (g).

Pub. L. 116–260, §9001(6), added subsec. (g) relating to additional technology transfer programs. Former subsec. (g) redesignated (e).

Pub. L. 116–260, §9001(4), redesignated subsec. (g) as (e).

Subsec. (h). Pub. L. 116–260, §9001(4), redesignated subsec. (h) as (f) relating to planning and reporting.

2018—Subsecs. (g), (h). Pub. L. 115–246 added subsec. (g) and redesignated former subsec. (g) as (h).

2014—Subsec. (e). Pub. L. 113–291 inserted "based on future planned activities and the amount of the appropriations for the fiscal year" after "each fiscal year".

STATUTORY NOTES AND RELATED SUBSIDIARIES

LAB PARTNERING SERVICE PILOT PROGRAM

Pub. L. 116–260, div. Z, title IX, §9002, Dec. 27, 2020, 134 Stat. 2596, provided that:

"(a) PILOT PROGRAM.—

"(1) IN GENERAL.—The Secretary of Energy (in this section referred to as the 'Secretary'), acting through the Chief Commercialization Officer established in section 1001(a) of the Energy Policy Act of 2005 (42 U.S.C. 16391(a)), shall establish a Lab Partnering Service Pilot Program (hereinafter in this section referred to as the 'pilot program').

"(2) PURPOSES.—The purposes of the pilot program are to provide services that encourage and support partnerships between the National Laboratories and public and private sector entities, and to improve communication of research, development, demonstration, and commercial application projects and opportunities at the National Laboratories to potential partners through the development of a website and the provision of services, in collaboration with relevant external entities, and to identify and develop metrics regarding the effectiveness of such partnerships.

"(3) ACTIVITIES.—In carrying out this pilot program, the Secretary shall—

"(A) conduct outreach to and engage with relevant public and private entities;

"(B) identify and disseminate best practices for strengthening connections between the National Laboratories and public and private sector entities; and

"(C) develop a website to disseminate information on—

"(i) different partnering mechanisms for working with the National Laboratories;

"(ii) National Laboratory experts and research areas; and

"(iii) National Laboratory facilities and user facilities.

"(b) METRICS.—The Secretary shall support the development of metrics, including conversion metrics, to determine the effectiveness of the pilot program in achieving the purposes in subsection (a) and the number and types of partnerships established between public and private sector entities and the National Laboratories compared to baseline data.

"(c) COORDINATION.—In carrying out the activities authorized in this section, the Secretary shall coordinate with the Directors of (and dedicated technology transfer staff at) the National Laboratories, in particular for matchmaking services for individual projects, which should be led by the National Laboratories.

"(d) FUNDING EMPLOYEE PARTNERING ACTIVITIES.—The Secretary shall delegate to the Directors of each National Laboratory and single-purpose research facility of the Department the authority to compensate National Laboratory employees providing services under this section.

"(e) DURATION.—Subject to the availability of appropriations, the pilot program established in this section shall operate for not less than 3 years and may be built off an existing program.

"(f) EVALUATION.—Not later than 6 months after the completion of this pilot program, the Secretary shall support the evaluation of the success of the pilot program in achieving the purposes in subsection (a) and shall submit the evaluation to the Committee on Science, Space, and Technology of the House of Representatives and the Committee on Energy and Natural Resources of the Senate. The assessment shall include analyses of the performance of the pilot program based on the metrics developed under subsection (b).

"(g) DEFINITION.—In this section, the term 'National Laboratory' has the meaning given such term in section 2(3) of the Energy Policy Act of 2005 (42 U.S.C. 15801(3))."

§16391a. Technology transfer reports and evaluation

(a) Annual report

As part of the updated technology transfer execution plan required each year under section 16391(h)(2) of this title, the Secretary of Energy (in this section referred to as the "Secretary") shall submit to the Committee on Science, Space, and Technology of the House of Representatives and the Committee on Energy and Natural Resources of the Senate a report on the progress and implementation of programs established under sections 9001, 9002, 9003, 9004, and 9005 of this Act.

(b) Evaluation

Not later than 3 years after December 27, 2020, and every 3 years thereafter the Secretary shall submit to the Committee on Science, Space, and Technology of the House of Representatives and the Committee on Energy and Natural Resources of the Senate an evaluation on the extent to which programs established under sections 9001, 9002, 9003, 9004, and 9005 of this Act are achieving success based on relevant short-term and long-term metrics.

(c) Report on technology transfer gaps

Not later than 3 years after December 27, 2020, the Secretary shall enter into an agreement with the National Academies of Science, Engineering, and Medicine to submit to the Committee on Science, Space, and Technology of the House of Representatives and the Committee on Energy and Natural Resources of the Senate a report on programmatic gaps that exist to advance the commercial application of technologies developed at the National Laboratories (as defined in section 15801(3) of this title).

(Pub. L. 116–260, div. Z, title IX, §9007, Dec. 27, 2020, 134 Stat. 2600.)

EDITORIAL NOTES

REFERENCES IN TEXT

Sections 9001, 9002, 9003, 9004, and 9005 of this Act, referred to in subsecs. (a) and (b), are sections 9001, 9002, 9003, 9004, and 9005 of div. Z of Pub. L. 116–260, known as the Energy Act of 2020. Sections 9001 and 9003 of the Act amended section 16391 of this title. Section 9002 of the Act enacted provisions set out as a note under section 16391 of this title. Section 9004 of the Act amended section 16396 of this title. Section 9005 of the Act enacted section 7256c of this title.

CODIFICATION

Section was enacted as part of the Energy Act of 2020, and not as part of the Energy Policy Act of 2005 which comprises this chapter.

§16392. Technology Infrastructure Program

(a) Definitions

In this section:

(1) Program

The term "Program" means the Technology Infrastructure Program established under subsection (b).

(2) Technology cluster

The term "technology cluster" means a concentration of technology-related business concerns, institutions of higher education, or nonprofit institutions, that reinforce each other's performance in the areas of technology development through formal or informal relationships.

(3) Technology-related business concern

The term "technology-related business concern" means a for-profit corporation, company, association, firm, partnership, or small business concern that—

(A) conducts scientific or engineering research;

(B) develops new technologies;

(C) manufactures products based on new technologies; or

(D) performs technological services.

(b) Establishment

The Secretary shall establish a Technology Infrastructure Program in accordance with this section.

(c) Purpose

The purpose of the Program shall be to improve the ability of National Laboratories and single-purpose research facilities to support departmental missions by—

(1) stimulating the development of technology clusters that can support departmental missions at the National Laboratories or single-purpose research facilities;

(2) improving the ability of National Laboratories and single-purpose research facilities to leverage and benefit from commercial research, technology, products, processes, and services; and

(3) encouraging the exchange of scientific and technological expertise between—

(A) National Laboratories or single-purpose research facilities; and

(B) entities that can support departmental missions at the National Laboratories or single-purpose research facilities, such as—

(i) institutions of higher education;

(ii) technology-related business concerns;

(iii) nonprofit institutions; and

(iv) agencies of State, tribal, or local governments.

(d) Projects

The Secretary shall authorize the director of each National Laboratory or single-purpose research facility to implement the Program at the National Laboratory or facility through one or more projects that meet the requirements of subsections (e) and (f).

(e) Program requirements

(1) In general

Each project funded under this section shall meet the requirements of this subsection.

(2) Entities

Each project shall include at least one of each of the following entities:

(A) A business.

(B) An institution of higher education.

(C) A nonprofit institution.

(D) An agency of a State, local, or tribal government.

(3) Cost-sharing

(A) In general

The costs of carrying out projects under this section shall be shared in accordance with section 16352 of this title.

(B) Sources

The calculation of costs paid by the non-Federal sources for a project shall include cash, personnel, services, equipment, and other resources expended on the project after the commencement of the project.

(C) Research and development expenses

Independent research and development expenses of Government contractors that qualify for reimbursement under section 31.205–18(e) of title 48, Code of Federal Regulations, issued pursuant to section 1303(a)(1) of title 41, may be credited towards costs paid by non-Federal sources to a project, if the expenses meet the other requirements of this section.

(4) Competitive selection

A project under this section shall be competitively selected using procedures determined by the Secretary.

(5) Accounting

Any participant that receives funds under this section may use generally accepted accounting principles for maintaining accounts, books, and records relating to the project.

(6) Duration

No Federal funds shall be made available under this section for a construction project or for any project with a duration of more than 5 years.

(f) Selection criteria

(1) Departmental missions

The Secretary shall allocate funds under this section only if the Director of the National Laboratory or single-purpose research facility managing the project determines that the project is likely to improve the ability of the National Laboratory or single-purpose research facility to

achieve technical success in meeting departmental missions.

(2) Other criteria

In selecting a project to receive Federal funds, the Secretary shall consider—

(A) the potential of the project to promote the development of a commercially sustainable technology cluster following the period of investment by the Department, which will derive most of the demand for its products or services from the private sector, and which will support departmental missions at the participating National Laboratory or single-purpose research facility;

(B) the potential of the project to promote the use of commercial research, technology, products, processes, and services by the participating National Laboratory or single-purpose research facility to achieve its mission or the commercial development of technological innovations made at the participating National Laboratory or single-purpose research facility;

(C) the extent to which the project involves a wide variety and number of institutions of higher education, nonprofit institutions, and technology-related business concerns that can support the missions of the participating National Laboratory or single-purpose research facility and that will make substantive contributions to achieving the goals of the project;

(D) the extent to which the project focuses on promoting the development of technology-related business concerns that are small businesses or involves such small businesses substantively in the project; and

(E) such other criteria as the Secretary determines to be appropriate.

(g) Allocation

In allocating funds for projects approved under this section, the Secretary shall provide—

(1) the Federal share of the project costs; and

(2) additional funds to the National Laboratory or single-purpose research facility managing the project to permit the National Laboratory or single-purpose research facility to carry out activities relating to the project, and to coordinate the activities with the project.

(h) Report to Congress

Not later than July 1, 2008, the Secretary shall submit to Congress a report on whether the Program should be continued and, if so, how the program should be managed.

(i) Authorization of appropriations

There are authorized to be appropriated to the Secretary for activities under this section $10,000,000 for each of fiscal years 2006 through 2008.

(Pub. L. 109–58, title X, §1002, Aug. 8, 2005, 119 Stat. 927.)

EDITORIAL NOTES

CODIFICATION

In subsec. (e)(3)(C), "section 1303(a)(1) of title 41" substituted for "section 25(c)(1) of the Office of Federal Procurement Policy Act (41 U.S.C. 421(c)(1))" on authority of Pub. L. 111–350, §6(c), Jan. 4, 2011, 124 Stat. 3854, which Act enacted Title 41, Public Contracts.

§16393. Small business advocacy and assistance

(a) Small business advocate

The Secretary shall require the Director of each National Laboratory, and may require the Director of a single-purpose research facility, to designate a small business advocate to—

(1) increase the participation of small business concerns, including socially and economically disadvantaged small business concerns (as defined in section 637(a)(4) of title 15), in procurement, collaborative research, technology licensing, and technology transfer activities conducted by the National Laboratory or single-purpose research facility;

(2) report to the Director of the National Laboratory or single-purpose research facility on the actual participation of small business concerns in procurement and collaborative research along with recommendations, if appropriate, on how to improve participation;

(3) make available to small business concerns training, mentoring, and information on how to participate in procurement and collaborative research activities;

(4) increase the awareness inside the National Laboratory or single-purpose research facility of the capabilities and opportunities presented by small business concerns; and

(5) establish guidelines for the program under subsection (b) and report on the effectiveness of the program to the Director of the National Laboratory or single-purpose research facility.

(b) Establishment of small business assistance program

The Secretary shall require the Director of each National Laboratory, and may require the Director of a single-purpose research facility, to establish a program to provide small business concerns with—

(1) assistance directed at making the small business concerns more effective and efficient subcontractors or suppliers to the National Laboratory or single-purpose research facilities; or

(2) general technical assistance, the cost of which shall not exceed $10,000 per instance of assistance, to improve the products or services of the small business concern.

(c) Use of funds

None of the funds expended under subsection (b) may be used for direct grants to small business concerns.

(d) Authorization of appropriations

There is authorized to be appropriated to the Secretary for activities under this section $5,000,000 for each of fiscal years 2006 through 2008.

(Pub. L. 109–58, title X, §1003, Aug. 8, 2005, 119 Stat. 929.)

§16394. Outreach

The Secretary shall ensure that each program authorized by this Act or an amendment made by this Act includes an outreach component to provide information, as appropriate, to manufacturers, consumers, engineers, architects, builders, energy service companies, institutions of higher education, facility planners and managers, State and local governments, and other entities.

(Pub. L. 109–58, title X, §1004, Aug. 8, 2005, 119 Stat. 930.)

This Act, referred to in text, is Pub. L. 109–58, Aug. 8, 2005, 119 Stat. 594, as amended, known as the Energy Policy Act of 2005, which enacted this chapter and enacted, amended, and repealed numerous other sections and notes in the Code. For complete classification of this Act to the Code, see Short Title note set out under section 15801 of this title and Tables.

§16395. Relationship to other laws

Except as otherwise provided in this Act or an amendment made by this Act, the Secretary shall carry out the research, development, demonstration, and commercial application programs, projects, and activities authorized by this Act or an amendment made by this Act in accordance with the applicable provisions of—

(1) the Atomic Energy Act of 1954 (42 U.S.C. 2011 et seq.);

(2) the Federal Nonnuclear Energy Research and Development Act of 1974 (42 U.S.C. 5901 et seq.);

(3) the Energy Policy Act of 1992 (42 U.S.C. 13201 et seq.);
(4) the Stevenson-Wydler Technology Innovation Act of 1980 (15 U.S.C. 3701 et seq.);
(5) chapter 18 of title 35 (commonly known as the "Bayh-Dole Act"); and
(6) any other Act under which the Secretary is authorized to carry out the programs, projects, and activities.

(Pub. L. 109–58, title X, §1005, Aug. 8, 2005, 119 Stat. 930.)

L. 96–480, Oct. 21, 1980, 94 Stat. 2311, as amended, which is classified generally to chapter 63 (§3701 et seq.) of Title 15, Commerce and Trade. For complete classification of this Act to the Code, see Short Title note set out under section 3701 of Title 15 and Tables.

§16396. Prizes for achievement in grand challenges of science and technology

(a) Authority

The Secretary may carry out a program to award cash prizes in recognition of breakthrough achievements in research, development, demonstration, and commercial application that have the potential for application to the performance of the mission of the Department.

(b) Competition requirements

The program under subsection (a) may include prizes for the achievement of goals articulated by the Secretary in a specific area through a widely advertised solicitation of submission of results for research, development, demonstration, or commercial application projects.

(c) Prizes for processes and technologies to reduce dependence on imported oil

The Secretary, in cooperation with the Freedom Prize Foundation, shall support a program of awarding prizes, to be known as Freedom Prizes, to encourage and recognize the development and deployment of processes and technologies that serve to reduce the dependence of the United States on imported oil.

(d) Relationship to other authority

The program under subsection (a) may be carried out in conjunction with or in addition to the exercise of any other authority of the Secretary to acquire, support, or stimulate research, development, demonstration, or commercial application projects.

(e) Coordination

In carrying out subsection (a), and for any prize competitions under section 105 of the America

Creating Opportunities to Meaningfully Promote Excellence in Technology, Education, and Science Reauthorization Act of 2010, the Secretary shall—

(1) issue Department-wide guidance on the design, development, and implementation of prize competitions;

(2) collect and disseminate best practices on the design and administration of prize competitions;

(3) streamline contracting mechanisms for the implementation of prize competitions; and

(4) provide training and prize competition design support, as necessary, to Department staff to develop prize competitions and challenges.

(f) Authorization of appropriations

There are authorized to be appropriated—

(1) $10,000,000 to carry out the program under subsection (a); and

(2) $5,000,000 to carry out the program under subsection (c).

(g) H-prize

(1) Prize authority

(A) In general

As part of the program under this section, the Secretary shall carry out a program to competitively award cash prizes in conformity with this subsection to advance the research, development, demonstration, and commercial application of hydrogen energy technologies.

(B) Advertising and solicitation of competitors

(i) Advertising

The Secretary shall widely advertise prize competitions under this subsection to encourage broad participation, including by individuals, universities (including historically Black colleges and universities and other minority serving institutions), and large and small businesses (including businesses owned or controlled by socially and economically disadvantaged persons).

(ii) Announcement through Federal Register notice

The Secretary shall announce each prize competition under this subsection by publishing a notice in the Federal Register. This notice shall include essential elements of the competition such as the subject of the competition, the duration of the competition, the eligibility requirements for participation in the competition, the process for participants to register for the competition, the amount of the prize, and the criteria for awarding the prize.

(C) Administering the competitions

The Secretary shall enter into an agreement with a private, nonprofit entity to administer the prize competitions under this subsection, subject to the provisions of this subsection (in this subsection referred to as the "administering entity"). The duties of the administering entity under the agreement shall include—

(i) advertising prize competitions under this subsection and their results;

(ii) raising funds from private entities and individuals to pay for administrative costs and to contribute to cash prizes, including funds provided in exchange for the right to name a prize awarded under this subsection;

(iii) developing, in consultation with and subject to the final approval of the Secretary, the criteria for selecting winners in prize competitions under this subsection, based on goals provided by the Secretary;

(iv) determining, in consultation with the Secretary, the appropriate amount and funding sources for each prize to be awarded under this subsection, subject to the final approval of the Secretary with respect to Federal funding;

(v) providing advice and consultation to the Secretary on the selection of judges in accordance with paragraph (2)(D), using criteria developed in consultation with and subject

to the final approval of the Secretary; and

(vi) protecting against the administering entity's unauthorized use or disclosure of a registered participant's trade secrets and confidential business information. Any information properly identified as trade secrets or confidential business information that is submitted by a participant as part of a competitive program under this subsection may be withheld from public disclosure.

(D) Funding sources

Prizes under this subsection shall consist of Federal appropriated funds and any funds provided by the administering entity (including funds raised pursuant to subparagraph (C)(ii)) for such cash prize programs. The Secretary may accept funds from other Federal agencies for such cash prizes and, notwithstanding section 3302(b) of title 31, may use such funds for the cash prize program under this subsection. Other than publication of the names of prize sponsors, the Secretary may not give any special consideration to any private sector entity or individual in return for a donation to the Secretary or administering entity.

(E) Announcement of prizes

The Secretary may not issue a notice required by subparagraph (B)(ii) until all the funds needed to pay out the announced amount of the prize have been appropriated or committed in writing by the administering entity. The Secretary may increase the amount of a prize after an initial announcement is made under subparagraph (B)(ii) if—

(i) notice of the increase is provided in the same manner as the initial notice of the prize; and

(ii) the funds needed to pay out the announced amount of the increase have been appropriated or committed in writing by the administering entity.

(F) Sunset

The authority to announce prize competitions under this subsection shall terminate on September 30, 2018.

(2) Prize categories

(A) Categories

The Secretary shall establish prizes under this subsection for—

(i) advancements in technologies, components, or systems related to—

(I) hydrogen production;

(II) hydrogen storage;

(III) hydrogen distribution; and

(IV) hydrogen utilization;

(ii) prototypes of hydrogen-powered vehicles or other hydrogen-based products that best meet or exceed objective performance criteria, such as completion of a race over a certain distance or terrain or generation of energy at certain levels of efficiency; and

(iii) transformational changes in technologies for the distribution or production of hydrogen that meet or exceed far-reaching objective criteria, which shall include minimal carbon emissions and which may include cost criteria designed to facilitate the eventual market success of a winning technology.

(B) Awards

(i) Advancements

To the extent permitted under paragraph (1)(E), the prizes authorized under subparagraph (A)(i) shall be awarded biennially to the most significant advance made in each of the four subcategories described in subclauses (I) through (IV) of subparagraph (A)(i) since the submission deadline of the previous prize competition in the same category under subparagraph (A)(i) or December 19, 2007, whichever is later, unless no such advance is

significant enough to merit an award. No one such prize may exceed $1,000,000. If less than $4,000,000 is available for a prize competition under subparagraph (A)(i), the Secretary may omit one or more subcategories, reduce the amount of the prizes, or not hold a prize competition.

(ii) Prototypes

To the extent permitted under paragraph (1)(E), prizes authorized under subparagraph (A)(ii) shall be awarded biennially in alternate years from the prizes authorized under subparagraph (A)(i). The Secretary is authorized to award up to one prize in this category in each 2-year period. No such prize may exceed $4,000,000. If no registered participants meet the objective performance criteria established pursuant to subparagraph (C) for a competition under this clause, the Secretary shall not award a prize.

(iii) Transformational technologies

To the extent permitted under paragraph (1)(E), the Secretary shall announce one prize competition authorized under subparagraph (A)(iii) as soon after December 19, 2007, as is practicable. A prize offered under this clause shall be not less than $10,000,000, paid to the winner in a lump sum, and an additional amount paid to the winner as a match for each dollar of private funding raised by the winner for the hydrogen technology beginning on the date the winner was named. The match shall be provided for 3 years after the date the prize winner is named or until the full amount of the prize has been paid out, whichever occurs first. A prize winner may elect to have the match amount paid to another entity that is continuing the development of the winning technology. The Secretary shall announce the rules for receiving the match in the notice required by paragraph (1)(B)(ii). The Secretary shall award a prize under this clause only when a registered participant has met the objective criteria established for the prize pursuant to subparagraph (C) and announced pursuant to paragraph (1)(B)(ii). Not more than $10,000,000 in Federal funds may be used for the prize award under this clause. The administering entity shall seek to raise $40,000,000 toward the matching award under this clause.

(C) Criteria

In establishing the criteria required by this subsection, the Secretary—

(i) shall consult with the Department's Hydrogen Technical and Fuel Cell Advisory Committee;

(ii) shall consult with other Federal agencies, including the National Science Foundation; and

(iii) may consult with other experts such as private organizations, including professional societies, industry associations, and the National Academy of Sciences and the National Academy of Engineering.

(D) Judges

For each prize competition under this subsection, the Secretary in consultation with the administering entity shall assemble a panel of qualified judges to select the winner or winners on the basis of the criteria established under subparagraph (C). Judges for each prize competition shall include individuals from outside the Department, including from the private sector. A judge, spouse, minor children, and members of the judge's household may not—

(i) have personal or financial interests in, or be an employee, officer, director, or agent of, any entity that is a registered participant in the prize competition for which he or she will serve as a judge; or

(ii) have a familial or financial relationship with an individual who is a registered participant in the prize competition for which he or she will serve as a judge.

(3) Eligibility

To be eligible to win a prize under this subsection, an individual or entity—

(A) shall have complied with all the requirements in accordance with the Federal Register

notice required under paragraph (1)(B)(ii);

(B) in the case of a private entity, shall be incorporated in and maintain a primary place of business in the United States, and in the case of an individual, whether participating singly or in a group, shall be a citizen of, or an alien lawfully admitted for permanent residence in, the United States; and

(C) shall not be a Federal entity, a Federal employee acting within the scope of his employment, or an employee of a national laboratory acting within the scope of his employment.

(4) Intellectual property

The Federal Government shall not, by virtue of offering or awarding a prize under this subsection, be entitled to any intellectual property rights derived as a consequence of, or direct relation to, the participation by a registered participant in a competition authorized by this subsection. This paragraph shall not be construed to prevent the Federal Government from negotiating a license for the use of intellectual property developed for a prize competition under this subsection.

(5) Liability

(A) Waiver of liability

The Secretary may require registered participants to waive claims against the Federal Government and the administering entity (except claims for willful misconduct) for any injury, death, damage, or loss of property, revenue, or profits arising from the registered participants' participation in a competition under this subsection. The Secretary shall give notice of any waiver required under this subparagraph in the notice required by paragraph (1)(B)(ii). The Secretary may not require a registered participant to waive claims against the administering entity arising out of the unauthorized use or disclosure by the administering entity of the registered participant's trade secrets or confidential business information.

(B) Liability insurance

(i) Requirements

Registered participants in a prize competition under this subsection shall be required to obtain liability insurance or demonstrate financial responsibility, in amounts determined by the Secretary, for claims by—

(I) a third party for death, bodily injury, or property damage or loss resulting from an activity carried out in connection with participation in a competition under this subsection; and

(II) the Federal Government for damage or loss to Government property resulting from such an activity.

(ii) Federal Government insured

The Federal Government shall be named as an additional insured under a registered participant's insurance policy required under clause (i)(I), and registered participants shall be required to agree to indemnify the Federal Government against third party claims for damages arising from or related to competition activities under this subsection.

(6) Report to Congress

Not later than 60 days after the awarding of the first prize under this subsection, and annually thereafter, the Secretary shall transmit to the Congress a report that—

(A) identifies each award recipient;

(B) describes the technologies developed by each award recipient; and

(C) specifies actions being taken toward commercial application of all technologies with respect to which a prize has been awarded under this subsection.

(7) Authorization of appropriations

(A) In general

(i) Awards

There are authorized to be appropriated to the Secretary for the period encompassing fiscal years 2008 through 2017 for carrying out this subsection—

(I) $20,000,000 for awards described in paragraph (2)(A)(i);

(II) $20,000,000 for awards described in paragraph (2)(A)(ii); and

(III) $10,000,000 for the award described in paragraph (2)(A)(iii).

(ii) Administration

In addition to the amounts authorized in clause (i), there are authorized to be appropriated to the Secretary for each of fiscal years 2008 and 2009 $2,000,000 for the administrative costs of carrying out this subsection.

(B) Carryover of funds

Funds appropriated for prize awards under this subsection shall remain available until expended, and may be transferred, reprogrammed, or expended for other purposes only after the expiration of 10 fiscal years after the fiscal year for which the funds were originally appropriated. No provision in this subsection permits obligation or payment of funds in violation of section 1341 of title 31 (commonly referred to as the Anti-Deficiency Act).

(8) Nonsubstitution

The programs created under this subsection shall not be considered a substitute for Federal research and development programs.

(Pub. L. 109–58, title X, §1008, Aug. 8, 2005, 119 Stat. 933; Pub. L. 110–140, title VI, §654, Dec. 19, 2007, 121 Stat. 1695; Pub. L. 116–260, div. Z, title IX, §9004, Dec. 27, 2020, 134 Stat. 2598.)

EDITORIAL NOTES

REFERENCES IN TEXT

Section 105 of the America Creating Opportunities to Meaningfully Promote Excellence in Technology, Education, and Science Reauthorization Act of 2010, referred to in subsec. (e), is section 105 of Pub. L. 111–358, title I, Jan. 4, 2011, 124 Stat. 3989, which enacted section 3719 of Title 15, Commerce and Trade, and amended section 20144 of Title 51, National and Commercial Space Programs.

AMENDMENTS

2020—Subsec. (e). Pub. L. 116–260 added subsec. (e). Former subsec. (e) redesignated (f) as the probable intent of Congress.

Subsecs. (f) to (h). Pub. L. 116–260, which directed redesignation of subsecs. (f) and (g) as (g) and (h), respectively, was executed by redesignating subsecs. (e) and (f) as (f) and (g), respectively, to reflect the probable intent of Congress.

2007—Subsec. (f). Pub. L. 110–140 added subsec. (f).

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE OF 2007 AMENDMENT

Amendment by Pub. L. 110–140 effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as an Effective Date note under section 1824 of Title 2, The Congress.

SUBCHAPTER XI—PERSONNEL AND TRAINING

§16411. Workforce trends and traineeship grants

(a) Definitions

In this section:

(1) Energy technology industry

The term "energy technology industry" includes—

(A) a renewable energy industry;
(B) a company that develops or commercializes a device to increase energy efficiency;
(C) the oil and gas industry;
(D) the nuclear power industry;
(E) the coal industry;
(F) the electric utility industry; and
(G) any other industrial sector, as the Secretary determines to be appropriate.

(2) Skilled technical personnel

The term "skilled technical personnel" means—

(A) journey- and apprentice-level workers who are enrolled in, or have completed, a federally-recognized or State-recognized apprenticeship program; and
(B) other skilled workers in energy technology industries, as determined by the Secretary.

(b) Workforce trends

(1) Monitoring

The Secretary, in consultation with, and using data collected by, the Secretary of Labor, shall monitor trends in the workforce of—

(A) skilled technical personnel that support energy technology industries; and
(B) electric power and transmission engineers.

(2) Report on trends

Not later than 1 year after August 8, 2005, the Secretary shall submit to Congress a report on current trends under paragraph (1), with recommendations (as appropriate) to meet the future labor requirements for the energy technology industries.

(3) Report on shortage

As soon as practicable after the date on which the Secretary identifies or predicts a significant national shortage of skilled technical personnel in one or more energy technology industries, the Secretary shall submit to Congress a report describing the shortage.

(c) Traineeship grants for skilled technical personnel

The Secretary, in consultation with the Secretary of Labor, may establish programs in the appropriate offices of the Department under which the Secretary provides grants to enhance training (including distance learning) for any workforce category for which a shortage is identified or predicted under subsection (b)(2).

(d) Authorization of appropriations

There is authorized to be appropriated to carry out this section $20,000,000 for each of fiscal years 2006 through 2008.

(Pub. L. 109–58, title XI, §1101, Aug. 8, 2005, 119 Stat. 937.)

§16412. Training guidelines for nonnuclear electric energy industry personnel

(a) In general

The Secretary of Labor, in consultation with the Secretary and in conjunction with the electric industry and recognized employee representatives, shall develop model personnel training guidelines to support the reliability and safety of the nonnuclear electric system.

(b) Requirements

The training guidelines under subsection (a) shall, at a minimum—

(1) include training requirements for workers engaged in the construction, operation, inspection, or maintenance of nonnuclear electric generation, transmission, or distribution systems, including requirements relating to—

(A) competency;

(B) certification; and

(C) assessment, including—

(i) initial and continuous evaluation of workers;

(ii) recertification procedures; and

(iii) methods for examining or testing the qualification of an individual who performs a covered task; and

(2) consolidate training guidelines in existence on the date on which the guidelines under subsection (a) are developed relating to the construction, operation, maintenance, and inspection of nonnuclear electric generation, transmission, and distribution facilities, such as guidelines established by the National Electric Safety Code and other industry consensus standards.

(Pub. L. 109–58, title XI, §1103, Aug. 8, 2005, 119 Stat. 939.)

§16413. National Center for Energy Management and Building Technologies

The Secretary shall support the ongoing activities of and explore opportunities for expansion of the National Center for Energy Management and Building Technologies to carry out research, education, and training activities to facilitate the improvement of energy efficiency, indoor environmental quality, and security of industrial, commercial, residential, and public buildings.

(Pub. L. 109–58, title XI, §1104, Aug. 8, 2005, 119 Stat. 939.)

§16414. National Power Plant Operations Technology and Educational Center

(a) Establishment

The Secretary shall support the establishment of a National Power Plant Operations Technology and Education Center (referred to in this section as the "Center"), to address the need for training and educating certified operators and technicians for the electric power industry.

(b) Location of Center

The Secretary shall support the establishment of the Center at an institution of higher education that has—

(1) expertise in providing degree programs in electric power generation, transmission, and distribution technologies;

(2) expertise in providing onsite and Internet-based training; and

(3) demonstrated responsiveness to workforce and training requirements in the electric power industry.

(c) Training and continuing education

(1) In general

The Center shall provide training and continuing education in electric power generation, transmission, and distribution technologies and operations.

(2) Location

The Center shall carry out training and education activities under paragraph (1)—

(A) at the Center; and

(B) through Internet-based information technologies that allow for learning at remote sites.

(Pub. L. 109–58, title XI, §1106, Aug. 8, 2005, 119 Stat. 940.)

SUBCHAPTER XII—ELECTRICITY

PART A—TRANSMISSION INFRASTRUCTURE MODERNIZATION

§16421. Third-party finance

(a) Existing facilities

The Secretary, acting through the Administrator of the Western Area Power Administration (hereinafter in this section referred to as "WAPA"), or through the Administrator of the Southwestern Power Administration (hereinafter in this section referred to as "SWPA"), or both, may design, develop, construct, operate, maintain, or own, or participate with other entities in designing, developing, constructing, operating, maintaining, or owning, an electric power transmission facility and related facilities ("Project") needed to upgrade existing transmission facilities owned by SWPA or WAPA if the Secretary, in consultation with the applicable Administrator, determines that the proposed Project—

(1)(A) is located in a national interest electric transmission corridor designated under section 216(a) of the Federal Power Act [16 U.S.C. 824p(a)] and will reduce congestion of electric transmission in interstate commerce; or

(B) is necessary to accommodate an actual or projected increase in demand for electric transmission capacity;

(2) is consistent with—

(A) transmission needs identified, in a transmission expansion plan or otherwise, by the appropriate Transmission Organization (as defined in the Federal Power Act [16 U.S.C. 791a et seq.]), if any, or approved regional reliability organization; and

(B) efficient and reliable operation of the transmission grid; and

(3) would be operated in conformance with prudent utility practice.

(b) New facilities

The Secretary, acting through WAPA or SWPA, or both, may design, develop, construct, operate, maintain, or own, or participate with other entities in designing, developing, constructing, operating, maintaining, or owning, a new electric power transmission facility and related facilities ("Project") located within any State in which WAPA or SWPA operates if the Secretary, in consultation with the applicable Administrator, determines that the proposed Project—

(1)(A) is located in an area designated under section 216(a) of the Federal Power Act [16 U.S.C. 824p(a)] and will reduce congestion of electric transmission in interstate commerce; or

(B) is necessary to accommodate an actual or projected increase in demand for electric transmission capacity;

(2) is consistent with—

(A) transmission needs identified, in a transmission expansion plan or otherwise, by the appropriate Transmission Organization (as defined in the Federal Power Act [16 U.S.C. 791a et seq.]) if any, or approved regional reliability organization; and

(B) efficient and reliable operation of the transmission grid;

(3) will be operated in conformance with prudent utility practice;

(4) will be operated by, or in conformance with the rules of, the appropriate (A) Transmission Organization, if any, or (B) if such an organization does not exist, regional reliability organization; and

(5) will not duplicate the functions of existing transmission facilities or proposed facilities

which are the subject of ongoing or approved siting and related permitting proceedings.

(c) Other funds

(1) In general

In carrying out a Project under subsection (a) or (b), the Secretary may accept and use funds contributed by another entity for the purpose of carrying out the Project.

(2) Availability

The contributed funds shall be available for expenditure for the purpose of carrying out the Project—

(A) without fiscal year limitation; and

(B) as if the funds had been appropriated specifically for that Project.

(3) Allocation of costs

In carrying out a Project under subsection (a) or (b), any costs of the Project not paid for by contributions from another entity shall be collected through rates charged to customers using the new transmission capability provided by the Project and allocated equitably among these project beneficiaries using the new transmission capability.

(d) Relationship to other laws

Nothing in this section affects any requirement of—

(1) any Federal environmental law, including the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.);

(2) any Federal or State law relating to the siting of energy facilities; or

(3) any existing authorizing statutes.

(e) Savings clause

Nothing in this section shall constrain or restrict an Administrator in the utilization of other authority delegated to the Administrator of WAPA or SWPA.

(f) Secretarial determinations

Any determination made pursuant to subsections [1] (a) or (b) shall be based on findings by the Secretary using the best available data.

(g) Maximum funding amount

The Secretary shall not accept and use more than $100,000,000 under subsection (c)(1) for the period encompassing fiscal years 2006 through 2015.

(Pub. L. 109–58, title XII, §1222, Aug. 8, 2005, 119 Stat. 952.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

SHORT TITLE

For short title of title XII of Pub. L. 109–58, which enacted this subchapter, as the "Electricity Modernization Act of 2005", see section 1201 of Pub. L. 109–58, set out as a note under section 15801 of this title.

[1] *So in original. Probably should be "subsection".*

§16421a. Western Area Power Administration borrowing authority

(a) Definitions

In this section:

(1) Administrator

The term "Administrator" means the Administrator of the Western Area Power Administration.

(2) Secretary

The term "Secretary" means the Secretary of the Treasury.

(b) Authority

(1) In general

Notwithstanding any other provision of law, subject to paragraphs (2) through (5)—

(A) the Western Area Power Administration may borrow funds from the Treasury; and

(B) the Secretary shall, without further appropriation and without fiscal year limitation, loan to the Western Area Power Administration, on such terms as may be fixed by the Administrator and the Secretary, such sums (not to exceed, in the aggregate (including deferred interest), $3,250,000,000 in outstanding repayable balances at any one time) as, in the judgment of the Administrator, are from time to time required for the purpose of—

(i) constructing, financing, facilitating, planning, operating, maintaining, or studying construction of new or upgraded electric power transmission lines and related facilities with at least one terminus within the area served by the Western Area Power Administration; and

(ii) delivering or facilitating the delivery of power generated by renewable energy resources constructed or reasonably expected to be constructed after February 17, 2009.

(2) Interest

The rate of interest to be charged in connection with any loan made pursuant to this subsection shall be fixed by the Secretary, taking into consideration market yields on outstanding marketable obligations of the United States of comparable maturities as of the date of the loan.

(3) Refinancing

The Western Area Power Administration may refinance loans taken pursuant to this section within the Treasury.

(4) Participation

The Administrator may permit other entities to participate in the financing, construction and ownership projects financed under this section.

(5) Congressional review of disbursement

Effective upon February 17, 2009, the Administrator shall have the authority to have utilized $1,750,000,000 at any one time. If the Administrator seeks to borrow funds above $1,750,000,000, the funds will be disbursed unless there is enacted, within 90 calendar days of the first such request, a joint resolution that rescinds the remainder of the balance of the borrowing authority provided in this section.

(c) Transmission line and related facility projects

(1) In general

For repayment purposes, each transmission line and related facility project in which the Western Area Power Administration participates pursuant to this section shall be treated as separate and distinct from—

(A) each other such project; and

(B) all other Western Area Power Administration power and transmission facilities.

(2) Proceeds

The Western Area Power Administration shall apply the proceeds from the use of the transmission capacity from an individual project under this section to the repayment of the principal and interest of the loan from the Treasury attributable to that project, after reserving such funds as the Western Area Power Administration determines are necessary—

(A) to pay for any ancillary services that are provided; and

(B) to meet the costs of operating and maintaining the new project from which the revenues are derived.

(3) Source of revenue

Revenue from the use of projects under this section shall be the only source of revenue for—

(A) repayment of the associated loan for the project; and

(B) payment of expenses for ancillary services and operation and maintenance.

(4) Limitation on authority

Nothing in this section confers on the Administrator any additional authority or obligation to provide ancillary services to users of transmission facilities developed under this section.

(5) Treatment of certain revenues

Revenue from ancillary services provided by existing Federal power systems to users of transmission projects funded pursuant to this section shall be treated as revenue to the existing power system that provided the ancillary services.

(d) Certification

(1) In general

For each project in which the Western Area Power Administration participates pursuant to this section, the Administrator shall certify, prior to committing funds for any such project, that—

(A) the project is in the public interest;

(B) the project will not adversely impact system reliability or operations, or other statutory obligations; and

(C) it is reasonable to expect that the proceeds from the project shall be adequate to make repayment of the loan.

(2) Forgiveness of balances

(A) In general

If, at the end of the useful life of a project, there is a remaining balance owed to the Treasury under this section, the balance shall be forgiven.

(B) Unconstructed projects

Funds expended to study projects that are considered pursuant to this section but that are not constructed shall be forgiven.

(C) Notification

The Administrator shall notify the Secretary of such amounts as are to be forgiven under this paragraph.

(e) Public processes

(1) Policies and practices

Prior to requesting any loans under this section, the Administrator shall use a public process to develop practices and policies that implement the authority granted by this section.

(2) Requests for interest

In the course of selecting potential projects to be funded under this section, the Administrator shall seek Requests For Interest from entities interested in identifying potential projects through

one or more notices published in the Federal Register.

(Pub. L. 98–381, title III, §301, as added Pub. L. 111–5, div. A, title IV, §402, Feb. 17, 2009, 123 Stat. 141.)

EDITORIAL NOTES

CODIFICATION

Section was enacted as part of the Hoover Power Plant Act of 1984, and not as part of the Electricity Modernization Act of 2005, which comprises this subchapter, or the Energy Policy Act of 2005, which comprises this chapter.

§16422. Advanced transmission technologies

(a) Definition of advanced transmission technology

In this section, the term "advanced transmission technology" means a technology that increases the capacity, efficiency, or reliability of an existing or new transmission facility, including—

(1) high-temperature lines (including superconducting cables);

(2) underground cables;

(3) advanced conductor technology (including advanced composite conductors, high-temperature low-sag conductors, and fiber optic temperature sensing conductors);

(4) high-capacity ceramic electric wire, connectors, and insulators;

(5) optimized transmission line configurations (including multiple phased transmission lines);

(6) modular equipment;

(7) wireless power transmission;

(8) ultra-high voltage lines;

(9) high-voltage DC technology;

(10) flexible AC transmission systems;

(11) energy storage devices (including pumped hydro, compressed air, superconducting magnetic energy storage, flywheels, and batteries);

(12) controllable load;

(13) distributed generation (including PV, fuel cells, and microturbines);

(14) enhanced power device monitoring;

(15) direct system state sensors;

(16) fiber optic technologies;

(17) power electronics and related software (including real time monitoring and analytical software);

(18) mobile transformers and mobile substations; and

(19) any other technologies the Commission considers appropriate.

(b) Authority

In carrying out the Federal Power Act (16 U.S.C. 791a et seq.) and the Public Utility Regulatory Policies Act of 1978 (16 U.S.C. 2601 et seq.), the Commission shall encourage, as appropriate, the deployment of advanced transmission technologies.

(Pub. L. 109–58, title XII, §1223, Aug. 8, 2005, 119 Stat. 953.)

EDITORIAL NOTES

REFERENCES IN TEXT

The Federal Power Act, referred to in subsec. (b), is act June 10, 1920, ch. 285, 41 Stat. 1063, as amended, which is classified generally to chapter 12 (§791a et seq.) of Title 16, Conservation. For complete classification of this Act to the Code, see section 791a of Title 16 and Tables.

The Public Utility Regulatory Policies Act of 1978, referred to in subsec. (b), is Pub. L. 95–617, Nov. 9,

1978, 92 Stat. 3117, as amended. For complete classification of this Act to the Code, see Short Title note set out under section 2601 of Title 16, Conservation, and Tables.

§16423. Advanced Power System Technology Incentive Program

(a) Program

The Secretary is authorized to establish an Advanced Power System Technology Incentive Program to support the deployment of certain advanced power system technologies and to improve and protect certain critical governmental, industrial, and commercial processes. Funds provided under this section shall be used by the Secretary to make incentive payments to eligible owners or operators of advanced power system technologies to increase power generation through enhanced operational, economic, and environmental performance. Payments under this section may only be made upon receipt by the Secretary of an incentive payment application establishing an applicant as either—

(1) a qualifying advanced power system technology facility; or

(2) a qualifying security and assured power facility.

(b) Incentives

Subject to availability of funds, a payment of 1.8 cents per kilowatt-hour shall be paid to the owner or operator of a qualifying advanced power system technology facility under this section for electricity generated at such facility. An additional 0.7 cents per kilowatt-hour shall be paid to the owner or operator of a qualifying security and assured power facility for electricity generated at such facility. Any facility qualifying under this section shall be eligible for an incentive payment for up to, but not more than, the first 10,000,000 kilowatt-hours produced in any fiscal year.

(c) Eligibility

For purposes of this section:

(1) Qualifying advanced power system technology facility

The term "qualifying advanced power system technology facility" means a facility using an advanced fuel cell, turbine, or hybrid power system or power storage system to generate or store electric energy.

(2) Qualifying security and assured power facility

The term "qualifying security and assured power facility" means a qualifying advanced power system technology facility determined by the Secretary, in consultation with the Secretary of Homeland Security, to be in critical need of secure, reliable, rapidly available, high-quality power for critical governmental, industrial, or commercial applications.

(d) Authorization

There are authorized to be appropriated to the Secretary for the purposes of this section, $10,000,000 for each of the fiscal years 2006 through 2012.

(Pub. L. 109–58, title XII, §1224, Aug. 8, 2005, 119 Stat. 954.)

PART B—TRANSMISSION OPERATION IMPROVEMENTS

§16431. Federal utility participation in transmission organizations

(a) Definitions

In this section:

(1) Appropriate Federal regulatory authority

The term "appropriate Federal regulatory authority" means—

(A) in the case of a Federal power marketing agency, the Secretary, except that the Secretary may designate the Administrator of a Federal power marketing agency to act as the appropriate Federal regulatory authority with respect to the transmission system of the Federal power marketing agency; and

(B) in the case of the Tennessee Valley Authority, the Board of Directors of the Tennessee Valley Authority.

(2) Federal power marketing agency

The term "Federal power marketing agency" has the meaning given the term in section 796 of title 16.

(3) Federal utility

The term "Federal utility" means—

(A) a Federal power marketing agency; or

(B) the Tennessee Valley Authority.

(4) Transmission Organization

The term "Transmission Organization" has the meaning given the term in section 796 of title 16.

(5) Transmission system

The term "transmission system" means an electric transmission facility owned, leased, or contracted for by the United States and operated by a Federal utility.

(b) Transfer

The appropriate Federal regulatory authority may enter into a contract, agreement, or other arrangement transferring control and use of all or part of the transmission system of a Federal utility to a Transmission Organization.

(c) Contents

The contract, agreement, or arrangement shall include—

(1) performance standards for operation and use of the transmission system that the head of the Federal utility determines are necessary or appropriate, including standards that ensure—

(A) recovery of all of the costs and expenses of the Federal utility related to the transmission facilities that are the subject of the contract, agreement, or other arrangement;

(B) consistency with existing contracts and third-party financing arrangements; and

(C) consistency with the statutory authorities, obligations, and limitations of the Federal utility;

(2) provisions for monitoring and oversight by the Federal utility of the Transmission Organization's terms and conditions of the contract, agreement, or other arrangement, including a provision for the resolution of disputes through arbitration or other means with the Transmission Organization or with other participants, notwithstanding the obligations and limitations of any other law regarding arbitration; and

(3) a provision that allows the Federal utility to withdraw from the Transmission Organization and terminate the contract, agreement, or other arrangement in accordance with its terms.

(d) Commission

Neither this section, actions taken pursuant to this section, nor any other transaction of a Federal utility participating in a Transmission Organization shall confer on the Commission jurisdiction or authority over—

(1) the electric generation assets, electric capacity, or energy of the Federal utility that the Federal utility is authorized by law to market; or

(2) the power sales activities of the Federal utility.

(e) Existing statutory and other obligations

(1) System operation requirements

No statutory provision requiring or authorizing a Federal utility to transmit electric power or to construct, operate, or maintain the transmission system of the Federal utility prohibits a transfer of control and use of the transmission system pursuant to, and subject to, the requirements of this section.

(2) Other obligations

This subsection does not—

(A) suspend, or exempt any Federal utility from, any provision of Federal law in effect on August 8, 2005, including any requirement or direction relating to the use of the transmission system of the Federal utility, environmental protection, fish and wildlife protection, flood control, navigation, water delivery, or recreation; or

(B) authorize abrogation of any contract or treaty obligation.

(Pub. L. 109–58, title XII, §1232, Aug. 8, 2005, 119 Stat. 956.)

EDITORIAL NOTES

CODIFICATION

Section is comprised of section 1232 of Pub. L. 109–58. Subsec. (e)(3) of section 1232 of Pub. L. 109–58 repealed section 824n of Title 16, Conservation.

§16432. Study on the benefits of economic dispatch

(a) Study

The Secretary, in coordination and consultation with the States, shall conduct a study on—

(1) the procedures currently used by electric utilities to perform economic dispatch;

(2) identifying possible revisions to those procedures to improve the ability of nonutility generation resources to offer their output for sale for the purpose of inclusion in economic dispatch; and

(3) the potential benefits to residential, commercial, and industrial electricity consumers nationally and in each State if economic dispatch procedures were revised to improve the ability of nonutility generation resources to offer their output for inclusion in economic dispatch.

(b) Definition

The term "economic dispatch" when used in this section means the operation of generation facilities to produce energy at the lowest cost to reliably serve consumers, recognizing any operational limits of generation and transmission facilities.

(c) Report to Congress and the States

Not later than 90 days after August 8, 2005, and on a yearly basis following, the Secretary shall submit a report to Congress and the States on the results of the study conducted under subsection (a), including recommendations to Congress and the States for any suggested legislative or regulatory changes.

(Pub. L. 109–58, title XII, §1234, Aug. 8, 2005, 119 Stat. 960.)

PART C—TRANSMISSION RATE REFORM

§16441. Funding new interconnection and transmission upgrades

The Commission may approve a participant funding plan that allocates costs related to

transmission upgrades or new generator interconnection, without regard to whether an applicant is a member of a Commission-approved Transmission Organization, if the plan results in rates that—

(1) are just and reasonable;

(2) are not unduly discriminatory or preferential; and

(3) are otherwise consistent with sections 824d and 824e of title 16.

(Pub. L. 109–58, title XII, §1242, Aug. 8, 2005, 119 Stat. 962.)

PART D—REPEAL OF PUBLIC UTILITY HOLDING COMPANY ACT OF 1935

§16451. Definitions

For purposes of this part:

(1) Affiliate

The term "affiliate" of a company means any company, 5 percent or more of the outstanding voting securities of which are owned, controlled, or held with power to vote, directly or indirectly, by such company.

(2) Associate company

The term "associate company" of a company means any company in the same holding company system with such company.

(3) Commission

The term "Commission" means the Federal Energy Regulatory Commission.

(4) Company

The term "company" means a corporation, partnership, association, joint stock company, business trust, or any organized group of persons, whether incorporated or not, or a receiver, trustee, or other liquidating agent of any of the foregoing.

(5) Electric utility company

The term "electric utility company" means any company that owns or operates facilities used for the generation, transmission, or distribution of electric energy for sale.

(6) Exempt wholesale generator and foreign utility company

The terms "exempt wholesale generator" and "foreign utility company" have the same meanings as in sections 79z–5a and 79z–5b of title 15, as those sections existed on the day before the effective date of this part.

(7) Gas utility company

The term "gas utility company" means any company that owns or operates facilities used for distribution at retail (other than the distribution only in enclosed portable containers or distribution to tenants or employees of the company operating such facilities for their own use and not for resale) of natural or manufactured gas for heat, light, or power.

(8) Holding company

(A) In general

The term "holding company" means—

(i) any company that directly or indirectly owns, controls, or holds, with power to vote, 10 percent or more of the outstanding voting securities of a public-utility company or of a holding company of any public-utility company; and

(ii) any person, determined by the Commission, after notice and opportunity for hearing, to

exercise directly or indirectly (either alone or pursuant to an arrangement or understanding with one or more persons) such a controlling influence over the management or policies of any public-utility company or holding company as to make it necessary or appropriate for the rate protection of utility customers with respect to rates that such person be subject to the obligations, duties, and liabilities imposed by this part upon holding companies.

(B) Exclusions

The term "holding company" shall not include—

(i) a bank, savings association, or trust company, or their operating subsidiaries that own, control, or hold, with the power to vote, public utility or public utility holding company securities so long as the securities are—

(I) held as collateral for a loan;

(II) held in the ordinary course of business as a fiduciary; or

(III) acquired solely for purposes of liquidation and in connection with a loan previously contracted for and owned beneficially for a period of not more than two years; or

(ii) a broker or dealer that owns, controls, or holds with the power to vote public utility or public utility holding company securities so long as the securities are—

(I) not beneficially owned by the broker or dealer and are subject to any voting instructions which may be given by customers or their assigns; or

(II) acquired within 12 months in the ordinary course of business as a broker, dealer, or underwriter with the bona fide intention of effecting distribution of the specific securities so acquired.

(9) Holding company system

The term "holding company system" means a holding company, together with its subsidiary companies.

(10) Jurisdictional rates

The term "jurisdictional rates" means rates accepted or established by the Commission for the transmission of electric energy in interstate commerce, the sale of electric energy at wholesale in interstate commerce, the transportation of natural gas in interstate commerce, and the sale in interstate commerce of natural gas for resale for ultimate public consumption for domestic, commercial, industrial, or any other use.

(11) Natural gas company

The term "natural gas company" means a person engaged in the transportation of natural gas in interstate commerce or the sale of such gas in interstate commerce for resale.

(12) Person

The term "person" means an individual or company.

(13) Public utility

The term "public utility" means any person who owns or operates facilities used for transmission of electric energy in interstate commerce or sales of electric energy at wholesale in interstate commerce.

(14) Public-utility company

The term "public-utility company" means an electric utility company or a gas utility company.

(15) State commission

The term "State commission" means any commission, board, agency, or officer, by whatever name designated, of a State, municipality, or other political subdivision of a State that, under the laws of such State, has jurisdiction to regulate public utility companies.

(16) Subsidiary company

The term "subsidiary company" of a holding company means—

(A) any company, 10 percent or more of the outstanding voting securities of which are directly or indirectly owned, controlled, or held with power to vote, by such holding company; and

(B) any person, the management or policies of which the Commission, after notice and opportunity for hearing, determines to be subject to a controlling influence, directly or indirectly, by such holding company (either alone or pursuant to an arrangement or understanding with one or more other persons) so as to make it necessary for the rate protection of utility customers with respect to rates that such person be subject to the obligations, duties, and liabilities imposed by this part upon subsidiary companies of holding companies.

(17) Voting security

The term "voting security" means any security presently entitling the owner or holder thereof to vote in the direction or management of the affairs of a company.

(Pub. L. 109–58, title XII, §1262, Aug. 8, 2005, 119 Stat. 972.)

EDITORIAL NOTES

REFERENCES IN TEXT

This part, referred to in text, was in the original "this subtitle", meaning subtitle F (§§1261–1277) of title XII of Pub. L. 109–58, Aug. 8, 2005, 119 Stat. 972, which enacted this part, amended sections 824 and 824m of Title 16, Conservation, repealed chapter 2C (§79 et seq.) of Title 15, Commerce and Trade, and section 825q of Title 16, and enacted provisions set out as notes under this section and section 15801 of this title. For complete classification of subtitle F to the Code, see Short Title note set out under section 15801 of this title and Tables.

For the effective date of this part, referred to in par. (6), see Effective Date note set out below.

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Pub. L. 109–58, title XII, §1274, Aug. 8, 2005, 119 Stat. 977, provided that:

"(a) IN GENERAL.—Except for section 1272 [42 U.S.C. 16460] (relating to implementation), this subtitle [subtitle F (§§1261 to 1277) of title XII of Pub. L. 109–58, enacting this part, amending sections 824 and 824m of Title 16, Conservation, repealing chapter 2C (§79 et seq.) of Title 15, Commerce and Trade, and section 825q of Title 16, and enacting provisions set out as a note under section 15801 of this title] shall take effect 6 months after the date of enactment of this subtitle [Aug. 8, 2005].

"(b) COMPLIANCE WITH CERTAIN RULES.—If the [Federal Energy Regulatory] Commission approves and makes effective any final rulemaking modifying the standards of conduct governing entities that own, operate, or control facilities for transmission of electricity in interstate commerce or transportation of natural gas in interstate commerce prior to the effective date of this subtitle, any action taken by a public-utility company or utility holding company to comply with the requirements of such rulemaking shall not subject such public-utility company or utility holding company to any regulatory requirement applicable to a holding company under the Public Utility Holding Company Act of 1935 (15 U.S.C. 79 et seq.)."

SHORT TITLE

For short title of subtitle F of title XII of Pub. L. 109–58, which enacted this part, as the "Public Utility Holding Company Act of 2005", see section 1261 of Pub. L. 109–58, set out as a note under section 15801 of this title.

§16452. Federal access to books and records

(a) In general

Each holding company and each associate company thereof shall maintain, and shall make available to the Commission, such books, accounts, memoranda, and other records as the Commission determines are relevant to costs incurred by a public utility or natural gas company that

is an associate company of such holding company and necessary or appropriate for the protection of utility customers with respect to jurisdictional rates.

(b) Affiliate companies

Each affiliate of a holding company or of any subsidiary company of a holding company shall maintain, and shall make available to the Commission, such books, accounts, memoranda, and other records with respect to any transaction with another affiliate, as the Commission determines are relevant to costs incurred by a public utility or natural gas company that is an associate company of such holding company and necessary or appropriate for the protection of utility customers with respect to jurisdictional rates.

(c) Holding company systems

The Commission may examine the books, accounts, memoranda, and other records of any company in a holding company system, or any affiliate thereof, as the Commission determines are relevant to costs incurred by a public utility or natural gas company within such holding company system and necessary or appropriate for the protection of utility customers with respect to jurisdictional rates.

(d) Confidentiality

No member, officer, or employee of the Commission shall divulge any fact or information that may come to his or her knowledge during the course of examination of books, accounts, memoranda, or other records as provided in this section, except as may be directed by the Commission or by a court of competent jurisdiction.

(Pub. L. 109–58, title XII, §1264, Aug. 8, 2005, 119 Stat. 974.)

§16453. State access to books and records

(a) In general

Upon the written request of a State commission having jurisdiction to regulate a public-utility company in a holding company system, the holding company or any associate company or affiliate thereof, other than such public-utility company, wherever located, shall produce for inspection books, accounts, memoranda, and other records that—

(1) have been identified in reasonable detail in a proceeding before the State commission;

(2) the State commission determines are relevant to costs incurred by such public-utility company; and

(3) are necessary for the effective discharge of the responsibilities of the State commission with respect to such proceeding.

(b) Limitation

Subsection (a) does not apply to any person that is a holding company solely by reason of ownership of one or more qualifying facilities under the Public Utility Regulatory Policies Act of 1978 (16 U.S.C. 2601 et seq.).

(c) Confidentiality of information

The production of books, accounts, memoranda, and other records under subsection (a) shall be subject to such terms and conditions as may be necessary and appropriate to safeguard against unwarranted disclosure to the public of any trade secrets or sensitive commercial information.

(d) Effect on State law

Nothing in this section shall preempt applicable State law concerning the provision of books, accounts, memoranda, and other records, or in any way limit the rights of any State to obtain books, accounts, memoranda, and other records under any other Federal law, contract, or otherwise.

(e) Court jurisdiction

Any United States district court located in the State in which the State commission referred to in

subsection (a) is located shall have jurisdiction to enforce compliance with this section.

(Pub. L. 109–58, title XII, §1265, Aug. 8, 2005, 119 Stat. 975.)

EDITORIAL NOTES

REFERENCES IN TEXT

The Public Utility Regulatory Policies Act of 1978, referred to in subsec. (b), is Pub. L. 95–617, Nov. 9, 1978, 92 Stat. 3117, as amended. For complete classification of this Act to the Code, see Short Title note set out under section 2601 of Title 16, Conservation, and Tables.

§16454. Exemption authority

(a) Rulemaking

Not later than 90 days after the effective date of this part, the Commission shall issue a final rule to exempt from the requirements of section 16452 of this title (relating to Federal access to books and records) any person that is a holding company, solely with respect to one or more—

(1) qualifying facilities under the Public Utility Regulatory Policies Act of 1978 (16 U.S.C. 2601 et seq.);

(2) exempt wholesale generators; or

(3) foreign utility companies.

(b) Other authority

The Commission shall exempt a person or transaction from the requirements of section 16452 of this title (relating to Federal access to books and records) if, upon application or upon the motion of the Commission—

(1) the Commission finds that the books, accounts, memoranda, and other records of any person are not relevant to the jurisdictional rates of a public utility or natural gas company; or

(2) the Commission finds that any class of transactions is not relevant to the jurisdictional rates of a public utility or natural gas company.

(Pub. L. 109–58, title XII, §1266, Aug. 8, 2005, 119 Stat. 975.)

For the effective date of this part, referred to in subsec. (a), see Effective Date note set out under section 16451 of this title.

The Public Utility Regulatory Policies Act of 1978, referred to in subsec. (a)(1), is Pub. L. 95–617, Nov. 9, 1978, 92 Stat. 3117, as amended. For complete classification of this Act to the Code, see Short Title note set out under section 2601 of Title 16, Conservation, and Tables.

§16455. Affiliate transactions

(a) Commission authority unaffected

Nothing in this part shall limit the authority of the Commission under the Federal Power Act (16 U.S.C. 791a et seq.) to require that jurisdictional rates are just and reasonable, including the ability to deny or approve the pass through of costs, the prevention of cross-subsidization, and the issuance of such rules and regulations as are necessary or appropriate for the protection of utility consumers.

(b) Recovery of costs

Nothing in this part shall preclude the Commission or a State commission from exercising its jurisdiction under otherwise applicable law to determine whether a public-utility company, public utility, or natural gas company may recover in rates any costs of an activity performed by an

associate company, or any costs of goods or services acquired by such public-utility company from an associate company.

(Pub. L. 109–58, title XII, §1267, Aug. 8, 2005, 119 Stat. 976.)

REFERENCES IN TEXT

This part, referred to in text, was in the original "this subtitle", meaning subtitle F (§§1261–1277) of title XII of Pub. L. 109–58, Aug. 8, 2005, 119 Stat. 972, which enacted this part, amended sections 824 and 824m of Title 16, Conservation, repealed chapter 2C (§79 et seq.) of Title 15, Commerce and Trade, and section 825q of Title 16, and enacted provisions set out as notes under sections 15801 and 16451 of this title. For complete classification of subtitle F to the Code, see Short Title note set out under section 15801 of this title and Tables.

The Federal Power Act, referred to in subsec. (a), is act June 10, 1920, ch. 285, 41 Stat. 1063, as amended, which is classified generally to chapter 12 (§791a et seq.) of Title 16, Conservation. For complete classification of this Act to the Code, see section 791a of Title 16 and Tables.

§16456. Applicability

Except as otherwise specifically provided in this part, no provision of this part shall apply to, or be deemed to include—

(1) the United States;

(2) a State or any political subdivision of a State;

(3) any foreign governmental authority not operating in the United States;

(4) any agency, authority, or instrumentality of any entity referred to in paragraph (1), (2), or (3); or

(5) any officer, agent, or employee of any entity referred to in paragraph (1), (2), (3), or (4) acting as such in the course of his or her official duty.

(Pub. L. 109–58, title XII, §1268, Aug. 8, 2005, 119 Stat. 976.)

§16459. Savings provisions

(a) In general

Nothing in this part, or otherwise in the Public Utility Holding Company Act of 1935, or rules, regulations, or orders thereunder, prohibits a person from engaging in or continuing to engage in activities or transactions in which it is legally engaged or authorized to engage on August 8, 2005, if that person continues to comply with the terms (other than an expiration date or termination date) of any such authorization, whether by rule or by order.

(b) Effect on other Commission authority

Nothing in this part limits the authority of the Commission under the Federal Power Act (16 U.S.C. 791a et seq.) or the Natural Gas Act (15 U.S.C. 717 et seq.).

(c) Tax treatment

Tax treatment under section 1081 [1] of title 26 as a result of transactions ordered in compliance with the Public Utility Holding Company Act of 1935 (15 U.S.C. 79 et seq.) shall not be affected in any manner due to the repeal of that Act and the enactment of the Public Utility Holding Company Act of 2005 [42 U.S.C. 16451 et seq.].

(Pub. L. 109–58, title XII, §1271, Aug. 8, 2005, 119 Stat. 976.)

§16460. Implementation

Not later than 4 months after August 8, 2005, the Commission shall—

(1) issue such regulations as may be necessary or appropriate to implement this part (other than section 16453 of this title, relating to State access to books and records); and

(2) submit to Congress detailed recommendations on technical and conforming amendments to Federal law necessary to carry out this part and the amendments made by this part.

(Pub. L. 109–58, title XII, §1272, Aug. 8, 2005, 119 Stat. 977.)

§16462. Service allocation

(a) Definition of public utility

In this section, the term "public utility" has the meaning given the term in section 824(e) of title

16.

(b) FERC review

In the case of non-power goods or administrative or management services provided by an associate company organized specifically for the purpose of providing such goods or services to any public utility in the same holding company system, at the election of the system or a State commission having jurisdiction over the public utility, the Commission, after the effective date of this part, shall review and authorize the allocation of the costs for such goods or services to the extent relevant to that associate company.

(c) Effect on Federal and State law

Nothing in this section shall affect the authority of the Commission or a State commission under other applicable law.

(d) Rules

Not later than 4 months after August 8, 2005, the Commission shall issue rules (which rules shall be effective no earlier than the effective date of this part) to exempt from the requirements of this section any company in a holding company system whose public utility operations are confined substantially to a single State and any other class of transactions that the Commission finds is not relevant to the jurisdictional rates of a public utility.

(Pub. L. 109–58, title XII, §1275, Aug. 8, 2005, 119 Stat. 977.)

EDITORIAL NOTES

PART E—MARKET TRANSPARENCY, ENFORCEMENT, AND CONSUMER PROTECTION

§16471. Consumer privacy and unfair trade practices

(a) Privacy

The Federal Trade Commission may issue rules protecting the privacy of electric consumers from the disclosure of consumer information obtained in connection with the sale or delivery of electric

energy to electric consumers.

(b) Slamming

The Federal Trade Commission may issue rules prohibiting the change of selection of an electric utility except with the informed consent of the electric consumer or if approved by the appropriate State regulatory authority.

(c) Cramming

The Federal Trade Commission may issue rules prohibiting the sale of goods and services to an electric consumer unless expressly authorized by law or the electric consumer.

(d) Rulemaking

The Federal Trade Commission shall proceed in accordance with section 553 of title 5 when prescribing a rule under this section.

(e) State authority

If the Federal Trade Commission determines that a State's regulations provide equivalent or greater protection than the provisions of this section, such State regulations shall apply in that State in lieu of the regulations issued by the Commission under this section.

(f) Definitions

For purposes of this section:

(1) State regulatory authority

The term "State regulatory authority" has the meaning given that term in section 796(21) of title 16.

(2) Electric consumer and electric utility

The terms "electric consumer" and "electric utility" have the meanings given those terms in section 2602 of title 16.

(Pub. L. 109–58, title XII, §1287, Aug. 8, 2005, 119 Stat. 981.)

PART F—DEFINITIONS

§16481. Commission defined

In this subchapter, the term "Commission" means the Federal Energy Regulatory Commission.

(Pub. L. 109–58, title XII, §1291(a), Aug. 8, 2005, 119 Stat. 984.)

EDITORIAL NOTES

REFERENCES IN TEXT

This subchapter, referred to in text, was in the original "this title", meaning title XII of Pub. L. 109–58, Aug. 8, 2005, 119 Stat. 941, which enacted this subchapter and sections 824j–1 and 824o to 824w of Title 16, Conservation, amended sections 796, 824, 824a–3, 824b, 824e, 824j, 824m, 825e, 825f, 825l to 825o, 825o–1, 2621, 2622, 2625, 2634, and 2642 of Title 16, repealed chapter 2C (§79 et seq.) of Title 15, Commerce and Trade, and sections 824n and 825q of Title 16, and enacted provisions set out as notes under sections 15801 and 16451 of this title and sections 824b, 824o, 824q, and 2642 of Title 16. For complete classification of title XII to the Code, see Short Title note set out under section 15801 of this title and Tables.

SUBCHAPTER XIII—MISCELLANEOUS

§16491. Energy production incentives

(a) In general

A State may provide to any entity—

(1) a credit against any tax or fee owed to the State under a State law, or

(2) any other tax incentive,

determined by the State to be appropriate, in the amount calculated under and in accordance with a formula determined by the State, for production described in subsection (b) in the State by the entity that receives such credit or such incentive.

(b) Eligible entities

Subsection (a) shall apply with respect to the production in the State of electricity from coal mined in the State and used in a facility, if such production meets all applicable Federal and State laws and if such facility uses scrubbers or other forms of clean coal technology.

(c) Effect on interstate commerce

Any action taken by a State in accordance with this section with respect to a tax or fee payable, or incentive applicable, for any period beginning after August 8, 2005, shall—

(1) be considered to be a reasonable regulation of commerce; and

(2) not be considered to impose an undue burden on interstate commerce or to otherwise impair, restrain, or discriminate, against interstate commerce.

(Pub. L. 109–58, title XIV, §1402, Aug. 8, 2005, 119 Stat. 1061.)

§16492. Regulation of certain oil used in transformers

Notwithstanding any other provision of law, or rule promulgated by the Environmental Protection Agency, vegetable oil made from soybeans and used in electric transformers as thermal insulation shall not be regulated as an oil identified under section 2720(a)(1)(B) of title 33.

(Pub. L. 109–58, title XIV, §1403, Aug. 8, 2005, 119 Stat. 1061.)

§16493. National Priority Project Designation

(a) Designation of National Priority Projects

(1) In general

There is established the National Priority Project Designation (referred to in this section as the "Designation"), which shall be evidenced by a medal bearing the inscription "National Priority Project".

(2) Design and materials

The medal shall be of such design and materials and bear such additional inscriptions as the President may prescribe.

(b) Making and presentation of Designation

(1) In general

The President, on the basis of recommendations made by the Secretary, shall annually designate organizations that have—

(A) advanced the field of renewable energy technology and contributed to North American energy independence; and

(B) been certified by the Secretary under subsection (e).

(2) Presentation

The President shall designate projects with such ceremonies as the President may prescribe.

(3) Use of Designation

An organization that receives a Designation under this section may publicize the Designation of the organization as a National Priority Project in advertising.

(4) Categories in which the Designation may be given

Separate Designations shall be made to qualifying projects in each of the following categories:

(A) Wind and biomass energy generation projects.

(B) Photovoltaic and fuel cell energy generation projects.

(C) Energy efficient building and renewable energy projects.

(D) First-in-Class projects.

(c) Selection criteria

(1) In general

Certification and selection of the projects to receive the Designation shall be based on criteria established under this subsection.

(2) Wind, biomass, and building projects

In the case of a wind, biomass, or building project, the project shall demonstrate that the project will install not less than 30 megawatts of renewable energy generation capacity.

(3) Solar photovoltaic and fuel cell projects

In the case of a solar photovoltaic or fuel cell project, the project shall demonstrate that the project will install not less than 3 megawatts of renewable energy generation capacity.

(4) Energy efficient building and renewable energy projects

In the case of an energy efficient building or renewable energy project, in addition to meeting the criteria established under paragraph (2), each building project shall demonstrate that the project will—

(A) comply with third-party certification standards for high-performance, sustainable buildings;

(B) use whole-building integration of energy efficiency and environmental performance design and technology, including advanced building controls;

(C) use renewable energy for at least 50 percent of the energy consumption of the project;

(D) comply with applicable Energy Star standards; and

(E) include at least 5,000,000 square feet of enclosed space.

(5) First-in-Class use

Notwithstanding paragraphs (2) through (4), a new building project may qualify under this section if the Secretary determines that the project—

(A) represents a First-In-Class use of renewable energy; or

(B) otherwise establishes a new paradigm of building integrated renewable energy use or energy efficiency.

(d) Application

(1) Initial applications

No later than 120 days after August 8, 2005, and annually thereafter, the Secretary shall publish in the Federal Register an invitation and guidelines for submitting applications, consistent with this section.

(2) Contents

The application shall describe the project, or planned project, and the plans to meet the criteria established under subsection (c).

(e) Certification

(1) In general

Not later than 60 days after the application period described in subsection (d), and annually thereafter, the Secretary shall certify projects that are reasonably expected to meet the criteria established under subsection (c).

(2) Certified projects

The Secretary shall designate personnel of the Department to work with persons carrying out each certified project and ensure that the personnel—

(A) provide each certified project with guidance in meeting the criteria established under subsection (c);

(B) identify programs of the Department, including National Laboratories and Technology Centers, that will assist each project in meeting the criteria established under subsection (c); and

(C) ensure that knowledge and transfer of the most current technology between the applicable resources of the Federal Government (including the National Laboratories and Technology Centers, the Department, and the Environmental Protection Agency) and the certified projects is being facilitated to accelerate commercialization of work developed through those resources.

(f) Authorization of appropriations

There are authorized to be appropriated such sums as are necessary to carry out this section for each of fiscal years 2006 through 2010.

(Pub. L. 109–58, title XIV, §1405, Aug. 8, 2005, 119 Stat. 1062.)

§16494. Oxygen-fuel

(a) Program

The Secretary shall establish a program on oxygen-fuel systems. If feasible, the program shall include renovation of at least one existing large unit and one existing small unit, and construction of one new large unit and one new small unit.

(b) Authorization of appropriations

There are authorized to be appropriated to the Secretary for carrying out this section—

(1) $100,000,000 for fiscal year 2006;

(2) $100,000,000 for fiscal year 2007; and

(3) $100,000,000 for fiscal year 2008.

(c) Definitions

For purposes of this section—

(1) the term "large unit" means a unit with a generating capacity of 100 megawatts or more;

(2) the term "oxygen-fuel systems" means systems that utilize fuel efficiency benefits of oil, gas, coal, and biomass combustion using substantially pure oxygen, with high flame temperatures and the exclusion of air from the boiler, in industrial or electric utility steam generating units; and

(3) the term "small unit" means a unit with a generating capacity in the 10–50 megawatt range.

(Pub. L. 109–58, title XIV, §1407, Aug. 8, 2005, 119 Stat. 1064.)

SUBCHAPTER XIV—ETHANOL AND MOTOR FUELS

§16501. Commercial byproducts from municipal solid waste and cellulosic biomass loan guarantee program

(a) Definition of municipal solid waste

In this section, the term "municipal solid waste" has the meaning given the term "solid waste" in section 6903 of this title.

(b) Establishment of program

The Secretary shall establish a program to provide guarantees of loans by private institutions for the construction of facilities for the processing and conversion of municipal solid waste and cellulosic biomass into fuel ethanol and other commercial byproducts.

(c) Requirements

The Secretary may provide a loan guarantee under subsection (b) to an applicant if—

(1) without a loan guarantee, credit is not available to the applicant under reasonable terms or conditions sufficient to finance the construction of a facility described in subsection (b);

(2) the prospective earning power of the applicant and the character and value of the security pledged provide a reasonable assurance of repayment of the loan to be guaranteed in accordance with the terms of the loan; and

(3) the loan bears interest at a rate determined by the Secretary to be reasonable, taking into account the current average yield on outstanding obligations of the United States with remaining periods of maturity comparable to the maturity of the loan.

(d) Criteria

In selecting recipients of loan guarantees from among applicants, the Secretary shall give preference to proposals that—

(1) meet all applicable Federal and State permitting requirements;

(2) are most likely to be successful; and

(3) are located in local markets that have the greatest need for the facility because of—

(A) the limited availability of land for waste disposal;

(B) the availability of sufficient quantities of cellulosic biomass; or

(C) a high level of demand for fuel ethanol or other commercial byproducts of the facility.

(e) Maturity

A loan guaranteed under subsection (b) shall have a maturity of not more than 20 years.

(f) Terms and conditions

The loan agreement for a loan guaranteed under subsection (b) shall provide that no provision of the loan agreement may be amended or waived without the consent of the Secretary.

(g) Assurance of repayment

The Secretary shall require that an applicant for a loan guarantee under subsection (b) provide an assurance of repayment in the form of a performance bond, insurance, collateral, or other means acceptable to the Secretary in an amount equal to not less than 20 percent of the amount of the loan.

(h) Guarantee fee

The recipient of a loan guarantee under subsection (b) shall pay the Secretary an amount determined by the Secretary to be sufficient to cover the administrative costs of the Secretary relating to the loan guarantee.

(i) Full faith and credit

The full faith and credit of the United States is pledged to the payment of all guarantees made under this section. Any such guarantee made by the Secretary shall be conclusive evidence of the eligibility of the loan for the guarantee with respect to principal and interest. The validity of the guarantee shall be incontestable in the hands of a holder of the guaranteed loan.

(j) Reports

Until each guaranteed loan under this section has been repaid in full, the Secretary shall annually submit to Congress a report on the activities of the Secretary under this section.

(k) Authorization of appropriations

There are authorized to be appropriated such sums as are necessary to carry out this section.

(l) Termination of authority

The authority of the Secretary to issue a loan guarantee under subsection (b) terminates on the date that is 10 years after August 8, 2005.

(Pub. L. 109–58, title XV, §1510, Aug. 8, 2005, 119 Stat. 1085.)

§16502. Advanced Biofuel Technologies Program

(a) In general

Subject to the availability of appropriations under subsection (d), the Administrator of the Environmental Protection Agency shall, in consultation with the Secretary of Agriculture and the Biomass Research and Development Technical Advisory Committee established under section 8605 [1] of title 7, establish a program, to be known as the "Advanced Biofuel Technologies Program", to demonstrate advanced technologies for the production of alternative transportation fuels.

(b) Priority

In carrying out the program under subsection (a), the Administrator shall give priority to projects that enhance the geographical diversity of alternative fuels production and utilize feedstocks that represent 10 percent or less of ethanol or biodiesel fuel production in the United States during the previous fiscal year.

(c) Demonstration projects

(1) In general

As part of the program under subsection (a), the Administrator shall fund demonstration projects—

(A) to develop not less than 4 different conversion technologies for producing cellulosic biomass ethanol; and

(B) to develop not less than 5 technologies for coproducing value-added bioproducts (such as fertilizers, herbicides, and pesticides) resulting from the production of biodiesel fuel.

(2) Administration

Demonstration projects under this subsection shall be—

(A) conducted based on a merit-reviewed, competitive process; and

(B) subject to the cost-sharing requirements of section 16352 of this title.

(d) Authorization of appropriations

There are authorized to be appropriated to carry out this section $110,000,000 for each of fiscal years 2005 through 2009.

(Pub. L. 109–58, title XV, §1514, Aug. 8, 2005, 119 Stat. 1090.)

EDITORIAL NOTES

REFERENCES IN TEXT

Section 8605 of title 7, referred to in subsec. (a), was repealed by Pub. L. 110–246, title IX, §9001(b), June 18, 2008, 122 Stat. 2095. Provisions relating to a Biomass Research and Development Technical Advisory Committee are now contained in section 8108(d) of title 7, Agriculture.

[1] *See References in Text note below.*

§16503. Sugar ethanol loan guarantee program

(a) In general

Funds may be provided for the cost (as defined in section 661a of title 2) of loan guarantees issued under title XIV [1] to carry out commercial demonstration projects for ethanol derived from sugarcane, bagasse, and other sugarcane byproducts.

(b) Demonstration projects

The Secretary may issue loan guarantees under this section to projects to demonstrate commercially the feasibility and viability of producing ethanol using sugarcane, sugarcane bagasse, and other sugarcane byproducts as a feedstock.

(c) Requirements

An applicant for a loan guarantee under this section may provide assurances, satisfactory to the Secretary, that—

(1) the project design has been validated through the operation of a continuous process facility;
(2) the project has been subject to a full technical review;
(3) the project, with the loan guarantee, is economically viable; and
(4) there is a reasonable assurance of repayment of the guaranteed loan.

(d) Limitations

(1) Maximum guarantee

Except as provided in paragraph (2), a loan guarantee under this section—
(A) may be issued for up to 80 percent of the estimated cost of a project; but
(B) shall not exceed $50,000,000 for any 1 project.

(2) Additional guarantees

(A) In general

The Secretary may issue additional loan guarantees for a project to cover—
(i) up to 80 percent of the excess of actual project costs; but
(ii) not to exceed 15 percent of the amount of the original loan guarantee.

(B) Principal and interest

Subject to subparagraph (A), the Secretary shall guarantee 100 percent of the principal and interest of a loan guarantee made under subparagraph (A).

SUBCHAPTER XV—INCENTIVES FOR INNOVATIVE TECHNOLOGIES

§16511. Definitions

In this subchapter:

(1) Commercial technology

(A) In general

The term "commercial technology" means a technology in general use in the commercial marketplace.

(B) Inclusions

The term "commercial technology" does not include a technology solely by use of the technology in a demonstration project funded by the Department.

(2) Cost

The term "cost" has the meaning given the term "cost of a loan guarantee" within the meaning of section 661a(5)(C) of title 2.

(3) Eligible project

The term "eligible project" means a project described in section 16513 of this title.

(4) Guarantee

(A) In general

The term "guarantee" has the meaning given the term "loan guarantee" in section 661a of title 2.

(B) Inclusion

The term "guarantee" includes a loan guarantee commitment (as defined in section 661a of title 2).

(5) Obligation

The term "obligation" means the loan or other debt obligation that is guaranteed under this section.

(6) State

The term "State" has the meaning given the term in section 6802 of this title.

(7) State energy financing institution

(A) In general

The term "State energy financing institution" means a quasi-independent entity or an entity within a State agency or financing authority established by a State—

(i) to provide financing support or credit enhancements, including loan guarantees and loan loss reserves, for eligible projects; and

(ii) to create liquid markets for eligible projects, including warehousing and securitization, or take other steps to reduce financial barriers to the deployment of existing and new eligible projects.

(B) Inclusion

The term "State energy financing institution" includes an entity or organization established to achieve the purposes described in clauses (i) and (ii) of subparagraph (A) by an Indian Tribal entity or an Alaska Native Corporation.

(Pub. L. 109–58, title XVII, §1701, Aug. 8, 2005, 119 Stat. 1117; Pub. L. 117–58, div. D, title IV, §40401(c)(1), Nov. 15, 2021, 135 Stat. 1037.)

EDITORIAL NOTES

AMENDMENTS

2021—Pars. (6), (7). Pub. L. 117–58 added pars. (6) and (7).

§16512. Terms and conditions

(a) In general

Except for division C of Public Law 108–324 [15 U.S.C. 720 et seq.], the Secretary shall make guarantees under this or any other Act for projects, including projects receiving financial support or credit enhancements from a State energy financing institution, on such terms and conditions as the Secretary determines, after consultation with the Secretary of the Treasury, only in accordance with this section.

(b) Specific appropriation or contribution

(1) In general

Except as provided in paragraph (2), the cost of a guarantee shall be paid by the Secretary using an appropriation made for the cost of the guarantee, subject to the availability of such an appropriation.

(2) Insufficient appropriations

If sufficient appropriated funds to pay the cost of a guarantee are not available, then the guarantee shall not be made unless—

(A) the Secretary has received from the borrower a payment in full for the cost of the guarantee and deposited the payment into the Treasury; or

(B) a combination of one or more appropriations and one or more payments from the borrower under this subsection has been made that is sufficient to cover the cost of the guarantee.

(c) Amount

Unless otherwise provided by law, a guarantee by the Secretary shall not exceed an amount equal to 80 percent of the project cost of the facility that is the subject of the guarantee, as estimated at the time at which the guarantee is issued.

(d) Repayment

(1) Requirement

(A) In general

No guarantee, including a guarantee for a project receiving financial support or credit enhancements from a State energy financing institution, shall be made unless the Secretary determines that there is reasonable prospect of repayment of the principal and interest on the obligation by the borrower.

(B) Reasonable prospect of repayment

The Secretary shall base a determination of whether there is reasonable prospect of repayment under subparagraph (A) on a comprehensive evaluation of whether the borrower has a reasonable prospect of repaying the guaranteed obligation for the eligible project, including, as applicable, an evaluation of—

(i) the strength of the contractual terms of the eligible project (if commercially reasonably available);

(ii) the forecast of noncontractual cash flows supported by market projections from reputable sources, as determined by the Secretary;

(iii) cash sweeps and other structure enhancements;

(iv) the projected financial strength of the borrower—

(I) at the time of loan close; and

(II) throughout the loan term after the project is completed;

(v) the financial strength of the investors and strategic partners of the borrower, if applicable; and

(vi) other financial metrics and analyses that are relied on by the private lending community and nationally recognized credit rating agencies, as determined appropriate by the Secretary.

(2) Amount

No guarantee shall be made unless the Secretary determines that the amount of the obligation (when combined with amounts available to the borrower from other sources) will be sufficient to carry out the project.

(3) Subordination

The obligation shall be subject to the condition that the obligation, including any reorganization, restructuring, or termination thereof, shall not at any time be subordinate to other financing.

(e) Interest rate

An obligation shall bear interest at a rate that does not exceed a level that the Secretary determines appropriate, taking into account the prevailing rate of interest in the private sector for similar loans and risks.

(f) Term

The term of an obligation shall require full repayment over a period not to exceed the lesser of—

(1) 30 years; or

(2) 90 percent of the projected useful life of the physical asset to be financed by the obligation (as determined by the Secretary).

(g) Defaults

(1) Payment by Secretary

(A) In general

If a borrower defaults on the obligation (as defined in regulations promulgated by the Secretary and specified in the guarantee contract), the holder of the guarantee shall have the right to demand payment of the unpaid amount from the Secretary.

(B) Payment required

Within such period as may be specified in the guarantee or related agreements, the Secretary shall pay to the holder of the guarantee the unpaid interest on, and unpaid principal of the obligation as to which the borrower has defaulted, unless the Secretary finds that there was no default by the borrower in the payment of interest or principal or that the default has been remedied.

(C) Forbearance

Nothing in this subsection precludes any forbearance by the holder of the obligation for the benefit of the borrower which may be agreed upon by the parties to the obligation and approved by the Secretary.

(2) Subrogation

(A) In general

If the Secretary makes a payment under paragraph (1), the Secretary shall be subrogated to the rights of the recipient of the payment as specified in the guarantee or related agreements including, where appropriate, the authority (notwithstanding any other provision of law) to—

(i) complete, maintain, operate, lease, or otherwise dispose of any property acquired pursuant to such guarantee or related agreements; or

(ii) permit the borrower, pursuant to an agreement with the Secretary, to continue to pursue the purposes of the project if the Secretary determines this to be in the public interest.

(B) Superiority of rights

The rights of the Secretary, with respect to any property acquired pursuant to a guarantee or related agreements, shall be superior to the rights of any other person with respect to the property.

(C) Terms and conditions

A guarantee agreement shall include such detailed terms and conditions as the Secretary determines appropriate to—

(i) protect the interests of the United States in the case of default; and

(ii) have available all the patents and technology necessary for any person selected, including the Secretary, to complete and operate the project.

(3) Payment of principal and interest by Secretary

With respect to any obligation guaranteed under this section, the Secretary may enter into a contract to pay, and pay, holders of the obligation, for and on behalf of the borrower, from funds appropriated for that purpose, the principal and interest payments which become due and payable on the unpaid balance of the obligation if the Secretary finds that—

(A)(i) the borrower is unable to meet the payments and is not in default;

(ii) it is in the public interest to permit the borrower to continue to pursue the purposes of the project; and

(iii) the probable net benefit to the Federal Government in paying the principal and interest will be greater than that which would result in the event of a default;

(B) the amount of the payment that the Secretary is authorized to pay shall be no greater than the amount of principal and interest that the borrower is obligated to pay under the agreement being guaranteed; and

(C) the borrower agrees to reimburse the Secretary for the payment (including interest) on terms and conditions that are satisfactory to the Secretary.

(4) Action by Attorney General

(A) Notification

If the borrower defaults on an obligation, the Secretary shall notify the Attorney General of the default.

(B) Recovery

On notification, the Attorney General shall take such action as is appropriate to recover the unpaid principal and interest due from—

(i) such assets of the defaulting borrower as are associated with the obligation; or

(ii) any other security pledged to secure the obligation.

(h) Fees

(1) In general

The Secretary shall charge, and collect on or after the date of the financial close of an obligation, a fee for a guarantee in an amount that the Secretary determines is sufficient to cover applicable administrative expenses (including any costs associated with third-party consultants engaged by the Secretary).

(2) Availability

Fees collected under this subsection shall—

(A) be deposited by the Secretary into the Treasury; and

(B) remain available until expended, subject to such other conditions as are contained in annual appropriations Acts.

(3) Reduction in fee amount

Notwithstanding paragraph (1) and subject to the availability of appropriations, the Secretary may reduce the amount of a fee for a guarantee under this subsection.

(i) Records; audits

(1) In general

A recipient of a guarantee shall keep such records and other pertinent documents as the Secretary shall prescribe by regulation, including such records as the Secretary may require to facilitate an effective audit.

(2) Access

The Secretary and the Comptroller General of the United States, or their duly authorized representatives, shall have access, for the purpose of audit, to the records and other pertinent documents.

(j) Full faith and credit

The full faith and credit of the United States is pledged to the payment of all guarantees issued under this section with respect to principal and interest.

(k) Wage rate requirements

All laborers and mechanics employed by contractors and subcontractors in the performance of construction work financed in whole or in part by a loan guaranteed under this subchapter shall be paid wages at rates not less than those prevailing on projects of a character similar in the locality as determined by the Secretary of Labor in accordance with subchapter IV of chapter 31 of title 40. With respect to the labor standards in this subsection, the Secretary of Labor shall have the authority and functions set forth in Reorganization Plan Numbered 14 of 1950 (64 Stat. 1267; 5 U.S.C. App.) and section 3145 of title 40.

(l) Restructuring of loan guarantees

The Secretary shall consult with the Secretary of the Treasury regarding any restructuring of the terms or conditions of a guarantee issued pursuant to this subchapter, including with respect to any deviations from the financial terms of the guarantee.

(m) Written analysis

(1) Requirement

The Secretary may not make a guarantee under this subchapter until the Secretary of the Treasury has transmitted to the Secretary, and the Secretary has taken into consideration, a written analysis of the financial terms and conditions of the proposed guarantee.

(2) Transmission

Not later than 30 days after receiving information on a proposed guarantee from the Secretary, the Secretary of the Treasury shall transmit the written analysis of the financial terms and conditions of the proposed guarantee required under paragraph (1) to the Secretary.

(3) Explanation

If the Secretary makes a guarantee the financial terms and conditions of which are not consistent with the written analysis required under this subsection, not later than 30 days after making such guarantee, the Secretary shall submit to the Committee on Energy and Commerce and the Committee on Science, Space, and Technology of the House of Representatives, and the Committee on Energy and Natural Resources of the Senate, a written explanation of any material inconsistencies.

(n) Application status

(1) Request

If the Secretary does not make a final decision on an application for a guarantee under this subchapter by the date that is 180 days after receipt of the application by the Secretary, the applicant may request, on or after that date and not more than once every 60 days thereafter until a final decision is made, that the Secretary provide to the applicant a response described in paragraph (2).

(2) Response

Not later than 10 days after receiving a request from an applicant under paragraph (1), the Secretary shall provide to the applicant a response that includes—

(A) a description of the current status of review of the application;

(B) a summary of any factors that are delaying a final decision on the application, a list of what items are required in order to reach a final decision, citations to authorities stating the reasons why such items are required, and a list of actions the applicant can take to expedite the

process; and

(C) an estimate of when a final decision on the application will be made.

(o) Outreach

In carrying out this subchapter, the Secretary shall—

(1) provide assistance with the completion of applications for a guarantee under this subchapter;

(2) conduct outreach, including through conferences and online programs, to disseminate information to potential applicants;

(3) conduct outreach to encourage participation of supporting finance institutions and private lenders in eligible projects.

(p) Coordination

In carrying out this subchapter, the Secretary shall coordinate activities under this subchapter with activities of other relevant offices with the Department.

(q) Report

Not later than 2 years after December 27, 2020, and every 3 years thereafter, the Secretary shall submit to Congress a report on the status of applications for, and projects receiving, guarantees under this title, including—

(1) a list of such projects, including the guarantee amount, construction status, and financing partners of each such project;

(2) the status of each such project's loan repayment, including interest paid and future repayment projections;

(3) an estimate of the air pollutant or greenhouse gas emissions avoided or reduced from each such project;

(4) data regarding the number of direct and indirect jobs retained, restored, or created by such projects;

(5) identification of—

(A) technologies deployed by projects that have received guarantees that have subsequently been deployed commercially without guarantees; and

(B) novel technologies that have been deployed by such projects and deployed in the commercial energy market;

(6) the number of new projects projected to receive a guarantee under this subchapter during the next 2 years and the aggregate guarantee amount;

(7) the number of outreach engagements conducted with potential applicants;

(8) the number of applications received and currently pending for each open solicitation; and

(9) any other metrics the Secretary finds appropriate.

(r) [1] Conflicts of interest

For each project selected for a guarantee under this subchapter, the Secretary shall certify that political influence did not impact the selection of the project.

(r) [1] State energy financing institutions

(1) Eligibility

To be eligible for a guarantee under this subchapter, a project receiving financial support or credit enhancements from a State energy financing institution—

(A) shall meet the requirements of section 16513(a)(1) of this title; and

(B) shall not be required to meet the requirements of section 16513(a)(2) of this title.

(2) Partnerships authorized

In carrying out a project receiving a loan guarantee under this subchapter, State energy financing institutions may enter into partnerships with private entities, Tribal entities, and Alaska Native corporations.

(3) Prohibition on use of appropriated funds

Amounts appropriated to the Department of Energy before November 15, 2021, shall not be available to be used for the cost of loan guarantees for projects receiving financing support or credit enhancements under this subsection.

EDITORIAL NOTES

REFERENCES IN TEXT

Division C of Public Law 108–324, referred to in subsec. (a), is division C of Pub. L. 108–324, Oct. 13, 2004, 118 Stat. 1255, known as the Alaska Natural Gas Pipeline Act, which is classified principally to chapter 15D (§720 et seq.) of Title 15, Commerce and Trade. For complete classification of division C to the Code, see Short Title note set out under section 720 of Title 15 and Tables.

Reorganization Plan Numbered 14 of 1950, referred to in subsec. (k), is set out in the Appendix to Title 5, Government Organization and Employees.

AMENDMENTS

2021—Subsec. (a). Pub. L. 117–58, §40401(c)(2)(A), inserted ", including projects receiving financial support or credit enhancements from a State energy financing institution," after "for projects".

Subsec. (d)(1). Pub. L. 117–58, §40401(a)(1), substituted "Requirement" for "In general" in par. heading, designated existing provisions as subpar. (A), inserted subpar. heading, and added subpar. (B).

Subsec. (d)(1)(A). Pub. L. 117–58, §40401(c)(2)(B), inserted ", including a guarantee for a project receiving financial support or credit enhancements from a State energy financing institution," after "No guarantee".

Subsec. (r). Pub. L. 117–58, §40401(c)(2)(C), added subsec. (r) relating to State energy financing institutions.

Pub. L. 117–58, §40401(a)(3), added subsec. (r) relating to conflicts of interest.

2020—Subsec. (b). Pub. L. 116–260, §9010(a)(1), amended subsec. (b) generally. Prior to amendment, text read as follows: "No guarantee shall be made unless—

"(A) an appropriation for the cost of the guarantee has been made;

"(B) the Secretary has received from the borrower a payment in full for the cost of the guarantee and deposited the payment into the Treasury; or

"(C) a combination of one or more appropriations under subparagraph (A) and one or more payments from the borrower under subparagraph (B) has been made that is sufficient to cover the cost of the guarantee."

Subsec. (d)(3). Pub. L. 116–260, §9010(a)(2), substituted ", including any reorganization, restructuring, or termination thereof, shall not at any time be subordinate" for "is not subordinate".

Subsec. (h)(1). Pub. L. 116–260, §9010(a)(3)(A), amended par. (1) generally. Prior to amendment, text read as follows: "The Secretary shall charge and collect fees for guarantees in amounts the Secretary determines are sufficient to cover applicable administrative expenses."

Subsec. (h)(3). Pub. L. 116–260, §9010(a)(3)(B), added par. (3).

Subsecs. (l) to (q). Pub. L. 116–260, §9010(a)(4), added subsecs. (l) to (q).

2011—Subsec. (b). Pub. L. 112–74 added subsec. (b) and struck out former subsec. (b). Prior to amendment, text read as follows: "No guarantee shall be made unless—

"(1) an appropriation for the cost has been made; or

"(2) the Secretary has received from the borrower a payment in full for the cost of the obligation and deposited the payment into the Treasury."

2009—Subsec. (k). Pub. L. 111–85 added subsec. (k).

[1] *So in original. Two subsecs. (r) have been enacted.*

§16513. Eligible projects

(a) In general

The Secretary may make guarantees under this section only for projects that—

(1) avoid, reduce, utilize, or sequester air pollutants or anthropogenic emissions of greenhouse gases; and

(2) employ new or significantly improved technologies as compared to commercial technologies in service in the United States at the time the guarantee is issued, including projects that employ elements of commercial technologies in combination with new or significantly improved technologies.

(b) Categories

Projects from the following categories shall be eligible for a guarantee under this section:

(1) Renewable energy systems.

(2) Advanced fossil energy technology (including coal gasification meeting the criteria in subsection (d)).

(3) Hydrogen fuel cell technology for residential, industrial, or transportation applications.

(4) Advanced nuclear energy facilities, including manufacturing of nuclear supply components for advanced nuclear reactors.

(5) Carbon capture, utilization, and sequestration practices and technologies, including—

(A) agricultural and forestry practices that store and sequester carbon; and

(B) synthetic technologies to remove carbon from the air and oceans.

(6) Efficient electrical generation, transmission, and distribution technologies.

(7) Efficient end-use energy technologies.

(8) Production facilities for the manufacture of fuel efficient vehicles or parts of those vehicles, including electric drive vehicles and advanced diesel vehicles.

(9) Pollution control equipment.

(10) Refineries, meaning facilities at which crude oil is refined into gasoline.

(11) Energy storage technologies for residential, industrial, transportation, and power generation applications.

(12) Technologies or processes for reducing greenhouse gas emissions from industrial applications, including iron, steel, cement, and ammonia production, hydrogen production, and the generation of high-temperature heat.

(13) Projects that increase the domestically produced supply of critical minerals (as defined in section 1606(a) of title 30, including through the production, processing, manufacturing, recycling, or fabrication of mineral alternatives.

(c) Gasification projects

The Secretary may make guarantees for the following gasification projects:

(1) Integrated gasification combined cycle projects

Integrated gasification combined cycle plants meeting the emission levels under subsection (d), including—

(A) projects for the generation of electricity—

(i) for which, during the term of the guarantee—

(I) coal, biomass, petroleum coke, or a combination of coal, biomass, and petroleum coke will account for at least 65 percent of annual heat input; and

(II) electricity will account for at least 65 percent of net useful annual energy output;

(ii) that have a design that is determined by the Secretary to be capable of accommodating the equipment likely to be necessary to capture the carbon dioxide that would otherwise be emitted in flue gas from the plant;

(iii) that have an assured revenue stream that covers project capital and operating costs (including servicing all debt obligations covered by the guarantee) that is approved by the

Secretary and the relevant State public utility commission; and

(iv) on which construction commences not later than the date that is 3 years after the date of the issuance of the guarantee;

(B) a project to produce energy from coal (of not more than 13,000 Btu/lb and mined in the western United States) using appropriate advanced integrated gasification combined cycle technology that minimizes and offers the potential to sequester carbon dioxide emissions and that—

(i) may include repowering of existing facilities;

(ii) may be built in stages;

(iii) shall have a combined output of at least 100 megawatts;

(iv) shall be located in a western State at an altitude greater than 4,000 feet; and

(v) shall demonstrate the ability to use coal with an energy content of not more than 9,000 Btu/lb;

(C) a project located in a taconite-producing region of the United States that is entitled under the law of the State in which the plant is located to enter into a long-term contract approved by a State public utility commission to sell at least 450 megawatts of output to a utility;

(D) facilities that—

(i) generate one or more hydrogen-rich and carbon monoxide-rich product streams from the gasification of coal or coal waste; and

(ii) use those streams to facilitate the production of ultra clean premium fuels through the Fischer-Tropsch process; and

(E) a project to produce energy and clean fuels, using appropriate coal liquefaction technology, from Western bituminous or subbituminous coal, that—

(i) is owned by a State government; and

(ii) may include tribal and private coal resources.

(2) Industrial gasification projects

Facilities that gasify coal, biomass, or petroleum coke in any combination to produce synthesis gas for use as a fuel or feedstock and for which electricity accounts for less than 65 percent of the useful energy output of the facility.

(3) Petroleum coke gasification projects

The Secretary is encouraged to make loan guarantees under this subchapter available for petroleum coke gasification projects.

(4) Liquefaction project

Notwithstanding any other provision of law, funds awarded under the Department of Energy's Clean Coal Power Initiative for Fischer-Tropsch coal-to-oil liquefaction projects may be used to finance the cost of loan guarantees for projects awarded such funds.

(d) Emission levels

In addition to any other applicable Federal or State emission limitation requirements, a project shall attain at least—

(1) total sulfur dioxide emissions in flue gas from the project that do not exceed 0.05 lb/MMBtu;

(2) a 90-percent removal rate (including any fuel pretreatment) of mercury from the coal-derived gas, and any other fuel, combusted by the project;

(3) total nitrogen oxide emissions in the flue gas from the project that do not exceed 0.08 lb/MMBtu; and

(4) total particulate emissions in the flue gas from the project that do not exceed 0.01 lb/MMBtu.

(e) Qualification of facilities receiving tax credits

A project that receives tax credits for clean coal technology shall not be disqualified from receiving a guarantee under this subchapter.

(f) Regional variation

Notwithstanding subsection (a)(2), the Secretary may, if regional variation significantly affects the deployment of a technology, make guarantees under this subchapter for up to 6 projects that employ the same or similar technology as another project, provided no more than 2 projects that use the same or a similar technology are located in the same region of the United States.

(Pub. L. 109–58, title XVII, §1703, Aug. 8, 2005, 119 Stat. 1120; Pub. L. 109–168, §1(b)(1), Jan. 10, 2006, 119 Stat. 3580; Pub. L. 110–140, title I, §134(b), Dec. 19, 2007, 121 Stat. 1513; Pub. L. 116–260, div. Z, title IX, §9010(b), Dec. 27, 2020, 134 Stat. 2605; Pub. L. 117–58, div. D, title IV, §40401(a)(2)(A), Nov. 15, 2021, 135 Stat. 1033.)

EDITORIAL NOTES

AMENDMENTS

2021—Subsec. (b)(13). Pub. L. 117–58 added par. (13).

2020—Subsec. (a)(1). Pub. L. 116–260, §9010(b)(1)(A), inserted ", utilize" after "reduce".

Subsec. (a)(2). Pub. L. 116–260, §9010(b)(1)(B), inserted ", including projects that employ elements of commercial technologies in combination with new or significantly improved technologies" before period at end.

Subsec. (b)(4). Pub. L. 116–260, §9010(b)(2)(A), inserted ", including manufacturing of nuclear supply components for advanced nuclear reactors" after "facilities".

Subsec. (b)(5). Pub. L. 116–260, §9010(b)(2)(B), amended par. (5) generally. Prior to amendment, par. (5) read as follows: "Carbon capture and sequestration practices and technologies, including agricultural and forestry practices that store and sequester carbon."

Subsec. (b)(11), (12). Pub. L. 116–260, §9010(b)(2)(C), added pars. (11) and (12).

Subsec. (f). Pub. L. 116–260, §9010(b)(3), added subsec. (f).

2007—Subsec. (b)(8). Pub. L. 110–140 added par. (8) and struck out former par. (8) which read as follows: "Production facilities for fuel efficient vehicles, including hybrid and advanced diesel vehicles."

2006—Subsec. (c)(4). Pub. L. 109–168 substituted "Department of Energy's Clean Coal Power Initiative for Fischer-Tropsch" for "clean coal power initiative under part A of subchapter IV for".

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE OF 2007 AMENDMENT

Amendment by Pub. L. 110–140 effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as an Effective Date note under section 1824 of Title 2, The Congress.

§16514. Authorization of appropriations

(a) In general

There are authorized to be appropriated such sums as are necessary to provide the cost of guarantees under this subchapter.

(b) Use of other appropriated funds

The Department may use amounts awarded under the Clean Coal Power Initiative to carry out the project described in section 16513(c)(1)(C) of this title, on the request of the recipient of such award, for a loan guarantee, to the extent that the amounts have not yet been disbursed to, or have been repaid by, the recipient.

(c) Administrative and other expenses

There are authorized to be appropriated—

(1) $32,000,000 for each of fiscal years 2021 through 2025 to carry out this subchapter; and

(2) for fiscal year 2021, in addition to amounts authorized under paragraph (1), $25,000,000, to remain available until expended, for administrative expenses described in section 16512(h)(1) of this title that are not covered by fees collected pursuant to section 16512(h) of this title.

(Pub. L. 109–58, title XVII, §1704, Aug. 8, 2005, 119 Stat. 1122; Pub. L. 109–168, §1(b)(2), Jan. 10, 2006, 119 Stat. 3580; Pub. L. 116–260, div. Z, title IX, §9010(c), Dec. 27, 2020, 134 Stat. 2606.)

EDITORIAL NOTES

AMENDMENTS

2020—Subsec. (c). Pub. L. 116–260 added subsec. (c).

2006—Subsec. (b). Pub. L. 109–168 substituted "Clean Coal Power Initiative" for "clean coal power initiative under part A of subchapter IV".

§16515. Limitation on commitments to guarantee loans

(a) Notwithstanding section 101,[1] subject to the Federal Credit Reform Act of 1990, as amended [2 U.S.C. 661 et seq.], commitments to guarantee loans under title XVII of the Energy Policy Act of 2005 [42 U.S.C. 16501 et seq.] shall not exceed a total principal amount, any part of which is to be guaranteed, of $4,000,000,000: *Provided*, That there are appropriated for the cost of the guaranteed loans such sums as are hereafter derived from amounts received from borrowers pursuant to section 16512(b)(2) of this title, to remain available until expended: *Provided further*, That the source of payments received from borrowers for the subsidy cost shall not be a loan or other debt obligation that is made or guaranteed by the Federal government.[2] In addition, fees collected pursuant to section 16512(h) of this title in fiscal year 2007 shall be credited as offsetting collections to the Departmental Administration account for administrative expenses of the Loan Guarantee Program: *Provided further*, That the sum appropriated for administrative expenses for the Loan Guarantee Program shall be reduced by the amount of fees received during fiscal year 2007: *Provided further*, That any fees collected under section 16512(h) of this title in excess of the amount appropriated for administrative expenses shall not be available until appropriated.

(b) No loan guarantees may be awarded under title XVII of the Energy Policy Act of 2005 [42 U.S.C. 16501 et seq.] until final regulations are issued that include—

(1) programmatic, technical, and financial factors the Secretary will use to select projects for loan guarantees;

(2) policies and procedures for selecting and monitoring lenders and loan performance; and

(3) any other policies, procedures, or information necessary to implement title XVII of the Energy Policy Act of 2005.

(c) The Secretary of Energy shall enter into an arrangement with an independent auditor for annual evaluations of the program under title XVII of the Energy Policy Act of 2005 [42 U.S.C. 16501 et seq.]. In addition to the independent audit, the Comptroller General shall conduct a review every three years of the Department's execution of the program under title XVII of the Energy Policy Act of 2005. The results of the independent audit and the Comptroller General's review shall be provided directly to the Committees on Appropriations of the House of Representatives and the Senate.

(d) The Secretary of Energy shall promulgate final regulations for loan guarantees under title XVII of the Energy Policy Act of 2005 [42 U.S.C. 16501 et seq.] within 6 months of February 15, 2007.

(e) Not later than 120 days after February 15, 2007, and annually thereafter, the Secretary of Energy shall transmit to the Committees on Appropriations of the House of Representatives and the Senate a report containing a summary of all activities under title XVII of the Energy Policy Act of 2005 [42 U.S.C. 16511 et seq.], beginning in fiscal year 2007, with a listing of responses to loan guarantee solicitations under such title, describing the technologies, amount of loan guarantee sought, and the applicants' assessment of risk.

(Pub. L. 109–289, div. B, title II, §20320, as added Pub. L. 110–5, §2, Feb. 15, 2007, 121 Stat. 21; amended Pub. L. 113–76, div. D, title III, §307, Jan. 17, 2014, 128 Stat. 175.)

EDITORIAL NOTES

REFERENCES IN TEXT

Section 101, referred to in subsec. (a), is section 101 of title I of div. B of Pub. L. 109–289, as added by Pub. L. 110–5, §2, Feb. 15, 2007, 121 Stat. 8. Subsec. (b) of section 101 is classified as a note under section 12651i of this title. Subsecs. (a) and (c) of section 101 are not classified to the Code.

The Federal Credit Reform Act of 1990, referred to in subsec. (a), is title V of Pub. L. 93–344, as added by Pub. L. 101–508, title XIII, §13201(a), Nov. 5, 1990, 104 Stat. 1388–609, which is classified generally to subchapter III (§661 et seq.) of chapter 17A of Title 2, The Congress. For complete classification of this Act to the Code, see Short Title note set out under section 621 of Title 2 and Tables.

The Energy Policy Act of 2005, referred to in text, is Pub. L. 109–58, Aug. 8, 2005, 119 Stat. 594. Title XVII of the Act is classified generally to this subchapter. For complete classification of this Act to the Code, see Short Title note set out under section 15801 of this title and Tables.

CODIFICATION

Section was enacted as part of the Continuing Appropriations Resolution, 2007, and not as part of the Energy Policy Act of 2005 which comprises this chapter.

AMENDMENTS

2014—Subsec. (c). Pub. L. 113–76 substituted "a review every three years" for "an annual review".

[1] *See References in Text note below.*

[2] *So in original. Probably should be capitalized.*

§16516. Omitted

EDITORIAL NOTES

CODIFICATION

Section, Pub. L. 109–58, title XVII, §1705, as added Pub. L. 111–5, div. A, title IV, §406(a), Feb. 17, 2009, 123 Stat. 145, which related to temporary program for rapid deployment of renewable energy and electric power transmission projects, was omitted from the Code due to expiration of authority to enter into guarantees under this section on Sept. 30, 2011.

SUBCHAPTER XVI—STUDIES

§16521. Report on energy integration with Latin America

The Secretary shall submit an annual report to the Committee on Energy and Commerce of the United States House of Representatives and to the Committee on Energy and Natural Resources of the Senate concerning the status of energy export development in Latin America and efforts by the Secretary and other departments and agencies of the United States to promote energy integration with Latin America. The report shall contain a detailed analysis of the status of energy export development in Mexico and a description of all significant efforts by the Secretary and other departments and agencies to promote a constructive relationship with Mexico regarding the development of that nation's energy capacity. In particular this report shall outline efforts the

Secretary and other departments and agencies have made to ensure that regulatory approval and oversight of United States/Mexico border projects that result in the expansion of Mexican energy capacity are effectively coordinated across departments and with the Mexican government.

(Pub. L. 109–58, title XVIII, §1807, Aug. 8, 2005, 119 Stat. 1124.)

§16522. Low-volume gas reservoir study

(a) Study

The Secretary shall make a grant to an organization of oil and gas producing States, specifically those containing significant numbers of marginal oil and natural gas wells, for conducting an annual study of low-volume natural gas reservoirs. Such organization shall work with the State geologist of each State being studied.

(b) Contents

The studies under this section shall—

(1) determine the status and location of marginal wells and gas reservoirs;

(2) gather the production information of these marginal wells and reservoirs;

(3) estimate the remaining producible reserves based on variable pipeline pressures;

(4) locate low-pressure gathering facilities and pipelines;

(5) recommend incentives which will enable the continued production of these resources;

(6) produce maps and literature to disseminate to States to promote conservation of natural gas reserves; and

(7) evaluate the amount of natural gas that is being wasted through the practice of venting or flaring of natural gas produced in association with crude oil well production.

(c) Data analysis

Data development and analysis under this section shall be performed by an institution of higher education with GIS capabilities. If the organization receiving the grant under subsection (a) does not have GIS capabilities, such organization shall contract with one or more entities with—

(1) technological capabilities and resources to perform advanced image processing, GIS programming, and data analysis; and

(2) the ability to—

(A) process remotely sensed imagery with high spatial resolution;

(B) deploy global positioning systems;

(C) process and synthesize existing, variable-format gas well, pipeline, gathering facility, and reservoir data;

(D) create and query GIS databases with infrastructure location and attribute information;

(E) write computer programs to customize relevant GIS software;

(F) generate maps, charts, and graphs which summarize findings from data research for presentation to different audiences; and

(G) deliver data in a variety of formats, including Internet Map Server for query and display, desktop computer display, and access through handheld personal digital assistants.

(d) Authorization of appropriations

There are authorized to be appropriated to the Secretary for carrying out this section—

(1) $1,500,000 for fiscal year 2006; and

(2) $450,000 for each of the fiscal years 2007 through 2010.

(e) Definitions

For purposes of this section, the term "GIS" means geographic information systems technology that facilitates the organization and management of data with a geographic component.

(Pub. L. 109–58, title XVIII, §1808, Aug. 8, 2005, 119 Stat. 1124.)

§16523. Alaska natural gas pipeline

Not later than 180 days after August 8, 2005, and every 180 days thereafter until the Alaska natural gas pipeline commences operation, the Federal Energy Regulatory Commission shall submit to Congress a report describing—

(1) the progress made in licensing and constructing the pipeline; and

(2) any issue impeding that progress.

(Pub. L. 109–58, title XVIII, §1810, Aug. 8, 2005, 119 Stat. 1126.)

§16524. Study on the benefits of economic dispatch

(a) Study

The Secretary, in coordination and consultation with the States, shall conduct a study on—

(1) the procedures currently used by electric utilities to perform economic dispatch;

(2) identifying possible revisions to those procedures to improve the ability of nonutility generation resources to offer their output for sale for the purpose of inclusion in economic dispatch; and

(3) the potential benefits to residential, commercial, and industrial electricity consumers nationally and in each state [1] if economic dispatch procedures were revised to improve the ability of nonutility generation resources to offer their output for inclusion in economic dispatch.

(b) Definition

The term "economic dispatch" when used in this section means the operation of generation facilities to produce energy at the lowest cost to reliably serve consumers, recognizing any operational limits of generation and transmission facilities.

(c) Report to Congress and the States

Not later than 90 days after August 8, 2005, and on a yearly basis following, the Secretary shall submit a report to Congress and the States on the results of the study conducted under subsection (a), including recommendations to Congress and the States for any suggested legislative or regulatory changes.

(Pub. L. 109–58, title XVIII, §1832, Aug. 8, 2005, 119 Stat. 1138.)

[1] *So in original. Probably should be capitalized.*

SUBCHAPTER XVII—PROTECTING AMERICA'S COMPETITIVE EDGE THROUGH ENERGY

EDITORIAL NOTES

CODIFICATION

This subchapter was enacted as part of the America COMPETES Act, also known as the America Creating Opportunities to Meaningfully Promote Excellence in Technology, Education, and Science Act, and also as part of the Protecting America's Competitive Edge Through Energy Act, also known as the PACE–Energy Act, and not as part of the Energy Policy Act of 2005, which enacted subchapters I to XVI of this chapter.

§16531. Definitions

In this subchapter:

(1) Department

The term "Department" means the Department of Energy.

(2) Institution of higher education

The term "institution of higher education" has the meaning given the term in section 1001(a) of title 20.

(3) National Laboratory

The term "National Laboratory" has the meaning given the term in section 15801 of this title.

(4) Secretary

The term "Secretary" means the Secretary of Energy.

(Pub. L. 110–69, title V, §5002, Aug. 9, 2007, 121 Stat. 600.)

EDITORIAL NOTES

REFERENCES IN TEXT

This subchapter, referred to in introductory provisions, was in the original "this title", meaning title V of Pub. L. 110–69, Aug. 9, 2007, 121 Stat. 600, known as the Protecting America's Competitive Edge Through Energy Act and also as the PACE–Energy Act, which is classified principally to this subchapter. For complete classification of this title to the Code, see Short Title of 2007 Amendment note set out under section 15801 of this title and Tables.

STATUTORY NOTES AND RELATED SUBSIDIARIES

SHORT TITLE

For short title of title V of Pub. L. 110–69, which enacted this subchapter, as the "Protecting America's Competitive Edge Through Energy Act" or the "PACE–Energy Act", see section 5001 of Pub. L. 110–69, set out as a note under section 15801 of this title .

§16532. Nuclear science talent expansion program for institutions of higher education

(a) Purposes

The purposes of this section are—

(1) to address the decline in the number of and resources available to nuclear science programs at institutions of higher education; and

(2) to increase the number of graduates with degrees in nuclear science, an area of strategic importance to the economic competitiveness and energy security of the United States.

(b) Definition of nuclear science

In this section, the term "nuclear science" includes—

(1) nuclear science;

(2) nuclear engineering;

(3) nuclear chemistry;

(4) radio chemistry; and

(5) health physics.

(c) Establishment

The Secretary shall establish, in accordance with this section, a program to expand and enhance institution of higher education nuclear science educational capabilities.

(d) Nuclear science program expansion grants for institutions of higher education

(1) In general

The Secretary shall award up to 3 competitive grants for each fiscal year to institutions of

higher education that establish new academic degree programs in nuclear science.

(2) Priority

In evaluating grants under this subsection, the Secretary shall give priority to proposals that involve partnerships with a National Laboratory or other eligible nuclear-related entity, as determined by the Secretary.

(3) Criteria

Criteria for a grant awarded under this subsection shall be based on—

(A) the potential to attract new students to the program;

(B) academic rigor; and

(C) the ability to offer hands-on learning opportunities.

(4) Duration and amount

(A) Duration

A grant under this subsection may be up to 5 years in duration.

(B) Amount

An institution of higher education that receives a grant under this subsection shall be eligible for up to $1,000,000 for each year of the grant period.

(5) Use of funds

An institution of higher education that receives a grant under this subsection may use the grant to—

(A) recruit and retain new faculty;

(B) develop core and specialized course content;

(C) encourage collaboration between faculty and researchers in the nuclear science field; and

(D) support outreach efforts to recruit students.

(e) Nuclear science competitiveness grants for institutions of higher education

(1) In general

The Secretary shall award up to 5 competitive grants for each fiscal year to institutions of higher education with existing academic degree programs that produce graduates in nuclear science.

(2) Criteria

Criteria for a grant awarded under this subsection shall be based on the potential for increasing the number and academic quality of graduates in the nuclear sciences who enter into careers in nuclear-related fields.

(3) Duration and amount

(A) Duration

A grant under this subsection may be up to 5 years in duration.

(B) Amount

An institution of higher education that receives a grant under this subsection shall be eligible for up to $500,000 for each year of the grant period.

(4) Use of funds

An institution of higher education that receives a grant under this subsection may use the grant to—

(A) increase the number of graduates in nuclear science that enter into careers in the nuclear science field;

(B) enhance the teaching of advanced nuclear technologies;

(C) aggressively pursue collaboration opportunities with industry and National Laboratories;

(D) bolster or sustain nuclear infrastructure and research facilities of the institution of higher

education, such as research and training reactors or laboratories; and

(E) provide tuition assistance and stipends to undergraduate and graduate students.

(f) Authorization of appropriations

(1) Nuclear science program expansion grants for institutions of higher education

There are authorized to be appropriated to carry out subsection (d)—

(A) $3,500,000 for fiscal year 2008;
(B) $6,500,000 for fiscal year 2009;
(C) $9,500,000 for fiscal year 2010;
(D) $9,800,000 for fiscal year 2011;
(E) $10,100,000 for fiscal year 2012; and
(F) $10,400,000 for fiscal year 2013.

(2) Nuclear science competitiveness grants for institutions of higher education

There are authorized to be appropriated to carry out subsection (e)—

(A) $3,000,000 for fiscal year 2008;
(B) $5,500,000 for fiscal year 2009;
(C) $8,000,000 for fiscal year 2010;
(D) $8,240,000 for fiscal year 2011;
(E) $8,500,000 for fiscal year 2012; and
(F) $8,750,000 for fiscal year 2013.

(Pub. L. 110–69, title V, §5004, Aug. 9, 2007, 121 Stat. 612; Pub. L. 111–358, title IX, §902(a), Jan. 4, 2011, 124 Stat. 4044.)

EDITORIAL NOTES

AMENDMENTS

2011—Subsec. (f)(1)(D) to (F). Pub. L. 111–358, §902(a)(1), added subpars. (D) to (F).
Subsec. (f)(2)(D) to (F). Pub. L. 111–358, §902(a)(2), added subpars. (D) to (F).

§16533. Hydrocarbon systems science talent expansion program for institutions of higher education

(a) Purposes

The purposes of this section are—

(1) to address the decline in the number of and resources available to hydrocarbon systems science programs at institutions of higher education; and

(2) to increase the number of graduates with degrees in hydrocarbon systems science, an area of strategic importance to the economic competitiveness and energy security of the United States.

(b) Definition of hydrocarbon systems science

In this section:

(1) In general

The term "hydrocarbon systems science" means a science involving natural gas or other petroleum exploration, development, or production.

(2) Inclusions

The term "hydrocarbon systems science" includes—

(A) petroleum or reservoir engineering;
(B) environmental geoscience;
(C) petrophysics;
(D) geophysics;

(E) geochemistry;
(F) petroleum geology;
(G) ocean engineering;
(H) environmental engineering;
(I) computer science, as computer science relates to a science described in this subsection; and
(J) hydrocarbon spill response and remediation.

(c) Establishment

The Secretary shall establish, in accordance with this section, a program to expand and enhance institution of higher education hydrocarbon systems science educational capabilities.

(d) Hydrocarbon systems science program expansion grants for institutions of higher education

(1) In general

The Secretary shall award up to 3 competitive grants for each fiscal year to institutions of higher education that establish new academic degree programs in hydrocarbon systems science.

(2) Eligibility

In evaluating grants under this subsection, the Secretary shall give priority to proposals that involve partnerships with the National Laboratories, including the National Energy Technology Laboratory, or other hydrocarbon systems scientific entities, as determined by the Secretary.

(3) Criteria

Criteria for a grant awarded under this subsection shall be based on—
(A) the potential to attract new students to the program;
(B) academic rigor; and
(C) the ability to offer hands-on learning opportunities.

(4) Duration and amount

(A) Duration

A grant under this subsection may be up to 5 years in duration.

(B) Amount

An institution of higher education that receives a grant under this subsection shall be eligible for up to $1,000,000 for each year of the grant period.

(5) Use of funds

An institution of higher education that receives a grant under this subsection may use the grant to—
(A) recruit and retain new faculty;
(B) develop core and specialized course content;
(C) encourage collaboration between faculty and researchers in the hydrocarbon systems science field; and
(D) support outreach efforts to recruit students.

(e) Hydrocarbon systems science competitiveness grants for institutions of higher education

(1) In general

The Secretary shall award up to 5 competitive grants for each fiscal year to institutions of higher education with existing academic degree programs that produce graduates in hydrocarbon systems science.

(2) Criteria

Criteria for a grant awarded under this subsection shall be based on the potential for increasing the number and academic quality of graduates in hydrocarbon systems sciences who enter into careers in natural gas and other petroleum exploration, development, and production related fields.

(3) Duration and amount

(A) Duration

A grant under this subsection may be up to 5 years in duration.

(B) Amount

An institution of higher education that receives a grant under this subsection shall be eligible for up to $500,000 for each year of the grant period.

(4) Use of funds

An institution of higher education that receives a grant under this subsection may use the grant to—

(A) increase the number of graduates in the hydrocarbon systems sciences that enter into careers in the natural gas and other petroleum exploration, development, and production science fields;

(B) enhance the teaching of advanced natural gas and other petroleum exploration, development, and production technologies;

(C) aggressively pursue collaboration opportunities with industry and the National Laboratories, including the National Energy Technology Laboratory;

(D) bolster or sustain natural gas and other petroleum exploration, development, and production infrastructure and research facilities of the institution of higher education, such as research and training or laboratories; and

(E) provide tuition assistance and stipends to undergraduate and graduate students.

(f) Authorization of appropriations

(1) Hydrocarbon systems science program expansion grants for institutions of higher education

There are authorized to be appropriated to carry out subsection (d)—

(A) $3,500,000 for fiscal year 2008;
(B) $6,500,000 for fiscal year 2009;
(C) $9,500,000 for fiscal year 2010;
(D) $9,800,000 for fiscal year 2011;
(E) $10,000,000 for fiscal year 2012; and
(F) $10,400,000 for fiscal year 2013.

(2) Hydrocarbon systems science competitiveness grants for institutions of higher education

There are authorized to be appropriated to carry out subsection (e)—

(A) $3,000,000 for fiscal year 2008;
(B) $5,500,000 for fiscal year 2009; and
(C) $8,000,000 for fiscal year 2010.

(Pub. L. 110–69, title V, §5005, Aug. 9, 2007, 121 Stat. 613; Pub. L. 111–358, title IX, §902(b), Jan. 4, 2011, 124 Stat. 4044.)

EDITORIAL NOTES

AMENDMENTS

2011—Subsec. (b)(2)(J). Pub. L. 111–358, §902(b)(1), added subpar. (J).
Subsec. (f)(1)(D) to (F). Pub. L. 111–358, §902(b)(2), added subpars. (D) to (F).

§16534. Department of Energy early career awards for science, engineering, and mathematics researchers

(a) Grant awards

The Director of the Office of Science of the Department (referred to in this section as the "Director") shall carry out a program to award grants to scientists and engineers at an early career stage at institutions of higher education and organizations described in subsection (c) to conduct research in fields relevant to the mission of the Department.

(b) Amount and duration

(1) Amount

The amount of a grant awarded under this section shall be—

(A) not less than $80,000; and

(B) not more than $125,000.

(2) Duration

The term of a grant awarded under this section shall be not more than 5 years.

(c) Eligibility

(1) In general

To be eligible to receive a grant under this section, an individual shall, as determined by the Director—

(A) subject to paragraph (2), have completed a doctorate or other terminal degree not more than 10 years before the date on which the proposal for a grant is submitted under subsection (e)(1);

(B) have demonstrated promise in a science, engineering, or mathematics field relevant to the missions of the Department; and

(C) be employed—

(i) in a tenure track-position as an assistant professor or equivalent title at an institution of higher education in the United States;

(ii) at an organization in the United States that is a nonprofit, nondegree-granting research organization such as a museum, observatory, or research laboratory; or

(iii) as a scientist at a National Laboratory.

(2) Waiver

Notwithstanding paragraph (1)(A), the Director may determine that an individual who has completed a doctorate more than 10 years before the date of submission of a proposal under subsection (e)(1) is eligible to receive a grant under this section if the individual was unable to conduct research for a period of time because of extenuating circumstances, including military service or family responsibilities, as determined by the Director.

(d) Selection

Grant recipients shall be selected on a competitive, merit-reviewed basis.

(e) Selection process and criteria

(1) Proposal

To be eligible to receive a grant under this section, an individual shall submit to the Director a proposal at such time, in such manner, and containing such information as the Director may require.

(2) Evaluation

In evaluating the proposals submitted under paragraph (1), the Director shall take into consideration, at a minimum—

(A) the intellectual merit of the proposed project;

(B) the innovative or transformative nature of the proposed research;

(C) the extent to which the proposal integrates research and education, including undergraduate education in science and engineering disciplines; and

(D) the potential of the applicant for leadership at the frontiers of knowledge.

(f) Diversity requirement

(1) In general

In awarding grants under this section, the Director shall endeavor to ensure that the grant recipients represent a variety of types of institutions of higher education and nonprofit, nondegree-granting research organizations.

(2) Requirement

In support of the goal described in paragraph (1), the Director shall broadly disseminate information regarding the deadlines applicable to, and manner in which to submit, proposals for grants under this section, including by conducting outreach activities for—

(A) part B institutions, as defined in section 1061 of title 20; and

(B) minority institutions, as defined in section 1067k of title 20.

(g) Report on recruiting and retaining early career science and engineering researchers at National Laboratories

(1) In general

Not later than 90 days after August 9, 2007, the Director shall submit to the Committee on Science and Technology of the House of Representatives and the Committee on Energy and Natural Resources of the Senate a report describing efforts of the Director to recruit and retain young scientists and engineers at early career stages at the National Laboratories.

(2) Inclusions

The report under paragraph (1) shall include—

(A) a description of applicable Department and National Laboratory policies and procedures, including policies and procedures relating to financial incentives, awards, promotions, time reserved for independent research, access to equipment or facilities, and other forms of recognition, designed to attract and retain young scientists and engineers;

(B) an evaluation of the impact of the incentives described in subparagraph (A) on—

(i) the careers of young scientists and engineers at the National Laboratories; and

(ii) the quality of the research at the National Laboratories and in Department programs;

(C) a description of barriers, if any, that exist with respect to efforts to recruit and retain young scientists and engineers, including the limited availability of full-time equivalent positions, legal and procedural requirements, and pay grading systems; and

(D) the amount of funding devoted to efforts to recruit and retain young researchers, and the source of the funds.

(h) Authorization of appropriations

There is authorized to be appropriated to the Secretary, acting through the Director, to carry out this section $25,000,000 for each of fiscal years 2008 through 2013.

(Pub. L. 110–69, title V, §5006, Aug. 9, 2007, 121 Stat. 615; Pub. L. 111–358, title IX, §902(c), Jan. 4, 2011, 124 Stat. 4045.)

EDITORIAL NOTES

AMENDMENTS

2011—Subsec. (h). Pub. L. 111–358 substituted "2013" for "2010".

STATUTORY NOTES AND RELATED SUBSIDIARIES

CHANGE OF NAME

Committee on Science and Technology of House of Representatives changed to Committee on Science, Space, and Technology of House of Representatives by House Resolution No. 5, One Hundred Twelfth

§16535. Discovery science and engineering innovation institutes

(a) In general

The Secretary shall establish distributed, multidisciplinary institutes (referred to in this section as "Institutes") centered at National Laboratories to apply fundamental science and engineering discoveries to technological innovations relating to—

(1) the missions of the Department; and

(2) the global competitiveness of the United States.

(b) Topical areas

The Institutes shall support scientific and engineering research and education activities on critical emerging technologies determined by the Secretary to be essential to global competitiveness, including activities relating to—

(1) sustainable energy technologies;

(2) multiscale materials and processes;

(3) micro- and nano-engineering;

(4) computational and information engineering; and

(5) genomics and proteomics.

(c) Partnerships

In carrying out this section, the Secretary shall establish partnerships between the Institutes and—

(1) institutions of higher education—

(A) to train undergraduate and graduate science and engineering students;

(B) to develop innovative undergraduate and graduate educational curricula; and

(C) to conduct research within the topical areas described in subsection (b); and

(2) private industry to develop innovative technologies within the topical areas described in subsection (b).

(d) Grants

(1) In general

For each fiscal year, the Secretary may select not more than 3 Institutes to receive a grant under this section.

(2) Merit-based selection

The selection of Institutes under paragraph (1) shall be—

(A) merit-based; and

(B) made through an open, competitive selection process.

(3) Term

An Institute shall receive a grant under this section for not more than 3 fiscal years.

(e) Review

The Secretary shall offer to enter into an agreement with the National Academy of Sciences under which the Academy shall, by not later than 3 years after August 9, 2007—

(1) review the performance of the Institutes under this section; and

(2) submit to Congress and the Secretary a report describing the results of the review.

(f) Authorization of appropriations

There is authorized to be appropriated to provide grants to each Institute selected under this section $10,000,000 for each of fiscal years 2008 through 2010.

(Pub. L. 110–69, title V, §5008, Aug. 9, 2007, 121 Stat. 618.)

§16536. Protecting America's Competitive Edge (PACE) graduate fellowship program

(a) Definition of eligible student

In this section, the term "eligible student" means a student who attends an institution of higher education that offers a doctoral degree in a field relevant to a mission area of the Department.

(b) Establishment

The Secretary shall establish a graduate fellowship program for eligible students pursuing a doctoral degree in a mission area of the Department.

(c) Selection

(1) In general

The Secretary shall award fellowships to eligible students under this section through a competitive merit review process, involving written and oral interviews, that will result in a wide distribution of awards throughout the United States, as determined by the Secretary.

(2) Criteria

The Secretary shall establish selection criteria for awarding fellowships under this section that require an eligible student—

(A) to pursue a field of science or engineering of importance to a mission area of the Department;

(B) to demonstrate to the Secretary—

(i) the capacity of the eligible student to understand technical topics relating to the fellowship that can be derived from the first principles of the technical topics;

(ii) imagination and creativity;

(iii) leadership skills in organizations or intellectual endeavors, demonstrated through awards and past experience; and

(iv) excellent verbal and communication skills to explain, defend, and demonstrate an understanding of technical subjects relating to the fellowship; and

(C) to be a citizen or legal permanent resident of the United States.

(d) Awards

(1) Amount

A fellowship awarded under this section shall—

(A) provide an annual living stipend; and

(B) cover—

(i) graduate tuition at an institution of higher education described in subsection (a); and

(ii) incidental expenses associated with curricula and research at the institution of higher education (including books, computers, and software).

(2) Duration

A fellowship awarded under this section shall be up to 3 years duration within a 5-year period.

(3) Portability

A fellowship awarded under this section shall be portable with the eligible student.

(e) Administration

The Secretary, acting through the Director of Science, Engineering, and Mathematics Education—

(1) shall administer the program established under this section; and

(2) may enter into a contract with a nonprofit entity to administer the program, including the selection and award of fellowships.

(f) Authorization of appropriations

There are authorized to be appropriated to carry out this section—

(1) $7,500,000 for fiscal year 2008;

(2) $12,000,000 for fiscal year 2009, including nonexpiring fellowships for the preceding fiscal year;

(3) $20,000,000 for fiscal year 2010, including nonexpiring fellowships for preceding fiscal years;

(4) $20,600,000 for fiscal year 2011;

(5) $21,200,000 for fiscal year 2012; and

(6) $21,900,000 for fiscal year 2013.

(Pub. L. 110–69, title V, §5009, Aug. 9, 2007, 121 Stat. 618; Pub. L. 111–358, title IX, §902(d), Jan. 4, 2011, 124 Stat. 4045.)

EDITORIAL NOTES

AMENDMENTS

2011—Subsec. (f)(4) to (6). Pub. L. 111–358 added pars. (4) to (6).

§16537. Distinguished scientist program

(a) Purpose

The purpose of this section is to promote scientific and academic excellence through collaborations between institutions of higher education and National Laboratories.

(b) Establishment

The Secretary shall establish a program to support the joint appointment of distinguished scientists by institutions of higher education and National Laboratories.

(c) Qualifications

To be eligible for appointment as a distinguished scientist under this section, an individual, by reason of professional background and experience, shall be able to bring international recognition to the appointing institution of higher education or National Laboratory in the field of scientific endeavor of the individual.

(d) Selection

A distinguished scientist appointed under this section shall be selected through an open, competitive process.

(e) Appointment

(1) Institution of higher education

An appointment by an institution of higher education under this section shall be filled within the tenure allotment of the institution of higher education, at a minimum rank of professor.

(2) National Laboratory

An appointment by a National Laboratory under this section shall be at the rank of the highest grade of distinguished scientist or technical staff of the National Laboratory.

(f) Duration

An appointment under this section shall—

(1) be for a term of 6 years; and

(2) consist of 2 3-year funding allotments.

(g) Use of funds

Funds made available under this section may be used for—

(1) the salary of the distinguished scientist and support staff;

(2) undergraduate, graduate, and post-doctoral appointments;
(3) research-related equipment;
(4) professional travel; and
(5) such other requirements as the Secretary determines to be necessary to carry out the purpose of the program.

(h) Review

(1) In general

The appointment of a distinguished scientist under this section shall be reviewed at the end of the first 3-year allotment for the distinguished scientist through an open peer-review process to determine whether the appointment is meeting the purpose of this section under subsection (a).

(2) Funding

Funding of the appointment of the distinguished scientist for the second 3-year allotment shall be determined based on the review conducted under paragraph (1).

(i) Cost sharing

To be eligible for assistance under this section, an appointing institution of higher education shall pay at least 50 percent of the total costs of the appointment.

(j) Authorization of appropriations

There are authorized to be appropriated to carry out this section—
(1) $15,000,000 for fiscal year 2008;
(2) $20,000,000 for fiscal year 2009;
(3) $30,000,000 for fiscal year 2010;
(4) $31,000,000 for fiscal year 2011;
(5) $32,000,000 for fiscal year 2012; and
(6) $33,000,000 for fiscal year 2013.

(Pub. L. 110–69, title V, §5011, Aug. 9, 2007, 121 Stat. 620; Pub. L. 111–358, title IX, §902(e), Jan. 4, 2011, 124 Stat. 4045.)

EDITORIAL NOTES

AMENDMENTS

2011—Subsec. (j)(4) to (6). Pub. L. 111–358 added pars. (4) to (6).

§16538. Advanced Research Projects Agency—Energy

(a) Definitions

In this section:

(1) ARPA-E

The term "ARPA–E" means the Advanced Research Projects Agency—Energy established by subsection (b).

(2) Director

The term "Director" means the Director of ARPA-E appointed under subsection (d).

(3) Fund

The term "Fund" means the Energy Transformation Acceleration Fund established under subsection (o)(1).

(b) Establishment

There is established the Advanced Research Projects Agency—Energy within the Department to overcome the long-term and high-risk technological barriers in the development of transformative

science and technology solutions to address the energy and environmental missions of the Department.

(c) Goals

(1) In general

The goals of ARPA-E shall be—

(A) to enhance the economic and energy security of the United States through the development of energy technologies that—

(i) reduce imports of energy from foreign sources;

(ii) reduce energy-related emissions, including greenhouse gases;

(iii) improve the energy efficiency of all economic sectors;

(iv) provide transformative solutions to improve the management, clean-up, and disposal of radioactive waste and spent nuclear fuel; and

(v) improve the resilience, reliability, and security of infrastructure to produce, deliver, and store energy; and

(B) to ensure that the United States maintains a technological lead in developing and deploying advanced energy technologies.

(2) Means

ARPA-E shall achieve the goals established under paragraph (1) through advanced technology projects by—

(A) identifying and promoting revolutionary advances in fundamental and applied sciences;

(B) translating scientific discoveries and cutting-edge inventions into technological innovations; and

(C) accelerating transformational technological advances in areas that industry by itself is not likely to undertake because of technical and financial uncertainty.

(d) Director

(1) Appointment

There shall be in the Department of Energy a Director of ARPA-E, who shall be appointed by the President, by and with the advice and consent of the Senate.

(2) Qualifications

The Director shall be an individual who, by reason of professional background and experience, is especially qualified to advise the Secretary on, and manage research programs addressing, matters pertaining to long-term and high-risk technological barriers to the development of energy technologies.

(3) Relationship to Secretary

The Director shall report to the Secretary.

(4) Relationship to other programs

No other programs within the Department shall report to the Director.

(e) Responsibilities

The responsibilities of the Director shall include—

(1) approving all new programs within ARPA-E;

(2) developing funding criteria and assessing the success of programs through the establishment of technical milestones;

(3) administering the Fund through awards to institutions of higher education, companies, research foundations, trade and industry research collaborations, or consortia of such entities, which may include federally-funded research and development centers, to achieve the goals described in subsection (c) through targeted acceleration of—

(A) novel early-stage research with possible technology applications;

(B) development of techniques, processes, and technologies, and related testing and evaluation;

(C) research and development of advanced manufacturing process and technologies for the domestic manufacturing of novel energy technologies; and

(D) coordination with nongovernmental entities for demonstration of technologies and research applications to facilitate technology transfer;

(4) terminating programs carried out under this section that are not achieving the goals of the programs; and

(5) pursuant to subsection (c)(2)(C)—

(A) ensuring that applications for funding disclose the extent of current and prior efforts, including monetary investments as appropriate, in pursuit of the technology area for which funding is being requested;

(B) adopting measures to ensure that, in making awards, program managers adhere to the purposes of subsection (c)(2)(C); and

(C) providing as part of the annual report required by subsection (h)(1) a summary of the instances of and reasons for ARPA–E funding projects in technology areas already being undertaken by industry.

(f) Awards

In carrying out this section, the Director may provide awards in the form of grants, contracts, cooperative agreements, cash prizes, and other transactions.

(g) Personnel

(1) In general

The Director shall establish and maintain within ARPA–E a staff with sufficient qualifications and expertise to enable ARPA–E to carry out the responsibilities of ARPA–E under this section in conjunction with other operations of the Department.

(2) Program directors

(A) In general

The Director shall designate employees to serve as program directors for the programs established pursuant to the responsibilities established for ARPA-E under subsection (e).

(B) Responsibilities

A program director of a program shall be responsible for—

(i) establishing research and development goals for the program, including through the convening of workshops and conferring with outside experts, and publicizing the goals of the program to the public and private sectors;

(ii) soliciting applications for specific areas of particular promise, especially areas that the private sector or the Federal Government are not likely to undertake alone;

(iii) building research collaborations for carrying out the program;

(iv) selecting on the basis of merit each of the projects to be supported under the program after considering—

(I) the novelty and scientific and technical merit of the proposed projects;

(II) the demonstrated capabilities of the applicants to successfully carry out the proposed project;

(III) the consideration by the applicant of future commercial applications of the project, including the feasibility of partnering with 1 or more commercial entities; and

(IV) such other criteria as are established by the Director;

(v) identifying innovative cost-sharing arrangements for ARPA–E projects, including through use of the authority provided under section 16352(b)(3) of this title;

(vi) monitoring the progress of projects supported under the program;

(vii) identifying mechanisms for commercial application of successful energy technology development projects, including through establishment of partnerships between awardees and commercial entities; and

(viii) recommending program restructure or termination of research partnerships or whole projects.

(C) Term

The term of a program manager shall be not more than 3 years and may be renewed.

(3) Hiring and management

(A) In general

The Director shall have the authority to—

(i) make appointments of scientific, engineering, and professional personnel without regard to the civil service laws;

(ii) fix the basic pay of such personnel at a rate to be determined by the Director at rates not in excess of Level II of the Executive Schedule (EX–II) without regard to the civil service laws; and

(iii) pay any employee appointed under this subparagraph payments in addition to basic pay, except that the total amount of additional payments paid to an employee under this subparagraph for any 12-month period shall not exceed the least of the following amounts:

(I) $25,000.

(II) The amount equal to 25 percent of the annual rate of basic pay of the employee.

(III) The amount of the limitation that is applicable for a calendar year under section 5307(a)(1) of title 5.

(B) Number

The Director shall appoint not more than 120 personnel under this section.

(C) Private recruiting firms

The Secretary, or the Director serving as an agent of the Secretary, may contract with private recruiting firms for the hiring of qualified technical staff to carry out this section.

(D) Additional staff

The Director may use all authorities in existence on August 9, 2007, that are provided to the Secretary to hire administrative, financial, and clerical staff as necessary to carry out this section.

(h) Reports and roadmaps

(1) Annual report

As part of the annual budget request submitted for each fiscal year, the Director shall provide to the relevant authorizing and appropriations committees of Congress a report that—

(A) describes projects supported by ARPA–E during the previous fiscal year;

(B) describes projects supported by ARPA–E during the previous fiscal year that examine topics and technologies closely related to other activities funded by the Department, and includes an analysis of whether in supporting such projects, the Director is in compliance with subsection (i)(1); and

(C) describes current, proposed, and planned projects to be carried out pursuant to subsection (e)(3)(D).

(2) Strategic vision roadmap

Not later than October 1, 2021, and every four years thereafter, the Director shall provide to the relevant authorizing and appropriations committees of Congress a roadmap describing the strategic vision that ARPA–E will use to guide the choices of ARPA–E for future technology investments over the following 4 fiscal years.

(i) Coordination and nonduplication

(1) In general

To the maximum extent practicable, the Director shall ensure that—

(A) the activities of ARPA–E are coordinated with, and do not duplicate the efforts of, programs and laboratories within the Department and other relevant research agencies; and

(B) ARPA–E does not provide funding for a project unless the prospective grantee demonstrates sufficient attempts to secure private financing or indicates that the project is not independently commercially viable.

(2) Technology Transfer Coordinator

To the extent appropriate, the Director may coordinate technology transfer efforts with the Technology Transfer Coordinator appointed under section 16391 of this title.

(j) Federal demonstration of technologies

The Director shall seek opportunities to partner with purchasing and procurement programs of Federal agencies to demonstrate energy technologies resulting from activities funded through ARPA–E.

(k) Advice

(1) Advisory committees

The Director may seek advice on any aspect of ARPA-E from—

(A) an existing Department of Energy advisory committee; and

(B) a new advisory committee organized to support the programs of ARPA-E and to provide advice and assistance on—

(i) specific program tasks; or

(ii) overall direction of ARPA-E.

(2) Additional sources of advice

In carrying out this section, the Director may seek advice and review from—

(A) the President's Committee of Advisors on Science and Technology; and

(B) any professional or scientific organization with expertise in specific processes or technologies under development by ARPA-E.

(l) ARPA-E evaluation

(1) In general

Not later than 3 years after December 27, 2020, the Secretary is authorized to enter into a contract with the National Academy of Sciences under which the National Academy shall conduct an evaluation of how well ARPA–E is achieving the goals and mission of ARPA–E.

(2) Inclusions

The evaluation may include—

(A) a recommendation on whether ARPA-E should be continued or terminated; and

(B) a description of lessons learned from operation of ARPA-E, and the manner in which those lessons may apply to the operation of other programs of the Department.

(3) Availability

On completion of the evaluation, the evaluation shall be made available to Congress and the public.

(m) Existing authorities

The authorities granted by this section are—

(1) in addition to existing authorities granted to the Secretary; and

(2) are not intended to supersede or modify any existing authorities.

(n) Protection of information

The following types of information collected by ARPA–E from recipients of financial assistance awards shall be considered commercial and financial information obtained from a person and

privileged or confidential and not subject to disclosure under section 552(b)(4) of title 5:

(1) Plans for commercialization of technologies developed under the award, including business plans, technology-to-market plans, market studies, and cost and performance models.

(2) Investments provided to an awardee from third parties (such as venture capital firms, hedge funds, and private equity firms), including amounts and the percentage of ownership of the awardee provided in return for the investments.

(3) Additional financial support that the awardee—

(A) plans to or has invested into the technology developed under the award; or

(B) is seeking from third parties.

(4) Revenue from the licensing or sale of new products or services resulting from research conducted under the award.

(o) Funding

(1) Fund

There is established in the Treasury of the United States a fund, to be known as the "Energy Transformation Acceleration Fund", which shall be administered by the Director for the purposes of carrying out this section.

(2) Authorization of appropriations

Subject to paragraph (4), there are authorized to be appropriated to the Director for deposit in the Fund, without fiscal year limitation—

(A) $435,000,000 for fiscal year 2021;

(B) $500,000,000 for fiscal year 2022;

(C) $575,000,000 for fiscal year 2023;

(D) $662,000,000 for fiscal year 2024; and

(E) $761,000,000 for fiscal year 2025.

(3) Separate budget and appropriation

(A) Budget request

The budget request for ARPA-E shall be separate from the rest of the budget of the Department.

(B) Appropriations

Appropriations to the Fund shall be separate and distinct from the rest of the budget for the Department.

(4) Allocation

Of the amounts appropriated for a fiscal year under paragraph (2)—

(A) not more than 50 percent of the amount shall be used to carry out subsection (e)(3)(D);

(B) at least 5 percent of the amount shall be used for technology transfer and outreach activities, consistent with the goal described in subsection (c)(2)(C) and within the responsibilities of program directors described in subsection (g)(2)(B)(vii); and

(C) no funds may be used for construction of new buildings or facilities during the 5-year period beginning on August 9, 2007.

(Pub. L. 110–69, title V, §5012, Aug. 9, 2007, 121 Stat. 621; Pub. L. 111–358, title IX, §904, Jan. 4, 2011, 124 Stat. 4045; Pub. L. 115–246, title II, §202, Sept. 28, 2018, 132 Stat. 3134; Pub. L. 116–260, div. Z, title X, §10001, Dec. 27, 2020, 134 Stat. 2609.)

EDITORIAL NOTES

REFERENCES IN TEXT

Level II of the Executive Schedule, referred to in subsec. (g)(3)(A)(ii), is set out in section 5313 of Title 5, Government Organization and Employees.

AMENDMENTS

2020—Subsec. (b). Pub. L. 116–260, §10001(a), substituted "development of transformative science and technology solutions to address the energy and environmental missions of the Department" for "development of energy technologies".

Subsec. (c)(1)(A). Pub. L. 116–260, §10001(b)(1), added subpar. (A) and struck out former subpar. (A) which read as follows: "to enhance the economic and energy security of the United States through the development of energy technologies that result in—

"(i) reductions of imports of energy from foreign sources;

"(ii) reductions of energy-related emissions, including greenhouse gases; and

"(iii) improvement in the energy efficiency of all economic sectors; and".

Subsec. (c)(2). Pub. L. 116–260, §10001(b)(2), substituted "advanced technology projects" for "energy technology projects" in introductory provisions.

Subsec. (e)(3)(A). Pub. L. 116–260, §10001(c), struck out "energy" before "research".

Subsec. (g)(3)(A)(iii). Pub. L. 116–260, §10001(h)(1), substituted "subparagraph" for "subpart" in two places in introductory provisions.

Subsec. (h). Pub. L. 116–260, §10001(d), amended subsec. (h) generally. Prior to amendment, text read as follows:

"(1) ANNUAL REPORT.—As part of the annual budget request submitted for each fiscal year, the Director shall provide to the relevant authorizing and appropriations committees of Congress a report describing projects supported by ARPA-E during the previous fiscal year.

"(2) STRATEGIC VISION ROADMAP.—Not later than October 1, 2010, and October 1, 2013, the Director shall provide to the relevant authorizing and appropriations committees of Congress a roadmap describing the strategic vision that ARPA-E will use to guide the choices of ARPA-E for future technology investments over the following 3 fiscal years."

Subsec. (i)(1). Pub. L. 116–260, §10001(e), amended par. (1) generally. Prior to amendment, par. (1) read as follows: "To the maximum extent practicable, the Director shall ensure that the activities of ARPA-E are coordinated with, and do not duplicate the efforts of, programs and laboratories within the Department and other relevant research agencies."

Subsec. (l)(1). Pub. L. 116–260, §10001(f)(1), added par. (1) and struck out former par. (1). Prior to amendment, text read as follows: "After ARPA-E has been in operation for 6 years, the Secretary shall offer to enter into a contract with the National Academy of Sciences under which the National Academy shall conduct an evaluation of how well ARPA-E is achieving the goals and mission of ARPA-E."

Subsec. (l)(2). Pub. L. 116–260, §10001(f)(2)(A), substituted "may" for "shall" in introductory provisions.

Subsec. (l)(2)(A). Pub. L. 116–260, §10001(f)(2)(B), substituted "a recommendation" for "the recommendation of the National Academy of Sciences".

Subsec. (o)(2). Pub. L. 116–260, §10001(g), amended par. (2) generally. Prior to amendment, par. (2) authorized appropriations for fiscal years 2008 to 2013.

Subsec. (o)(4)(B). Pub. L. 116–260, §10001(h)(2), substituted "(c)(2)(C)" for "(c)(2)(D)".

2018—Subsec. (a)(3). Pub. L. 115–246, §202(1), substituted "subsection (o)(1)" for "subsection (n)(1)".

Subsecs. (n), (o). Pub. L. 115–246, §202(2), (3), added subsec. (n) and redesignated former subsec. (n) as (o).

2011—Subsec. (a)(3). Pub. L. 111–358, §904(1), substituted "subsection (n)(1)" for "subsection (m)(1)".

Subsec. (c)(2)(A). Pub. L. 111–358, §904(2), inserted "and applied" after "advances in fundamental".

Subsec. (e)(3)(C). Pub. L. 111–358, §904(3)(A)(i), added subpar. (C) and struck out former subpar. (C) which read as follows: "research and development of manufacturing processes for novel energy technologies; and".

Subsec. (e)(5). Pub. L. 111–358, §904(3)(A)(ii)–(C), added par. (5).

Subsec. (f). Pub. L. 111–358, §904(5), added subsec. (f). Former subsec. (f) redesignated (g).

Subsec. (g). Pub. L. 111–358, §904(4), redesignated subsec. (f) as (g). Former subsec. (g) redesignated (h).

Subsec. (g)(1). Pub. L. 111–358, §904(6)(B), added par. (1). Former par. (1) redesignated (2).

Subsec. (g)(2). Pub. L. 111–358, §904(6)(A),(C)(i), redesignated par. (1) as (2) and substituted "Program directors" for "Program managers" in heading.

Subsec. (g)(2)(A). Pub. L. 111–358, §904(6)(C)(ii), substituted "program directors for" for "program managers for each of".

Subsec. (g)(2)(B). Pub. L. 111–358, §904(6)(C)(iii)(I), substituted "program director" for "program manager" in introductory provisions.

Subsec. (g)(2)(B)(iv). Pub. L. 111–358, §904(6)(C)(iii)(II), struck out ", with advice under subsection (j) as appropriate," after "basis of merit" in introductory provisions.

Subsec. (g)(2)(B)(v) to (viii). Pub. L. 111–358, §904(6)(C)(iii)(III)–(VI), added cls. (v) and (vii) and redesignated former cls. (v) and (vi) as (vi) and (viii), respectively.

Subsec. (g)(2)(C). Pub. L. 111–358, §904(6)(C)(iv), inserted "not more than" after "shall be".

Subsec. (g)(3). Pub. L. 111–358, §904(6)(A), redesignated par. (2) as (3).

Subsec. (g)(3)(A)(ii), (iii). Pub. L. 111–358, §904(6)(D)(i), added cls. (ii) and (iii) and struck out former cl. (ii) which read as follows: "fix the compensation of such personnel at a rate to be determined by the Director."

Subsec. (g)(3)(B). Pub. L. 111–358, §904(6)(D)(ii), substituted "not more than 120" for "not less than 70, and not more than 120,".

Subsec. (h). Pub. L. 111–358, §904(4), redesignated subsec. (g) as (h). Former subsec. (h) redesignated (i).

Subsec. (h)(2). Pub. L. 111–358, §904(7), substituted "2010" for "2008" and "2013" for "2011".

Subsec. (i). Pub. L. 111–358, §904(4), redesignated subsec. (h) as (i). Former subsec. (i) redesignated (j).

Subsec. (j). Pub. L. 111–358, §904(8), added subsec. (j) and struck out former subsec. (j). Prior to amendment, text read as follows: "The Secretary shall make information available to purchasing and procurement programs of Federal agencies regarding the potential to demonstrate technologies resulting from activities funded through ARPA-E."

Pub. L. 111–358, §904(4), redesignated subsec. (i) as (j). Former subsec. (j) redesignated (k).

Subsecs. (k), (l). Pub. L. 111–358, §904(4), redesignated subsecs. (j) and (k) as (k) and (l), respectively. Former subsec. (l) redesignated (m).

Subsec. (l)(1). Pub. L. 111–358, §904(9)(A), substituted "6 years" for "4 years".

Subsec. (l)(2)(B). Pub. L. 111–358, §904(9)(B), inserted ", and the manner in which those lessons may apply to the operation of other programs of the Department" after "ARPA-E".

Subsecs. (m), (n). Pub. L. 111–358, §904(4), redesignated subsecs. (l) and (m) as (m) and (n), respectively.

Subsec. (n)(2)(C) to (E). Pub. L. 111–358, §904(10)(A), added subpars. (C) to (E).

Subsec. (n)(4). Pub. L. 111–358, §904(10)(B), (C), redesignated par. (5) as (4) and struck out former par. (4). Prior to amendment, text read as follows: "No amounts may be appropriated for ARPA-E for fiscal year 2008 unless the amount appropriated for the activities of the Office of Science of the Department for fiscal year 2008 exceeds the amount appropriated for the Office for fiscal year 2007, as adjusted for inflation in accordance with the Consumer Price Index published by the Bureau of Labor Statistics of the Department of Labor."

Subsec. (n)(4)(B). Pub. L. 111–358, §904(10)(D), substituted "5 percent" for "2.5 percent" and inserted ", consistent with the goal described in subsection (c)(2)(D) and within the responsibilities of program directors described in subsection (g)(2)(B)(vii)" after "outreach activities".

Subsec. (n)(5). Pub. L. 111–358, §904(10)(C), redesignated par. (5) as (4).

§16539. National Laboratory Jobs ACCESS Program

(a) In general

On or after the date that is 180 days after December 20, 2019, the Secretary may establish a program, to be known as the "Department of Energy National Lab Jobs ACCESS Program", under which the Secretary may award, on a competitive basis, 5-year grants to eligible entities described in subsection (c) for the Federal share of the costs of pre-apprenticeship programs and apprenticeship programs described in subsection (b).

(b) Pre-apprenticeship and apprenticeship programs described

A pre-apprenticeship program or apprenticeship program described in this subsection is a pre-apprenticeship program or apprenticeship program that—

(1) leads to recognized postsecondary credentials for secondary school and postsecondary students;

(2) is focused on skills and qualifications needed, as determined by the Secretary in consultation with the directors of the National Laboratories, to meet the immediate and ongoing needs of traditional and emerging technician positions (including machinists and cybersecurity technicians) at the National Laboratories and covered facilities of the National Nuclear Security Administration;

(3) is established in consultation with a National Laboratory or covered facility of the National Nuclear Security Administration;

(4) is registered with and approved by the Secretary of Labor or a State apprenticeship agency;

and

(5) ensures that participants in the pre-apprenticeship program or apprenticeship program do not displace paid employees.

(c) Eligible entities described

An eligible entity described in this subsection is a workforce intermediary or an eligible sponsor of a pre-apprenticeship program or apprenticeship program that—

(1) demonstrates experience in implementing and providing career planning and career pathways toward pre-apprenticeship programs or apprenticeship programs;

(2)(A) has a relationship with a National Laboratory or covered facility of the National Nuclear Security Administration;

(B) has knowledge of the technician workforce needs of the laboratory or facility and the associated security requirements of the laboratory or facility; and

(C) is eligible to enter into an agreement with the laboratory or facility that would be paid for in part or entirely from grant funds received under this section;

(3) demonstrates the ability to recruit and support individuals who plan to work in relevant technician positions upon the successful completion of the pre-apprenticeship program or apprenticeship program;

(4) provides students who complete the pre-apprenticeship program or apprenticeship program with, or prepares such students for obtaining, a recognized postsecondary credential;

(5) uses related instruction that is specifically aligned with the needs of the laboratory or facility and utilizes workplace learning advisors and on-the-job training to the greatest extent possible; and

(6) demonstrates successful outcomes connecting graduates of the pre-apprenticeship program or apprenticeship program to careers relevant to the program.

(d) Applications

If the Secretary establishes the program described in subsection (a), an eligible entity described in subsection (c) seeking a grant under the program shall submit to the Secretary an application at such time, in such manner, and containing such information as the Secretary may require.

(e) Priority

In selecting eligible entities described in subsection (c) to receive grants under this section, the Secretary may prioritize an eligible entity that—

(1) is a member of an industry or sector partnership;

(2) provides related instruction for a pre-apprenticeship program or apprenticeship program through—

(A) a local educational agency, a secondary school, a provider of adult education, an area career and technical education school, or an institution of higher education (such as a community college) that includes basic science, technology, and mathematics education in the related instruction; or

(B) an apprenticeship program that was registered with the Department of Labor or a State apprenticeship agency before the date on which the eligible entity applies for the grant under subsection (d);

(3) works with the Secretary of Defense, the Secretary of Veterans Affairs, or veterans organizations to transition members of the Armed Forces and veterans to pre-apprenticeship programs or apprenticeship programs in a relevant sector;

(4) plans to use the grant to carry out the pre-apprenticeship program or apprenticeship program with an entity that receives State funding or is operated by a State agency; and

(5) plans to use the grant to carry out the pre-apprenticeship program or apprenticeship program for—

(A) young adults ages 16 to 29, inclusive; or

(B) individuals with barriers to employment.

(f) Additional consideration

In making grants under this section, the Secretary may consider regional diversity.

(g) Limitation on applications

An eligible entity described in subsection (c) may not submit, either individually or as part of a joint application, more than one application for a grant under this section during any one fiscal year.

(h) Limitations on amount of grant

The amount of a grant provided under this section may not, for any 24-month period of the 5-year grant period, exceed $500,000.

(i) Non-Federal share

The non-Federal share of the cost of a pre-apprenticeship program or apprenticeship program carried out using a grant under this section shall be not less than 25 percent of the total cost of the program.

(j) Technical assistance

The Secretary may provide technical assistance to eligible entities described in subsection (c) to leverage the existing job training and education programs of the Department of Labor and other relevant programs at appropriate Federal agencies.

(k) Report

(1) In general

If the Secretary establishes the program described in subsection (a), not less than once every 2 years thereafter, the Secretary shall submit to Congress, and make publicly available on the website of the Department of Energy, a report on the program, including—

(A) a description of—

(i) any entity that receives a grant under this section;

(ii) any activity carried out using a grant under this section; and

(iii) best practices used to leverage the investment of the Federal Government under this section; and

(B) an assessment of the results achieved by the program, including the rate of employment for participants after completing a pre-apprenticeship program or apprenticeship program carried out using a grant under this section.

(2) Performance reports

Not later than one year after the establishment of a pre-apprenticeship program or apprenticeship program using a grant awarded under this section, and annually thereafter, the entity carrying out the program shall submit to the Secretary and the Secretary of Labor a report on the effectiveness of the program based on the accountability measures described in clauses (i) and (ii) of section 3141(b)(2)(A) of title 29.

(l) Definitions

In this section:

(1) ESEA terms

The terms "local educational agency" and "secondary school" have the meanings given the terms in section 7801 of title 20.

(2) WIOA terms

The terms "career planning", "community-based organization", "customized training", "economic development agency", "individual with a barrier to employment", "industry or sector partnership", "on-the-job training", "recognized postsecondary credential", and "workplace learning advisor" have the meanings given such terms in section 3102 of title 29.

(3) Apprenticeship program

The term "apprenticeship program" means a program registered under the Act of August 16, 1937 (commonly known as the "National Apprenticeship Act"; 50 Stat. 664, chapter 663; 29 U.S.C. 50 et seq.).

(4) Area career and technical education school

The term "area career and technical education school" has the meaning given the term in section 2302 of title 20.

(5) Community college

The term "community college" has the meaning given the term "junior or community college" in section 1058(f) of title 20.

(6) Covered facility of the national nuclear security administration

The term "covered facility of the National Nuclear Security Administration" means a national security laboratory or a nuclear weapons production facility as such terms are defined in section 2501 of title 50.

(7) Eligible sponsor

The term "eligible sponsor" means a public organization or nonprofit organization that—

(A) with respect to an apprenticeship program, administers the program through a partnership that may include—

(i) an industry or sector partnership;

(ii) an employer or industry association;

(iii) a labor-management organization;

(iv) a local workforce development board or State workforce development board;

(v) a 2- or 4-year institution of higher education that offers an educational program leading to an associate's or bachelor's degree in conjunction with a certificate of completion of apprenticeship;

(vi) the Armed Forces (including the National Guard and Reserves);

(vii) a community-based organization; or

(viii) an economic development agency; and

(B) with respect to a pre-apprenticeship program, is a local educational agency, a secondary school, an area career and technical education school, a provider of adult education, a State workforce development board, a local workforce development board, or a community-based organization, that administers the program with any required coordination and necessary approvals from the Secretary of Labor or a State department of labor.

(8) Institution of higher education

The term "institution of higher education" has the meaning given the term in section 1001 of title 20.

(9) Local workforce development board

The term "local workforce development board" has the meaning given the term "local board" in section 3102 of title 29.

(10) National Laboratory

The term "National Laboratory" has the meaning given the term in section 15801 of this title.

(11) Nonprofit organization

The term "nonprofit organization" means an organization that is described in section 501(c) of title 26 and exempt from tax under section 501(a) of such title.

(12) Pre-apprenticeship program

The term "pre-apprenticeship program" means a program—

(A) designed to prepare individuals to enter and succeed in an apprenticeship program; and

(B) that has a documented partnership with at least one, if not more, apprenticeship programs.

(13) Provider of adult education

The term "provider of adult education" has the meaning given the term "eligible provider" in section 3272 of title 29.

(14) Related instruction

The term "related instruction" means an organized and systematic form of instruction designed to provide an individual in a pre-apprenticeship program or apprenticeship program with the knowledge of the technical subjects related to the intended occupation of the individual after completion of the program.

(15) Secretary

The term "Secretary" means the Secretary of Energy, in consultation with the Secretary of Labor, except as otherwise specified in this section.

(16) Sponsor

The term "sponsor" means any person, association, committee, or organization operating a pre-apprenticeship program or apprenticeship program and in whose name the program is (or is to be) registered or approved.

(17) State apprenticeship agency

The term "State apprenticeship agency" has the meaning given that term in section 29.2 of title 29, Code of Federal Regulations (or any corresponding similar regulation or ruling).

(18) State workforce development board

The term "State workforce development board" has the meaning given the term "State board" in section 3102 of title 29.

(19) Workforce intermediary

The term "workforce intermediary"—

(A) means a nonprofit organization that—

(i) proactively addresses workforce needs using a dual customer approach, which considers the needs of both employees and employers; and

(ii) has partnered with a sponsor of a pre-apprenticeship program or apprenticeship program or is a sponsor of a pre-apprenticeship program or apprenticeship program; and

(B) may include a community organization, an employer organization, a community college, a temporary staffing agency, a State workforce development board, a local workforce development board, or a labor or labor-management organization.

(Pub. L. 116–92, div. C, title XXXI, §3122, Dec. 20, 2019, 133 Stat. 1953.)

EDITORIAL NOTES

CODIFICATION

Section was enacted as part of the National Defense Authorization Act for Fiscal Year 2020, and not as part of the America COMPETES Act, which comprises this subchapter.

CHAPTER 150—NATIONAL AERONAUTICS AND SPACE PROGRAMS, 2005

§16601. Transferred

EDITORIAL NOTES

CODIFICATION

Section, Pub. L. 109–155, §2, Dec. 30, 2005, 119 Stat. 2897, which related to definitions, was transferred and is set out as a note under section 10101 of Title 51, National and Commercial Space Programs.

SUBCHAPTER I—GENERAL PRINCIPLES AND REPORTS

§§16611, 16611a. Repealed or Omitted

EDITORIAL NOTES

CODIFICATION

Section 16611, Pub. L. 109–155, title I, §101, Dec. 30, 2005, 119 Stat. 2897, which related to responsibilities, policies, and plans, was repealed in part and omitted in part. Subsecs. (a) and (b) were repealed and reenacted as sections 20301 and 20302, respectively, of Title 51, National and Commercial Space Programs, by Pub. L. 111–314, §§3, 6, Dec. 18, 2010, 124 Stat. 3328, 3444, which Act enacted Title 51. Subsecs. (c) to (g), requiring certain reports and studies by past dates, were omitted from the Code following the enactment of Title 51. Subsec. (h)(1) was repealed and reenacted as subsec. (a) of section 30103 of Title 51. Subsec. (h)(2), providing sense of Congress regarding budget evaluation, was omitted from the Code following the enactment of Title 51. Subsec. (i) was repealed and reenacted as subsec. (b) of section 30103 of Title 51. Subsec. (j), providing for independent review of strategic need for aeronautics test facilities, was omitted from the Code following the enactment of Title 51.

Section 16611a, Pub. L. 110–69, title II, §2001, Aug. 9, 2007, 121 Stat. 582, which related to NASA's contribution to innovation, was repealed in part and omitted in part. Subsecs. (a), (b), (c), and (e) were repealed and reenacted as subsecs. (a), (b), (c), and (d), respectively, of section 20303 of Title 51 by Pub. L. 111–314, §§3, 6, Dec. 18, 2010, 124 Stat. 3328, 3444, which Act enacted Title 51. Subsec. (d), which provided sense of Congress regarding NASA funding, and subsec. (f), requiring report by Administrator regarding assessments of educational program effectiveness not later than one year after Aug. 9, 2007, were omitted from the Code following the enactment of Title 51.

§16611b. Repealed. Pub. L. 111–314, §6, Dec. 18, 2010, 124 Stat. 3444

Section, Pub. L. 110–161, div. B, title III, Dec. 26, 2007, 121 Stat. 1919, related to NASA annual budget justification. See subsec. (c) of section 30103 of Title 51, National and Commercial Space Programs.

STATUTORY NOTES AND RELATED SUBSIDIARIES

ESTIMATES OF RECEIPTS AND COLLECTIONS AND PROPOSED USE OF FUNDS FROM LEASES OF NON-EXCESS PROPERTY

Pub. L. 111–8, div. B, title III, Mar. 11, 2009, 123 Stat. 589, which provided in part that each annual budget request shall include an annual estimate of gross receipts and collections and proposed use of all funds collected pursuant to section 315 of the National Aeronautics and Space Act of 1958 ([former] 42 U.S.C. 2459j), was repealed and reenacted as subsec. (d) of section 30103 of Title 51, National and Commercial Space Programs, by Pub. L. 111–314, §§3, 6, Dec. 18, 2010, 124 Stat. 3328, 3444, which Act enacted Title 51.

§16612. Transferred

EDITORIAL NOTES

CODIFICATION

Section, Pub. L. 109–155, title I, §102, Dec. 30, 2005, 119 Stat. 2905, which related to national awareness campaign to encourage young Americans to enter the fields of science, mathematics, and engineering, budget information, space communications plan, Joint Dark Energy Mission, and Office of Science and Technology Policy, and related reports, was transferred and is set out as a note preceding section 40901 of Title 51, National and Commercial Space Programs.

EDITORIAL NOTES

CODIFICATION

Section 16616, Pub. L. 109–155, title I, §108, Dec. 30, 2005, 119 Stat. 2913, which related to commercialization plan for missions to the Moon and Mars, and required plan submission to Congress not later than 180 days after Dec. 30, 2005, was omitted from the Code following the enactment of Title 51, National and Commercial Space Programs, by Pub. L. 111–314.

Section 16617, Pub. L. 109–155, title I, §109, Dec. 30, 2005, 119 Stat. 2913, which related to study on the feasibility of use of ground source heat pumps and required study transmission to Congress not later than one year after Dec. 30, 2005, was omitted from the Code following the enactment of Title 51.

§16618. Repealed. Pub. L. 111–314, §6, Dec. 18, 2010, 124 Stat. 3444

Section, Pub. L. 109–155, title I, §110, Dec. 30, 2005, 119 Stat. 2914, related to whistleblower protection. See section 30502 of Title 51, National and Commercial Space Programs.

SUBCHAPTER II—AUTHORIZATION OF APPROPRIATIONS

§§16631 to 16634. Repealed. Pub. L. 111–314, §6, Dec. 18, 2010, 124 Stat. 3444

Section 16631, Pub. L. 109–155, title II, §202, Dec. 30, 2005, 119 Stat. 2915, related to appropriations for fiscal year 2007.

Section 16632, Pub. L. 109–155, title II, §203, Dec. 30, 2005, 119 Stat. 2915, related to appropriations for fiscal year 2008.

Section 16633, Pub. L. 109–155, title II, §204, Dec. 30, 2005, 119 Stat. 2916, related to ISS research. See section 70902 of Title 51, National and Commercial Space Programs.

Section 16634, Pub. L. 109–155, title II, §205, Dec. 30, 2005, 119 Stat. 2916, related to charges and funding account for test facilities. See section 50505 of Title 51.

§§16635, 16636. Omitted

Section 16635, Pub. L. 109–155, title II, §206, Dec. 30, 2005, 119 Stat. 2916, which related to limitation on use of appropriated funds for official representation, was omitted from the Code following the enactment of Title 51, National and Commercial Space Programs, by Pub. L. 111–314.

Section 16636, Pub. L. 109–155, title II, §207, Dec. 30, 2005, 119 Stat. 2916, which required Administrator to report ISS development costs and related matters to Congress and provided for repeal of section 202 of Pub. L. 106–391 thirty days after transmission of report, was omitted from the Code following the enactment of Title 51.

SUBCHAPTER III—SCIENCE

PART A—GENERAL PROVISIONS

§16651. Repealed. Pub. L. 111–314, §6, Dec. 18, 2010, 124 Stat. 3444

Section, Pub. L. 109–155, title III, §301, Dec. 30, 2005, 119 Stat. 2916, related to performance assessments. See section 30503 of Title 51, National and Commercial Space Programs.

§§16652, 16653. Omitted

EDITORIAL NOTES

Section 16652, Pub. L. 109–155, title III, §302, Dec. 30, 2005, 119 Stat. 2917, which related to status of Hubble Space Telescope servicing mission and required Administrator's report to Congress not later than 60 days after second Space Shuttle mission, was omitted from the Code following the enactment of Title 51, National and Commercial Space Programs, by Pub. L. 111–314.

Section 16653, Pub. L. 109–155, title III, §303, Dec. 30, 2005, 119 Stat. 2917, which required independent assessment of Landsat-NPOESS integrated mission to be transmitted to Congress not later than 180 days after Dec. 30, 2005, was omitted from the Code following the enactment of Title 51.

§§16654, 16655. Repealed or Omitted

EDITORIAL NOTES

CODIFICATION

Section 16654, Pub. L. 109–155, title III, §304, Dec. 30, 2005, 119 Stat. 2918; Pub. L. 111–314, §4(e), Dec. 18, 2010, 124 Stat. 3443, which related to assessment of science mission extensions, was repealed in part and omitted in part. Introductory provisions of subsec. (a) were repealed and reenacted as subsec. (a) of section 30504 of Title 51, National and Commercial Space Programs, by Pub. L. 111–314, §§3, 6, Dec. 18, 2010, 124 Stat. 3328, 3444, which Act enacted Title 51. Subsec. (a)(1), requiring Administrator to carry out assessment for certain missions not later than 60 days after Dec. 30, 2005, was amended and redesignated subsec. (a) by Pub. L. 111–314, §4(e)(1), Dec. 18, 2010, 124 Stat. 3443, and was omitted from the Code following the enactment of Title 51. Subsec. (a)(2) was repealed and reeenacted as subsec. (b) of section 30504 of Title 51. Subsec. (b), requiring Administrator to submit report on assessment to congressional committees not later than 30 days after completion of assessment, was amended by Pub. L. 111–314, §4(e)(2), Dec. 18, 2010, 124 Stat. 3443, and was omitted from the Code following the enactment of Title 51.

Section 16655, Pub. L. 109–155, title III, §305, Dec. 30, 2005, 119 Stat. 2918, which related to microgravity research, was repealed in part and omitted in part. Par. (1), which required Administrator to submit report to congressional committees not later than 90 days after Dec. 30, 2005, as required by former

section 16766 of this title, was omitted from the Code following the enactment of Title 51. Pars. (2) and (3) were repealed and reenacted as section 40904 of Title 51 by Pub. L. 111–314, §§3, 6, Dec. 18, 2010, 124 Stat. 3328, 3444, which Act enacted Title 51.

§16656. Repealed. Pub. L. 111–314, §6, Dec. 18, 2010, 124 Stat. 3444

Section, Pub. L. 109–155, title III, §306, Dec. 30, 2005, 119 Stat. 2919, related to coordination with National Oceanic and Atmospheric Administration. See section 60505 of Title 51, National and Commercial Space Programs.

§16657. Omitted

EDITORIAL NOTES

CODIFICATION

Section, Pub. L. 109–155, title III, §307, Dec. 30, 2005, 119 Stat. 2919; Pub. L. 110–234, title VII, §7511(c)(40), May 22, 2008, 122 Stat. 1271; Pub. L. 110–246, §4(a), title VII, §7511(c)(40), June 18, 2008, 122 Stat. 1664, 2032, which related to Administrator's review of Headquarters Earth-Sun System Applied Sciences Program research and development implemented in calendar years 2001 to 2005, and required report to be submitted to congressional committees not later than one year after Dec. 30, 2005, was omitted from the Code following the enactment of Title 51, National and Commercial Space Programs, by Pub. L. 111–314.

§16658. Repealed. Pub. L. 111–314, §6, Dec. 18, 2010, 124 Stat. 3444

Section, Pub. L. 110–69, title II, §2003, Aug. 9, 2007, 121 Stat. 583, related to basic research enhancement. See section 20304 of Title 51, National and Commercial Space Programs.

PART B—REMOTE SENSING

§§16671 to 16676. Repealed. Pub. L. 111–314, §6, Dec. 18, 2010, 124 Stat. 3444

Section 16671, Pub. L. 109–155, title III, §311, Dec. 30, 2005, 119 Stat. 2920, related to definitions. See section 60301 of Title 51, National and Commercial Space Programs.

Section 16672, Pub. L. 109–155, title III, §312, Dec. 30, 2005, 119 Stat. 2920, related to Administrator's general responsibilities. See section 60302 of Title 51.

Section 16673, Pub. L. 109–155, title III, §313, Dec. 30, 2005, 119 Stat. 2921, related to pilot projects to encourage public sector applications. See section 60303 of Title 51.

Section 16674, Pub. L. 109–155, title III, §314, Dec. 30, 2005, 119 Stat. 2921, related to program evaluation. See section 60304 of Title 51.

Section 16675, Pub. L. 109–155, title III, §315, Dec. 30, 2005, 119 Stat. 2922, related to pilot projects data availability. See section 60305 of Title 51.

Section 16676, Pub. L. 109–155, title III, §316, Dec. 30, 2005, 119 Stat. 2922, related to educational outreach program. See section 60306 of Title 51.

PART C—GEORGE E. BROWN, JR. NEAR-EARTH OBJECT SURVEY

§16691. Transferred

EDITORIAL NOTES

CODIFICATION

Section, Pub. L. 109–155, title III, §321, Dec. 30, 2005, 119 Stat. 2922, which related to the George E. Brown, Jr. Near-Earth Object Survey, was transferred and is set out as a note preceding section 71101 of Title 51, National and Commercial Space Programs.

SUBCHAPTER IV—AERONAUTICS

§16701. Repealed. Pub. L. 111–314, §6, Dec. 18, 2010, 124 Stat. 3444

Section, Pub. L. 109–155, title IV, §401, Dec. 30, 2005, 119 Stat. 2923, defined "institution of higher education". See section 40101 of Title 51, National and Commercial Space Programs.

PART A—GOVERNMENTAL INTEREST IN AERONAUTICS RESEARCH AND DEVELOPMENT

§16711. Repealed. Pub. L. 111–314, §6, Dec. 18, 2010, 124 Stat. 3444

Section, Pub. L. 109–155, title IV, §411, Dec. 30, 2005, 119 Stat. 2923, related to governmental interest in aeronautics research. See section 40102 of Title 51, National and Commercial Space Programs.

§16712. Repealed or Omitted

EDITORIAL NOTES

CODIFICATION

Section, Pub. L. 110–69, title II, §2002, Aug. 9, 2007, 121 Stat. 583, which related to aeronautics research and development program, was repealed in part and omitted in part. Subsec. (b) was repealed and reenacted as section 40103 of Title 51, National and Commercial Space Programs, by Pub. L. 111–314, §§3, 6, Dec. 18, 2010, 124 Stat. 3328, 3444, which Act enacted Title 51. Subsec. (a), which provided a sense of Congress, was omitted from the Code following the enactment of Title 51.

PART B—HIGH PRIORITY AERONAUTICS RESEARCH AND DEVELOPMENT PROGRAMS

§§16721 to 16727. Repealed. Pub. L. 111–314, §6, Dec. 18, 2010, 124 Stat. 3444

Section 16721, Pub. L. 109–155, title IV, §421, Dec. 30, 2005, 119 Stat. 2924, related to long-term fundamental research program in aeronautics. Subsecs. (a) and (b) were reenacted as section 40111 of Title 51, National and Commercial Space Programs.

Section 16722, Pub. L. 109–155, title IV, §422, Dec. 30, 2005, 119 Stat. 2924, related to research and technology programs for environmental aircraft, supersonic transport, rotorcraft and other runway-independent air vehicles, hypersonics, revolutionary aeronautical concepts, fuel cell-powered aircraft,

and Mars aircraft. See sections 40112 and 40701 of Title 51.

Section 16723, Pub. L. 109–155, title IV, §423, Dec. 30, 2005, 119 Stat. 2925, related to Airspace Systems Research program. See section 40113 of Title 51.

Section 16724, Pub. L. 109–155, title IV, §424, Dec. 30, 2005, 119 Stat. 2926, related to Aviation Safety and Security Research program. See section 40114 of Title 51.

Section 16725, Pub. L. 109–155, title IV, §425, Dec. 30, 2005, 119 Stat. 2926, related to aviation weather research. See section 40115 of Title 51.

Section 16726, Pub. L. 109–155, title IV, §426, Dec. 30, 2005, 119 Stat. 2926, related to assessment of wake turbulence research and development program and required report to Congress no later than two years after Dec. 30, 2005.

Section 16727, Pub. L. 109–155, title IV, §427, Dec. 30, 2005, 119 Stat. 2926; Pub. L. 110–422, title III, §308, Oct. 15, 2008, 122 Stat. 4788, related to university-based Centers for Research on Aviation Training. See section 40116 of Title 51.

PART C—SCHOLARSHIPS

§16741. Repealed. Pub. L. 111–314, §6, Dec. 18, 2010, 124 Stat. 3444

Section, Pub. L. 109–155, title IV, §431, Dec. 30, 2005, 119 Stat. 2927, related to NASA aeronautics scholarships. See section 40131 of Title 51, National and Commercial Space Programs.

PART D—DATA REQUESTS

§16751. Repealed. Pub. L. 111–314, §6, Dec. 18, 2010, 124 Stat. 3444

Section, Pub. L. 109–155, title IV, §441, Dec. 30, 2005, 119 Stat. 2927, related to aviation data requests. See section 40141 of Title 51, National and Commercial Space Programs.

SUBCHAPTER V—HUMAN SPACE FLIGHT

§16761. Repealed or Omitted

EDITORIAL NOTES

CODIFICATION

Section, Pub. L. 109–155, title V, §501, Dec. 30, 2005, 119 Stat. 2927; Pub. L. 110–422, title VI, §611(a), Oct. 15, 2008, 122 Stat. 4796, which related to Space Shuttle follow-on, was repealed in part and omitted in part. Subsecs. (a) and (b) were repealed and reenacted as section 70501 of Title 51, National and Commercial Space Programs, by Pub. L. 111–314, §§3, 6, Dec. 18, 2010, 124 Stat. 3328, 3444, which Act enacted Title 51. Subsec. (c), requiring Administrator's report to congressional committees on lack of human space flight system to replace the Space Shuttle not later than 90 days after Oct. 15, 2008, was omitted from the Code following the enactment of Title 51.

§16762. Transferred

EDITORIAL NOTES

CODIFICATION

Section, Pub. L. 109–155, title V, §502, Dec. 30, 2005, 119 Stat. 2928, which related to transition from Space Shuttle program to Crew Exploration Vehicle, Crew Launch Vehicle, and heavy-lift launch vehicle, was transferred and is set out as a note under section 70501 of Title 51, National and Commercial Space Programs.

§§16763 to 16765. Repealed. Pub. L. 111–314, §6, Dec. 18, 2010, 124 Stat. 3444

Section 16763, Pub. L. 109–155, title V, §503, Dec. 30, 2005, 119 Stat. 2929, related to requirements for exploration programs. See section 70502 of Title 51, National and Commercial Space Programs.

Section 16764, Pub. L. 109–155, title V, §504, Dec. 30, 2005, 119 Stat. 2929, related to ground-based analog capabilities. See section 70503 of Title 51.

Section 16765, Pub. L. 109–155, title V, §505, Dec. 30, 2005, 119 Stat. 2929, related to International Space Station completion. See section 70904 of Title 51.

§§16766, 16767. Repealed or Omitted

EDITORIAL NOTES

CODIFICATION

Section 16766, Pub. L. 109–155, title V, §506, Dec. 30, 2005, 119 Stat. 2930, which related to International Space Station research, was repealed in part and omitted in part. Pars. (1) and (2) were repealed and reenacted as section 70903 of Title 51, National and Commercial Space Programs, by Pub. L. 111–314, §§3, 6, Dec. 18, 2010, 124 Stat. 3328, 3444, which Act enacted Title 51. Par. (3), which required Administrator's report to congressional committees, not later than 90 days after Dec. 30, 2005, regarding research plan for utilization and proposed final configuration of the International Space Station, was omitted from the Code following the enactment of Title 51.

Section 16767, Pub. L. 109–155, title V, §507, Dec. 30, 2005, 119 Stat. 2930, which related to national laboratory designation, was repealed in part and omitted in part. Subsecs. (a), (b), and (d) were repealed and reenacted as subsecs. (b), (c), and (a), respectively, of section 70905 of Title 51, National and Commercial Space Programs, by Pub. L. 111–314, §§3, 6, Dec. 18, 2010, 124 Stat. 3328, 3444, which Act enacted Title 51. Subsec. (c), which required Administrator's report to congressional committees regarding operation plan for national laboratory (United States segment of the International Space Station) not later than one year after Dec. 30, 2005, was omitted from the Code following the enactment of Title 51.

SUBCHAPTER VI—OTHER PROGRAM AREAS

PART A—SPACE AND FLIGHT SUPPORT

§16781. Repealed. Pub. L. 111–314, §6, Dec. 18, 2010, 124 Stat. 3444

Section, Pub. L. 109–155, title VI, §601, Dec. 30, 2005, 119 Stat. 2931, related to decreasing the risks associated with orbital debris. See section 31501 of Title 51, National and Commercial Space Programs.

§16782. Transferred

EDITORIAL NOTES

CODIFICATION

Section, Pub. L. 109–155, title VI, §602, Dec. 30, 2005, 119 Stat. 2931, which related to secondary payload capability, was transferred and is set out as a note under section 70102 of Title 51, National and Commercial Space Programs.

PART B—EDUCATION

§§16791, 16792. Repealed. Pub. L. 111–314, §6, Dec. 18, 2010, 124 Stat. 3444

Section 16791, Pub. L. 109–155, title VI, §612, Dec. 30, 2005, 119 Stat. 2932, related to program to expand distance learning in rural underserved areas. See section 40905 of Title 51, National and Commercial Space Programs.

Section 16792, Pub. L. 109–155, title VI, §613, Dec. 30, 2005, 119 Stat. 2932, related to Charles "Pete" Conrad Astronomy Awards. See section 30902 of Title 51.

§16793. Omitted

EDITORIAL NOTES

CODIFICATION

Section, Pub. L. 109–155, title VI, §614, Dec. 30, 2005, 119 Stat. 2933, which related to review of precollege education programs and required results be transmitted to congressional committees not later than 18 months after Dec. 30, 2005, was omitted from the Code following the enactment of Title 51, National and Commercial Space Programs, by Pub. L. 111–314.

§§16794, 16795. Repealed. Pub. L. 111–314, §6, Dec. 18, 2010, 124 Stat. 3444

Section 16794, Pub. L. 109–155, title VI, §615, Dec. 30, 2005, 119 Stat. 2934, related to equal access to NASA's education programs. See section 40906 of Title 51, National and Commercial Space Programs.

Section 16795, Pub. L. 109–155, title VI, §616, Dec. 30, 2005, 119 Stat. 2934, related to grants and cooperative agreements to enhance museum and planetarium programs. See section 40907 of Title 51.

§16796. Transferred

EDITORIAL NOTES

CODIFICATION

Section, Pub. L. 109–155, title VI, §617, Dec. 30, 2005, 119 Stat. 2934, which required review of legal status of Motivating Undergraduates in Science and Technology (MUST) program, was transferred and is set out as a note preceding section 40901 of Title 51, National and Commercial Space Programs.

§16797. Repealed. Pub. L. 111–314, §6, Dec. 18, 2010, 124 Stat. 3444

Section, Pub. L. 109–155, title VI, §618, Dec. 30, 2005, 119 Stat. 2934, related to continuation of the Space Grant Program, the Experimental Program to Stimulate Competitive Research, and the NASA Explorer School program. See section 40908 of Title 51, National and Commercial Space Programs.

§16798. Repealed or Omitted

EDITORIAL NOTES

CODIFICATION

Section, Pub. L. 109–155, title VI, §619, Dec. 30, 2005, 119 Stat. 2935, which related to implementation of previous recommendations, was repealed in part and omitted in part. Subsec. (b) was repealed and reenacted as section 40909 of Title 51, National and Commercial Space Programs, by Pub. L. 111–314, §§3, 6, Dec. 18, 2010, 124 Stat. 3328, 3444, which Act enacted Title 51. Subsec. (a), requiring Administrator's report to Congressional committees regarding implementation of Government Accountability Office Report No. 04–639 not later than 180 days after Dec. 30, 2005, was omitted from the Code following the enactment of Title 51.

PART C—TECHNOLOGY TRANSFER

§16811. Repealed. Pub. L. 111–314, §6, Dec. 18, 2010, 124 Stat. 3444

Section, Pub. L. 109–155, title VI, §621, Dec. 30, 2005, 119 Stat. 2935, related to commercial technology transfer program. See section 50116 of Title 51, National and Commercial Space Programs.

SUBCHAPTER VII—MISCELLANEOUS PROVISIONS

PART A—NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

§§16821 to 16823. Repealed. Pub. L. 111–314, §6, Dec. 18, 2010, 124 Stat. 3444

Section 16821, Pub. L. 109–155, title VII, §707, Dec. 30, 2005, 119 Stat. 2937, related to small business contracting. See section 30306 of Title 51, National and Commercial Space Programs.

Section 16822, Pub. L. 109–155, title VII, §708, Dec. 30, 2005, 119 Stat. 2938, related to NASA healthcare program. See section 31301 of Title 51.

Section 16823, Pub. L. 109–155, title VII, §709, Dec. 30, 2005, 119 Stat. 2938, related to offshore performance of contracts for the procurement of goods and services. See section 30704 of Title 51.

§16824. Omitted

EDITORIAL NOTES

CODIFICATION

Section, Pub. L. 109–155, title VII, §710, Dec. 30, 2005, 119 Stat. 2938, which required review of NASA's enhanced use leasing pilot program to be transmitted to congressional committees not later than one year after Dec. 30, 2005, was omitted from the Code following the enactment of Title 51, National and Commercial Space Programs, by Pub. L. 111–314.

PART B—NATIONAL SCIENCE FOUNDATION

§16831. Transferred

EDITORIAL NOTES

CODIFICATION

Section, Pub. L. 109–155, title VII, §721, Dec. 30, 2005, 119 Stat. 2938, which related to collection of data on specific fields of study, was transferred to section 1886a of this title following the enactment of Title 51, National and Commercial Space Programs, by Pub. L. 111–314.

§16832. Omitted

Section, Pub. L. 109–155, title VII, §722, Dec. 30, 2005, 119 Stat. 2939, which related to National Science Foundation major research equipment and facilities and required review of facilities and development plan to be transmitted to congressional committees not later than June 30, 2006, was omitted from the Code following the enactment of Title 51, National and Commercial Space Programs, by Pub. L. 111–314.

SUBCHAPTER VIII—HUMAN SPACE FLIGHT INDEPENDENT INVESTIGATION COMMISSION

§§16841 to 16850. Repealed. Pub. L. 111–314, §6, Dec. 18, 2010, 124 Stat. 3444

Section 16841, Pub. L. 109–155, title VIII, §821, Dec. 30, 2005, 119 Stat. 2941, related to definitions. See section 70701 of Title 51, National and Commercial Space Programs.

Section 16842, Pub. L. 109–155, title VIII, §822, Dec. 30, 2005, 119 Stat. 2941, related to establishment of Commission. See section 70702 of Title 51.

Section 16843, Pub. L. 109–155, title VIII, §823, Dec. 30, 2005, 119 Stat. 2941, related to tasks of the Commission. See section 70703 of Title 51.

Section 16844, Pub. L. 109–155, title VIII, §824, Dec. 30, 2005, 119 Stat. 2942, related to composition of Commission. See section 70704 of Title 51.

Section 16845, Pub. L. 109–155, title VIII, §825, Dec. 30, 2005, 119 Stat. 2942, related to powers of Commission. See section 70705 of Title 51.

Section 16846, Pub. L. 109–155, title VIII, §826, Dec. 30, 2005, 119 Stat. 2943, related to public meetings, information, and hearings. See section 70706 of Title 51.

Section 16847, Pub. L. 109–155, title VIII, §827, Dec. 30, 2005, 119 Stat. 2943, related to staff of Commission. See section 70707 of Title 51.

Section 16848, Pub. L. 109–155, title VIII, §828, Dec. 30, 2005, 119 Stat. 2944, related to compensation and travel expenses. See section 70708 of Title 51.

Section 16849, Pub. L. 109–155, title VIII, §829, Dec. 30, 2005, 119 Stat. 2944, related to security clearances for Commission members and staff. See section 70709 of Title 51.

Section 16850, Pub. L. 109–155, title VIII, §830, Dec. 30, 2005, 119 Stat. 2944, related to reporting requirements and termination. See section 70710 of Title 51.

CHAPTER 152—ENERGY INDEPENDENCE AND SECURITY

Sec.

§17001. Definitions

In this Act:

(1) Department

The term "Department" means the Department of Energy.

(2) Institution of higher education

The term "institution of higher education" has the meaning given the term in section 1001(a) of title 20.

(3) Secretary

The term "Secretary" means the Secretary of Energy.

(Pub. L. 110–140, §2, Dec. 19, 2007, 121 Stat. 1498.)

EDITORIAL NOTES

REFERENCES IN TEXT

This Act, referred to in text, is Pub. L. 110–140, Dec. 19, 2007, 121 Stat. 1492, known as the Energy Independence and Security Act of 2007, which enacted this chapter and enacted and amended numerous other sections and notes in the Code. For complete classification of this Act to the Code, see Short Title note below and Tables.

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

SHORT TITLE OF 2020 AMENDMENT

Pub. L. 116–260, div. Z, §101(a), Dec. 27, 2020, 134 Stat. 2418, provided that: "This division [see Tables for classification] may be cited as the 'Energy Act of 2020'."

SHORT TITLE OF 2015 AMENDMENT

Pub. L. 114–11, §1(a), Apr. 30, 2015, 129 Stat. 182, provided that: "This Act [enacting sections 17062, 17063, 17084, and 17085 of this title, amending sections 6295, 6302 to 6304, and 17091 of this title, and enacting provisions set out as a note under this section] may be cited as the 'Energy Efficiency Improvement Act of 2015'."

Pub. L. 114–11, title I, §101, Apr. 30, 2015, 129 Stat. 182, provided that: "This title [enacting sections 17062, 17084, and 17085 of this title] may be cited as the 'Better Buildings Act of 2015'."

SHORT TITLE

Pub. L. 110–140, §1(a), Dec. 19, 2007, 121 Stat. 1492, provided that: "This Act [see Tables for classification] may be cited as the 'Energy Independence and Security Act of 2007'."

Pub. L. 110–140, title VI, §601, Dec. 19, 2007, 121 Stat. 1674, provided that: "This subtitle [subtitle A (§§601–607) of title VI of Pub. L. 110–140, enacting part A (§17171 et seq.) of subchapter V of this chapter] may be cited as the 'Solar Energy Research and Advancement Act of 2007'."

Pub. L. 110–140, title VI, §611, Dec. 19, 2007, 121 Stat. 1678, provided that: "This subtitle [subtitle B (§§611–625) of title VI of Pub. L. 110–140, enacting part B (§17191 et seq.) of subchapter V of this chapter] may be cited as the 'Advanced Geothermal Energy Research and Development Act of 2007'."

Pub. L. 110–140, title VI, §631, Dec. 19, 2007, 121 Stat. 1686, which provided that subtitle C (§§631–636) of title VI of Pub. L. 110–140, enacting former part C (§17211 et seq.) of subchapter V of this chapter, could be cited as the "Marine and Hydrokinetic Renewable Energy Research and Development Act", was omitted from the Code in the general amendment of subtitle C by Pub. L. 116–260.

Pub. L. 110–140, title VII, §701, Dec. 19, 2007, 121 Stat. 1704, provided that: "This subtitle [subtitle A (§§701–708) of title VII of Pub. L. 110–140, enacting part A (§17251 et seq.) of subchapter VI of this chapter and amending section 16293 of this title] may be cited as the 'Department of Energy Carbon Capture and Sequestration Research, Development, and Demonstration Act of 2007'."

§17002. Relationship to other law

Except to the extent expressly provided in this Act or an amendment made by this Act, nothing in this Act or an amendment made by this Act supersedes, limits the authority provided or responsibility conferred by, or authorizes any violation of any provision of law (including a regulation), including any energy or environmental law or regulation.

(Pub. L. 110–140, §3, Dec. 19, 2007, 121 Stat. 1498.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

SUBCHAPTER I—IMPROVED VEHICLE TECHNOLOGY

§17011. Transportation electrification

(a) Definitions

In this section:

(1) Administrator

The term "Administrator" means the Administrator of the Environmental Protection Agency.

(2) Battery

The term "battery" means an electrochemical energy storage system powered directly by electrical current.

(3) Electric transportation technology

The term "electric transportation technology" means—

(A) technology used in vehicles that use an electric motor for all or part of the motive power of the vehicles, including battery electric, hybrid electric, plug-in hybrid electric, fuel cell, and plug-in fuel cell vehicles, or rail transportation; or

(B) equipment relating to transportation or mobile sources of air pollution that use an electric motor to replace an internal combustion engine for all or part of the work of the equipment, including—

(i) corded electric equipment linked to transportation or mobile sources of air pollution; and

(ii) electrification technologies at airports, ports, truck stops, and material-handling facilities.

(4) Nonroad vehicle

The term "nonroad vehicle" means a vehicle—

(A) powered—

(i) by a nonroad engine, as that term is defined in section 7550 of this title; or

(ii) fully or partially by an electric motor powered by a fuel cell, a battery, or an off-board source of electricity; and

(B) that is not a motor vehicle or a vehicle used solely for competition.

(5) Plug-in electric drive vehicle

The term "plug-in electric drive vehicle" means a vehicle that—

(A) draws motive power from a battery with a capacity of at least 4 kilowatt-hours;

(B) can be recharged from an external source of electricity for motive power; and

(C) is a light-, medium-, or heavy-duty motor vehicle or nonroad vehicle (as those terms are defined in section 7550 of this title).

(6) Qualified electric transportation project

The term "qualified electric transportation project" means an electric transportation technology project that would significantly reduce emissions of criteria pollutants, greenhouse gas emissions, and petroleum, including—

(A) shipside or shoreside electrification for vessels;

(B) truck-stop electrification;

(C) electric truck refrigeration units;

(D) battery-powered auxiliary power units for trucks;

(E) electric airport ground support equipment;

(F) electric material and cargo handling equipment;

(G) electric or dual-mode electric rail;

(H) any distribution upgrades needed to supply electricity to the project; and

(I) any ancillary infrastructure, including panel upgrades, battery chargers, in-situ transformers, and trenching.

(b) Plug-in electric drive vehicle program

(1) Establishment

The Secretary shall establish a competitive program to provide grants on a cost-shared basis to State governments, local governments, metropolitan transportation authorities, air pollution control districts, private or nonprofit entities, or combinations of those governments, authorities, districts, and entities, to carry out one or more projects to encourage the use of plug-in electric drive vehicles or other emerging electric vehicle technologies, as determined by the Secretary.

(2) Administration

The Secretary shall, in consultation with the Secretary of Transportation and the Administrator, establish requirements for applications for grants under this section, including reporting of data to be summarized for dissemination to grantees and the public, including safety, vehicle, and

component performance, and vehicle and component life cycle costs.

(3) Priority

In making awards under this subsection, the Secretary shall—

(A) give priority consideration to applications that—

(i) encourage early widespread use of vehicles described in paragraph (1); and

(ii) are likely to make a significant contribution to the advancement of the production of the vehicles in the United States; and

(B) ensure, to the maximum extent practicable, that the program established under this subsection includes a variety of applications, manufacturers, and end-uses.

(4) Reporting

The Secretary shall require a grant recipient under this subsection to submit to the Secretary, on an annual basis, data relating to safety, vehicle performance, life cycle costs, and emissions of vehicles demonstrated under the grant, including emissions of greenhouse gases.

(5) Cost sharing

Section 16352 of this title shall apply to a grant made under this subsection.

(6) Authorization of appropriations

There is authorized to be appropriated to carry out this subsection $90,000,000 for each of fiscal years 2008 through 2012, of which not less than 1/3 of the total amount appropriated shall be available each fiscal year to make grants to local and municipal governments.

(c) Near-term transportation sector electrification program

(1) In general

Not later than 1 year after December 19, 2007, the Secretary, in consultation with the Secretary of Transportation and the Administrator, shall establish a program to provide grants for the conduct of qualified electric transportation projects.

(2) Priority

In providing grants under this subsection, the Secretary shall give priority to large-scale projects and large-scale aggregators of projects.

(3) Cost sharing

Section 16352 of this title shall apply to a grant made under this subsection.

(4) Authorization of appropriations

There is authorized to be appropriated to carry out this subsection $95,000,000 for each of fiscal years 2008 through 2013.

(d) Education program

(1) In general

The Secretary shall develop a nationwide electric drive transportation technology education program under which the Secretary shall provide—

(A) teaching materials to secondary schools and high schools; and

(B) assistance for programs relating to electric drive system and component engineering to institutions of higher education.

(2) Electric vehicle competition

The program established under paragraph (1) shall include a plug-in hybrid electric vehicle competition for institutions of higher education, which shall be known as the "Dr. Andrew Frank Plug-In Electric Vehicle Competition".

(3) Engineers

In carrying out the program established under paragraph (1), the Secretary shall provide

financial assistance to institutions of higher education to create new, or support existing, degree programs to ensure the availability of trained electrical and mechanical engineers with the skills necessary for the advancement of—

(A) plug-in electric drive vehicles; and

(B) other forms of electric drive transportation technology vehicles.

(4) Authorization of appropriations

There are authorized to be appropriated such sums as may be necessary to carry out this subsection.

(Pub. L. 110–140, title I, §131, Dec. 19, 2007, 121 Stat. 1508.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§17012. Advanced battery loan guarantee program

(a) Establishment of program

The Secretary shall establish a program to provide guarantees of loans by private institutions for the construction of facilities for the manufacture of advanced vehicle batteries and battery systems that are developed and produced in the United States, including advanced lithium ion batteries and hybrid electrical system and component manufacturers and software designers.

(b) Requirements

The Secretary may provide a loan guarantee under subsection (a) to an applicant if—

(1) without a loan guarantee, credit is not available to the applicant under reasonable terms or conditions sufficient to finance the construction of a facility described in subsection (a);

(2) the prospective earning power of the applicant and the character and value of the security pledged provide a reasonable assurance of repayment of the loan to be guaranteed in accordance with the terms of the loan; and

(3) the loan bears interest at a rate determined by the Secretary to be reasonable, taking into account the current average yield on outstanding obligations of the United States with remaining periods of maturity comparable to the maturity of the loan.

(c) Criteria

In selecting recipients of loan guarantees from among applicants, the Secretary shall give preference to proposals that—

(1) meet all applicable Federal and State permitting requirements;

(2) are most likely to be successful; and

(3) are located in local markets that have the greatest need for the facility.

(d) Maturity

A loan guaranteed under subsection (a) shall have a maturity of not more than 20 years.

(e) Terms and conditions

The loan agreement for a loan guaranteed under subsection (a) shall provide that no provision of the loan agreement may be amended or waived without the consent of the Secretary.

(f) Assurance of repayment

The Secretary shall require that an applicant for a loan guarantee under subsection (a) provide an assurance of repayment in the form of a performance bond, insurance, collateral, or other means acceptable to the Secretary in an amount equal to not less than 20 percent of the amount of the loan.

(g) Guarantee fee

The recipient of a loan guarantee under subsection (a) shall pay the Secretary an amount determined by the Secretary to be sufficient to cover the administrative costs of the Secretary relating to the loan guarantee.

(h) Full faith and credit

The full faith and credit of the United States is pledged to the payment of all guarantees made under this section. Any such guarantee made by the Secretary shall be conclusive evidence of the eligibility of the loan for the guarantee with respect to principal and interest. The validity of the guarantee shall be incontestable in the hands of a holder of the guaranteed loan.

(i) Reports

Until each guaranteed loan under this section has been repaid in full, the Secretary shall annually submit to Congress a report on the activities of the Secretary under this section.

(j) Authorization of appropriations

There are authorized to be appropriated such sums as are necessary to carry out this section.

(k) Termination of authority

The authority of the Secretary to issue a loan guarantee under subsection (a) terminates on the date that is 10 years after December 19, 2007.

(Pub. L. 110–140, title I, §135, Dec. 19, 2007, 121 Stat. 1513.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§17013. Advanced technology vehicles manufacturing incentive program

(a) Definitions

In this section:

(1) Advanced technology vehicle

The term "advanced technology vehicle" means—

(A) an ultra efficient vehicle or a light duty vehicle that meets—

(i) the Bin 5 Tier II emission standard established in regulations issued by the Administrator of the Environmental Protection Agency under section 202(i) of the Clean Air Act (42 U.S.C. 7521(i)), or a lower-numbered Bin emission standard;

(ii) any new emission standard in effect for fine particulate matter prescribed by the Administrator under that Act (42 U.S.C. 7401 et seq.); and

(iii) at least 125 percent of the average base year combined fuel economy for vehicles with substantially similar attributes;

(B) a medium duty vehicle or a heavy duty vehicle that exceeds 125 percent of the greenhouse gas emissions and fuel efficiency standards established by the final rule of the Environmental Protection Agency entitled "Greenhouse Gas Emissions and Fuel Efficiency Standards for Medium- and Heavy-Duty Engines and Vehicles—Phase 2" (81 Fed. Reg. 73478 (October 25, 2016));

(C) a train or locomotive;

(D) a maritime vessel;

(E) an aircraft; and

(F) hyperloop technology.

(2) Combined fuel economy

The term "combined fuel economy" means—

(A) the combined city/highway miles per gallon values, as reported in accordance with section 32904 of title 49; and

(B) in the case of an electric drive vehicle with the ability to recharge from an off-board source, the reported mileage, as determined in a manner consistent with the Society of Automotive Engineers recommended practice for that configuration or a similar practice recommended by the Secretary.

(3) Engineering integration costs

The term "engineering integration costs" includes the cost of engineering tasks relating to—

(A) incorporating qualifying components into the design of advanced technology vehicles; and

(B) designing tooling and equipment and developing manufacturing processes and material suppliers for production facilities that produce qualifying components or advanced technology vehicles.

(4) Qualifying components

The term "qualifying components" means components that the Secretary determines to be—

(A) designed for advanced technology vehicles; and

(B) installed for the purpose of meeting the performance requirements of advanced technology vehicles.

(5) Ultra efficient vehicle

The term "ultra efficient vehicle" means a fully closed compartment vehicle designed to carry at least 2 adult passengers that achieves—

(A) at least 75 miles per gallon while operating on gasoline or diesel fuel;

(B) at least 75 miles per gallon equivalent while operating as a hybrid electric-gasoline or electric-diesel vehicle; or

(C) at least 75 miles per gallon equivalent while operating as a fully electric vehicle.

(b) Advanced vehicles manufacturing facility

The Secretary shall provide facility funding awards under this section to automobile manufacturers, ultra efficient vehicle manufacturers, advanced technology vehicle manufacturers, and component suppliers to pay not more than 30 percent of the cost of—

(1) reequipping, expanding, or establishing a manufacturing facility in the United States to produce—

(A) qualifying advanced technology vehicles;

(B) qualifying components; or

(C) ultra efficient vehicles; and

(2) engineering integration performed in the United States of qualifying vehicles, ultra efficient vehicles, and qualifying components.

(c) Period of availability

An award under subsection (b) shall apply to—

(1) facilities and equipment placed in service before December 30, 2020; and

(2) engineering integration costs incurred during the period beginning on December 19, 2007, and ending on December 30, 2020.

(d) Direct loan program

(1) In general

Not later than 1 year after December 19, 2007, and subject to the availability of appropriated funds, the Secretary shall carry out a program to provide a total of not more than $25,000,000,000 in loans to eligible individuals and entities (as determined by the Secretary) for the costs of

activities described in subsection (b). The loans shall be made through the Federal Financing Bank, with the full faith and credit of the United States Government on the principal and interest. The full credit subsidy shall be paid by the Secretary using appropriated funds.

(2) Application

An applicant for a loan under this subsection shall submit to the Secretary an application at such time, in such manner, and containing such information as the Secretary may require, including a written assurance that—

(A) all laborers and mechanics employed by contractors or subcontractors during construction, alteration, or repair that is financed, in whole or in part, by a loan under this section shall be paid wages at rates not less than those prevailing on similar construction in the locality, as determined by the Secretary of Labor in accordance with sections 3141–3144, 3146, and 3147 of title 40; and

(B) the Secretary of Labor shall, with respect to the labor standards described in this paragraph, have the authority and functions set forth in Reorganization Plan Numbered 14 of 1950 (5 U.S.C. App.) and section 3145 of title 40.

(3) Selection of eligible projects

(A) In general

The Secretary shall select eligible projects to receive loans under this subsection if the Secretary determines that—

(i) the loan recipient—

(I) has a reasonable prospect of repaying the principal and interest on the loan;

(II) will provide sufficient information to the Secretary for the Secretary to ensure that the qualified investment is expended efficiently and effectively; and

(III) has met such other criteria as may be established and published by the Secretary; and

(ii) the amount of the loan (when combined with amounts available to the loan recipient from other sources) will be sufficient to carry out the project.

(B) Reasonable prospect of repayment

The Secretary shall base a determination of whether there is a reasonable prospect of repayment of the principal and interest on a loan under subparagraph (A)(i)(I) on a comprehensive evaluation of whether the loan recipient has a reasonable prospect of repaying the principal and interest, including, as applicable, an evaluation of—

(i) the strength of the contractual terms of the eligible project (if commercially reasonably available);

(ii) the forecast of noncontractual cash flows supported by market projections from reputable sources, as determined by the Secretary;

(iii) cash sweeps and other structure enhancements;

(iv) the projected financial strength of the loan recipient—

(I) at the time of loan close; and

(II) throughout the loan term after the project is completed;

(v) the financial strength of the investors and strategic partners of the loan recipient, if applicable; and

(vi) other financial metrics and analyses that are relied on by the private lending community and nationally recognized credit rating agencies, as determined appropriate by the Secretary.

(4) Rates, terms, and repayment of loans

A loan provided under this subsection—

(A) shall have an interest rate that, as of the date on which the loan is made, is equal to the

cost of funds to the Department of the Treasury for obligations of comparable maturity;

(B) shall have a term equal to the lesser of—

(i) the projected life, in years, of the eligible project to be carried out using funds from the loan, as determined by the Secretary; and [1]

(ii) 25 years;

(C) may be subject to a deferral in repayment for not more than 5 years after the date on which the eligible project carried out using funds from the loan first begins operations, as determined by the Secretary;

(D) shall be made by the Federal Financing Bank; and

(E) shall be subject to the condition that the loan is not subordinate to other financing.

(5) Conflicts of interest

For each eligible project selected to receive a loan under this subsection, the Secretary shall certify that political influence did not impact the selection of the eligible project.

(e) Improvement

Not later than 60 days after September 30, 2008, the Secretary shall promulgate an interim final rule establishing regulations that the Secretary deems necessary to administer this section and any loans made by the Secretary pursuant to this section. Such interim final rule shall require that, in order for an automobile manufacturer to be eligible for an award or loan under this section during a particular year, the adjusted average fuel economy of the manufacturer for light duty vehicles produced by the manufacturer during the most recent year for which data are available shall be not less than the average fuel economy for all light duty vehicles of the manufacturer for model year 2005. In order to determine fuel economy baselines for eligibility of a new manufacturer or a manufacturer that has not produced previously produced equivalent vehicles, the Secretary may substitute industry averages.

(f) Fees

Administrative costs shall be no more than $100,000 or 10 basis point [2] of the loan.

(g) Priority

The Secretary shall, in making awards or loans to those manufacturers that have existing facilities, give priority to those facilities that are oldest or have been in existence for at least 20 years or are utilized primarily for the manufacture of ultra efficient vehicles. Such facilities can currently be sitting idle.

(h) Set aside for small advanced technology vehicle manufacturers and component suppliers

(1) Definition of covered firm

In this subsection, the term "covered firm" means a firm that—

(A) employs less than 500 individuals; and

(B) manufactures ultra efficient vehicles, advanced technology vehicles, or components of advanced technology vehicles.

(2) Set aside

Of the amount of funds that are used to provide awards for each fiscal year under subsection (b), the Secretary shall use not less than 10 percent to provide awards to covered firms or consortia led by a covered firm.

(i) Appointment and pay of personnel

(1) The Secretary may use direct hiring authority pursuant to section 3304(a)(3) of title 5 to appoint such professional and administrative personnel as the Secretary deems necessary to the discharge of the Secretary's functions under this section.

(2) The rate of pay for a person appointed pursuant to paragraph (1) shall not exceed the maximum rate payable for GS-15 of the General Schedule under chapter 53 such [3] title 5.

(3) The Secretary may retain such consultants as the Secretary deems necessary to the discharge of the functions required by this section, pursuant to section 1901 of title 41.

(j) Coordination

In carrying out this section, the Secretary shall coordinate with relevant vehicle, bioenergy, and hydrogen and fuel cell demonstration project activities supported by the Department.

(k) Outreach

In carrying out this section, the Secretary shall—

(1) provide assistance with the completion of applications for awards or loans under this section; and

(2) conduct outreach, including through conferences and online programs, to disseminate information on awards and loans under this section to potential applicants.

(l) Prohibition on use of appropriated funds

Amounts appropriated to the Secretary before November 15, 2021, shall not be available to the Secretary to provide awards under subsection (b) or loans under subsection (d) for the costs of activities that were not eligible for those awards or loans on the day before that date.

(m) Report

Not later than 2 years after November 15, 2021, and every 3 years thereafter, the Secretary shall submit to Congress a report on the status of projects supported by a loan under this section, including—

(1) a list of projects receiving a loan under this section, including the loan amount and construction status of each project;

(2) the status of the loan repayment for each project, including future repayment projections;

(3) data regarding the number of direct and indirect jobs retained, restored, or created by financed projects;

(4) the number of new projects projected to receive a loan under this section in the next 2 years, including the projected aggregate loan amount over the next 2 years;

(5) evaluation of ongoing compliance with the assurances and commitments, and of the predictions, made by applicants pursuant to paragraphs (2) and (3) of subsection (d);

(6) the total number of applications received by the Department each year; and

(7) any other metrics the Secretary determines appropriate.

(Pub. L. 110–140, title I, §136, Dec. 19, 2007, 121 Stat. 1514; Pub. L. 110–329, div. A, §129(c), Sept. 30, 2008, 122 Stat. 3578; Pub. L. 111–85, title III, §312(a), Oct. 28, 2009, 123 Stat. 2874; Pub. L. 117–58, div. D, title IV, §40401(b), Nov. 15, 2021, 135 Stat. 1034.)

EDITORIAL NOTES

REFERENCES IN TEXT

The Clean Air Act, referred to in subsec. (a)(1)(B), is act July 14, 1955, ch. 360, 69 Stat. 322, which is classified generally to chapter 85 (§7401 et seq.) of this title. For complete classification of this Act to the Code, see Short Title note set out under section 7401 of this title and Tables.

Reorganization Plan Numbered 14 of 1950, referred to in subsec. (d)(2)(B), is set out in the Appendix to Title 5, Government Organization and Employees.

CODIFICATION

In subsec. (j)(3), "section 1901 of title 41" substituted for "section 31 of the Office of Federal Procurement Policy Act (41 U.S.C. 427)" on authority of Pub. L. 111–350, §6(c), Jan. 4, 2011, 124 Stat. 3854, which Act enacted Title 41, Public Contracts.

AMENDMENTS

2021—Subsec. (a)(1). Pub. L. 117–58, §40401(b)(1), substituted "means—" for "means", inserted subpar. (A) designation before "an ultra", redesignated former subpars. (A) to (C) as cls. (i) to (iii) of subpar. (A), respectively, and added subpars. (B) to (F).

Subsec. (b). Pub. L. 117–58, §40401(b)(3)(A), substituted "ultra efficient vehicle manufacturers, advanced technology vehicle manufacturers, and component suppliers" for "ultra efficient vehicle manufacturers, and component suppliers" in introductory provisions.

Subsec. (d)(3). Pub. L. 117–58, §40401(b)(2)(A), added par. (3) and struck out former par. (3). Prior to amendment, text read as follows: "The Secretary shall select eligible projects to receive loans under this subsection in cases in which, as determined by the Secretary, the award recipient—

"(A) is financially viable without the receipt of additional Federal funding associated with the proposed project;

"(B) will provide sufficient information to the Secretary for the Secretary to ensure that the qualified investment is expended efficiently and effectively; and

"(C) has met such other criteria as may be established and published by the Secretary."

Subsec. (d)(4)(E). Pub. L. 117–58, §40401(b)(2)(B), added subpar. (E).

Subsec. (d)(5). Pub. L. 117–58, §40401(b)(4), added par. (5).

Subsec. (h). Pub. L. 117–58, §40401(b)(3)(B)(i), substituted "advanced technology vehicle" for "automobile" in heading.

Subsec. (h)(1)(B). Pub. L. 117–58, §40401(b)(3)(B)(ii), substituted "advanced technology vehicles, or components of advanced technology vehicles" for "automobiles, or components of automobiles".

Subsecs. (i) to (m). Pub. L. 117–58, §40401(b)(3)(C)–(E), added subsecs. (j) to (m), redesignated former subsec. (j) as (i), and struck out former subsec. (i). Prior to amendment, text of subsec. (i) read as follows: "There are authorized to be appropriated such sums as are necessary to carry out this section for each of fiscal years 2008 through 2012."

2009—Subsec. (a)(1). Pub. L. 111–85, §312(a)(1)(A), inserted "an ultra efficient vehicle or" after "means" in introductory provisions.

Subsec. (a)(5). Pub. L. 111–85, §312(a)(1)(B), added par. (5).

Subsec. (b). Pub. L. 111–85, §312(a)(2)(A), inserted ", ultra efficient vehicle manufacturers," after "automobile manufacturers" in introductory provisions.

Subsec. (b)(1)(C). Pub. L. 111–85, §312(a)(2)(B), added subpar. (C).

Subsec. (b)(2). Pub. L. 111–85, §312(a)(2)(C), inserted ", ultra efficient vehicles," after "qualifying vehicles".

Subsec. (g). Pub. L. 111–85, §312(a)(3), inserted "or are utilized primarily for the manufacture of ultra efficient vehicles" after "20 years".

Subsec. (h)(1)(B). Pub. L. 111–85, §312(a)(4), substituted "ultra efficient vehicles, automobiles," for "automobiles".

2008—Subsec. (d)(1). Pub. L. 110–329, §129(c)(1), inserted at end "The loans shall be made through the Federal Financing Bank, with the full faith and credit of the United States Government on the principal and interest. The full credit subsidy shall be paid by the Secretary using appropriated funds."

Subsec. (e). Pub. L. 110–329, §129(c)(2), substituted "Not later than 60 days after September 30, 2008, the Secretary shall promulgate an interim final rule establishing regulations that the Secretary deems necessary to administer this section and any loans made by the Secretary pursuant to this section. Such interim final rule shall require that," for "The Secretary shall issue regulations that require that,".

Subsec. (j). Pub. L. 110–329, §129(c)(3), added subsec. (j).

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

RECONSIDERATION OF PRIOR APPLICATIONS

Pub. L. 111–85, title III, §312(b), Oct. 28, 2009, 123 Stat. 2875, provided that: "The Secretary of Energy shall reconsider applications for assistance under section 136 of the Energy Independence and Security Act of 2007 (42 U.S.C. 17013) that were—

"(1) timely filed under that section before January 1, 2009;

"(2) rejected on the basis that the vehicles to which the proposal related were not advanced technology vehicles; and

"(3) related to ultra efficient vehicles."

[3] *So in original. Probably should be "of such".*

§17014. Research and development into integrating electric vehicles onto the electric grid

(a) In general

The Secretary shall establish a research, development, and demonstration program to advance the integration of electric vehicles, including plug-in hybrid electric vehicles, onto the electric grid.

(b) Vehicles-to-grid integration assessment report

Not later than 1 year after December 27, 2020, the Secretary shall submit to the Committee on Science, Space, and Technology of the House of Representatives and the Committee on Energy and Natural Resources of the Senate a report on the results of a study that examines the research, development, and demonstration opportunities, challenges, and standards needed for integrating electric vehicles onto the electric grid.

(1) Report requirements

The report shall include—

(A) an evaluation of the use of electric vehicles to maintain the reliability of the electric grid, including—

(i) the use of electric vehicles for demand response, load shaping, emergency power, and frequency regulation; and

(ii) the potential for the reuse of spent electric vehicle batteries for stationary grid storage;

(B) the impact of grid integration on electric vehicles, including—

(i) the impact of bi-directional electricity flow on battery degradation; and

(ii) the implications of the use of electric vehicles for grid services on original equipment manufacturer warranties;

(C) the impacts to the electric grid of increased penetration of electric vehicles, including—

(i) the distribution grid infrastructure needed to support an increase in charging capacity;

(ii) strategies for integrating electric vehicles onto the distribution grid while limiting infrastructure upgrades;

(iii) the changes in electricity demand over a 24-hour cycle due to electric vehicle charging behavior;

(iv) the load increases expected from electrifying the transportation sector;

(v) the potential for customer incentives and other managed charging stations strategies to shift charging off-peak;

(vi) the technology needed to achieve bi-directional power flow on the distribution grid; and

(vii) the implementation of smart charging techniques;

(D) research on the standards needed to integrate electric vehicles with the grid, including communications systems, protocols, and charging stations, in collaboration with the National Institute for Standards and Technology;

(E) the cybersecurity challenges and needs associated with electrifying the transportation sector; and

(F) an assessment of the feasibility of adopting technologies developed under the program

established under subsection (a) at Department facilities.

(2) Recommendations

As part of the Vehicles-to-Grid Integration Assessment Report, the Secretary shall develop a 10-year roadmap to guide the research, development, and demonstration program to integrate electric vehicles onto the electric grid.

(3) Consultation

In developing this report, the Secretary shall consult with relevant stakeholders, including—

(A) electric vehicle manufacturers;
(B) electric utilities;
(C) public utility commissions;
(D) vehicle battery manufacturers;
(E) electric vehicle supply equipment manufacturers;
(F) charging infrastructure manufacturers;
(G) the National Laboratories; and
(H) other Federal agencies, as the Secretary determines appropriate.

(4) Updates

The Secretary shall update the report required under this section every 3 years for the duration of the program under section [1] (a) and shall submit the updated report to the Committee on Science, Space, and Technology of the House of Representatives and the Committee on Energy and Natural Resources of the Senate.

(c) Program implementation

In carrying out the research, development, demonstration, and commercial application aims of section,[2] the Secretary shall—

(1) implement the recommendations set forth in the report in subsection (b); and
(2) coordinate across all relevant program offices at the Department to achieve the goals established in this section, including the Office of Electricity.

(d) Testing capabilities

The Secretary shall coordinate with the National Laboratories to develop testing capabilities for the evaluation, rapid prototyping, and optimization of technologies enabling integration of electric vehicles onto the electric grid.

(Pub. L. 110–140, title I, §137, as added Pub. L. 116–260, div. Z, title VIII, §8004(c), Dec. 27, 2020, 134 Stat. 2584.)

[1] So in original. Probably should be "subsection".

[2] So in original. Probably should be "of this section,".

SUBCHAPTER II—ENERGY SECURITY THROUGH INCREASED PRODUCTION OF BIOFUELS

PART A—RENEWABLE FUEL STANDARD

§17021. Biomass-based diesel and biodiesel labeling

(a) In general

Each retail diesel fuel pump shall be labeled in a manner that informs consumers of the percent of biomass-based diesel or biodiesel that is contained in the biomass-based diesel blend or biodiesel blend that is offered for sale, as determined by the Federal Trade Commission.

(b) Labeling requirements

Not later than 180 days after December 19, 2007, the Federal Trade Commission shall promulgate biodiesel labeling requirements as follows:

(1) Biomass-based diesel blends or biodiesel blends that contain less than or equal to 5 percent biomass-based diesel or biodiesel by volume and that meet ASTM D975 diesel specifications shall not require any additional labels.

(2) Biomass-based diesel blends or biodiesel blends that contain more than 5 percent biomass-based diesel or biodiesel by volume but not more than 20 percent by volume shall be labeled "contains biomass-based diesel or biodiesel in quantities between 5 percent and 20 percent".

(3) Biomass-based diesel or biodiesel blends that contain more than 20 percent biomass based or biodiesel by volume shall be labeled "contains more than 20 percent biomass-based diesel or biodiesel".

(c) Definitions

In this section:

(1) ASTM

The term "ASTM" means the American Society of Testing and Materials.

(2) Biomass-based diesel

The term "biomass-based diesel" means biodiesel as defined in section 13220(f) of this title.

(3) Biodiesel

The term "biodiesel" means the monoalkyl esters of long chain fatty acids derived from plant or animal matter that meet—

(A) the registration requirements for fuels and fuel additives under this section; and

(B) the requirements of ASTM standard D6751.

(4) Biomass-based diesel and biodiesel blends

The terms "biomass-based diesel blend" and "biodiesel blend" means a blend of "biomass-based diesel" or "biodiesel" fuel that is blended with petroleum-based diesel fuel.

(Pub. L. 110–140, title II, §205, Dec. 19, 2007, 121 Stat. 1529.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§17022. Grants for production of advanced biofuels

(a) In general

The Secretary of Energy shall establish a grant program to encourage the production of advanced biofuels.

(b) Requirements and priority

In making grants under this section, the Secretary—

(1) shall make awards to the proposals for advanced biofuels with the greatest reduction in lifecycle greenhouse gas emissions compared to the comparable motor vehicle fuel lifecycle

emissions during calendar year 2005; and

(2) shall not make an award to a project that does not achieve at least an 80 percent reduction in such lifecycle greenhouse gas emissions.

(c) Authorization of appropriations

There is authorized to be appropriated to carry out this section $500,000,000 for the period of fiscal years 2008 through 2015, except that the amount authorized to be appropriated to carry out this section not appropriated as of October 2, 2013, shall be reduced by $6,000,000.

(Pub. L. 110–140, title II, §207, Dec. 19, 2007, 121 Stat. 1531; Pub. L. 113–40, §10(f), Oct. 2, 2013, 127 Stat. 546.)

EDITORIAL NOTES

AMENDMENTS

2013—Subsec. (c). Pub. L. 113–40 inserted ", except that the amount authorized to be appropriated to carry out this section not appropriated as of October 2, 2013, shall be reduced by $6,000,000" before period at end.

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

PART B—BIOFUELS RESEARCH AND DEVELOPMENT

§17031. Biodiesel

(a) Biodiesel study

Not later than 180 days after December 19, 2007, the Secretary, in consultation with the Administrator of the Environmental Protection Agency, shall submit to Congress a report on any research and development challenges inherent in increasing the proportion of diesel fuel sold in the United States that is biodiesel.

(b) Material for the establishment of standards

The Director of the National Institute of Standards and Technology, in consultation with the Secretary, shall make publicly available the physical property data and characterization of biodiesel and other biofuels as appropriate.

(Pub. L. 110–140, title II, §221, Dec. 19, 2007, 121 Stat. 1533.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§17032. Grants for biofuel production research and development in certain States

(a) In general

The Secretary shall provide grants to eligible entities for research, development, demonstration, and commercial application of biofuel production technologies in States with low rates of ethanol production, including low rates of production of cellulosic biomass ethanol, as determined by the Secretary.

(b) Eligibility

To be eligible to receive a grant under this section, an entity shall—

(1)(A) be an institution of higher education (as defined in section 15801 of this title), including tribally controlled colleges or universities, located in a State described in subsection (a); or

(B) be a consortium including at least 1 such institution of higher education and industry, State agencies, Indian tribal agencies, National Laboratories, or local government agencies located in the State; and

(2) have proven experience and capabilities with relevant technologies.

(c) Authorization of appropriations

There are authorized to be appropriated to the Secretary to carry out this section $25,000,000 for each of fiscal years 2008 through 2010.

(Pub. L. 110–140, title II, §223, Dec. 19, 2007, 121 Stat. 1533.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§17033. Biofuels and biorefinery information center

(a) In general

The Secretary, in cooperation with the Secretary of Agriculture, shall establish a biofuels and biorefinery information center to make available to interested parties information on—

(1) renewable fuel feedstocks, including the varieties of fuel capable of being produced from various feedstocks;

(2) biorefinery processing techniques related to various renewable fuel feedstocks;

(3) the distribution, blending, storage, and retail dispensing infrastructure necessary for the transport and use of renewable fuels;

(4) Federal and State laws and incentives related to renewable fuel production and use;

(5) renewable fuel research and development advancements;

(6) renewable fuel development and biorefinery processes and technologies;

(7) renewable fuel resources, including information on programs and incentives for renewable fuels;

(8) renewable fuel producers;

(9) renewable fuel users; and

(10) potential renewable fuel users.

(b) Administration

In administering the biofuels and biorefinery information center, the Secretary shall—

(1) continually update information provided by the center;

(2) make information available relating to processes and technologies for renewable fuel production;

(3) make information available to interested parties on the process for establishing a biorefinery; and

(4) make information and assistance provided by the center available through a toll-free telephone number and website.

(c) Coordination and nonduplication

To the maximum extent practicable, the Secretary shall ensure that the activities under this section are coordinated with, and do not duplicate the efforts of, centers at other government agencies.

(d) Authorization of appropriations

There are authorized to be appropriated such sums as are necessary to carry out this section.

(Pub. L. 110–140, title II, §229, Dec. 19, 2007, 121 Stat. 1535.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§17034. Cellulosic ethanol and biofuels research

(a) Definition of eligible entity

In this section, the term "eligible entity" means—

(1) an 1890 Institution (as defined in section 7601 of title 7);

(2) a part B institution (as defined in section 1061 of title 20) (commonly referred to as "Historically Black Colleges and Universities");

(3) a tribal college or university (as defined in section 1059c(b) of title 20); or

(4) a Hispanic-serving institution (as defined in section 1101a(a) of title 20).

(b) Grants

The Secretary shall make cellulosic ethanol and biofuels research and development grants to 10 eligible entities selected by the Secretary to receive a grant under this section through a peer-reviewed competitive process.

(c) Collaboration

An eligible entity that is selected to receive a grant under subsection (b) shall collaborate with 1 of the Bioenergy Research Centers of the Office of Science of the Department.

(d) Authorization of appropriations

There is authorized to be appropriated to the Secretary to make grants described in subsection (b) $50,000,000 for fiscal year 2008, to remain available until expended.

(Pub. L. 110–140, title II, §230, Dec. 19, 2007, 121 Stat. 1536.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§17035. University based research and development grant program

(a) Establishment

The Secretary shall establish a competitive grant program, in a geographically diverse manner, for projects submitted for consideration by institutions of higher education to conduct research and development of renewable energy technologies. Each grant made shall not exceed $2,000,000.

(b) Eligibility

Priority shall be given to institutions of higher education with—

(1) established programs of research in renewable energy;
(2) locations that are low income or outside of an urbanized area;
(3) a joint venture with an Indian tribe; and
(4) proximity to trees dying of disease or insect infestation as a source of woody biomass.

(c) Authorization of appropriations

There are authorized to be appropriated to the Secretary $25,000,000 for carrying out this section.

(d) Definitions

In this section:

(1) Indian tribe

The term "Indian tribe" has the meaning as defined in section 15823(c) of this title.

(2) Renewable energy

The term "renewable energy" has the meaning as defined in section 16181 of this title.

(3) Urbanized area

The term "urbanized area" has the meaning as defined by the U.S. Bureau of the Census.

(Pub. L. 110–140, title II, §234, Dec. 19, 2007, 121 Stat. 1538.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

PART C—BIOFUELS INFRASTRUCTURE

§17051. Renewable fuel dispenser requirements

(a) Market penetration reports

The Secretary, in consultation with the Secretary of Transportation, shall determine and report to Congress annually on the market penetration for flexible-fuel vehicles in use within geographic regions to be established by the Secretary.

(b) Dispenser feasibility study

Not later than 24 months after December 19, 2007, the Secretary, in consultation with the Department of Transportation, shall report to the Congress on the feasibility of requiring motor fuel retailers to install E–85 compatible dispensers and related systems at retail fuel facilities in regions where flexible-fuel vehicle market penetration has reached 15 percent of motor vehicles. In conducting such study, the Secretary shall consider and report on the following factors:

(1) The commercial availability of E–85 fuel and the number of competing E–85 wholesale suppliers in a given region.

(2) The level of financial assistance provided on an annual basis by the Federal Government, State governments, and nonprofit entities for the installation of E–85 compatible infrastructure.

(3) The number of retailers whose retail locations are unable to support more than 2 underground storage tank dispensers.

(4) The expense incurred by retailers in the installation and sale of E–85 compatible dispensers and related systems and any potential effects on the price of motor vehicle fuel.

(Pub. L. 110–140, title II, §242, Dec. 19, 2007, 121 Stat. 1540.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§17052. Renewable fuel infrastructure grants

(a) Definition of renewable fuel blend

For purposes of this section, the term "renewable fuel blend" means a gasoline blend that contains not less than 11 percent, and not more than 85 percent, renewable fuel or diesel fuel that contains at least 10 percent renewable fuel.

(b) Infrastructure development grants

(1) Establishment

The Secretary shall establish a program for making grants for providing assistance to retail and wholesale motor fuel dealers or other entities for the installation, replacement, or conversion of motor fuel storage and dispensing infrastructure to be used exclusively to store and dispense renewable fuel blends.

(2) Selection criteria

Not later than 12 months after December 19, 2007, the Secretary shall establish criteria for evaluating applications for grants under this subsection that will maximize the availability and use of renewable fuel blends, and that will ensure that renewable fuel blends are available across the country. Such criteria shall provide for—

(A) consideration of the public demand for each renewable fuel blend in a particular geographic area based on State registration records showing the number of flexible-fuel vehicles;

(B) consideration of the opportunity to create or expand corridors of renewable fuel blend stations along interstate or State highways;

(C) consideration of the experience of each applicant with previous, similar projects;

(D) consideration of population, number of flexible-fuel vehicles, number of retail fuel outlets, and saturation of flexible-fuel vehicles; and

(E) priority consideration to applications that—

(i) are most likely to maximize displacement of petroleum consumption, measured as a total quantity and a percentage;

(ii) are best able to incorporate existing infrastructure while maximizing, to the extent practicable, the use of renewable fuel blends; and

(iii) demonstrate the greatest commitment on the part of the applicant to ensure funding for the proposed project and the greatest likelihood that the project will be maintained or expanded after Federal assistance under this subsection is completed.

(3) Limitations

Assistance provided under this subsection shall not exceed—

(A) 33 percent of the estimated cost of the installation, replacement, or conversion of motor fuel storage and dispensing infrastructure; or

(B) $180,000 for a combination of equipment at any one retail outlet location.

(4) Operation of renewable fuel blend stations

The Secretary shall establish rules that set forth requirements for grant recipients under this section that include providing to the public the renewable fuel blends, establishing a marketing plan that informs consumers of the price and availability of the renewable fuel blends, clearly

labeling the dispensers and related equipment, and providing periodic reports on the status of the renewable fuel blend sales, the type and amount of the renewable fuel blends dispensed at each location, and the average price of such fuel.

(5) Notification requirements

Not later than the date on which each renewable fuel blend station begins to offer renewable fuel blends to the public, the grant recipient that used grant funds to construct or upgrade such station shall notify the Secretary of such opening. The Secretary shall add each new renewable fuel blend station to the renewable fuel blend station locator on its Website when it receives notification under this subsection.

(6) Double counting

No person that receives a credit under section 30C of title 26 may receive assistance under this section.

(7) Reservation of funds

The Secretary shall reserve funds appropriated for the renewable fuel blends infrastructure development grant program for technical and marketing assistance described in subsection (c).

(c) Retail technical and marketing assistance

The Secretary shall enter into contracts with entities with demonstrated experience in assisting retail fueling stations in installing refueling systems and marketing renewable fuel blends nationally, for the provision of technical and marketing assistance to recipients of grants under this section. Such assistance shall include—

(1) technical advice for compliance with applicable Federal and State environmental requirements;

(2) help in identifying supply sources and securing long-term contracts; and

(3) provision of public outreach, education, and labeling materials.

(d) Refueling infrastructure corridors

(1) In general

The Secretary shall establish a competitive grant pilot program (referred to in this subsection as the "pilot program"), to be administered through the Vehicle Technology Deployment Program of the Department, to provide not more than 10 geographically-dispersed project grants to State governments, Indian tribal governments, local governments, metropolitan transportation authorities, or partnerships of those entities to carry out 1 or more projects for the purposes described in paragraph (2).

(2) Grant purposes

A grant under this subsection shall be used for the establishment of refueling infrastructure corridors, as designated by the Secretary, for renewable fuel blends, including—

(A) installation of infrastructure and equipment necessary to ensure adequate distribution of renewable fuel blends within the corridor;

(B) installation of infrastructure and equipment necessary to directly support vehicles powered by renewable fuel blends; and

(C) operation and maintenance of infrastructure and equipment installed as part of a project funded by the grant.

(3) Applications

(A) Requirements

(i) In general

Subject to clause (ii), not later than 90 days after December 19, 2007, the Secretary shall issue requirements for use in applying for grants under the pilot program.

(ii) Minimum requirements

At a minimum, the Secretary shall require that an application for a grant under this subsection—

(I) be submitted by—

(aa) the head of a State, tribal, or local government or a metropolitan transportation authority, or any combination of those entities; and

(bb) a registered participant in the Vehicle Technology Deployment Program of the Department; and

(II) include—

(aa) a description of the project proposed in the application, including the ways in which the project meets the requirements of this subsection;

(bb) an estimate of the degree of use of the project, including the estimated size of fleet of vehicles operated with renewable fuels blend available within the geographic region of the corridor, measured as a total quantity and a percentage;

(cc) an estimate of the potential petroleum displaced as a result of the project (measured as a total quantity and a percentage), and a plan to collect and disseminate petroleum displacement and other relevant data relating to the project to be funded under the grant, over the expected life of the project;

(dd) a description of the means by which the project will be sustainable without Federal assistance after the completion of the term of the grant;

(ee) a complete description of the costs of the project, including acquisition, construction, operation, and maintenance costs over the expected life of the project; and

(ff) a description of which costs of the project will be supported by Federal assistance under this subsection.

(B) Partners

An applicant under subparagraph (A) may carry out a project under the pilot program in partnership with public and private entities.

(4) Selection criteria

In evaluating applications under the pilot program, the Secretary shall—

(A) consider the experience of each applicant with previous, similar projects; and

(B) give priority consideration to applications that—

(i) are most likely to maximize displacement of petroleum consumption, measured as a total quantity and a percentage;

(ii) are best able to incorporate existing infrastructure while maximizing, to the extent practicable, the use of advanced biofuels;

(iii) demonstrate the greatest commitment on the part of the applicant to ensure funding for the proposed project and the greatest likelihood that the project will be maintained or expanded after Federal assistance under this subsection is completed;

(iv) represent a partnership of public and private entities; and

(v) exceed the minimum requirements of paragraph (3)(A)(ii).

(5) Pilot project requirements

(A) Maximum amount

The Secretary shall provide not more than $20,000,000 in Federal assistance under the pilot program to any applicant.

(B) Cost sharing

The non-Federal share of the cost of any activity relating to renewable fuel blend infrastructure development carried out using funds from a grant under this subsection shall be not less than 20 percent.

(C) Maximum period of grants

The Secretary shall not provide funds to any applicant under the pilot program for more than

2 years.

(D) Deployment and distribution

The Secretary shall seek, to the maximum extent practicable, to ensure a broad geographic distribution of project sites funded by grants under this subsection.

(E) Transfer of information and knowledge

The Secretary shall establish mechanisms to ensure that the information and knowledge gained by participants in the pilot program are transferred among the pilot program participants and to other interested parties, including other applicants that submitted applications.

(6) Schedule

(A) Initial grants

(i) In general

Not later than 90 days after December 19, 2007, the Secretary shall publish in the Federal Register, Commerce Business Daily, and such other publications as the Secretary considers to be appropriate, a notice and request for applications to carry out projects under the pilot program.

(ii) Deadline

An application described in clause (i) shall be submitted to the Secretary by not later than 180 days after the date of publication of the notice under that clause.

(iii) Initial selection

Not later than 90 days after the date by which applications for grants are due under clause (ii), the Secretary shall select by competitive, peer-reviewed proposal up to 5 applications for projects to be awarded a grant under the pilot program.

(B) Additional grants

(i) In general

Not later than 2 years after December 19, 2007, the Secretary shall publish in the Federal Register, Commerce Business Daily, and such other publications as the Secretary considers to be appropriate, a notice and request for additional applications to carry out projects under the pilot program that incorporate the information and knowledge obtained through the implementation of the first round of projects authorized under the pilot program.

(ii) Deadline

An application described in clause (i) shall be submitted to the Secretary by not later than 180 days after the date of publication of the notice under that clause.

(iii) Initial selection

Not later than 90 days after the date by which applications for grants are due under clause (ii), the Secretary shall select by competitive, peer-reviewed proposal such additional applications for projects to be awarded a grant under the pilot program as the Secretary determines to be appropriate.

(7) Reports to Congress

(A) Initial report

Not later than 60 days after the date on which grants are awarded under this subsection, the Secretary shall submit to Congress a report containing—

(i) an identification of the grant recipients and a description of the projects to be funded under the pilot program;

(ii) an identification of other applicants that submitted applications for the pilot program but to which funding was not provided; and

(iii) a description of the mechanisms used by the Secretary to ensure that the information

and knowledge gained by participants in the pilot program are transferred among the pilot program participants and to other interested parties, including other applicants that submitted applications.

(B) Evaluation

Not later than 2 years after December 19, 2007, and annually thereafter until the termination of the pilot program, the Secretary shall submit to Congress a report containing an evaluation of the effectiveness of the pilot program, including an assessment of the petroleum displacement and benefits to the environment derived from the projects included in the pilot program.

(e) Restriction

No grant shall be provided under subsection (b) or (c) to a large, vertically integrated oil company.

(f) Authorization of appropriations

There are authorized to be appropriated to the Secretary for carrying out this section $200,000,000 for each of the fiscal years 2008 through 2014.

(Pub. L. 110–140, title II, §244, Dec. 19, 2007, 121 Stat. 1541.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§17053. Federal fleet fueling centers

(a) In general

Not later than January 1, 2010, the head of each Federal agency shall install at least 1 renewable fuel pump at each Federal fleet fueling center in the United States under the jurisdiction of the head of the Federal agency.

(b) Report

Not later than October 31 of the first calendar year beginning after December 19, 2007, and each October 31 thereafter, the President shall submit to Congress a report that describes the progress toward complying with subsection (a), including identifying—

(1) the number of Federal fleet fueling centers that contain at least 1 renewable fuel pump; and

(2) the number of Federal fleet fueling centers that do not contain any renewable fuel pumps.

(c) Department of Defense facility

This section shall not apply to a Department of Defense fueling center with a fuel turnover rate of less than 100,000 gallons of fuel per year.

(d) Authorization of appropriations

There are authorized to be appropriated such sums as are necessary to carry out this section.

(Pub. L. 110–140, title II, §246, Dec. 19, 2007, 121 Stat. 1547.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§17054. Biofuels distribution and advanced biofuels infrastructure

(a) In general

The Secretary, in coordination with the Secretary of Transportation and in consultation with the Administrator of the Environmental Protection Agency, shall carry out a program of research, development, and demonstration relating to existing transportation fuel distribution infrastructure and new alternative distribution infrastructure.

(b) Focus

The program described in subsection (a) shall focus on the physical and chemical properties of biofuels and efforts to prevent or mitigate against adverse impacts of those properties in the areas of—

(1) corrosion of metal, plastic, rubber, cork, fiberglass, glues, or any other material used in pipes and storage tanks;
(2) dissolving of storage tank sediments;
(3) clogging of filters;
(4) contamination from water or other adulterants or pollutants;
(5) poor flow properties related to low temperatures;
(6) oxidative and thermal instability in long-term storage and uses;
(7) microbial contamination;
(8) problems associated with electrical conductivity; and
(9) such other areas as the Secretary considers appropriate.

(Pub. L. 110–140, title II, §248, Dec. 19, 2007, 121 Stat. 1548.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

SUBCHAPTER III—ENERGY SAVINGS IN BUILDINGS AND INDUSTRY

§17061. Definitions

In this title: [1]

(1) Administrator

The term "Administrator" means the Administrator of General Services.

(2) Advisory Committee

The term "Advisory Committee" means the Green Building Advisory Committee established under section 484.[1]

(3) Commercial Director

The term "Commercial Director" means the individual appointed to the position established under section 17081 of this title.

(4) Consortium

The term "Consortium" means the High-Performance Green Building Partnership Consortium created in response to section 17092(c)(1) of this title to represent the private sector in a public-private partnership to promote high-performance green buildings and zero-net-energy commercial buildings.

(5) Cost-effective lighting technology

(A) In general

The term "cost-effective lighting technology" means a lighting technology that—

(i) will result in substantial operational cost savings by ensuring an installed consumption of not more than 1 watt per square foot; or

(ii) is contained in a list under—

(I) section 8259b of this title;

(II) Federal acquisition regulation 23–203; and

(III) is at least as energy-conserving as required by other provisions of this Act, including the requirements of this title [1] and title III [1] which shall be applicable to the extent that they would achieve greater energy savings than provided under clause (i) or this clause.[2]

(B) Inclusions

The term "cost-effective lighting technology" includes—

(i) lamps;

(ii) ballasts;

(iii) luminaires;

(iv) lighting controls;

(v) daylighting; and

(vi) early use of other highly cost-effective lighting technologies.

(6) Cost-effective technologies and practices

The term "cost-effective technologies and practices" means a technology or practice that—

(A) will result in substantial operational cost savings by reducing electricity or fossil fuel consumption, water, or other utility costs, including use of geothermal heat pumps;

(B) complies with the provisions of section 8259b of this title and Federal acquisition regulation 23–203; and

(C) is at least as energy and water conserving as required under this title,[1] including sections 431 through 435, and title V,[1] including sections 511 through 525, which shall be applicable to the extent that they are more stringent or require greater energy or water savings than required by this section.

(7) Federal Director

The term "Federal Director" means the individual appointed to the position established under section 17092(a) of this title.

(8) Federal facility

The term "Federal facility" means any building that is constructed, renovated, leased, or purchased in part or in whole for use by the Federal Government.

(9) Operational cost savings

(A) In general

The term "operational cost savings" means a reduction in end-use operational costs through the application of cost-effective technologies and practices or geothermal heat pumps, including a reduction in electricity consumption relative to consumption by the same customer or at the same facility in a given year, as defined in guidelines promulgated by the Administrator pursuant to section 7628(b) of this title, that achieves cost savings sufficient to pay the incremental additional costs of using cost-effective technologies and practices including geothermal heat pumps by not later than the later of the date established under sections 431 through 434,[1] or—

(i) for cost-effective technologies and practices, the date that is 5 years after the date of installation; and

(ii) for geothermal heat pumps, as soon as practical after the date of installation of the applicable geothermal heat pump.

(B) Inclusions

The term "operational cost savings" includes savings achieved at a facility as a result of—

(i) the installation or use of cost-effective technologies and practices; or

(ii) the planting of vegetation that shades the facility and reduces the heating, cooling, or lighting needs of the facility.

(C) Exclusion

The term "operational cost savings" does not include savings from measures that would likely be adopted in the absence of cost-effective technology and practices programs, as determined by the Administrator.

(10) Geothermal heat pump

The term "geothermal heat pump" means any heating or air conditioning technology that—

(A) uses the ground or ground water as a thermal energy source to heat, or as a thermal energy sink to cool, a building; and

(B) meets the requirements of the Energy Star program of the Environmental Protection Agency applicable to geothermal heat pumps on the date of purchase of the technology.

(11) GSA facility

(A) In general

The term "GSA facility" means any building, structure, or facility, in whole or in part (including the associated support systems of the building, structure, or facility) that—

(i) is constructed (including facilities constructed for lease), renovated, or purchased, in whole or in part, by the Administrator for use by the Federal Government; or

(ii) is leased, in whole or in part, by the Administrator for use by the Federal Government—

(I) except as provided in subclause (II), for a term of not less than 5 years; or

(II) for a term of less than 5 years, if the Administrator determines that use of cost-effective technologies and practices would result in the payback of expenses.

(B) Inclusion

The term "GSA facility" includes any group of buildings, structures, or facilities described in subparagraph (A) (including the associated energy-consuming support systems of the buildings, structures, and facilities).

(C) Exemption

The Administrator may exempt from the definition of "GSA facility" under this paragraph a building, structure, or facility that meets the requirements of section 8253(c) of this title.

(12) High-performance building

The term "high-performance building" means a building that integrates and optimizes on a life cycle basis all major high performance attributes, including energy conservation, environment, safety, security, durability, accessibility, cost-benefit, productivity, sustainability, functionality, and operational considerations.

(13) High-performance green building

The term "high-performance green building" means a high-performance building that, during its life-cycle, as compared with similar buildings (as measured by Commercial Buildings Energy Consumption Survey or Residential Energy Consumption Survey data from the Energy Information Agency)—

(A) reduces energy, water, and material resource use;

(B) improves indoor environmental quality, including reducing indoor pollution, improving thermal comfort, and improving lighting and acoustic environments that affect occupant health and productivity;

(C) reduces negative impacts on the environment throughout the life-cycle of the building,

including air and water pollution and waste generation;

(D) increases the use of environmentally preferable products, including biobased, recycled content, and nontoxic products with lower life-cycle impacts;

(E) increases reuse and recycling opportunities;

(F) integrates systems in the building;

(G) reduces the environmental and energy impacts of transportation through building location and site design that support a full range of transportation choices for users of the building; and

(H) considers indoor and outdoor effects of the building on human health and the environment, including—

(i) improvements in worker productivity;

(ii) the life-cycle impacts of building materials and operations; and

(iii) other factors that the Federal Director or the Commercial Director consider to be appropriate.

(14) Life-cycle

The term "life-cycle", with respect to a high-performance green building, means all stages of the useful life of the building (including components, equipment, systems, and controls of the building) beginning at conception of a high-performance green building project and continuing through site selection, design, construction, landscaping, commissioning, operation, maintenance, renovation, deconstruction or demolition, removal, and recycling of the high-performance green building.

(15) Life-cycle assessment

The term "life-cycle assessment" means a comprehensive system approach for measuring the environmental performance of a product or service over the life of the product or service, beginning at raw materials acquisition and continuing through manufacturing, transportation, installation, use, reuse, and end-of-life waste management.

(16) Life-cycle costing

The term "life-cycle costing", with respect to a high-performance green building, means a technique of economic evaluation that—

(A) sums, over a given study period, the costs of initial investment (less resale value), replacements, operations (including energy use), and maintenance and repair of an investment decision; and

(B) is expressed—

(i) in present value terms, in the case of a study period equivalent to the longest useful life of the building, determined by taking into consideration the typical life of such a building in the area in which the building is to be located; or

(ii) in annual value terms, in the case of any other study period.

(17) Office of Commercial High-Performance Green Buildings

The term "Office of Commercial High-Performance Green Buildings" means the Office of Commercial High-Performance Green Buildings established under section 17081(a) of this title.

(18) Office of Federal High-Performance Green Buildings

The term "Office of Federal High-Performance Green Buildings" means the Office of Federal High-Performance Green Buildings established under section 17092(a) of this title.

(19) Practices

The term "practices" means design, financing, permitting, construction, commissioning, operation and maintenance, and other practices that contribute to achieving zero-net-energy buildings or facilities.

(20) Zero-net-energy commercial building

The term "zero-net-energy commercial building" means a commercial building that is designed, constructed, and operated to—

(A) require a greatly reduced quantity of energy to operate;

(B) meet the balance of energy needs from sources of energy that do not produce greenhouse gases;

(C) therefore result in no net emissions of greenhouse gases; and

(D) be economically viable.

(Pub. L. 110–140, title IV, §401, Dec. 19, 2007, 121 Stat. 1596.)

EDITORIAL NOTES

REFERENCES IN TEXT

This title, referred to in text, is title IV of Pub. L. 110–140, Dec. 19, 2007, 121 Stat. 1596, which enacted this subchapter, part C (§6341 et seq.) of subchapter III of chapter 77 of this title, sections 6371h–1 and 7628 of this title, and subchapter V (§2695 et seq.) of chapter 53 of Title 15, Commerce and Trade, amended sections 6832, 6834, 6862, 6872, 8253, 8254, and 12709 of this title, and enacted provisions set out as notes under sections 6834 and 6872 of this title. For complete classification of title IV to the Code, see Tables.

Section 484, referred to in par. (2), probably should be a reference to section 494 of Pub. L. 110–140, which is classified to section 17123 of this title.

This Act, referred to in par. (5)(A)(ii)(III), is Pub. L. 110–140, Dec. 19, 2007, 121 Stat. 1492, known as the Energy Independence and Security Act of 2007, which enacted this chapter and enacted and amended numerous other sections and notes in the Code. For complete classification of this Act to the Code, see Short Title note set out under section 17001 of this title and Tables.

Title III, referred to in par. (5)(A)(ii)(III), is title III of Pub. L. 110–140, Dec. 19, 2007, 121 Stat. 1549, which enacted section 3313 of Title 40, Public Buildings, Property, and Works, amended sections 6291 to 6295, 6297, 6302, 6304, 6311, 6313 to 6316, 15821, and 16191 of this title and sections 3307, 3310, and 3314 to 3316 of Title 40, and enacted provisions set out as notes under sections 6291, 6294, 6295, and 6313 of this title. For complete classification of title III to the Code, see Tables.

Sections 431 through 435, referred to in pars. (6)(C) and 9(A), are sections 431 to 435 of Pub. L. 110–140. Sections 431 to 434 amended sections 6832, 6834, and 8253 of this title and enacted provisions set out as a note under section 6834 of this title. Section 435 enacted section 17091 of this title.

Title V, referred to in par. (6)(C), is title V of Pub. L. 110–140, Dec. 19, 2007, 121 Stat. 1655, which enacted subchapter IV (§17131 et seq.) of this chapter, part D (§8279) of subchapter III of chapter 91 of this title, and sections 1824, 2162a, and 2169 of Title 2, The Congress, amended sections 6325, 6834, 8256, 8258, 8259b, 8287, and 8287c of this title, section 2162 of Title 2, section 2913 of Title 10, Armed Forces, section 3203 of Title 15, Commerce and Trade, and section 2621 of Title 16, Conservation, and enacted provisions set out as a note under section 8259b of this title. For complete classification of title V to the Code, see Tables.

Sections 511 through 525, referred to in par. (6)(C), are sections 511 to 525 of Pub. L. 110–140, which enacted part A (§17131) of subchapter IV of this chapter and section 17141 of this title, amended sections 6834, 8256, 8258, 8259b, 8287, and 8287c of this title and section 2913 of Title 10, Armed Forces, and enacted provisions set out as a note under section 8259b of this title.

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

[1] See References in Text note below.

[2] So in original. Does not fit with cl. (ii) introductory provision.

§17062. Energy efficiency in Federal and other buildings

(a) Definitions

In this section:

(1) Administrator

The term "Administrator" means the Administrator of General Services.

(2) Cost-effective energy efficiency measure

The term "cost-effective energy efficiency measure" means any building product, material, equipment, or service, and the installing, implementing, or operating thereof, that provides energy savings in an amount that is not less than the cost of such installing, implementing, or operating.

(3) Cost-effective water efficiency measure

The term "cost-effective water efficiency measure" means any building product, material, equipment, or service, and the installing, implementing, or operating thereof, that provides water savings in an amount that is not less than the cost of such installing, implementing, or operating.

(b) Model provisions, policies, and best practices

(1) In general

Not later than 180 days after April 30, 2015, the Administrator, in consultation with the Secretary of Energy and after providing the public with an opportunity for notice and comment, shall develop model commercial leasing provisions and best practices in accordance with this subsection.

(2) Commercial leasing

(A) In general

The model commercial leasing provisions developed under this subsection shall, at a minimum, align the interests of building owners and tenants with regard to investments in cost-effective energy efficiency measures and cost-effective water efficiency measures to encourage building owners and tenants to collaborate to invest in such measures.

(B) Use of model provisions

The Administrator may use the model commercial leasing provisions developed under this subsection in any standard leasing document that designates a Federal agency (or other client of the Administrator) as a landlord or tenant.

(C) Publication

The Administrator shall periodically publish the model commercial leasing provisions developed under this subsection, along with explanatory materials, to encourage building owners and tenants in the private sector to use such provisions and materials.

(3) Realty services

The Administrator shall develop policies and practices to implement cost-effective energy efficiency measures and cost-effective water efficiency measures for the realty services provided by the Administrator to Federal agencies (or other clients of the Administrator), including periodic training of appropriate Federal employees and contractors on how to identify and evaluate those measures.

(4) State and local assistance

The Administrator, in consultation with the Secretary of Energy, shall make available model commercial leasing provisions and best practices developed under this subsection to State, county, and municipal governments for use in managing owned and leased building space in accordance with the goal of encouraging investment in all cost-effective energy efficiency measures and cost-effective water efficiency measures.

(Pub. L. 114–11, title I, §102, Apr. 30, 2015, 129 Stat. 182.)

EDITORIAL NOTES

CODIFICATION

Section was enacted as part of the Better Buildings Act of 2015, and also as part of the Energy Efficiency Improvement Act of 2015, and not as part of the Energy Independence and Security Act of 2007 which comprises this chapter.

§17063. Energy information for commercial buildings

(a) Omitted

(b) Study

(1) In general

Not later than 2 years after April 30, 2015, the Secretary of Energy, in collaboration with the Administrator of the Environmental Protection Agency, shall complete a study—

(A) on the impact of—

(i) State and local performance benchmarking and disclosure policies, and any associated building efficiency policies, for commercial and multifamily buildings; and

(ii) programs and systems in which utilities provide aggregated information regarding whole building energy consumption and usage information to owners of multitenant commercial, residential, and mixed-use buildings;

(B) that identifies best practice policy approaches studied under subparagraph (A) that have resulted in the greatest improvements in building energy efficiency; and

(C) that considers—

(i) compliance rates and the benefits and costs of the policies and programs on building owners, utilities, tenants, and other parties;

(ii) utility practices, programs, and systems that provide aggregated energy consumption information to multitenant building owners, and the impact of public utility commissions and State privacy laws on those practices, programs, and systems;

(iii) exceptions to compliance in existing laws where building owners are not able to gather or access whole building energy information from tenants or utilities;

(iv) the treatment of buildings with—

(I) multiple uses;

(II) uses for which baseline information is not available; and

(III) uses that require high levels of energy intensities, such as data centers, trading floors, and televisions [1] studios;

(v) implementation practices, including disclosure methods and phase-in of compliance;

(vi) the safety and security of benchmarking tools offered by government agencies, and the resiliency of those tools against cyber attacks; and

(vii) international experiences with regard to building benchmarking and disclosure laws and data aggregation for multitenant buildings.

(2) Submission to Congress

At the conclusion of the study, the Secretary shall submit to the Committee on Energy and Commerce of the House of Representatives and Committee on Energy and Natural Resources of the Senate a report on the results of the study.

(c) Creation and maintenance of database

(1) In general

Not later than 18 months after April 30, 2015, and following opportunity for public notice and comment, the Secretary of Energy, in coordination with other relevant agencies, shall maintain, and if necessary create, a database for the purpose of storing and making available public energy-related information on commercial and multifamily buildings, including—

(A) data provided under Federal, State, local, and other laws or programs regarding building

benchmarking and energy information disclosure;

(B) information on buildings that have disclosed energy ratings and certifications; and

(C) energy-related information on buildings provided voluntarily by the owners of the buildings, only in an anonymous form unless the owner provides otherwise.

(2) Complementary programs

The database maintained pursuant to paragraph (1) shall complement and not duplicate the functions of the Environmental Protection Agency's Energy Star Portfolio Manager tool.

(d) Input from stakeholders

The Secretary of Energy shall seek input from stakeholders to maximize the effectiveness of the actions taken under this section.

(e) Report

Not later than 2 years after April 30, 2015, and every 2 years thereafter, the Secretary of Energy shall submit to the Committee on Energy and Commerce of the House of Representatives and Committee on Energy and Natural Resources of the Senate a report on the progress made in complying with this section.

(Pub. L. 114–11, title III, §301, Apr. 30, 2015, 129 Stat. 189.)

EDITORIAL NOTES

CODIFICATION

Section is comprised of section 301 of Pub. L. 114–11. Subsec. (a) of section 301 of Pub. L. 114–11 amended section 17091 of this title.

Section was enacted as part of the Energy Efficiency Improvement Act of 2015, and not as part of the Energy Independence and Security Act of 2007 which comprises this chapter.

[1] So in original. Probably should be "television".

§17064. Smart building acceleration

(a) Definitions

In this section:

(1) Department

The term "Department" means the Department of Energy.

(2) Program

The term "program" means the Federal Smart Building Program established under subsection (b)(1).

(3) Secretary

The term "Secretary" means the Secretary of Energy.

(4) Smart building

The term "smart building" means a building, or collection of buildings, with an energy system that—

(A) is flexible and automated;

(B) has extensive operational monitoring and communication connectivity, allowing remote monitoring and analysis of all building functions;

(C) takes a systems-based approach in integrating the overall building operations for control of energy generation, consumption, and storage;

(D) communicates with utilities and other third-party commercial entities, if appropriate;

(E) protects the health and safety of occupants and workers; and

(F) incorporates cybersecurity best practices.

(5) Smart building accelerator

The term "smart building accelerator" means an initiative that is designed to demonstrate specific innovative policies and approaches—

(A) with clear goals and a clear timeline; and

(B) that, on successful demonstration, would accelerate investment in energy efficiency.

(b) Federal Smart Building Program

(1) Establishment

Not later than 1 year after December 27, 2020, the Secretary shall, in consultation with the Administrator of General Services, establish a program to be known as the "Federal Smart Building Program"—

(A) to implement smart building technology; and

(B) to demonstrate the costs and benefits of smart buildings.

(2) Selection

(A) In general

The Secretary shall coordinate the selection of not fewer than 1 building from among each of several key Federal agencies, as described in paragraph (4), to compose an appropriately diverse set of smart buildings based on size, type, and geographic location.

(B) Inclusion of commercially operated buildings

In making selections under subparagraph (A), the Secretary may include buildings that are owned by the Federal Government but are commercially operated.

(3) Targets

Not later than 18 months after December 27, 2020, the Secretary shall establish targets for the number of smart buildings to be commissioned and evaluated by key Federal agencies by 3 years and 6 years after December 27, 2020.

(4) Federal agency described

The key Federal agencies referred to paragraph (2)(A) shall include buildings operated by—

(A) the Department of the Army;

(B) the Department of the Navy;

(C) the Department of the Air Force;

(D) the Department;

(E) the Department of the Interior;

(F) the Department of Veterans Affairs; and

(G) the General Services Administration.

(5) Requirement

In implementing the program, the Secretary shall leverage existing financing mechanisms including energy savings performance contracts, utility energy service contracts, and annual appropriations.

(6) Evaluation

Using the guidelines of the Federal Energy Management Program relating to whole-building evaluation, measurement, and verification, the Secretary shall evaluate the costs and benefits of the buildings selected under paragraph (2), including an identification of—

(A) which advanced building technologies—

(i) are most cost-effective; and

(ii) show the most promise for—

(I) increasing building energy savings;

(II) increasing service performance to building occupants;

(III) reducing environmental impacts; and

(IV) establishing cybersecurity; and

(B) any other information the Secretary determines to be appropriate.

(7) Awards

The Secretary may expand awards made under the Federal Energy Management Program and the Better Building Challenge to recognize specific agency achievements in accelerating the adoption of smart building technologies.

(c) Survey of private sector smart buildings

(1) Survey

The Secretary shall conduct a survey of privately owned smart buildings throughout the United States, including commercial buildings, laboratory facilities, hospitals, multifamily residential buildings, and buildings owned by nonprofit organizations and institutions of higher education.

(2) Selection

From among the smart buildings surveyed under paragraph (1), the Secretary shall select not fewer than 1 building each from an appropriate range of building sizes, types, and geographic locations.

(3) Evaluation

Using the guidelines of the Federal Energy Management Program relating to whole-building evaluation, measurement, and verification, the Secretary shall evaluate the costs and benefits of the buildings selected under paragraph (2), including an identification of—

(A) which advanced building technologies and systems—

(i) are most cost-effective; and

(ii) show the most promise for—

(I) increasing building energy savings;

(II) increasing service performance to building occupants;

(III) reducing environmental impacts; and

(IV) establishing cybersecurity; and

(B) any other information the Secretary determines to be appropriate.

(d) Better building challenge

As part of the Better Building Challenge of the Department, the Secretary, in consultation with major private sector property owners, shall develop smart building accelerators to demonstrate innovative policies and approaches that will accelerate the transition to smart buildings in the public, institutional, and commercial buildings sectors.

(e) Omitted

(f) Report

Not later than 2 years after December 27, 2020, and every 2 years thereafter until a total of 3 reports have been made, the Secretary shall submit to the Committee on Energy and Natural Resources of the Senate and the Committee on Energy and Commerce and the Committee on Science, Space, and Technology of the House of Representatives a report on—

(1) the establishment of the Federal Smart Building Program and the evaluation of Federal smart buildings under subsection (b);

(2) the survey and evaluation of private sector smart buildings under subsection (c); and

(3) any recommendations of the Secretary to further accelerate the transition to smart buildings.

(Pub. L. 116–260, div. Z, title I, §1007, Dec. 27, 2020, 134 Stat. 2433.)

CODIFICATION

Section is comprised of section 1007 of Pub. L. 116–260. Subsec. (e) of section 1007 of Pub. L. 160–260 enacted section 17086 of this title.

Section was enacted as part of the Energy Act of 2020, and not as part of the Energy Independence and Security Act of 2007 which comprises this chapter.

PART A—RESIDENTIAL BUILDING EFFICIENCY

§17071. Energy Code improvements applicable to manufactured housing

(a) Establishment of standards

(1) In general

Not later than 4 years after December 19, 2007, the Secretary shall by regulation establish standards for energy efficiency in manufactured housing.

(2) Notice, comment, and consultation

Standards described in paragraph (1) shall be established after—

(A) notice and an opportunity for comment by manufacturers of manufactured housing and other interested parties; and

(B) consultation with the Secretary of Housing and Urban Development, who may seek further counsel from the Manufactured Housing Consensus Committee.

(b) Requirements

(1) International Energy Conservation Code

The energy conservation standards established under this section shall be based on the most recent version of the International Energy Conservation Code (including supplements), except in cases in which the Secretary finds that the code [1] is not cost-effective, or a more stringent standard would be more cost-effective, based on the impact of the code [1] on the purchase price of manufactured housing and on total life-cycle construction and operating costs.

(2) Considerations

The energy conservation standards established under this section may—

(A) take into consideration the design and factory construction techniques of manufactured homes;

(B) be based on the climate zones established by the Department of Housing and Urban Development rather than the climate zones under the International Energy Conservation Code; and

(C) provide for alternative practices that result in net estimated energy consumption equal to or less than the specified standards.

(3) Updating

The energy conservation standards established under this section shall be updated not later than—

(A) 1 year after December 19, 2007; and

(B) 1 year after any revision to the International Energy Conservation Code.

(c) Enforcement

Any manufacturer of manufactured housing that violates a provision of the regulations under subsection (a) is liable to the United States for a civil penalty in an amount not exceeding 1 percent of the manufacturer's retail list price of the manufactured housing.

(Pub. L. 110–140, title IV, §413, Dec. 19, 2007, 121 Stat. 1601.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

[1] *So in original. Probably should be "Code".*

PART B—HIGH-PERFORMANCE COMMERCIAL BUILDINGS

§17081. Commercial high-performance green buildings

(a) Director of Commercial High-Performance Green Buildings

Notwithstanding any other provision of law, the Secretary, acting through the Assistant Secretary of Energy Efficiency and Renewable Energy, shall appoint a Director of Commercial High-Performance Green Buildings to a position in the career-reserved Senior Executive service, with the principal responsibility to—

(1) establish and manage the Office of Commercial High-Performance Green Buildings; and

(2) carry out other duties as required under this part.

(b) Qualifications

The Commercial Director shall be an individual, who by reason of professional background and experience, is specifically qualified to carry out the duties required under this part.

(c) Duties

The Commercial Director shall, with respect to development of high-performance green buildings and zero-energy commercial buildings nationwide—

(1) coordinate the activities of the Office of Commercial High-Performance Green Buildings with the activities of the Office of Federal High-Performance Green Buildings;

(2) develop the legal predicates and agreements for, negotiate, and establish one or more public-private partnerships with the Consortium, members of the Consortium, and other capable parties meeting the qualifications of the Consortium, to further such development;

(3) represent the public and the Department in negotiating and performing in accord with such public-private partnerships;

(4) use appropriated funds in an effective manner to encourage the maximum investment of private funds to achieve such development;

(5) promote research and development of high-performance green buildings, consistent with section 17083 of this title; and

(6) jointly establish with the Federal Director a national high-performance green building clearinghouse in accordance with section 17083(1) of this title, which shall provide high-performance green building information and disseminate research results through—

(A) outreach;

(B) education; and

(C) the provision of technical assistance.

(d) Reporting

The Commercial Director shall report directly to the Assistant Secretary for Energy Efficiency and Renewable Energy, or to other senior officials in a way that facilitates the integrated program of this part for both energy efficiency and renewable energy and both technology development and technology deployment.

(e) Coordination

The Commercial Director shall ensure full coordination of high-performance green building information and activities, including activities under this part, within the Federal Government by

working with the General Services Administration and all relevant agencies, including, at a minimum—

(1) the Environmental Protection Agency;
(2) the Office of the Federal Environmental Executive;
(3) the Office of Federal Procurement Policy;
(4) the Department of Energy, particularly the Federal Energy Management Program;
(5) the Department of Health and Human Services;
(6) the Department of Housing and Urban Development;
(7) the Department of Defense;
(8) the National Institute of Standards and Technology;
(9) the Department of Transportation;
(10) the Office of Science Technology and Policy; and
(11) such nonprofit high-performance green building rating and analysis entities as the Commercial Director determines can offer support, expertise, and review services.

(f) High-Performance Green Building Partnership Consortium

(1) Recognition

Not later than 90 days after December 19, 2007, the Commercial Director shall formally recognize one or more groups that qualify as a high-performance green building partnership consortium.

(2) Representation to qualify

To qualify under this section, any consortium shall include representation from—

(A) the design professions, including national associations of architects and of professional engineers;
(B) the development, construction, financial, and real estate industries;
(C) building owners and operators from the public and private sectors;
(D) academic and research organizations, including at least one national laboratory with extensive commercial building energy expertise;
(E) building code agencies and organizations, including a model energy code-setting organization;
(F) independent high-performance green building associations or councils;
(G) experts in indoor air quality and environmental factors;
(H) experts in intelligent buildings and integrated building information systems;
(I) utility energy efficiency programs;
(J) manufacturers and providers of equipment and techniques used in high-performance green buildings;
(K) public transportation industry experts; and
(L) nongovernmental energy efficiency organizations.

(3) Funding

The Secretary may make payments to the Consortium pursuant to the terms of a public-private partnership for such activities of the Consortium undertaken under such a partnership as described in this part directly to the Consortium or through one or more of its members.

(g) Report

Not later than 2 years after December 19, 2007, and biennially thereafter, the Commercial Director, in consultation with the Consortium, shall submit to Congress a report that—

(1) describes the status of the high-performance green building initiatives under this part and other Federal programs affecting commercial high-performance green buildings in effect as of the date of the report, including—
(A) the extent to which the programs are being carried out in accordance with this part; and
(B) the status of funding requests and appropriations for those programs; and

(2) summarizes and highlights development, at the State and local level, of high-performance green building initiatives, including executive orders, policies, or laws adopted promoting high-performance green building (including the status of implementation of those initiatives).

(Pub. L. 110–140, title IV, §421, Dec. 19, 2007, 121 Stat. 1602.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

EXECUTIVE DOCUMENTS

CHANGE OF NAME

Office of the Federal Environmental Executive reestablished as the Office of the Chief Sustainability Officer by Ex. Ord. No. 13693, §6, Mar. 19, 2015, 80 F.R. 15877, set out in a note under section 4321 of this title.

§17082. Zero Net Energy Commercial Buildings Initiative

(a) Definitions

In this section:

(1) Consortium

The term "consortium" means a High-Performance Green Building Consortium selected by the Commercial Director.

(2) Initiative

The term "initiative" means the Zero-Net-Energy Commercial Buildings Initiative established under subsection (b)(1).

(3) Zero-net-energy commercial building

The term "zero-net-energy commercial building" means a high-performance commercial building that is designed, constructed, and operated—

(A) to require a greatly reduced quantity of energy to operate;

(B) to meet the balance of energy needs from sources of energy that do not produce greenhouse gases;

(C) in a manner that will result in no net emissions of greenhouse gases; and

(D) to be economically viable.

(b) Establishment

(1) In general

The Commercial Director shall establish an initiative, to be known as the "Zero-Net-Energy Commercial Buildings Initiative"—

(A) to reduce the quantity of energy consumed by commercial buildings located in the United States; and

(B) to achieve the development of zero net energy commercial buildings in the United States.

(2) Consortium

(A) In general

Not later than 180 days after December 19, 2007, the Commercial Director shall competitively select, and enter into an agreement with, a consortium to develop and carry out the initiative.

(B) Agreements

In entering into an agreement with a consortium under subparagraph (A), the Commercial Director shall use the authority described in section 7256(g) of this title, to the maximum extent practicable.

(c) Goal of initiative

The goal of the initiative shall be to develop and disseminate technologies, practices, and policies for the development and establishment of zero net energy commercial buildings for—

(1) any commercial building newly constructed in the United States by 2030;

(2) 50 percent of the commercial building stock of the United States by 2040; and

(3) all commercial buildings in the United States by 2050.

(d) Components

In carrying out the initiative, the Commercial Director, in consultation with the consortium, may—

(1) conduct research and development on building science, design, materials, components, equipment and controls, operation and other practices, integration, energy use measurement, and benchmarking;

(2) conduct pilot programs and demonstration projects to evaluate replicable approaches to achieving energy efficient commercial buildings for a variety of building types in a variety of climate zones;

(3) conduct deployment, dissemination, and technical assistance activities to encourage widespread adoption of technologies, practices, and policies (including demand-response technologies, practices, and policies) to achieve energy efficient commercial buildings;

(4) conduct other research, development, demonstration, and deployment activities necessary to achieve each goal of the initiative, as determined by the Commercial Director, in consultation with the consortium;

(5) develop training materials and courses for building professionals and trades on achieving cost-effective high-performance energy efficient buildings;

(6) develop and disseminate public education materials to share information on the benefits and cost-effectiveness of high-performance energy efficient buildings;

(7) support code-setting organizations and State and local governments in developing minimum performance standards in building codes that recognize the ready availability of many technologies utilized in high-performance energy efficient buildings;

(8) develop strategies for overcoming the split incentives between builders and purchasers, and landlords and tenants, to ensure that energy efficiency and high-performance investments are made that are cost-effective on a lifecycle basis; and

(9) develop improved means of measurement and verification of energy savings and performance for public dissemination.

(e) Cost sharing

In carrying out this section, the Commercial Director shall require cost sharing in accordance with section 16352 of this title.

(f) Authorization of appropriations

There are authorized to be appropriated to carry out this section—

(1) $20,000,000 for fiscal year 2008;

(2) $50,000,000 for each of fiscal years 2009 and 2010;

(3) $100,000,000 for each of fiscal years 2011 and 2012; and

(4) $200,000,000 for each of fiscal years 2013 through 2018.

(Pub. L. 110–140, title IV, §422, Dec. 19, 2007, 121 Stat. 1604; Pub. L. 117–58, div. D, title I, §40104(d), Nov. 15, 2021, 135 Stat. 933.)

EDITORIAL NOTES

AMENDMENTS

2021—Subsec. (d)(3). Pub. L. 117–58 inserted "(including demand-response technologies, practices, and policies)" after "policies".

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§17083. Public outreach

The Commercial Director and Federal Director, in coordination with the Consortium, shall carry out public outreach to inform individuals and entities of the information and services available governmentwide by—

(1) establishing and maintaining a national high-performance green building clearinghouse, including on the Internet, that—

(A) identifies existing similar efforts and coordinates activities of common interest; and

(B) provides information relating to high-performance green buildings, including hyperlinks to Internet sites that describe the activities, information, and resources of—

(i) the Federal Government;

(ii) State and local governments;

(iii) the private sector (including nongovernmental and nonprofit entities and organizations); and

(iv) international organizations;

(2) identifying and recommending educational resources for implementing high-performance green building practices, including security and emergency benefits and practices;

(3) providing access to technical assistance, tools, and resources for constructing high-performance green buildings, particularly tools to conduct life-cycle costing and life-cycle assessment;

(4) providing information on application processes for certifying a high-performance green building, including certification and commissioning;

(5) providing to the public, through the Commercial Director, technical and research information or other forms of assistance or advice that would be useful in planning and constructing high-performance green buildings;

(6) using such additional methods as are determined by the Commercial Director to be appropriate to conduct public outreach;

(7) surveying existing research and studies relating to high-performance green buildings; and

(8) coordinating activities of common interest.

(Pub. L. 110–140, title IV, §423, Dec. 19, 2007, 121 Stat. 1606.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§17084. Separate spaces with high-performance energy efficiency measures

(a) Definitions

In this section:

(1) High-performance energy efficiency measure

The term "high-performance energy efficiency measure" means a technology, product, or practice that will result in substantial operational cost savings by reducing energy consumption and utility costs.

(2) Separate spaces

The term "separate spaces" means areas within a commercial building that are leased or otherwise occupied by a tenant or other occupant for a period of time pursuant to the terms of a written agreement.

(b) Study

(1) In general

Not later than 1 year after April 30, 2015, the Secretary, acting through the Assistant Secretary of Energy Efficiency and Renewable Energy, shall complete a study on the feasibility of—

(A) significantly improving energy efficiency in commercial buildings through the design and construction, by owners and tenants, of separate spaces with high-performance energy efficiency measures; and

(B) encouraging owners and tenants to implement high-performance energy efficiency measures in separate spaces.

(2) Scope

The study shall, at a minimum, include—

(A) descriptions of—

(i) high-performance energy efficiency measures that should be considered as part of the initial design and construction of separate spaces;

(ii) processes that owners, tenants, architects, and engineers may replicate when designing and constructing separate spaces with high-performance energy efficiency measures;

(iii) policies and best practices to achieve reductions in energy intensities for lighting, plug loads, heating, cooling, cooking, laundry, and other systems to satisfy the needs of the commercial building tenant;

(iv) return on investment and payback analyses of the incremental cost and projected energy savings of the proposed set of high-performance energy efficiency measures, including consideration of available incentives;

(v) models and simulation methods that predict the quantity of energy used by separate spaces with high-performance energy efficiency measures and that compare that predicted quantity to the quantity of energy used by separate spaces without high-performance energy efficiency measures but that otherwise comply with applicable building code requirements;

(vi) measurement and verification platforms demonstrating actual energy use of high-performance energy efficiency measures installed in separate spaces, and whether such measures generate the savings intended in the initial design and construction of the separate spaces;

(vii) best practices that encourage an integrated approach to designing and constructing separate spaces to perform at optimum energy efficiency in conjunction with the central systems of a commercial building; and

(viii) any impact on employment resulting from the design and construction of separate spaces with high-performance energy efficiency measures; and

(B) case studies reporting economic and energy savings returns in the design and construction of separate spaces with high-performance energy efficiency measures.

(3) Public participation

Not later than 90 days after April 30, 2015, the Secretary shall publish a notice in the Federal Register requesting public comments regarding effective methods, measures, and practices for the

design and construction of separate spaces with high-performance energy efficiency measures.

(4) Publication

The Secretary shall publish the study on the website of the Department of Energy.

(Pub. L. 110–140, title IV, §424, as added Pub. L. 114–11, title I, §103(a), Apr. 30, 2015, 129 Stat. 183.)

§17085. Tenant Star program

(a) Definitions

In this section:

(1) High-performance energy efficiency measure

The term "high-performance energy efficiency measure" has the meaning given the term in section 17084 of this title.

(2) Separate spaces

The term "separate spaces" has the meaning given the term in section 17084 of this title.

(b) Tenant Star

The Administrator of the Environmental Protection Agency, in consultation with the Secretary of Energy, shall develop a voluntary program within the Energy Star program established by section 6294a of this title, which may be known as "Tenant Star", to promote energy efficiency in separate spaces leased by tenants or otherwise occupied within commercial buildings.

(c) Expanding survey data

The Secretary of Energy, acting through the Administrator of the Energy Information Administration, shall—

(1) collect, through each Commercial Buildings Energy Consumption Survey of the Energy Information Administration that is conducted after April 30, 2015, data on—

(A) categories of building occupancy that are known to consume significant quantities of energy, such as occupancy by data centers, trading floors, and restaurants; and

(B) other aspects of the property, building operation, or building occupancy determined by the Administrator of the Energy Information Administration, in consultation with the Administrator of the Environmental Protection Agency, to be relevant in lowering energy consumption;

(2) with respect to the first Commercial Buildings Energy Consumption Survey conducted after April 30, 2015, to the extent full compliance with the requirements of paragraph (1) is not feasible, conduct activities to develop the capability to collect such data and begin to collect such data; and

(3) make data collected under paragraphs (1) and (2) available to the public in aggregated form and provide such data, and any associated results, to the Administrator of the Environmental Protection Agency for use in accordance with subsection (d).

(d) Recognition of owners and tenants

(1) Occupancy-based recognition

Not later than 1 year after the date on which sufficient data is received pursuant to subsection (c), the Administrator of the Environmental Protection Agency shall, following an opportunity for public notice and comment—

(A) in a manner similar to the Energy Star rating system for commercial buildings, develop policies and procedures to recognize tenants in commercial buildings that voluntarily achieve high levels of energy efficiency in separate spaces;

(B) establish building occupancy categories eligible for Tenant Star recognition based on the data collected under subsection (c) and any other appropriate data sources; and

(C) consider other forms of recognition for commercial building tenants or other occupants that lower energy consumption in separate spaces.

(2) Design- and construction-based recognition

After the study required by section 17084(b) of this title is completed, the Administrator of the Environmental Protection Agency, in consultation with the Secretary and following an opportunity for public notice and comment, may develop a voluntary program to recognize commercial building owners and tenants that use high-performance energy efficiency measures in the design and construction of separate spaces.

(Pub. L. 110–140, title IV, §425, as added Pub. L. 114–11, title I, §104(a), Apr. 30, 2015, 129 Stat. 185.)

§17086. Advanced integration of buildings onto the electric grid

(a) In general

The Secretary shall establish a program of research, development, and demonstration to enable components of commercial and residential buildings to serve as dynamic energy loads on and resources for the electric grid. The program shall focus on—

(1) developing low-cost, low power, wireless sensors to—

(A) monitor building energy load;

(B) forecast building energy need; and

(C) enable building-level energy control;

(2) developing data management capabilities and standard communication protocols to further interoperability at the building and grid-level;

(3) developing advanced building-level energy management of components through integration of smart technologies, control systems, and data processing, to enable energy efficiency and savings;

(4) optimizing energy consumption at the building level to enable grid stability and resilience;

(5) improving visualization of behind the meter equipment and technologies to provide better insight into the energy needs and energy forecasts of individual buildings;

(6) reducing the cost of key components to accelerate the adoption of smart building technologies;

(7) protecting against cybersecurity threats and addressing security vulnerabilities of building systems or equipment; and

(8) other areas determined appropriate by the Secretary.

(b) Considerations

In carrying out the program under subsection (a), the Secretary shall—

(1) work with utility partners, building owners, technology vendors, and building developers to test and validate technologies and encourage the commercial application of these technologies by building owners; and

(2) consider the specific challenges of enabling greater interaction between components of—

(A) small- and medium-sized buildings and the electric grid; and

(B) residential and commercial buildings and the electric grid.

(c) Buildings-to-grid integration report

Not later than 1 year after December 27, 2020, the Secretary shall submit to the Committee on Science, Space, and Technology and the Committee on Energy and Commerce of the House of Representatives and the Committee on Energy and Natural Resources of the Senate a report on the results of a study that examines the research, development, and demonstration opportunities, challenges, and standards needed to enable components of commercial and residential buildings to serve as dynamic energy loads on and resources for the electric grid.

(1) Report requirements

The report shall include—

(A) an assessment of the technologies needed to enable building components as dynamic loads on and resources for the electric grid, including how such technologies can be—

(i) incorporated into new commercial and residential buildings; and

(ii) retrofitted in older buildings;

(B) guidelines for the design of new buildings and building components to enable modern grid interactivity and improve energy efficiency;

(C) an assessment of barriers to the adoption by building owners of advanced technologies enabling greater integration of building components onto the electric grid; and

(D) an assessment of the feasibility of adopting technologies developed under subsection (a) at Department facilities.

(2) Recommendations

As part of the report, the Secretary shall develop a 10-year roadmap to guide the research, development, and demonstration program to enable components of commercial and residential buildings to serve as dynamic energy loads on and resources for the electric grid.

(3) Updates

The Secretary shall update the report required under this section every 3 years for the duration of the program under subsection (a) and shall submit the updated report to the Committee on Science, Space, and Technology and the Committee on Energy and Commerce of the House of Representatives and the Committee on Energy and Natural Resources of the Senate.

(d) Program implementation

In carrying out this section, the Secretary shall—

(1) implement the recommendations from the report in subsection (c); and

(2) coordinate across all relevant program offices at the Department to achieve the goals established in this section, including the Office of Electricity.

(Pub. L. 110–140, title IV, §426, as added Pub. L. 116–260, div. Z, title I, §1007(e)(1), Dec. 27, 2020, 134 Stat. 2435.)

PART C—HIGH-PERFORMANCE FEDERAL BUILDINGS

§17091. Leasing

(a) In general

Except as provided in subsection (b), effective beginning on the date that is 3 years after December 19, 2007, no Federal agency shall enter into a contract to lease space in a building that has not earned the Energy Star label in the most recent year.

(b) Exception

(1) Application

This subsection applies if—

(A) no space is available in a building described in subsection (a) that meets the functional requirements of an agency, including locational needs;

(B) the agency proposes to remain in a building that the agency has occupied previously;

(C) the agency proposes to lease a building of historical, architectural, or cultural significance (as defined in section 3306(a)(4) of title 40) or space in such a building; or

(D) the lease is for not more than 10,000 gross square feet of space.

(2) Buildings without Energy Star label

If one of the conditions described in paragraph (1) is met, the agency may enter into a contract to lease space in a building that has not earned the Energy Star label in the most recent year if the lease contract includes provisions requiring that, prior to occupancy or, in the case of a contract described in paragraph (1)(B), not later than 1 year after signing the contract, the following requirements are met:

(A) The space is renovated for all energy efficiency and conservation improvements that would be cost effective over the life of the lease, including improvements in lighting, windows, and heating, ventilation, and air conditioning systems.

(B)(i) Subject to clause (ii), the space is benchmarked under a nationally recognized, online, free benchmarking program, with public disclosure, unless the space is a space for which owners cannot access whole building utility consumption data, including spaces—

(I) that are located in States with privacy laws that provide that utilities shall not provide such aggregated information to multitenant building owners; and

(II) for which tenants do not provide energy consumption information to the commercial building owner in response to a request from the building owner.

(ii) A Federal agency that is a tenant of the space shall provide to the building owner, or authorize the owner to obtain from the utility, the energy consumption information of the space for the benchmarking and disclosure required by this subparagraph.

(c) Revision of Federal Acquisition Regulation

(1) In general

Not later than 3 years after December 19, 2007, the Federal Acquisition Regulation described in section 1121(b) and (c)(1) of title 41 shall be revised to require Federal officers and employees to comply with this section in leasing buildings.

(2) Consultation

The members of the Federal Acquisition Regulatory Council established under section 1302(a) of title 41 shall consult with the Federal Director and the Commercial Director before promulgating regulations to carry out this subsection.

(Pub. L. 110–140, title IV, §435, Dec. 19, 2007, 121 Stat. 1615; Pub. L. 114–11, title III, §301(a), Apr. 30, 2015, 129 Stat. 189.)

EDITORIAL NOTES

CODIFICATION

In subsec. (c)(1), "section 1121(b) and (c)(1) of title 41" substituted for "section 6(a) of the Office of Federal Procurement Policy Act (41 U.S.C. 405(a))" on authority of Pub. L. 111–350, §6(c), Jan. 4, 2011, 124 Stat. 3854, which Act enacted Title 41, Public Contracts.

In subsec. (c)(2), "section 1302(a) of title 41" substituted for "section 25 of the Office of Federal Procurement Policy Act (41 U.S.C. 421)" on authority of Pub. L. 111–350, §6(c), Jan. 4, 2011, 124 Stat. 3854, which Act enacted Title 41, Public Contracts.

AMENDMENTS

2015—Subsec. (b)(2). Pub. L. 114–11 substituted "paragraph (1) is met" for "paragraph (2) is met" and "signing the contract, the following requirements are met:" for "signing the contract, the space will be renovated for all energy efficiency and conservation improvements that would be cost effective over the life of the lease, including improvements in lighting, windows, and heating, ventilation, and air conditioning systems." and added subpars. (A) and (B).

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§17092. High-performance green Federal buildings

(a) Establishment of Office

Not later than 60 days after December 19, 2007, the Administrator shall establish within the General Services Administration an Office of Federal High-Performance Green Buildings, and appoint an individual to serve as Federal Director in, a position in the career-reserved Senior Executive service, to—

(1) establish and manage the Office of Federal High-Performance Green Buildings; and

(2) carry out other duties as required under this part.

(b) Compensation

The compensation of the Federal Director shall not exceed the maximum rate of basic pay for the Senior Executive Service under section 5382 of title 5, including any applicable locality-based comparability payment that may be authorized under section 5304(h)(2)(C) of that title.

(c) Duties

The Federal Director shall—

(1) coordinate the activities of the Office of Federal High-Performance Green Buildings with the activities of the Office of Commercial High-Performance Green Buildings, and the Secretary, in accordance with section 6834(a)(3)(D) of this title;

(2) ensure full coordination of high-performance green building information and activities within the General Services Administration and all relevant agencies, including, at a minimum—

(A) the Environmental Protection Agency;

(B) the Office of the Federal Environmental Executive;

(C) the Office of Federal Procurement Policy;

(D) the Department of Energy;

(E) the Department of Health and Human Services;

(F) the Department of Defense;

(G) the Department of Transportation;

(H) the National Institute of Standards and Technology; and

(I) the Office of Science and Technology Policy;

(3) establish a senior-level Federal Green Building Advisory Committee under section 474,[1] which shall provide advice and recommendations in accordance with that section and subsection (d);

(4) identify and every 5 years reassess improved or higher rating standards recommended by the Advisory Committee;

(5) ensure full coordination, dissemination of information regarding, and promotion of the results of research and development information relating to Federal high-performance green building initiatives;

(6) identify and develop Federal high-performance green building standards for all types of Federal facilities, consistent with the requirements of this part and section 6834(a)(3)(D) of this title;

(7) establish green practices that can be used throughout the life of a Federal facility;

(8) review and analyze current Federal budget practices and life-cycle costing issues, and make recommendations to Congress, in accordance with subsection (d); and

(9) identify opportunities to demonstrate innovative and emerging green building technologies and concepts.

(d) Additional duties

The Federal Director, in consultation with the Commercial Director and the Advisory Committee,

and consistent with the requirements of section 6834(a)(3)(D) of this title shall—

(1) identify, review, and analyze current budget and contracting practices that affect achievement of high-performance green buildings, including the identification of barriers to high-performance green building life-cycle costing and budgetary issues;

(2) develop guidance and conduct training sessions with budget specialists and contracting personnel from Federal agencies and budget examiners to apply life-cycle cost criteria to actual projects;

(3) identify tools to aid life-cycle cost decisionmaking; and

(4) explore the feasibility of incorporating the benefits of high-performance green buildings, such as security benefits, into a cost-budget analysis to aid in life-cycle costing for budget and decisionmaking processes.

(e) Incentives

Within 90 days after December 19, 2007, the Federal Director shall identify incentives to encourage the expedited use of high-performance green buildings and related technology in the operations of the Federal Government, in accordance with the requirements of section 6834(a)(3)(D) of this title, including through—

(1) the provision of recognition awards; and

(2) the maximum feasible retention of financial savings in the annual budgets of Federal agencies for use in reinvesting in future high-performance green building initiatives.

(f) Report

Not later than 2 years after December 19, 2007, and biennially thereafter, the Federal Director, in consultation with the Secretary, shall submit to Congress a report that—

(1) describes the status of compliance with this part, the requirements of section 6834(a)(3)(D) of this title, and other Federal high-performance green building initiatives in effect as of the date of the report, including—

(A) the extent to which the programs are being carried out in accordance with this part and the requirements of section 6834(a)(3)(D) of this title; and

(B) the status of funding requests and appropriations for those programs;

(2) identifies within the planning, budgeting, and construction process all types of Federal facility procedures that may affect the certification of new and existing Federal facilities as high-performance green buildings under the provisions of section 6834(a)(3)(D) of this title and the criteria established in subsection (h);

(3) identifies inconsistencies, as reported to the Advisory Committee, in Federal law with respect to product acquisition guidelines and high-performance product guidelines;

(4) recommends language for uniform standards for use by Federal agencies in environmentally responsible acquisition;

(5) in coordination with the Office of Management and Budget, reviews the budget process for capital programs with respect to alternatives for—

(A) restructuring of budgets to require the use of complete energy and environmental cost accounting;

(B) using operations expenditures in budget-related decisions while simultaneously incorporating productivity and health measures (as those measures can be quantified by the Office of Federal High-Performance Green Buildings, with the assistance of universities and national laboratories);

(C) streamlining measures for permitting Federal agencies to retain all identified savings accrued as a result of the use of life-cycle costing for future high-performance green building initiatives; and

(D) identifying short-term and long-term cost savings that accrue from high-performance green buildings, including those relating to health and productivity;

(6) identifies green, self-sustaining technologies to address the operational needs of Federal

facilities in times of national security emergencies, natural disasters, or other dire emergencies;

(7) summarizes and highlights development, at the State and local level, of high-performance green building initiatives, including executive orders, policies, or laws adopted promoting high-performance green building (including the status of implementation of those initiatives); and

(8) includes, for the 2-year period covered by the report, recommendations to address each of the matters, and a plan for implementation of each recommendation, described in paragraphs (1) through (7).

(g) Implementation

The Office of Federal High-Performance Green Buildings shall carry out each plan for implementation of recommendations under subsection (f)(8).

(h) Identification of certification system

(1) In general

For the purpose of this section, not later than 60 days after December 19, 2007, the Federal Director shall identify and shall provide to the Secretary pursuant to section 6834(a)(3)(D) of this title, a certification system that the Director determines to be the most likely to encourage a comprehensive and environmentally-sound approach to certification of green buildings.

(2) Basis

The system identified under paragraph (1) shall be based on—

(A) a study completed every 5 years and provided to the Secretary pursuant to section 6834(a)(3)(D) of this title, which shall be carried out by the Federal Director to compare and evaluate standards;

(B) the ability and availability of assessors and auditors to independently verify the criteria and measurement of metrics at the scale necessary to implement this part;

(C) the ability of the applicable standard-setting organization to collect and reflect public comment;

(D) the ability of the standard to be developed and revised through a consensus-based process;

(E) an evaluation of the robustness of the criteria for a high-performance green building, which shall give credit for promoting—

(i) efficient and sustainable use of water, energy, and other natural resources;

(ii) use of renewable energy sources;

(iii) improved indoor environmental quality through enhanced indoor air quality, thermal comfort, acoustics, day lighting, pollutant source control, and use of low-emission materials and building system controls;

(iv) reduced impacts from transportation through building location and site design that promote access by public transportation; and

(v) such other criteria as the Federal Director determines to be appropriate; and

(F) national recognition within the building industry.

(Pub. L. 110–140, title IV, §436, Dec. 19, 2007, 121 Stat. 1616.)

EDITORIAL NOTES

REFERENCES IN TEXT

This part, referred to in subsecs. (a)(2), (c)(6), (f)(1) and (h)(2)(B), was in the original "this subtitle", meaning subtitle C (§§431–441) of title IV of Pub. L. 110–140, Dec. 19, 2007, 121 Stat. 1607, which enacted this part, amended sections 6832, 6834, 8253, and 8254 of this title, and enacted provisions set out as a note under section 6834 of this title. For complete classification of subtitle C to the Code, see Tables.

Section 474, referred to in subsec. (c)(3), probably means section 494 of Pub. L. 110–140, which is classified to section 17123 of this title.

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

EXECUTIVE DOCUMENTS

CHANGE OF NAME

Office of the Federal Environmental Executive reestablished as the Office of the Chief Sustainability Officer by Ex. Ord. No. 13693, §6, Mar. 19, 2015, 80 F.R. 15877, set out in a note under section 4321 of this title.

[1] *See References in Text note below.*

§17093. Federal green building performance

(a) In general

Not later than October 31 of each of the 2 fiscal years following the fiscal year in which this Act is enacted, and at such times thereafter as the Comptroller General of the United States determines to be appropriate, the Comptroller General of the United States shall, with respect to the fiscal years that have passed since the preceding report—

(1) conduct an audit of the implementation of this part, section 6834(a)(3)(D) of this title, and section 17091 of this title; and

(2) submit to the Federal Director, the Advisory Committee, the Administrator, and Congress a report describing the results of the audit.

(b) Contents

An audit under subsection (a) shall include a review, with respect to the period covered by the report under subsection (a)(2), of—

(1) budget, life-cycle costing, and contracting issues, using best practices identified by the Comptroller General of the United States and heads of other agencies in accordance with section 17092(d) of this title;

(2) the level of coordination among the Federal Director, the Office of Management and Budget, the Department of Energy, and relevant agencies;

(3) the performance of the Federal Director and other agencies in carrying out the implementation plan;

(4) the design stage of high-performance green building measures;

(5) high-performance building data that were collected and reported to the Office; and

(6) such other matters as the Comptroller General of the United States determines to be appropriate.

(c) Environmental Stewardship Scorecard

The Federal Director shall consult with the Advisory Committee to enhance, and assist in the implementation of, the Office of Management and Budget government efficiency reports and scorecards under section 17144 of this title and the Environmental Stewardship Scorecard announced at the White House summit on Federal sustainable buildings in January 2006, to measure the implementation by each Federal agency of sustainable design and green building initiatives.

(Pub. L. 110–140, title IV, §437, Dec. 19, 2007, 121 Stat. 1619.)

EDITORIAL NOTES

REFERENCES IN TEXT

This Act, referred to in subsec. (a), is Pub. L. 110–140, which was approved Dec. 19, 2007.

This part, referred to in subsec. (a)(1), was in the original "this subtitle", meaning subtitle C (§§431–441) of title IV of Pub. L. 110–140, Dec. 19, 2007, 121 Stat. 1607, which enacted this part, amended sections 6832, 6834, 8253, and 8254 of this title, and enacted provisions set out as a note under section 6834 of this title. STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§17094. Storm water runoff requirements for Federal development projects

The sponsor of any development or redevelopment project involving a Federal facility with a footprint that exceeds 5,000 square feet shall use site planning, design, construction, and maintenance strategies for the property to maintain or restore, to the maximum extent technically feasible, the predevelopment hydrology of the property with regard to the temperature, rate, volume, and duration of flow.

(Pub. L. 110–140, title IV, §438, Dec. 19, 2007, 121 Stat. 1620.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§17095. Cost-effective technology acceleration program

(a) Definition of Administrator

In this section, the term "Administrator" means the Administrator of General Services.

(b) Establishment

(1) In general

The Administrator shall establish a program to accelerate the use of more cost-effective technologies and practices at GSA facilities.

(2) Requirements

The program established under this subsection shall—

(A) ensure centralized responsibility for the coordination of cost reduction-related recommendations, practices, and activities of all relevant Federal agencies;

(B) provide technical assistance and operational guidance to applicable tenants to achieve the goal identified in subsection (c)(2)(B)(ii);

(C) establish methods to track the success of Federal departments and agencies with respect to that goal; and

(D) be fully coordinated with and no less stringent nor less energy-conserving or water-conserving than required by other provisions of this Act and other applicable law, including sections 321 through 324, 431 through 438, 461, 511 through 518, and 523 through 525 and amendments made by those sections.

(c) Accelerated use of technologies

(1) Review

(A) In general

As part of the program under this section, not later than 90 days after December 19, 2007, the Administrator shall conduct a review of—

(i) current use of cost-effective lighting technologies and geothermal heat pumps in GSA facilities; and

(ii) the availability to managers of GSA facilities of cost-effective lighting technologies and geothermal heat pumps.

(B) Requirements

The review under subparagraph (A) shall—

(i) examine the use of cost-effective lighting technologies, geothermal heat pumps, and other cost-effective technologies and practices by Federal agencies in GSA facilities; and

(ii) as prepared in consultation with the Administrator of the Environmental Protection Agency, identify cost-effective lighting technology and geothermal heat pump technology standards that could be used for all types of GSA facilities.

(2) Replacement

(A) In general

As part of the program under this section, not later than 180 days after December 19, 2007, the Administrator shall establish, using available appropriations and programs implementing sections 432 and 525 [1] (and amendments made by those sections), a cost-effective lighting technology and geothermal heat pump technology acceleration program to achieve maximum feasible replacement of existing lighting, heating, cooling [2] technologies with cost-effective lighting technologies and geothermal heat pump technologies in each GSA facility. Such program shall fully comply with the requirements of sections 321 through 324, 431 through 438, 461, 511 through 518, and 523 through 525 [1] and amendments made by those sections and any other provisions of law, which shall be applicable to the extent that they are more stringent or would achieve greater energy savings than required by this section.

(B) Acceleration plan timetable

(i) In general

To implement the program established under subparagraph (A), not later than 1 year after December 19, 2007, the Administrator shall establish a timetable of actions to comply with the requirements of this section and sections 431 through 435, whichever achieves greater energy savings most expeditiously, including milestones for specific activities needed to replace existing lighting, heating, cooling [2] technologies with cost-effective lighting technologies and geothermal heat pump technologies, to the maximum extent feasible (including at the maximum rate feasible), at each GSA facility.

(ii) Goal

The goal of the timetable under clause (i) shall be to complete, using available appropriations and programs implementing sections 431 through 435 [1] (and amendments made by those sections), maximum feasible replacement of existing lighting, heating, and cooling technologies with cost-effective lighting technologies and geothermal heat pump technologies consistent with the requirements of this section and sections 431 through 435,[1] whichever achieves greater energy savings most expeditiously. Notwithstanding any provision of this section, such program shall fully comply with the requirements of the Act [3] including sections 321 through 324, 431 through 438, 461, 511 through 518, and 523 through 525 and amendments made by those sections and other provisions of law, which shall be applicable to the extent that they are more stringent or would achieve greater energy or water savings than required by this section.

(d) GSA facility technologies and practices

(1) In general

Not later than 180 days after December 19, 2007, and annually thereafter, the Administrator shall—

(A) ensure that a manager responsible for implementing section 432 [1] and for accelerating the use of cost-effective technologies and practices is designated for each GSA facility; and

(B) submit to Congress a plan to comply with section 432,[1] this section, and other applicable provisions of this Act and applicable law with respect to energy and water conservation at GSA facilities.

(2) Measures

The plan shall implement measures required by such other provisions of law in accordance with those provisions, and shall implement the measures required by this section to the maximum extent feasible (including at the maximum rate feasible) using available appropriations and programs implementing sections 431 through 435 and 525 [1] (and amendments made by those sections), by not later than the date that is 5 years after December 19, 2007.

(3) Contents of plan

The plan shall—

(A) with respect to cost-effective technologies and practices—

(i) identify the specific activities needed to comply with sections 431 through 435; [1]

(ii) identify the specific activities needed to achieve at least a 20-percent reduction in operational costs through the application of cost-effective technologies and practices from 2003 levels at GSA facilities by not later than 5 years after December 19, 2007;

(iii) describe activities required and carried out to estimate the funds necessary to achieve the reduction described in clauses (i) and (ii);

(B) include an estimate of the funds necessary to carry out this section;

(C) describe the status of the implementation of cost-effective technologies and practices at GSA facilities, including—

(i) the extent to which programs, including the program established under subsection (b), are being carried out in accordance with this part; and

(ii) the status of funding requests and appropriations for those programs;

(D) identify within the planning, budgeting, and construction processes, all types of GSA facility-related procedures that inhibit new and existing GSA facilities from implementing cost-effective technologies;

(E) recommend language for uniform standards for use by Federal agencies in implementing cost-effective technologies and practices;

(F) in coordination with the Office of Management and Budget, review the budget process for capital programs with respect to alternatives for—

(i) implementing measures that will assure that Federal agencies retain all identified savings accrued as a result of the use of cost-effective technologies, consistent with section 8253(a)(1) of this title, and other applicable law; and

(ii) identifying short- and long-term cost savings that accrue from the use of cost-effective technologies and practices;

(G) with respect to cost-effective technologies and practices, achieve substantial operational cost savings through the application of the technologies; and

(H) include recommendations to address each of the matters, and a plan for implementation of each recommendation, described in subparagraphs (A) through (G).

(4) Administration

Notwithstanding any provision of this section, the program required under this section shall fully comply with the requirements of sections 321 through 324, 431 through 438, 461, 511

through 518, and 523 through 525 [1] and amendments made by those sections, which shall be applicable to the extent that they are more stringent or would achieve greater energy or water savings than required by this section.

(e) Authorization of appropriations

There are authorized to be appropriated such sums as are necessary to carry out this section, to remain available until expended.

(Pub. L. 110–140, title IV, §439, Dec. 19, 2007, 121 Stat. 1620.)

EDITORIAL NOTES

REFERENCES IN TEXT

This Act, referred to in subsecs. (b)(2)(D), (c)(2)(B)(ii), and (d)(1)(B), is Pub. L. 110–140, Dec. 19, 2007, 121 Stat. 1492, known as the Energy Independence and Security Act of 2007, which enacted this chapter and enacted and amended numerous other sections and notes in the Code. For complete classification of this Act to the Code, see Short Title note set out under section 17001 of this title and Tables.

Sections 321 through 324, 431 through 438, 461, 511 through 518, and 523 through 525, referred to in subsecs. (b)(2)(D), (c)(2)(A), (B)(ii), and (d)(4), are sections 321 to 324, 431 to 438, 461, 511 to 518, and 523 to 525, respectively, of Pub. L. 110–140, which enacted sections 17091 to 17094 of this title, part A (§17131) of subchapter IV of this chapter, subchapter V (§2695 et seq.) of chapter 53 of Title 15, Commerce and Trade, and section 3313 of Title 40, Public Buildings, Property, and Works, amended sections 6291 to 6294, 6295, 6297, 6302, 6304, 6832, 6834, 8253, 8256, 8258, 8259b, 8287, and 8287c of this title, section 2913 of Title 10, Armed Forces, and sections 3307, 3310, and 3314 to 3316 of Title 40, and enacted provisions set out as notes under sections 6294, 6295, 6834, and 8259b of this title.

Sections 432 and 525, referred to in subsec. (c)(2)(A), are sections 432 and 525 of Pub. L. 110–140, which amended sections 8253 and 8259b of this title and enacted provisions set out as a note under section 8259b of this title.

Sections 431 through 435, referred to in subsecs. (c)(2)(B) and (d)(2), (3)(A)(i), are sections 431 to 435 of Pub. L. 110–140, which enacted section 17091 of this title, amended sections 6832, 6834, and 8253 of this title, and enacted provisions set out as a note under section 6834 of this title.

Section 432, referred to in subsec. (d)(1), is section 432 of Pub. L. 110–140, Dec. 19, 2007, 121 Stat. 1607, which amended section 8253 of this title.

Section 525, referred to in subsec. (d)(2), is section 525 of Pub. L. 110–140, December 19, 2007, 121 Stat. 1663, which amended section 8259b of this title and enacted provisions set out as a note under section 8259b of this title.

This part, referred to in subsec. (d)(3)(C)(i), was in the original "this subtitle", meaning subtitle C (§§431–441) of title IV of Pub. L. 110–140, Dec. 19, 2007, 121 Stat. 1607, which enacted this part, amended sections 6832, 6834, 8253, and 8254 of this title, and enacted provisions set out as a note under section 6834 of this title. For complete classification of subtitle C to the Code, see Tables.

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

[1] See References in Text note below.

[2] So in original. Probably should be "and cooling".

[3] So in original. Probably should be "this Act".

§17096. Authorization of appropriations

There is authorized to be appropriated to carry out sections 434 through 439 and 482 [1] $4,000,000 for each of fiscal years 2008 through 2012, to remain available until expended.

(Pub. L. 110–140, title IV, §440, Dec. 19, 2007, 121 Stat. 1623.)

EDITORIAL NOTES

REFERENCES IN TEXT

Sections 434 through 439, referred to in text, are sections 434 to 439 of Pub. L. 110–140, which enacted sections 17091 to 17095 of this title and amended section 8253 of this title. Section 482 is unidentifiable because Pub. L. 110–140 does not contain a section 482.

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

PART D—INDUSTRIAL ENERGY EFFICIENCY

§17111. Future of industry program

(a) Definitions

In this section:

(1) Eligible entity

The term "eligible entity" means—

(A) an energy-intensive industry;

(B) a national trade association representing an energy-intensive industry; or

(C) a person acting on behalf of 1 or more energy-intensive industries or sectors, as determined by the Secretary.

(2) Energy-intensive industry

The term "energy-intensive industry" means an industry that uses significant quantities of energy as part of its primary economic activities, including—

(A) information technology, including data centers containing electrical equipment used in processing, storing, and transmitting digital information;

(B) consumer product manufacturing;

(C) food processing;

(D) materials manufacturers, including—

(i) aluminum;

(ii) chemicals;

(iii) forest and paper products;

(iv) metal casting;

(v) glass;

(vi) petroleum refining;

(vii) mining; and

(viii) steel;

(E) water and wastewater treatment facilities, including systems that treat municipal,

industrial, and agricultural waste; and

(F) other energy-intensive industries, as determined by the Secretary.

(3) Feedstock

The term "feedstock" means the raw material supplied for use in manufacturing, chemical, and biological processes.

(4) Partnership

The term "partnership" means an energy efficiency partnership established under subsection (c)(1)(A).

(5) Program

The term "program" means the energy-intensive industries program established under subsection (b).

(b) Establishment of program

The Secretary shall establish a program under which the Secretary, in cooperation with energy-intensive industries and national industry trade associations representing the energy-intensive industries, shall support, research, develop, and promote the use of new materials processes, technologies, and techniques to optimize energy efficiency and the economic competitiveness of the United States' industrial and commercial sectors.

(c) Partnerships

(1) In general

As part of the program, the Secretary shall establish energy efficiency partnerships between the Secretary and eligible entities to conduct research on, develop, and demonstrate new processes, technologies, and operating practices and techniques to significantly improve the energy efficiency of equipment and processes used by energy-intensive industries, including the conduct of activities to—

(A) increase the energy efficiency of industrial processes and facilities;

(B) research, develop, and demonstrate advanced technologies capable of energy intensity reductions and increased environmental performance; and

(C) promote the use of the processes, technologies, and techniques described in subparagraphs (A) and (B).

(2) Eligible activities

Partnership activities eligible for funding under this subsection include—

(A) feedstock and recycling research, development, and demonstration activities to identify and promote—

(i) opportunities for meeting industry feedstock requirements with more energy efficient and flexible sources of feedstock or energy supply;

(ii) strategies to develop and deploy technologies that improve the quality and quantity of feedstocks recovered from process and waste streams; and

(iii) other methods using recycling, reuse, and improved industrial materials;

(B) research to develop and demonstrate technologies and processes that utilize alternative energy sources to supply heat, power, and new feedstocks for energy-intensive industries;

(C) research to achieve energy efficiency in steam, power, control system, and process heat technologies, and in other manufacturing processes; and

(D) industrial and commercial energy efficiency and sustainability assessments to—

(i) assist individual industrial and commercial sectors in developing tools, techniques, and methodologies to assess—

(I) the unique processes and facilities of the sectors;

(II) the energy utilization requirements of the sectors; and

(III) the application of new, more energy efficient technologies; and

(ii) conduct energy savings assessments;

(E) the incorporation of technologies and innovations that would significantly improve the energy efficiency and utilization of energy-intensive commercial applications; and

(F) any other activities that the Secretary determines to be appropriate.

(3) Proposals

(A) In general

To be eligible for funding under this subsection, a partnership shall submit to the Secretary a proposal that describes the proposed research, development, or demonstration activity to be conducted by the partnership.

(B) Review

After reviewing the scientific, technical, and commercial merit of a proposals [1] submitted under subparagraph (A), the Secretary shall approve or disapprove the proposal.

(C) Competitive awards

The provision of funding under this subsection shall be on a competitive basis.

(4) Cost-sharing requirement

In carrying out this section, the Secretary shall require cost sharing in accordance with section 16352 of this title.

(d) Grants

The Secretary may award competitive grants for innovative technology research, development and demonstrations to universities, individual inventors, and small companies, based on energy savings potential, commercial viability, and technical merit.

(e) Authorization of appropriations

(1) In general

There are authorized to be appropriated to the Secretary to carry out this section—

(A) $184,000,000 for fiscal year 2008;

(B) $190,000,000 for fiscal year 2009;

(C) $196,000,000 for fiscal year 2010;

(D) $202,000,000 for fiscal year 2011;

(E) $208,000,000 for fiscal year 2012; and

(F) such sums as are necessary for fiscal year 2013 and each fiscal year thereafter.

(2) Partnership activities

Of the amounts made available under paragraph (1), not less than 50 percent shall be used to pay the Federal share of partnership activities under subsection (c).

(3) Coordination and nonduplication

The Secretary shall coordinate efforts under this section with other programs of the Department and other Federal agencies to avoid duplication of effort.

(Pub. L. 110–140, title IV, §452, Dec. 19, 2007, 121 Stat. 1634; Pub. L. 117–58, div. D, title V, §40521(a)(1), Nov. 15, 2021, 135 Stat. 1062.)

EDITORIAL NOTES

AMENDMENTS

2021—Pub. L. 117–58, §40521(a)(1)(A), substituted "Future of industry program" for "Energy-intensive industries program" in section catchline.

Subsec. (a)(2)(E), (F). Pub. L. 117–58, §40521(a)(1)(B), added subpar. (E) and redesignated former subpar.

(E) as (F).

Subsecs. (e), (f). Pub. L. 117–58, §40521(a)(1)(C), (D), redesignated subsec. (f) as (e) and struck out former subsec. (e) which related to institution of higher education-based industrial research and assessment centers.

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

[1] *So in original.*

§17112. Energy efficiency for data center buildings

(a) Definitions

In this section:

(1) Data center

The term "data center" means any facility that primarily contains electronic equipment used to process, store, and transmit digital information, which may be—

(A) a free-standing structure; or

(B) a facility within a larger structure, that uses environmental control equipment to maintain the proper conditions for the operation of electronic equipment.

(2) Data center operator

The term "data center operator" means any person or government entity that builds or operates a data center or purchases data center services, equipment, and facilities.

(b) Voluntary national information program

(1) In general

Not later than 90 days after December 19, 2007, the Secretary and the Administrator of the Environmental Protection Agency shall, after consulting with information technology industry and other interested parties, initiate a voluntary national information program for those types of data centers and data center equipment and facilities that are widely used and for which there is a potential for significant data center energy savings as a result of the program.

(2) Requirements

The program described in paragraph (1) shall—

(A) address data center efficiency holistically, reflecting the total energy consumption of data centers as whole systems, including both equipment and facilities;

(B) consider prior work and studies undertaken in this area, including by the Environmental Protection Agency and the Department of Energy;

(C) consistent with the objectives described in paragraph (1), determine the type of data center and data center equipment and facilities to be covered under the program;

(D) produce specifications, measurements, best practices, and benchmarks that will enable data center operators to make more informed decisions about the energy efficiency and costs of data centers, and that take into account—

(i) the performance and use of servers, data storage devices, and other information technology equipment;

(ii) the efficiency of heating, ventilation, and air conditioning, cooling, and power conditioning systems, provided that no modification shall be required of a standard then in effect under the Energy Policy and Conservation Act (42 U.S.C. 6201 et seq.) for any covered heating, ventilation, air-conditioning, cooling or power-conditioning product;

(iii) energy savings from the adoption of software and data management techniques; and
(iv) other factors proposed by the stakeholders described in subsection (c);

(E) allow for creation of separate specifications, measurements, and benchmarks based on data center size and function, as well as other appropriate characteristics;

(F) advance the design and implementation of efficiency technologies to the maximum extent economically practical;

(G) provide to data center operators in the private sector and the Federal Government information about best practices and purchasing decisions that reduce the energy consumption of data centers; and

(H) publish the information described in subparagraph (G), which may be disseminated through catalogs, trade publications, the Internet, or other mechanisms, that will allow data center operators to assess the energy consumption and potential cost savings of alternative data centers and data center equipment and facilities.

(c) Stakeholder involvement

(1) In general

The Secretary and the Administrator shall carry out subsection (b) in collaboration with the information technology industry and other key stakeholders, with the goal of producing results that accurately reflect the most relevant and useful information.

(2) Considerations

In carrying out the collaboration described in paragraph (1), the Secretary and the Administrator shall pay particular attention to organizations that—

(A) have members with expertise in energy efficiency and in the development, operation, and functionality of data centers, information technology equipment, and software, including representatives of hardware manufacturers, data center operators, and facility managers;

(B) obtain and address input from the National Laboratories (as that term is defined in section 15801) of this title, or any institution of higher education, research institution, industry association, company, or public interest group with applicable expertise;

(C) follow—

(i) commonly accepted procedures for the development of specifications; and
(ii) accredited standards development processes; or

(D) have a mission to promote energy efficiency for data centers and information technology.

(d) Measurements and specifications

The Secretary and the Administrator shall consider and assess the adequacy of the specifications, measurements, best practices, and benchmarks described in subsection (b) for use by the Federal Energy Management Program, the Energy Star Program, and other efficiency programs of the Department of Energy or the Environmental Protection Agency.

(e) Study

(1) Definition of report

In this subsection, the term "report" means the report of the Lawrence Berkeley National Laboratory entitled "United States Data Center Energy Usage Report" and dated June 2016, which was prepared as an update to the "Report to Congress on Server and Data Center Energy Efficiency", published on August 2, 2007, pursuant to section 1 of Public Law 109–431 (120 Stat. 2920).

(2) Study

Not later than 4 years after December 27, 2020, the Secretary, in collaboration with the Administrator, shall make available to the public an update to the report that provides—

(A) a comparison and gap analysis of the estimates and projections contained in the report

with new data regarding the period from 2015 through 2019;

(B) an analysis considering the impact of information technologies, including virtualization and cloud computing, in the public and private sectors;

(C) an evaluation of the impact of the combination of cloud platforms, mobile devices, social media, and big data on data center energy usage;

(D) an evaluation of water usage in data centers and recommendations for reductions in that water usage; and

(E) updated projections and recommendations for best practices through fiscal year 2025.

(f) Data center energy practitioner program

(1) In general

The Secretary, in collaboration with key stakeholders and the Director of the Office of Management and Budget, shall maintain a data center energy practitioner program that provides for the certification of energy practitioners qualified to evaluate the energy usage and efficiency opportunities in federally owned and operated data centers.

(2) Evaluations

Each Federal agency shall consider having the data centers of the agency evaluated once every 4 years by energy practitioners certified pursuant to the program, whenever practicable using certified practitioners employed by the agency.

(g) Open data initiative

(1) In general

The Secretary, in collaboration with key stakeholders and the Director of the Office of Management and Budget, shall establish an open data initiative relating to energy usage at federally owned and operated data centers, with the purpose of making the data available and accessible in a manner that encourages further data center innovation, optimization, and consolidation.

(2) Consideration

In establishing the initiative under paragraph (1), the Secretary shall consider using the online Data Center Maturity Model.

(h) International specifications and metrics

The Secretary, in collaboration with key stakeholders, shall actively participate in efforts to harmonize global specifications and metrics for data center energy and water efficiency.

(i) Data center utilization metric

The Secretary, in collaboration with key stakeholders, shall facilitate in the development of an efficiency metric that measures the energy efficiency of a data center (including equipment and facilities).

(j) Protection of proprietary information

The Secretary and the Administrator shall not disclose any proprietary information or trade secrets provided by any individual or company for the purposes of carrying out this section or the programs and initiatives established under this section.

(Pub. L. 110–140, title IV, §453, Dec. 19, 2007, 121 Stat. 1637; Pub. L. 116–260, div. Z, title I, §1003, Dec. 27, 2020, 134 Stat. 2426.)

EDITORIAL NOTES

REFERENCES IN TEXT

The Energy Policy and Conservation Act, referred to in subsec. (b)(2)(D)(ii), is Pub. L. 94–163, Dec. 22, 1975, 89 Stat. 871, which is classified principally to chapter 77 (§6201 et seq.) of this title. For complete classification of this Act to the Code, see Short Title note set out under section 6201 of this title and Tables.

Section 1 of Public Law 109–431 (120 Stat. 2920), referred to in subsec. (e)(1), is section 1 of Pub. L. 109–431, Dec. 20, 2006, 120 Stat. 2920, which is not classified to the Code.

AMENDMENTS

2020—Subsec. (b)(2)(D)(iv). Pub. L. 116–260, §1003(1)(A), substituted "proposed by the stakeholders" for "determined by the organization".

Subsec. (b)(3). Pub. L. 116–260, §1003(1)(B), struck out par. (3). Text read as follows: "The program described in paragraph (1) shall be developed in consultation with and coordinated by the organization described in subsection (c) according to commonly accepted procedures for the development of specifications, measurements, and benchmarks."

Subsecs. (c) to (j). Pub. L. 116–260, §1003(2), added subsecs. (c) to (j) and struck out former subsecs. (c) to (g) which related to consultation with a data center efficiency organization to coordinate the voluntary national information program, including the requirements of such coordination, measurements and specifications, monitoring, alternate systems, and protection of propriety information.

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§17113. Industrial emissions reduction technology development program

(a) Definitions

In this section:

(1) Director

The term "Director" means the Director of the Office of Science and Technology Policy.

(2) Eligible entity

The term "eligible entity" means—

(A) a scientist or other individual with knowledge and expertise in emissions reduction;

(B) an institution of higher education;

(C) a nongovernmental organization;

(D) a National Laboratory;

(E) a private entity; and

(F) a partnership or consortium of 2 or more entities described in subparagraphs (B) through (E).

(3) Emissions reduction

(A) In general

The term "emissions reduction" means the reduction, to the maximum extent practicable, of net nonwater greenhouse gas emissions to the atmosphere by energy services and industrial processes.

(B) Exclusion

The term "emissions reduction" does not include the elimination of carbon embodied in the principal products of industrial manufacturing.

(4) Program

The term "program" means the program established under subsection (b)(1).

(5) Critical material or mineral

The term "critical material or mineral" means a material or mineral that serves an essential function in the manufacturing of a product and has a high risk of a supply disruption, such that a shortage of such a material or mineral would have significant consequences for United States

economic or national security.

(b) Industrial emissions reduction technology development program

(1) In general

Not later than 1 year after December 27, 2020, the Secretary, in consultation with the Director, the heads of relevant Federal agencies, National Laboratories, industry, and institutions of higher education, shall establish a crosscutting industrial emissions reduction technology development program of research, development, demonstration, and commercial application to advance innovative technologies that—

(A) increase the technological and economic competitiveness of industry and manufacturing in the United States;

(B) increase the viability and competitiveness of United States industrial technology exports; and

(C) achieve emissions reduction in nonpower industrial sectors.

(2) Coordination

In carrying out the program, the Secretary shall—

(A) coordinate with each relevant office in the Department and any other Federal agency;

(B) coordinate and collaborate with the Industrial Technology Innovation Advisory Committee established under section 17115 of this title; and

(C) coordinate and seek to avoid duplication with the Future of Industry [1] program established under section 17111 of this title.

(3) Leverage of existing resources

In carrying out the program, the Secretary shall leverage, to the maximum extent practicable—

(A) existing resources and programs of the Department and other relevant Federal agencies; and

(B) public-private partnerships.

(c) Focus areas

The program shall focus on—

(1) industrial production processes, including technologies and processes that—

(A) achieve emissions reduction in high emissions industrial materials production processes, including production processes for iron, steel, steel mill products, aluminum, cement, concrete, glass, pulp, paper, and industrial ceramics;

(B) achieve emissions reduction in medium- and high-temperature heat generation, including—

(i) through electrification of heating processes;

(ii) through renewable heat generation technology;

(iii) through combined heat and power; and

(iv) by switching to alternative fuels, including hydrogen and nuclear energy;

(C) achieve emissions reduction in chemical production processes, including by incorporating, if appropriate and practicable, principles, practices, and methodologies of sustainable chemistry and engineering;

(D) leverage smart manufacturing technologies and principles, digital manufacturing technologies, and advanced data analytics to develop advanced technologies and practices in information, automation, monitoring, computation, sensing, modeling, and networking to—

(i) model and simulate manufacturing production lines;

(ii) monitor and communicate production line status;

(iii) manage and optimize energy productivity and cost throughout production; and

(iv) model, simulate, and optimize the energy efficiency of manufacturing processes;

(E) leverage the principles of sustainable manufacturing to minimize the potential negative

environmental impacts of manufacturing while conserving energy and resources, including—

(i) by designing products that enable reuse, refurbishment, remanufacturing, and recycling;

(ii) by minimizing waste from industrial processes, including through the reuse of waste as other resources in other industrial processes for mutual benefit; and

(iii) by increasing resource efficiency; and

(F) increase the energy efficiency of industrial processes;

(2) alternative materials that produce fewer emissions during production and result in fewer emissions during use, including—

(A) high-performance lightweight materials; and

(B) substitutions for critical materials and minerals;

(3) development of net-zero emissions liquid and gaseous fuels;

(4) emissions reduction in shipping, aviation, and long distance transportation;

(5) carbon capture technologies for industrial processes;

(6) other technologies that achieve net-zero emissions in nonpower industrial sectors, as determined by the Secretary, in consultation with the Director; and

(7) high-performance computing to develop advanced materials and manufacturing processes contributing to the focus areas described in paragraphs (1) through (6), including—

(A) modeling, simulation, and optimization of the design of energy efficient and sustainable products; and

(B) the use of digital prototyping and additive manufacturing to enhance product design.

(8) incorporation of sustainable chemistry and engineering principles, practices, and methodologies, as the Secretary determines appropriate; and

(9) other research or technology areas identified in the Strategic Plan authorized in section 17114 of this title.

(d) Grants, contracts, cooperative agreements, and demonstration projects

(1) Grants

In carrying out the program, the Secretary shall award grants on a competitive basis to eligible entities for projects that the Secretary determines would best achieve the goals of the program.

(2) Contracts and cooperative agreements

In carrying out the program, the Secretary may enter into contracts and cooperative agreements with eligible entities and Federal agencies for projects that the Secretary determines would further the purposes of the program.

(3) Demonstration projects

In supporting technologies developed under this section, the Secretary shall fund demonstration projects that test and validate technologies described in subsection (c).

(4) Application

An entity seeking funding or a contract or agreement under this subsection shall submit to the Secretary an application at such time, in such manner, and containing such information as the Secretary may require.

(5) Cost sharing

In awarding funds under this section, the Secretary shall require cost sharing in accordance with section 16352 of this title.

(e) Authorization of appropriations

There are authorized to be appropriated to the Secretary to carry out the demonstration projects authorized in subsection (d)(3)—

(1) $20,000,000 for fiscal year 2021;
(2) $80,000,000 for fiscal year 2022;
(3) $100,000,000 for fiscal year 2023;
(4) $150,000,000 for fiscal year 2024; and
(5) $150,000,000 for fiscal year 2025.

(f) Coordination

The Secretary shall carry out the activities authorized in this section in accordance with section 18631 of this title.

(Pub. L. 110–140, title IV, §454, as added Pub. L. 116–260, div. Z, title VI, §6003(a), Dec. 27, 2020, 134 Stat. 2553; amended Pub. L. 117–58, div. D, title V, §40521(a)(2), Nov. 15, 2021, 135 Stat. 1062.)

EDITORIAL NOTES

AMENDMENTS

2021—Subsec. (b)(2)(C). Pub. L. 117–58 substituted "Future of Industry" for "energy-intensive industries".

STATUTORY NOTES AND RELATED SUBSIDIARIES

PURPOSE

Pub. L. 116–260, div. Z, title VI, §6001, Dec. 27, 2020, 134 Stat. 2552, provided that: "The purpose of this title [enacting this section and sections 17114 to 17115a of this title and amending section 6351 of this title] and the amendments made by this title is to encourage the development and evaluation of innovative technologies aimed at increasing—

"(1) the technological and economic competitiveness of industry and manufacturing in the United States; and

"(2) the emissions reduction of nonpower industrial sectors."

[1] *So in original.*

§17114. Industrial Technology Innovation Advisory Committee

(a) Definitions

In this section:

(1) Committee

The term "Committee" means the Industrial Technology Innovation Advisory Committee established under subsection (b).

(2) Director

The term "Director" means the Director of the Office of Science and Technology Policy.

(3) Emissions reduction

The term "emissions reduction" has the meaning given the term in section 17113(a) of this title.

(4) Program

The term "program" means the industrial emissions reduction technology development program established under section 17113(b)(1) of this title.

(b) Establishment

Not later than 180 days after December 27, 2020, the Secretary, in consultation with the Director, shall establish an advisory committee, to be known as the "Industrial Technology Innovation Advisory Committee".

(c) Membership

(1) Appointment

The Committee shall be comprised of not fewer than 16 members and not more than 20 members, who shall be appointed by the Secretary, in consultation with the Director.

(2) Representation

Members appointed pursuant to paragraph (1) shall include—

(A) not less than 1 representative of each relevant Federal agency, as determined by the Secretary;

(B) the Chair of the Secretary of Energy Advisory Board, if that position is filled;

(C) not less than 2 representatives of labor groups;

(D) not less than 3 representatives of the research community, which shall include academia and National Laboratories;

(E) not less than 2 representatives of nongovernmental organizations;

(F) [1] not less than 6 representatives of small- and large-scale industry, the collective expertise of which shall cover every focus area described in section 17113(c) of this title; and [2]

(F) [1] not less than 1 representative of a State government; and

(G) any other individuals the Secretary, in coordination with the Director, determines to be necessary to ensure that the Committee is comprised of a diverse group of representatives of industry, academia, independent researchers, and public and private entities.

(3) Chair

The Secretary shall designate a member of the Committee to serve as Chair.

(d) Duties

(1) In general

The Committee shall—

(A) in consultation with the Secretary and the Director, propose missions and goals for the program, which shall be consistent with the purposes of the program described in section 17113(b)(1) of this title; and

(B) advise the Secretary with respect to the program—

(i) by identifying and evaluating any technologies being developed by the private sector relating to the focus areas described in section 17113(c) of this title;

(ii) by identifying technology gaps in the private sector or other Federal agencies in those focus areas, and making recommendations to address those gaps;

(iii) by surveying and analyzing factors that prevent the adoption of emissions reduction technologies by the private sector; and

(iv) by recommending technology screening criteria for technology developed under the program to encourage adoption of the technology by the private sector; and

(C) develop the strategic plan described in paragraph (2).

(2) Strategic plan

(A) Purpose

The purpose of the strategic plan developed under paragraph (1)(C) is to set forth a plan for achieving the goals of the program established in section 17113(b)(1) of this title, including for the focus areas described in section 17113(c) of this title.

(B) Contents

The strategic plan developed under paragraph (1)(C) shall—

(i) specify near-term and long-term qualitative and quantitative objectives relating to each focus area described in section 17113(c) of this title, including research, development, demonstration, and commercial application objectives;

(ii) leverage existing roadmaps relevant to the program in section 17113(b)(1) of this title and the focus areas in section 17113(c) of this title;

(iii) specify the anticipated timeframe for achieving the objectives specified under clause (i);

(iv) include plans for developing emissions reduction technologies that are globally cost-competitive, including, as applicable, in developing economies;

(v) identify the appropriate role for investment by the Federal Government, in coordination with the private sector, to achieve the objectives specified under clause (i);

(vi) identify the public and private costs of achieving the objectives specified under clause (i); and

(vii) estimate the economic and employment impact in the United States of achieving those objectives.

(e) Meetings

(1) Frequency

The Committee shall meet not less frequently than 2 times per year, at the call of the Chair.

(2) Initial meeting

Not later than 30 days after the date on which the members are appointed under subsection (b), the Committee shall hold its first meeting.

(f) Committee report

(1) In general

Not later than 2 years after December 27, 2020, and not less frequently than once every 3 years thereafter, the Committee shall submit to the Secretary a report on the progress of achieving the purposes of the program.

(2) Contents

The report under paragraph (1) shall include—

(A) a description of any technology innovation opportunities identified by the Committee;

(B) a description of any technology gaps identified by the Committee under subsection (d)(1)(B)(ii);

(C) recommendations for improving technology screening criteria and management of the program;

(D) an evaluation of the progress of the program and the research, development, and demonstration activities funded under the program;

(E) any recommended changes to the focus areas of the program described in section 17113(c) of this title;

(F) a description of the manner in which the Committee has carried out the duties described in subsection (d)(1) and any relevant findings as a result of carrying out those duties;

(G) if necessary, an update to the strategic plan developed by the Committee under subsection (d)(1)(C);

(H) the progress made in achieving the goals set out in that strategic plan;

(I) a review of the management, coordination, and industry utility of the program;

(J) an assessment of the extent to which progress has been made under the program in developing commercial, cost-competitive technologies in each focus area described in section 17113(c) of this title; and

(K) an assessment of the effectiveness of the program in coordinating efforts within the Department and with other Federal agencies to achieve the purposes of the program.

(g) Report to Congress

Not later than 60 days after receiving a report from the Committee under subsection (f), the Secretary shall submit a copy of that report to the Committees on Appropriations and Science, Space, and Technology of the House of Representatives, the Committees on Appropriations and Energy and

Natural Resources of the Senate, and any other relevant Committee of Congress.

(h) Applicability of Federal Advisory Committee Act

Except as otherwise provided in this section, the Federal Advisory Committee Act (5 U.S.C. App.) shall apply to the Committee.

(Pub. L. 110–140, title IV, §455, as added Pub. L. 116–260, div. Z, title VI, §6004(a), Dec. 27, 2020, 134 Stat. 2556.)

REFERENCES IN TEXT

The Federal Advisory Committee Act, referred to in subsec. (h), is Pub. L. 92–463, Oct. 6, 1972, 86 Stat. 770, which is set out in the Appendix to Title 5, Government Organization and Employees.

[1] *So in original. There are two subpars. (F).*

[2] *So in original. The word "and" probably should not appear.*

§17115. Technical assistance program to implement industrial emissions reduction

(a) Definitions

In this section:

(1) Eligible entity

The term "eligible entity" means—

(A) a State;
(B) a unit of local government;
(C) a territory or possession of the United States;
(D) a relevant State or local office, including an energy office;
(E) a tribal organization (as defined in section 3765 of title 38);
(F) an institution of higher education; and [1]
(G) a private entity; and
(H) a trade association or technical society.

(2) Emissions reduction

The term "emissions reduction" has the meaning given the term in section 17113(a) of this title.

(3) Program

The term "program" means the program established under subsection (b).

(b) Establishment

Not later than 1 year after December 27, 2020, the Secretary shall establish a program to provide technical assistance to eligible entities to promote the commercial application of emission reduction technologies developed through the program established in section 17113(b) of this title.

(c) Applications

(1) In general

An eligible entity desiring technical assistance under the program shall submit to the Secretary an application at such time, in such manner, and containing such information as the Secretary may require.

(2) Application process

The Secretary shall seek applications for technical assistance under the program on a periodic basis, but not less frequently than once every 12 months.

(3) Factors for consideration

In selecting eligible entities for technical assistance under the program, the Secretary shall, to the maximum extent practicable—

(A) give priority to—

(i) activities carried out with technical assistance under the program that have the greatest potential for achieving emissions reduction in nonpower industrial sectors;

(ii) activities carried out in a State in which there are active or inactive industrial facilities that may be used or retrofitted to carry out activities under the focus areas described in section 17113(c) of this title; and

(iii) activities carried out in an economically distressed area (as described in section 3161(a) of this title); and

(B) ensure that—

(i) there is geographic diversity among the eligible entities selected; and

(ii) the activities carried out with technical assistance under the program reflect a majority of the focus areas described in section 17113(c) of this title.

(Pub. L. 110–140, title IV, §456, as added Pub. L. 116–260, div. Z, title VI, §6005(a), Dec. 27, 2020, 134 Stat. 2559.)

[1] *So in original.*

§17115a. Development of national smart manufacturing plan

(a) In general

Not later than 3 years after December 27, 2020, the Secretary of Energy (in this section referred to as the "Secretary"), in consultation with the National Academies, shall develop and complete a national plan for smart manufacturing technology development and deployment to improve the productivity and energy efficiency of the manufacturing sector of the United States.

(b) Content

(1) In general

The plan developed under subsection (a) shall identify areas in which agency actions by the Secretary and other heads of relevant Federal agencies would—

(A) facilitate quicker development, deployment, and adoption of smart manufacturing technologies and processes;

(B) result in greater energy efficiency and lower environmental impacts for all American manufacturers; and

(C) enhance competitiveness and strengthen the manufacturing sectors of the United States.

(2) Inclusions

Agency actions identified under paragraph (1) shall include—

(A) an assessment of previous and current actions of the Department relating to smart manufacturing;

(B) the establishment of voluntary interconnection protocols and performance standards;

(C) the use of smart manufacturing to improve energy efficiency and reduce emissions in supply chains across multiple companies;

(D) actions to increase cybersecurity in smart manufacturing infrastructure;

(E) deployment of existing research results;

(F) the leveraging of existing high-performance computing infrastructure; and

(G) consideration of the impact of smart manufacturing on existing manufacturing jobs and future manufacturing jobs.

(c) Biennial revisions

Not later than 2 years after the date on which the Secretary completes the plan under subsection (a), and not less frequently than once every 2 years thereafter, the Secretary shall revise the plan to account for advancements in information and communication technology and manufacturing needs.

(d) Report

Annually until the completion of the plan under subsection (a), the Secretary shall submit to Congress a report on the progress made in developing the plan.

(e) Definition

In this section, the term "smart manufacturing" means advanced technologies in information, automation, monitoring, computation, sensing, modeling, artificial intelligence, analytics, and networking that—

(1) digitally—

(A) simulate manufacturing production lines;

(B) operate computer-controlled manufacturing equipment;

(C) monitor and communicate production line status; and

(D) manage and optimize energy productivity and cost throughout production;

(2) model, simulate, and optimize the energy efficiency of a factory building;

(3) monitor and optimize building energy performance;

(4) model, simulate, and optimize the design of energy efficient and sustainable products, including the use of digital prototyping and additive manufacturing to enhance product design;

(5) connect manufactured products in networks to monitor and optimize the performance of the networks, including automated network operations; and

(6) digitally connect the supply chain network.

(Pub. L. 116–260, div. Z, title VI, §6006, Dec. 27, 2020, 134 Stat. 2560.)

CODIFICATION

Section was enacted as part of the Energy Act of 2020, and not as part of the Energy Independence and Security Act of 2007 which comprises this chapter.

§17116. Industrial research and assessment centers

(a) Definitions

In this section:

(1) Covered project

The term "covered project" means a project—

(A) that has been recommended in an energy assessment described in paragraph (2)(A) conducted for an eligible entity; and

(B) with respect to which the plant site of that eligible entity—

(i) improves—

(I) energy efficiency;

(II) material efficiency;

(III) cybersecurity; or

(IV) productivity; or

(ii) reduces—

(I) waste production;

(II) greenhouse gas emissions; or

(III) nongreenhouse gas pollution.

(2) Eligible entity

The term "eligible entity" means a small- or medium-sized manufacturer that has had an energy

assessment completed by—

(A) an industrial research and assessment center;

(B) a Department of Energy Combined Heat and Power Technical Assistance Partnership jointly with an industrial research and assessment center; or

(C) a third-party assessor that provides an assessment equivalent to an assessment described in subparagraph (A) or (B), as determined by the Secretary.

(3) Energy service provider

The term "energy service provider" means—

(A) any business providing technology or services to improve the energy efficiency, water efficiency, power factor, or load management of a manufacturing site or other industrial process in an energy-intensive industry (as defined in section 17111(a) of this title); and

(B) any utility operating under a utility energy service project.

(4) Industrial research and assessment center

The term "industrial research and assessment center" means—

(A) an institution of higher education-based industrial research and assessment center that is funded by the Secretary under subsection (b); and

(B) an industrial research and assessment center at a trade school, community college, or union training program that is funded by the Secretary under subsection (f).

(5) Program

The term "Program" means the program for implementation grants established under subsection (i)(1).

(6) Small- or medium-sized manufacturer

The term "small- or medium-sized manufacturer" means a manufacturing firm—

(A) the gross annual sales of which are less than $100,000,000;

(B) that has fewer than 500 employees at the plant site of the manufacturing firm; and

(C) the annual energy bills of which total more than $100,000 but less than $3,500,000.

(b) Institution of higher education-based industrial research and assessment centers

(1) In general

The Secretary shall provide funding to institution of higher education-based industrial research and assessment centers.

(2) Purpose

The purpose of each institution of higher education-based industrial research and assessment center shall be—

(A) to provide in-depth assessments of small- and medium-sized manufacturer plant sites to evaluate the facilities, services, and manufacturing operations of the plant sites;

(B) to identify opportunities for optimizing energy efficiency and environmental performance, including implementation of—

(i) smart manufacturing;

(ii) energy management systems;

(iii) sustainable manufacturing;

(iv) information technology advancements for supply chain analysis, logistics, system monitoring, industrial and manufacturing processes, and other purposes; and

(v) waste management systems;

(C) to promote applications of emerging concepts and technologies in small- and medium-sized manufacturers (including water and wastewater treatment facilities and federally owned manufacturing facilities);

(D) to promote research and development for the use of alternative energy sources to supply heat, power, and new feedstocks for energy-intensive industries;

(E) to coordinate with appropriate Federal and State research offices;

(F) to provide a clearinghouse for industrial process and energy efficiency technical assistance resources; and

(G) to coordinate with State-accredited technical training centers and community colleges, while ensuring appropriate services to all regions of the United States.

(c) Coordination

To increase the value and capabilities of the industrial research and assessment centers, the centers shall—

(1) coordinate with Manufacturing Extension Partnership Centers of the National Institute of Standards and Technology;

(2) coordinate with the Federal Energy Management Program and the Building Technologies Office of the Department of Energy to provide building assessment services to manufacturers;

(3) increase partnerships with the National Laboratories of the Department of Energy to leverage the expertise, technologies, and research and development capabilities of the National Laboratories for national industrial and manufacturing needs;

(4) increase partnerships with energy service providers and technology providers to leverage private sector expertise and accelerate deployment of new and existing technologies and processes for energy efficiency, power factor, and load management;

(5) identify opportunities for reducing greenhouse gas emissions and other air emissions; and

(6) promote sustainable manufacturing practices for small- and medium-sized manufacturers.

(d) Outreach

The Secretary shall provide funding for—

(1) outreach activities by the industrial research and assessment centers to inform small- and medium-sized manufacturers of the information, technologies, and services available; and

(2) coordination activities by each industrial research and assessment center to leverage efforts with—

(A) Federal, State, and Tribal efforts;

(B) the efforts of utilities and energy service providers;

(C) the efforts of regional energy efficiency organizations; and

(D) the efforts of other industrial research and assessment centers.

(e) Centers of Excellence

(1) Establishment

The Secretary shall establish a Center of Excellence at not more than 5 of the highest-performing industrial research and assessment centers, as determined by the Secretary.

(2) Duties

A Center of Excellence shall coordinate with and advise the industrial research and assessment centers located in the region of the Center of Excellence, including—

(A) by mentoring new directors and staff of the industrial research and assessment centers with respect to—

(i) the availability of resources; and

(ii) best practices for carrying out assessments, including through the participation of the staff of the Center of Excellence in assessments carried out by new industrial research and assessment centers;

(B) by providing training to staff and students at the industrial research and assessment centers on new technologies, practices, and tools to expand the scope and impact of the assessments carried out by the centers;

(C) by assisting the industrial research and assessment centers with specialized technical opportunities, including by providing a clearinghouse of available expertise and tools to assist the centers and clients of the centers in assessing and implementing those opportunities;

(D) by identifying and coordinating with regional, State, local, Tribal, and utility energy efficiency programs for the purpose of facilitating efforts by industrial research and assessment centers to connect industrial facilities receiving assessments from those centers with regional, State, local, and utility energy efficiency programs that could aid the industrial facilities in implementing any recommendations resulting from the assessments;

(E) by facilitating coordination between the industrial research and assessment centers and other Federal programs described in paragraphs (1) through (3) of subsection (c); and

(F) by coordinating the outreach activities of the industrial research and assessment centers under subsection (d)(1).

(3) Funding

For each fiscal year, out of any amounts made available to carry out this section under subsection (j), the Secretary shall use not less than $500,000 to support each Center of Excellence.

(f) Expansion of industrial research and assessment centers

(1) In general

The Secretary shall provide funding to establish additional industrial research and assessment centers at trade schools, community colleges, and union training programs.

(2) Purpose

(A) In general

Subject to subparagraph (B), to the maximum extent practicable, an industrial research and assessment center established under paragraph (1) shall have the same purpose as an institution of higher education-based industrial research center that is funded by the Secretary under subsection (b)(1).

(B) Consideration of capabilities

In evaluating or establishing the purpose of an industrial research and assessment center established under paragraph (1), the Secretary shall take into consideration the varying capabilities of trade schools, community colleges, and union training programs.

(g) Workforce training

(1) Internships

The Secretary shall pay the Federal share of associated internship programs under which students work with or for industries, manufacturers, and energy service providers to implement the recommendations of industrial research and assessment centers.

(2) Apprenticeships

The Secretary shall pay the Federal share of associated apprenticeship programs under which—

(A) students work with or for industries, manufacturers, and energy service providers to implement the recommendations of industrial research and assessment centers; and

(B) employees of facilities that have received an assessment from an industrial research and assessment center work with or for an industrial research and assessment center to gain knowledge on engineering practices and processes to improve productivity and energy savings.

(3) Federal share

The Federal share of the cost of carrying out internship programs described in paragraph (1) and apprenticeship programs described in paragraph (2) shall be 50 percent.

(h) Small business loans

The Administrator of the Small Business Administration shall, to the maximum extent practicable, expedite consideration of applications from eligible small business concerns for loans under the Small Business Act (15 U.S.C. 631 et seq.) to implement recommendations developed by the industrial research and assessment centers.

(i) Implementation grants

(1) In general

The Secretary shall establish a program under which the Secretary shall provide grants to eligible entities to implement covered projects.

(2) Application

An eligible entity seeking a grant under the Program shall submit to the Secretary an application at such time, in such manner, and containing such information as the Secretary may require, including a demonstration of need for financial assistance to implement the proposed covered project.

(3) Priority

In awarding grants under the Program, the Secretary shall give priority to eligible entities that—

(A) have had an energy assessment completed by an industrial research and assessment center; and

(B) propose to carry out a covered project with a greater potential for—

(i) energy efficiency gains; or

(ii) greenhouse gas emissions reductions.

(4) Grant amount

(A) Maximum amount

The amount of a grant provided to an eligible entity under the Program shall not exceed $300,000.

(B) Federal share

A grant awarded under the Program for a covered project shall be in an amount that is not more than 50 percent of the cost of the covered project.

(C) Supplement

A grant received by an eligible entity under the Program shall supplement, not supplant, any private or State funds available to the eligible entity to carry out the covered project.

(j) Authorization of appropriations

There are authorized to be appropriated to the Secretary for the period of fiscal years 2022 through 2026—

(1) $150,000,000 to carry out subsections (a) through (h); and

(2) $400,000,000 to carry out subsection (i).

(Pub. L. 110–140, title IV, §457, as added Pub. L. 117–58, div. D, title V, §40521(b), Nov. 15, 2021, 135 Stat. 1062.)

EDITORIAL NOTES

REFERENCES IN TEXT

The Small Business Act, referred to in subsec. (h), is Pub. L. 85–536, §2(1 et seq.), July 18, 1958, 72 Stat. 384, which is classified generally to chapter 14A (§631 et seq.) of Title 15, Commerce and Trade. For complete classification of this Act to the Code, see Short Title note set out under section 631 of Title 15 and Tables.

PART E—GENERAL PROVISIONS

§17121. Demonstration project

(a) In general

The Federal Director and the Commercial Director shall establish guidelines to implement a demonstration project to contribute to the research goals of the Office of Commercial High-Performance Green Buildings and the Office of Federal High-Performance Green Buildings.

(b) Projects

In accordance with guidelines established by the Federal Director and the Commercial Director under subsection (a) and the duties of the Federal Director and the Commercial Director described in this title,[1] the Federal Director or the Commercial Director shall carry out—

(1) for each of fiscal years 2009 through 2014, 1 demonstration project per year of green features in a Federal building selected by the Federal Director in accordance with relevant agencies and described in subsection (c)(1), that—

(A) provides for instrumentation, monitoring, and data collection related to the green features, for study of the impact of the features on overall energy use and operational costs, and for the evaluation of the information obtained through the conduct of projects and activities under this title; [1] and

(B) achieves the highest rating offered by the high performance green building system identified pursuant to section 17092(h) of this title;

(2) no fewer than 4 demonstration projects at 4 universities, that, as competitively selected by the Commercial Director in accordance with subsection (c)(2), have—

(A) appropriate research resources and relevant projects to meet the goals of the demonstration project established by the Office of Commercial High-Performance Green Buildings; and

(B) the ability—

(i) to serve as a model for high-performance green building initiatives, including research and education [2] by achieving the highest rating offered by the high performance green building system identified pursuant to section 17092(h) of this title;

(ii) to identify the most effective ways to use high-performance green building and landscape technologies to engage and educate undergraduate and graduate students;

(iii) to effectively implement a high-performance green building education program for students and occupants;

(iv) to demonstrate the effectiveness of various high-performance technologies, including their impacts on energy use and operational costs, in each of the 4 climatic regions of the United States described in subsection (c)(2)(B); and

(v) to explore quantifiable and nonquantifiable beneficial impacts on public health and employee and student performance;

(3) demonstration projects to evaluate replicable approaches of achieving high performance in actual building operation in various types of commercial buildings in various climates; and

(4) deployment activities to disseminate information on and encourage widespread adoption of technologies, practices, and policies to achieve zero-net-energy commercial buildings or low energy use and effective monitoring of energy use in commercial buildings.

(c) Criteria

(1) Federal facilities

With respect to the existing or proposed Federal facility at which a demonstration project under this section is conducted, the Federal facility shall—

(A) be an appropriate model for a project relating to—

(i) the effectiveness of high-performance technologies;

(ii) analysis of materials, components, systems, and emergency operations in the building, and the impact of those materials, components, and systems, including the impact on the health of building occupants;

(iii) life-cycle costing and life-cycle assessment of building materials and systems; and

(iv) location and design that promote access to the Federal facility through walking, biking, and mass transit; and

(B) possess sufficient technological and organizational adaptability.

(2) Universities

With respect to the 4 universities at which a demonstration project under this section is conducted—

(A) the universities should be selected, after careful review of all applications received containing the required information, as determined by the Commercial Director, based on—

(i) successful and established public-private research and development partnerships;

(ii) demonstrated capabilities to construct or renovate buildings that meet high indoor environmental quality standards;

(iii) organizational flexibility;

(iv) technological adaptability;

(v) the demonstrated capacity of at least 1 university to replicate lessons learned among nearby or sister universities, preferably by participation in groups or consortia that promote sustainability;

(vi) the demonstrated capacity of at least 1 university to have officially-adopted, institution-wide "high-performance green building" guidelines for all campus building projects; and

(vii) the demonstrated capacity of at least 1 university to have been recognized by similar institutions as a national leader in sustainability education and curriculum for students of the university; and

(B) each university shall be located in a different climatic region of the United States, each of which regions shall have, as determined by the Office of Commercial High-Performance Green Buildings—

(i) a hot, dry climate;

(ii) a hot, humid climate;

(iii) a cold climate; or

(iv) a temperate climate (including a climate with cold winters and humid summers).

(d) Applications

To receive a grant under subsection (b), an eligible applicant shall submit to the Federal Director or the Commercial Director an application at such time, in such manner, and containing such information as the Director may require, including a written assurance that all laborers and mechanics employed by contractors or subcontractors during construction, alteration, or repair that is financed, in whole or in part, by a grant under this section shall be paid wages at rates not less than those prevailing on similar construction in the locality, as determined by the Secretary of Labor in accordance with sections 3141 through 3144, 3146, and 3147 of title 40. The Secretary of Labor shall, with respect to the labor standards described in this subsection, have the authority and functions set forth in Reorganization Plan Numbered 14 of 1950 (5 U.S.C. App.) and section 3145 of title 40.

(e) Report

Not later than 1 year after December 19, 2007, and annually thereafter through September 30, 2014—

(1) the Federal Director and the Commercial Director shall submit to the Secretary a report that describes the status of the demonstration projects; and

(2) each University at which a demonstration project under this section is conducted shall submit to the Secretary a report that describes the status of the demonstration projects under this section.

(f) Authorization of appropriations

There is authorized to be appropriated to carry out the demonstration project described in section [3] (b)(1), $10,000,000 for the period of fiscal years 2008 through 2012, and to carry out the demonstration project described in section [3] (b)(2), $10,000,000 for the period of fiscal years 2008 through 2012, to remain available until expended.

[2] So in original. A comma probably should appear.

[3] So in original. Probably should be "subsection".

§17122. Research and development

(a) Establishment

The Federal Director and the Commercial Director, jointly and in coordination with the Advisory Committee, shall—

(1)(A) survey existing research and studies relating to high-performance green buildings; and

(B) coordinate activities of common interest;

(2) develop and recommend a high-performance green building research plan that—

(A) identifies information and research needs, including the relationships between human health, occupant productivity, safety, security, and accessibility and each of—

(i) emissions from materials and products in the building;

(ii) natural day lighting;

(iii) ventilation choices and technologies;

(iv) heating, cooling, and system control choices and technologies;

(v) moisture control and mold;

(vi) maintenance, cleaning, and pest control activities;

(vii) acoustics;

(viii) access to public transportation; and

(ix) other issues relating to the health, comfort, productivity, and performance of occupants of the building;

(B) promotes the development and dissemination of high-performance green building

measurement tools that, at a minimum, may be used—

(i) to monitor and assess the life-cycle performance of facilities (including demonstration projects) built as high-performance green buildings; and

(ii) to perform life-cycle assessments; and

(C) identifies and tests new and emerging technologies for high-performance green buildings;

(3) assist the budget and life-cycle costing functions of the Directors' Offices under section 17092(d) of this title;

(4) study and identify potential benefits of green buildings relating to security, natural disaster, and emergency needs of the Federal Government; and

(5) support other research initiatives determined by the Directors' Offices.

(b) Indoor air quality

The Federal Director, in consultation with the Administrator of the Environmental Protection Agency and the Advisory Committee, shall develop and carry out a comprehensive indoor air quality program for all Federal facilities to ensure the safety of Federal workers and facility occupants—

(1) during new construction and renovation of facilities; and

(2) in existing facilities.

(Pub. L. 110–140, title IV, §492, Dec. 19, 2007, 121 Stat. 1651.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§17123. Green Building Advisory Committee

(a) Establishment

Not later than 180 days after December 19, 2007, the Federal Director, in coordination with the Commercial Director, shall establish an advisory committee, to be known as the "Green Building Advisory Committee".

(b) Membership

(1) In general

The Committee shall be composed of representatives of, at a minimum—

(A) each agency referred to in section 17081(e) of this title; and

(B) other relevant agencies and entities, as determined by the Federal Director, including at least 1 representative of each of—

(i) State and local governmental green building programs;

(ii) independent green building associations or councils;

(iii) building experts, including architects, material suppliers, and construction contractors;

(iv) security advisors focusing on national security needs, natural disasters, and other dire emergency situations;

(v) public transportation industry experts; and

(vi) environmental health experts, including those with experience in children's health.

(2) Non-Federal members

The total number of non-Federal members on the Committee at any time shall not exceed 15.

(c) Meetings

The Federal Director shall establish a regular schedule of meetings for the Committee.

(d) Duties

The Committee shall provide advice and expertise for use by the Federal Director in carrying out the duties under this part, including such recommendations relating to Federal activities carried out under sections 434 through 436 [1] as are agreed to by a majority of the members of the Committee.

(e) FACA exemption

The Committee shall not be subject to section 14 of the Federal Advisory Committee Act (5 U.S.C. App.).

(Pub. L. 110–140, title IV, §494, Dec. 19, 2007, 121 Stat. 1654.)

§17124. Advisory Committee on Energy Efficiency Finance

(a) Establishment

The Secretary, acting through the Assistant Secretary of Energy for Energy Efficiency and Renewable Energy, shall establish an Advisory Committee on Energy Efficiency Finance to provide advice and recommendations to the Department on energy efficiency finance and investment issues, options, ideas, and trends, and to assist the energy community in identifying practical ways of lowering costs and increasing investments in energy efficiency technologies.

(b) Membership

The advisory committee established under this section shall have a balanced membership that shall include members with expertise in—

(1) availability of seed capital;
(2) availability of venture capital;
(3) availability of other sources of private equity;
(4) investment banking with respect to corporate finance;
(5) investment banking with respect to mergers and acquisitions;
(6) equity capital markets;
(7) debt capital markets;
(8) research analysis;
(9) sales and trading;
(10) commercial lending; and
(11) residential lending.

(c) Termination

The Advisory Committee on Energy Efficiency Finance shall terminate on the date that is 10 years after December 19, 2007.

(d) Authorization of appropriations

There are authorized to be appropriated such sums as are necessary to the Secretary for carrying out this section.

(Pub. L. 110–140, title IV, §495, Dec. 19, 2007, 121 Stat. 1654.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

SUBCHAPTER IV—ENERGY SAVINGS IN GOVERNMENT AND PUBLIC INSTITUTIONS

PART A—ENERGY SAVINGS PERFORMANCE CONTRACTING

§17131. Training Federal contracting officers to negotiate energy efficiency contracts

(a) Program

The Secretary shall create and administer in the Federal Energy Management Program a training program to educate Federal contract negotiation and contract management personnel so that the contract officers are prepared to—

(1) negotiate energy savings performance contracts;

(2) conclude effective and timely contracts for energy efficiency services with all companies offering energy efficiency services; and

(3) review Federal contracts for all products and services for the potential energy efficiency opportunities and implications of the contracts.

(b) Schedule

Not later than 1 year after December 19, 2007, the Secretary shall plan, staff, announce, and begin training under the Federal Energy Management Program.

(c) Personnel to be trained

Personnel appropriate to receive training under the Federal Energy Management Program shall be selected by and sent for the training from—

(1) the Department of Defense;

(2) the Department of Veterans Affairs;

(3) the Department;

(4) the General Services Administration;

(5) the Department of Housing and Urban Development;

(6) the United States Postal Service; and

(7) all other Federal agencies and departments that enter contracts for buildings, building services, electricity and electricity services, natural gas and natural gas services, heating and air conditioning services, building fuel purchases, and other types of procurement or service contracts

determined by the Secretary, in carrying out the Federal Energy Management Program, to offer the potential for energy savings and greenhouse gas emission reductions if negotiated with taking into account those goals.

(d) Trainers

Training under the Federal Energy Management Program may be conducted by—

(1) attorneys or contract officers with experience in negotiating and managing contracts described in subsection (c)(7) from any agency, except that the Secretary shall reimburse the related salaries and expenses of the attorneys or contract officers from amounts made available for carrying out this section to the extent the attorneys or contract officers are not employees of the Department; and

(2) private experts hired by the Secretary for the purposes of this section, except that the Secretary may not hire experts who are simultaneously employed by any company under contract to provide energy efficiency services to the Federal Government.

(e) Authorization of appropriations

There are authorized to be appropriated to the Secretary to carry out this section $750,000 for each of fiscal years 2008 through 2012.

(Pub. L. 110–140, title V, §517, Dec. 19, 2007, 121 Stat. 1659.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

PART B—ENERGY EFFICIENCY IN FEDERAL AGENCIES

§17141. Prohibition on incandescent lamps by Coast Guard

(a) Prohibition

Except as provided by subsection (b), on and after January 1, 2009, a general service incandescent lamp shall not be purchased or installed in a Coast Guard facility by or on behalf of the Coast Guard.

(b) Exception

A general service incandescent lamp may be purchased, installed, and used in a Coast Guard facility whenever the application of a general service incandescent lamp is—

(1) necessary due to purpose or design, including medical, security, and industrial applications;

(2) reasonable due to the architectural or historical value of a light fixture installed before January 1, 2009; or

(3) the Commandant of the Coast Guard determines that operational requirements necessitate the use of a general service incandescent lamp.

(c) Limitation

In this section, the term "facility" does not include a vessel or aircraft of the Coast Guard.

(Pub. L. 110–140, title V, §522, Dec. 19, 2007, 121 Stat. 1662.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out

as a note under section 1824 of Title 2, The Congress.

§17142. Procurement and acquisition of alternative fuels

No Federal agency shall enter into a contract for procurement of an alternative or synthetic fuel, including a fuel produced from nonconventional petroleum sources, for any mobility-related use, other than for research or testing, unless the contract specifies that the lifecycle greenhouse gas emissions associated with the production and combustion of the fuel supplied under the contract must, on an ongoing basis, be less than or equal to such emissions from the equivalent conventional fuel produced from conventional petroleum sources.

(Pub. L. 110–140, title V, §526, Dec. 19, 2007, 121 Stat. 1663.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

WAIVER AUTHORITY FOR ALTERNATIVE FUEL PROCUREMENT REQUIREMENT

Pub. L. 114–328, div. A, title III, §312, Dec. 23, 2016, 130 Stat. 2073, provided that:

"(a) IN GENERAL.—The Secretary of Defense may waive the requirement under section 526 of the Energy Independence and Security Act of 2007 (Public Law 110–140; 42 U.S.C. 17142) if the Secretary determines it is in the national security interest of the United States.

"(b) NOTIFICATION REQUIREMENT.—The Secretary of Defense shall notify the congressional defense committees [Committees on Armed Services and Appropriations of the Senate and the House of Representatives] not later than 15 days after exercising the waiver authority under subsection (a)."

§17143. Government efficiency status reports

(a) In general

Each Federal agency subject to any of the requirements of this title [1] or the amendments made by this title [1] shall compile and submit to the Director of the Office of Management and Budget an annual Government efficiency status report on—

(1) compliance by the agency with each of the requirements of this title [1] and the amendments made by this title; [1]

(2) the status of the implementation by the agency of initiatives to improve energy efficiency, reduce energy costs, and reduce emissions of greenhouse gases; and

(3) savings to the taxpayers of the United States resulting from mandated improvements under this title [1] and the amendments made by this title.[1]

(b) Submission

The report shall be submitted—

(1) to the Director at such time as the Director requires;

(2) in electronic, not paper, format; and

(3) consistent with related reporting requirements.

(Pub. L. 110–140, title V, §527, Dec. 19, 2007, 121 Stat. 1663.)

§17144. OMB Government efficiency reports and scorecards

(a) Reports

Not later than April 1 of each year, the Director of the Office of Management and Budget shall submit an annual Government efficiency report to the Committee on Oversight and Government Reform of the House of Representatives and the Committee on Governmental Affairs of the Senate, which shall contain—

(1) a summary of the information reported by agencies under section 17143 of this title;

(2) an evaluation of the overall progress of the Federal Government toward achieving the goals of this title [1] and the amendments made by this title; [1] and

(3) recommendations for additional actions necessary to meet the goals of this title [1] and the amendments made by this title.[1]

(b) Scorecards

The Director of the Office of Management and Budget shall include in any annual energy scorecard the Director is otherwise required to submit a description of the compliance of each agency with the requirements of this title [1] and the amendments made by this title.[1]

(Pub. L. 110–140, title V, §528, Dec. 19, 2007, 121 Stat. 1664.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

CHANGE OF NAME

Committee on Oversight and Government Reform of House of Representatives changed to Committee on Oversight and Reform of House of Representatives by House Resolution No. 6, One Hundred Sixteenth Congress, Jan. 9, 2019.

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

[1] *See References in Text note below.*

PART C—ENERGY EFFICIENCY AND CONSERVATION BLOCK GRANTS

§17151. Definitions

In this part:

(1) Eligible entity

The term "eligible entity" means—

(A) a State;

(B) an eligible unit of local government; and

(C) an Indian tribe.

(2) Eligible unit of local government

The term "eligible unit of local government" means—

(A) an eligible unit of local government-alternative 1; and

(B) an eligible unit of local government-alternative 2.

(3)(A) Eligible unit of local government-alternative 1

The term "eligible unit of local government-alternative 1" means—

(i) a city with a population—

(I) of at least 35,000; or

(II) that causes the city to be 1 of the 10 highest-populated cities of the State in which the city is located; and

(ii) a county with a population—

(I) of at least 200,000; or

(II) that causes the county to be 1 of the 10 highest-populated counties of the State in which the county is located.

(B) Eligible unit of local government-alternative 2

The term "eligible unit of local government-alternative 2" means—

(i) a city with a population of at least 50,000; or

(ii) a county with a population of at least 200,000.

(4) Indian tribe

The term "Indian tribe" has the meaning given the term in section 5304 of title 25.

(5) Program

The term "program" means the Energy Efficiency and Conservation Block Grant Program established under section 17152(a) of this title.

(6) State

The term "State" means—

(A) a State;

(B) the District of Columbia;

(C) the Commonwealth of Puerto Rico; and

(D) any other territory or possession of the United States.

(Pub. L. 110–140, title V, §541, Dec. 19, 2007, 121 Stat. 1667.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§17152. Energy Efficiency and Conservation Block Grant Program

(a) Establishment

The Secretary shall establish a program, to be known as the "Energy Efficiency and Conservation Block Grant Program", under which the Secretary shall provide grants to eligible entities in accordance with this part.

(b) Purpose

The purpose of the program shall be to assist eligible entities in implementing strategies—

(1) to reduce fossil fuel emissions created as a result of activities within the jurisdictions of eligible entities in a manner that—

(A) is environmentally sustainable; and

(B) to the maximum extent practicable, maximizes benefits for local and regional communities;

(2) to reduce the total energy use of the eligible entities; and

(3) to improve energy efficiency in—

(A) the transportation sector;

(B) the building sector; and

(C) other appropriate sectors.

(Pub. L. 110–140, title V, §542, Dec. 19, 2007, 121 Stat. 1668.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§17153. Allocation of funds

(a) In general

Of amounts made available to provide grants under this part for each fiscal year, the Secretary shall allocate—

(1) 34 percent to eligible units of local government—alternative 1, in accordance with subsection (b);

(2) 34 percent to eligible units of local government—alternative 2, in accordance with subsection (b);

(3) 28 percent to States in accordance with subsection (c);

(4) 2 percent to Indian tribes in accordance with subsection (d); and

(5) 2 percent for competitive grants under section 17156 of this title.

(b) Eligible units of local government

Of amounts available for distribution to eligible units of local government under subsection (a)(1) or (2), the Secretary shall provide grants to eligible units of local government under this section based on a formula established by the Secretary according to—

(1) the populations served by the eligible units of local government, according to the latest available decennial census; and

(2) the daytime populations of the eligible units of local government and other similar factors

(such as square footage of commercial, office, and industrial space), as determined by the Secretary.

(c) States

Of amounts available for distribution to States under subsection (a)(2), the Secretary shall provide—

(1) not less than 1.25 percent to each State; and

(2) the remainder among the States, based on a formula to be established by the Secretary that takes into account—

(A) the population of each State; and

(B) any other criteria that the Secretary determines to be appropriate.

(d) Indian tribes

Of amounts available for distribution to Indian tribes under subsection (a)(3), the Secretary shall establish a formula for allocation of the amounts to Indian tribes, taking into account any factors that the Secretary determines to be appropriate.

(e) Publication of allocation formulas

Not later than 90 days before the beginning of each fiscal year for which grants are provided under this part, the Secretary shall publish in the Federal Register the formulas for allocation established under this section.

(f) State and local advisory committee

The Secretary shall establish a State and local advisory committee to advise the Secretary regarding administration, implementation, and evaluation of the program.

(Pub. L. 110–140, title V, §543, Dec. 19, 2007, 121 Stat. 1668; Pub. L. 111–5, div. A, title IV, §404(a), (b), Feb. 17, 2009, 123 Stat. 143.)

EDITORIAL NOTES

AMENDMENTS

2009—Subsec. (a)(1). Pub. L. 111–5, §404(a)(2), added par. (1) and struck out former par. (1) which read as follows: "68 percent to eligible units of local government in accordance with subsection (b);".

Subsec. (a)(2) to (5). Pub. L. 111–5, §404(a), added par. (2) and redesignated former pars. (2) to (4) as (3) to (5), respectively.

Subsec. (b). Pub. L. 111–5, §404(b), substituted "subsection (a)(1) or (2)" for "subsection (a)(1)" in introductory provisions.

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§17154. Use of funds

An eligible entity may use a grant received under this part to carry out activities to achieve the purposes of the program, including—

(1) development and implementation of an energy efficiency and conservation strategy under section 17155(b) of this title;

(2) retaining technical consultant services to assist the eligible entity in the development of such a strategy, including—

(A) formulation of energy efficiency, energy conservation, and energy usage goals;

(B) identification of strategies to achieve those goals—

(i) through efforts to increase energy efficiency and reduce energy consumption; and
(ii) by encouraging behavioral changes among the population served by the eligible entity;

(C) development of methods to measure progress in achieving the goals;
(D) development and publication of annual reports to the population served by the eligible entity describing—
(i) the strategies and goals; and
(ii) the progress made in achieving the strategies and goals during the preceding calendar year; and

(E) other services to assist in the implementation of the energy efficiency and conservation strategy;

(3) conducting residential and commercial building energy audits;
(4) establishment of financial incentive programs for energy efficiency improvements;
(5) the provision of grants to nonprofit organizations and governmental agencies for the purpose of performing energy efficiency retrofits;
(6) development and implementation of energy efficiency and conservation programs for buildings and facilities within the jurisdiction of the eligible entity, including—
(A) design and operation of the programs;
(B) identifying the most effective methods for achieving maximum participation and efficiency rates;
(C) public education;
(D) measurement and verification protocols; and
(E) identification of energy efficient technologies;

(7) development and implementation of programs to conserve energy used in transportation, including—
(A) use of flex time by employers;
(B) satellite work centers;
(C) development and promotion of zoning guidelines or requirements that promote energy efficient development;
(D) development of infrastructure, such as bike lanes and pathways and pedestrian walkways;
(E) synchronization of traffic signals; and
(F) other measures that increase energy efficiency and decrease energy consumption;

(8) development and implementation of building codes and inspection services to promote building energy efficiency;
(9) application and implementation of energy distribution technologies that significantly increase energy efficiency, including—
(A) distributed resources; and
(B) district heating and cooling systems;

(10) activities to increase participation and efficiency rates for material conservation programs, including source reduction, recycling, and recycled content procurement programs that lead to increases in energy efficiency;
(11) the purchase and implementation of technologies to reduce, capture, and, to the maximum extent practicable, use methane and other greenhouse gases generated by landfills or similar sources;
(12) replacement of traffic signals and street lighting with energy efficient lighting technologies, including—
(A) light emitting diodes; and
(B) any other technology of equal or greater energy efficiency;

(13) development, implementation, and installation on or in any government building of the eligible entity of onsite renewable energy technology that generates electricity from renewable resources, including—

(A) solar energy;

(B) wind energy;

(C) fuel cells; and

(D) biomass;

(14) programs for financing energy efficiency, renewable energy, and zero-emission transportation (and associated infrastructure), capital investments, projects, and programs, which may include loan programs and performance contracting programs, for leveraging of additional public and private sector funds, and programs that allow rebates, grants, or other incentives for the purchase and installation of energy efficiency, renewable energy, and zero-emission transportation (and associated infrastructure) measures; and

(15) any other appropriate activity, as determined by the Secretary, in consultation with—

(A) the Administrator of the Environmental Protection Agency;

(B) the Secretary of Transportation; and

(C) the Secretary of Housing and Urban Development.

(Pub. L. 110–140, title V, §544, Dec. 19, 2007, 121 Stat. 1669; Pub. L. 117–58, div. D, title V, §40552(a), Nov. 15, 2021, 135 Stat. 1076.)

EDITORIAL NOTES

AMENDMENTS

2021—Pars. (14), (15). Pub. L. 117–58 added par. (14) and redesignated former par. (14) as (15).

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§17155. Requirements for eligible entities

(a) Construction requirement

(1) In general

To be eligible to receive a grant under the program, each eligible applicant shall submit to the Secretary a written assurance that all laborers and mechanics employed by any contractor or subcontractor of the eligible entity during any construction, alteration, or repair activity funded, in whole or in part, by the grant shall be paid wages at rates not less than the prevailing wages for similar construction activities in the locality, as determined by the Secretary of Labor, in accordance with sections 3141 through 3144, 3146, and 3147 of title 40.

(2) Secretary of Labor

With respect to the labor standards referred to in paragraph (1), the Secretary of Labor shall have the authority and functions described in—

(A) Reorganization Plan Numbered 14 of 1950 (5 U.S.C. 903 note); [1] and

(B) section 3145 of title 40.

(b) Eligible units of local government and Indian tribes

(1) Proposed strategy

(A) In general

Not later than 1 year after the date on which an eligible unit of local government or Indian tribe receives a grant under this part, the eligible unit of local government or Indian tribe shall submit to the Secretary a proposed energy efficiency and conservation strategy in accordance with this paragraph.

(B) Inclusions

The proposed strategy under subparagraph (A) shall include—

(i) a description of the goals of the eligible unit of local government or Indian tribe, in accordance with the purposes of this part, for increased energy efficiency and conservation in the jurisdiction of the eligible unit of local government or Indian tribe; and

(ii) a plan for the use of the grant to assist the eligible unit of local government or Indian tribe in achieving those goals, in accordance with section 17154 of this title.

(C) Requirements for eligible units of local government

In developing the strategy under subparagraph (A), an eligible unit of local government shall—

(i) take into account any plans for the use of funds by adjacent eligible units of local governments that receive grants under the program; and

(ii) coordinate and share information with the State in which the eligible unit of local government is located regarding activities carried out using the grant to maximize the energy efficiency and conservation benefits under this part.

(2) Approval by Secretary

(A) In general

The Secretary shall approve or disapprove a proposed strategy under paragraph (1) by not later than 120 days after the date of submission of the proposed strategy.

(B) Disapproval

If the Secretary disapproves a proposed strategy under subparagraph (A)—

(i) the Secretary shall provide to the eligible unit of local government or Indian tribe the reasons for the disapproval; and

(ii) the eligible unit of local government or Indian tribe may revise and resubmit the proposed strategy as many times as necessary until the Secretary approves a proposed strategy.

(C) Requirement

The Secretary shall not provide to an eligible unit of local government or Indian tribe any grant under the program until a proposed strategy of the eligible unit of local government or Indian tribe is approved by the Secretary under this paragraph.

(3) Limitations on use of funds

Of amounts provided to an eligible unit of local government or Indian tribe under the program, an eligible unit of local government or Indian tribe may use—

(A) for administrative expenses, excluding the cost of meeting the reporting requirements of this part, an amount equal to the greater of—

(i) 10 percent; and [2]

(ii) $75,000;

(B) for the establishment of revolving loan funds, an amount equal to the greater of—

(i) 20 percent; and [2]

(ii) $250,000; and

(C) for the provision of subgrants to nongovernmental organizations for the purpose of assisting in the implementation of the energy efficiency and conservation strategy of the eligible

unit of local government or Indian tribe, an amount equal to the greater of—

(i) 20 percent; and [2]

(ii) $250,000.

(4) Annual report

Not later than 2 years after the date on which funds are initially provided to an eligible unit of local government or Indian tribe under the program, and annually thereafter, the eligible unit of local government or Indian tribe shall submit to the Secretary a report describing—

(A) the status of development and implementation of the energy efficiency and conservation strategy of the eligible unit of local government or Indian tribe; and

(B) as practicable, an assessment of energy efficiency gains within the jurisdiction of the eligible unit of local government or Indian tribe.

(c) States

(1) Distribution of funds

(A) In general

A State that receives a grant under the program shall use not less than 60 percent of the amount received to provide subgrants to units of local government in the State that are not eligible units of local government.

(B) Deadline

The State shall provide the subgrants required under subparagraph (A) by not later than 180 days after the date on which the Secretary approves a proposed energy efficiency and conservation strategy of the State under paragraph (3).

(2) Revision of conservation plan; proposed strategy

Not later than 120 days after December 19, 2007, each State shall—

(A) modify the State energy conservation plan of the State under section 6322 of this title to establish additional goals for increased energy efficiency and conservation in the State; and

(B) submit to the Secretary a proposed energy efficiency and conservation strategy that—

(i) establishes a process for providing subgrants as required under paragraph (1); and

(ii) includes a plan of the State for the use of funds received under the program to assist the State in achieving the goals established under subparagraph (A), in accordance with sections 17152(b) and 17154 of this title.

(3) Approval by Secretary

(A) In general

The Secretary shall approve or disapprove a proposed strategy under paragraph (2)(B) by not later than 120 days after the date of submission of the proposed strategy.

(B) Disapproval

If the Secretary disapproves a proposed strategy under subparagraph (A)—

(i) the Secretary shall provide to the State the reasons for the disapproval; and

(ii) the State may revise and resubmit the proposed strategy as many times as necessary until the Secretary approves a proposed strategy.

(C) Requirement

The Secretary shall not provide to a State any grant under the program until a proposed strategy of the State is approved by the Secretary under this paragraph.

(4) Limitations on use of funds

A State may use not more than 10 percent of amounts provided under the program for administrative expenses.

(5) Annual reports

Each State that receives a grant under the program shall submit to the Secretary an annual report that describes—

(A) the status of development and implementation of the energy efficiency and conservation strategy of the State during the preceding calendar year;

(B) the status of the subgrant program of the State under paragraph (1);

(C) the energy efficiency gains achieved through the energy efficiency and conservation strategy of the State during the preceding calendar year; and

(D) specific energy efficiency and conservation goals of the State for subsequent calendar years.

(Pub. L. 110–140, title V, §545, Dec. 19, 2007, 121 Stat. 1670.)

EDITORIAL NOTES

REFERENCES IN TEXT

Reorganization Plan Numbered 14 of 1950, referred to in subsec. (a)(2)(A), is set out in the Appendix to Title 5, Government Organization and Employees. Section 903 of Title 5 relates to Presidential authority regarding reorganization plans.

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

[1] See References in Text note below.

[2] So in original. Probably should be "or".

§17156. Competitive grants

(a) In general

Of the total amount made available for each fiscal year to carry out this part, the Secretary shall use not less than 2 percent to provide grants under this section, on a competitive basis, to—

(1) units of local government (including Indian tribes) that are not eligible entities; and

(2) consortia of units of local government described in paragraph (1).

(b) Applications

To be eligible to receive a grant under this section, a unit of local government or consortia shall submit to the Secretary an application at such time, in such manner, and containing such information as the Secretary may require, including a plan of the unit of local government to carry out an activity described in section 17154 of this title.

(c) Priority

In providing grants under this section, the Secretary shall give priority to units of local government—

(1) located in States with populations of less than 2,000,000; or

(2) that plan to carry out projects that would result in significant energy efficiency improvements or reductions in fossil fuel use.

(Pub. L. 110–140, title V, §546, Dec. 19, 2007, 121 Stat. 1673.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§17157. Review and evaluation

(a) In general

The Secretary may review and evaluate the performance of any eligible entity that receives a grant under the program, including by conducting an audit, as the Secretary determines to be appropriate.

(b) Withholding of funds

The Secretary may withhold from an eligible entity any portion of a grant to be provided to the eligible entity under the program if the Secretary determines that the eligible entity has failed to achieve compliance with—

(1) any applicable guideline or regulation of the Secretary relating to the program, including the misuse or misappropriation of funds provided under the program; or

(2) the energy efficiency and conservation strategy of the eligible entity.

(Pub. L. 110–140, title V, §547, Dec. 19, 2007, 121 Stat. 1674.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§17158. Funding

(a) Authorization of appropriations

(1) Grants

There is authorized to be appropriated to the Secretary for the provision of grants under the program $2,000,000,000 for each of fiscal years 2008 through 2012.

(2) Administrative costs

There are authorized to be appropriated to the Secretary for administrative expenses of the program—

(A) $20,000,000 for each of fiscal years 2008 and 2009;

(B) $25,000,000 for each of fiscal years 2010 and 2011; and

(C) $30,000,000 for fiscal year 2012.

(b) Maintenance of funding

The funding provided under this section shall supplement (and not supplant) other Federal funding provided under—

(1) a State energy conservation plan established under part D of title III of the Energy Policy and Conservation Act (42 U.S.C. 6321 et seq.); or

(2) the Weatherization Assistance Program for Low-Income Persons established under part A of title IV of the Energy Conservation and Production Act (42 U.S.C. 6861 et seq.).

(Pub. L. 110–140, title V, §548, Dec. 19, 2007, 121 Stat. 1674; Pub. L. 111–5, div. A, title IV, §404(c), Feb. 17, 2009, 123 Stat. 143.)

EDITORIAL NOTES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

SUBCHAPTER V—ACCELERATED RESEARCH AND DEVELOPMENT

PART A—SOLAR ENERGY

§17171. Thermal energy storage research and development program

(a) Establishment

The Secretary shall establish a program of research and development to provide lower cost and more viable thermal energy storage technologies to enable the shifting of electric power loads on demand and extend the operating time of concentrating solar power electric generating plants.

(b) Authorization of appropriations

There are authorized to be appropriated to the Secretary for carrying out this section $5,000,000 for fiscal year 2008, $7,000,000 for fiscal year 2009, $9,000,000 for fiscal year 2010, $10,000,000 for fiscal year 2011, and $12,000,000 for fiscal year 2012.

(Pub. L. 110–140, title VI, §602, Dec. 19, 2007, 121 Stat. 1674.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

SHORT TITLE

This part known as the "Solar Energy Research and Advancement Act of 2007", see Short Title note set out under section 17001 of this title.

§17172. Solar energy curriculum development and certification grants

(a) Establishment

The Secretary shall establish in the Office of Solar Energy Technologies a competitive grant program to create and strengthen solar industry workforce training and internship programs in installation, operation, and maintenance of solar energy products. The goal of this program is to ensure a supply of well-trained individuals to support the expansion of the solar energy industry.

(b) Authorized activities

Grant funds may be used to support the following activities:

(1) Creation and development of a solar energy curriculum appropriate for the local educational, entrepreneurial, and environmental conditions, including curriculum for community colleges.

(2) Support of certification programs for individual solar energy system installers, instructors, and training programs.

(3) Internship programs that provide hands-on participation by students in commercial applications.

(4) Activities required to obtain certification of training programs and facilities by an industry-accepted quality-control certification program.

(5) Incorporation of solar-specific learning modules into traditional occupational training and internship programs for construction-related trades.

(6) The purchase of equipment necessary to carry out activities under this section.

(7) Support of programs that provide guidance and updates to solar energy curriculum instructors.

(c) Administration of grants

Grants may be awarded under this section for up to 3 years. The Secretary shall award grants to ensure sufficient geographic distribution of training programs nationally. Grants shall only be awarded for programs certified by an industry-accepted quality-control certification institution, or for new and growing programs with a credible path to certification. Due consideration shall be given to women, underrepresented minorities, and persons with disabilities.

(d) Report

The Secretary shall make public, on the website of the Department or upon request, information on the name and institution for all grants awarded under this section, including a brief description of the project as well as the grant award amount.

(e) Authorization of appropriations

There are authorized to be appropriated to the Secretary for carrying out this section $10,000,000 for each of the fiscal years 2008 through 2012.

(Pub. L. 110–140, title VI, §604, Dec. 19, 2007, 121 Stat. 1675.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§17173. Daylighting systems and direct solar light pipe technology

(a) Establishment

The Secretary shall establish a program of research and development to provide assistance in the demonstration and commercial application of direct solar renewable energy sources to provide alternatives to traditional power generation for lighting and illumination, including light pipe technology, and to promote greater energy conservation and improved efficiency. All direct solar renewable energy devices supported under this program shall have the capability to provide

measurable data on the amount of kilowatt-hours saved over the traditionally powered light sources they have replaced.

(b) Reporting

The Secretary shall transmit to Congress an annual report assessing the measurable data derived from each project in the direct solar renewable energy sources program and the energy savings resulting from its use.

(c) Definitions

For purposes of this section—

(1) the term "direct solar renewable energy" means energy from a device that converts sunlight into useable light within a building, tunnel, or other enclosed structure, replacing artificial light generated by a light fixture and doing so without the conversion of the sunlight into another form of energy; and

(2) the term "light pipe" means a device designed to transport visible solar radiation from its collection point to the interior of a building while excluding interior heat gain in the nonheating season.

(d) Authorization of appropriations

There are authorized to be appropriated to the Secretary for carrying out this section $3,500,000 for each of the fiscal years 2008 through 2012.

(Pub. L. 110–140, title VI, §605, Dec. 19, 2007, 121 Stat. 1676.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§§17174, 17175. Repealed. Pub. L. 116–260, div. Z, title III, §3006(g)(1), Dec. 27, 2020, 134 Stat. 2513

Section 17174, Pub. L. 110–140, title VI, §606, Dec. 19, 2007, 121 Stat. 1676, related to solar air conditioning research and development program.

Section 17175, Pub. L. 110–140, title VI, §607, Dec. 19, 2007, 121 Stat. 1677, related to photovoltaic demonstration program.

PART B—GEOTHERMAL ENERGY

§17191. Definitions

For purposes of this part:

(1) Engineered

When referring to enhanced geothermal systems, the term "engineered" means designed to access subsurface heat, including stimulation and nonstimulation technologies to address one or more of the following issues:

(A) Lack of effective permeability, porosity or open fracture connectivity within the heat reservoir.

(B) Insufficient contained geofluid in the heat reservoir.

(C) A low average geothermal gradient which necessitates deeper drilling, or the use of alternative heat sources or heat generation processes.

(2) Eligible entity

The term "eligible entity" means any of the following entities:

(A) An institution of higher education.

(B) A National laboratory.

(C) A Federal research agency.

(D) A State research agency.

(E) A nonprofit research organization.

(F) An industrial entity.

(G) A consortium of 2 or more entities described in subparagraphs (A) through (F).

(3) Enhanced geothermal systems

The term "enhanced geothermal systems" means geothermal reservoir systems that are engineered, as opposed to occurring naturally.

(4) Geofluid

The term "geofluid" means any fluid used to extract thermal energy from the Earth which is transported to the surface for direct use or electric power generation, except that such term shall not include oil or natural gas.

(5) Geopressured resources

The term "geopressured resources" mean geothermal deposits found in sedimentary rocks under higher than normal pressure and saturated with gas or methane.

(6) Geothermal

The term "geothermal" refers to heat energy stored in the Earth's crust that can be accessed for direct use or electric power generation.

(7) Hydrothermal

The term "hydrothermal" refers to naturally occurring subsurface reservoirs of hot water or steam.

(8) Systems approach

The term "systems approach" means an approach to solving problems or designing systems that attempts to optimize the performance of the overall system, rather than a particular component of the system.

(Pub. L. 110–140, title VI, §612, Dec. 19, 2007, 121 Stat. 1679; Pub. L. 116–260, div. Z, title III, §3002(a), Dec. 27, 2020, 134 Stat. 2487.)

EDITORIAL NOTES

AMENDMENTS

2020—Par. (1). Pub. L. 116–260, §3002(a), amended par. (1) generally. Prior to amendment, par. (1) defined the term "engineered".

Pars. (2) to (8). Pub. L. 116–260, §3002(a)(2), (3), added par. (2) and redesignated former pars. (2) to (7) as (3) to (8), respectively.

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

SHORT TITLE

This part known as the "Advanced Geothermal Energy Research and Development Act of 2007", see Short Title note set out under section 17001 of this title.

§17192. Hydrothermal research and development

(a) In general

The Secretary shall carry out a program of research, development, demonstration, and commercial application for geothermal energy production from hydrothermal systems.

(b) Programs

The program authorized in subsection (a) shall include the following:

(1) Advanced hydrothermal resource tools

The research and development of advanced geologic tools to assist in locating hydrothermal resources, and to increase the reliability of site characterization, including the development of new imaging and sensing technologies and techniques to assist in prioritization of targets for characterization;

(2) Exploratory drilling for geothermal resources

The demonstration of advanced technologies and techniques of siting and exploratory drilling for undiscovered resources in a variety of geologic settings, carried out in collaboration with industry partners that will assist in the acquisition of high quality data sets relevant for hydrothermal subsurface characterization activities.

(Pub. L. 110–140, title VI, §613, Dec. 19, 2007, 121 Stat. 1679; Pub. L. 116–260, div. Z, title III, §3002(b), Dec. 27, 2020, 134 Stat. 2487.)

EDITORIAL NOTES

AMENDMENTS

2020—Pub. L. 116–260 amended section generally. Prior to amendment, section related to hydrothermal research and development.

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§17193. General geothermal systems research and development

(a) Subsurface components and systems

The Secretary shall support a program of research, development, demonstration, and commercial application of components and systems capable of withstanding geothermal environments and necessary to develop, produce, and monitor geothermal reservoirs and produce geothermal energy.

(b) Environmental impacts

The Secretary shall—

(1) support a program of research, development, demonstration, and commercial application of technologies and practices designed to mitigate or preclude potential adverse environmental impacts of geothermal energy development, production or use;

(2) support a research program to identify potential environmental impacts, including induced seismicity, and environmental benefits of geothermal energy development, production, and use, and ensure that the program described in paragraph (1) addresses such impacts, including water use and effects on groundwater and local hydrology;

(3) support a program of research to compare the potential environmental impacts and environmental benefits identified as part of the development, production, and use of geothermal

energy with the potential emission reductions of greenhouse gases gained by geothermal energy development, production, and use; and

(4) in carrying out this section, the Secretary shall,[1] to the maximum extent practicable, consult with relevant federal agencies, including the Environmental Protection Agency.

(c) Reservoir thermal energy storage

The Secretary shall support a program of research, development, and demonstration of reservoir thermal energy storage, emphasizing cost-effective improvements through deep direct use engineering, design, and systems research.

(d) Oil and gas technology transfer initiative

(1) In general

The Secretary shall support an initiative among the Office of Fossil Energy, the Office of Energy Efficiency and Renewable Energy, and the private sector to research, develop, and demonstrate relevant advanced technologies and operation techniques used in the oil and gas sector for use in geothermal energy development.

(2) Priorities

In carrying out paragraph (1), the Secretary shall prioritize technologies with the greatest potential to significantly increase the use and lower the cost of geothermal energy in the United States, including the cost and speed of geothermal drilling surface technologies, large- and small-scale drilling, and well construction.

(e) Coproduction of geothermal energy and minerals production research and development initiative

(1) In general

The Secretary shall carry out a research and development initiative under which the Secretary shall provide financial assistance to demonstrate the coproduction of critical minerals from geothermal resources.

(2) Requirements

An award made under paragraph (1) shall—

(A) improve the cost effectiveness of removing minerals from geothermal brines as part of the coproduction process;

(B) increase recovery rates of the targeted mineral commodity;

(C) decrease water use and other environmental impacts, as determined by the Secretary; and

(D) demonstrate a path to commercial viability.

(f) Flexible operations

The Secretary shall support a research initiative on flexible operation of geothermal power plants.

(g) Integrated energy systems

The Secretary shall identify opportunities for joint research, development, and demonstration programs between geothermal systems and other energy generation or storage systems.

(h) Drilling data repository

(1) In general

The Secretary shall, in consultation with the Secretary of the Interior, establish and operate a voluntary, industry-wide repository of geothermal drilling information to lower the cost of future geothermal drilling.

(2) Repository

(A) In general

In carrying out paragraph (1), the Secretary shall collaborate with countries utilizing a significant amount of geothermal energy, as determined by the Secretary.

(B) Data system

The repository established under paragraph (1) shall be integrated with the National Geothermal Data System.

(Pub. L. 110–140, title VI, §614, Dec. 19, 2007, 121 Stat. 1680; Pub. L. 116–260, div. Z, title III, §3002(c), Dec. 27, 2020, 134 Stat. 2488.)

EDITORIAL NOTES

AMENDMENTS

2020—Pub. L. 116–260 amended section generally. Prior to amendment, section related to general geothermal systems research and development.

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

[1] *So in original. The words "The Secretary shall" appear in introductory provisions.*

§17194. Enhanced geothermal systems research and development

(a) In general

The Secretary shall support a program of research, development, demonstration, and commercial application for enhanced geothermal systems, including the programs described in subsection (b).

(b) Enhanced geothermal systems technologies

In collaboration with industry partners, institutions of higher education, and the national laboratories, the Secretary shall support a program of research, development, demonstration, and commercial application of the technologies to achieve higher efficiency and lower cost enhanced geothermal systems, including—

(1) reservoir stimulation;

(2) drilled, non-stimulated (e.g. closed-loop) reservoir technologies;

(3) reservoir characterization, monitoring, and modeling and understanding of the surface area and volume of fractures;

(4) stress and fracture mapping including real time monitoring and modeling;

(5) tracer development;

(6) three and four-dimensional seismic imaging and tomography;

(7) well placement and orientation;

(8) long-term reservoir management;

(9) drilling technologies, methods, and tools;

(10) improved exploration tools;

(11) zonal isolation; and

(12) understanding induced seismicity risks from reservoir engineering and stimulation.

(c) Frontier observatory for research in geothermal energy

(1) In general

The Secretary shall support the establishment and construction of up to 3 field research sites, which shall each be known as a "Frontier Observatory for Research in Geothermal Energy" or "FORGE" site to develop, test, and enhance techniques and tools for enhanced geothermal energy.

(2) Duties

The Secretary shall—

(A) provide financial assistance in support of research and development projects focused on advanced monitoring technologies, new technologies and approaches for implementing multi-zone stimulations, nonstimulation techniques, and dynamic reservoir modeling that incorporates all available high-fidelity characterization data; and

(B) seek opportunities to coordinate efforts and share information with domestic and international partners engaged in research and development of geothermal systems and related technology, including coordination between FORGE sites.

(3) Site selection

Of the FORGE sites referred to in paragraph (1), the Secretary shall—

(A) consider applications through a competitive, merit-reviewed process, from National Laboratories, multi-institutional collaborations, institutes of higher education and other appropriate entities best suited to provide national leadership on geothermal related issues and perform the duties enumerated under this subsection;

(B) prioritize existing field sites and facilities with capabilities relevant to the duties enumerated under this subsection;

(C) determine the mission need for and potential location of subsequent FORGE sites following the completion of construction and one year of operation of two FORGE sites; and

(D) ensure geologic diversity among FORGE sites when developing subsequent sites, to the maximum extent practicable.

(4) Existing forge sites

A FORGE site already in existence on December 27, 2020, may continue to receive support.

(5) Site operation

(A) Initial duration

FORGE sites selected under paragraph (3) shall operate for an initial term of not more than 7 years after the date on which site operation begins.

(B) Performance metrics

The Secretary shall establish performance metrics for each FORGE site supported under this paragraph, which may be used by the Secretary to determine whether a FORGE site should continue to receive funding.

(6) Additional terms

(A) In general

At the end of an operational term described in subparagraph (B), a FORGE site may—

(i) be transferred to other public or private entities for further enhanced geothermal testing; or

(ii) subject to appropriations and a merit review by the Secretary, operate for an additional term of not more than 7 years.

(B) Operational term described

An operational term referred to in subparagraph (A)—

(i) in the case of an existing FORGE site, is the existing operational term; and

(ii) in the case of new FORGE sites selected under paragraph (3), is the initial term under paragraph (5)(A) or an additional term under subparagraph (A)(ii) of this paragraph.

(7) Funding

(A) In general

Out of funds authorized to be appropriated under section 17202 of this title, there shall be made available to the Secretary to carry out the FORGE activities under this paragraph—

(i) $45,000,000 for fiscal year 2021;

(ii) $55,000,000 for fiscal year 2022;

(iii) $65,000,000 for fiscal year 2023;
(iv) $70,000,000 for fiscal year 2024; and
(v) $70,000,000 for fiscal year 2025.

(B) Considerations

In carrying out this subsection, the Secretary shall consider the balance between funds dedicated to construction and operations and research activities to reflect the state of site development.

(d) Enhanced geothermal systems demonstrations

(1) In general

Beginning on December 27, 2020, the Secretary, in collaboration with industry partners, institutions of higher education, and the national laboratories, shall support an initiative for demonstration of enhanced geothermal systems for power production or direct use.

(2) Projects

(A) In general

Under the initiative described in paragraph (1), 4 demonstration projects shall be carried out in locations that are potentially commercially viable for enhanced geothermal systems development, while also considering environmental impacts to the maximum extent practicable, as determined by the Secretary.

(B) Requirements

Demonstration projects under subparagraph (A) shall—
(i) collectively demonstrate—
(I) different geologic settings, such as hot sedimentary aquifers, layered geologic systems, supercritical systems, and basement rock systems; and
(II) a variety of development techniques, including open hole and cased hole completions, differing well orientations, and stimulation and nonstimulation mechanisms; and

(ii) to the extent practicable, use existing sites where subsurface characterization or geothermal energy integration analysis has been conducted.

(C) Eastern demonstration

Not fewer than 1 of the demonstration projects carried out under subparagraph (A) shall be located an area east of the Mississippi River that is suitable for enhanced geothermal demonstration for power, heat, or a combination of power and heat.

(D) Milestone-based demonstration projects

The Secretary may carry out demonstration projects under this subsection as a milestone-based demonstration project under section 7256c of this title.

(3) Funding

Out of funds authorized to be appropriated under section 17202 of this title, there shall be made available to the Secretary to carry out the demonstration activities under this subsection $21,000,000 for each of fiscal years 2021 through 2025.

(Pub. L. 110–140, title VI, §615, Dec. 19, 2007, 121 Stat. 1680; Pub. L. 116–260, div. Z, title III, §3002(d), Dec. 27, 2020, 134 Stat. 2489.)

EDITORIAL NOTES

REFERENCES IN TEXT

December 27, 2020, referred to in subsecs. (c)(4) and (d)(1), was in the original "the date of enactment of this Act" and "he date of enactment of this section", respectively, and were translated as meaning the date of

enactment of Pub. L. 116–260, which was approved Dec. 27, 2020.

AMENDMENTS

2020—Pub. L. 116–260 amended section generally. Prior to amendment, section related to enhanced geothermal systems research and development.

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§17195. Geothermal energy production from oil and gas fields and recovery and production of geopressured gas resources

(a) In general

The Secretary shall establish a program of research, development, demonstration, and commercial application to support development of geothermal energy production from oil and gas fields and production and recovery of energy, including electricity, from geopressured resources. In addition, the Secretary shall conduct such supporting activities including research, resource characterization, and technology development as necessary.

(b) Geothermal energy production from oil and gas fields

The Secretary shall implement a grant program in support of geothermal energy production from oil and gas fields. The program shall include grants for a total of not less than three demonstration projects of the use of geothermal techniques such as advanced organic rankine cycle systems at marginal, unproductive, and productive oil and gas wells. The Secretary shall, to the extent practicable and in the public interest, make awards that—

(1) include not less than five oil or gas well sites per project award;

(2) use a range of oil or gas well hot water source temperatures from 150 degrees Fahrenheit to 300 degrees Fahrenheit;

(3) cover a range of sizes up to one megawatt;

(4) are located at a range of sites;

(5) can be replicated at a wide range of sites;

(6) facilitate identification of optimum techniques among competing alternatives;

(7) include business commercialization plans that have the potential for production of equipment at high volumes and operation and support at a large number of sites; and

(8) satisfy other criteria that the Secretary determines are necessary to carry out the program and collect necessary data and information.

The Secretary shall give preference to assessments that address multiple elements contained in paragraphs (1) through (8).

(c) Grant awards

Each grant award for demonstration of geothermal technology such as advanced organic rankine cycle systems at oil and gas wells made by the Secretary under subsection (b) shall include—

(1) necessary and appropriate site engineering study;

(2) detailed economic assessment of site specific conditions;

(3) appropriate feasibility studies to determine whether the demonstration can be replicated;

(4) design or adaptation of existing technology for site specific circumstances or conditions;

(5) installation of equipment, service, and support;

(6) operation for a minimum of 1 year and monitoring for the duration of the demonstration; and

(7) validation of technical and economic assumptions and documentation of lessons learned.

(d) Geopressured gas resource recovery and production

(1) The Secretary shall implement a program to support the research, development, demonstration, and commercial application of cost-effective techniques to produce energy from geopressured resources.

(2) The Secretary shall solicit preliminary engineering designs for geopressured resources production and recovery facilities.

(3) Based upon a review of the preliminary designs, the Secretary shall award grants, which may be cost-shared, to support the detailed development and completion of engineering, architectural and technical plans needed to support construction of new designs.

(4) Based upon a review of the final design plans above, the Secretary shall award cost-shared development and construction grants for demonstration geopressured production facilities that show potential for economic recovery of the heat, kinetic energy and gas resources from geopressured resources.

(e) Competitive grant selection

Not less than 90 days after December 19, 2007, the Secretary shall conduct a national solicitation for applications for grants under the programs outlined in subsections (b) and (d). Grant recipients shall be selected on a competitive basis based on criteria in the respective subsection.

(f) Well drilling

No funds may be used under this section for the purpose of drilling new wells.

(Pub. L. 110–140, title VI, §616, Dec. 19, 2007, 121 Stat. 1681.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§17195a. Geothermal heat pumps and direct use research and development

(a) Purposes

The purposes of this section are—

(1) to improve the understanding of related earth sciences, components, processes, and systems used for geothermal heat pumps and the direct use of geothermal energy; and

(2) to increase the energy efficiency, lower the cost, increase the use, and improve and demonstrate the effectiveness of geothermal heat pumps and the direct use of geothermal energy.

(b) Definitions

In this section:

(1) Direct use of geothermal energy

The term "direct use of geothermal energy" means geothermal systems that use water directly or through a heat exchanger to provide—

(A) heating and cooling to buildings, commercial districts, residential communities, and large municipal, or industrial projects; or

(B) heat required for industrial processes, agriculture, aquaculture, and other facilities.

(2) Economically distressed area

The term "economically distressed area" means an area described in section 3161(a) of this title.

(3) Geothermal heat pump

The term "geothermal heat pump" means a system that provides heating and cooling by

exchanging heat from shallow geology, groundwater, or surface water using—

(A) a closed loop system, which transfers heat by way of buried or immersed pipes that contain a mix of water and working fluid; or

(B) an open loop system, which circulates ground or surface water directly into the building and returns the water to the same aquifer or surface water source.

(c) Program

(1) In general

The Secretary shall support within the Geothermal Technologies Office a program of research, development, and demonstration for geothermal heat pumps and the direct use of geothermal energy.

(2) Areas

The program under paragraph (1) may include research, development, demonstration, and commercial application of—

(A) geothermal ground loop efficiency improvements, cost reductions, and improved installation and operations methods;

(B) the use of geothermal energy for building-scale energy storage;

(C) the use of geothermal energy as a grid management resource or seasonal energy storage;

(D) geothermal heat pump efficiency improvements;

(E) the use of alternative fluids as a heat exchange medium, such as hot water found in mines and mine shafts, graywater, or other fluids that may improve the economics of geothermal heat pumps;

(F) heating of districts, neighborhoods, communities, large commercial or public buildings, and industrial and manufacturing facilities;

(G) the use of low temperature groundwater for direct use; and

(H) system integration of direct use with geothermal electricity production.

(3) Environmental impacts

In carrying out the program, the Secretary shall identify and mitigate potential environmental impacts in accordance with section 17193(b) of this title.

(d) Financial assistance

(1) In general

The Secretary shall carry out the program established in subsection (c) by making financial assistance available to State, local, and Tribal governments, institutions of higher education, nonprofit entities, National Laboratories, utilities, and for-profit companies.

(2) Priority

In providing financial assistance under this subsection, the Secretary may give priority to proposals that apply to large buildings, commercial districts, and residential communities that are located in economically distressed areas and areas that the Secretary determines to have high economic potential for geothermal district heating based on the report, "Geovision: Harnessing the Heat Beneath our Feet" published by the Department in 2019, or a successor report.

(Pub. L. 110–140, title VI, §616A, as added Pub. L. 116–260, div. Z, title III, §3002(e)(1), Dec. 27, 2020, 134 Stat. 2492.)

§17196. Organization and administration of programs

(a) Federal share

The Federal share of costs of projects funded under this part shall be in accordance with section 16352 of this title.

(b) Organization and administration of programs

Programs under this part shall incorporate the following elements:

(1) The Secretary shall coordinate with, and where appropriate may provide funds in furtherance of the purposes of this part to, other Department of Energy research and development programs focused on drilling, subsurface characterization, and other related technologies.

(2) The Secretary shall coordinate and consult with the appropriate Federal land management agencies in selecting proposals for funding under this part.

(3) Nothing in this part shall be construed to alter or affect any law relating to the management or protection of Federal lands.

(c) Education and outreach

In carrying out the activities described in this part, the Secretary shall support education and outreach activities to disseminate information on geothermal energy technologies and the geothermal energy workforce, including activities at the Frontier Observatory for Research in Geothermal Energy site or sites.

(d) Technical assistance

In carrying out this part, the Secretary shall also conduct technical assistance and analysis activities with eligible entities for the purpose of supporting the commercial application of advances in geothermal energy systems development and operations, which may include activities that support expanding access to advanced geothermal energy technologies for rural, Tribal, and low-income communities.

(e) Report

Every 5 years after December 27, 2020, the Secretary shall report to the Committee on Science and Technology of the House of Representatives and the Committee on Energy and Natural Resources of the Senate on advanced concepts and technologies to maximize the geothermal resource potential of the United States.

(f) Progress reports

Not later than 1 year after December 27, 2020, and every 2 years thereafter, the Secretary shall submit to the Committee on Science and Technology of the House of Representatives and the Committee on Energy and Natural Resources of the Senate a report on the results of projects undertaken under this part and other such information the Secretary considers appropriate.

(Pub. L. 110–140, title VI, §617, Dec. 19, 2007, 121 Stat. 1682; Pub. L. 116–260, div. Z, title III, §3002(f)(1), Dec. 27, 2020, 134 Stat. 2493.)

EDITORIAL NOTES

REFERENCES IN TEXT

This part, referred to in subsec. (f), probably should be a reference to "this subtitle", meaning subtitle B of title VI of Pub. L. 110–140, which is classified to this part.

AMENDMENTS

2020—Pub. L. 116–260, §3002(f)(1)(A), substituted "Organization and administration of programs" for "Cost sharing and proposal evaluation" in section catchline.

Subsec. (b)(2) to (4). Pub. L. 116–260, §3002(f)(1)(B), redesignated pars. (3) and (4) as (2) and (3), respectively, and struck out former par. (2) which read as follows: "In evaluating proposals, the Secretary shall give priority to proposals that demonstrate clear evidence of employing a systems approach."

Subsecs. (c) to (f). Pub. L. 116–260, §3002(f)(1)(C), added subsecs. (c) to (f).

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§17197. Advanced geothermal computing and data science research and development

(a) In general

The Secretary shall carry out a program of research and development of advanced computing and data science tools for geothermal energy.

(b) Programs

The program authorized in subsection (a) shall include the following:

(1) Advanced computing for geothermal systems technologies

Research, development, and demonstration of technologies to develop advanced data, machine learning, artificial intelligence, and related computing tools to assist in locating geothermal resources, to increase the reliability of site characterization, to increase the rate and efficiency of drilling, to improve induced seismicity mitigation, and to support enhanced geothermal systems technologies.

(2) Geothermal systems reservoir modeling

Research, development, and demonstration of models of geothermal reservoir performance and enhanced geothermal systems reservoir stimulation technologies and techniques, with an emphasis on accurately modeling fluid and heat flow, permeability evolution, geomechanics, geochemistry, seismicity, and operational performance over time, including collaboration with industry and field validation.

(c) Coordination

In carrying out these programs, the Secretary shall ensure coordination and consultation with the Department of Energy's Office of Science. The Secretary shall ensure, to the maximum extent practicable, coordination of these activities with the Department of Energy National Laboratories, institutes of higher education, and the private sector.

(Pub. L. 110–140, title VI, §618, Dec. 19, 2007, 121 Stat. 1683; Pub. L. 116–260, div. Z, title III, §3002(g)(1), Dec. 27, 2020, 134 Stat. 2494.)

§17201. Applicability of other laws

Nothing in this part shall be construed as waiving, modifying, or superseding the applicability of any requirement under any environmental or other Federal or State law. To the extent that activities authorized in this part take place in coastal and ocean areas, the Secretary shall consult with the Secretary of Commerce, acting through the Under Secretary of Commerce for Oceans and Atmosphere, regarding the potential marine environmental impacts and measures to address such impacts.

(Pub. L. 110–140, title VI, §622, Dec. 19, 2007, 121 Stat. 1684.)

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§17202. Authorization of appropriations

There are authorized to be appropriated to the Secretary to carry out the programs under this part $170,000,000 for each of fiscal years 2021 through 2025.

(Pub. L. 110–140, title VI, §623, Dec. 19, 2007, 121 Stat. 1684; Pub. L. 116–260, div. Z, title III, §3002(j), Dec. 27, 2020, 134 Stat. 2495.)

EDITORIAL NOTES

AMENDMENTS

2020—Pub. L. 116–260 amended section generally. Prior to amendment, section related to authorization of appropriations for fiscal years 2008 to 2012.

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§17203. International geothermal energy development

(a) In general

The Secretary of Energy, in coordination with other appropriate Federal and multilateral agencies (including the United States Agency for International Development) shall support collaborative efforts with international partners to promote the research, development, and demonstration of geothermal technologies used to develop hydrothermal and enhanced geothermal system resources.

(b) United States Trade and Development Agency

The Director of the United States Trade and Development Agency may—

(1) encourage participation by United States firms in actions taken to carry out subsection (a); and

(2) provide grants and other financial support for feasibility and resource assessment studies conducted in, or intended to benefit, less developed countries.

(Pub. L. 110–140, title VI, §624, Dec. 19, 2007, 121 Stat. 1684; Pub. L. 116–260, div. Z, title III, §3002(k), Dec. 27, 2020, 134 Stat. 2495.)

EDITORIAL NOTES

AMENDMENTS

2020—Subsec. (a). Pub. L. 116–260, §3002(k)(1), amended subsec. (a) generally. Prior to amendment, text read as follows: "The Secretary of Energy, in coordination with other appropriate Federal and multilateral agencies (including the United States Agency for International Development) shall support international collaborative efforts to promote the research, development, and deployment of geothermal technologies used to develop hydrothermal and enhanced geothermal system resources, including as partners (as appropriate) the African Rift Geothermal Development Facility, Australia, China, France, the Republic of Iceland, India, Japan, and the United Kingdom."

Subsec. (c). Pub. L. 116–260, §3002(k)(2), struck out subsec. (c). Text read as follows: "There are authorized to be appropriated to carry out this section $5,000,000 for each of fiscal years 2008 through 2012."

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§17204. High cost region geothermal energy grant program

(a) Definitions

In this section:

(1) Eligible entity

The term "eligible entity" means—

(A) a utility;

(B) an electric cooperative;
(C) a State;
(D) a political subdivision of a State;
(E) an Indian tribe; or
(F) a Native corporation.

(2) High-cost region

The term "high-cost region" means a region in which the average cost of electrical power or heat exceeds 150 percent of the national average retail cost, as determined by the Secretary.

(b) Program

The Secretary shall use amounts made available to carry out this section to make grants to eligible entities for activities described in subsection (c).

(c) Eligible activities

An eligible entity may use grant funds under this section, with respect to a geothermal energy project in a high-cost region, only—

(1) to conduct a feasibility study, including a study of exploration, geochemical testing, geomagnetic surveys, geologic information gathering, baseline environmental studies, well drilling, resource characterization, permitting, and economic analysis;

(2) for design and engineering costs, relating to the project; and

(3) to demonstrate and promote commercial application of technologies related to geothermal energy as part of the project.

(d) Cost sharing

The cost-sharing requirements of section 16352 of this title shall apply to any project carried out under this section.

(e) Authorization of appropriations

Out of funds authorized under section 17202 of this title, there is authorized to be appropriated to carry out this section $5,000,000 for each of fiscal years 2021 through 2025.

(Pub. L. 110–140, title VI, §625, Dec. 19, 2007, 121 Stat. 1685; Pub. L. 116–260, div. Z, title III, §3002(l), Dec. 27, 2020, 134 Stat. 2496.)

EDITORIAL NOTES

AMENDMENTS

2020—Subsec. (a)(2). Pub. L. 116–260, §3002(l)(1), inserted "or heat" after "electrical power".

Subsec. (e). Pub. L. 116–260, §3002(l)(2), amended subsec. (e) generally. Prior to amendment, text read as follows: "There are authorized to be appropriated such sums as are necessary to carry out this section."

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

PART C—WATER POWER RESEARCH AND DEVELOPMENT

CODIFICATION

Subtitle C of title VI of the Energy Independence and Security Act of 2007, known as the Marine and Hydrokinetic Renewable Energy Research and Development Act, comprising this part, was originally enacted

by Pub. L. 110–140, title VI, Dec. 19, 2007, 121 Stat. 1686. Such part is shown herein, however, as having been added by Pub. L. 116–260, div. Z, title III, §3001(a), Dec. 27, 2020, 134 Stat. 2479, because of the extensive revision of the part's provisions by Pub. L. 116–260.

APPLICATION

Provisions of section 3212 of this title applicable to construction, alteration, or repair work of demonstration projects funded by grants or contracts authorized under this part, see section 9006(b) of div. Z of Pub. L. 116–260, set out as a note under section 16237 of this title.

§17211. Definitions

In this part:

(1) Eligible entity

The term "eligible entity" means any of the following entities:

(A) An institution of higher education.
(B) A National Laboratory.
(C) A Federal research agency.
(D) A State research agency.
(E) A nonprofit research organization.
(F) An industrial entity or a multi-institutional consortium thereof.

(2) Institution of higher education

The term "institution of higher education" means—

(A) an institution of higher education (as defined in section 1001(a) of title 20); or
(B) a postsecondary vocational institution (as defined in section 1002(c) of title 20).

(3) Marine energy

The term "marine energy" means energy from—

(A) waves, tides, and currents in oceans, estuaries, and tidal areas;
(B) free flowing water in rivers, lakes, streams, and man-made channels;
(C) differentials in salinity and pressure gradients; and
(D) differentials in water temperature, including ocean thermal energy conversion.

(4) National laboratory

The term "National Laboratory" has the meaning given such term in section 15801(3) of this title.

(5) Water power

The term "water power" refers to hydropower, including conduit power, pumped storage, and marine energy technologies.

(6) Microgrid

The term "microgrid" has the meaning given such term in section 17231 of this title.

(Pub. L. 110–140, title VI, §632, as added Pub. L. 116–260, div. Z, title III, §3001(a), Dec. 27, 2020, 134 Stat. 2479.)

EDITORIAL NOTES

PRIOR PROVISIONS

A prior section 17211, Pub. L. 110–140, title VI, §632, Dec. 19, 2007, 121 Stat. 1686, related to definitions of terms, prior to the general amendment of this part by Pub. L. 116–260.

STATUTORY NOTES AND RELATED SUBSIDIARIES

SHORT TITLE

This part was formerly known as the "Marine and Hydrokinetic Renewable Energy Research and Development Act", see Short Title note formerly set out under section 17001 of this title.

§17212. Water power technology research, development, and demonstration

The Secretary shall carry out a program to conduct research, development, demonstration, and commercial application of water power technologies in support of each of the following purposes:

(1) To promote research, development, demonstration, and commercial application of water power generation technologies in order to increase capacity and reduce the cost of those technologies.

(2) To promote research and development to improve the environmental impact of water power technologies.

(3) To provide grid reliability and resilience, including through technologies that facilitate new market opportunities, such as ancillary services, for water power.

(4) To promote the development of water power technologies to improve economic growth and enhance cross-institutional foundational workforce development in the water power sector, including in coastal communities.

(Pub. L. 110–140, title VI, §633, as added Pub. L. 116–260, div. Z, title III, §3001(a), Dec. 27, 2020, 134 Stat. 2480.)

EDITORIAL NOTES

PRIOR PROVISIONS

A prior section 17212, Pub. L. 110–140, title VI, §633, Dec. 19, 2007, 121 Stat. 1686, related to marine and hydrokinetic renewable energy research and development, prior to the general amendment of this part by Pub. L. 116–260.

§17213. Hydropower research, development, and demonstration

The Secretary shall conduct a program of research, development, demonstration, and commercial application for technologies that improve the capacity, efficiency, resilience, security, reliability, affordability, and environmental impact, including potential cumulative environmental impacts, of hydropower systems. In carrying out such program, the Secretary shall prioritize activities designed to—

(1) develop technology for—

(A) non-powered dams, including aging and potentially hazardous dams;

(B) pumped storage;

(C) constructed waterways;

(D) new stream-reach development;

(E) modular and small dams;

(F) increased operational flexibility; and

(G) enhancement of relevant existing facilities;

(2) develop new strategies and technologies, including analytical methods, physical and numerical tools, and advanced computing, as well as methods to validate such methods and tools, in order to—

(A) extend the operational lifetime of hydropower systems and their physical structures, while improving environmental impact, including potential cumulative environmental impacts;

(B) assist in device and system design, installation, operation, and maintenance; and

(C) reduce costs, limit outages, and increase unit and plant efficiencies, including by examining the impact of changing water and electricity demand on hydropower generation, flexibility, and provision of grid services;

(3) study, in conjunction with other relevant Federal agencies as appropriate, methods to improve the hydropower licensing process, including by compiling current and accepted best practices, public comments, and methodologies to assess the full range of potential environmental and economic impacts;

(4) identify opportunities for joint research, development, and demonstration programs between hydropower systems, which may include—

(A) pumped storage systems and other renewable energy systems;

(B) small hydro facilities and other energy storage systems;

(C) other hybrid energy systems;

(D) small hydro facilities and critical infrastructure, including water infrastructure; and

(E) hydro facilities and responsive load technologies, which may include smart buildings and city systems;

(5) improve the reliability of hydropower technologies, including during extreme weather events;

(6) develop methods and technologies to improve environmental impact, including potential cumulative environmental impacts, of hydropower and pumped storage technologies, including potential impacts on wildlife, such as—

(A) fisheries;

(B) aquatic life and resources;

(C) navigation of waterways; and

(D) upstream and downstream environmental conditions, including sediment movement, water quality, and flow volumes;

(7) identify ways to increase power generation by—

(A) diversifying plant configuration options;

(B) improving pump-back efficiencies;

(C) investigating multi-phase systems;

(D) developing, testing, and monitoring advanced generators with faster cycling times, variable speeds, and improved efficiencies;

(E) developing, testing, and monitoring advanced turbines capable of improving environmental impact, including potential cumulative environmental impacts, including small turbine designs;

(F) developing standardized powertrain components;

(G) developing components with advanced materials and manufacturing processes, including additive manufacturing; and

(H) developing analytical tools that enable hydropower to provide grid services that, amongst other services, improve grid integration of other energy sources;

(8) advance new pumped storage technologies, including—

(A) systems with adjustable speed and other new pumping and generating equipment designs;

(B) modular systems;

(C) alternative closed-loop systems, including mines and quarries; and

(D) other innovative equipment and materials as determined by the Secretary;

(9) reduce civil works costs and construction times for hydropower and pumped storage systems, including comprehensive data and systems analysis of hydropower and pumped storage construction technologies and processes in order to identify areas for whole-system efficiency gains;

(10) advance efficient and reliable integration of hydropower and pumped storage systems with the electric grid by—

(A) improving methods for operational forecasting of renewable energy systems to identify

opportunities for hydropower applications in pumped storage and hybrid energy systems, including forecasting of seasonal and annual energy storage;

(B) considering aggregating small distributed hydropower assets; and

(C) identifying barriers to grid scale implementation of hydropower and pumped storage technologies;

(11) improve computational fluid dynamic modeling methods;

(12) improve flow measurement methods, including maintenance of continuous flow measurement equipment;

(13) identify best methods for compiling data on all hydropower resources and assets, including identifying potential for increased capacity; and

(14) identify mechanisms to test and validate performance of hydropower and pumped storage technologies.

(Pub. L. 110–140, title VI, §634, as added Pub. L. 116–260, div. Z, title III, §3001(a), Dec. 27, 2020, 134 Stat. 2480.)

EDITORIAL NOTES

PRIOR PROVISIONS

A prior section 17213, Pub. L. 110–140, title VI, §634, Dec. 19, 2007, 121 Stat. 1687, related to National Marine Renewable Energy Research, Development, and Demonstration Centers, prior to the general amendment of this part by Pub. L. 116–260.

§17214. Marine energy research, development, and demonstration

(a) In general

The Secretary, in consultation with the Secretary of Defense, Secretary of Commerce (acting through the Under Secretary of Commerce for Oceans and Atmosphere) and other relevant Federal agencies, shall conduct a program of research, development, demonstration, and commercial application of marine energy technology, including activities to—

(1) assist technology development to improve the components, processes, and systems used for power generation from marine energy resources at a variety of scales;

(2) establish and expand critical testing infrastructure and facilities necessary to—

(A) demonstrate and prove marine energy devices at a range of scales in a manner that is cost-effective and efficient; and

(B) accelerate the technological readiness and commercial application of such devices;

(3) address marine energy resource variability issues, including through the application of energy storage technologies;

(4) advance efficient and reliable integration of marine energy with the electric grid, which may include smart building systems;

(5) identify and study critical short-term and long-term needs to maintaining a sustainable marine energy supply chain based in the United States;

(6) increase the reliability, security, and resilience of marine energy technologies;

(7) validate the performance, reliability, maintainability, and cost of marine energy device designs and system components in an operating environment;

(8) consider the protection of critical infrastructure, such as adequate separation between marine energy devices and submarine telecommunications cables, including through the development of voluntary, consensus-based standards for such purposes;

(9) identify opportunities for crosscutting research, development, and demonstration programs between existing energy research programs;

(10) identify and improve, in conjunction with the Secretary of Commerce, acting through the

Under Secretary of Commerce for Oceans and Atmosphere, and other relevant Federal agencies as appropriate, the environmental impact, including potential cumulative environmental impacts, of marine energy technologies, including—

(A) potential impacts on fisheries and other marine resources; and

(B) developing technologies, including mechanisms for self-evaluation, and other means available for improving environmental impact, including potential cumulative environmental impacts;

(11) identify, in consultation with relevant Federal agencies, potential navigational impacts of marine energy technologies and strategies to prevent possible adverse impacts, in addition to opportunities for marine energy systems to aid the United States Coast Guard, such as remote sensing for coastal border security;

(12) develop numerical and physical tools, including models and monitoring technologies, to assist industry in device and system design, installation, operation, and maintenance, including methods to validate such tools;

(13) support materials science as it relates to marine energy technology, such as the development of corrosive-resistant materials;

(14) improve marine energy resource forecasting and general understanding of aquatic system behavior, including turbulence and extreme conditions;

(15) develop metrics and voluntary, consensus-based standards, in coordination with the National Institute of Standards and Technology and appropriate standard development organizations, for marine energy components, systems, and projects, including—

(A) measuring performance of marine energy technologies; and

(B) characterizing environmental conditions;

(16) enhance integration with hybrid energy systems, including desalination;

(17) identify opportunities to integrate marine energy technologies into new and existing infrastructure; and

(18) to [1] develop technology necessary to support the use of marine energy—

(A) for the generation and storage of power at sea; and

(B) for the generation and storage of power to promote the resilience of coastal communities, including in applications relating to—

(i) desalination;

(ii) disaster recovery and resilience; and

(iii) community microgrids in isolated power systems.

(b) Study of non-power sector applications for advanced marine energy technologies

(1) In general

The Secretary, in consultation with the Secretary of Transportation and the Secretary of Commerce, shall conduct a study to examine opportunities for research and development in advanced marine energy technologies for non-power sector applications, including applications with respect to—

(A) the maritime transportation sector;

(B) associated maritime energy infrastructure, including infrastructure that serves ports, to improve system resilience and disaster recovery; and

(C) enabling scientific missions at sea and in extreme environments, including the Arctic.

(2) Report

Not later than 1 year after December 27, 2020, the Secretary shall submit to the Committee on Energy and Natural Resources of the Senate and the Committee on Science, Space, and Technology of the House of Representatives a report that describes the results of the study conducted under paragraph (1).

(Pub. L. 110–140, title VI, §635, as added Pub. L. 116–260, div. Z, title III, §3001(a), Dec. 27, 2020,

134 Stat. 2482.)

EDITORIAL NOTES

PRIOR PROVISIONS

A prior section 17214, Pub. L. 110–140, title VI, §635, Dec. 19, 2007, 121 Stat. 1688, related to applicability of other laws, prior to the general amendment of this part by Pub. L. 116–260.

[1] *So in original.*

§17215. National Marine Energy Centers

(a) In general

The Secretary shall award grants, each such grant up to $10,000,000 per year, to institutions of higher education (or consortia thereof) for—

(1) the continuation and expansion of the research, development, demonstration, testing, and commercial application activities at the National Marine Energy Centers (referred to in this section as "Centers") established as of January 1, 2020; and

(2) the establishment of new National Marine Energy Centers.

(b) Location selection

In selecting institutions of higher education for new Centers, the Secretary shall consider the following criteria:

(1) Whether the institution hosts an existing marine energy research and development program.

(2) Whether the institution has proven technical expertise to support marine energy research.

(3) Whether the institution has access to marine resources.

(c) Purposes

The Centers shall coordinate among themselves, the Department, and National Laboratories to—

(1) advance research, development, demonstration, and commercial application of marine energy technologies in response to industry and commercial needs;

(2) support in-water testing and demonstration of marine energy technologies, including facilities capable of testing—

(A) marine energy systems of various technology readiness levels and scales;

(B) a variety of technologies in multiple test berths at a single location;

(C) arrays of technology devices; and

(D) interconnectivity to an electrical grid, including microgrids; and

(3) collect and disseminate information on best practices in all areas relating to developing and managing marine energy resources and energy systems.

(d) Coordination

To the extent practicable, the Centers shall coordinate their activities with the Secretary of Commerce, acting through the Undersecretary of Commerce for Oceans and Atmosphere, and other relevant Federal agencies.

(e) Termination

To the extent otherwise authorized by law, the Secretary may terminate funding for a Center described in paragraph (a) if such Center is under-performing.

(Pub. L. 110–140, title VI, §636, as added Pub. L. 116–260, div. Z, title III, §3001(a), Dec. 27, 2020, 134 Stat. 2484.)

EDITORIAL NOTES

PRIOR PROVISIONS

A prior section 17215, Pub. L. 110–140, title VI, §636, Dec. 19, 2007, 121 Stat. 1688, related to authorization of appropriations, prior to the general amendment of this part by Pub. L. 116–260.

§17216. Organization and administration of programs

(a) Coordination

In carrying out this part, the Secretary shall coordinate activities, and effectively manage cross-cutting research priorities across programs of the Department and other relevant Federal agencies, including the National Laboratories and the National Marine Energy Centers.

(b) Collaboration

(1) In general

In carrying out this part, the Secretary shall collaborate with industry, National Laboratories, other relevant Federal agencies, institutions of higher education, including Minority Serving Institutions, National Marine Energy Centers, Tribal entities, including Alaska Native Corporations, and international bodies with relevant scientific and technical expertise.

(2) Participation

To the extent practicable, the Secretary shall encourage research projects that promote collaboration between entities specified in paragraph (1) and include entities not historically associated with National Marine Energy Centers, such as Minority Serving Institutions.

(3) International collaboration

The Secretary, in coordination with other appropriate Federal and multilateral agencies (including the United States Agency for International Development) shall support collaborative efforts with international partners to promote the research, development, and demonstration of water power technologies used to develop hydropower, pump storage, and marine energy resources.

(c) Dissemination of results and public availability

The Secretary shall—

(1) publish the results of projects supported under this part through Department websites, reports, databases, training materials, and industry conferences, including information discovered after the completion of such projects, withholding any industrial proprietary information; and

(2) share results of such projects with the public except to the extent that the information is protected from disclosure under section 552(b) of title 5.

(d) Award frequency

The Secretary shall solicit applications for awards under this part no less frequently than once per fiscal year.

(e) Education and outreach

In carrying out the activities described in this part, the Secretary shall support education and outreach activities to disseminate information and promote public understanding of water power technologies and the water power workforce, including activities at the National Marine Energy Centers.

(f) Technical assistance and workforce development

In carrying out this part, the Secretary may also conduct, for purposes of supporting technical, non-hardware, and information-based advances in water power systems development and operations—

(1) technical assistance and analysis activities with eligible entities, including activities that support expanding access to advanced water power technologies for rural, Tribal, and low-income communities; and

(2) workforce development and training activities, including to support the dissemination of standards and best practices for enabling water power production.

(g) Strategic plan

In carrying out the activities described in this part, the Secretary shall—

(1) not later than one year after December 27, 2020, draft a plan, considering input from relevant stakeholders such as industry and academia, to implement the programs described in this part and update the plan on an annual basis; and

(2) the plan [1] shall address near-term (up to 2 years), mid-term (up to 7 years), and long-term (up to 15 years) challenges to the advancement of water power systems.

(h) Report to Congress

Not later than 1 year after December 27, 2020, and at least once every 2 years thereafter, the Secretary shall provide, and make available to the public and the relevant authorizing and appropriations committees of Congress, a report on the findings of research conducted and activities carried out pursuant to this part, including the most current strategic plan under subsection (g) and the progress made in implementing such plan.

(Pub. L. 110–140, title VI, §637, as added Pub. L. 116–260, div. Z, title III, §3001(a), Dec. 27, 2020, 134 Stat. 2485.)

[1] *So in original.*

§17217. Applicability of other laws

Nothing in this part shall be construed as waiving, modifying, or superseding the applicability of any requirement under any environmental or other Federal or State law.

(Pub. L. 110–140, title VI, §638, as added Pub. L. 116–260, div. Z, title III, §3001(a), Dec. 27, 2020, 134 Stat. 2486.)

§17218. Authorization of appropriations

There are authorized to be appropriated to the Secretary to carry out this part $186,600,000 for each of fiscal years 2021 through 2025, including $137,428,378 for marine energy and $49,171,622 for hydropower research, development, and demonstration activities.

(Pub. L. 110–140, title VI, §639, as added Pub. L. 116–260, div. Z, title III, §3001(a), Dec. 27, 2020, 134 Stat. 2486.)

PART D—ENERGY STORAGE FOR TRANSPORTATION AND ELECTRIC POWER

§17231. Energy storage competitiveness

(a) Short title

This section may be cited as the "United States Energy Storage Competitiveness Act of 2007".

(b) Definitions

In this section:

(1) Council

The term "Council" means the Energy Storage Advisory Council established under subsection (e).

(2) Compressed air energy storage

The term "compressed air energy storage" means, in the case of an electricity grid application, the storage of energy through the compression of air.

(3) Electric drive vehicle

The term "electric drive vehicle" means—

(A) a vehicle that uses an electric motor for all or part of the motive power of the vehicle, including battery electric, hybrid electric, plug-in hybrid electric, fuel cell, and plug-in fuel cell vehicles and rail transportation vehicles; or

(B) mobile equipment that uses an electric motor to replace an internal combustion engine for all or part of the work of the equipment.

(4) Islanding

The term "islanding" means a distributed generator or energy storage device continuing to power a location in the absence of electric power from the primary source.

(5) Flywheel

The term "flywheel" means, in the case of an electricity grid application, a device used to store rotational kinetic energy.

(6) Microgrid

The term "microgrid" means an integrated energy system consisting of interconnected loads and distributed energy resources (including generators and energy storage devices), which as an integrated system can operate in parallel with the utility grid or in an intentional islanding mode.

(7) Self-healing grid

The term "self-healing grid" means a grid that is capable of automatically anticipating and responding to power system disturbances (including the isolation of failed sections and components), while optimizing the performance and service of the grid to customers.

(8) Spinning reserve services

The term "spinning reserve services" means a quantity of electric generating capacity in excess of the quantity needed to meet peak electric demand.

(9) Ultracapacitor

The term "ultracapacitor" means an energy storage device that has a power density comparable to a conventional capacitor but is capable of exceeding the energy density of a conventional capacitor by several orders of magnitude.

(c) Program

The Secretary shall carry out a research, development, and demonstration program to support the ability of the United States to remain globally competitive in energy storage systems for electric drive vehicles, stationary applications, and electricity transmission and distribution.

(d) Coordination

In carrying out the activities of this section, the Secretary shall coordinate relevant efforts with appropriate Federal agencies, including the Department of Transportation.

(e) Energy Storage Advisory Council

(1) Establishment

Not later than 90 days after December 19, 2007, the Secretary shall establish an Energy Storage Advisory Council.

(2) Composition

(A) In general

Subject to subparagraph (B), the Council shall consist of not less than 15 individuals appointed by the Secretary, based on recommendations of the National Academy of Sciences.

(B) Energy storage industry

The Council shall consist primarily of representatives of the energy storage industry of the United States.

(C) Chairperson

The Secretary shall select a Chairperson for the Council from among the members appointed under subparagraph (A).

(3) Meetings

(A) In general

The Council shall meet not less than once a year.

(B) Federal Advisory Committee Act

The Federal Advisory Committee Act (5 U.S.C. App.) shall apply to a meeting of the Council.

(4) Plans

No later than 1 year after December 19, 2007, and every 5 years thereafter, the Council, in conjunction with the Secretary, shall develop a 5-year plan for integrating basic and applied research so that the United States retains a globally competitive domestic energy storage industry for electric drive vehicles, stationary applications, and electricity transmission and distribution.

(5) Review

The Council shall—

(A) assess, every 2 years, the performance of the Department in meeting the goals of the plans developed under paragraph (4); and

(B) make specific recommendations to the Secretary on programs or activities that should be established or terminated to meet those goals.

(f) Basic research program

(1) Basic research

The Secretary shall conduct a basic research program on energy storage systems to support electric drive vehicles, stationary applications, and electricity transmission and distribution, including—

(A) materials design;

(B) materials synthesis and characterization;

(C) electrode-active materials, including electrolytes and bioelectrolytes;

(D) surface and interface dynamics;

(E) modeling and simulation; and

(F) thermal behavior and life degradation mechanisms.

(2) Nanoscience centers

The Secretary, in cooperation with the Council, shall coordinate the activities of the nanoscience centers of the Department to help the energy storage research centers of the Department maintain a globally competitive posture in energy storage systems for electric drive vehicles, stationary applications, and electricity transmission and distribution.

(3) Funding

For activities carried out under this subsection, in addition to funding activities at National Laboratories, the Secretary shall award funds to, and coordinate activities with, a range of stakeholders including the public, private, and academic sectors.

(g) Applied research program

(1) In general

The Secretary shall conduct an applied research program on energy storage systems to support electric drive vehicles, stationary applications, and electricity transmission and distribution technologies, including—

(A) ultracapacitors;
(B) flywheels;
(C) batteries and battery systems (including flow batteries);
(D) compressed air energy systems;
(E) power conditioning electronics;
(F) manufacturing technologies for energy storage systems;
(G) thermal management systems; and
(H) hydrogen as an energy storage medium.

(2) Funding

For activities carried out under this subsection, in addition to funding activities at National Laboratories, the Secretary shall provide funds to, and coordinate activities with, a range of stakeholders, including the public, private, and academic sectors.

(h) Energy storage research centers

(1) In general

The Secretary shall establish, through competitive bids, not more than 4 energy storage research centers to translate basic research into applied technologies to advance the capability of the United States to maintain a globally competitive posture in energy storage systems for electric drive vehicles, stationary applications, and electricity transmission and distribution.

(2) Program management

The centers shall be managed by the Under Secretary for Science of the Department.

(3) Participation agreements

As a condition of participating in a center, a participant shall enter into a participation agreement with the center that requires that activities conducted by the participant for the center promote the goal of enabling the United States to compete successfully in global energy storage markets.

(4) Plans

A center shall conduct activities that promote the achievement of the goals of the plans of the Council under subsection (e)(4).

(5) National laboratories

A national laboratory (as defined in section 15801 of this title) may participate in a center established under this subsection, including a cooperative research and development agreement (as defined in section 3710a(d) of title 15).

(6) Disclosure

Section 13293 of this title may apply to any project carried out through a grant, contract, or cooperative agreement under this subsection.

(7) Intellectual property

In accordance with section 202(a)(ii) of title 35, section 2182 of this title, and section 5908 of this title, the Secretary may require, for any new invention developed under this subsection, that—

(A) if an industrial participant is active in a [1] energy storage research center established under this subsection relating to the advancement of energy storage technologies carried out, in whole

or in part, with Federal funding, the industrial participant be granted the first option to negotiate with the invention owner, at least in the field of energy storage technologies, nonexclusive licenses, and royalties on terms that are reasonable, as determined by the Secretary;

(B) if 1 or more industry participants are active in a center, during a 2-year period beginning on the date on which an invention is made—

(i) the patent holder shall not negotiate any license or royalty agreement with any entity that is not an industrial participant under this subsection; and

(ii) the patent holder shall negotiate nonexclusive licenses and royalties in good faith with any interested industrial participant under this subsection; and

(C) the new invention be developed under such other terms as the Secretary determines to be necessary to promote the accelerated commercialization of inventions made under this subsection to advance the capability of the United States to successfully compete in global energy storage markets.

(i) Energy storage systems demonstrations

(1) In general

The Secretary shall carry out a program of new demonstrations of advanced energy storage systems.

(2) Scope

The demonstrations shall—

(A) be regionally diversified; and

(B) expand on the existing technology demonstration program of the Department.

(3) Stakeholders

In carrying out the demonstrations, the Secretary shall, to the maximum extent practicable, include the participation of a range of stakeholders, including—

(A) rural electric cooperatives;

(B) investor owned utilities;

(C) municipally owned electric utilities;

(D) energy storage systems manufacturers;

(E) electric drive vehicle manufacturers;

(F) the renewable energy production industry;

(G) State or local energy offices;

(H) the fuel cell industry; and

(I) institutions of higher education.

(4) Objectives

Each of the demonstrations shall include 1 or more of the following:

(A) Energy storage to improve the feasibility of microgrids or islanding, or transmission and distribution capability, to improve reliability in rural areas.

(B) Integration of an energy storage system with a self-healing grid.

(C) Use of energy storage to improve security to emergency response infrastructure and ensure availability of emergency backup power for consumers.

(D) Integration with a renewable energy production source, at the source or away from the source.

(E) Use of energy storage to provide ancillary services, such as spinning reserve services, for grid management.

(F) Advancement of power conversion systems to make the systems smarter, more efficient, able to communicate with other inverters, and able to control voltage.

(G) Use of energy storage to optimize transmission and distribution operation and power quality, which could address overloaded lines and maintenance of transformers and substations.

(H) Use of advanced energy storage for peak load management of homes, businesses, and the

grid.

(I) Use of energy storage devices to store energy during nonpeak generation periods to make better use of existing grid assets.

(j) Vehicle energy storage demonstration

(1) In general

The Secretary shall carry out a program of electric drive vehicle energy storage technology demonstrations.

(2) Consortia

The technology demonstrations shall be conducted through consortia, which may include—

(A) energy storage systems manufacturers and suppliers of the manufacturers;
(B) electric drive vehicle manufacturers;
(C) rural electric cooperatives;
(D) investor owned utilities;
(E) municipal and rural electric utilities;
(F) State and local governments;
(G) metropolitan transportation authorities; and
(H) institutions of higher education.

(3) Objectives

The program shall demonstrate 1 or more of the following:

(A) Novel, high capacity, high efficiency energy storage, charging, and control systems, along with the collection of data on performance characteristics, such as battery life, energy storage capacity, and power delivery capacity.

(B) Advanced onboard energy management systems and highly efficient battery cooling systems.

(C) Integration of those systems on a prototype vehicular platform, including with drivetrain systems for passenger, commercial, and nonroad electric drive vehicles.

(D) New technologies and processes that reduce manufacturing costs.

(E) Integration of advanced vehicle technologies with electricity distribution system and smart metering technology.

(F) Control systems that minimize emissions profiles in cases in which clean diesel engines are part of a plug-in hybrid drive system.

(k) Electric drive vehicle battery second-life applications and recycling

(1) Definitions

In this subsection:

(A) Battery recycling and second-life applications program

The term "battery recycling and second-life applications program" means the electric drive vehicle battery recycling and second-life applications program established under paragraph (3).

(B) Critical material

The term "critical material" has the meaning given the term in section 1606(a) of title 30.

(C) Economically distressed area

The term "economically distressed area" means an area described in section 3161(a) of this title.

(D) Electric drive vehicle battery

The term "electric *drive* [1] vehicle battery" means any battery that is a motive power source for an electric drive vehicle.

(E) Eligible entity

The term "eligible entity" means an entity described in any of paragraphs (1) through (5) of

section 16353(b) of this title.

(2) Program

The Secretary shall carry out a program of research, development, and demonstration of—

(A) second-life applications for electric drive vehicle batteries that have been used to power electric drive vehicles; and

(B) technologies and processes for final recycling and disposal of the devices described in subparagraph (A).

(3) Electric drive vehicle battery recycling and second-life applications

(A) In general

In carrying out the program under paragraph (2), the Secretary shall establish an electric drive vehicle battery recycling and second-life applications program under which the Secretary shall—

(i) award grants under subparagraph (D); and

(ii) carry out other activities in accordance with this paragraph.

(B) Purposes

The purposes of the battery recycling and second-life applications program are the following:

(i) To improve the recycling rates and second-use adoption rates of electric drive vehicle batteries.

(ii) To optimize the design and adaptability of electric drive vehicle batteries to make electric drive vehicle batteries more easily recyclable.

(iii) To establish alternative supply chains for critical materials that are found in electric drive vehicle batteries.

(iv) To reduce the cost of manufacturing, installation, purchase, operation, and maintenance of electric drive vehicle batteries.

(v) To improve the environmental impact of electric drive vehicle battery recycling processes.

(C) Targets

In carrying out the battery recycling and second-life applications program, the Secretary shall address near-term (up to 2 years), mid-term (up to 5 years), and long-term (up to 10 years) challenges to the recycling of electric drive vehicle batteries.

(D) Grants

(i) In general

In carrying out the battery recycling and second-life applications program, the Secretary shall award multiyear grants on a competitive, merit-reviewed basis to eligible entities—

(I) to conduct research, development, testing, and evaluation of solutions to increase the rate and productivity of electric drive vehicle battery recycling; and

(II) for research, development, and demonstration projects to create innovative and practical approaches to increase the recycling and second-use of electric drive vehicle batteries, including by addressing—

(aa) technology to increase the efficiency of electric drive vehicle battery recycling and maximize the recovery of critical materials for use in new products;

(bb) expanded uses for critical materials recovered from electric drive vehicle batteries;

(cc) product design and construction to facilitate the disassembly and recycling of electric drive vehicle batteries;

(dd) product design and construction and other tools and techniques to extend the lifecycle of electric drive vehicle batteries, including methods to promote the safe second-use of electric drive vehicle batteries;

(ee) strategies to increase consumer acceptance of, and participation in, the recycling

of electric drive vehicle batteries;

(ff) improvements and changes to electric drive vehicle battery chemistries that include ways to decrease processing costs for battery recycling without sacrificing front-end performance;

(gg) second-use of electric drive vehicle batteries, including in applications outside of the automotive industry; and

(hh) the commercialization and scale-up of electric drive vehicle battery recycling technologies.

(ii) Priority

In awarding grants under clause (i), the Secretary shall give priority to projects that—

(I) are located in geographically diverse regions of the United States;

(II) include business commercialization plans that have the potential for the recycling of electric drive vehicle batteries at high volumes;

(III) support the development of advanced manufacturing technologies that have the potential to improve the competitiveness of the United States in the international electric drive vehicle battery manufacturing sector;

(IV) provide the greatest potential to reduce costs for consumers and promote accessibility and community implementation of demonstrated technologies;

(V) increase disclosure and transparency of information to consumers;

(VI) support the development or demonstration of projects in economically distressed areas; and

(VII) support other relevant priorities, as determined to be appropriate by the Secretary.

(iii) Solicitation

Not later than 90 days after November 15, 2021, and annually thereafter, the Secretary shall conduct a national solicitation for applications for grants described in clause (i).

(iv) Dissemination of results

The Secretary shall publish the results of the projects carried out through grants awarded under clause (i) through—

(I) best practices relating to those grants, for use in the electric drive vehicle battery manufacturing, design, installation, refurbishing, or recycling industries;

(II) coordination with information dissemination programs relating to general recycling of electronic devices; and

(III) educational materials for the public, produced in conjunction with State and local governments or nonprofit organizations, on the problems and solutions relating to the recycling and second-life applications of electric drive vehicle batteries.

(E) Coordination with other programs of the Department

In carrying out the battery recycling and second-life applications program, the Secretary shall coordinate and leverage the resources of complementary efforts of the Department.

(F) Study and report

(i) Study

The Secretary shall conduct a study on the viable market opportunities available for the recycling, second-use, and manufacturing of electric drive vehicle batteries in the United States.

(ii) Report

Not later than 1 year after November 15, 2021, the Secretary shall submit to the Committee on Energy and Natural Resources of the Senate, the Committee on Science, Space, and Technology of the House of Representatives, and any other relevant committee of Congress a report containing the results of the study under clause (i), including a description of—

(I) the ability of relevant businesses or other entities to competitively manufacture

electric drive vehicle batteries and recycle electric drive vehicle batteries in the United States;

(II) any existing electric drive vehicle battery recycling and second-use practices and plans of electric drive vehicle manufacturing companies in the United States;

(III) any barriers to electric drive vehicle battery recycling in the United States;

(IV) opportunities and barriers in electric drive vehicle battery supply chains in the United States and internationally, including with allies and trading partners;

(V) opportunities for job creation in the electric drive vehicle battery recycling and manufacturing fields and the necessary skills employees must acquire for growth of those fields in the United States;

(VI) policy recommendations for enhancing electric drive vehicle battery manufacturing and recycling in the United States;

(VII) any recommendations for lowering logistics costs and creating better coordination and efficiency with respect to the removal, collection, transportation, storage, and disassembly of electric drive vehicle batteries;

(VIII) any recommendations for areas of coordination with other Federal agencies to improve electric drive vehicle battery recycling rates in the United States;

(IX) an aggressive 2-year target and plan, the implementation of which shall begin during the 90-day period beginning on the date on which the report is submitted, to enhance the competitiveness of electric drive vehicle battery manufacturing and recycling in the United States; and

(X) needs for future research, development, and demonstration projects in electric drive vehicle battery manufacturing, recycling, and related areas, as determined by the Secretary.

(G) Evaluation

Not later than 3 years after the date on which the report under subparagraph (F)(ii) is submitted, and every 4 years thereafter, the Secretary shall conduct, and make available to the public and the relevant committees of Congress, an independent review of the progress of the grants awarded under subparagraph (D) in meeting the recommendations and targets included in the report.

(l) Cost sharing

The Secretary shall carry out the programs established under this section in accordance with section 16352 of this title.

(m) Merit review of proposals

The Secretary shall carry out the programs established under subsections (i), (j), and (k) in accordance with section 16353 of this title.

(n) Coordination and nonduplication

To the maximum extent practicable, the Secretary shall coordinate activities under this section with other programs and laboratories of the Department and other Federal research programs.

(o) Review by National Academy of Sciences

On the business day that is 5 years after December 19, 2007, the Secretary shall offer to enter into an arrangement with the National Academy of Sciences to assess the performance of the Department in carrying out this section.

(p) Authorization of appropriations

There are authorized to be appropriated to carry out—

(1) the basic research program under subsection (f) $50,000,000 for each of fiscal years 2009 through 2018;

(2) the applied research program under subsection (g) $80,000,000 for each of fiscal years 2009 through 2018; and; [2]

(3) the energy storage research center program under subsection (h) $100,000,000 for each of fiscal years 2009 through 2018;

(4) the energy storage systems demonstration program under subsection (i) $30,000,000 for each of fiscal years 2009 through 2018;

(5) the vehicle energy storage demonstration program under subsection (j) $30,000,000 for each of fiscal years 2009 through 2018; and

(6) the electric drive vehicle battery recycling and second-life applications program under subsection (k) $200,000,000 for the period of fiscal years 2022 through 2026.

(q) Critical material recycling and reuse research, development, and demonstration program

(1) Definitions

In this subsection:

(A) Critical material

The term "critical material" has the meaning given the term in 1606 of title 30.

(B) Critical material recycling

The term "critical material recycling" means the separation and recovery of critical materials embedded within an energy storage system through physical or chemical means for the purpose of reuse of those critical materials in other technologies.

(2) Establishment

Not later than 180 days after December 27, 2020, the Secretary shall establish a research, development, and demonstration program for critical material recycling and reuse of energy storage systems containing critical materials.

(3) Research, development, and demonstration

In carrying out the program established under paragraph (1), the Secretary shall conduct—

(A) research, development, and demonstration activities for—

(i) technologies, process improvements, and design optimizations that facilitate and promote critical material recycling of energy storage systems, including separation and sorting of component materials of such systems, and extraction, recovery, and reuse of critical materials from such systems;

(ii) technologies and methods that mitigate emissions and environmental impacts that arise from critical material recycling, including disposal of toxic reagents and byproducts related to critical material recycling processes;

(iii) technologies to enable extraction, recovery, and reuse of energy storage systems from electric vehicles and critical material recycling from such vehicles; and

(iv) technologies and methods to enable the safe transport, storage, and disposal of energy storage systems containing critical materials, including waste materials and components recovered during the critical material recycling process; and

(B) research on nontechnical barriers to improve the collection and critical material recycling of energy storage systems, including strategies to improve consumer education of, acceptance of, and participation in, the critical material recycling of energy storage systems.

(4) Report to Congress

Not later than 2 years after December 27, 2020, and every 3 years thereafter, the Secretary shall submit to the Committee on Science, Space, and Technology and the Committee on Energy and Commerce of the House of Representatives and the Committee on Energy and Natural Resources of the Senate a report summarizing the activities, findings, and progress of the program.

(Pub. L. 110–140, title VI, §641, Dec. 19, 2007, 121 Stat. 1688; Pub. L. 116–260, div. Z, title III, §3201(f), formerly §3201(e), Dec. 27, 2020, 134 Stat. 2523, renumbered §3201(f), Pub. L. 117–58, div. D, title III, §40334(1), Nov. 15, 2021, 135 Stat. 1025; Pub. L. 117–58, div. D, title II, §40208, Nov. 15, 2021, 135 Stat. 971.)

EDITORIAL NOTES

REFERENCES IN TEXT

The Federal Advisory Committee Act, referred to in subsec. (e)(3)(B), is Pub. L. 92–463, Oct. 6, 1972, 86 Stat. 770, which is set out in the Appendix to Title 5, Government Organization and Employees.

CODIFICATION

Section 40334(1) of Pub. L. 117–58, which directed amendment of section 3201 of the Energy Policy Act of 2020 by redesignating subsection (e) as subsection (f), was executed by making the amendment to section 3201 of div. Z of Pub. L. 116–260, known as the Energy Act of 2020, to reflect the probable intent of Congress.

AMENDMENTS

2021—Subsec. (k). Pub. L. 117–58, §40208(1), added subsec. (k) and struck out former subsec. (k) which related to secondary applications and disposal of electric drive vehicle batteries.

Subsec. (p)(6). Pub. L. 117–58, §40208(2), added par. (6) and struck out former par. (6) which read as follows: "the secondary applications and disposal of electric drive vehicle batteries program under subsection (k) $5,000,000 for each of fiscal years 2009 through 2018."

2020—Subsec. (q). Pub. L. 116–260 added subsec. (q).

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as a note under section 1824 of Title 2, The Congress.

§17232. Better energy storage technology

(a) Definitions

In this section:

(1) Energy storage system

The term "energy storage system" means any system, equipment, facility, or technology that—

(A) is capable of absorbing or converting energy, storing the energy for a period of time, and dispatching the energy; and

(B)(i) uses mechanical, electrochemical, thermal, electrolysis, or other processes to convert and store electric energy that was generated at an earlier time for use at a later time;

(ii) uses mechanical, electrochemical, biochemical, or thermal processes to convert and store energy generated from mechanical processes that would otherwise be wasted, for delivery at a later time; or

(iii) stores energy in an electric, thermal, or gaseous state for direct use for heating or cooling at a later time in a manner that avoids the need to use electricity or other fuel sources at that later time, such as a grid-enabled water heater.

(2) Program

The term "program" means the Energy Storage System Research, Development, and Deployment Program established under subsection (b)(1).

(3) Secretary

The term "Secretary" means the Secretary of Energy.

(b) Energy Storage System Research, Development, and Deployment Program

(1) Establishment

Not later than 180 days after December 27, 2020, the Secretary shall establish a program, to be known as the Energy Storage System Research, Development, and Deployment Program.

(2) Initial program objectives

The program shall focus on research, development, and deployment of—

(A) energy storage systems, components, and materials designed to further the development of technologies—

(i) for large-scale commercial deployment;

(ii) for deployment at cost targets established by the Secretary;

(iii) for hourly and subhourly durations required to provide reliability services to the grid;

(iv) for daily durations, which have the capacity to discharge energy for a minimum of 6 hours;

(v) for weekly or monthly durations, which have the capacity to discharge energy for 10 to 100 hours, at a minimum; and

(vi) for seasonal durations, which have the capability to address seasonal variations in supply and demand;

(B) distributed energy storage technologies and applications, including building-grid integration;

(C) long-term cost, performance, and demonstration targets for different types of energy storage systems and for use in a variety of regions, including rural areas;

(D) transportation energy storage technologies and applications, including vehicle-grid integration;

(E) cost-effective systems and methods for—

(i) the sustainable and secure sourcing, reclamation, recycling, and disposal of energy storage systems, including critical minerals; and

(ii) the reuse and repurposing of energy storage system technologies;

(F) advanced control methods for energy storage systems;

(G) pumped hydroelectric energy storage systems to advance—

(i) adoption of innovative technologies, including—

(I) systems with adjustable-speed and other new pumping and generating equipment designs;

(II) modular systems;

(III) closed-loop systems, including mines and quarries; and

(IV) other innovative equipment and materials as determined by the Secretary; and

(ii) reductions of civil works costs and construction times for hydropower and pumped storage systems, including comprehensive data and systems analysis of hydropower and pumped storage construction technologies and processes in order to identify areas for whole-system efficiency gains;

(H) models and tools to demonstrate the costs and benefits of energy storage to—

(i) power and water supply systems;

(ii) electric generation portfolio optimization; and

(iii) expanded deployment of other renewable energy technologies, including in integrated energy storage systems;

(I) energy storage use cases from individual and combination technology applications, including value from various-use cases and energy storage services; and

(J) advanced manufacturing technologies that have the potential to improve United States

competitiveness in energy storage manufacturing or reduce United States dependence on critical materials.

(3) Testing and validation

In coordination with 1 or more National Laboratories, the Secretary shall support the development, standardized testing, and validation of energy storage systems under the program, including test-bed and field trials, by developing testing and evaluation methodologies for—

(A) storage technologies, controls, and power electronics for energy storage systems under a variety of operating conditions;

(B) standardized and grid performance testing for energy storage systems, materials, and technologies during each stage of development;

(C) reliability, safety, degradation, and durability testing under standard and evolving duty cycles; and

(D) accelerated life testing protocols to predict estimated lifetime metrics with accuracy.

(4) Periodic evaluation of program objectives

Not less frequently than once every calendar year, the Secretary shall evaluate and, if necessary, update the program objectives to ensure that the program continues to advance energy storage systems toward widespread commercial deployment by lowering the costs and increasing the duration of energy storage resources.

(5) Energy storage strategic plan

(A) In general

The Secretary shall develop a 10-year strategic plan for the program, and update the plan, in accordance with this paragraph.

(B) Contents

The strategic plan developed under subparagraph (A) shall—

(i) be coordinated with and integrated across other relevant offices in the Department;

(ii) to the extent practicable, include metrics that can be used to evaluate storage technologies;

(iii) identify Department programs that—

(I) support the research and development activities described in paragraph (2) and the demonstration projects under subsection (c); and

(II)(aa) do not support the activities or projects described in subclause (I); but

(bb) are important to the development of energy storage systems and the mission of the Department, as determined by the Secretary;

(iv) include expected timelines for—

(I) the accomplishment of relevant objectives under current programs of the Department relating to energy storage systems; and

(II) the commencement of any new initiatives within the Department relating to energy storage systems to accomplish those objectives; and

(v) incorporate relevant activities described in the Grid Modernization Initiative Multi-Year Program Plan.

(C) Submission to Congress

Not later than 180 days after December 27, 2020, the Secretary shall submit to the Committee on Energy and Natural Resources of the Senate and the Committees on Energy and Commerce and Science, Space, and Technology of the House of Representatives the strategic plan developed under subparagraph (A).

(D) Updates to plan

The Secretary—

(i) shall annually review the strategic plan developed under subparagraph (A); and
(ii) may periodically revise the strategic plan as appropriate.

(6) Leveraging of resources

The program may be led by a specific office of the Department, but shall be cross-cutting in nature, so that in carrying out activities under the program, the Secretary (or a designee of the Secretary charged with leading the program) shall leverage existing Federal resources, including, at a minimum, the expertise and resources of—

(A) the Office of Electricity;

(B) the Office of Energy Efficiency and Renewable Energy, including the Water Power Technologies Office; and

(C) the Office of Science, including—

(i) the Basic Energy Sciences Program;

(ii) the Advanced Scientific Computing Research Program;

(iii) the Biological and Environmental Research Program; and

(D) the Electricity Storage Research Initiative established under section 16315 of this title.

(7) Protecting privacy and security

In carrying out this subsection, the Secretary shall identify, incorporate, and follow best practices for protecting the privacy of individuals and businesses and the respective sensitive data of the individuals and businesses, including by managing privacy risk and implementing the Fair Information Practice Principles of the Federal Trade Commission for the collection, use, disclosure, and retention of individual electric consumer information in accordance with the Office of Management and Budget Circular A–130 (or successor circulars).

(c) Energy storage demonstration projects; pilot grant program

(1) Demonstration projects

Not later than September 30, 2023, the Secretary shall, to the maximum extent practicable, enter into agreements to carry out 3 energy storage system demonstration projects, including—

(A) at least 1 energy storage system demonstration project designed to further the development of technologies described in clause (v) or (vi) of subsection (b)(2)(A); and

(B) 1 project to demonstrate second-life applications of electric vehicle batteries as aggregated energy storage installations to provide services to the electric grid, in accordance with paragraph (3).

(2) Energy storage pilot grant program

(A) Definition of eligible entity

In this paragraph, the term "eligible entity" means—

(i) a State energy office (as defined in section 15821(a) of this title);

(ii) an Indian Tribe (as defined in section 4103 of title 25;

(iii) a Tribal organization (as defined in section 3765 of title 38);

(iv) an institution of higher education (as defined in section 1001 of title 20);

(v) an electric utility, including—
