The Commission or the Secretary, as appropriate, is authorized to enter into agreements with other indemnitors to establish coordinated procedures for the prompt handling, investigation, and settlement of claims for public liability. The Commission or the Secretary, as appropriate, and other indemnitors may make payments to, or for the aid of, claimants for the purpose of providing immediate assistance following a nuclear incident. Any funds appropriated to the Commission or the Secretary, as appropriate, shall be available for such payments. Such payments may be made without securing releases, shall not constitute an admission of the liability of any person indemnified or of any indemnitor, and shall operate as a satisfaction to the extent thereof of any final settlement or judgment.

(n) Waiver of defenses and judicial procedures

(1) With respect to any extraordinary nuclear occurrence to which an insurance policy or contract furnished as proof of financial protection or an indemnity agreement applies and which—

(A) arises out of or results from or occurs in the course of the construction, possession, or operation of a production or utilization facility,

(B) arises out of or results from or occurs in the course of transportation of source material, byproduct material, or special nuclear material to or from a production or utilization facility,

(C) during the course of the contract activity arises out of or results from the possession, operation, or use by a Department of Energy contractor or subcontractor of a device utilizing special nuclear material or byproduct material,

(D) arises out of, results from, or occurs in the course of, the construction, possession, or operation of any facility licensed under section 2073, 2093, or 2111 of this title, for which the Commission has imposed as a condition of the license a requirement that the licensee have and maintain financial protection under subsection (a),

(E) arises out of, results from, or occurs in the course of, transportation of source material, byproduct material, or special nuclear material to or from any facility licensed under section 2073, 2093, or 2111 of this title, for which the Commission has imposed as a condition of the license a requirement that the licensee have and maintain financial protection under subsection (a), or

(F) arises out of, results from, or occurs in the course of nuclear waste activities.³

the Commission or the Secretary, as appropriate, may incorporate provisions in indemnity agreements with licensees and contractors under this section, and may require provisions to be incorporated in insurance policies or contracts furnished as proof of financial protection, which waive (i) any issue or defense as to conduct of the claimant or fault of persons indemnified, (ii) any issue or defense as to charitable or governmental immunity, and (iii) any issue or defense based on any statute of limitations if suit is instituted within three years from the date on which the claimant first knew, or reasonably could have known, of his injury or damage and the cause thereof. The waiver of any such issue or defense shall be effective regardless of whether such issue or defense may otherwise be deemed jurisdictional or relating to an element in the cause of action. When so incorporated, such waivers shall be judicially enforceable in accordance with their terms by the claimant against the person indemnified. Such waivers shall not preclude a defense based upon a failure to take reasonable steps to mitigate damages, nor shall such waivers apply to injury or damage to a claimant or to a claimant's property which is intentionally sustained by the claimant or which results from a nuclear incident intentionally and wrongfully caused by the claimant. The waivers authorized in this subsection shall, as to indemnitors, be effective only with respect to those obligations set forth in the insurance policies or the contracts furnished as proof of financial protection and in the indemnity agreements. Such waivers shall not apply to, or prejudice the

prosecution or defense of, any claim or portion of claim which is not within the protection afforded under (i) the terms of insurance policies or contracts furnished as proof of financial protection, or indemnity agreements, and (ii) the limit of liability provisions of subsection (e).

(2) With respect to any public liability action arising out of or resulting from a nuclear incident, the United States district court in the district where the nuclear incident takes place, or in the case of a nuclear incident taking place outside the United States, the United States District Court for the District of Columbia, shall have original jurisdiction without regard to the citizenship of any party or the amount in controversy. Upon motion of the defendant or of the Commission or the Secretary, as appropriate, any such action pending in any State court (including any such action pending on August 20, 1988) or United States district court shall be removed or transferred to the United States district court having venue under this subsection. Process of such district court shall be effective throughout the United States. In any action that is or becomes removable pursuant to this paragraph, a petition for removal shall be filed within the period provided in section 1446 of title 28 or within the 30-day period beginning on August 20, 1988, whichever occurs later.

(3)(A) Following any nuclear incident, the chief judge of the United States district court having jurisdiction under paragraph (2) with respect to public liability actions (or the judicial council of the judicial circuit in which the nuclear incident occurs) may appoint a special caseload management panel (in this paragraph referred to as the "management panel") to coordinate and assign (but not necessarily hear themselves) cases arising out of the nuclear incident, if—

(i) a court, acting pursuant to subsection (o), determines that the aggregate amount of public liability is likely to exceed the amount of primary financial protection available under subsection (b) (or an equivalent amount in the case of a contractor indemnified under subsection (d)); or

(ii) the chief judge of the United States district court (or the judicial council of the judicial circuit) determines that cases arising out of the nuclear incident will have an unusual impact on the work of the court.

(B)(i) Each management panel shall consist only of members who are United States district judges or circuit judges.

(ii) Members of a management panel may include any United States district judge or circuit judge of another district court or court of appeals, if the chief judge of such other district court or court of appeals consents to such assignment.

(C) It shall be the function of each management panel—

(i) to consolidate related or similar claims for hearing or trial;

(ii) to establish priorities for the handling of different classes of cases;

(iii) to assign cases to a particular judge or special master;

(iv) to appoint special masters to hear particular types of cases, or particular elements or procedural steps of cases;

(v) to promulgate special rules of court, not inconsistent with the Federal Rules of Civil Procedure, to expedite cases or allow more equitable consideration of claims;

(vi) to implement such other measures, consistent with existing law and the Federal Rules of Civil Procedure, as will encourage the equitable, prompt, and efficient resolution of cases arising out of the nuclear incident; and

(vii) to assemble and submit to the President such data, available to the court, as may be useful in estimating the aggregate damages from the nuclear incident.

(o) Plan for distribution of funds

(1) Whenever the United States district court in the district where a nuclear incident occurs, or the United States District Court for the District of Columbia in case of a nuclear incident occurring outside the United States, determines upon the petition of any indemnitor or other interested person that public liability from a single nuclear incident may exceed the limit of liability under the applicable limit of liability under subparagraph (A), (B), or (C) of subsection (e)(1):

(A) Total payments made by or for all indemnitors as a result of such nuclear incident shall not exceed 15 per centum of such limit of liability without the prior approval of such court;

(B) The court shall not authorize payments in excess of 15 per centum of such limit of liability

unless the court determines that such payments are or will be in accordance with a plan of distribution which has been approved by the court or such payments are not likely to prejudice the subsequent adoption and implementation by the court of a plan of distribution pursuant to subparagraph (C); and

(C) The Commission or the Secretary, as appropriate, shall, and any other indemnitor or other interested person may, submit to such district court a plan for the disposition of pending claims and for the distribution of remaining funds available. Such a plan shall include an allocation of appropriate amounts for personal injury claims, property damage claims, and possible latent injury claims which may not be discovered until a later time and shall include establishment of priorities between claimants and classes of claims, as necessary to insure the most equitable allocation of available funds. Such court shall have all power necessary to approve, disapprove, or modify plans proposed, or to adopt another plan; and to determine the proportionate share of funds available for each claimant. The Commission or the Secretary as appropriate, any other indemnitor, and any person indemnified shall be entitled to such orders as may be appropriate to implement and enforce the provisions of this section, including orders limiting the liability of the persons indemnified, orders approving or modifying the plan, orders staying the payment of claims and the execution of court judgments, orders apportioning the payments to be made to claimants, and orders permitting partial payments to be made before final determination of the total claims. The orders of such court shall be effective throughout the United States.

(D) A court may authorize payment of only such legal costs as are permitted under paragraph (2) from the amount of financial protection required by subsection (b).

(E) If the sum of public liability claims and legal costs authorized under paragraph (2) arising from any nuclear incident exceeds the maximum amount of financial protection required under subsection (b), any licensee required to pay a standard deferred premium under subsection (b)(1) shall, in addition to such deferred premium, be charged such an amount as is necessary to pay a pro rata share of such claims and costs, but in no case more than 5 percent of the maximum amount of such standard deferred premium described in such subsection.

(2) A court may authorize the payment of legal costs under paragraph (1)(D) only if the person requesting such payment has—

- (A) submitted to the court the amount of such payment requested; and
- (B) demonstrated to the court—
 - (i) that such costs are reasonable and equitable; and
 - (ii) that such person has—
 - (I) litigated in good faith;
 - (II) avoided unnecessary duplication of effort with that of other parties similarly situated;
 - (III) not made frivolous claims or defenses; and
 - (IV) not attempted to unreasonably delay the prompt settlement or adjudication of such claims.

(p) Reports to Congress

The Commission and the Secretary shall submit to the Congress by December 31, 2021, detailed reports concerning the need for continuation or modification of the provisions of this section, taking into account the condition of the nuclear industry, availability of private insurance, and the state of knowledge concerning nuclear safety at that time, among other relevant factors, and shall include recommendations as to the repeal or modification of any of the provisions of this section.

(q) Limitation on awarding of precautionary evacuation costs

No court may award costs of a precautionary evacuation unless such costs constitute a public liability.

(r) Limitation on liability of lessors

No person under a bona fide lease of any utilization or production facility (or part thereof or undivided interest therein) shall be liable by reason of an interest as lessor of such production or

utilization facility, for any legal liability arising out of or resulting from a nuclear incident resulting from such facility, unless such facility is in the actual possession and control of such person at the time of the nuclear incident giving rise to such legal liability.

(s) Limitation on punitive damages

No court may award punitive damages in any action with respect to a nuclear incident or precautionary evacuation against a person on behalf of whom the United States is obligated to make payments under an agreement of indemnification covering such incident or evacuation.

(t) Inflation adjustment

(1) The Commission shall adjust the amount of the maximum total and annual standard deferred premium under subsection (b)(1) not less than once during each 5-year period following August 20, 2003, in accordance with the aggregate percentage change in the Consumer Price Index since—

- (A) August 20, 2003, in the case of the first adjustment under this subsection; or
- (B) the previous adjustment under this subsection.

(2) The Secretary shall adjust the amount of indemnification provided under an agreement of indemnification under subsection (d) not less than once during each 5-year period following July 1, 2003, in accordance with the aggregate percentage change in the Consumer Price Index since—

- (A) that date, in the case of the first adjustment under this paragraph; or
- (B) the previous adjustment under this paragraph.

(3) For purposes of this subsection, the term "Consumer Price Index" means the Consumer Price Index for all urban consumers published by the Secretary of Labor.

TERMINATION OF ADVISORY COMMISSIONS

Advisory commissions established after Jan. 5, 1973, to terminate not later than the expiration of the 2-year period beginning on the date of their establishment, unless, in the case of a commission established by the President or an officer of the Federal Government, such commission is renewed by appropriate action prior to the expiration of such 2-year period, or in the case of a commission established by the Congress, its duration is otherwise provided for by law. See sections 3(2) and 14 of Pub. L. 92-463, Oct. 6, 1972, 86 Stat. 770, 776, set out in the Appendix to Title 5, Government Organization and Employees.

FINDINGS

Pub. L. 106-245, §2, July 10, 2000, 114 Stat. 501, provided that: "Congress finds that—

"(1) the Radiation Exposure Compensation Act [Pub. L. 101-426] (42 U.S.C. 2210 note) recognized the responsibility of the Federal Government to compensate individuals who were harmed by the mining of radioactive materials or fallout from nuclear arms testing;

"(2) a congressional oversight hearing conducted by the Committee on Labor and Human Resources [now Committee on Health, Education, Labor, and Pensions] of the Senate demonstrated that since enactment of the Radiation Exposure Compensation Act (42 U.S.C. 2210 note), regulatory burdens have made it too difficult for some deserving individuals to be fairly and efficiently compensated;

"(3) reports of the Atomic Energy Commission and the National Institute for Occupational Safety and Health testify to the need to extend eligibility to States in which the Federal Government sponsored uranium mining and milling from 1941 through 1971;

"(4) scientific data resulting from the enactment of the Radiation[-]Exposed Veterans Compensation Act of 1988 (38 U.S.C. 101 note) [Pub. L. 100-321, see Tables for classification], and obtained from the Committee on the Biological Effects of Ionizing Radiations, and the President's Advisory Committee on Human Radiation Experiments provide medical validation for the extension of compensable radiogenic pathologies;

"(5) above-ground uranium miners, millers and individuals who transported ore should be fairly compensated, in a manner similar to that provided for underground uranium miners, in cases in which those individuals suffered disease or resultant death, associated with radiation exposure, due to the failure of the Federal Government to warn and otherwise help protect citizens from the health hazards addressed by the Radiation Exposure Compensation Act of 1990 (42 U.S.C. 2210 note); and

"(6) it should be the responsibility of the Federal Government in partnership with State and local governments and appropriate healthcare organizations, to initiate and support programs designed for the early detection, prevention and education on radiogenic diseases in approved States to aid the thousands of individuals adversely affected by the mining of uranium and the testing of nuclear weapons for the Nation's weapons arsenal."

AFFIDAVITS

Pub. L. 106-245, §3(e)(2), July 10, 2000, 114 Stat. 507, provided that:

"(A) IN GENERAL.—The Attorney General shall take such action as may be necessary to ensure that the procedures established by the Attorney General under section 6 of the Radiation Exposure Compensation Act [Pub. L. 101-426] (42 U.S.C. 2210 note) provide that, in addition to any other material that may be used to substantiate employment history for purposes of determining working level months, an individual filing a claim under those procedures may make such a substantiation by means of an affidavit described in subparagraph (B).

"(B) AFFIDAVITS.—An affidavit referred to under subparagraph (A) is an affidavit—

"(i) that meets such requirements as the Attorney General may establish; and
" (ii) is made by a person other than the individual filing the claim that attests to the employment history of the claimant."

GAO REPORTS

Pub. L. 106-245, §3(i), July 10, 2000, 114 Stat. 508, which required General Accounting Office, not later than 18 months after July 10, 2000, and every 18 months thereafter, to submit a report to Congress containing a detailed accounting of the administration of the Radiation Exposure Compensation Act (Pub. §2210a. Conflicts of interest relating to contracts and other arrangements

(a) Disclosure requirements

The Commission shall, by rule, require any person proposing to enter into a contract, agreement, or other arrangement, whether by competitive bid or negotiation, under this chapter or any other law administered by it for the conduct of research, development, evaluation activities, or for technical and management support services, to provide the Commission, prior to entering into any such contract, agreement, or arrangement, with all relevant information, as determined by the Commission, bearing on whether that person has a possible conflict of interest with respect to—

(b) Evaluation

(1) In general

Except as provided in paragraph (2), the Nuclear Regulatory Commission shall not enter into any such contract agreement or arrangement unless it finds, after evaluating all information provided under subsection (a) and any other information otherwise available to the Commission that—

- (A) it is unlikely that a conflict of interest would exist, or
- (B) such conflict has been avoided after appropriate conditions have been included in such contract, agreement, or arrangement; except that if the Commission determines that such conflict of interest exists and that such conflict of interest cannot be avoided by including appropriate conditions therein, the Commission may enter into such contract, agreement, or arrangement, if the Commission determines that it is in the best interests of the United States to do so and includes appropriate conditions in such contract, agreement, or arrangement to mitigate such conflict.

(2) Nuclear Regulatory Commission

Notwithstanding any conflict of interest, the Nuclear Regulatory Commission may enter into a contract, agreement, or arrangement with the Department of Energy or the operator of a Department of Energy facility, if the Nuclear Regulatory Commission determines that—

- (B) adequate justification exists to proceed without mitigation of the conflict of interest.

(c) Promulgation and publication of rules

The Commission shall publish rules for the implementation of this section, in accordance with section 553 of title 5 (without regard to subsection (a)(2) thereof) as soon as practicable after November 6, 1978, but in no event later than 120 days after such date.

§2210b. Uranium supply

(a) Assessment of domestic uranium industry viability; monitoring and reporting requirements; criteria; implementation by rules and regulations

The Secretary of Energy shall monitor and for the years 1983 to 1992 report annually to the Congress and to the President a determination of the viability of the domestic uranium mining and milling industry and shall establish by rule, after public notice and in accordance with the requirements of section 2231 of this title, within 9 months of January 4, 1983, specific criteria which shall be assessed in the annual reports on the domestic uranium industry's viability. The Secretary of Energy is authorized to issue regulations providing for the collection of such information as the Secretary of Energy deems necessary to carry out the monitoring and reporting requirements of this section.

(b) Disclosure of information

Upon a satisfactory showing to the Secretary of Energy by any person that any information, or portion thereof obtained under this section, would, if made public, divulge proprietary information of such person, the Secretary shall not disclose such information and disclosure thereof shall be punishable under section 1905 of title 18.

(c) Criteria for monitoring and reporting requirements

The criteria referred to in subsection (a) shall also include, but not be limited to—

- (1) an assessment of whether executed contracts or options for source material or special nuclear material will result in greater than 37½ percent of actual or projected domestic uranium requirements for any two-consecutive-year period being supplied by source material or special nuclear material from foreign sources;
- (2) projections of uranium requirements and inventories of domestic utilities for a 10 year period;
- (3) present and probable future use of the domestic market by foreign imports;
- (4) whether domestic economic reserves can supply all future needs for a future 10 year period;
- (5) present and projected domestic uranium exploration expenditures and plans;
- (6) present and projected employment and capital investment in the uranium industry;
- (7) the level of domestic uranium production capacity sufficient to meet projected domestic nuclear power needs for a 10 year period; and
- (8) a projection of domestic uranium production and uranium price levels which will be in effect under various assumptions with respect to imports.

(d) Excessive imports; investigation by United States International Trade Commission

The Secretary or ¹Energy, at any time, may determine on the basis of the monitoring and annual reports required under this section that source material or special nuclear material from foreign sources is being imported in such increased quantities as to be a substantial cause of serious injury, or threat thereof, to the United States uranium mining and milling industry. Based on that determination, the United States Trade Representative shall request that the United States International Trade Commission initiate an investigation under section 2251 ² of title 19.

(e) Excessive imports for contracts or options as threatening national security; investigation by

Secretary of Commerce; recommendation for further investigation

(1) If, during the period 1982 to 1992, the Secretary of Energy determines that executed contracts or options for source material or special nuclear material from foreign sources for use in utilization facilities within or under the jurisdiction of the United States represent greater than 37½ percent of actual or projected domestic uranium requirements for any two-consecutive-year period, or if the Secretary of Energy determines the level of contracts or options involving source material and special nuclear material from foreign sources may threaten to impair the national security, the Secretary of Energy shall request the Secretary of Commerce to initiate under section 1862 of title 19 an investigation to determine the effects on the national security of imports of source material and special nuclear material. The Secretary of Energy shall cooperate fully with the Secretary of Commerce in carrying out such an investigation and shall make available to the Secretary of Commerce the findings that lead to this request and such other information that will assist the Secretary of Commerce in the conduct of the investigation.

(2) The Secretary of Commerce shall, in the conduct of any investigation requested by the Secretary of Energy pursuant to this section, take into account any information made available by the Secretary of Energy, including information regarding the impact on national security of projected or executed contracts or options for source material or special nuclear material from foreign sources or whether domestic production capacity is sufficient to supply projected national security requirements.

(3) No sooner than 3 years following completion of any investigation by the Secretary of Commerce under paragraph (1), if no recommendation has been made pursuant to such study for trade adjustments to assist or protect domestic uranium production, the Secretary of Energy may initiate a request for another such investigation by the Secretary of Commerce.

AMENDMENTS

1964—Par. (a). Pub. L. 88-489 struck out par. (a) which placed title to all special nuclear material utilized or produced by facilities pursuant to license in the United States at all times.

§2234. Inalienability of licenses

No license granted hereunder and no right to utilize or produce special nuclear material granted hereby shall be transferred, assigned or in any manner disposed of, either voluntarily or involuntarily, directly or indirectly, through transfer of control of any license to any person, unless the Commission shall, after securing full information, find that the transfer is in accordance with the provisions of this chapter, and shall give its consent in writing. The Commission may give such consent to the creation of a mortgage, pledge, or other lien upon any facility or special nuclear material, owned or thereafter acquired by a licensee, or upon any leasehold or other interest to such

facility, and the rights of the creditors so secured may thereafter be enforced by any court subject to rules and regulations established by the Commission to protect public health and safety and promote the common defense and security.

AMENDMENTS

1964—Pub. L. 88-489 inserted "or special nuclear material," after "lien upon any facility" and substituted "interest in such facility" for "interest in such property".

§2235. Construction permits and operating licenses

(a) All applicants for licenses to construct or modify production or utilization facilities shall, if the application is otherwise acceptable to the Commission, be initially granted a construction permit. The construction permit shall state the earliest and latest dates for the completion of the construction or modification. Unless the construction or modification of the facility is completed by the completion date, the construction permit shall expire, and all rights thereunder be forfeited, unless upon good cause shown, the Commission extends the completion date. Upon the completion of the construction or modification of the facility, upon the filing of any additional information needed to bring the original application up to date, and upon finding that the facility authorized has been constructed and will operate in conformity with the application as amended and in conformity with the provisions of this chapter and of the rules and regulations of the Commission, and in the absence of any good cause being shown to the Commission why the granting of a license would not be in accordance with the provisions of this chapter, the Commission shall thereupon issue a license to the applicant. For all other purposes of this chapter, a construction permit is deemed to be a "license".

(b) After holding a public hearing under section 2239(a)(1)(A) of this title, the Commission shall issue to the applicant a combined construction and operating license if the application contains sufficient information to support the issuance of a combined license and the Commission determines that there is reasonable assurance that the facility will be constructed and will operate in conformity with the license, the provisions of this chapter, and the Commission's rules and regulations. The Commission shall identify within the combined license the inspections, tests, and analyses, including those applicable to emergency planning, that the licensee shall perform, and the acceptance criteria that, if met, are necessary and sufficient to provide reasonable assurance that the facility has been constructed and will be operated in conformity with the license, the provisions of this chapter, and the Commission's rules and regulations. Following issuance of the combined license, the Commission shall ensure that the prescribed inspections, tests, and analyses are performed and, prior to operation of the facility, shall find that the prescribed acceptance criteria are met. Any finding made under this subsection shall not require a hearing except as provided in section 2239(a)(1)(B) of this title.

§2236. Revocation of licenses

(a) False applications; failure of performance

Any license may be revoked for any material false statement in the application or any statement of fact required under section 2232 of this title, or because of conditions revealed by such application or statement of fact or any report, record, or inspection or other means which would warrant the Commission to refuse to grant a license on an original application, or for failure to construct or operate a facility in accordance with the terms of the construction permit or license or the technical specifications in the application, or for violation of, or failure to observe any of the terms and provisions of this chapter or of any regulation of the Commission.

§2238. Continued operation of facilities

Whenever the Commission finds that the public convenience and necessity or the production program of the Commission requires continued operation of a production facility or utilization facility the license for which has been revoked pursuant to section 2236 of this title, the Commission may, after consultation with the appropriate regulatory agency, State or Federal, having jurisdiction, order that possession be taken of and such facility be operated for such period of time as the public convenience and necessity or the production program of the Commission may, in the judgment of the Commission, require, or until a license for the operation of the facility shall become effective. Just compensation shall be paid for the use of the facility.

§2239. Hearings and judicial review

(a)(1)(A) In any proceeding under this chapter, for the granting, suspending, revoking, or amending of any license or construction permit, or application to transfer control, and in any proceeding for the issuance or modification of rules and regulations dealing with the activities of licensees, and in any proceeding for the payment of compensation, an award or royalties under sections [1](#) 2183, 2187, 2236(c) or 2238 of this title, the Commission shall grant a hearing upon the request of any person whose interest may be affected by the proceeding, and shall admit any such person as a party to such proceeding. The Commission shall hold a hearing after thirty days' notice and publication once in the Federal Register, on each application under section 2133 or 2134(b) of this title for a construction permit for a facility, and on any application under section 2134(c) of this title for a construction permit for a testing facility. In cases where such a construction permit has been issued following the holding of such a hearing, the Commission may, in the absence of a

request therefor by any person whose interest may be affected, issue an operating license or an amendment to a construction permit or an amendment to an operating license without a hearing, but upon thirty days' notice and publication once in the Federal Register of its intent to do so. The Commission may dispense with such thirty days' notice and publication with respect to any application for an amendment to a construction permit or an amendment to an operating license upon a determination by the Commission that the amendment involves no significant hazards consideration.

(B)(i) Not less than 180 days before the date scheduled for initial loading of fuel into a plant by a licensee that has been issued a combined construction permit and operating license under section 2235(b) of this title, the Commission shall publish in the Federal Register notice of intended operation. That notice shall provide that any person whose interest may be affected by operation of the plant, may within 60 days request the Commission to hold a hearing on whether the facility as constructed complies, or on completion will comply, with the acceptance criteria of the license.

(ii) A request for hearing under clause (i) shall show, *prima facie*, that one or more of the acceptance criteria in the combined license have not been, or will not be met, and the specific operational consequences of nonconformance that would be contrary to providing reasonable assurance of adequate protection of the public health and safety.

(iii) After receiving a request for a hearing under clause (i), the Commission expeditiously shall either deny or grant the request. If the request is granted, the Commission shall determine, after considering petitioners' *prima facie* showing and any answers thereto, whether during a period of interim operation, there will be reasonable assurance of adequate protection of the public health and safety. If the Commission determines that there is such reasonable assurance, it shall allow operation during an interim period under the combined license.

(iv) The Commission, in its discretion, shall determine appropriate hearing procedures, whether informal or formal adjudicatory, for any hearing under clause (i), and shall state its reasons therefor.

(v) The Commission shall, to the maximum possible extent, render a decision on issues raised by the hearing request within 180 days of the publication of the notice provided by clause (i) or the anticipated date for initial loading of fuel into the reactor, whichever is later. Commencement of operation under a combined license is not subject to subparagraph (A).

(2)(A) The Commission may issue and make immediately effective any amendment to an operating license or any amendment to a combined construction and operating license, upon a determination by the Commission that such amendment involves no significant hazards consideration, notwithstanding the pendency before the Commission of a request for a hearing from any person. Such amendment may be issued and made immediately effective in advance of the holding and completion of any required hearing. In determining under this section whether such amendment involves no significant hazards consideration, the Commission shall consult with the State in which the facility involved is located. In all other respects such amendment shall meet the requirements of this chapter.

(B) The Commission shall periodically (but not less frequently than once every thirty days) publish notice of any amendments issued, or proposed to be issued, as provided in subparagraph (A). Each such notice shall include all amendments issued, or proposed to be issued, since the date of publication of the last such periodic notice. Such notice shall, with respect to each amendment or proposed amendment (i) identify the facility involved; and (ii) provide a brief description of such amendment. Nothing in this subsection shall be construed to delay the effective date of any amendment.

(C) The Commission shall, during the ninety-day period following the effective date of this paragraph, promulgate regulations establishing (i) standards for determining whether any amendment to an operating license or any amendment to a combined construction and operating license involves no significant hazards consideration; (ii) criteria for providing or, in emergency situations, dispensing with prior notice and reasonable opportunity for public comment on any such determination, which criteria shall take into account the exigency of the need for the amendment involved; and (iii) procedures for consultation on any such determination with the State in which the facility involved is located.

(b) The following Commission actions shall be subject to judicial review in the manner prescribed in chapter 158 of title 28 and chapter 7 of title 5:

- (1) Any final order entered in any proceeding of the kind specified in subsection (a).
- (2) Any final order allowing or prohibiting a facility to begin operating under a combined construction and operating license.

(3) Any final order establishing by regulation standards to govern the Department of Energy's gaseous diffusion uranium enrichment plants, including any such facilities leased to a corporation established under the USEC Privatization Act [42 U.S.C. 2297h et seq.].

(4) Any final determination under section 2297f(c) of this title relating to whether the gaseous diffusion plants, including any such facilities leased to a corporation established under the USEC Privatization Act [42 U.S.C. 2297h et seq.], are in compliance with the Commission's standards governing the gaseous diffusion plants and all applicable laws.

(Aug. 1, 1946, ch. 724, title I, §189, as added Aug. 30, 1954, ch. 1073, §1, 68 Stat. 955; amended Pub. L. 85–256, §7, Sept. 2, 1957, 71 Stat. 579; Pub. The initial petition for a temporary operating license for each such facility, and any temporary operating license issued for such facility based upon the initial petition, shall be limited to power levels not to exceed 5 percent of rated full thermal power. Following issuance by the Commission of the temporary operating license for each such facility, the licensee may file petitions with the Commission to amend the license to allow facility operation in staged increases at specific power levels, to be determined by the Commission, exceeding 5 percent of rated full thermal power. The initial petition for a temporary operating license for each such facility may be filed at any time after the filing of: (1) the report of the Advisory Committee on Reactor Safeguards required by section 2232(b) of this title; (2) the filing of the initial Safety Evaluation Report by the Nuclear Regulatory Commission staff and the Nuclear Regulatory Commission staff's first supplement to the report prepared in response to the report of the Advisory Committee on Reactor Safeguards for the facility; (3) the Nuclear Regulatory Commission staff's final detailed statement on the environmental impact of the facility prepared pursuant to section 4332(2)(C) of this title; and (4) a State, local, or utility emergency preparedness plan for the facility. Petitions for the issuance of a temporary operating license, or for an amendment to such a license allowing operation at a specific power level greater than that authorized in the initial temporary operating license, shall be accompanied by an affidavit or affidavits setting forth the specific facts upon which the petitioner relies to justify issuance of the temporary operating license or the amendment thereto. The Commission shall publish notice of each such petition in the Federal Register and in such trade or news publications as the Commission deems appropriate to give reasonable notice to persons who might have a potential

interest in the grant of such temporary operating license or amendment thereto. Any person may file affidavits or statements in support of, or in opposition to, the petition within thirty days after the publication of such notice in the Federal Register.

(b) Operation at greater power level; criteria, effect, terms and conditions, etc.; procedures applicable

With respect to any petition filed pursuant to subsection (a) of this section, the Commission may issue a temporary operating license, or amend the license to authorize temporary operation at each specific power level greater than that authorized in the initial temporary operating license, as determined by the Commission, upon finding that—

(1) in all respects other than the conduct or completion of any required hearing, the requirements of law are met;

(2) in accordance with such requirements, there is reasonable assurance that operation of the facility during the period of the temporary operating license in accordance with its terms and conditions will provide adequate protection to the public health and safety and the environment during the period of temporary operation; and

(3) denial of such temporary operating license will result in delay between the date on which construction of the facility is sufficiently completed, in the judgment of the Commission, to permit issuance of the temporary operating license, and the date when such facility would otherwise receive a final operating license pursuant to this chapter.

The temporary operating license shall become effective upon issuance and shall contain such terms and conditions as the Commission may deem necessary, including the duration of the license and any provision for the extension thereof. Any final order authorizing the issuance or amendment of any temporary operating license pursuant to this section shall recite with specificity the facts and reasons justifying the findings under this subsection, and shall be transmitted upon such issuance to the Committees on Natural Resources and on Energy and Commerce of the House of Representatives and the Committee on Environment and Public Works of the Senate. The final order of the Commission with respect to the issuance or amendment of a temporary operating license shall be subject to judicial review pursuant to chapter 158 of title 28. The requirements of section 2239(a) of this title with respect to the issuance or amendment of facility licenses shall not apply to the issuance or amendment of a temporary operating license under this section.

(c) Hearing for final operating license; suspension, issuance, compliance, etc., with temporary operating license

Any hearing on the application for the final operating license for a facility required pursuant to section 2239(a) of this title shall be concluded as promptly as practicable. The Commission shall suspend the temporary operating license if it finds that the applicant is not prosecuting the application for the final operating license with due diligence. Issuance of a temporary operating license under subsection (b) of this section shall be without prejudice to the right of any party to raise any issue in a hearing required pursuant to section 2239(a) of this title; and failure to assert any ground for denial or limitation of a temporary operating license shall not bar the assertion of such ground in connection with the issuance of a subsequent final operating license. Any party to a hearing required pursuant to section 2239(a) of this title on the final operating license for a facility for which a temporary operating license has been issued under subsection (b), and any member of the Atomic Safety and Licensing Board conducting such hearing, shall promptly notify the Commission of any information indicating that the terms and conditions of the temporary operating license are not being met, or that such terms and conditions are not sufficient to comply with the provisions of paragraph (2) of subsection (b).

(d) Administrative remedies for minimization of need for license

The Commission is authorized and directed to adopt such administrative remedies as the Commission deems appropriate to minimize the need for issuance of temporary operating licenses pursuant to this section.

(e) Expiration of issuing authority

The authority to issue new temporary operating licenses under this section shall expire on December 31, 1983.

If any violation under this subsection is a continuing one, each day of such violation shall constitute a separate violation for the purpose of computing the applicable civil penalty. The Secretary of Energy may carry out this section with respect to the National Nuclear Security Administration by acting through the Administrator for Nuclear Security.

(b) Determination of amount

(1) The Secretary shall have the power to compromise, modify or remit, with or without conditions, such civil penalties and to prescribe regulations as he may deem necessary to implement this section.

(2) In determining the amount of any civil penalty under this subsection, the Secretary shall take into account the nature, circumstances, extent, and gravity of the violation or violations and, with respect to the violator, ability to pay, effect on ability to continue to do business, any history of prior such violations, the degree of culpability, and such other matters as justice may require.

(c) Assessment and payment

(1) Before issuing an order assessing a civil penalty against any person under this section, the Secretary shall provide to such person notice of the proposed penalty. Such notice shall inform such person of his opportunity to elect in writing within thirty days after the date of receipt of such notice to have the procedures of paragraph (3) (in lieu of those of paragraph (2)) apply with respect to such assessment.

(2)(A) Unless an election is made within thirty calendar days after receipt of notice under paragraph (1) to have paragraph (3) apply with respect to such penalty, the Secretary shall assess the penalty, by order, after a determination of violation has been made on the record after an opportunity for an agency hearing pursuant to section 554 of title 5 before an administrative law judge appointed under section 3105 of such title 5. Such assessment order shall include the administrative law judge's findings and the basis for such assessment.

(B) Any person against whom a penalty is assessed under this paragraph may, within sixty calendar days after the date of the order of the Secretary assessing such penalty, institute an action in the United States court of appeals for the appropriate judicial circuit for judicial review of such order

in accordance with chapter 7 of title 5. The court shall have jurisdiction to enter a judgment affirming, modifying, or setting aside in whole or in part, the order of the Secretary, or the court may remand the proceeding to the Secretary for such further action as the court may direct.

(3)(A) In the case of any civil penalty with respect to which the procedures of this paragraph have been elected, the Secretary shall promptly assess such penalty, by order, after the date of the election under paragraph (1).

(B) If the civil penalty has not been paid within sixty calendar days after the assessment order has been made under subparagraph (A), the Secretary shall institute an action in the appropriate district court of the United States for an order affirming the assessment of the civil penalty. The court shall have authority to review de novo the law and facts involved, and shall have jurisdiction to enter a judgment enforcing, modifying, and enforcing as so modified, or setting aside in whole or in part, such assessment.

(C) Any election to have this paragraph apply may not be revoked except with consent of the Secretary.

(4) If any person fails to pay an assessment of a civil penalty after it has become a final and unappealable order under paragraph (2), or after the appropriate district court has entered final judgment in favor of the Secretary under paragraph (3), the Secretary shall institute an action to recover the amount of such penalty in any appropriate district court of the United States. In such action, the validity and appropriateness of such final assessment order or judgment shall not be subject to review.

(d) Limitation for not-for-profit institutions

(1) Notwithstanding subsection (a), in the case of any not-for-profit contractor, subcontractor, or supplier, the total amount of civil penalties paid under subsection (a) may not exceed the total amount of fees paid within any 1-year period (as determined by the Secretary) under the contract under which the violation occurs.

(a) Mission

The mission of the Board shall be to provide independent analysis, advice, and recommendations to the Secretary of Energy to inform the Secretary, in the role of the Secretary as operator and regulator of the defense nuclear facilities of the Department of Energy, in providing adequate protection of public health and safety at such defense nuclear facilities, including with respect to the health and safety of employees and contractors at such facilities.

(b) Functions

The Board shall perform the following functions:

(1) Review and evaluation of standards

The Board shall review and evaluate the content and implementation of the standards relating to the design, construction, operation, and decommissioning of defense nuclear facilities of the Department of Energy (including all applicable Department of Energy orders, regulations, and requirements) at each Department of Energy defense nuclear facility. The Board shall recommend to the Secretary of Energy those specific measures that should be adopted to ensure that public health and safety are adequately protected. The Board shall include in its recommendations necessary changes in the content and implementation of such standards, as well as matters on which additional data or additional research is needed.

(2) Investigations

(A) The Board shall investigate any event or practice at a Department of Energy defense nuclear facility which the Board determines has adversely affected, or may adversely affect, public health and safety.

(B) The purpose of any Board investigation under subparagraph (A) shall be—

(i) to determine whether the Secretary of Energy is adequately implementing the standards described in paragraph (1) of the Department of Energy (including all applicable Department of

Energy orders, regulations, and requirements) at the facility;

- (ii) to ascertain information concerning the circumstances of such event or practice and its implications for such standards;
- (iii) to determine whether such event or practice is related to other events or practices at other Department of Energy defense nuclear facilities; and
- (iv) to provide to the Secretary of Energy such recommendations for changes in such standards or the implementation of such standards (including Department of Energy orders, regulations, and requirements) and such recommendations relating to data or research needs as may be prudent or necessary.

(3) Analysis of design and operational data

The Board shall have access to and may systematically analyze design and operational data, including safety analysis reports, from any Department of Energy defense nuclear facility.

(4) Review of facility design and construction

The Board shall review the design of a new Department of Energy defense nuclear facility before construction of such facility begins and shall recommend to the Secretary, within a reasonable time, such modifications of the design as the Board considers necessary to ensure adequate protection of public health and safety. During the construction of any such facility, the Board shall periodically review and monitor the construction and shall submit to the Secretary, within a reasonable time, such recommendations relating to the construction of that facility as the Board considers necessary to ensure adequate protection of public health and safety. An action of the Board, or a failure to act, under this paragraph may not delay or prevent the Secretary of Energy from carrying out the construction of such a facility.

(5) Recommendations

The Board shall make such recommendations to the Secretary of Energy with respect to Department of Energy defense nuclear facilities, including operations of such facilities, standards, and research needs, as the Board determines are necessary to ensure adequate protection of public health and safety. In making its recommendations the Board shall consider, and specifically assess risk (whenever sufficient data exists), the technical and economic feasibility of implementing the recommended measures.

(d) Provision of information to Secretary

The Board shall furnish the Secretary of Energy with copies of all comments, data, views, and arguments submitted to it under subsection (b) or (c).

(e) Final decision

If the Secretary of Energy, in a response under subsection (c)(1), rejects (in whole or part) any recommendation made by the Board under section 2286a of this title, the Board shall either reaffirm its original recommendation or make a revised recommendation and shall notify the Secretary of its action. Within 30 days after receiving the notice of the Board's action under this subsection, the Secretary shall consider the Board's action and make a final decision on whether to implement all or part of the Board's recommendations. Subject to subsection (i), the Secretary shall publish the final decision and the reasoning for such decision in the Federal Register and shall transmit to the Committees on Armed Services, Appropriations, and Energy and Commerce of the House of Representatives and the Committees on Armed Services, Appropriations, and Energy and Natural Resources of the Senate a written report containing that decision and reasoning.

(h) Imminent or severe threat

(1) In any case in which the Board determines that a recommendation submitted to the Secretary of Energy under section 2286a of this title relates to an imminent or severe threat to public health and safety, the Board and the Secretary of Energy shall proceed under this subsection in lieu of subsections (a) through (e).

The Secretary of Energy shall submit his recommendation to the President. The President shall review the Secretary of Energy's recommendation and shall make the decision concerning acceptance or rejection of the Board's recommendation.

(3) After receipt by the President of the recommendation from the Board under this subsection, the Board promptly shall make such recommendation available to the public and shall transmit such recommendation to the Committees on Armed Services, Appropriations, and Energy and Commerce of the House of Representatives and the Committees on Armed Services, Appropriations, and Energy and Natural Resources of the Senate. (2) Investments

The Secretary of the Treasury shall invest amounts contained within the Fund in obligations of the United States—

- (A) having maturities determined by the Secretary of the Treasury to be appropriate for what the Department determines to be the needs of the Fund; and
- (B) bearing interest at rates determined to be appropriate by the Secretary of the Treasury, taking into consideration the current average market yield on outstanding marketable obligations of the United States with remaining periods to maturity comparable to these obligations.

§2297g–1. Deposits

(a) Amount

The Fund shall consist of deposits in the amount of \$518,233,333 per fiscal year (to be annually adjusted for inflation beginning on October 24, 1992, using the Consumer Price Index for all-urban consumers published by the Department of Labor) as provided in this section.

The Secretary shall collect a special assessment from domestic utilities. The total amount collected for a fiscal year shall not exceed \$150,000,000 (to be annually adjusted for inflation using the Consumer Price Index for all-urban consumers published by the Department of Labor). The amount collected from each utility pursuant to this subsection for a fiscal year shall be in the same ratio to the amount required under subsection (a) to be deposited for such fiscal year as the total amount of separative work units such utility has purchased from the Department of Energy for the purpose of commercial electricity generation, before October 24, 1992, bears to the total amount of separative work units purchased from the Department of Energy for all purposes (including units purchased or produced for defense purposes) before October 24, 1992. For purposes of this subsection—

- (1) a utility shall be considered to have purchased a separative work unit from the Department if such separative work unit was produced by the Department, but purchased by the utility from another source; and
- (2) a utility shall not be considered to have purchased a separative work unit from the Department if such separative work unit was purchased by the utility, but sold to another source.

(d) Authorization of appropriations

(f) Continuation of deposits

Except as provided in subsection (e), deposits shall continue to be made into the Fund under subsection (d) for the period specified in such subsection.

(g) Treatment of assessment

Any special assessment levied under this section on domestic utilities for the decontamination and decommissioning of the Department's gaseous diffusion enrichment facilities shall be deemed a necessary and reasonable current cost of fuel and shall be fully recoverable in rates in all jurisdictions in the same manner as the utility's other fuel cost.

Such report shall include a determination of the decontamination and decommissioning required for each facility, shall identify alternative methods, using different technologies, shall include site-specific surveys of the actual contamination, and shall provide estimated costs of those activities.

(b) Payment of decontamination and decommissioning costs

§2297h–8. Employee protections

(a) Contractor employees

(1) Privatization shall not diminish the accrued, vested pension benefits of employees of the Corporation's operating contractor at the two gaseous diffusion plants.

(2) In the event that the private corporation terminates or changes the contractor at either or both of the gaseous diffusion plants, the plan sponsor or other appropriate fiduciary of the pension plan covering employees of the prior operating contractor shall arrange for the transfer of all plan assets and liabilities relating to accrued pension benefits of such plan's participants and beneficiaries from such plant to a pension plan sponsored by the new contractor or the private corporation or a joint labor-management plan, as the case may be.

(3) In addition to any obligations arising under the National Labor Relations Act (29 U.S.C. 151 et seq.), any employer (including the private corporation if it operates a gaseous diffusion plant without a contractor or any contractor of the private corporation) at a gaseous diffusion plant shall—

(A) abide by the terms of any unexpired collective bargaining agreement covering employees in bargaining units at the plant and in effect on the privatization date until the stated expiration or termination date of the agreement; or

(B) in the event a collective bargaining agreement is not in effect upon the privatization date, have the same bargaining obligations under section 8(d) of the National Labor Relations Act (29 U.S.C. 158(d)) as it had immediately before the privatization date.

(A) offer employment to non-management employees of the predecessor contractor to the extent that their jobs still exist or they are qualified for new jobs, and

(B) abide by the terms of the predecessor contractor's collective bargaining agreement until the agreement expires or a new agreement is signed.

(5) In the event of a plant closing or mass layoff (as such terms are defined in section 2101(a)(2) and (3) of title 29) at either of the gaseous diffusion plants, the Secretary of Energy shall treat any adversely affected employee of an operating contractor at either plant who was an employee at such plant on July 1, 1993, as a Department of Energy employee for purposes of sections 3161 and 3162 of the National Defense Authorization Act for Fiscal Year 1993 (42 U.S.C. 7274h–7274i).¹

(6)(A) The Secretary and the private corporation shall cause the post-retirement health benefits plan provider (or its successor) to continue to provide benefits for eligible persons, as described under subparagraph (B), employed by an operating contractor at either of the gaseous diffusion plants in an economically efficient manner and at substantially the same level of coverage as eligible retirees are entitled to receive on the privatization date.

(B) Persons eligible for coverage under subparagraph (A) shall be limited to:

(i) persons who retired from active employment at one of the gaseous diffusion plants on or before the privatization date as vested participants in a pension plan maintained either by the Corporation's operating contractor or by a contractor employed prior to July 1, 1993, by the Department of Energy to operate a gaseous diffusion plant; and

(ii) persons who are employed by the Corporation's operating contractor on or before the privatization date and are vested participants in a pension plan maintained either by the Corporation's operating contractor or by a contractor employed prior to July 1, 1993, by the Department of Energy to operate a gaseous diffusion plant.

(D) The Secretary and the Corporation shall fund the cost of post-retirement health benefits for persons who retire from employment with an operating contractor on or after July 1, 1993, in proportion to the retired person's years and months of service at a gaseous diffusion plant under their respective management.

(7)(A) Any suit under this subsection alleging a violation of an agreement between an employer and a labor organization shall be brought in accordance with section 185¹ of title 29.

(B) Any charge under this subsection alleging an unfair labor practice violative of section 8 of the

National Labor Relations Act (29 U.S.C. 158) shall be pursued in accordance with section 10 of the National Labor Relations Act (29 U.S.C. 160).

(C) Any suit alleging a violation of any provision of this subsection, to the extent it does not allege a violation of the National Labor Relations Act [29 U.S.C. 151 et seq.], may be brought in any district court of the United States having jurisdiction over the parties, without regard to the amount in controversy or the citizenship of the parties.

(8) CONTINUITY OF BENEFITS.—To the extent appropriations are provided in advance for this purpose or are otherwise available, not later than 30 days after August 8, 2005, the Secretary shall implement such actions as are necessary to ensure that any employee who—

§2297h–10. Uranium transfers and sales

(a) Transfers and sales by Secretary

The Secretary shall not provide enrichment services or transfer or sell any uranium (including natural uranium concentrates, natural uranium hexafluoride, or enriched uranium in any form) to any person except as consistent with this section.

(b) Russian HEU

(1) On or before December 31, 1996, the United States Executive Agent under the Russian HEU Agreement shall transfer to the Secretary without charge title to an amount of uranium hexafluoride equivalent to the natural uranium component of low-enriched uranium derived from at least 18 metric tons of highly enriched uranium purchased from the Russian Executive Agent under the Russian HEU Agreement. The quantity of such uranium hexafluoride delivered to the Secretary shall be based on a tails assay of 0.30 U²³⁵. Uranium hexafluoride transferred to the Secretary pursuant to this paragraph shall be deemed under United States law for all purposes to be of Russian origin.

(2) Within 7 years of April 26, 1996, the Secretary shall sell, and receive payment for, the uranium hexafluoride transferred to the Secretary pursuant to paragraph (1). Such uranium hexafluoride shall be sold—

- (A) at any time for use in the United States for the purpose of overfeeding;
- (B) at any time for end use outside the United States;
- (C) in 1995 and 1996 to the Russian Executive Agent at the purchase price for use in matched

sales pursuant to the Suspension Agreement; or,¹

(D) in calendar year 2001 for consumption by end users in the United States not prior to January 1, 2002, in volumes not to exceed 3,000,000 pounds U₃O₈ equivalent per year.

(3) With respect to all enriched uranium delivered to the United States Executive Agent under the Russian HEU Agreement on or after January 1, 1997, the United States Executive Agent shall, upon request of the Russian Executive Agent, enter into an agreement to deliver concurrently to the Russian Executive Agent an amount of uranium hexafluoride equivalent to the natural uranium component of such uranium. An agreement executed pursuant to a request of the Russian Executive Agent, as contemplated in this paragraph, may pertain to any deliveries due during any period remaining under the Russian HEU Agreement. The quantity of such uranium hexafluoride delivered to the Russian Executive Agent shall be based on a tails assay of 0.30 U²³⁵. Title to uranium hexafluoride delivered to the Russian Executive Agent pursuant to this paragraph shall transfer to the Russian Executive Agent upon delivery of such material to the Russian Executive Agent, with such delivery to take place at a North American facility designated by the Russian Executive Agent. Uranium hexafluoride delivered to the Russian Executive Agent pursuant to this paragraph shall be deemed under U.S. law for all purposes to be of Russian origin. Such uranium hexafluoride may be sold to any person or entity for delivery and use in the United States only as permitted in subsections (b)(5), (b)(6) and (b)(7) of this section.

(4) In the event that the Russian Executive Agent does not exercise its right to enter into an agreement to take delivery of the natural uranium component of any low-enriched uranium, as contemplated in paragraph (3), within 90 days of the date such low-enriched uranium is delivered to the United States Executive Agent, or upon request of the Russian Executive Agent, then the United States Executive Agent shall engage an independent entity through a competitive selection process to auction an amount of uranium hexafluoride or U₃O₈ (in the event that the conversion component of such hexafluoride has previously been sold) equivalent to the natural uranium component of such low-enriched uranium. An agreement executed pursuant to a request of the Russian Executive Agent, as contemplated in this paragraph, may pertain to any deliveries due during any period remaining under the Russian HEU Agreement. Such independent entity shall sell such uranium hexafluoride in one or more lots to any person or entity to maximize the proceeds from such sales, for disposition consistent with the limitations set forth in this subsection. The independent entity shall pay to the Russian Executive Agent the proceeds of any such auction less all reasonable transaction and other administrative costs. The quantity of such uranium hexafluoride auctioned shall be based on a tails assay of 0.30 U²³⁵. Title to uranium hexafluoride auctioned pursuant to this paragraph shall transfer to the buyer of such material upon delivery of such material to the buyer. Uranium hexafluoride auctioned pursuant to this paragraph shall be deemed under United States law for all purposes to be of Russian origin.

(5) Except as provided in paragraphs (6) and (7), uranium hexafluoride delivered to the Russian Executive Agent under paragraph (3) or auctioned pursuant to paragraph (4), may not be delivered for consumption by end users in the United States either directly or indirectly prior to January 1, 1998, and thereafter only in accordance with the following schedule:

Annual Maximum Deliveries to End Users

Year:	(millions lbs. U₃O₈ equivalent)
1998	2
1999	4
2000	6
2001	8
2002	10

2003	12
2004	14
2005	16
2006	17
2007	18
2008	19
2009 and each year thereafter	20.

(6) Uranium hexafluoride delivered to the Russian Executive Agent under paragraph (3) or auctioned pursuant to paragraph (4) may be sold at any time as Russian-origin natural uranium in a matched sale pursuant to the Suspension Agreement, and in such case shall not be counted against the annual maximum deliveries set forth in paragraph (5).

(7) Uranium hexafluoride delivered to the Russian Executive Agent under paragraph (3) or auctioned pursuant to paragraph (4) may be sold at any time for use in the United States for the purpose of overfeeding in the operations of enrichment facilities.

(8) Nothing in this subsection (b) shall restrict the sale of the conversion component of such uranium hexafluoride.

(9) The Secretary of Commerce shall have responsibility for the administration and enforcement of the limitations set forth in this subsection. The Secretary of Commerce may require any person to provide any certifications, information, or take any action that may be necessary to enforce these limitations. The United States Customs Service shall maintain and provide any information required by the Secretary of Commerce and shall take any action requested by the Secretary of Commerce which is necessary for the administration and enforcement of the uranium delivery limitations set forth in this section.

(10) The President shall monitor the actions of the United States Executive Agent under the Russian HEU Agreement and shall report to the Congress not later than December 31 of each year on the effect the low-enriched uranium delivered under the Russian HEU Agreement is having on the domestic uranium mining, conversion, and enrichment industries, and the operation of the gaseous diffusion plants. Such report shall include a description of actions taken or proposed to be taken by the President to prevent or mitigate any material adverse impact on such industries or any loss of employment at the gaseous diffusion plants as a result of the Russian HEU Agreement.

(c) Transfers to Corporation

(1) The Secretary shall transfer to the Corporation without charge up to 50 metric tons of enriched uranium and up to 7,000 metric tons of natural uranium from the Department of Energy's stockpile, subject to the restrictions in subsection (c)(2).

(2) The Corporation shall not deliver for commercial end use in the United States—

(A) any of the uranium transferred under this subsection before January 1, 1998;

(B) more than 10 percent of the uranium (by uranium hexafluoride equivalent content) transferred under this subsection or more than 4,000,000 pounds, whichever is less, in any calendar year after 1997; or

(C) more than 800,000 separative work units contained in low-enriched uranium transferred under this subsection in any calendar year.

(d) Inventory sales

(1) In addition to the transfers authorized under subsections (c) and (e), the Secretary may, from time to time, sell natural and low-enriched uranium (including low-enriched uranium derived from highly enriched uranium) from the Department of Energy's stockpile.

(2) Except as provided in subsections (b), (c), and (e), no sale or transfer of natural or low-enriched uranium shall be made unless—

(A) the President determines that the material is not necessary for national security needs,

(B) the Secretary determines that the sale of the material will not have an adverse material impact on the domestic uranium mining, conversion, or enrichment industry, taking into account the sales of uranium under the Russian HEU Agreement and the Suspension Agreement, and

(C) the price paid to the Secretary will not be less than the fair market value of the material.

(e) Government transfers

Notwithstanding subsection (d)(2), the Secretary may transfer or sell enriched uranium—

- (1) to a Federal agency if the material is transferred for the use of the receiving agency without any resale or transfer to another entity and the material does not meet commercial specifications;
- (2) to any person for national security purposes, as determined by the Secretary; or
- (3) to any State or local agency or nonprofit, charitable, or educational institution for use other than the generation of electricity for commercial use.

(f) Savings provision

Nothing in this subchapter shall be read to modify the terms of the Russian HEU Agreement.

- (IV) any other provisions of the Suspension Agreement (as so amended); and
- (V) any related administrative guidance issued by the Department of Commerce.

(ii) Effect of termination of Suspension Agreement

Clause (i) shall remain in effect if the Suspension Agreement is terminated.

(C) Additional imports in exchange for a commitment to downblend an additional 300 metric tons of highly enriched uranium

(i) In general

In addition to the amount authorized to be imported under subparagraph (A) and except as provided in clause (ii), if the Russian Federation enters into a bilateral agreement with the United States under which the Russian Federation agrees to downblend an additional 300 metric tons of highly enriched uranium after the completion of the Russian HEU Agreement, 4 kilograms of low-enriched uranium, whether or not such low-enriched uranium is derived from highly enriched uranium of weapons origin and including low-enriched uranium obtained under contracts for separative work units, may be imported in a calendar year for every 1 kilogram of Russian highly enriched uranium of weapons origin that was downblended in the preceding calendar year, subject to the verification of the Secretary of Energy under paragraph (10).

(ii) Maximum annual imports

Not more than 120,000 kilograms of low-enriched uranium may be imported in a calendar year under clause (i).

(3) Exceptions

The import limitations described in paragraphs (1) and (2) shall not apply to low-enriched uranium produced in the Russian Federation that is imported into the United States—

- (A) for use in the initial core of a new nuclear reactor; or
- (B) for processing and to be certified for reexportation and not for consumption in the United States.

(4) Limited waiver authority

(A) In general

Notwithstanding paragraph (1)(C), if the completion of the Russian HEU Agreement does not occur before December 31, 2013, the import limitations under paragraph (1)(C) shall be waived, and low-enriched uranium may be imported into the United States in the quantities specified in paragraph (2) in a calendar year after 2013, if—

- (i) the Secretary of Energy and the Secretary of State jointly determine that—
 - (I) the failure of the completion of the Russian HEU Agreement arises from causes beyond the control and without the fault or negligence of the Government of the Russian Federation; and
 - (II) the Government of the Russian Federation has made reasonable efforts to avoid and mitigate the effects of the failure of the completion of the Russian HEU Agreement; and
- (ii) the Secretary of Energy and the Secretary of State jointly notify Congress of, and publish in the Federal Register, the determination under clause (i) and the reasons for the determination.

(B) Notice and wait

A waiver under subparagraph (A) may not take effect until the date that is 180 days after the date on which Secretary of Energy and the Secretary of State notify Congress under subparagraph (A)(ii).

(C) Termination

A waiver under subparagraph (A) shall terminate on December 31 of the calendar year with respect to which the Secretary makes the determination under subparagraph (A)(i).

(5) Adjustments to import limitations

(A) In general

The import limitations described in paragraph (2)(A) are based on the lower scenario data in the report of the World Nuclear Association entitled "The Nuclear Fuel Report: Global Scenarios for Demand and Supply Availability 2019–2040". In each of calendar years 2023, 2029, and 2035, the Secretary of Commerce shall review the projected demand for uranium for nuclear reactors in the United States and adjust the import limitations described in paragraph

(2)(A) to account for changes in such demand in years after the year in which that report or a subsequent report is published.

(B) Report required

Not later than one year after December 27, 2020, and every 3 years thereafter, the Secretary shall submit to Congress a report that includes—

(i) a recommendation on the use of all publicly available data to ensure accurate forecasting by scenario data to comport to actual demand for low-enriched uranium for nuclear reactors in the United States; and

(ii) an identification of the steps to be taken to adjust the import limitations described in paragraph (2)(A) based on the most accurate scenario data.

(C) Incentive adjustment

Beginning in the second calendar year after the calendar year of the completion of the Russian HEU Agreement, the Secretary of Energy shall increase or decrease the amount of low-enriched uranium that may be imported in a calendar year under paragraph (2)(C) (including the amount of low-enriched uranium that may be imported for each kilogram of highly enriched uranium downblended under paragraph (2)(C)(i)) by a percentage equal to the percentage increase or decrease, as the case may be, in the average amount of uranium loaded into nuclear power reactors in the United States in the most recent 3-calendar-year period for which data are available, as reported by the Energy Information Administration of the Department of Energy, compared to the average amount of uranium loaded into such reactors during the 3-calendar-year period beginning on January 1, 2011, as reported by the Energy Information Administration.

(D) Publication of adjustments

As soon as practicable, but not later than July 31 of each calendar year, the Secretary of Energy shall publish in the Federal Register the amount of low-enriched uranium that may be imported in the current calendar year after the adjustments under subparagraph (C).

(6) Authority for additional adjustment

In addition to the adjustment under paragraph (5)(A), the Secretary of Commerce may adjust the import limitations under paragraph (2)(A) for a calendar year if the Secretary—

(A) in consultation with the Secretary of Energy, determines that the available supply of low-enriched uranium and the available stockpiles of uranium of the Department of Energy are insufficient to meet demand in the United States in the following calendar year; and

(B) notifies Congress of the adjustment not less than 45 days before making the adjustment.

(7) Equivalent quantities of low-enriched uranium imports

(A) In general

The import limitations described in paragraphs (1) and (2) are expressed in terms of uranium containing 4.4 percent uranium-235 and a tails assay of 0.3 percent.

(B) Adjustment for other uranium

Imports of low-enriched uranium under paragraphs (1) and (2), including low-enriched uranium obtained under contracts for separative work units, shall count against the import limitations described in such paragraphs in amounts calculated as the quantity of low-enriched uranium containing 4.4 percent uranium-235 necessary to equal the total amount of uranium-235 contained in such imports.

(8) Downblending of other highly enriched uranium

(A) In general

The downblending of highly enriched uranium not of weapons origin may be counted for purposes of paragraph (2)(C), subject to verification under paragraph (10), if the Secretary of Energy determines that the highly enriched uranium to be downblended poses a risk to the

national security of the United States.

(B) Equivalent quantities of highly enriched uranium

For purposes of determining the additional low-enriched uranium imports allowed under paragraph (2)(C), highly enriched uranium not of weapons origin downblended pursuant to subparagraph (A) shall count as downblended highly enriched uranium of weapons origin in amounts calculated as the quantity of highly enriched uranium containing 90 percent uranium-235 necessary to equal the total amount of uranium-235 contained in the highly enriched uranium not of weapons origin downblended pursuant to subparagraph (A).

(9) Termination of import restrictions

The provisions of this subsection shall terminate on December 31, 2040.

(10) Technical verifications by Secretary of Energy

(A) In general

The Secretary of Energy shall verify the origin, quantity, and uranium-235 content of the highly enriched uranium downblended for purposes of paragraphs (2)(C) and (8).

(B) Methods of verification

In conducting the verification required under subparagraph (A), the Secretary of Energy shall employ the transparency measures and access provisions agreed to under the Russian HEU Agreement for monitoring the downblending of Russian highly enriched uranium of weapons origin and such other methods as the Secretary determines appropriate.

(11) Enforcement of import limitations

The Secretary of Commerce shall be responsible for enforcing the import limitations imposed under this subsection and shall enforce such import limitations in a manner that imposes a minimal burden on the commercial nuclear industry.

(12) Effect on other agreements

(A) Russian HEU Agreement

Nothing in this section shall be construed to modify the terms of the Russian HEU Agreement, including the provisions of the Agreement relating to the amount of low-enriched uranium that may be imported into the United States.

(B) Other agreements

If a provision of any agreement between the United States and the Russian Federation, other than the Russian HEU Agreement or the Suspension Agreement, relating to the importation of low-enriched uranium, including low-enriched uranium obtained under contracts for separative work units, into the United States conflicts with a provision of this section, the provision of this section shall supersede the provision of the agreement to the extent of the conflict.

SUBCHAPTER III—CLASSIFICATION OF PROPERTY AND PRIORITIES

§2331. Classification of property

(a) Property within each community

Immediately upon passage of this chapter, or, in the case of Los Alamos, upon its inclusion within this chapter, the Commission shall classify all real property (including such improvements and such fixtures, equipment and other personal property incident thereto as it may deem appropriate) within each community in accordance with such classifications as shall insure reasonably similar treatment for reasonably similar property. The classification shall be made by such procedures, consistent with this subchapter, as it shall determine.

(b) Property at or in vicinity of each community

The Commission may, but shall not be required to, classify any other real property at or in the vicinity of the community, whether within or outside of that community.

(c) Residential structures within each community

Prior to the date any residential property is first offered for sale at Los Alamos, the Commission shall further classify each residential structure within the community of Los Alamos either as a single family house, a duplex house, an apartment house, a dormitory, or as a residential structure containing two or more separate single family units and shall post, at the offices of the Commission at Los Alamos, a list, available for public inspection at reasonable times, showing the classification of each such residential structure. For the purposes of this chapter, each such residential structure will thereafter be deemed to be a single family house, a duplex house, an apartment house, a dormitory, or a residential structure containing two or more separate single family units in accordance with its classification. In determining the classification of each such residential structure containing two or more single family units, the Commission shall consider (1) the practicability of selling separately the single family units, and (2) the insurability of mortgages under section 1715n(a) of title 12.

(a) Annual assistance payments; extensions; determination of amount and recipient

From the date of transfer of any municipal installations to a governmental or other entity at or for the community, the Administrator is authorized, for a period of ten years, to make annual assistance payments of just and reasonable sums to the State, county, or local entity having jurisdiction to collect property taxes or to the entity receiving the installation transferred hereunder: *Provided, however,* That with respect to the cities of Oak Ridge, Tennessee, and Richland, Washington, the Richland School District, the Los Alamos School Board, and the county of Los Alamos, New Mexico, the Administrator is authorized to continue to make assistance payments of just and reasonable sums after expiration of such ten-year period: *Provided further,* That the Administrator is also authorized to make payments of just and reasonable sums to Anderson County and Roane County, Tennessee. In determining the amount and recipient of such payments the Administrator shall consider—

- (1) the approximate real property taxes and assessments for local improvements which would be paid to the governmental entity upon property within the community if such property were not exempt from taxation by reason of Federal ownership;
- (2) the maintaining of municipal services at a level which will not impede the recruitment or retention of personnel essential to the Energy Research and Development Administration programs;
- (3) the fiscal problems peculiar to the governmental entity by reason of the construction at the community as a single-purpose national defense installation under emergency conditions;
- (4) the municipal services and other burdens imposed on the governmental or other entities at the community by the United States in its operations in the project area; and
- (5) the tax revenues and sources available to the governmental entity, its efforts and diligence in collection of taxes, assessment of property, and the efficiency of its operations.

(b) Special interim payments

Special interim payments may be made under the provisions of this section to any governmental entity which—

- (1) has a special burden due to the requirements under law imposed upon it in assisting in effectuating the purposes of this chapter for which it will not otherwise receive adequate compensation or revenues; or
- (2) will suffer a tax loss or lapse in place of which it will not receive any other adequate revenues until the new governmental entities contemplated by this subchapter are receiving their normal taxes and performing their normal functions.

(c) Payments for special burdens

Payments made under this section shall be payments made for special burdens imposed on the local governmental entities in accordance with the second sentence of section 2208 of this title. Payments may be made under this section notwithstanding the provisions of the Act of September 30, 1950 ¹ (Public Law 874, Eighty-first Congress), as amended.

(d) Recommendation for further assistance payments

With respect to any entity not less than six months prior to the expiration of the ten-year period referred to in subsection (a) (or not less than six months prior to June 30, 1979, in the case of the cities of Oak Ridge, Tennessee, and Richland, Washington, and the Richland School District; or not

less than six months prior to June 30, 1986, in the case of Anderson County and Roane County, Tennessee; or not later than June 30, 1996, in the case of the Los Alamos School Board and the county of Los Alamos, New Mexico), the Administrator shall present to the appropriate committees of the House of Representatives and the Senate recommendations as to the need for any further assistance payments to such entity. If the recommendation under the preceding sentence regarding the Los Alamos School Board or the county of Los Alamos, New Mexico, indicates a need for further assistance for the school board or the county, as the case may be, after June 30, 1997, the recommendation shall include a report and plan describing the actions required to eliminate the need for further assistance for the school board or the county, including a proposal for legislative action to carry out the plan.

(e) Reduction or termination of assistance payments; determination by Administrator of financial self-sufficiency

In exercising the authority of subsection (a) the Administrator shall assure that the governmental or other entities receiving assistance hereunder utilize all reasonable, available means to achieve financial self-sufficiency to the end that assistance payments by the Administrator may be reduced or terminated at the earliest practical time.

CHAPTER 31—PUBLIC WORKS ACCELERATION PROGRAM

Sec.

- 2641. Congressional declaration of purpose.
- 2642. Acceleration of public works.
- 2643. Increase of State or local expenditures.

§2641. Congressional declaration of purpose

(a) The Congress finds that (1) certain communities and areas in the Nation are presently burdened by substantial unemployment and underemployment and have failed to share fully in the economic gains of the recovery from the recession of 1960–1961 and (2) action by the Federal Government is necessary, both to provide immediate useful work for the unemployed and underemployed in these communities and to help these communities, through improvement of their facilities, to become more conducive to industrial development and better places in which to live and work. The Nation has a backlog of needed public projects, and an acceleration of these projects now will not only increase employment at a time when jobs are urgently required but will also meet longstanding public needs, improve community services, and enhance the health and welfare of citizens of the Nation.

(b) The Congress further finds that Federal assistance to stimulate public works investment in order to increase employment opportunities is most urgently needed in those areas, both urban and rural, which qualify as redevelopment areas because they suffer from persistent and chronic unemployment and economic underdevelopment, as well as in other areas which have suffered from substantial unemployment for a period of at least twelve months.

STATUTORY NOTES AND RELATED SUBSIDIARIES

SHORT TITLE

Pub. L. 87–658, §1, Sept. 14, 1962, 76 Stat. 541, provided: "That this Act [enacting this chapter and amending section 462 of former Title 40, Public Buildings, Property, and Works, and section 1492 of this title] may be cited as the 'Public Works Acceleration Act'."

§2642. Acceleration of public works

(a) Eligible areas

For the purposes of this section the term "eligible area" means—

- (1) those areas which the Secretary of Labor designates each month as having been areas of substantial unemployment for at least nine of the preceding twelve months; and
- (2) those areas which are designated by the Secretary of Commerce under subsections (a) and (b) of section 2504 of this title as "redevelopment areas".

(b) Authority to initiate and accelerate projects; allocation of funds

The President is authorized to initiate and accelerate in eligible areas those Federal public works projects which have been authorized by Congress, and those public works projects of States and local governments for which Federal financial assistance is authorized under provisions of law other than this chapter, by allocating funds appropriated to carry out this section—

- (1) to the heads of the departments, agencies, and instrumentalities of the Federal Government responsible for the construction of Federal public works projects, and
- (2) to the heads of the departments, agencies, and instrumentalities of the Federal Government responsible for the administration of laws authorizing Federal financial assistance to public works projects of State and local governments.

(c) Grants-in-aid; law governing; amount of Federal contributions

All grants-in-aid made from allocations made by the President under this section shall be made by the head of the department, agency, or instrumentality of the Federal Government administering the law authorizing such grants, and, except as otherwise provided in this subsection, shall be made in accordance with all of the provisions of such law except (1) provisions requiring allocation of funds among the States, and (2) limitations upon the total amount of such grants for any period.

Notwithstanding any provisions of such law requiring the Federal contribution to the State or local government involved to be less than a fixed portion of the cost of a project, grants-in-aid may be

made under authority of this section which bring the total of all Federal contributions to such project up to 50 per centum of the cost of such project, or up to 75 per centum of the cost of such project if the State or local government does not have economic and financial capacity to assume all of the additional financial obligations required.

(d) Authorization of appropriations

There is authorized to be appropriated not to exceed \$900,000,000 to be allocated by the President in accordance with subsection (b) of this section, except that not less than \$300,000,000 shall be allocated for public works projects in areas designated by the Secretary of Commerce as redevelopment areas under subsection (b) of section 2504 of this title.

(e) Rules and regulations; considerations

The President shall prescribe rules, regulations, and procedures to carry out this section which will assure that adequate consideration is given to the relative needs of eligible areas. In prescribing such rules, regulations, and procedures the President shall consider among other relevant factors (1) the severity of the rates of unemployment in the eligible areas and the duration of such unemployment and (2) the income levels of families and the extent of underemployment in eligible areas.

(f) Restrictions on allocated funds

Funds allocated by the President under this section shall be available only for projects—
(1) which can be initiated or accelerated within a reasonably short period of time;
(2) which will meet an essential public need;
(3) a substantial portion of which can be completed within twelve months after initiation or acceleration;
(4) which will contribute significantly to the reduction of local unemployment;
(5) which are not inconsistent with locally approved comprehensive plans for the jurisdiction affected, wherever such plans exist.

(g) Limit on allocations available for projects in any one State

Not more than 10 per centum of all amounts allocated by the President under this section shall be made available for public works projects within any one State.

(h) Criteria determining substantial unemployment

The criteria to be used by the Secretary of Labor in determining areas of substantial unemployment for the purposes of paragraph (1) of subsection (a) of this section shall be the criteria established in section 6.3 of title 29 of the Code of Federal Regulations as in effect May 1, 1962.

§2651. Recovery by United States

(a) Conditions; exceptions; persons liable; amount of recovery; subrogation; assignment

In any case in which the United States is authorized or required by law to furnish or pay for hospital, medical, surgical, or dental care and treatment (including prostheses and medical appliances) to a person who is injured or suffers a disease, after the effective date of this Act, under circumstances creating a tort liability upon some third person (other than or in addition to the United States and except employers of seamen treated under the provisions of section 249 of this title) to pay damages therefor, the United States shall have a right to recover (independent of the rights of the injured or diseased person) from said third person, or that person's insurer, the reasonable value of the care and treatment so furnished, to be furnished, paid for, or to be paid for and shall, as to this right be subrogated to any right or claim that the injured or diseased person, his guardian, personal representative, estate, dependents, or survivors has against such third person to the extent of the reasonable value of the care and treatment so furnished, to be furnished, paid for, or to be paid for. The head of the department or agency of the United States furnishing such care or treatment may also require the injured or diseased person, his guardian, personal representative, estate, dependents, or survivors, as appropriate, to assign his claim or cause of action against the third person to the extent of that right or claim.

(b) Recovery of cost of pay for member of uniformed services unable to perform duties

If a member of the uniformed services is injured, or contracts a disease, under circumstances creating a tort liability upon a third person (other than or in addition to the United States and except employers of seamen referred to in subsection (a)) for damages for such injury or disease and the member is unable to perform the member's regular military duties as a result of the injury or disease, the United States shall have a right (independent of the rights of the member) to recover from the third person or an insurer of the third person, or both, the amount equal to the total amount of the pay that accrues and is to accrue to the member for the period for which the member is unable to perform such duties as a result of the injury or disease and is not assigned to perform other military duties.

(c) United States deemed third party beneficiary under alternative system of compensation

(1) If, pursuant to the laws of a State that are applicable in a case of a member of the uniformed services who is injured or contracts a disease as a result of tortious conduct of a third person, there is in effect for such a case (as a substitute or alternative for compensation for damages through tort liability) a system of compensation or reimbursement for expenses of hospital, medical, surgical, or dental care and treatment or for lost pay pursuant to a policy of insurance, contract, medical or hospital service agreement, or similar arrangement, the United States shall be deemed to be a third-party beneficiary of such a policy, contract, agreement, or arrangement.

(2) For the purposes of paragraph (1)—

(A) the expenses incurred or to be incurred by the United States for care and treatment for an injured or diseased member as described in subsection (a) shall be deemed to have been incurred by the member;

(B) the cost to the United States of the pay of the member as described in subsection (b) shall be deemed to have been pay lost by the member as a result of the injury or disease; and

(C) the United States shall be subrogated to any right or claim that the injured or diseased member or the member's guardian, personal representative, estate, dependents, or survivors have under a policy, contract, agreement, or arrangement referred to in paragraph (1) to the extent of the reasonable value of the care and treatment and the total amount of the pay deemed lost under subparagraph (B).

(d) Enforcement procedure; intervention; joinder of parties; State or Federal court proceedings

The United States may, to enforce a right under subsections (a), (b), and (c) (1) intervene or join in any action or proceeding brought by the injured or diseased person, his guardian, personal representative, estate, dependents, or survivors, against the third person who is liable for the injury or disease or the insurance carrier or other entity responsible for the payment or reimbursement of medical expenses or lost pay; or (2) if such action or proceeding is not commenced within six months after the first day in which care and treatment is furnished or paid for by the United States in connection with the injury or disease involved, institute and prosecute legal proceedings against the third person who is liable for the injury or disease or the insurance carrier or other entity responsible for the payment or reimbursement of medical expenses or lost pay, in a State or Federal court, either alone (in its own name or in the name of the injured person, his guardian, personal representative, estate, dependents, or survivors) or in conjunction with the injured or diseased person, his guardian, personal representative, estate, dependents, or survivors.

(e) Veterans' exception

The provisions of this section shall not apply with respect to hospital, medical, surgical, or dental care and treatment (including prostheses and medical appliances) furnished by the Department of Veterans Affairs to an eligible veteran for a service-connected disability under the provisions of chapter 17 of title 38.

(f) Crediting of amounts recovered

(1) Any amount recovered under this section for medical care and related services furnished by a military medical treatment facility or similar military activity shall be credited to the appropriation or appropriations supporting the operation of that facility or activity, as determined under regulations prescribed by the Secretary of Defense.

(2) Any amount recovered under this section for the cost to the United States of pay of an injured or diseased member of the uniformed services shall be credited to the appropriation that supports the operation of the command, activity, or other unit to which the member was assigned at the time of the injury or illness, as determined under regulations prescribed by the Secretary concerned.

ALASKA FEDERATION OF NATIVES' STUDY AND REPORT WITH PROPOSALS TO IMPLEMENT RECOMMENDATIONS OF ALASKA NATIVES COMMISSION

Pub. L. 104–270, Oct. 9, 1996, 110 Stat. 3301, provided that:

"SECTION 1. CONGRESSIONAL FINDINGS AND DECLARATION OF POLICY.

"The Congress finds and declares the following:

"(1) The Joint Federal-State Commission on Policies and Programs Affecting Alaska Natives (hereafter in this Act referred to as the 'Alaska Natives Commission') was established by Public Law 101-379 (42 U.S.C. 2991a note) following the publication in 1989 of the 'Report on the Status of Alaska Natives: A Call for Action' by the Alaska Federation of Natives and after extensive congressional hearings which focused on the need for the first comprehensive assessment of the social, cultural, and economic condition of Alaska's 86,000 Natives since the enactment of the Alaska Native Claims Settlement Act, Public Law 92-203 [43 U.S.C. 1601 et seq.].

"(2) The 14-member Alaska Natives Commission held 15 regional hearings throughout Alaska between July 1992 and October 1993, and 2 statewide hearings in Anchorage coinciding with the Conventions of 1992 and 1993 of the Alaska Federation of Natives. In May 1994, the Alaska Natives Commission issued its 3 volume, 440 page report. As required by Public Law 101-379, the report was formally conveyed to the Congress, the President of the United States, and the Governor of Alaska.

"(3) The Alaska Natives Commission found that many Alaska Native individuals, families, and communities were experiencing a social, cultural, and economic crisis marked by rampant unemployment, lack of economic opportunity, alcohol abuse, depression, and morbidity and mortality rates that have been described by health care professionals as 'staggering'.

"(4) The Alaska Natives Commission found that due to the high rate of unemployment and lack of economic opportunities for Alaska Natives, government programs for the poor have become the foundation of many village economies. Displacing traditional Alaska Native social safety nets, these well-meaning programs have undermined the healthy interdependence and self-sufficiency of Native tribes and families and have put Native tribes and families at risk of becoming permanent dependencies of Government.

"(5) Despite these seemingly insurmountable problems, the Alaska Natives Commission found that Alaska Natives, building on the Alaska Native Claims Settlement Act, had begun a unique process of critical self-examination which, if supported by the United States Congress through innovative legislation, and effective public administration at all levels including traditional Native governance, could provide the basis for an Alaska Native social, cultural, economic, and spiritual renewal.

"(6) The Alaska Natives Commission recognized that the key to the future well-being of Alaska Natives lay in—

"(A) the systematic resumption of responsibility by Alaska Natives for the well-being of their members,

"(B) the strengthening of their economies,

"(C) the strengthening, operation, and control of their systems of governance, social services, education, health care, and law enforcement, and

"(D) exercising rights they have from their special relationship with the Federal Government and as citizens of the United States and Alaska.

"(7) The Alaska Natives Commission recognized that the following 3 basic principles must be respected in addressing the myriad of problems facing Alaska Natives:

"(A) Self-reliance.

"(B) Self-determination.

"(C) Integrity of Native cultures.

"(8) There is a need to address the problems confronting Alaska Natives. This should be done rapidly, with certainty, and in conformity with the real economic, social, and cultural needs of Alaska Natives.

"(9) Congress retains and has exercised its constitutional authority over Native affairs in Alaska subsequent to the Treaty of Cession and does so now through this Act.

"SEC. 2. ALASKA NATIVE IMPLEMENTATION STUDY.

"(a) FINDINGS.—The Congress finds and declares that—

"(1) the Alaska Natives Commission adopted certain recommendations raising important policy questions which are unresolved in Alaska and which require further study and review before Congress considers legislation to implement solutions to address these recommendations; and

"(2) the Alaska Federation of Natives is the representative body of statewide Alaska Native interests best suited to further investigate and report to Congress with proposals to implement the recommendations of the Alaska Natives Commission.

"(b) GRANT.—The Secretary of Health and Human Services shall make a grant to the Alaska Federation of Natives to conduct the study and submit the report required by this section. Such grant may only be made if the Alaska Federation of Natives agrees to abide by the requirements of this section.

"(c) STUDY.—Pursuant to subsection (b), the Alaska Federation of Natives shall—

"(1) examine the recommendations of the Alaska Natives Commission;

"(2) examine initiatives in the United States, Canada, and elsewhere for successful ways that issues similar to the issues addressed by the Alaska Natives Commission have been addressed;

"(3) conduct hearings within the Alaska Native community on further ways in which the Commission's recommendations might be implemented; and

"(4) recommend enactment of specific provisions of law and other actions the Congress should take to implement such recommendations.

"(d) CONSIDERATION OF LOCAL CONTROL.—In developing its recommendations pursuant to subsection (c)(4), the Alaska Federation of Natives shall give specific attention to the ways in which the recommendations may be achieved at the local level with maximum local control of the implementation of the recommendations.

"(e) REPORT.—Not later than 12 months after the date on which the grant is made under subsection (b), the Alaska Federation of Natives shall submit a report on the study conducted under this section, together with the recommendations developed pursuant to subsection (c)(4), to the President and the Congress and to the Governor and legislature of the State of Alaska. In addition, the Alaska Federation of Natives shall make the report available to Alaska Native villages and organizations and to the general public.

"(f) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated \$350,000 for the grant under subsection (b).

"(g) ADDITIONAL STATE FUNDING.—The Congress encourages the State of Alaska to provide the additional funding necessary for the completion of the study under this section."

ALASKA NATIVES COMMISSION

Pub. L. 101–379, §12, Aug. 18, 1990, 104 Stat. 478, established a Joint Federal-State Commission on Policies and Programs Affecting Alaska Natives to conduct a comprehensive review of Federal and State policies and programs affecting Alaska Natives in order to identify specific actions that could be taken to help assure that public policy goals were more fully realized among Alaska Natives, further provided for membership, meetings, and other administrative affairs of the Commission, as well as specific powers and duties, further directed the Commission to submit, by no later than 18 months after its first meeting, a report with recommendations to the President, the Congress, the Governor of Alaska, and the legislature of the State of Alaska, and further provided for funding as well as termination of the Commission 180 days after the date of submission of its report.

The Commission ceased to exist upon the expiration of the 60-day period following the submission of its final report.

(a) Authorization for financial assistance to public and nonprofit agencies; consultation with other Federal agencies to avoid duplication

The Commissioner is authorized to provide financial assistance, on a single year or multiyear basis, to public and nonprofit private agencies, including but not limited to, governing bodies of Indian Tribes on Federal and State reservations, Alaska Native villages and regional corporations established by the Alaska Native Claims Settlement Act [43 U.S.C. 1601 et seq.], and such public and nonprofit private agencies serving Native Hawaiians, and Indian and Alaska Native organizations in urban or rural areas that are not Indian reservations or Alaska Native villages, for projects pertaining to the purposes of this subchapter. The Commissioner is authorized to provide financial assistance to public and nonprofit private agencies serving other Native American Pacific Islanders (including American Samoan Natives) for projects pertaining to the purposes of this Act. In determining the projects to be assisted under this subchapter, the Commissioner shall consult with other Federal agencies for the purpose of eliminating duplication or conflict among similar activities or projects and for the purpose of determining whether the findings resulting from those projects may

be incorporated into one or more programs for which those agencies are responsible. Every determination made with respect to a request for financial assistance under this section shall be made without regard to whether the agency making such request serves, or the project to be assisted is for the benefit of, Indians who are not members of a federally recognized Tribe. To the greatest extent practicable, the Commissioner shall ensure that each project to be assisted under this subchapter is consistent with the priorities established by the agency which receives such assistance.

(b) Economic development

(1) In general

The Commissioner may provide assistance under subsection (a) for projects relating to the purposes of this subchapter to a Native community development financial institution, as defined by the Secretary of the Treasury.

(2) Priority

With regard to not less than 50 percent of the total amount available for assistance under this section, the Commissioner shall give priority to any application seeking assistance for—

(A) the development of a Tribal code or court system for purposes of economic development, including commercial codes, training for court personnel, regulation pursuant to section 261 of title 25, and the development of nonprofit subsidiaries or other Tribal business structures;

(B) the development of a community development financial institution, including training and administrative expenses; or

(C) the development of a Tribal master plan for community and economic development and infrastructure.

(c) Limitations of financial assistance; exceptions; non-Federal contributions

Financial assistance extended to an agency under this subchapter shall not exceed 80 per centum of the approved costs of the assisted project, except that the Commissioner may approve assistance in excess of such percentage if the Commissioner determines, in accordance with regulations establishing objective criteria, that such action is required in furtherance of the purposes of this subchapter. Non-Federal contributions may be in cash or in kind, fairly evaluated, including but not limited to plant, equipment, and services. The Commissioner shall not require non-Federal contributions in excess of 20 per centum of the approved costs of programs or activities assisted under this subchapter.

(d) Assistance as addition to, and not substitution for, activities previously carried out without Federal assistance; waiver; nonreservation areas

(1) No project shall be approved for assistance under this subchapter unless the Commissioner is satisfied that the activities to be carried out under such project will be in addition to, and not in substitution for, comparable activities previously carried out without Federal assistance, except that the Commissioner may waive this requirement in any case in which the Commissioner determines, in accordance with regulations establishing objective criteria, that application of the requirement would result in unnecessary hardship or otherwise be inconsistent with the purposes of this subchapter.

(2) No project may be disapproved for assistance under this subchapter solely because the agency requesting such assistance is an Indian organization in a nonreservation area or serves Indians in a nonreservation area.

(e) Grants to improve Tribal regulation of environmental quality

(1) The Commissioner shall award grants to Indian Tribes for the purpose of funding 80 percent of the costs of planning, developing, and implementing programs designed to improve the capability of the governing body of the Indian Tribe to regulate environmental quality pursuant to Federal and Tribal environmental laws.

(2) The purposes for which funds provided under any grant awarded under paragraph (1) may be used include, but are not limited to—

(A) the training and education of employees responsible for enforcing, or monitoring compliance with, environmental quality laws,

- (B) the development of Tribal laws on environmental quality, and
- (C) the enforcement and monitoring of environmental quality laws.

(3) The 20 percent of the costs of planning, developing, and implementing a program for which a grant is awarded under paragraph (1) that are not to be paid from such grant may be paid by the grant recipient in cash or through the provision of property or services, but only to the extent that such cash or property is from any source (including any Federal agency) other than a program, contract, or grant authorized under this subchapter.

(4) Grants shall be awarded under paragraph (1) on the basis of applications that are submitted by Indian Tribes to the Commissioner in such form as the Commissioner shall prescribe.

The Congress finds and declares that—

(1) there is a need to provide equal access to the system of justice in our Nation for individuals who seek redress of grievances;

(2) there is a need to provide high quality legal assistance to those who would be otherwise unable to afford adequate legal counsel and to continue the present vital legal services program;

(4) for many of our citizens, the availability of legal services has reaffirmed faith in our government of laws;

(5) to preserve its strength, the legal services program must be kept free from the influence or use by it of political pressures; and

(6) attorneys providing legal assistance must have full freedom to protect the best interests of their clients in keeping with the Code of Professional Responsibility, the Canons of Ethics, and the high standards of the legal profession.

(C) insure that (i) recipients, consistent with goals established by the Corporation, adopt procedures for determining and implementing priorities for the provision of such assistance, taking into account the relative needs of eligible clients for such assistance (including such outreach, training, and support services as may be necessary), including particularly the needs for service on the part of significant segments of the population of eligible clients with special difficulties of access to legal services or special legal problems (including elderly and handicapped individuals); and (ii) appropriate training and support services are provided in order to provide such assistance to such significant segments of the population of eligible clients;

(A) representation by an employee of a recipient for any eligible client is necessary to the provision of legal advice and representation with respect to such client's legal rights and responsibilities (which shall not be construed to permit an attorney or a recipient employee to solicit a client, in violation of professional responsibilities, for the purpose of making such representation possible); or

(B) a governmental agency, legislative body, a committee, or a member thereof—

(i) requests personnel of the recipient to testify, draft, or review measures or to make representations to such agency, body, committee, or member, or

The Congress finds that millions of older citizens in this Nation are suffering unnecessary harm

from the lack of adequate services. It is therefore the purpose of this Act, in support of the objectives of the Older Americans Act of 1965 [42 U.S.C. 3001 et seq.], to—

(1) make available comprehensive programs which include a full range of health, education, and supportive services to our older citizens who need them,

(2) give full and special consideration to older citizens with special needs in planning such programs, and, pending the availability of such programs for all older citizens, give priority to the elderly with the greatest economic and social need.

(3) provide comprehensive programs which will assure the coordinated delivery of a full range of essential services to our older citizens, and, where applicable, also furnish meaningful employment opportunities for many individuals, including older persons, young persons, and volunteers from the community, and

§3024. Allotment to States

(a) In general

(1) From the sums appropriated under subsections (a) through (d) of section 3023 of this title for each fiscal year, each State shall be allotted an amount which bears the same ratio to such sums as the population of older individuals in such State bears to the population of older individuals in all States.

(2) In determining the amounts allotted to States from the sums appropriated under section 3023 of this title for a fiscal year, the Assistant Secretary shall first determine the amount allotted to each State under paragraph (1) and then proportionately adjust such amounts, if necessary, to meet the requirements of paragraph (3).

(3)(A) No State shall be allotted less than $\frac{1}{2}$ of 1 percent of the sum appropriated for the fiscal year for which the determination is made.

(B) Guam and the United States Virgin Islands shall each be allotted not less than $\frac{1}{4}$ of 1 percent of the sum appropriated for the fiscal year for which the determination is made.

(C) American Samoa and the Commonwealth of the Northern Mariana Islands shall each be allotted not less than $\frac{1}{16}$ of 1 percent of the sum appropriated for the fiscal year for which the determination is made. For the purposes of the exception contained in subparagraph (A) only, the term "State" does not include Guam, American Samoa, the United States Virgin Islands, and the Commonwealth of the Northern Mariana Islands.

(D)(i) In this subparagraph and paragraph (5)—

(I) the term "allot" means allot under this subsection from a sum appropriated under section 3023(a) or 3023(b)(1) of this title, as the case may be; and

(II) the term "covered fiscal year" means any of fiscal years 2020 through 2029.

(ii) If the sum appropriated under section 3023(a) or 3023(b)(1) of this title for a particular

covered fiscal year is less than or equal to the sum appropriated under section 3023(a) or 3023(b)(1) of this title, respectively, for fiscal year 2019, amounts shall be allotted to States from the sum appropriated for the particular year in accordance with paragraphs (1) and (2), and subparagraphs (A) through (C) as applicable, but no State shall be allotted an amount that is less than—

- (I) for fiscal year 2020, 99.75 percent of the State's allotment from the corresponding sum appropriated for fiscal year 2019;
- (II) for fiscal year 2021, 99.50 percent of that allotment;
- (III) for fiscal year 2022, 99.25 percent of that allotment;
- (IV) for fiscal year 2023, 99.00 percent of that allotment;
- (V) for fiscal year 2024, 98.75 percent of that allotment;
- (VI) for fiscal year 2025, 98.50 percent of that allotment;
- (VII) for fiscal year 2026, 98.25 percent of that allotment;
- (VIII) for fiscal year 2027, 98.00 percent of that allotment;
- (IX) for fiscal year 2028, 97.75 percent of that allotment; and
- (X) for fiscal year 2029, 97.50 percent of that allotment.

(iii) If the sum appropriated under section 3023(a) or 3023(b)(1) of this title for a particular covered fiscal year is greater than the sum appropriated under section 3023(a) or 3023(b)(1) of this title, respectively, for fiscal year 2019, the allotments to States from the sum appropriated for the particular year shall be calculated as follows:

(I) From the portion equal to the corresponding sum appropriated for fiscal year 2019, amounts shall be allotted in accordance with paragraphs (1) and (2), and subparagraphs (A) through (C) as applicable, but no State shall be allotted an amount that is less than the percentage specified in clause (ii), for that particular year, of the State's allotment from the corresponding sum appropriated for fiscal year 2019.

(II) From the remainder, amounts shall be allotted in accordance with paragraph (1), subparagraphs (A) through (C) as applicable, and paragraph (2) to the extent needed to meet the requirements of those subparagraphs.

(4) The number of individuals aged 60 or older in any State and in all States shall be determined by the Assistant Secretary on the basis of the most recent data available from the Bureau of the Census, and other reliable demographic data satisfactory to the Assistant Secretary.

(5) State allotments for a fiscal year under this section shall be proportionally reduced to the extent that appropriations may be insufficient to provide the full allotments as required by paragraph (3).

(b) Unused funds

Whenever the Assistant Secretary determines that any amount allotted to a State under part B or C, or part E, for a fiscal year under this section will not be used by such State for carrying out the purpose for which the allotment was made, the Assistant Secretary shall make such allotment available for carrying out such purpose to one or more other States to the extent the Assistant Secretary determines that such other States will be able to use such additional amount for carrying out such purpose. Any amount made available to a State from an appropriation for a fiscal year in accordance with the preceding sentence shall, for purposes of this subchapter, be regarded as part of such State's allotment (as determined under subsection (a)) for such year, but shall remain available until the end of the succeeding fiscal year.

(c) Withholding of funds; disbursement

If the Assistant Secretary finds that any State has failed to qualify under the State plan requirements of section 3027 of this title or the Assistant Secretary does not approve the funding formula required under section 3025(a)(2)(C) of this title, the Assistant Secretary shall withhold the allotment of funds to such State referred to in subsection (a). The Assistant Secretary shall disburse the funds so withheld directly to any public or private nonprofit institution or organization, agency,

or political subdivision of such State submitting an approved plan under section 3027 of this title, which includes an agreement that any such payment shall be matched in the proportion determined under subsection (d)(1)(D) for such State, by funds or in-kind resources from non-Federal sources.

(d) Costs of administration, ombudsman program, demonstration projects, supportive services, senior centers and nutrition services; payment and determination of non-Federal share

(1) From any State's allotment, after the application of section 3028(b) of this title, under this section for any fiscal year—

(A) such amount as the State agency determines, but not more than 10 percent thereof, shall be available for paying such percentage as the agency determines, but not more than 75 percent, of the cost of administration of area plans;

(B) such amount as the State agency determines to be adequate for conducting an effective ombudsman program under section 3027(a)(9) of this title shall be available for conducting such program;

(C) not less than \$150,000 and not more than 4 percent of the amount allotted to the State for carrying out part B, shall be available for conducting outreach demonstration projects under section 3058e of this title; and

(D) the remainder of such allotment shall be available to such State only for paying such percentage as the State agency determines, but not more than 85 percent of the cost of supportive services, senior centers, and nutrition services under this subchapter provided in the State as part of a comprehensive and coordinated system in planning and service areas for which there is an area plan approved by the State agency.

(2) The non-Federal share shall be in cash or in kind. In determining the amount of the non-Federal share, the Assistant Secretary may attribute fair market value to services and facilities contributed from non-Federal sources.

§3025. Designation of State agencies

(a) Duties of designated agency

In order for a State to be eligible to participate in programs of grants to States from allotments under this subchapter—

(1) the State shall, in accordance with regulations of the Assistant Secretary, designate a State agency as the sole State agency to—

(A) develop a State plan to be submitted to the Assistant Secretary for approval under section 3027 of this title;

(B) administer the State plan within such State;

(C) be primarily responsible for the planning, policy development, administration, coordination, priority setting, and evaluation of all State activities related to the objectives of this chapter;

(D) serve as an effective and visible advocate for older individuals by reviewing and commenting upon all State plans, budgets, and policies which affect older individuals and providing technical assistance to any agency, organization, association, or individual representing the needs of older individuals; and

(E) divide the State into distinct planning and service areas (or in the case of a State specified in subsection (b)(5)(A), designate the entire State as a single planning and service area), in accordance with guidelines issued by the Assistant Secretary, after considering the geographical distribution of older individuals in the State, the incidence of the need for supportive services, nutrition services, multipurpose senior centers, and legal assistance, the distribution of older individuals who have greatest economic need (with particular attention to low-income older individuals, including low-income minority older individuals, older individuals with limited English proficiency, and older individuals residing in rural areas) residing in such areas, the distribution of older individuals who have greatest social need (with particular attention to low-income older individuals, including low-income minority older individuals, older individuals with limited English proficiency, and older individuals residing in rural areas) residing in such areas, the distribution of older individuals who are Indians residing in such areas, the distribution of resources available to provide such services or centers, the boundaries of existing areas within the State which were drawn for the planning or administration of supportive services programs, the location of units of general purpose local government within the State, and any other relevant factors;

(2) the State agency shall—

(A) except as provided in subsection (b)(5), designate for each such area after consideration of the views offered by the unit or units of general purpose local government in such area, a public or private nonprofit agency or organization as the area agency on aging for such area;

(B) provide assurances, satisfactory to the Assistant Secretary, that the State agency will take into account, in connection with matters of general policy arising in the development and administration of the State plan for any fiscal year, the views of recipients of supportive

services or nutrition services, or individuals using multipurpose senior centers provided under such plan;

(C) in consultation with area agencies, in accordance with guidelines issued by the Assistant Secretary, and using the best available data, develop and publish for review and comment a formula for distribution within the State of funds received under this subchapter that takes into account—

(i) the geographical distribution of older individuals in the State; and

(ii) the distribution among planning and service areas of older individuals with greatest economic need and older individuals with greatest social need, with particular attention to low-income minority older individuals;

(D) submit its formula developed under subparagraph (C) to the Assistant Secretary for approval;

(E) provide assurances that preference will be given to providing services to older individuals with greatest economic need and older individuals with greatest social need (with particular attention to low-income older individuals, including low-income minority older individuals, older individuals with limited English proficiency, and older individuals residing in rural areas), and include proposed methods of carrying out the preference in the State plan;

(F) provide assurances that the State agency will require use of outreach efforts described in section 3027(a)(16) of this title; and

(G)(i) set specific objectives, in consultation with area agencies on aging, for each planning and service area for providing services funded under this subchapter to low-income minority older individuals and older individuals residing in rural areas;

(ii) provide an assurance that the State agency will undertake specific program development, advocacy, and outreach efforts focused on the needs of low-income minority older individuals and older individuals residing in rural areas; and

(iii) provide a description of the efforts described in clause (ii) that will be undertaken by the State agency; and

(3) the State agency shall, consistent with this section, promote the development and implementation of a State system of long-term care that is a comprehensive, coordinated system that enables older individuals to receive long-term care in home and community-based settings, in a manner responsive to the needs and preferences of the older individuals and their family caregivers, by—

(A) collaborating, coordinating, and consulting with other agencies in such State responsible for formulating, implementing, and administering programs, benefits, and services related to providing long-term care;

(B) participating in any State government activities concerning long-term care, including reviewing and commenting on any State rules, regulations, and policies related to long-term care;

(C) conducting analyses and making recommendations with respect to strategies for modifying the State system of long-term care to better—

(i) respond to the needs and preferences of older individuals and family caregivers;

(ii) facilitate the provision, by service providers, of long-term care in home and community-based settings; and

(iii) target services to individuals at risk for institutional placement, to permit such individuals to remain in home and community-based settings;

(D) implementing (through area agencies on aging, service providers, and such other entities as the State determines to be appropriate) evidence-based programs to assist older individuals and their family caregivers in learning about and making behavioral changes intended to reduce the risk of injury, disease, and disability among older individuals; and

(E) providing for the availability and distribution (through public education campaigns,

Aging and Disability Resource Centers, area agencies on aging, and other appropriate means) of information relating to—

- (i) the need to plan in advance for long-term care; and
- (ii) the full range of available public and private long-term care (including integrated long-term care) programs, options, service providers, and resources.

(b) Planning and service areas

(1) In carrying out the requirement of subsection (a)(1), the State may designate as a planning and service area any unit of general purpose local government which has a population of 100,000 or more. In any case in which a unit of general purpose local government makes application to the State agency under the preceding sentence to be designated as a planning and service area, the State agency shall, upon request, provide an opportunity for a hearing to such unit of general purpose local government. A State may designate as a planning and service area under subsection (a)(1), any region within the State recognized for purposes of areawide planning which includes one or more such units of general purpose local government when the State determines that the designation of such a regional planning and service area is necessary for, and will enhance, the effective administration of the programs authorized by this subchapter. The State may include in any planning and service area designated under subsection (a)(1) such additional areas adjacent to the unit of general purpose local government or regions so designated as the State determines to be necessary for, and will enhance the effective administration of the programs authorized by this subchapter.

(2) The State is encouraged in carrying out the requirement of subsection (a)(1) to include the area covered by the appropriate economic development district involved in any planning and service area designated under subsection (a)(1), and to include all portions of an Indian reservation within a single planning and service area, if feasible.

(3) The chief executive officer of each State in which a planning and service area crosses State boundaries, or in which an interstate Indian reservation is located, may apply to the Assistant Secretary to request redesignation as an interstate planning and service area comprising the entire metropolitan area or Indian reservation. If the Assistant Secretary approves such an application, the Assistant Secretary shall adjust the State allotments of the areas within the planning and service area in which the interstate planning and service area is established to reflect the number of older individuals within the area who will be served by an interstate planning and service area not within the State.

(4) Whenever a unit of general purpose local government, a region, a metropolitan area or an Indian reservation is denied designation under the provisions of subsection (a)(1), such unit of general purpose local government, region, metropolitan area, or Indian reservation may appeal the decision of the State agency to the Assistant Secretary. The Assistant Secretary shall afford such unit, region, metropolitan area, or Indian reservation an opportunity for a hearing. In carrying out the provisions of this paragraph, the Assistant Secretary may approve the decision of the State agency, disapprove the decision of the State agency and require the State agency to designate the unit, region, area, or Indian reservation appealing the decision as a planning and service area, or take such other action as the Assistant Secretary deems appropriate.

(5)(A) A State which on or before October 1, 1980, had designated, with the approval of the Assistant Secretary, a single planning and service area covering all of the older individuals in the State, in which the State agency was administering the area plan, may after that date designate one or more additional planning and service areas within the State to be administered by public or private nonprofit agencies or organizations as area agencies on aging, after considering the factors specified in subsection (a)(1)(E). The State agency shall continue to perform the functions of an area agency on aging for any area of the State not included in a planning and service area for which an area agency on aging has been designated.

(B) Whenever a State agency designates a new area agency on aging after October 9, 1984, the State agency shall give the right to first refusal to a unit of general purpose local government if (i) such unit can meet the requirements of subsection (c), and (ii) the boundaries of such a unit and the boundaries of the area are reasonably contiguous.

(C)(i) A State agency shall establish and follow appropriate procedures to provide due process to

affected parties, if the State agency initiates an action or proceeding to—

- (I) revoke the designation of the area agency on aging under subsection (a);
- (II) designate an additional planning and service area in a State;
- (III) divide the State into different planning and service areas; or
- (IV) otherwise affect the boundaries of the planning and service areas in the State.

(ii) The procedures described in clause (i) shall include procedures for—

- (I) providing notice of an action or proceeding described in clause (i);
- (II) documenting the need for the action or proceeding;
- (III) conducting a public hearing for the action or proceeding;
- (IV) involving area agencies on aging, service providers, and older individuals in the action or proceeding; and
- (V) allowing an appeal of the decision of the State agency in the action or proceeding to the Assistant Secretary.

(iii) An adversely affected party involved in an action or proceeding described in clause (i) may bring an appeal described in clause (ii)(V) on the basis of—

- (I) the facts and merits of the matter that is the subject of the action or proceeding; or
- (II) procedural grounds.

(iv) In deciding an appeal described in clause (ii)(V), the Assistant Secretary may affirm or set aside the decision of the State agency. If the Assistant Secretary sets aside the decision, and the State agency has taken an action described in subclauses (I) through (III) of clause (i), the State agency shall nullify the action.

(c) Eligible State area agencies; development of area; preferred area agency on aging designees

An area agency on aging designated under subsection (a) shall be—

- (1) an established office of aging which is operating within a planning and service area designated under subsection (a);
- (2) any office or agency of a unit of general purpose local government, which is designated to function only for the purpose of serving as an area agency on aging by the chief elected official of such unit;
- (3) any office or agency designated by the appropriate chief elected officials of any combination of units of general purpose local government to act only on behalf of such combination for such purpose;
- (4) any public or nonprofit private agency in a planning and service area, or any separate organizational unit within such agency, which is under the supervision or direction for this purpose of the designated State agency and which can and will engage only in the planning or provision of a broad range of supportive services, or nutrition services within such planning and service area; or
- (5) in the case of a State specified in subsection (b)(5), the State agency;

and shall provide assurance, determined adequate by the State agency, that the area agency on aging will have the ability to develop an area plan and to carry out, directly or through contractual or other arrangements, a program in accordance with the plan within the planning and service area. In designating an area agency on aging within the planning and service area or within any unit of general purpose local government designated as a planning and service area the State shall give preference to an established office on aging, unless the State agency finds that no such office within the planning and service area will have the capacity to carry out the area plan.

(d) Publication for review and comment; contents

The publication for review and comment required by paragraph (2)(C) of subsection (a) shall include—

- (1) a descriptive statement of the formula's assumptions and goals, and the application of the

definitions of greatest economic or social need,

- (2) a numerical statement of the actual funding formula to be used,
- (3) a listing of the population, economic, and social data to be used for each planning and service area in the State, and
- (4) a demonstration of the allocation of funds, pursuant to the funding formula, to each planning and service area in the State.

§3028. Cost of administration of State plans

(a) Activities constituting administration; use of excess funds to supplement cost of administration of area plans; election to pay costs from sums received for administration of area plans

(1) Amounts available to States under subsection (b) may be used to make grants to States for paying such percentages as each State agency determines, but not more than 75 percent, of the cost of the administration of its State plan, including the preparation of the State plan, the evaluation of activities carried out under such plan, the collection of data and the carrying out of analyses related to the need for supportive services, nutrition services, and multipurpose senior centers within the State, and dissemination of information so obtained, the provision of short-term training to personnel of public or nonprofit private agencies and organizations engaged in the operation of programs authorized by this chapter, and the carrying out of demonstration projects of statewide significance relating to the initiation, expansion, or improvement of services assisted under this subchapter.

(2) Any sums available to a State under subsection (b) for part of the cost of the administration of its State plan which the State determines is not needed for such purpose may be used by the State to supplement the amount available under section 3024(d)(1)(A) of this title to cover part of the cost of the administration of area plans.

(3) Any State which has been designated a single planning and service area under section 3025(a)(1)(E) of this title covering all, or substantially all, of the older individuals in such State, as determined by the Assistant Secretary, may elect to pay part of the costs of the administration of State and area plans either out of sums received under this section or out of sums made available for the administration of area plans under section 3024(d)(1)(A) of this title, but shall not pay such costs out of sums received or allotted under both such sections.

(i) 5 percent of the total amount of the allotments made to a State under sections 3024(a)(1) and 3030s–1(f) of this title; or

(ii) \$300,000; and

(B) in the case of Guam, American Samoa, the United States Virgin Islands, the Trust Territory of the Pacific Islands, and the Commonwealth of the Northern Mariana Islands, the greater of 5 percent of such total amount or \$75,000;

shall be available to such State to carry out the purposes of this section.

(A) except as provided in subparagraph (B), the greater of—

(i) 5 percent of the total amount of the allotments made to a State under sections 3024(a)(1) and 3030s–1(f) of this title; or

Any such application shall be transmitted in such form, and according to such procedures, as the Assistant Secretary may require, except that such application may not be made as part of, or as an amendment to, the State plan.

(B) The Assistant Secretary may approve any application transmitted by a State under subparagraph (A) if the Assistant Secretary determines, based upon a particularized showing of need, that—

(i) the State will be unable to fully and effectively administer its State plan and to carry out programs and projects authorized by this subchapter unless such additional amounts are made available by the Assistant Secretary;

(ii) the State is making full and effective use of its allotment under paragraph (1) and of the personnel of the State agency and area agencies designated under section 3025(a)(2)(A) of this title in the administration of its State plan in accordance with subsection (a); and

(iii) the State agency and area agencies on aging of such State are carrying out, on a full-time basis, programs and activities which are in furtherance of the objectives of this chapter.

(C) The Assistant Secretary may approve that portion of the amount requested by a State in its application under subparagraph (A) which the Assistant Secretary determines has been justified in such application.

(4)(A) Notwithstanding any other provision of this subchapter and except as provided in subparagraph (B), with respect to funds received by a State and attributable to funds appropriated under paragraph (1) or (2) of section 3023(b) of this title, the State may elect to transfer not more than 40 percent of the funds so received between subpart I and subpart II of part C, for use as the State considers appropriate to meet the needs of the area served. (C) A State's request for a waiver under subparagraph (B) shall—

to in subparagraph (A), that the State requires to satisfy the need for services under subpart I or II of part C; and

(iv) not include a request for a waiver with respect to an amount if the transfer of the amount would jeopardize the appropriate provision of services under subpart I or II of part C.

§3030c–2. Consumer contributions

(a) Cost sharing

(1) In general

Except as provided in paragraphs (2) and (3), a State is permitted to implement cost sharing for all services funded by this chapter by recipients of the services.

(2) Exception

The State is not permitted to implement the cost sharing described in paragraph (1) for the following services:

(A) Information and assistance, outreach, benefits counseling, or case management services.

(B) Ombudsman, elder abuse prevention, legal assistance, or other consumer protection services.

(C) Congregate and home delivered meals.

(D) Any services delivered through tribal organizations.

(3) Prohibitions

A State or tribal organization shall not permit the cost sharing described in paragraph (1) for any services delivered through tribal organizations. A State shall not permit cost sharing by a low-income older individual if the income of such individual is at or below the Federal poverty line. A State may exclude from cost sharing low-income individuals whose incomes are above the Federal poverty line. A State shall not consider any assets, savings, or other property owned by older individuals when defining low-income individuals who are exempt from cost sharing, when creating a sliding scale for the cost sharing, or when seeking contributions from any older individual.

(4) Payment rates

If a State permits the cost sharing described in paragraph (1), such State shall establish a sliding scale, based solely on individual income and the cost of delivering services.

(5) Requirements

If a State permits the cost sharing described in paragraph (1), such State shall require each area agency on aging in the State to ensure that each service provider involved, and the area agency on aging, will—

- (A) protect the privacy and confidentiality of each older individual with respect to the declaration or nondeclaration of individual income and to any share of costs paid or unpaid by an individual;
- (B) establish appropriate procedures to safeguard and account for cost share payments;
- (C) use each collected cost share payment to expand the service for which such payment was given;
- (D) not consider assets, savings, or other property owned by an older individual in determining whether cost sharing is permitted;
- (E) not deny any service for which funds are received under this chapter for an older individual due to the income of such individual or such individual's failure to make a cost sharing payment;
- (F) determine the eligibility of older individuals to cost share solely by a confidential declaration of income and with no requirement for verification; and
- (G) widely distribute State created written materials in languages reflecting the reading abilities of older individuals that describe the criteria for cost sharing, the State's sliding scale, and the mandate described under subparagraph (E).

(6) Waiver

An area agency on aging may request a waiver to the State's cost sharing policies, and the State shall approve such a waiver if the area agency on aging can adequately demonstrate that—

- (A) a significant proportion of persons receiving services under this chapter subject to cost sharing in the planning and service area have incomes below the threshold established in State policy; or
- (B) cost sharing would be an unreasonable administrative or financial burden upon the area agency on aging.

(b) Voluntary contributions

(1) In general

Voluntary contributions shall be allowed and may be solicited for all services for which funds are received under this chapter if the method of solicitation is noncoercive. Such contributions shall be encouraged for individuals whose self-declared income is at or above 185 percent of the poverty line, at contribution levels based on the actual cost of services.

(2) Local decision

The area agency on aging shall consult with the relevant service providers and older individuals in agency's planning and service area in a State to determine the best method for accepting voluntary contributions under this subsection.

(3) Prohibited acts

The area agency on aging and service providers shall not means test for any service for which contributions are accepted or deny services to any individual who does not contribute to the cost of the service.

(4) Required acts

The area agency on aging shall ensure that each service provider will—

- (A) provide each recipient with an opportunity to voluntarily contribute to the cost of the service;
- (B) clearly inform each recipient that there is no obligation to contribute and that the contribution is purely voluntary;
- (C) protect the privacy and confidentiality of each recipient with respect to the recipient's contribution or lack of contribution;
- (D) establish appropriate procedures to safeguard and account for all contributions; and

(E) use all collected contributions to expand the service for which the contributions were given and to supplement (not supplant) funds received under this chapter.

(c) Participation

(1) In general

The State and area agencies on aging, in conducting public hearings on State and area plans, shall solicit the views of older individuals, providers, and other stakeholders on implementation of cost-sharing in the service area or the State.

(2) Plans

Prior to the implementation of cost sharing under subsection (a), each State and area agency on aging shall develop plans that are designed to ensure that the participation of low-income older individuals (with particular attention to low-income older individuals, including low-income minority older individuals, older individuals with limited English proficiency, and older individuals residing in rural areas) receiving services will not decrease with the implementation of the cost sharing under such subsection.

(d) Evaluation

Not later than 1 year after November 13, 2000, and annually thereafter, the Assistant Secretary shall conduct a comprehensive evaluation of practices for cost sharing to determine its impact on participation rates (with particular attention to low-income older individuals, including low-income minority older individuals, older individuals with limited English proficiency, and older individuals residing in rural areas). If the Assistant Secretary finds that there is a disparate impact upon low-income or minority older individuals or older individuals residing in rural areas in any State or region within the State regarding the provision of services, the Assistant Secretary shall take corrective action to assure that such services are provided to all older individuals without regard to the cost sharing criteria.

(e) Response to area agencies on aging

(1) In general

Upon request from an area agency on aging, the State shall make available any policies or guidance pertaining to policies established under this section.

(2) Rule of construction

Nothing in paragraph (1) shall require a State to develop policies or guidance pertaining to policies established under this section.

(1) Governor

For a State to be eligible to receive an allotment under section 3056d of this title, the Governor of the State shall submit to the Secretary for consideration and approval, a single State plan (referred to in this subchapter as the "State plan") that outlines a 4-year strategy for the statewide provision of community service employment and other authorized activities for eligible individuals under this subchapter. Before a proposal for a grant under this subchapter for any fiscal year is submitted to the Secretary, the Governor of the State in which projects are proposed to be conducted under such grant shall be afforded a reasonable opportunity to submit to the Secretary—

In lieu of the plan described in paragraph (1), a State may develop and submit a combined State plan in accordance with section 103 of the Workforce Innovation and Opportunity Act (29 U.S.C.

3113). For a State that obtains approval of such a combined State plan, that section 103 shall apply in lieu of this subsection and a reference in any other provision of this subchapter (other than this subsection) to a State plan shall be considered to be a reference to that combined State plan.

(7) Disruptions

The failure to satisfy a responsibility test with respect to any 1 factor that is listed in paragraph (4), excluding those listed in subparagraphs (A) and (B) of such paragraph, does not establish that the applicant is not responsible unless such failure is substantial or persists for 2 or more consecutive years.

(4) Test

The responsibility tests include review of the following factors:

(A) Unsuccessful efforts by the applicant to recover debts, after 3 demand letters have been sent, that are established by final agency action, or a failure to comply with an approved repayment plan.

(B) Established fraud or criminal activity of a significant nature within the organization or agency involved.

(C) Serious administrative deficiencies identified by the Secretary, such as failure to maintain a financial management system as required by Federal rules or regulations.

(G) Failure to return a grant closeout package or outstanding advances within 90 days of the grant expiration date or receipt of the closeout package, whichever is later, unless an extension has been requested and granted.

(H) Failure to submit required reports.

(I) Failure to properly report and dispose of Government property as instructed by the Secretary.

(J) Failure to have maintained effective cash management or cost controls resulting in excess

(M) Final disallowed costs in excess of 5 percent of the grant or contract award if, in the judgment of the grant officer, the disallowances are egregious.

(N) Failure to establish a mechanism to resolve a subrecipient's audit in a timely fashion.

(5) Determination

Applicants that are determined to be not responsible shall not be selected as grantees.

(f) Minority-serving grantees

The Secretary may not promulgate rules or regulations affecting grantees in areas where a substantial population of minority individuals exists, that would significantly compromise the ability of the grantees to serve their targeted population of minority older individuals.

(a) Authority to make grants

In order to encourage and assist the timely acquisition of land planned to be utilized in the future for public purposes, the Secretary is authorized to make grants to States and local public bodies and agencies to assist in financing the acquisition of a fee simple estate or other interest in such land.

(b) Maximum amount of grants

The amount of any grant made under this section shall not exceed the aggregate amount of reasonable interest charges on the loans or other financial obligations incurred to finance the acquisition of such land for a period not in excess of the lesser of (1) five years from the date of acquisition of such land or (2) the period of time between the date on which the land was acquired and the date its use began for the purpose for which it was acquired: *Provided*, That where all or any portion of the cost of such land is not financed through borrowings, the amount of the grant shall be computed on the basis of the aggregate amount of reasonable interest charges that the Secretary determines would have been required.

(c) Utilization of land for public purpose within reasonable period of time

No grant shall be made under this section unless the Secretary determines that the land will be utilized for a public purpose within a reasonable period of time and that such utilization will contribute to economy, efficiency, and the comprehensively planned development of the area. The Secretary shall in all cases require that land acquired with the assistance of a grant under this section be utilized for a public purpose within five years after the date on which a contract to make such grant is entered into, unless the Secretary determines that due to unusual circumstances a longer period of time is necessary and in the public interest.

(d) Diversion of land; repayment; interim use

No land acquired with assistance under this section shall, without approval of the Secretary, be diverted from the purpose originally approved. The Secretary shall approve no such diversion unless he finds that the diversion is in accord with the then applicable comprehensive plan for the area. In cases of a diversion of land to other than a public purpose, the Secretary may require repayment of the grant, or substitution of land of approximately equal fair market value, whichever he deems appropriate. An interim use of the land for a public or private purpose in accordance with standards prescribed by the Secretary, or approved by him, shall not constitute a diversion within the meaning of this subsection.

(e) Eligibility for other Federal loans or grant programs

Notwithstanding any other provision of law, no project for which land is acquired with assistance under this section shall, solely as a result of such advance acquisition, be considered ineligible for the purpose of any other Federal loan or grant program, and the amount of the purchase price paid for the land by the recipient of a grant under this section may be considered an eligible cost for the purpose of such other Federal loan or grant program.

§3121. Findings and declarations

(a) Findings

Congress finds that—

(1) there continue to be areas of the United States experiencing chronic high unemployment, underemployment, outmigration, and low per capita incomes, as well as areas facing sudden and severe economic dislocations because of structural economic changes, changing trade patterns, certain Federal actions (including environmental requirements that result in the removal of economic activities from a locality), and natural disasters;

(2) economic growth in the States, cities, and rural areas of the United States is produced by expanding economic opportunities, expanding free enterprise through trade, developing and

strengthening public infrastructure, and creating a climate for job creation and business development;

(3) the goal of Federal economic development programs is to raise the standard of living for all citizens and increase the wealth and overall rate of growth of the economy by encouraging communities to develop a more competitive and diversified economic base by—

(A) creating an environment that promotes economic activity by improving and expanding public infrastructure;

(B) promoting job creation through increased innovation, productivity, and entrepreneurship; and

(C) empowering local and regional communities experiencing chronic high unemployment and low per capita income to develop private sector business and attract increased private sector capital investment;

(4) while economic development is an inherently local process, the Federal Government should work in partnership with public and private State, regional, tribal, and local organizations to maximize the impact of existing resources and enable regions, communities, and citizens to participate more fully in the American dream and national prosperity;

(5) in order to avoid duplication of effort and achieve meaningful, long-lasting results, Federal, State, tribal, and local economic development activities should have a clear focus, improved coordination, a comprehensive approach, and simplified and consistent requirements; and

(6) Federal economic development efforts will be more effective if the efforts are coordinated with, and build upon, the trade, workforce investment, transportation, and technology programs of the United States.

(b) Declarations

In order to promote a strong and growing economy throughout the United States, Congress declares that—

(1) assistance under this chapter should be made available to both rural- and urban-distressed communities;

(2) local communities should work in partnership with neighboring communities, the States, Indian tribes, and the Federal Government to increase the capacity of the local communities to develop and implement comprehensive economic development strategies to alleviate economic distress and enhance competitiveness in the global economy;

(3) whether suffering from long-term distress or a sudden dislocation, distressed communities should be encouraged to support entrepreneurship to take advantage of the development opportunities afforded by technological innovation and expanding newly opened global markets; and

(4) assistance under this chapter should be made available to promote the productive reuse of abandoned industrial facilities and the redevelopment of brownfields.
